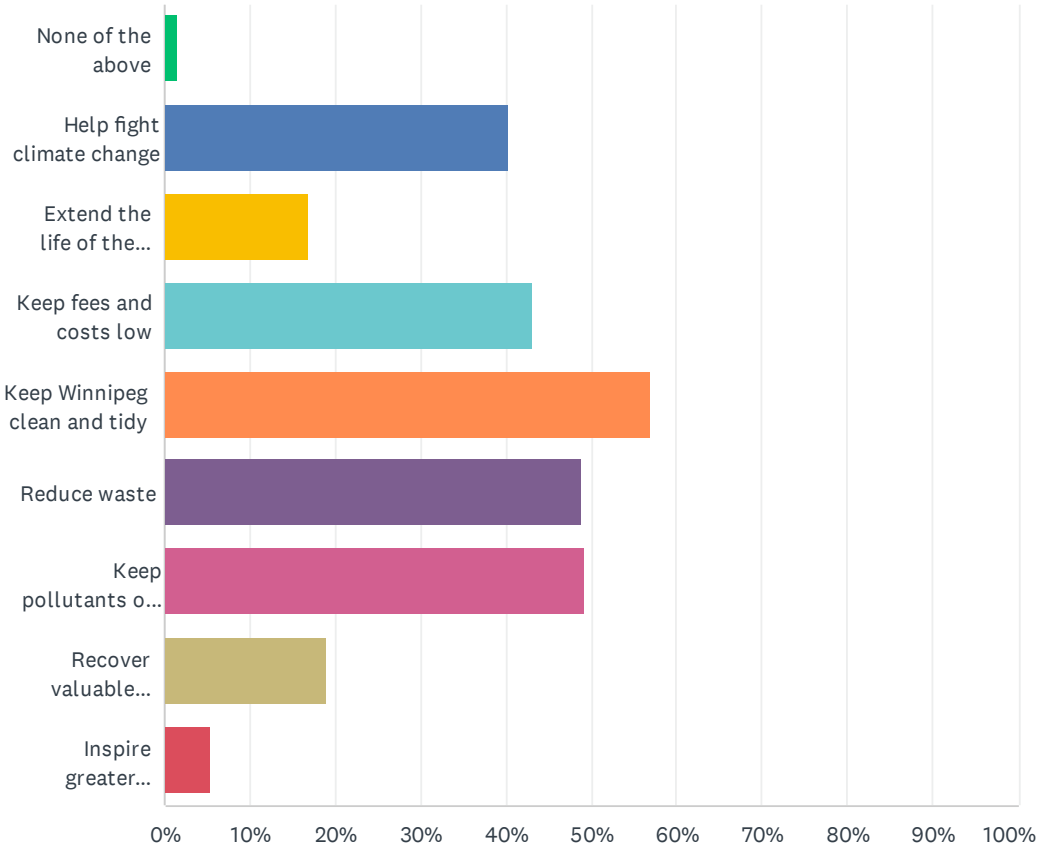
Q2 What are your top priorities for the City's garbage and recycling plan? We recognize all of these may be important. We would like you to choose up to 3 of the most important priorities from your perspective.

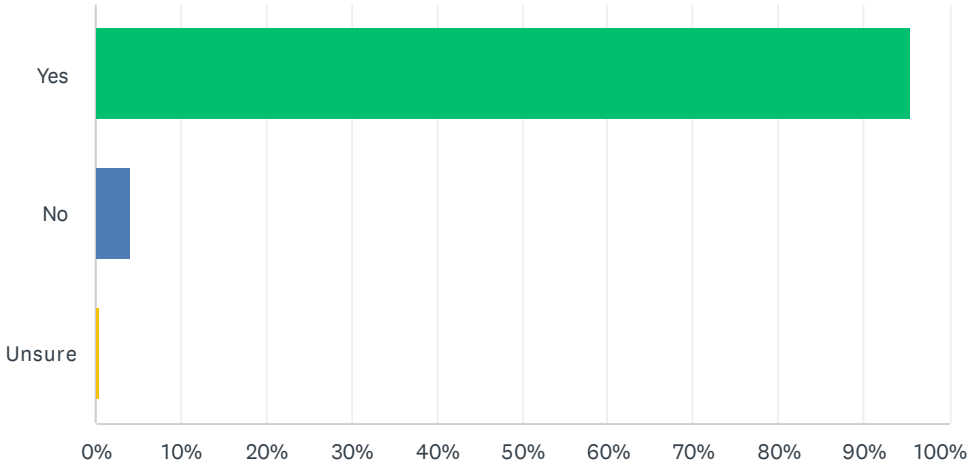
Answered: 9,236 Skipped: 0



ANSWER CHOICES	RESPONSES	
None of the above	1.56%	144
Help fight climate change	40.31%	3,723
Extend the life of the landfill	16.86%	1,557
Keep fees and costs low	43.01%	3,972
Keep Winnipeg clean and tidy	56.90%	5,255
Reduce waste	48.77%	4,504
Keep pollutants out of the air, water and soil	49.31%	4,554
Recover valuable resources	18.99%	1,754
Inspire greater community involvement	5.39%	498
Total Respondents: 9,236		

Q3 Some Winnipeggers place their garbage and recycling in carts (typically single-family homes) while others use large, shared garbage and recycling bins (typically large apartments and condos). Do you currently have garbage and recycling carts like the ones shown below?

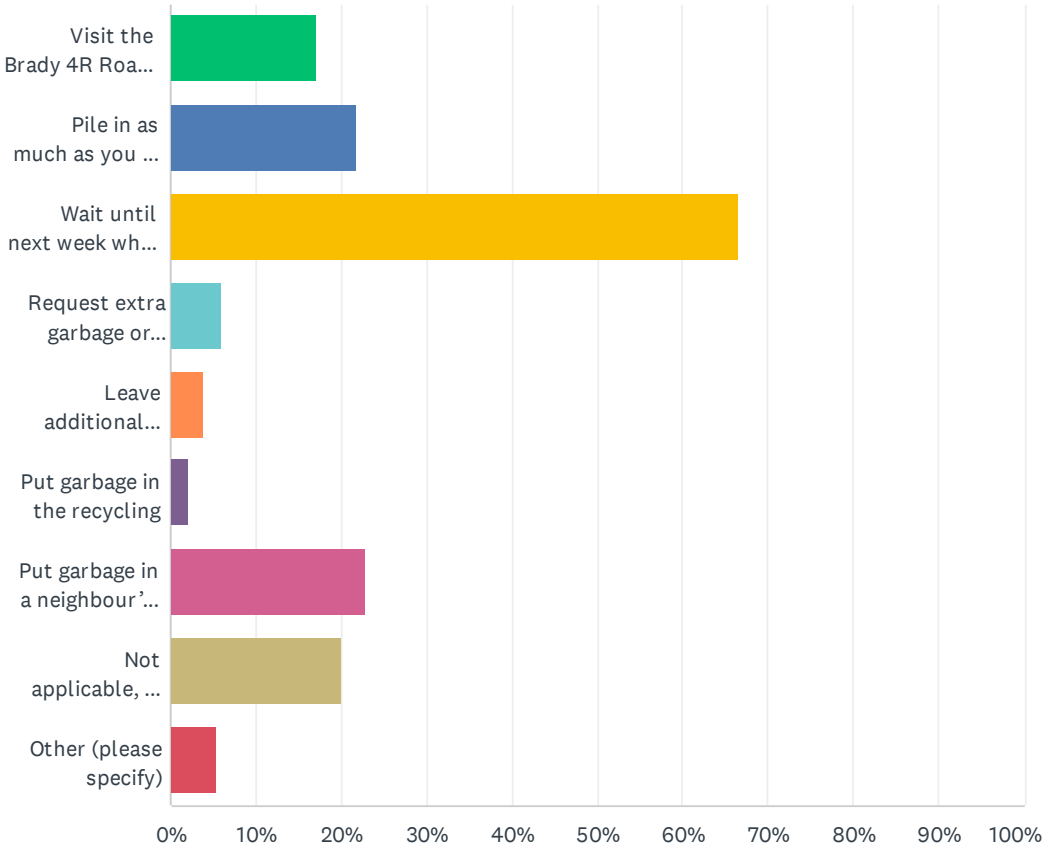
Answered: 9,236 Skipped: 0



ANSWER CHOICES	RESPONSES	
Yes	95.50%	8,820
No	4.10%	379
Unsure	0.40%	37
TOTAL		9,236

Q4 If you have extra garbage that will not fit in your black garbage cart, what do you typically do? (Check all that apply)

Answered: 8,767 Skipped: 469



ANSWER CHOICES	RESPONSES	
Visit the Brady 4R Road Resource Management Facility	17.01%	1,491
Pile in as much as you can into your black garbage cart, leaving the lid open	21.66%	1,899
Wait until next week when your cart might be less full	66.50%	5,830
Request extra garbage or bulky item pick up from the City	6.05%	530
Leave additional garbage bags or items beside your black garbage cart	3.88%	340
Put garbage in the recycling	2.20%	193
Put garbage in a neighbour's cart or bin	22.76%	1,995
Not applicable, our black cart is never full	20.01%	1,754
Other (please specify)	5.35%	469
Total Respondents: 8,767		

#	OTHER (PLEASE SPECIFY)	DATE

1	it would be very rare that our garbage bin would be full	11/30/2023 2:00 PM
2	live in multifamily building	11/30/2023 1:35 PM
3	one person household - extremely rare for cart to be full	11/30/2023 11:22 AM
4	Our cart is full but never over flowing	11/29/2023 7:55 PM
5	Ordered a bigger cart	11/28/2023 8:55 PM
6	While we put out our black bin once a month at the most (even less frequently in the winter when odor is not an issue), along our back lane, most people do the second, fifth and sixth items above. Overflowing bins are the norm, not the exception it seems.	11/28/2023 4:56 PM
7	Seek assistance from family/ friends who live alone	11/28/2023 11:25 AM
8	Very rare occasion, garbage may go out once every 2-3 wks.	11/28/2023 9:07 AM
9	See above	11/27/2023 11:36 AM
10	We only have blue bins, not black and have a dumpster.	11/27/2023 9:30 AM
11	Pay for large bin from private company	11/26/2023 11:17 PM
12	Put garbage in someone's bin with permission	11/26/2023 7:27 PM
13	use neighbours if acetable	11/26/2023 2:58 PM
14	Airbnb next door has used our garbage bins without permission...not appreciated	11/26/2023 1:12 PM
15	We don't need a compost program	11/26/2023 10:06 AM
16	Check with neighbour before putting in their bin	11/26/2023 7:20 AM
17	Rarely have this issue	11/25/2023 5:44 PM
18	Garbage is in a large container (Apt)	11/25/2023 4:44 PM
19	My apartment has a bfi bin	11/25/2023 4:12 PM
20	Live in Apartment Building which collects garbage	11/25/2023 1:15 PM
21	Always ask permission of the neighbour to use their cart	11/25/2023 9:44 AM
22	Request extra bag pick up	11/25/2023 9:39 AM
23	Pay someone to pick up	11/25/2023 9:25 AM
24	Consold with neighbors first!	11/25/2023 8:46 AM
25	Wish city went back to collecting all garbage, cancel expensive contracts.	11/25/2023 7:27 AM
26	My employer has ythe large blue bins for garbage. I may take some there particularly if bulky.	11/25/2023 7:18 AM
27	note I ask neighbor first	11/25/2023 7:04 AM
28	*The cart is never less full, it's always full every week.	11/25/2023 3:52 AM
29	Take it to work and put it in the dumpster	11/24/2023 10:55 PM
30	I currently have 2 of the garbage bins	11/24/2023 8:18 PM
31	Need bigger bins!	11/24/2023 7:22 PM
32	Have the larger bin, no issues	11/24/2023 6:14 PM
33	hire junk removal company	11/24/2023 11:50 AM
34	Take to work	11/24/2023 9:07 AM
35	This almost never happens	11/23/2023 7:42 PM
36	I usually ask my parents’ or sis in law’s who are close to our house	11/23/2023 4:18 PM
37	Our cart is usually almost full, but not overflowing	11/23/2023 1:26 PM

38	with neighbours permission, I have used their bin	11/23/2023 1:11 PM
39	I'll ask first!	11/22/2023 11:18 PM
40	Will ask Neighbour first.	11/22/2023 1:51 PM
41	drop into local community garbage cans	11/22/2023 1:05 PM
42	This ? Makes me think of those families that are missing their daughters	11/22/2023 12:49 AM
43	Ask your neighbour if I can put some garbage in their bins	11/21/2023 8:14 PM
44	Put it in a big recycling or garbage bin	11/21/2023 1:59 PM
45	i gotta be honest i dont know.	11/21/2023 1:54 PM
46	use the 4R dropoff on Pacific	11/21/2023 10:40 AM
47	Purchased a second bin for our household	11/21/2023 9:36 AM
48	Use bfi at work or friends bin	11/21/2023 8:34 AM
49	Manage the bin , compost to our compost pile	11/21/2023 8:31 AM
50	pile in as much as possible with lid closed	11/20/2023 3:23 PM
51	We don't have a garbage cart, we use a communal bin, we only have a recycling cart	11/20/2023 1:02 PM
52	Our garbage bin is rarely full, and when it is full it's not a problem to wait until the next week.	11/20/2023 12:49 PM
53	I actually have a typical blue bin for recycling but also a dumpster for trash. Back when I had two typical carts, I would stick it in a neighbour's bin.	11/20/2023 11:48 AM
54	go on kijiji and find someone to collect	11/20/2023 10:15 AM
55	We've used neighbours bins with their knowledge	11/20/2023 7:16 AM
56	Find a commercial bin	11/19/2023 4:41 PM
57	Pile in as much as possible with lid closed	11/19/2023 4:39 PM
58	not in sungle famiiey dwelling	11/19/2023 3:14 PM
59	Take it to an Industrial Bin	11/19/2023 1:32 PM
60	Rarely full	11/19/2023 9:16 AM
61	Take excess to our company's bin	11/19/2023 8:42 AM
62	Compost in backyard	11/18/2023 8:47 PM
63	Take it to my parents bin	11/18/2023 6:37 PM
64	Use other family members whose isn't full. They never pick up extra bags beside the bin.	11/18/2023 11:07 AM
65	Bring to work.	11/18/2023 9:45 AM
66	I already compostfood waste. A compost bin provided would make a perfect growing space for potatoes.	11/18/2023 8:41 AM
67	If it won't fit, we just put it the recycle bin	11/17/2023 10:29 PM
68	Our cart is seldom full	11/17/2023 8:40 PM
69	If garbage is smelly we would ask if the neighbours have room or go to the dump	11/17/2023 3:46 PM
70	i have the large garbage receptacle	11/17/2023 3:25 PM
71	have paid for private garbage collection but for larger items	11/17/2023 3:22 PM
72	Burn it	11/17/2023 11:10 AM
73	Hire someone to take it away.	11/17/2023 10:13 AM
74	Ask neighbor if can use their bins	11/17/2023 9:52 AM

75	We have 2 bins	11/17/2023 6:54 AM
76	This rarely happens as cart is seldom full	11/17/2023 6:37 AM
77	burn it	11/17/2023 3:22 AM
78	Take to work and use garbage bin there	11/16/2023 11:09 PM
79	I never have too much!	11/16/2023 9:07 PM
80	Throw it in the vacant lot that the methheads use as a dumping ground & although I've contacted 311 multiple times in the last 3 months the city refuses to come clean it up. Even after being contacted & told by the bylaw officers it would be cleaned up. So it's now our community garage dump since the CoW doesn't seem to care anymore. 1363 Notre Dame if anyone actually reads this.	11/16/2023 8:20 PM
81	Pile in as much as I can without the lid being too lifted (maybe 1-2 inches open)	11/16/2023 8:05 PM
82	take to another family members place	11/16/2023 7:47 PM
83	We typically don’t have that much garbage and only put it out twice a month at most	11/16/2023 7:27 PM
84	Ask my parents if they have room in their cart	11/16/2023 6:44 PM
85	Sometimes will go to Prairie Green landfill since it’s closer.	11/16/2023 5:56 PM
86	When neighbor's bin is too full, we invite them to add their stuff to ours.	11/16/2023 5:49 PM
87	put recycling in the garbage	11/16/2023 4:00 PM
88	The extra garbage would pile up too much if there was pickup every 2 weeks everywhere... all the backlanes would be piled up with garbage everywhere and it would stink and attract wildlife to ravage through bags and have leftover food and stuff allover the place. It would not look appealing either as we're trying to present a cleanliness to the communities I feel that would be a step in the opposite direction 100% we need garbage pickup every week. Thank you	11/16/2023 3:58 PM
89	Very rarely full	11/16/2023 3:49 PM
90	Je me rends à l'écocentre situé rue Panet.	11/16/2023 3:45 PM
91	The	11/16/2023 3:27 PM
92	Put in my garage til next week	11/16/2023 3:26 PM
93	Ask neighbour for permission	11/16/2023 3:17 PM
94	rarely full	11/16/2023 2:57 PM
95	Leave additional garbage bags in my garage	11/16/2023 2:24 PM
96	Use rural garbage dump	11/16/2023 2:12 PM
97	bring it to my work dumpster	11/16/2023 1:46 PM
98	Why leave a comment I answered	11/16/2023 1:26 PM
99	Take to work where I have a dumpster	11/16/2023 1:04 PM
100	Put in our garage	11/16/2023 12:55 PM
101	My neighbour lets me use his if necessary.	11/16/2023 12:04 PM
102	Ask my neighbour if I can put extra in theirs. If they say yes, then that's what we do so it's not laying around	11/16/2023 11:58 AM
103	Undercovers wish to illegally park on our road to caution neighbourhood pedo? Not on our watch	11/16/2023 11:51 AM
104	Apartment bin	11/16/2023 11:41 AM
105	Take it to a dump	11/16/2023 10:58 AM
106	With their permission	11/16/2023 10:02 AM

107	It almost never happens	11/16/2023 9:27 AM
108	With their permission	11/16/2023 9:05 AM
109	Garbage isn't usually full.	11/16/2023 7:27 AM
110	Every week both bins are full to the top.	11/16/2023 2:07 AM
111	Drop off in large dumpster bin	11/16/2023 1:35 AM
112	Use a neighbours cart with permission only	11/15/2023 11:28 PM
113	Usually never even half full, but once a year maybe, will wait till following week if garbage is full.	11/15/2023 9:41 PM
114	Other	11/15/2023 9:06 PM
115	Take to work and put in large bin	11/15/2023 8:48 PM
116	Visit a bfi bin near by	11/15/2023 8:44 PM
117	Since I live near an apartment, I have previously thrown oversized items in their dumpster	11/15/2023 8:32 PM
118	Give to my parents or grandparents to put in their bins	11/15/2023 8:20 PM
119	Take to work and use their private collection.	11/15/2023 8:07 PM
120	my neighbour and I share sometimes with each others permission	11/15/2023 8:06 PM
121	I use my mother’s bin since hers usually near empty	11/15/2023 8:02 PM
122	Neighbour's cart if they have room.	11/15/2023 7:39 PM
123	Neighbor's cart if they have room	11/15/2023 7:39 PM
124	Our cart is rarely full, and our neighbours don't mind if we use theirs from time to time and vice versa	11/15/2023 7:00 PM
125	All of our neighbors will assist each other on waste or recycling	11/15/2023 6:56 PM
126	Have used the neighbouring condo large bins with permission to put extra waste in	11/15/2023 6:40 PM
127	Have 2 garbage bins	11/15/2023 6:17 PM
128	Throw on street	11/15/2023 6:00 PM
129	I never have more then what my cart can hold	11/15/2023 5:55 PM
130	Live in a condo building and use a large metal container; question N/A	11/15/2023 5:54 PM
131	We have and pay for an extra cart	11/15/2023 5:51 PM
132	Saw	11/15/2023 5:21 PM
133	Take it to work and use the large industrial bin	11/15/2023 5:16 PM
134	We have blue recycling bins, but use a large dumpster for garbage	11/15/2023 3:53 PM
135	8	11/15/2023 3:44 PM
136	Workplace dumpster	11/15/2023 3:23 PM
137	Almost not applicable; our cart is rarely ever full.	11/15/2023 3:23 PM
138	We never have more than one bag of garbage	11/15/2023 3:15 PM
139	Throw garbage around the bins loosley	11/15/2023 3:06 PM
140	Fill cart to brim with lid closed	11/15/2023 3:03 PM
141	Pile as much as I can into the black garbage cart w/o leaving lid open	11/15/2023 2:32 PM
142	Our apartment has blue bins and dumpsters.	11/15/2023 2:00 PM
143	Place in a neighbour’s bin with their permission	11/15/2023 1:54 PM

144	Take it to the camp ground bin	11/15/2023 1:54 PM
145	I take my extra garbage to my country property to dispose of.	11/15/2023 1:41 PM
146	no recyling cart stolen long ago refuse to pay for replacement	11/15/2023 1:36 PM
147	Use community garbage bins	11/15/2023 1:22 PM
148	condo has own large bin for occupants	11/15/2023 1:16 PM
149	We have the larger garbage and recycling bins	11/15/2023 1:07 PM
150	Private junk removal	11/15/2023 12:44 PM
151	Drive it over to a nearby relative’s home and place it in their bin if it’s not full.	11/15/2023 12:27 PM
152	Rarely is the black cart full. If it will be I'll hold back certain items until next garbage collection day.	11/15/2023 11:56 AM
153	Burn it.	11/15/2023 11:46 AM
154	Wouldn't leave food items.till the following week	11/15/2023 11:41 AM
155	Wait until the garbage has been picked up then throw it out	11/15/2023 11:38 AM
156	Throw out recycling	11/15/2023 11:17 AM
157	People will throw garbage or dump garbage in empty lots around city	11/15/2023 9:58 AM
158	Rent large waste bin (i.e. winbins/ bagster) - renovation waste	11/15/2023 9:50 AM
159	Take it to my mothers house and use her bin	11/15/2023 9:30 AM
160	Place the overflow garbage in a bin on the curb	11/15/2023 9:24 AM
161	This rarely happens	11/15/2023 9:23 AM
162	Pile as much as I can and once this is picked up any additional garbage then whatever cannot be put in tht day is saved until the cart is emptied and put into the black garbage cart for the next week. If there is not much extra I will ask the neighbor if I can use his cart. nl also	11/15/2023 9:20 AM
163	Large commercial bin	11/15/2023 8:48 AM
164	Every week I need to do this.	11/15/2023 8:42 AM
165	In the ditch	11/15/2023 8:31 AM
166	Garbage men are VERY CARELESS	11/15/2023 8:11 AM
167	Use bin at work	11/15/2023 8:10 AM
168	The bin is usually full each week and we do our best to make sure the lid isn't fully open.	11/15/2023 8:06 AM
169	Options are always available	11/15/2023 8:03 AM
170	Take it work and through it in the big bin.	11/15/2023 8:01 AM
171	Très rarement mon chariot est plein. Lorsque c’est le cas, c’est ce que je fais.	11/15/2023 7:48 AM
172	Put recycling in garbage bin	11/15/2023 7:47 AM
173	Garbage bin is full after 1 week, it would be unacceptable to change to a 2 week cycle	11/15/2023 7:07 AM
174	We have only big garbage bins	11/15/2023 7:05 AM
175	I have had neighbors use mine without permission	11/15/2023 7:00 AM
176	Dump run	11/15/2023 6:38 AM
177	Has never happened. Not a lot of garbage from my home!	11/15/2023 6:07 AM
178	Both bins are full every week. Put this survey on the next re-election. I wound NEVER have voted for Scott Gillingham or requested his sign!!!	11/15/2023 5:07 AM
179	Use work dumpster	11/15/2023 4:48 AM

180	Take it to another dump outside city where we have a property	11/15/2023 2:59 AM
181	Only have the blue recycling bin as I live in an apartment.	11/15/2023 2:12 AM
182	Never generated enough garbage to fill bin	11/15/2023 1:50 AM
183	I've never put garbage in other peoples bins but other people have put it in mine. They've also put garbage in my recycling bin.	11/15/2023 12:41 AM
184	Bins aren't large enough	11/14/2023 11:32 PM
185	I'll	11/14/2023 11:18 PM
186	I will take garbage from neighbor's when mine is low to ensure I don't get skipped	11/14/2023 11:07 PM
187	Cry	11/14/2023 10:56 PM
188	Put my extra garbage in the nearest dumpster bin.	11/14/2023 10:46 PM
189	Find a large bin that is open.	11/14/2023 10:10 PM
190	It is rarely full. Only after construction projects.	11/14/2023 9:56 PM
191	Bring my cardboard boxes	11/14/2023 9:33 PM
192	Take extra to work bin	11/14/2023 9:09 PM
193	Take to work garbage bin or use my neighbours if his is empty	11/14/2023 8:59 PM
194	Take it to my work	11/14/2023 8:33 PM
195	Only have carts for recycling. Garbage is a large bin. If it's full, which is rare, I will usually wait until the collection date	11/14/2023 8:09 PM
196	Bring to brady landfill	11/14/2023 7:42 PM
197	Ask a friend or family with space to take it	11/14/2023 7:32 PM
198	Do not have a black caet.	11/14/2023 7:30 PM
199	Keep in yard because you can't stuff the bins.	11/14/2023 7:30 PM
200	I throw in my neighbour's bin	11/14/2023 7:27 PM
201	Throw it in a ditch (At least that is what most people do)	11/14/2023 7:25 PM
202	Use my neighbour's bin	11/14/2023 7:20 PM
203	Bring to my husband's work	11/14/2023 7:19 PM
204	Condo	11/14/2023 6:58 PM
205	Hold onto it for the next week's pick-up.	11/14/2023 5:43 PM
206	Illegally dump it all somewhere else, which is exactly what is going to happen if you retards go through with this.	11/14/2023 5:06 PM
207	|Use large apartment garbage bin	11/14/2023 5:00 PM
208	Use other family members	11/14/2023 3:47 PM
209	I usually fill 1 bin and NEED it emptied EVERY WEEK.	11/14/2023 3:05 PM
210	Dump in construction BFI bins	11/14/2023 3:04 PM
211	throw it in the alley	11/14/2023 2:46 PM
212	ask my neighbors if I can use theirs if not full	11/14/2023 2:08 PM
213	use another family members if they have room	11/14/2023 2:02 PM
214	Live in condo	11/14/2023 1:44 PM
215	Only had this issue a couple times, but with bi-weekly pickups it could become a problem	11/14/2023 1:31 PM
216	BFI pick up	11/14/2023 1:24 PM

217	Our condominium has large garbage bins that are shared and 10 smaller blue recycling bins.	11/14/2023 1:14 PM
218	take it to work BFI bin	11/14/2023 12:50 PM
219	call junk removal service	11/14/2023 12:49 PM
220	We have a second larger black bin for overflow	11/14/2023 12:34 PM
221	Don’t have a car, not paying for extra pickups , so hold on till the next week. Small yard, piles up quickly. No guarantee that garbage will be picked up regardless. Service is pretty spotty.	11/14/2023 12:31 PM
222	The regular collection of garbage often leaves one or 2 bags behind in my bin. Very annoying. I dislike it when pedestrians drop their dog waste bags in my personal garbage bin or in park garbage bins. It is very unsanitary and smelly.	11/14/2023 12:30 PM
223	Use BFI in apartment behind us	11/14/2023 11:10 AM
224	Bring it to Brady myself	11/14/2023 10:19 AM
225	If we have construction waste, we will bring it to the Brady landfill	11/14/2023 10:11 AM
226	I average 75% full every week. I waited for two week pick up I would need a second cart but don't have the room	11/14/2023 10:03 AM
227	Some weeks cart is very full, other weeks not. Sometimes put kitchen garbage in freezer to keep it not-stinky till the following week.	11/14/2023 9:49 AM
228	But ask first and the favor is reciprocated	11/14/2023 9:14 AM
229	Put garbage in neighbour's bin, with their permission.	11/14/2023 8:53 AM
230	order a larger bin	11/14/2023 8:51 AM
231	ASK a neighbour if they have extra room - but having a full black cart is rare!	11/14/2023 8:47 AM
232	Cart is full but never overflowing	11/14/2023 8:16 AM
233	We typically only put out garbage every 2-3 weeks	11/14/2023 8:15 AM
234	Live in an apartment	11/14/2023 8:14 AM
235	Drive garbage to family members bins	11/14/2023 8:11 AM
236	You may run into issues with this two week pick up works for small communities but large cities is not viable due to our increasing population and multiple families living together now. You will end up having twice the garbage to pick up and no one will attend other facilities to dump over flows to your other sites. It will be hard to change peoples views unless the city is going to supply extra bins but the you have an added cost and longer pickups during the collection days if two weeks	11/14/2023 8:09 AM
237	Our black cart is very rarely full	11/14/2023 7:24 AM
238	Put in neighbor's cart with their permission	11/14/2023 7:23 AM
239	place it in the neighbor's bin	11/14/2023 6:52 AM
240	hire a service	11/14/2023 6:51 AM
241	find a way to donate or sell the item	11/14/2023 6:49 AM
242	Find the closest dumpster. Usually at a townhouse complex	11/14/2023 6:43 AM
243	please ask same question of blue bin	11/14/2023 6:23 AM
244	find other means off disposal	11/14/2023 6:17 AM
245	Ask friends or family if they have space.	11/14/2023 6:04 AM
246	Most of time we have hardly any garbage but with neighbours permission we put in theirs or they put in ours.	11/14/2023 12:39 AM
247	Take to a bin elsewhere with permission from owners	11/14/2023 12:33 AM

248	Put it in the BFI bin	11/13/2023 11:35 PM
249	Place excess garbage in larger bins at an apartment.	11/13/2023 11:25 PM
250	I can't drive, so taking garage all the way to landfill is not accessible.	11/13/2023 11:04 PM
251	If I use a neighbour’s cart it is with permission	11/13/2023 10:55 PM
252	use someone's commercial bin	11/13/2023 10:06 PM
253	Hire a person that picks up extra g\garbage/recycling and take to Brady landfill	11/13/2023 9:59 PM
254	Take/dump at work place	11/13/2023 9:56 PM
255	It differs week to week but ALWAYS need garbage and recycling picked up every week.	11/13/2023 9:54 PM
256	Hire someone to take it away	11/13/2023 9:45 PM
257	Hire garbage pick up	11/13/2023 8:38 PM
258	Step on it crush it as much as I can. Crush my garbage as much as i can. Bi weekly pick up will not allow for this.	11/13/2023 8:37 PM
259	Chop it up	11/13/2023 8:22 PM
260	Hire JunkRUs	11/13/2023 8:18 PM
261	Will cut up bulky items to fit.	11/13/2023 8:18 PM
262	use a private garbage pickup company	11/13/2023 7:47 PM
263	Input my garbage out in cooler weather maybe every 2-3 weeks	11/13/2023 7:27 PM
264	hire junk removal	11/13/2023 7:22 PM
265	Ask neighbors to use their bin.	11/13/2023 6:35 PM
266	Pack the bin jammed full.	11/13/2023 5:57 PM
267	Hire a junk removal company there is never enough room in the bins	11/13/2023 5:53 PM
268	Sometimes i put my cart on the other side of the lane and when the guy comes I fill it back up for when he comes back fill	11/13/2023 5:33 PM
269	Use my employers dumpster	11/13/2023 5:24 PM
270	Rarely full	11/13/2023 4:56 PM
271	Take to cottage dump	11/13/2023 4:56 PM
272	I don't appreciate being charged for recycling bin when all I use it for since it's inception as a storage bin for my garden hose! What's useful for one household is not useful for another and should be the option of the homeowner weather or not to have it or not and not be a mandatory charge on water & Waste utility bills!!!	11/13/2023 4:39 PM
273	Bins are way to small.	11/13/2023 4:37 PM
274	deposit in large garbage bin at work	11/13/2023 4:28 PM
275	break down items , I can fit much more in this way	11/13/2023 4:28 PM
276	We only have blue and green carts	11/13/2023 4:00 PM
277	Pay for the larger bins	11/13/2023 3:54 PM
278	Most time we're able to put our garbage out by weekly. Only on holidays or bigger events may we have to really fill our bin and have a bag that would have to wait till the following week.	11/13/2023 3:51 PM
279	using creativity	11/13/2023 3:50 PM
280	Sometimes I use my neighbour's bin, BUT ONLY after asking. This question makes it seem like you're being sneaky. Too ambiguous.	11/13/2023 3:48 PM
281	Put in garbage bin at moms apartment	11/13/2023 3:44 PM

282	Put it in the garbage bin at work.	11/13/2023 3:22 PM
283	Neighbour's bin with consent	11/13/2023 3:20 PM
284	This system of weekly pickbup is finally working very well.	11/13/2023 3:10 PM
285	This happens extremely seldom.	11/13/2023 2:52 PM
286	Only fill up neighbour's bin with permission	11/13/2023 2:41 PM
287	ask the neighbours first before using their cart	11/13/2023 2:21 PM
288	We use a commercial compost service so seldom have a full garbage bin	11/13/2023 2:16 PM
289	We'd always make sure our carbage were picked up on schedule, so we don't have extra garbage on bins and lids are always closed	11/13/2023 2:09 PM
290	Family of 5 with 2 dogs. We had to upgrade both bins to larger option. We were constantly playing catch-up with garbage and recycling.	11/13/2023 1:47 PM
291	I take it to the backlane dumpster	11/13/2023 1:43 PM
292	leave it in the yard	11/13/2023 1:41 PM
293	We have 3 black carts, we rarely fill 2, extremely rarely fill 3	11/13/2023 1:37 PM
294	Curse bitterly at the City of Winnipeg's poor service	11/13/2023 1:32 PM
295	I do not live in a single family household - my apartment has a large bin for garbage.	11/13/2023 1:20 PM
296	Ask people to take to the place to drop off	11/13/2023 12:46 PM
297	I m a single householder. No much garbage	11/13/2023 12:46 PM
298	Have someone cart it away	11/13/2023 12:24 PM
299	Put garbage in neighbor's bin only on pick-up day if they have room	11/13/2023 11:55 AM
300	One week is all we can do. It’s usually full. So is the recycling which I’m sure mostly goes in the garbage.	11/13/2023 11:53 AM
301	Please note: I only put in a neighbour's bin with their permission, they would do the same with us.	11/13/2023 11:52 AM
302	Take garbage to our commercial property	11/13/2023 11:47 AM
303	We will wait till next week but this does not happen often because we reduce, reuse and recycle as much as we can. We also compost food waste.	11/13/2023 11:47 AM
304	call a private junk remover	11/13/2023 11:39 AM
305	Drop off at family	11/13/2023 11:36 AM
306	Drop off bulky items (if applicable) at local 4R Depot	11/13/2023 11:03 AM
307	Sometimes may get my dad to put a bag in his generally at holiday time or when renovating	11/13/2023 10:57 AM
308	Use neighbours cart wth their permission	11/13/2023 10:56 AM
309	Burn it.	11/13/2023 10:53 AM
310	I am good with what we have right now	11/13/2023 10:53 AM
311	Place in a covered shelter in my back yard. My Tuxedo neighbours are not big fans of it.	11/13/2023 10:35 AM
312	Apartmet building so have large garbage bins and samll blue recycling bins	11/13/2023 10:24 AM
313	Put in vehicle and find a dumpster	11/13/2023 10:21 AM
314	Find the nearest commercial dumpster	11/13/2023 10:08 AM
315	I ask neighbour first	11/13/2023 9:52 AM
316	Have a second large bin	11/13/2023 9:49 AM

317	Some weeks the Bins are too small for job.	11/13/2023 9:48 AM
318	visit drop-off on Pacific Ave.	11/13/2023 9:48 AM
319	Use neighbor's bun with permission	11/13/2023 9:42 AM
320	Find a garbage bin	11/13/2023 9:39 AM
321	Paid for excess garbage	11/13/2023 9:39 AM
322	Take it to work	11/13/2023 9:29 AM
323	Fit as much into bin but I don't leave the lid open	11/13/2023 9:28 AM
324	Private junk removal	11/13/2023 9:26 AM
325	Use a commercial bin	11/13/2023 9:18 AM
326	I have access to a bin an additional large bin at work	11/13/2023 9:17 AM
327	Use neighbor’s cart with permission	11/13/2023 9:14 AM
328	I pick up dumped garbage around my area and put it into my bin	11/13/2023 9:13 AM
329	I put in the BFI thats across the street	11/13/2023 8:56 AM
330	break up if possible	11/13/2023 8:41 AM
331	Leave some out for the next week.	11/13/2023 8:38 AM
332	use bins at other family members house	11/13/2023 8:37 AM
333	Never extra garbage	11/13/2023 8:26 AM
334	Not sure if this question is asking about the size or the amount of garbage. I don't remember ever having a large amount but have discussed with neighbours about sharing our nearly empty carts do try to make the city garbage (or recycle) collection more efficient or to offer they use my cart if they are ever in that situation. if I have larger items, I either take them to Brady or break them down to fit	11/13/2023 8:26 AM
335	Take garbage to whiteshell garbage bins	11/13/2023 8:21 AM
336	Put garbage in the large bin at my workplace.	11/13/2023 8:17 AM
337	Take to work to the bfi	11/13/2023 7:50 AM
338	I will typically put beside my cart. Sometimes it is picked up, sometimes not. If it's not I will wait for next week.	11/13/2023 7:45 AM
339	Bring it to large bins at work	11/13/2023 7:31 AM
340	The existing bins are too small for a family of 5	11/13/2023 7:21 AM
341	Ask neigbours if they have room in their cart	11/13/2023 7:17 AM
342	Ask neighbours if have room in their bin	11/13/2023 7:16 AM
343	Na	11/13/2023 6:59 AM
344	bring to the dump	11/13/2023 6:58 AM
345	Check if a friend has extra space in their bin	11/13/2023 6:47 AM
346	Engage neighbours	11/13/2023 6:46 AM
347	Ask a neighbor if I can use theirs	11/13/2023 6:35 AM
348	Have not had more garbage than would fit in the container	11/13/2023 6:21 AM
349	Drop extra bags at in laws house	11/13/2023 5:58 AM
350	Fit as much as we can in and leave out the non-perishables and hang onto those if we can't fit everything	11/13/2023 5:33 AM
351	My neighbours often add to mine, after asking, since mine don't usually have much in them	11/12/2023 8:27 PM

352	Neighbours and nearby businesses are always putting their trash in my bin.	11/12/2023 3:06 AM
353	If our friends have room, we deliver to them	11/11/2023 9:06 AM
354	Take to work and dispose of	11/11/2023 12:01 AM
355	Go to the green field site in Rosser	11/10/2023 3:45 PM
356	Put extra in neighbour’s bin with their permission	11/10/2023 9:45 AM
357	Ask the new our for permission to add to their bin	11/10/2023 7:52 AM
358	I ask the neighbours consent to add to their bin	11/10/2023 6:54 AM
359	i work in a nursing home, we have a big bin for waste. im bringing our garbage bag here, if our black cart is full.	11/10/2023 6:28 AM
360	Our black cart is usually not full. If we have more garbage than will fit in the bin, we take it to a community dumpster or request additional/large garbage pickup	11/9/2023 8:03 PM
361	Use neighbours cart after asking.	11/9/2023 8:00 AM
362	In our co-op we have a large bin that we pay for collection	11/8/2023 9:17 PM
363	Arrange someone to pick up item to take to a 4R depot near me. That does not occur very often as a single person household.	11/8/2023 9:17 PM
364	I have no vehicle. If I did, I'd actually go to recycling depots/landfill.	11/8/2023 1:46 PM
365	put some in a neighbors bin	11/8/2023 1:43 PM
366	Ask neighbor I don't do that without asking	11/8/2023 7:37 AM
367	live in a coop with a large garbage container	11/7/2023 11:27 PM
368	live in a condo which has blue bins but no black cart, only a large bin for multi units	11/7/2023 6:53 PM
369	take it to the north of the Perimeter landfill	11/7/2023 5:39 PM
370	Hire a company to haul away for a fee	11/7/2023 1:27 PM
371	there is only 2 of us and we compote all vegetable matter and use yard waste for small tree branche and fall clean up. However we are both ols 91 and 85 and find it more difficult to manage composting d scraps and use yard yard waste containers fore larger vegative scraps	11/7/2023 10:50 AM
372	Deconstruct bulky items into smaller sizes to fit in bags within reason.	11/7/2023 10:06 AM
373	We live in condo that has large garbage containers	11/7/2023 9:24 AM
374	Ask our neighbor if we can place in theirs. Your option didn't specify consent.	11/7/2023 7:08 AM
375	Pacific 4R Winnipeg Depot	11/6/2023 11:47 PM
376	Dispose in private large garbage bin (with permission)	11/6/2023 6:21 PM
377	Put garbage in large bin nearby (eg. at community center)	11/6/2023 4:33 PM
378	condo apartment has private large metal garbage removal bins	11/6/2023 3:49 PM
379	Hire a private "Junk Removal" business to help for cleanup	11/6/2023 1:54 PM
380	Search the landfills stop dumping garbage on my friends	11/6/2023 12:32 PM
381	Bring to family members house	11/6/2023 9:01 AM
382	take it to another landfilll which isn't a crime-scene	11/6/2023 8:28 AM
383	Bring the 3 man crews back, the arm trucks break the garbage cans and dump garbage back on the road with nobody to pick it back up, and the drivers don't care	11/5/2023 9:54 PM
384	I have extra garbage all the time be abuse of homeless people putting stuff in it. So I have to pile it high. Not fair the garbage men leave it saying I ha etoo much when it's not mine!	11/5/2023 8:47 PM
385	Bring to work and toss in their bin	11/5/2023 8:41 PM

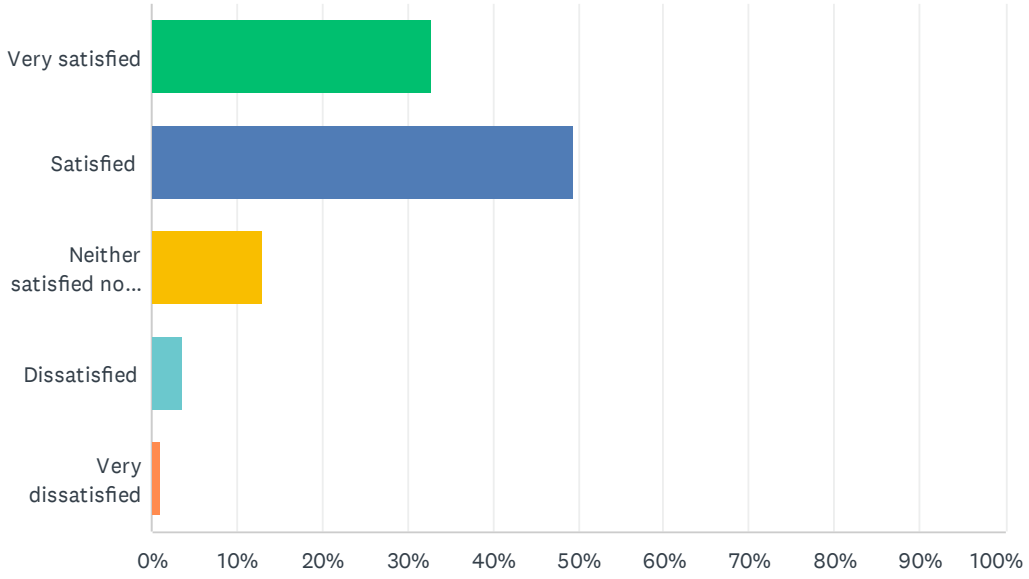
386	Ask neighbors if they have extra space in their bin	11/5/2023 5:06 PM
387	distribute bulky items over two pickups	11/5/2023 3:51 PM
388	Use a dumpster located on the property cwhere i ljve	11/5/2023 2:23 PM
389	I live alone so I usually put out my garbage bin every two weeks. However the family of five next door often put some of their garbage in my bin as theirs is often quite full.	11/5/2023 1:43 PM
390	The above is very very seldom because our garbage and recycle bins are only full once a month therefore put out for pickup once a month	11/5/2023 1:12 PM
391	If it is something that is recyclable I will take it to a 4R depot	11/5/2023 11:02 AM
392	our neighbour has tolld us numerous time that we can use his bin	11/5/2023 9:51 AM
393	Put in a family members bin that has space	11/5/2023 9:30 AM
394	Our cart is full every week. Weekly pick up schedule is perfect	11/5/2023 9:23 AM
395	Apartment block	11/5/2023 8:42 AM
396	Call private garbage removal company	11/5/2023 8:38 AM
397	garage till next garbage day	11/5/2023 8:28 AM
398	Bring to family members home if they have room	11/5/2023 7:39 AM
399	My neighbour and I have an excellent relationship with regards to using space ineachothers bins	11/5/2023 7:31 AM
400	Take items to workplace which has large commercial bin.	11/5/2023 7:02 AM
401	Find a large open top dumpster nearby	11/5/2023 1:04 AM
402	Flawed question. Apartment blocks use blue recycling carts as shown but not black carts as there are dumpsters. Survey assumes if you have blue recycling carts you also have other black carts. Flawed question.	11/5/2023 1:34 AM
403	my neighbors put their garbage in my cart when their's is full- and I'm not happy about it.	11/4/2023 10:35 PM
404	Dump in retail dumpster	11/4/2023 10:16 PM
405	Use third party landfill cottage	11/4/2023 10:09 PM
406	I have an enormous amount of garbage in my home that cannot be accommodated by the bins and it is not in my budget to pay extra to have the city pick it up. I do not have the means to take it to the landfill and no budget to hire private garbage disposal company. I do not believe there should be a cost or costs should be waived for low income earners, pensioners, which I am both	11/4/2023 9:25 PM
407	look for an apartment bin in the neighbourhood that has room	11/4/2023 8:33 PM
408	Break garbage down over weekly pick ups	11/4/2023 7:40 PM
409	With permission from the neighbours	11/4/2023 7:11 PM
410	Ask neighbour if I can use theirs	11/4/2023 6:09 PM
411	Z	11/4/2023 6:07 PM
412	Ask neighbour if we can use theirs	11/4/2023 6:02 PM
413	When I was moving recently, I asked a friend a few doors down if I could put extra garbage and recycling in their bins	11/4/2023 1:03 PM
414	Take it to the dump near gimli since I also have property near there	11/3/2023 10:43 PM
415	Use parents for extra garbage and recycle	11/3/2023 10:42 PM
416	Go to a coworker area and used bin. Waste management	11/3/2023 10:15 PM
417	In a Multi-Family Dwelling	11/3/2023 9:42 PM

418	Keep it in my garage until I have a load to take to the landfill. If my neighbour's are taking a load to the landfill I would ask if they would take mine as well.	11/3/2023 9:37 PM
419	Rarely need the options I picked, but have done	11/3/2023 8:36 PM
420	Usually my cart is 1/2 empty so I encourage my neighbours to use mine if they have extra.	11/3/2023 2:15 PM
421	very often my garbage bin is not full	11/3/2023 1:06 PM
422	Once every six months or so, take some garbage to my company's garbage bin	11/3/2023 8:29 AM
423	Should have a large bin that we can drop off larger items, close to our community - example st norbert co op/gas bar/grocery	11/3/2023 8:20 AM
424	Use the BFI bin of the condo behind us which is never full	11/3/2023 7:28 AM
425	Call another trash pick up company	11/3/2023 7:14 AM
426	Go to Bradey	11/3/2023 6:21 AM
427	Bring extra recycling to workplace industrial recycling bins	11/3/2023 1:20 AM
428	We ask the neighbors or friend if we can put excess in their bin	11/2/2023 9:46 PM
429	I have 2 bins as when we had the automated trucks picking up the garbage bins we always got our bins dumped. They switched over to guys behind a truck last year they have absolutely destroyed three bins with disregard to others property then refuse to dump them any more cause they broke them a very terrible service	11/2/2023 9:45 PM
430	Ask neighbour if they have room, we reciprocate as needed.	11/2/2023 9:41 PM
431	Leave additional garbage bags on top of black cart	11/2/2023 9:29 PM
432	I live in condo complex	11/2/2023 7:30 PM
433	Ask neighbours if there is room in their cart	11/2/2023 5:40 PM
434	We have a dumpster	11/2/2023 3:23 PM
435	Sometimes it is really frustrating. 20 dollars at the land fill is too much to pay if you don't have a stuffed full car. We often find us in the situation where some awkward things just don't fit in the bin but to pay 20 to get it I'm off your property is crazy. There should be another option for some awkward items. That's why people dump illegally in other big bins or unfortunately ditches.	11/2/2023 1:19 PM
436	Take it to the landfill or burn near cottage usually it's grass, tree cuttings	11/2/2023 1:17 PM
437	Take it to work and put it in their (larger) dumpster.	11/2/2023 1:00 PM
438	My cart is almost never full - maybe once a year I have extra garbage for some reason	11/2/2023 12:43 PM
439	drop it at my dads	11/2/2023 12:42 PM
440	Neighbors with permission!	11/2/2023 12:37 PM
441	Garbage is in our large industrial shared condo corps puns, picked up twice weekly	11/2/2023 12:35 PM
442	Ask a family member in the same area if they have room in the bin	11/2/2023 11:58 AM
443	live in condo that uses large garbage bins	11/2/2023 11:34 AM
444	Use a paid service to remove extra or oversized garbage	11/2/2023 11:32 AM
445	say a prayer that we will get regular compost services/cart soon	11/2/2023 11:13 AM
446	stacked it in the garage...	11/2/2023 11:10 AM
447	Note that the pickup persons damage the carts and this is home owners responsibility?? Ridiculous !!!	11/2/2023 10:53 AM
448	I have and old plastic garbage can. Why will the City garbage truck not take it away?	11/2/2023 9:41 AM
449	Garbage is rarely full	11/2/2023 9:11 AM

450	I put garbage in a neighbour’s bin ONLY after speaking to them.	11/2/2023 9:08 AM
451	Leave it in a commercial waste bin	11/2/2023 8:40 AM
452	Hire a company to come pick up the garbage	11/2/2023 8:36 AM
453	stack in back lane or backyard until i have time/momentum to bring to brady (1x a year approx)	11/2/2023 8:35 AM
454	We have a large bin for garbage but the blue bins for recycling.	11/2/2023 8:31 AM
455	Neighbours have an agreement to use each other’s bins when needed.	11/2/2023 8:24 AM
456	With permission from our neighbor	11/2/2023 8:14 AM
457	store in the garage till next pickup.	11/2/2023 8:11 AM
458	use our business’ commercial bin	11/2/2023 7:35 AM
459	In condo	11/1/2023 8:44 PM
460	I don't know if there's another place to put this, but it's clear that most options to deal with unusual amounts of or items to dispose assumes you've got a car or a truck to deal with it -- I don't, so all of that's a problem	11/1/2023 5:25 PM
461	Take to my place of work to dispose	11/1/2023 9:49 AM
462	In apartment .pvt. company up twice a week.	11/1/2023 1:39 AM
463	use retired family's cart	10/31/2023 7:36 PM
464	Will disposed of it in a large BFI bin at work	10/31/2023 11:09 AM
465	Our condo has the large binford garbageand the blue carts for recycling. This question doesnt apply to me we have lots of room for garbage	10/31/2023 7:09 AM
466	I leave the damn thing at the curb because I can't move it. It's too big an cumbersome and it has tipped over in the snow taking me with it.	10/30/2023 9:05 PM
467	Apartment large bin but normal recycle carts	10/30/2023 6:15 PM
468	Get rid of it myself	10/30/2023 4:38 PM
469	Rarely do I have too much garbage. Maybe once a year	10/30/2023 4:14 PM

Q5 How satisfied are you with the curbside garbage program?

Answered: 8,767 Skipped: 469



ANSWER CHOICES	RESPONSES	
Very satisfied	32.90%	2,884
Satisfied	49.49%	4,339
Neither satisfied nor dissatisfied	12.96%	1,136
Dissatisfied	3.64%	319
Very dissatisfied	1.02%	89
TOTAL		8,767

Q6 Please let us know why would are not satisfied.

Answered: 391 Skipped: 8,845

#	RESPONSES	DATE
1	The contractor company usually left some garbage in the bin, not fully emptied it. Garbage on the street.	11/30/2023 9:07 AM
2	Weekly p/u is too frequent & wasteful, expensive, & encourages irresponsible consumption.	11/29/2023 10:58 AM
3	We should be able to have a compost program, more recycling options like other provinces (ie black plastic). Also yard waste pick up should be weekly during peak times ie Spring and Fall.	11/29/2023 8:25 AM
4	As stated before the system was put in place, much of Winnipeg has already small back lanes, which surprising to none fill up with SNOW every WINTER. The bins do not fit anywhere, the lane is blocked, the bins get damaged, the cycle repeats.	11/29/2023 8:20 AM
5	Sometimes they don’t pick up if the bin is not moved closer	11/29/2023 4:44 AM
6	The driver broke the cover of the garbage can and we called the city to come for a fix. The representative fixed the recycle bin instead. We called again and took few weeks for us to get a new garbage can for the driver of the garbage truck to make a hole in the cover again. Good old city workers	11/28/2023 11:14 PM
7	Bins are often not completely emptied. Employees throw the bins around & often damage them & the grass & dump them behind the cars in the driveway	11/28/2023 7:38 PM
8	While we have no problem ourselves with the current garbage collection process as we know all the rules and produce very little waste (we compost 98% of our food waste), we live in a neighbourhood with many renters who don't have a clue about proper garbage disposal and recycling practices. So our dissatisfaction stems from a neighbourhood liveability perspective. We live on a back lane and almost everyone leaves their bins permanently in the same spot where they are dropped by the collection crew. They are almost NEVER removed from the lane as is required, so garbage is visible all week, not just on collection day. Bins are regularly overflowing, with items left beside or on top of bins. This is not only unsightly, it attracts crows and raccoons who rip open bags and scatter garbage, turning our lane into a garbage dump. No one will read the orange tags that the crew might leave - I've looked at these and they are not clear at all as to what the problem is. The address of regular offenders needs to be recorded and reported, and dealt with by city staff, not the collection crew. There needs to be a targeted education campaign!! I shudder to think what will happen if a food waste program is started in our area. If people won't bother learning the proper rules for regular garbage collection and recycling, why will they bother with learning the rules of food waste collection? If you think I am exaggerating the problem, I suggest your staff do some regular patrols of back lanes in Fort Richmond to see for yourself.	11/28/2023 4:56 PM
9	experienced frequent missed garbage collection more than acceptable times	11/28/2023 1:53 PM
10	System doen't work well.	11/27/2023 1:53 PM
11	Contractors often miss pick ups and the trucks damage the bins. We have had 2 bins broken by them now and it takes forever to get a new one delivered. Sometimes we go weeks without garbage pick up. It also sucks if you get an orange tag because you have to call 311 and it takes forever to get through, and then forever to get anything done about the problem.	11/27/2023 12:24 PM
12	Sometimes garbage doesn't fit in the bin and inconvenient to bring places	11/27/2023 9:19 AM
13	Bin is too small and I don’t want to pay for a bigger bin. Pick up the garbage I throw out	11/26/2023 5:52 PM
14	While all other major cities in Canada have had compost programs for several years, our city continues to not implement one. I will be using Compost Winnipeg until then City of Winnipeg starts a compost program, but many of my neighbours will not. If you provide compost pick up, they will use it. I have composting at my office and at my cottage, but not at home.	11/26/2023 4:48 PM
15	Recycling is picked up but most is not recycled, especially plastics. However, we still have to	11/26/2023 3:54 PM

	pay for it on our water bill. Also, there is no incentive or advantage to reducing the amount of garbage/"recycling". For example, I put my garbage bin out about 6 times a year, yet pay, in taxes, the same as if it were 52 times a year.	
16	The people I get sometimes are not approachable .I wave or try to get there attention as they have missed my cart .they have slammed down my bins to a point where they are damaged.broken wheels.i was worried I would be charged for another cart.they sent someone out to inspect it to make sure I didn't break it myself.(why would I do that) I have come home to find all the bins scattered in the backlane and recycling strewn about.this seemed to happen every other week for a month.i did call 311 ..sat on hold for over 45 minutes and made a complaint. i think plastic bags and wrappers should be recyclable or sent to somewhere that does melt them all down and reuse this .	11/26/2023 2:27 PM
17	garbage/recycle collectors are careless when picking up garbage/recyclables....they slam bins down. Sometimes results in damaging bins.	11/26/2023 10:36 AM
18	the dropped garbage is left in the backlane for myself to clean up. I am 3 houses from the corner and try to do my best. NO help from USELESS P/U crew or 311 staff or bylaw staff.	11/25/2023 10:09 PM
19	Because far too often either the recycle or garbage driver has a tendency to drive over the grass behind my property as I'm a corner lot. .Mostly the recycle driver. The drivers are suppose to be professional drivers. They are far from it. If they can avoid driving over the grass 80% of the time then there is NO excuse to be able to avoid driving over it all the time. They are just being lazy and careless. I never had an issue when the city was picking up the garbage. I realize the grass is on city property, but I;m expected to maintain it by the city and why should I have to incur the cost or repairs all the time. That's not right, The contractor should discipline their careless drivers for causing damages. Not to mention fix the damages.	11/25/2023 6:13 PM
20	City workers often miss one pick up - for example, yard waste and recycling will be picked up but the garbage is missed.	11/25/2023 6:11 PM
21	Collection truck broke wheel off garbage bin - where do I get replacement. Bins are awkward/unwieldy, top heavy and tip over, and if full, are heavy and hard to move	11/25/2023 12:08 PM
22	First the grammar in asking me why I am not satisfied makes no sense. And I am not satisfied because regularly the collection company doesn’t handle the carts with care and throws them around and breaks them the. The city asks for proof it wasn’t caused by me. Well it’s in the back lane and I am at work all day. So instead of replacing it because I should t have to pay for a new cart I didn’t damage I make do or attempt a fix on my own. Secondly NO ONE at City hall seems to are when residents make complaints about neighbouring Garbage pile up a month for bylaw to come and take a look is ridiculou there is no way for neighbours to hold renters or landlords accountable	11/25/2023 8:45 AM
23	When Katz started contracting out garbage, city went downhill on rails. City had our own equipment, did own snow clearing and repaired [redacted] went from working and clean to over priced and filthy. (Property taxes ballooned to give so much less) crooked incompetent city management. Sick of everything going downhill.	11/25/2023 7:34 AM
24	I had a extra black bin that I payed the city extra for and it was taken, I reported it over a month ago and nothing has been done to replace it. Also for some reason my recycling has not been picked up for about 2 months, i reported this as well and again nothings been done.	11/25/2023 7:08 AM
25	Private contractors are in a rush and spill garbage or recycling into the streets and do not take pride in their work.Taxpayers shouldn’t be paying to make profit for garbage contractors.Hire city workers to collect garbage the way it was before.	11/24/2023 11:17 PM
26	It's not that great. Many times the collection trucks have missed my bin with no excuse. We also need proper recycling and compost programs.	11/24/2023 10:38 PM
27	it would be nice to be able to get a smaller size can then the 2 large ones we are stuck with. the size of the household should be a factor in the size of cans we have to store	11/24/2023 10:02 PM
28	Having had my garbage missed multiple times. The last time they claimed I had construction waste which was a lie. Another time someone put a dead cat in our bin and the city refused to pick it up until we removed the dead cat. They never clean up what they’ve dropped out of bins and the backlanes look horrendous. The city prioritizes wealthy neighborhoods and neglects poor areas. This city is shameful.	11/24/2023 9:25 PM

29	Bins end up in the middle of the driveway. Lack of compost program.	11/24/2023 9:14 PM
30	I think recycling should accept more products and we should have large green bins for yard waste	11/24/2023 7:37 PM
31	Late pickups, missed pickups not picking up until a day later due to whatever	11/24/2023 6:13 PM
32	Uhhhh 2 months to replace a bin that the people collecting (or the truck itself) definitely broke? What the hell?	11/24/2023 9:21 AM
33	I would love a compost program. We need one desperately to reduce methane and create nutrients for our planet.	11/23/2023 8:39 PM
34	Compost collection regularly would make a big difference	11/23/2023 7:17 PM
35	Never empty my recycle bin more than half. Called 311 many times no improvement. Finally I upended my blue bin and put everything in the gray bin. They suggested I get a bigger bin. Good lord more expensive bin for them to not empty.	11/23/2023 10:16 AM
36	We have had to replace our bins (both black and blue) due to damage caused by city workers and theft multiple times.	11/23/2023 8:39 AM
37	privatised. why do they work on holidays and weekends	11/22/2023 2:37 PM
38	Should not be limited to 1 can per week and should not have to pay for garbage collection. Thats what taxes are for	11/22/2023 10:44 AM
39	I am not satisfied because we need green bins to we need them so we won't waste the peels of food and the will be at least useful	11/21/2023 2:00 PM
40	They leave the garbage bin in random places and sometimes the garbage bin is two houses away. Sometimes they just throw the bin on the ground.	11/21/2023 2:00 PM
41	When they pick up my garbage bins they usually break them and leave them broken and now both of my bins have a big crack in them. They dont care about anything.	11/21/2023 1:55 PM
42	when they pick up the garbage bins they usually break them and leave them broken and now both of the bins have big cracks in that	11/21/2023 1:55 PM
43	j'aimerais qu'on fasse l'ajout un chariot du compostage	11/21/2023 11:49 AM
44	Not enough room and can’t stand when neighbors is my bins	11/21/2023 6:40 AM
45	Bin too small sometimes. Costs too much. They leave bin in the lane and not where I left it.	11/20/2023 10:14 PM
46	Our bin was damaged at pick up. Crew left garbage in bin. We called for a new bin, was not given a time for replacement, were just told to put garbage bags out. Next garbage day, bin was emptied and bags were left behind. So we assumed we could use bin, we filled it up. Our replacement was delivered a few days later. Old bin was left behind and we were told to empty it before they would take old bin away. A very confusing system.	11/20/2023 8:35 PM
47	We have a front drive but are required to put the bins in the backplane, where our neighbors feel it's okay to pile snow off their parking pad so we have to shove that along with our driveway. Easier if we only had the one to shovel	11/20/2023 4:20 PM
48	1. The garbage and recycling bins are damage either by poor handling by collection contractor or because of the low quality of the bins. The replacement is borne by the residents 2. There should be larger recycling bins to encourage more recycling 3. Yard waste and/or compostable waste should be collected throughout the year to reduce garbage 4. E-waste program should include detectors and other items that are hazardous if thrown in the garbage	11/20/2023 1:10 PM
49	The pickup truck leaves garbage all around the garbage bin area, when they pick up.	11/20/2023 1:02 PM
50	sometimes there's garbage left inside the bin and/or outside our house	11/19/2023 7:25 PM
51	Bins were always to small and the wheels take up space making the bin squeezed in, garbage gets stuff inside. Both bins take up space away from yard and driveway. Neighbors get in the way when driving out of driveway. Snow is another issue because our back lane it is hard with the windraws and we live on a snow route.	11/19/2023 4:44 PM
52	The bins are too big to place in our back lane without blocking our garage access. The bins are hard to drag out to the back lane. We can't leave ours there, they get vandalized and broken.	11/19/2023 1:55 PM

	The bins are not emptied by the truck mechanization as the back lane does not allow for it. Garbage is strewn in the back lane. The carts are tossed back with lids open. We have had other residents place dirty items in our bins-maggoty garbage, dirty diapers etc. Yard waste recycling bags are impossible to keep dry, even though we do our best to only put them out just before pickup. We end up with wet yard waste in the back lane.	
53	THE TRUCKS THAT PICKS UP OUR GARBAGE, DRIVES VERY POORLY AND DANGEREROUSLY AND LEAVES THE BINS STREWN ALL OVER THE PLACE. HAPHAZARD!!	11/19/2023 7:14 AM
54	Garbage trucks are too large for this old neighbourhood so drivers regularly drive over our property. Yard waste smells or bags fall apart after sitting so long between pick ups.	11/19/2023 6:09 AM
55	Our family of 3 creates too much waste for our bins, after conscious waste reduction. We have an at home compost bin, use the compost collection, and recycle properly. Reduction of pickup days would be detrimental to our family.	11/19/2023 2:07 AM
56	Sloppy with the collection and dupping the cart anywhere but in your yard	11/18/2023 7:41 PM
57	The current recycling of wpg items is not “up front” with information as it pertains to the actual system. Currently glass is not being recycled…it sits in a huge mound at the landfill. Same for plastic as it must be sent out of province. The province actually has no formal plan on recycling once it goes to Brady. The public is led to believe that recycling in Manitoba is handled appropriately.	11/18/2023 4:53 PM
58	They don't show up, they leave the bins all over the road, we can't recycle most of our products	11/18/2023 11:59 AM
59	Containers are too large, take up too much space and lead to people throwing out items that should be redirected to other uses.	11/18/2023 11:38 AM
60	Keep breaking the bins Even after calling 311 to report Still no response Bins have cracks and broken lids	11/18/2023 11:18 AM
61	I am on the corner of the back lane. There has been damage to my garage and bins by the larger trucks and workers since the bin program started which has cost me money to repair, and the need for bollards to protect my property.	11/18/2023 11:10 AM
62	I am a single home owner so have very little garbage every week, I would rather be able to put out a small bag in the summer, winter is okay as I can leave it for a couple of weeks as it will freeze in the garbage bin, recycling is okay for the big bib, I can put it out every 3 - 4 weeks.	11/18/2023 9:02 AM
63	They continually hit our garage or neighbors on a tight corner I have put big rocks to protect it and they hit them or move them out of the way	11/18/2023 8:07 AM
64	They always place the bins in the middle of the driveway or in the middle of the lane. I'm disabled so it makes it hard when I have to always get out to move them	11/18/2023 7:57 AM
65	Because both my bins are broken due to the collector’s negligence. And requesting a new bin is inconvenient	11/18/2023 3:43 AM
66	People need access to garbage disposal 24/7! This is why so much ends up on the streets. Each street should have an excess garbage container accessible!	11/17/2023 7:20 PM
67	I would like a composting program and better guidance on how to recycle and how to get rid of hazardous waste	11/17/2023 5:47 PM
68	Incompetent drivers for the garbage trucks. Will bypass your bin and get out to leave a tag on it but not move bin to empty it. Bin system is ridiculously slow compared to old system	11/17/2023 4:15 PM
69	They always leave my carts blocking my driveway.	11/17/2023 10:23 AM
70	Collectors often drop garbage in the lane and leave it there. Collectors are rough with the containers and throw them in the driveway.	11/17/2023 9:00 AM
71	WE NEED COMPOST COLLECTION AND BETTER SEPARATION FOR RECYCLING.	11/17/2023 8:29 AM
72	It is unrealistic that a family of 5 have space for only 2 to 3 bags. We recycle and still have to much. Be it pet litter or what not.	11/17/2023 8:02 AM
73	They don’t empty them properly.They throw the bins and break them.They put the bins in the	11/17/2023 7:44 AM

	middle of our driveway so then I have to get out of my vehicle to move them so I can park.	
74	At times the recycling and garbage gets picked up by the same truck. So why recycle??	11/17/2023 7:41 AM
75	Carts damaged by workers causing unnecessary expenses for homeowners.	11/17/2023 7:23 AM
76	Bins are not large enough	11/17/2023 7:06 AM
77	Recyclables are buried in the earth or shipped overseas to get dumped in the ocean, and then we pay a recycling fee. Garbage men make a mess of back lanes, and destroy these expensive carts you force people to buy.	11/17/2023 3:24 AM
78	Cause they always just throw your buns and generally break them or they claim they are to heavy so they don't empty then meanwhile they are placed in the lanes the evening vefore pickup so it's a free for all to fill them up	11/17/2023 1:47 AM
79	Because waste management continually misses taking my garbage and I regularly have to call in and inform them of missed pickups	11/16/2023 8:21 PM
80	Because I am restricted to how much I can throw out and the garbage men keep breaking my bins	11/16/2023 8:10 PM
81	Sometimes the bins are destroyed by how they are emptied and so they should be replaced FREE OF CHARGE	11/16/2023 7:18 PM
82	They don't pickup and 311 is a joke always asking [redacted] as if its the customers fault. They are rough with the carts and just throw them which in results breaks them.	11/16/2023 5:58 PM
83	Collectors break carts because they are careless and toss bins , had lids and wheels break and I'm stuck with paying for repairs.	11/16/2023 5:09 PM
84	I wish that the trucks would be more conscious of where they 'throw' the bins once emptied.	11/16/2023 5:07 PM
85	I have a family if 5 and the bin we have is not large enough	11/16/2023 4:33 PM
86	Not enough bin storage. It's especially bad around the Christmas season. Takes over a month to dispose of everything.	11/16/2023 4:18 PM
87	Over the last 2 months, they've missed our garbage bin every week except for 1. It's frustrating not having our garbage picked up on time when we put the bin out the night before.	11/16/2023 3:48 PM
88	use to be able to put out as much as you wanted. Now barely enough room in the tiny bin for everything over a week with a family of 4 with pet waste	11/16/2023 3:15 PM
89	I'd rather just be able to put out garbage like before the carts.	11/16/2023 3:13 PM
90	Carts are too small, are never fully emptied properly by workers, workers never place carts back where they find them, workers damage carts, workers dump garbage throughout back lanes leaving behind a mess.	11/16/2023 2:58 PM
91	There is not enough room for people to declutter their homes. These garbages are used for multiple reasons. Even yard things like invasive weeds or plants go in my garbage. Not everyone has the money to get extra bins or the space to put bags that do not fit for the following week. The city is one of the dirtiest I have seen and the garbage limits are not helping. At this point I'm ready for a third bin	11/16/2023 2:56 PM
92	There is always garbage all over the back lane the bins are not big enough and way too expensive to pay for extra pick ups etc. garbage man doesn't fully empty the bin leaving it half full after pick up	11/16/2023 12:50 PM
93	Mainly because I am single, maybe put out garbage/recycling once a month and I pay just as much as everyone else who use it every week. I can barely afford groceries...	11/16/2023 12:26 PM
94	Leave leaf bins saying there to heavy (35 lbs). Just laziness. Trucks drive over the curbs/grass leaving ruts	11/16/2023 12:07 PM
95	They don't always pick up our garbage. Some weeks our area is forgotten	11/16/2023 10:59 AM
96	Always have problems with them not emptying bins completely. Making it very frustrating	11/16/2023 10:30 AM
97	They dump the bins and if they drop any of the garbage or recycling they don't pick it up. They leave the bins in the middle of the back lane or they throw it up against our garage damaging	11/16/2023 9:57 AM

	the siding.	
98	Worker do ot care about bins	11/16/2023 9:55 AM
99	most of the time they won't take my garabage or recycling because it is on snow (they say on a snow pile) but my pack lane is tight and i have only one spot to put the bin	11/16/2023 9:37 AM
100	I have more garbage then garbage bin capacity. Yard waste should be every week.	11/16/2023 9:04 AM
101	Because I keep my bins clean and always leave them at least 2 feet apart however when I go to retrieve them they are never put back and are sometimes half way in the back lane!	11/16/2023 7:59 AM
102	I find that the garbage collection teams are rough on the collection carts. They don't put the carts back at the curb just push them aside making back lanes a nightmare to navigate in a vehicle. I find that the collection carts are too small.	11/16/2023 7:18 AM
103	I am dissatisfied with the execution of the physical collection process. The City has created a spectacular report but totally washes it's hands of any involvement or oversight of the actual collection by contracting out this service. Starting with the drivers of the trucks, who don't seem to be able to keep the huge trucks on the roadway and are constantly creating ugly ruts on public and private property, and then the bin handlers who can't seem to replace the bins to where they were with the lid closed. I walk along Truro Creek very often and on collection days there is an increased amount of litter blowing in the wind. I would suggest that until the City can execute collections with more care, there should be no expansion of services.	11/16/2023 6:55 AM
104	Smashing of the carts and trying get them repaired it takes 6 months.	11/16/2023 6:29 AM
105	It's embarrassing that we don't have a city wide compost system. It would drastically reduce what's going into the landfill, reduce methane production, and compost is always in high demand.	11/16/2023 3:23 AM
106	The old program was better	11/16/2023 12:35 AM
107	We don't have anywhere near the recycling program that Calgary has, we should also have bottle depots !!	11/15/2023 11:32 PM
108	Bins end middle of back lane.	11/15/2023 9:12 PM
109	Because 311 does nothing. A piece on our garbage bin broke. They left a tag on it full of garbage to call 311. We did and followed up multiple times when no call was received from a department that only determines whether its repairable or not. Told it could take a month to get it fixed. So please tell me what to do with all the garbage in my broken bin and for the next month?. My taxes cover this service but I have to use my gas & time to go to the Brady landfill, across the city. Get rid of 311, give jobs to people in the different departments to flag calls properly and get things done in a reasonable time. It will solve many problems , not just collection services!	11/15/2023 9:08 PM
110	I recently moved here from Toronto, and I miss the composting program.	11/15/2023 9:05 PM
111	Missed pick ups	11/15/2023 8:58 PM
112	I wish that Winnipeg had a compost collecting program. It would incentivize individuals, households, and businesses to compost and lower their food/yard waste. I think more public trash/recycle/compost bins would deter litter, while simultaneously maintaining consistent emptying of these bins to prevent overflow. I also think a lot of the mess in our neighbourhoods comes from uncovered dumpsters in residential neighbourhoods. Could apartments not arrange for lids, keys for their tenants, and caretakers scheduling unlocking dumpsters on the same day/in advance of pickup?	11/15/2023 8:51 PM
113	Well, where to start? I always assumed the residencial taxes paid for garbage, considering that for almost 80 + years that how it was done. Now paying extra on your water bill is just a dirty way of grabbing extra cash! For shame!	11/15/2023 8:11 PM
114	I would like a compost program to reduces the waste stream and cut methane emissions from landfills. I live in a condo, so I don't have a yard to do it myself and it's impractical to have to drive somewhere to drop off my compost. I lived in Ottawa for a year and appreciated that they had a compost bin that would get picked up regularly.	11/15/2023 8:04 PM
115	Les déchets ne sont pas ramassés une fois sur deux. Je reçois régulièrement des avertissements orange injustifiés.	11/15/2023 5:35 PM

116	Need bigger bins as all the recycling fills the bin before garbage day	11/15/2023 5:33 PM
117	The carts are huge and bulky, difficult to move, store and protect from damage; I would like to be able to request a smaller cart. I also object to paying the same amount as others who throw out far more garbage than I do.	11/15/2023 5:08 PM
118	There is stuff falling on the street when bis are dumped. The carts are being dropped too hard and are laying on its side. The garbage trucks need to slow down. They drive much to fast, especially in the back lanes.	11/15/2023 4:50 PM
119	Incompetent and lazy contractors. If they make a mess then they clean it up. Get out of the truck and do it. Same with our homeless and vulnerable peoples. Another reason to keep pickup as is.	11/15/2023 4:30 PM
120	bins are not replaced where they are taken from sometimes leaving driveway unaccessible until i move the carts	11/15/2023 4:09 PM
121	My bins are thrown away from my back lane gate where I place them and frequently with the lid left open so they fill with snow and or rain .Neighbours bins are left behind my fence never behind theirs.The collectors don"t care.	11/15/2023 2:37 PM
122	It is wasteful to pick up every week when it is not needed. I often do not put my bin out to save drivers time	11/15/2023 2:33 PM
123	Bins are not always fully empty weekly which makes it difficult for the following week	11/15/2023 2:23 PM
124	People leave their garbage on sidewalks, boulevards, sneak to apt containers, etc because the city will not pick up the item or their containers are full. Not everyone is is environmentally conscious. I would rather pay more and have better pick up. Let the city sort the garbage.	11/15/2023 2:19 PM
125	If the bin is not completely closed they drive by and do not collect it. this has happened with the bin 3-4 inches open.	11/15/2023 2:16 PM
126	It should be picked up more often than once a week. Back in the 70's, it used to get picked up everyday.	11/15/2023 2:01 PM
127	It wpuld be nice to be able to get extra garbage picked up if we put it in a bag beside the bin, also they are often stolen and we have to pay to replace them; also pick up of large items is pricey	11/15/2023 1:49 PM
128	My carts are repeatedly damaged by the recycling and garbage companies that pick it up. The carts are tossed up and down the back lanes.	11/15/2023 1:25 PM
129	No compost option	11/15/2023 1:11 PM
130	I have a large family, we make garbage. I have a car, not a truck for dump runs. I have garbage somewhere on my property at all times now, because it is not suitable for my bins, or my bins are full.	11/15/2023 12:42 PM
131	The only way to reduce your water and waste bill is to reduce your water usage...Quote from Marcus Chambers. I Reduce, Reuse, Recycle aaaand compost very well and put out on average 9 bins a year for pick up but pay for 104 + while others have over flowing bins every week. Manitoba is the only Province without refundable deposits. Recovery rates on recyclables is about half of what others are accomplishing which leaves our City very dirty and covered with litter. Just walking the dog I have picked up 136 lbs of pop cans off the roadway this summer. Just think of how many plastic bottles could get picked up if they had any value. I have been doing the right thing by composting for 35 years and now I am to be punished again with another fee for those that can't be bothered.	11/15/2023 12:24 PM
132	I see bins getting tossed like crazy, broken and then have to waste my time trying to get a new bin	11/15/2023 12:12 PM
133	Limited to how much garbage can be put out for pickup.	11/15/2023 11:47 AM
134	The contractors have been terrible, damaging our cart repeatedly. There is also a ridiculously long delay in having the cart repaired or replaced. Additionally, garbage pick-up has been missed repeatedly, leading to calling 311 in order to have a new pick-up scheduled.	11/15/2023 11:22 AM
135	I really wish there was compost. So much of my garbage is food waste and it makes me very uncomfortable throwing it away	11/15/2023 11:06 AM

136	I would like there to be a compost program	11/15/2023 10:51 AM
137	Too messy	11/15/2023 10:43 AM
138	they are not emptying our black bin every collection day. We always call 311 for pick up. I don't know why but our black bin is always close and not full	11/15/2023 10:30 AM
139	We leave our bins on the lawn so they don't block our driveway. Truck operators always put them on our driveway and block in our vehicles. This creates extra steps for us on busy mornings.	11/15/2023 9:58 AM
140	Not enough space in bins, should not be charged for large item pick up	11/15/2023 8:45 AM
141	They throw the bins everywhere in the back lane. Mine has broken. If they d dump something in ground but mistake they don’t pick out up they just leave it	11/15/2023 8:04 AM
142	For a family of 4 we do allot of recycling, bin fills up too fast. We then use what little room we have in our tiny garbage bin to make everything fit. That is a one week cycle	11/15/2023 7:29 AM
143	Because the carts seem to go flying into the street when they put it back. At times it’s not near our house and in the middle of the road where cars are driving. If you get home late no one will put it back and it might break due to cars driving at it	11/15/2023 6:32 AM
144	We moved here from Toronto where there is a compost program and a more comprehensive recycling program. Right now, we pay privately for those services that should be paid by taxes.	11/15/2023 5:28 AM
145	Even with recycling the bin is always very full by the time garbage day comes around.	11/14/2023 11:25 PM
146	Garbage people leave my garbage full and don’t pick it up if the lid is open and garbage is full with no garbage spilling out. Leaving me till the next week with a full bin!!!!	11/14/2023 10:57 PM
147	They keep breaking our bins	11/14/2023 10:51 PM
148	It doesn’t recycle enough materials that are technically recyclable.	11/14/2023 10:10 PM
149	You don’t take compost. The garbage men throw the bins around breaking them. Then you want to charge us for the bin. Then it takes 3 months to deliver a new bin. The price of extra pick up or bulky item is too high. The guys just grab it and throw it in the truck with the other garbage. Why do I need to pay more	11/14/2023 10:00 PM
150	I want composting.	11/14/2023 9:58 PM
151	carts are two small hard for seniors and disabled to move them to the curb and to get the city to help seniors or disabled you have to do to much paper work and it costs you money for some doctors to fill out the paper work which might be a financial burden to these two groups	11/14/2023 9:41 PM
152	The garbage guys are aggressive with our bins and the bins will break one day with how they treat them	11/14/2023 9:25 PM
153	Inconsistent pick up with garbage and recycling and sometimes come too early for leaf pick up, days early.	11/14/2023 7:49 PM
154	There is not enough education on what is recyclable and how to reduce waste for residents. I don't have an issue myself as I'm educated on the subject but I see my neighbours putting garabe in the recyling bin and recyclables in the garbage. There should be a program for film plastics and other plastics that aren't accepted in the recycling program. Also, my neighbours have full bins of garbage when I know many things could diverted. I backyard compost but most of my neighbours don't. The City of Winnipeg should provide subsidized compost bins again (even if they plan on rolling out a curbside pick-up program). Also, it is very disappointing that the tipping fee is so low. While we were putting our disease elm wood at Brady, I saw people throwing things that could be reused or recycled in the big garbage bin. If the tipping was much much higher they would want to reduce what pay and would take the time to recycle or give their items to charity. Also, I had to come back to this question because there was no other place to add comments like this. The City should absolutely increase the landfill tipping fee, have garbage collection every 2 weeks, and green cart once a week as it can smell and mold if it's let too long. And recycling continue every week but maybe as Winnipeggers reduce their recycling (because of less packaging used), it could be changed to every 2 weeks.	11/14/2023 7:47 PM
155	Scabby contractors break the cans including my leaf cans and make a mess. Garbage can too small.	11/14/2023 7:25 PM

156	It costs a lot of money to pick up our garbage now.	11/14/2023 6:14 PM
157	1. Recycling is often blowing around when picked up. 2. Bins are never put back on my property, no respect toward homeowners.	11/14/2023 5:06 PM
158	When they go to empty garbage and recycle bins they don't mash the stuff properly in the truck prior to emptying our bins and garbage goes all over. This includes them emptying big bins at apartment buildings. I get other's garbage in my yard. The procedure needs to be better.	11/14/2023 5:02 PM
159	Our bins have gone missing or placed at the wrong house quite a few times. Once our bin was broken and it took over a month to get our garbage taken away and bin replaced.	11/14/2023 3:42 PM
160	Much too frequent. Every 4 weeks would be enough	11/14/2023 3:31 PM
161	Bins are too small. Loose recycling blows all over the neighbourhood	11/14/2023 2:59 PM
162	should be pick up 3 times per week	11/14/2023 2:46 PM
163	Every major city in Canada has a composting program. Even Brandon! Ottawa started their program in 2010. Benchmark their program as its a similar city / demographic. SO MUCH WASTE could be diverted through an organics program. The City of Winnipeg needing "more consultation" suggests city leadership ad our waste managers are imbeciles who cannot communicate with other cities about their organics programs.	11/14/2023 2:42 PM
164	Depending on the amount of people living in the house 1 bin is usually not enough for us and garbage piles up	11/14/2023 1:31 PM
165	I'd like compost collection	11/14/2023 1:20 PM
166	Spotty pickup, can't use my own receptacle, not enough room in the receptacle, and if it's stolen have to pay through the nose to have it replaced.	11/14/2023 12:32 PM
167	Winnipeg is very far behind in recycling and waste management. Many things I throw away, would be recycled in other provinces and/or countries. In addition, the people operating the garbage pick up are very reckless; they leave the bins on the street, carelessly throw them down, and most people I know have had their bins broken by garbage collectors. Considering home owners are liable for the cost of the bins, it's ridiculous we have to pay for someone else's carelessness.	11/14/2023 11:59 AM
168	This program has led to piles of unwanted garbage not being picked up or dumped to get rid of it. Winnipeg needs a large item pick up program 4 times a year. To keep the big items like furniture Stoves etc that can not currently be disposed of. It is false economy not to have a free large item collection system. It leads to the city becoming a [redacted]	11/14/2023 11:57 AM
169	Need a composting program, not enough accepted in recycling program compared to other provinces.	11/14/2023 11:44 AM
170	We already pay for our garbage and recycling to be removed but in situations where we may have excess garbage we are then required to pay additional fees (extra pick-up) or travel to Brady to dispose of excess waste. It would be more convenient and, in my opinion better service, if we could dispose of additional garbage at a 4R or similar location without needing to pay. It is ridiculous to need to pay $15 to dispose of a couple of extra garbage bags after large family gatherings. If this continues, Winnipeggers might as well just dispose of this excess garbage on their councillors office steps or City Hall.	11/14/2023 11:43 AM
171	Workers broke my garbage can a month ago and I'm looking at December for a new one. In the meantime animals tear my piled-up garbage bags open every night. 2-3 months for a new bin is ridiculous, embarassing and unsanitary.	11/14/2023 11:21 AM
172	Have had to call 311 far too many times in the past couple of years for missed garbage and/or recycling pickups on my street.Carts are always at the end of my driveway and not blocked.	11/14/2023 10:33 AM
173	Hard to find information about when pick up is and when it changes. Hard to find a easy to read/comprehensive list of what us garbage and what is recycling in our city	11/14/2023 10:30 AM
174	City of Winnipeg needs a composting program. Garbage collectors are rough with bins and damage them.	11/14/2023 10:14 AM
175	I have no space for garbage or recycling. There are no additional recycling areas near me. This	11/14/2023 10:07 AM

	has become a major pain.	
176	Our buns ge	11/14/2023 9:08 AM
177	I see a lot of people dumping garbage in random places like back lanes or roads because they don’t have enough room for their garbage	11/14/2023 8:58 AM
178	Before it became privatized - our garbage would be picked up on time and with the larger bins - it was easier to throw out trash and I didn't have to wait until a certain day to be able to throw out my trash	11/14/2023 8:11 AM
179	The garbage collectors routinely leave our back lane a mess - garbage bins in the middle of the back lane instead of on the side where residents placed them and there is frequently spilled garbage in the back lane.	11/14/2023 7:27 AM
180	i find the trucks are very rough on the carts and my cart appears more and more damaged each week.	11/14/2023 6:49 AM
181	If my bin isn't sticking out into the back lane the truck drives by. 6" back from the lane its ignored	11/14/2023 5:24 AM
182	Pickup is hit and miss	11/14/2023 4:07 AM
183	Often late, don't pick up excess garbage, not frequent enough	11/14/2023 2:40 AM
184	Yard waste pickup every two weeks is TOO LONG A PERIOD. Grass clippings SMELL and I don't want it in my yard for that long in the hot summer. I end up throwing it in the gray garbage bin on off weeks.	11/14/2023 1:35 AM
185	Bins are not big enough - single bin is sometimes not enough. Bins are not always fully emptied on pickup. Pickup times vary wildly. Bins are not designed well and can freeze shut with freezing rain or snow.	11/14/2023 12:35 AM
186	I live in the West End so homeless people are constantly digging into my bins and making a huge mess I'm left to clean, or they are stealing my bins. I've had to replace 3x this year.	11/13/2023 11:37 PM
187	Keep breakinf	11/13/2023 11:09 PM
188	Why do we not have compost like most cabadian cities or plasma incineration that can produce energy from waste? The dump smells horrible and should be moved out of town	11/13/2023 11:04 PM
189	When I moved to Winnipeg 10 years ago, I was shocked the city did not have a compost program. I’m from the east coast, and I have lived in Ottawa and Victoria, where compost programs have existed for years. Ten years later - still no program. I pay a private company to pick up my compost.	11/13/2023 11:04 PM
190	Garbage guys don't care how much mess they make when they TRY to empty the garbage bin . They let garbage fall out into the ground in the backlane at many houses on your street. They do the same with the recycling. Drop lots of it on the ground when emptying those bins as well. They should be taught on how to do their job the right way. And not leave a garbage mess in our back lanes. This is making people mad.	11/13/2023 10:04 PM
191	The city of wpg is inept, backwards and behind the times. Suggesting garbage/recycling pick up every two weeks is absurd and dangerous given rampant violence and arson.	11/13/2023 8:58 PM
192	Low capacity. Bins rarely get emptied all the way.	11/13/2023 8:49 PM
193	I don't like having to save my garbage or recycling for next week. There should be an option to have it collected if I have more than fits in the bin. Also, my garbage collection is in Monday, which means most long weekends I miss pickup if I am away, and it piles up even further!	11/13/2023 8:38 PM
194	Would like a compost option	11/13/2023 8:12 PM
195	They often skip pick up, break bins	11/13/2023 7:59 PM
196	The trucks damage the carts and when you request a replacement...you get a different answer from each 311 attendant. 2 to 3 months with out a functional bin is not acceptable nor should I have to purchase a bin to use until mine is replaced.	11/13/2023 7:37 PM
197	Because of our street and backlane configuration we have been missed on many many occasions.it was so bad for awhile the head guy for the city gave us his personal cell number	11/13/2023 7:19 PM

198	As is, the weekly garbage pickup barely keeps up with the rate of household waste, even with our family recycling as much as we can. We use compost for our garden. The premise of a bi-weekly waste pickup will cause several issues. As is, if I miss a waste pickup, I can wait until the next week and put my bins out early for collection. If under the proposed bi-weekly system, I miss a collection; a month will pass before the next waste collection. I imagine it would not be in the interest of the city to have people's properties full of uncollected trash. Of course, those property owners can be ticketed, yet the deluge of complaints that would result would be undesirable. I understand the city is looking for ways to reduce operating costs, but this is a service that should not be cut or reduced. Our area of west kildonan has been neglected for decades: The backlane is so broken and cracked, it is nearly undriveable, the sidewalks, front and back streets haven't been repaired in 30+ years. We are responsible for mowing the boulevard now. Where are the services we are paying for?	11/13/2023 7:04 PM
199	This last contract company not as good as previous one. 4 awhile recently— had driver & guys — it was better. I have backlane, so in winter not as easy 4 guys if backlane not clean. Dealing with another bin 4 compost— understand importance , but it's another bin to deal with. Many people messy & blasé about putting out bins— overflowing garbage/etc	11/13/2023 6:57 PM
200	The person in charge is useless	11/13/2023 6:24 PM
201	We use to have autism bins .These were best for community Garbage . The current grey ,and blue carts are too small . A resident should have a choice what they want to do ,recycle ornuse regular garbage The auto bins should come back for garbage ,and a community bin option for recycling like there use to be with the auto bins . Just one community auto bin for each garbage, and recycling . I have no interest in composting . Climate change is a hoax, and I don't feel renters should have rent upped because landlords have to get compost bins , or home owners should have to pay for an option they don't want .	11/13/2023 6:22 PM
202	I have the largest bins and it's still not enough room for all recycling. There should he free cardboard box pick up as I don't drive.	11/13/2023 5:54 PM
203	Not enough carts are provided for the apartment building. We have 4 floors and 16 units per floor but only 4 normal size black bins. We end up piling trash on the floor for days before pick up.	11/13/2023 4:59 PM
204	Bins to small and people hit them down my lane and make a mess no matter where we put them	11/13/2023 4:38 PM
205	Carts are always thrown to the side and never placed back where they had been taken from	11/13/2023 4:02 PM
206	Our bagged garbage regularly gets ripped open by homeless people looking for scraps. Given the economic situation, I don't blame them for this. However, the garbage crew regularly refuses to pick up the garbage because it's "not bagged" even though it clearly was. I'm then forced to rebag all the garbage, clean the bins, and store them inside my garage which isn't big enough for both the bins and a car (not a big deal in summer, but sucks for winter). The crew has the equipment to just dump it in the truck so why don't they just do it?	11/13/2023 3:42 PM
207	The bin doesn't fit all my garbage.	11/13/2023 3:38 PM
208	Garbage and recycling bins break all the time and takes months and multiple calls to the city to get new bin. Half the time the garbage men don't empty bins even though lids are closed and bins are in perfect condition Garbage men also leave bins in middle of driveways where I have to get out and move them to park on my parking pad	11/13/2023 3:24 PM
209	Garbge and recycling pickup are missed at least once a month	11/13/2023 3:04 PM
210	I'm dissatisfied because I hear a large amount of our recycling is not recycled and thrown out. Also the recycling program we have in Winnipeg is very limited to only a few plastics when there are far more plastic wrapper and bag type plastics that can be recycled. Winnipeg has also been very slow to do make organic pick up happen. After the pilot program to have the city say it could get the program running by 2030 only showed me they have no interest in moving on it, and that's just not acceptable.	11/13/2023 2:59 PM
211	Because the bins don't seem to get picked up often enough.	11/13/2023 2:52 PM
212	Thr garbage bin is not large enough and we struggle every week to get rid of our trash i pay taxes and should be able to leave as much trash as I need at the curb not what the city thinks is appropriate I have a large family and your small bin does not serve everyone equally. Going to a 2 week system would be ridiculous I can barely manage with the small bin once a week	11/13/2023 2:51 PM

213	Live in a Condo, use contracted garbage service.	11/13/2023 2:28 PM
214	A city our size should have a kitchen waste pick up service for composting	11/13/2023 2:17 PM
215	Would like a compost program, it's 2023	11/13/2023 2:06 PM
216	The amount of times my carts have been damaged by the waste collection company is frustrating and wasteful	11/13/2023 1:49 PM
217	Need a compost program ASAP. People are producing WAY too much garbage	11/13/2023 1:42 PM
218	Frequent missed pickups. Poor handling of missed pickups. Frequent broken carts. Automation that is often not used by employees, instead, hoisting bins above their heads to empty them manually. Trucks too big for street they are operating on, they have accidents that I'm sure they don't report and are not in my best interests to report. It's not cool to be hitting bollards and trees. It's not acceptable to be drive off-road and making a mess of mud all down the street because the trucks are too big. Too many trucks! Excessive wear, tear and damage to street. Trucks not at all distinguished by what they are picking up. Who knows what's going in what truck? Liquids and other materials that spill and are not contained or cleaned up.	11/13/2023 1:42 PM
219	Most of the garbage/recycle bins on our street have been broken during this past year by bins thrown in their sides after emptying and by aggressively banging the bins on the truck when emptying. Have witnessed this on numerous occasions. Wheels broken off, lids broken off. Both of our bins are currently held tidethet with duct tape.	11/13/2023 1:40 PM
220	First- please correct the wording in this question as it could confuse people with the error. At least once per month our recycling bin is missed for collection. It is out, with the garbage and not overflowing or broken. No labels left by the city. They just seem to forget to get our recycling. This can be problematic, especially when the bin is full.	11/13/2023 1:33 PM
221	There were some times where our bin was not super full and they did not empty our bin. I would also appreciate if they would not just toss our garbage bins in the back lane. That is how they get damaged and I do not think it is right that I have to pay for a new if they get damaged by the collection workers	11/13/2023 1:32 PM
222	In winter the city plows and covers my driveway. They do not remove the snow plowed across it. Often I cannot get my cans through	11/13/2023 1:32 PM
223	Workers are lazy, don't always pick up. Going two weeks is impossible and will result in garbage thrown out of cars. At this point, when a lazy worker misses my house I have to wait a month between pickups! Frig that.	11/13/2023 1:13 PM
224	Contractors do poor work, pick up might happen or not	11/13/2023 1:03 PM
225	Our taxes are high enough Do your job !!!!'	11/13/2023 1:03 PM
226	Should of been left the way it was where we put out our own garbage bags.	11/13/2023 12:47 PM
227	The collection drivers miss our garbage regularly.	11/13/2023 12:37 PM
228	With environmental knowledge, we should in Winnipeg have a compost option to reduce waste and divert biodegradable materials from the landfill.	11/13/2023 12:35 PM
229	I want compost to be separated out and have its own bin	11/13/2023 12:26 PM
230	The program is too rigid and restrictive	11/13/2023 11:54 AM
231	The cart is too large for someone who reuses, gives away, recycles and composts year round and frequently the lid is left open after the pickup which allows for water or snow to collect in my cart before I return from work.	11/13/2023 11:43 AM
232	I would like the city to have a composing program in addition to regular garbage and recycling program. I think the city could do a better job of communicating programs to the public to gain participation.	11/13/2023 11:40 AM
233	No compost program	11/13/2023 11:33 AM
234	Having a bin wrecked by the garbage company and being charged for a new bin.	11/13/2023 11:17 AM
235	In the last 10 years my quarterly City of Wpg Water and Waste bill has increased 130%. This kind of rate increase is completely unsustainable. Where is all of this money going?	11/13/2023 11:10 AM

236	missed more than once. many times in the past as well with emterra.	11/13/2023 11:06 AM
237	My recycling bin got damaged during collection and has not been replaced in 3 months. Still do not have a functioning recycling bin.	11/13/2023 11:01 AM
238	-	11/13/2023 11:00 AM
239	On nous dit de laisser une distance d'un mètre entre les chariots et tout autre objet. Je respecte cette consigne. Pourtant, après le passage du premier camion, je retrouve toujours les deux chariots collés ensemble, ce qui compliquerait le ramassage du deuxième chariot, s'il faut un mètre de distance. Pourriez-vous donner les mêmes consignes aux équipes de ramassage des déchets et du recyclage que vous donnez au public?	11/13/2023 10:58 AM
240	The bins are to small. Recycling is a waste of time as only 9% is recycled. The cost are to high to the user. The compost idea is pointless as who is going to seperate all the waste that is created by companies. We have very little choice to reduce our waste when the majority of it is from packaging we cannot control	11/13/2023 10:56 AM
241	They ALWAYS leave my garbage bins lying on the street	11/13/2023 10:55 AM
242	Want composting program	11/13/2023 10:46 AM
243	Additional garbage cans would be nice, like the old days when we could throw out as many green garbage bags as we wanted.	11/13/2023 10:37 AM
244	I WANT CURBSIDE COMPOSTING NOW!!!!	11/13/2023 10:37 AM
245	Because the constantly treat the carts like crap am asking them around leaving them in the middle of the road. Then the carts break and I have to go 6-8 weeks with out pick up. Absolute crap. I have a family of five waiting that long for pick up is insane especially when it is not my fault these carts repeatedly get broken.	11/13/2023 10:00 AM
246	Miss pickup quite often!!	11/13/2023 9:57 AM
247	Homeless people look through my garbage bin and stole my garbage bin in the past.It cost me out of pocket to replace it.	11/13/2023 9:55 AM
248	yard waste should be collected weekly from spring into the fall	11/13/2023 9:51 AM
249	High cost, and bins are too easily damaged.	11/13/2023 9:45 AM
250	Because there is no composting.	11/13/2023 9:33 AM
251	Too much organic waste put into normal garbage, should have a bin for food waste etc for city to pick up and compost	11/13/2023 9:31 AM
252	Bins are being damaged, missed pickups	11/13/2023 9:29 AM
253	The bins are a pain in the [redacted] They are too big to fit in the yard and heavy! You can't get ALL you garbage in them. MY BIGGEST ISSUE IS EVER SINCE THESE BINS WERE PUT INTO PLACE I FIND THAT THERE IS A BIGGER MICE POPULATION!!! If the city puts in a composting bin the mice problem is going to get worse!! Plus I HAVE NO ROOM FOR A 3RD FREAKING BIN!!! I DON'T EVEN HAVE ROOM FOR THE 2 BROKEN ONES (THANKS TO THE GARBAGE TRUCK)THAT I HAVE NOW!	11/13/2023 9:25 AM
254	Collectors broke my recycling bin, and sometimes miss pick up days.	11/13/2023 9:06 AM
255	always late, bins are too small for what we pay for in "fees"	11/13/2023 8:55 AM
256	Large bin collected every week is totally unnecessary and expensive	11/13/2023 8:44 AM
257	The trash is still in bags formerly just left outside for pickup. Was easy. Picked up while walking. No giant trash bin to haul back and forth and especially in snow and dodge leaving the driveway and no extra cost. Now giant plastic trash bins to "dispose of" when worn out. And no, it is not easier to pickup. Required truck modifications which at the start did not work in small back lanes that had o er head wires. I see zero benefit especially to the environment. I ask, who is paying attention in a logical way?	11/13/2023 8:44 AM
258	Question 6 has a spelling mistake. Didn't anyone proofread this survey? Typical city of Winnipeg and not surprising. Also pickup is not reliable, especially yard waste bags. Sometimes we have extra garbage, onerous to find ways to dispose.	11/13/2023 8:29 AM

259	Need compost pickup	11/13/2023 8:21 AM
260	Because since the introduction of the bins it is more likely to find garbage floating around yards that needs to be picked up.	11/13/2023 8:19 AM
261	My and my neighborhood bins are handled extremely roughly by staff,leading to bins cracking and breaking. This shortens their lifespan. Very very wasteful and unnecessary. Also there's often many weeks that go by where I don't take my garbage bin to the curb because it's not full.	11/13/2023 8:04 AM
262	Companies do not take care with the bins, they are now both damaged due to their lack of care.	11/13/2023 8:03 AM
263	Not enough room and i am responsible for costs if the bin breaks. Try to find spots to store the bins. I dont want any additional bins.	11/13/2023 7:55 AM
264	There should be a compost pick up	11/13/2023 7:28 AM
265	We need to start composting instead of focusing on garbage.	11/13/2023 7:21 AM
266	Bins are often missed on pick up day.	11/13/2023 5:59 AM
267	Some weeks they clearly don't come at all and if something is blocking the lane they do nothing about that and don't pick up garbage	11/13/2023 5:45 AM
268	Way too much emphasis on trash, I produce so much more here than when I lived in Nova Scotia. Simply because so little is recycled and there is no compost	11/13/2023 2:40 AM
269	Combined recycling is ridiculous. It guarantees that paper will be contaminated and unusable for recycling. Winnipeg is 20 years behind.	11/12/2023 10:23 PM
270	Missed pick-ups, challenging to get garbage picked up, trucks are too big for the back lane and they sometimes cause damage (hitting fences, poles, etc), sometimes garbage trucks don't use the automation they are equipped with -which seems odd,	11/12/2023 4:22 PM
271	Because city workers keep breaking every damn bin on our block when picking up garbage. I am extremely dissatisfied with winnipegs garbage pick up as Missing and Murdered Indigenous people are ending up in landfills. I'm dissatisfied that winnipeg is ok with leaving our relatives in landfills while having garbage dumped on known locations where deceased indigenous people are	11/12/2023 2:36 PM
272	I hate that I need to rely on neighbours or keep garbage in my yard til the next pick up mostly because my garbage is heavy with refuse from fostering animals and I don't want to wreck my bin and have to replace it at my own expense.	11/11/2023 10:35 PM
273	Lots of litter after garbage day	11/11/2023 7:19 PM
274	Im concerned because these garbage and recycling trucks go up and down every back lane twice during a single run. This adds wear and tear to the vehicles as well as double the pollution.	11/10/2023 9:47 AM
275	I have had my garbage left behind on numerous occasions. The truck has about a 60% chance of actually clearing out my bin. I have 8 different 311 calls for this and it has probably happened twice as many times.	11/9/2023 4:56 PM
276	Garbage collection is not monitored properly to ensure safety of the public	11/9/2023 8:07 AM
277	They skip taking my garbage frequently for up to 2 weeks. My garbage is out and on the curb but they don't take it.	11/8/2023 5:47 PM
278	Search the landfill for people who are missing. Also install cameras	11/8/2023 1:22 PM
279	They rush, throw the carts, often break the carts, and leave waste in the carts.	11/7/2023 1:29 PM
280	One occasion- garbage not picked up. Recycling was but not garbage. Both bins out in time, and our alley down not allow the truck to use the arm. When we talked to 311, they said leave it out and it will be picked up. A week later it wasn't. We called again and finally it was picked up. Another occasion- the bin was. It emptied entirely in the summer and there was a bag of chicken that sat in the hot sun, creating maggots. The guys use the truck and load the cart	11/7/2023 8:02 AM

	and bang it twice. Not once did they look inside, I watched from my window. They also just toss the bins and if they fall over, they leave them. My bin is now broken at the handle.	
281	Limited to how much garbage is picked up by size of bin.	11/7/2023 7:15 AM
282	My buns are broken from them throwing them around.	11/7/2023 6:31 AM
283	There is very little care of the bins by the employees. Often found not at our gate after collection, and frequently damaged. they have also driven into our fence causing damage	11/6/2023 9:01 PM
284	Many of my lane neighbors put a great deal of garbage items by their bins hoping it will be taken away. With additional fees along with them either not knowing or affording the excess pickup, our lane looks like a dump site. Why can't ALL the refuse be collected ALL the time? It's ridiculous that picking up extra garbage because the bins are so small for larger families? How can they take care of it and Feed their families? Our bin is larger than there's for two of us. Makes zero sense.	11/6/2023 4:26 PM
285	Cans do not always hold enough week to week. I don't have room to store a larger can especially when it's not needed every week. Exceptions should be made during times like Christmas where there could be more garbage than typical. Families often gather at one place to celebrate and open gifts. Wrap and packaging can easily take up more than 1/2 the can. Homeowners shouldn't have to store this for weeks or pay 20.00 to dispose of this at Brady Road 4R.	11/6/2023 2:36 PM
286	My bins are never emptied all the way and they are thrown back on my driveway infront if my vehicle or on its side.	11/6/2023 12:53 PM
287	The landfill needs to be searched. Stop dumping garbage on my friends. Aho.	11/6/2023 12:33 PM
288	I moved back to Winnipeg in 2012. I took the composting course through the Green Action Centre. The fellow who supervised waste services said that Winnipeg should have a home composting pick up service by 2015. It is now 2023 — 8 years ago — and NO such service! When I lived in Parksville, BC, they introduced this service and it was WONDERFUL!!!! I couldn't believe how little garbage resulted from this service! We had counter-top green bin which was lined with a composting plastic liner. They took items that regular composting waste did not take — like milk products and meat. The green composting bags were put in the BIG green containers that were on the curb. So, they rotated collection of the green, black and blue bins. I know it has been mentioned as "too expensive" for citizens of our City. However, I think the service makes a dramatic difference in the amount of composting material which goes into the landfill!!!!	11/6/2023 10:55 AM
289	Closing the cell holding the sacred remains our society could not turn a blind eye to is insufficient. There are many others there, including Tanya Nepinak whose search lasted only a single week. Every load of trash that's dumped at Prairie Green is a fresh act of violence against MMIWG2S+ & men. Every load of trash that's dumped at Brady is a fresh act of violence against MMIWG2S+ & men. A new landfill needs to be built & the two we're using need to be closed & searched top to bottom. Even if it takes 100+ years it needs to be done.	11/6/2023 8:36 AM
290	Quite often our bins are missed. This question is written wrong. Would should be you.	11/6/2023 2:29 AM
291	The truck drivers don't care if they miss thier truck. Garbage day means garbage will be all over my street. The trucks break the bins and the home owner is left with a broken bin and it takes months for a new one to show up. Make more recycling depots and open the the lids so that the civic centre doesn't look like a collapsed cardboard house fort!!! It's embarrassing for the community	11/5/2023 9:57 PM
292	Bins are damaged but I can't get new ones. I can't fit some items into the carts but the minimum charge at the landfill is too high for my small loads.	11/5/2023 9:26 PM
293	I am dissatisfied because my garbage doest get taken when too full or something not allowed is in it. I do t do that! My back lane is full of drug addicts and homeless people. They go through my garbage and put stuff in it! Why should I be penalized? Clean up the homeless population before leaving my garbage can full of garbage.	11/5/2023 8:49 PM
294	I want compost and yard waste picked up weekly, and my bins to not be left in the middle of the street or in my neighbors yard	11/5/2023 8:19 PM
295	No composting bins are a must. Trucks don't know how to drive the corners without damaging bins, fences, driveways... They knock over bins with the truck while turning even if bins are	11/5/2023 6:22 PM

	inside there property line then leave them down on the ground. They have damaged me and my neighbors fence. I surveyed to build my fence paying $10k for fence just to have the garbage truck take a chunk out of my corner post.	
296	Stuck with Monday pickup should rotate as if we go out of town for the weekend we miss our pickup	11/5/2023 5:32 PM
297	My bin is not empty regularly either because the pickup service has not emptied it completely or right after they have emptied it someone has dumped into the bin before I get home (I know it has been dumped as the bags are not the kind that I use) Prior to pickup, evening before, I put my bin out but I am still gathering - I move the bin before I am done loading as if it is full I often cant move. When I go out to add the rest of my garbage I often find that my bin is OVERFULL as someone down the back lane has dumped in my bin. When I put my full bin out the night before (I have to catch my work bus before 7am) I dont know if others have added but when I come home I find garbage in my bins or on the ground by where my bins are. I HATE the bin system as everyone seems to be dumping illegally beside and in the bins.	11/5/2023 5:29 PM
298	Too much is accepted as garbage when most of what has to go in there since we don't have food waste pickup and we dont have great recycling depots should not go to the landfill	11/5/2023 4:03 PM
299	our garbage cans are getting broken due to the collection and they are ALWAYS left in the middle of the backlane	11/5/2023 2:27 PM
300	Because all garbage collection fees should be in property taxes and we should not have to pay extra.	11/5/2023 1:25 PM
301	There is never enough room in my garage bin or my neighbours bins and the cost of extra pick up is too expensive for almost all the residents in my area so there is ALWAYS garbage throughout the streets.	11/5/2023 1:08 PM
302	I only generate 1 small bag of garbage per week, mostly plastics. The petrochemical industry needs to take care of its water problem. It is also a waste of energy having 2 trucks go down my back lain twice, pick up on one side, and pick up on the other side.	11/5/2023 1:02 PM
303	Extra fees to pay for garbage collection on top of already high property tax, especially when I live in North end and the city barely provides service (when you call to report issues they come and try to find a reason to fine you) I feel ripped off and neglected by the city.	11/5/2023 1:00 PM
304	Don't handle large waste	11/5/2023 12:27 PM
305	Our garbage carts are never placed back appropriately. Many times the carts are left blocking the back lane. Lots of garbage is spilled by the collectors and they DO NOT attempt to manually pick it up.	11/5/2023 10:47 AM
306	Trash pickup used to be much much better. Since bringing in the bins we've had to worry about what to do on weeks when we have too much trash (especially after big holidays etc...). During the winter months the plastic bins are easily damaged by the trucks collecting trash, leading to a lengthy and costly replacement. Oddly shaped items require an extra fee to dispose of. Honestly trash pickup used to be so much better and cheaper. When we made the switch away from regular trash pickup 10+ years ago, it was a massive failure of public service.	11/5/2023 10:08 AM
307	not enough compost pickups throughout the year	11/5/2023 9:39 AM
308	Bins are too small. The hope was waste would be sorted and taken to 4r depots by home owners - this is a loss of service for same collection fees.	11/5/2023 7:45 AM
309	Lazy pickup, garbage left on lot, no concern with tidiness, lazy.	11/5/2023 7:23 AM
310	Too much stuff goes in the garbage; join the rest of Canada an implement a compost program and a proper recycling program where all plastic, paper, tin and styrofoam can be recycled	11/5/2023 7:03 AM
311	Most of the time the bin is not properly emptied leaving less space the following week and debris left in the back lane.	11/5/2023 5:55 AM
312	Some weeks have more than space. Sometimes have small Reno pieces, short lumber that fits in bin but they won't take it. Do not know how to handle it if I have larger items. Do not have ability ti take large items including mattresses, trees to depot Marketing for removal of these items terrible If I run out of space I. recycle bin, add to grabage	11/5/2023 12:21 AM
313	People employed by the contractor are reckless driving down back lanes. They are extremely	11/4/2023 11:47 PM

	rough when handling the bins and often create mess from spillage which goes uncleaned up. Bins get broken from the handlers.	
314	Many weeks the garbage and recycling is extremely late and they don't fully dump the bins so there are items left inside	11/4/2023 10:53 PM
315	Garbage often strewn on the street even when wind is not a factor. Garbage bins emptied then left tipped over, broken or near the middle of the street. Yard waste scattered. The bin system itself is more sanitary, however, so much cannot be disposed of such as larger items or extra bags.	11/4/2023 9:28 PM
316	They sometimes miss my recycling cart, then I have to throw it all in the garbage. They have also broke my recycling cart which they replaced with one that has a different address on it.	11/4/2023 6:45 PM
317	We need an organic waste pick up	11/4/2023 6:12 PM
318	I have seen the garbage truck dumping both garbage and recycling in the same truck plus need bigger bins	11/4/2023 6:05 PM
319	Carts are left on the street or in the driveway after pick up requiring to stop my vehicle on the street to move the cart to drive in 50% of the time even though the carts are not in that area when placed for pickup	11/4/2023 6:00 PM
320	My cart has been broken and getting it fixed has been a hassle. I have seen my bins thrown down or I find my bin more than 150 ft from where I left it.	11/4/2023 5:58 PM
321	we should have also implemented a composting program a long time ago to reduce the amount of waste	11/4/2023 1:07 PM
322	The people that pick up our garbage in our neighborhood don't do a great job. Every pick up we end up up with garbage down our street and other streets in our neighborhood including glass from the recycling. We have a neighbour who goes down the street picking up the glass with a bag so the dogs don't get it in their paws. It's awful!! I'm forever picking up garbage after the garbage man comes. When we had the other people, we never had this problem!!	11/4/2023 9:08 AM
323	The Millar's company that comes to our house is a very dishonest company. We have two young adults that work for them and they are treated horribly and often are not paid correctly. They will go to work for 5:30 each morning to be turned away because there is no work. They are supposed to be paid for this time but they are not ever paid for this time. I understand that Millar's uses this temporary company to get workers but they are very unethical	11/4/2023 7:54 AM
324	There is no compost option, and I don't think recycling even gets recycled	11/3/2023 10:43 PM
325	There needs to be a responsible and harmonized waste like big bins for scraps and non salvageable waste and recycling and recycling and composting and donationing	11/3/2023 10:17 PM
326	The entire system is needlessly complicated. Go back to normal garbage pickup where you use your own cans, and the truck will pickup as much of whatever you leave in your pickup spot.	11/3/2023 8:24 PM
327	The pick ups are so sloppy. Mess all over the lanes and so much damage to the bins. Also, from an environmental/life cycle perspective, having 2 separate pick ups every week does not make sense. The impact of those big trucks with engines running all that time is crazy	11/3/2023 3:34 PM
328	I would very much like yard waste to be a bin service too, like it is in Brandon. That would save us money having to buy[redacted] brown bags each season and would be convenient.	11/3/2023 3:02 PM
329	The amount of garbage that gets blown into our community on pick up days, the unwillingness of city to provide more bins in green spaces, the unwillingness of the city to pick up garbage after a community cleanup. It appears they do not appreciate community involvement.	11/3/2023 1:58 PM
330	I don't have anywhere to store these bins so they stay out and get smashed	11/3/2023 12:20 PM
331	Carts damaged constantly, replacement is a hassle. Carts left in to far into back lane can be a Hazzard when driving. No thought seems to be given to where said carts are left after emptying	11/3/2023 9:49 AM
332	The leaves (yard waste) should be picked up weekly from sep 15 until nov	11/3/2023 8:21 AM
333	Wpg. needs to implement the compostable kitchen waste program NOW…not 4 years from now. All the current kitchen waste is needlessly filling up our landfills when it could be	11/2/2023 10:10 PM

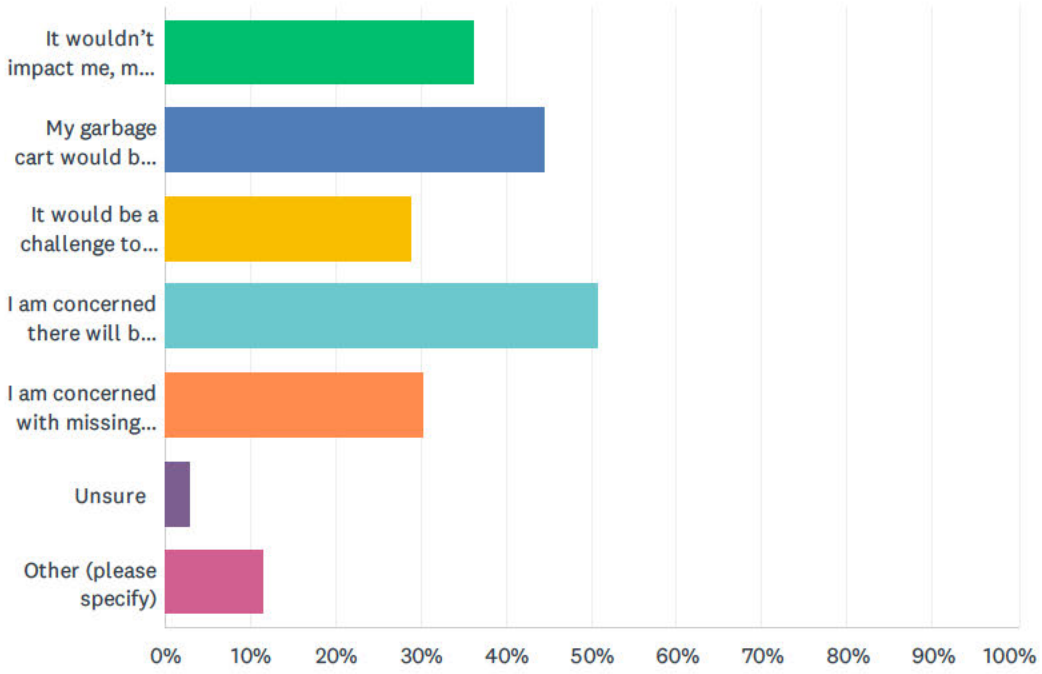
	repurposed to create compost.	
334	Like stated in the other above the crews who now walk behind the truck have broken both my black bins and one that was replaced and broke the recycling bin is now all cracked. And now they refuse to remove the refuse	11/2/2023 9:46 PM
335	Bins are constantly Left on the street instead of being put back on the curb and bins are being broken due to how they are being handled.	11/2/2023 8:47 PM
336	We need compost pick up now. We need more separation of recycling: paper (including cardboard), glass, plastic, aluminum, other metals -- these should all be collected separately. We need periodic 4R collection events offered on site for large apartment buildings.	11/2/2023 8:25 PM
337	Employees are very rough with the bins and have caused cracks and damage	11/2/2023 8:13 PM
338	The workers handle the bins roughly, breaking them. They also leave them in the back lane so that cars can hit them. I've had 2 bins stolen and had to pay a hefty fee to replace them	11/2/2023 7:30 PM
339	Base volume for a family of four is too small	11/2/2023 6:11 PM
340	I think there should be a compost option!	11/2/2023 4:36 PM
341	I feel strongly that we should include a green can program for household compost. We are the only major city in North America that does not have such a compostable pickup program!	11/2/2023 4:25 PM
342	I would like to be able to have the compost bins as well. Also the workers don't put the bins back where they got them. Leaving on the street is a hazard for accidents	11/2/2023 3:04 PM
343	Often need to call about missed pickup and lack of care about carts when tossing them after emptying	11/2/2023 2:01 PM
344	needs to include compost as well - we're putting a lot of compostable material in the garbage can	11/2/2023 1:01 PM
345	It's sad that garbage is picked up weekly, why not make composting and recycling weekly a priority to reduce organic waste going to the landfil.	11/2/2023 12:20 PM
346	Recycling collectors manage to close the lid, but broke it. Garbage collectors can't manage to close the lid. One of them broke a sign we had in your yard.	11/2/2023 11:41 AM
347	Carts are often broken by your collectors and it takes forever to get them fixed or replaced	11/2/2023 11:34 AM
348	Carts frequently break. The process for having a broken cart fixed or replaced is ridiculous. 311 emailing and ticket management is a Joke. I spend more time managing the lifecycle of my 311 ticket than you do. What happened to the 311 app??? please bring that back so cart reporting and the replacement workflow can be automated. Carts are too small because we don't have a kitchen waste compost cart/collection. Why must I throw all of this compostable garbage into plastic garbage bags and fill up the landfill? this is a disaster. I'm embarrassed to live in a city that hasn't already addressed this. More pressure needs to be put on retailers to eliminate styrofoam or financially penalize retailers who are offering grocery/fresh food products in styrofoam. we were successful with fast food and takeout, let's keep the momentum going. there can be no more excuses. The city does not audit or hold commercial properties accountable for garbage and recycling. This creates messes in my area (adjacent commercial). There is loads of graffiti on the dumpsters adjacent to my lane/property. the garbage overflows and tracks all over the lane. liquid spills from the leaking dumpsters. the lids don't close and this attracts/feeds scavenger mammals and birds.	11/2/2023 11:25 AM
349	I often find that after the containers are empties they are strewn all over the driveway- can they not be put back to their original spots	11/2/2023 11:22 AM
350	My whole back lane was impacted this summer with about a third of the blue carts being damaged, and finding a note tied to it saying "Damaged cart, pickup will not be done". I feel this was due to rough handling of the carts every week. Thank you so much for not charging me for a new cart, which came three weeks later.	11/2/2023 11:20 AM
351	We only need garbage pick up twice a month. The trucks do to much damage to our back lane. We don't have much waste.	11/2/2023 11:15 AM
352	We need compost pick up.	11/2/2023 10:47 AM
353	Two weeks this month my garbage was not collected.	11/2/2023 10:45 AM

354	They never come consistently and its a blame the victim mentality that home owners have to pay to have their bins replaced if they are stolen	11/2/2023 10:39 AM
355	Have to use those carts or they won't take it, they break the carts then I have to pay to repair it	11/2/2023 10:22 AM
356	Collection is good but organic matter needs to be collected and composted separately	11/2/2023 9:56 AM
357	I would like to have city wide compost.	11/2/2023 9:40 AM
358	Collection is rarely if ever on scheduled day. Secondary to this, parking restrictions designed to give trucks access are ineffective and kerbs/boulevards are heavily damaged.	11/2/2023 9:38 AM
359	Quite often it is not completely emptied or the cart is damaged while being emptied.	11/2/2023 9:36 AM
360	I am Friday pick up(which at times means Saturday) and this affects my weekend travels. I MUCH preferred the 5 Day cycle versus the fixed day schedule. The actual service is otherwise ok	11/2/2023 9:28 AM
361	The drivers try to move as fast as possible and end up dumping a lot of garbage on the ground for the residents to pick up a second time	11/2/2023 9:26 AM
362	Almost every single time we schedule extra garbage pickup, the truck doesn't take the extra bags and we have to go through a huge runaround to get it done. Very very bad service.	11/2/2023 9:09 AM
363	We need a compost collection program.	11/2/2023 9:09 AM
364	Don't fake extra items, leave bins in front of the garage door,	11/2/2023 9:09 AM
365	The collectors leave the carts haphazardly in the lane, sometimes not even standing.	11/2/2023 9:03 AM
366	Winnipeg does not incentivise citizens to compost, recycle and otherwise reduce landfill waste. Charge for garbage over a certain amount!	11/2/2023 8:58 AM
367	You do not offer composting. It is unfathomable that in this day and age our city is so far behind the rest of the country.	11/2/2023 8:57 AM
368	During summer months grass cutting is usually done twice per week but pick up is bi-weekly?? So that waste sits for 2 weeks? Why? Garbage pick up is weekly? This city is so far behind other big cities it's sad.	11/2/2023 8:43 AM
369	Garbage collectors miss picking up and leave cans strewn about all over the road. There's absolutely no accountability.	11/2/2023 8:42 AM
370	We should have a composting program. Since we don't have a composting program, our garbages get very full, very fast. However, we ALSO don't have an option for our garbage to be picked up if it's over-full. Having a composting problem would solve this problem. OR, letting peoples garbage picked up, even if it's overflowing. You can't just NOT offer both.	11/2/2023 8:34 AM
371	Bin. It big enough for garbage I babysit 3 kids all week need more space	11/2/2023 8:32 AM
372	No care is taken with the carts by waste management staff. Almost every time they finish the cart is either laying on its side or been moved at least a meter. If the arm on the truck is used it should be put back in exact same spot and worker on truck should have to right knocked over carts.	11/2/2023 8:15 AM
373	The original carts are not big enough for a family of five. Our garbage and recycling are always full and we are constantly asking our neighbours to use their carts. But sometimes that doesn't work because theirs is full.	11/2/2023 5:00 AM
374	Bins are too small, and garbage collection won't take bins if lids aren't fully closed if I leave garbage bags on side they do not take them. Also I dislike the lack of composting options.	11/1/2023 11:41 PM
375	Yard waste should be picked up every week during spring, summer, autumn. Had to complain to 311 about my recycling bin being damaged twice. It's fine now, but that is why I'm dissatisfied.	11/1/2023 7:20 PM
376	Compost regularly gets picked up ahead of time instead of on the day it's supposed to so it sits out for two weeks. Garbage & recycling bins are tossed around and broken often left in the way.	11/1/2023 9:50 AM

377	Every major city now has green box for weekly compost pick-up in addition to the blue and black boxes. We are 30 years behind Vancouver for this. It is disgraceful. We should be ashamed as a city and the talk of caring about the environment is [redacted] until we start engaging all the programs available. The amount of materials we can recycle is a disgrace. Other cities can recycle every item with the recycling symbol--how many can we recycle? Only two of the numbers? It's embarrssing.	11/1/2023 8:32 AM
378	If truck spills some garbage no one picks it up	11/1/2023 1:41 AM
379	Households out out too much garbage. There is no composting program and Winnipeggers are not encouraged to recycle. Can deposit areas non existent. Most Winnipegger believe our recycling ends up at the dump anyway. This has been proven true in the past.	11/1/2023 12:33 AM
380	Because most of the time the guys leave the bins in the middle of my driveway when I leave them neatly on the side for them. Not everyone is able to get out of their vehicle to move them in order to get into the driveway/garage. And it's a safety issue if an ambulance was ever needed.	10/31/2023 8:45 PM
381	I have to phone 311 on a regular basis because the garbage truck just drives by without even attempting to pick up our garbage. I've had several conversations with the waste department and they assured me the problem would be resolved, that was several years ago . As I'm typing this up, the truck just drove by again	10/31/2023 4:25 PM
382	Not enough trash is being picked up, people don't seem to want to pay extra so neighborhood is a mess	10/31/2023 2:40 PM
383	After dumping my neighbour's garbage bins into the truck, they place their empty bins on my property at the end of my driveway. I should not have my driveway blocked like this each week.	10/31/2023 12:32 PM
384	Would appreciate being able to leave "overflow items" beside our carts and have this picked up without a fee. Also, and this just started within the last year, city workers ALWAYS leave our bins in the middle of our driveway. So incredibly inconsiderate however I acknowledge they are likely overworked and their ability to provide considerations such as this are limited to restrictions on their time.	10/31/2023 11:12 AM
385	.	10/31/2023 9:12 AM
386	Garbage is not picked up weekly,and calls to 311 solve nothing	10/31/2023 6:39 AM
387	The bin is too big for me to move especially in the snow. I used to just tip my garbage can and drag the bag to the curb. It was doable. Now it's a night mare. I have to fight my way to the curb to throw out my garbage in the snow because I can't move the damn thing.	10/30/2023 9:06 PM
388	I would like to see composting available as this will reduce the black garbage bin use and what goes into the landfill.	10/30/2023 6:14 PM
389	Bins don't hold enough. THere's a cost if they are stolen and users are stuck with a single source of replacement. Third party resources should be allowed.	10/30/2023 4:13 PM
390	Roadside compost collection would greatly reduce the amount of waste produced.	10/30/2023 1:48 PM
391	It's 2023 and we don't have compost pickup. I lived in a city that did previously. We had two kids in diapers and generated, on average, half a bag of garbage a week. Without the compost option here, we are adding SOOOO much to the landfill. It makes me sick actually thinking about it.	10/30/2023 1:35 PM

Q7 Many cities that have a weekly green cart program for food waste collect garbage every two weeks. Most of the 'smelly' waste can be placed in the green cart, reducing the need for weekly garbage collection. If your garbage was collected every two weeks, how do you think this would impact you? (Check all that apply)

Answered: 8,700 Skipped: 536



ANSWER CHOICES	RESPONSES	
It wouldn't impact me, my garbage cart wouldn't be full in two weeks	36.28%	3,156
My garbage cart would be full or overflowing in two weeks	44.56%	3,877
It would be a challenge to store diapers, hygiene products, or pet waste for two weeks	29.10%	2,532
I am concerned there will be an issue with smell, rodents, or pests	50.67%	4,408
I am concerned with missing a pickup if I'm away or forget to put my cart out	30.37%	2,642
Unsure	3.05%	265
Other (please specify)	11.41%	993
Total Respondents: 8,700		

#	OTHER (PLEASE SPECIFY)	DATE
1	As a disabled person I already miss pickup days sometimes because I can't get out of the house on bad days. If the next pickup was two weeks away, this would be a very serious problem.	11/30/2023 5:24 PM

2	If green carts are introduced, then 2 weeks for garbage pickup is acceptable.	11/30/2023 9:35 AM
3	our garbage bin is put out for collection only if full or smelly	11/30/2023 8:50 AM
4	The city will still charge the same taxes for less pickup	11/30/2023 8:32 AM
5	would my taxes reduce if you were cutting my service in half?	11/29/2023 12:12 PM
6	Already collected by weekly	11/29/2023 12:10 PM
7	I think if there will be a green waste pick up weekly, the garbage and recycling pick up weekly can be done in 2 weeks. Considering this is Winnipeg, citizens should have a pilot program before implementing it to the general public.	11/29/2023 10:02 AM
8	I am concerned where other people would put garbage that doesn;t fit.	11/29/2023 8:28 AM
9	Where the HELL would a THIRD bin go? The lanes are already blocked with two!	11/29/2023 8:22 AM
10	Cleaning the cart in winter. Also apartment /condo bldgs.	11/29/2023 5:42 AM
11	There are a lot of rental houses on our street, and many of the renters do not have a clue about proper garbage disposal and recycling. While 2-week pickup would not affect us, the bins in our back lane would be even more overflowing than they are now. MUCH MORE PUBLIC EDUCATION, INCLUDING PENALTIES AND FINES, IS NEEDED!	11/28/2023 4:57 PM
12	How much money is this going to cost to be effective?	11/27/2023 7:48 PM
13	Some weeks would be full, others not so much.	11/27/2023 3:57 PM
14	It would force extra cost of needing 3nd garbage can	11/27/2023 2:04 PM
15	I don't have green cart so just blue and black	11/27/2023 11:54 AM
16	In the summer I worry about the smell. Not in the fall-spring though.	11/27/2023 12:01 AM
17	Apartment block garbage is emptied when full more than weekly	11/26/2023 11:32 PM
18	Make compost happen!!	11/26/2023 9:10 PM
19	WOULD CUT MY COSTS IN HALF	11/26/2023 4:48 PM
20	would be OK in winter, but not in late spring/summer/fall when garbage rots quickly	11/26/2023 3:11 PM
21	If there is pickup of food waste including meat then every 2 weeks should be fine	11/26/2023 1:00 PM
22	This is a bad idea	11/26/2023 12:01 PM
23	If a food waste collection program included food that I can't put in my own compost bin, then I might have less garbage in my cart. It all depends on what kind of food waste the city is considering, for example, leftover cooked food that has gone bad? Out-of-date yogurt?	11/26/2023 11:50 AM
24	recycle bin could not hold 2 weeks of recyclables. Recycle bin is usually full after 1 week while the garbage bin is only half full	11/26/2023 11:35 AM
25	I want compost pick up.	11/26/2023 11:21 AM
26	Pickup every 2 weeks is an absolutely AWFUL idea!	11/26/2023 10:37 AM
27	This is a horrible idea that will lead to rodent and health issues.	11/26/2023 10:32 AM
28	I don't understand the question. If the question is "would a weekly food waste collection make it possible to have garbage collected every two weeks?" my answer is yes. A weekly food waste collection and garbage collected every two weeks would be fine.	11/26/2023 9:29 AM
29	I compost and am careful but i do have pet waste which goes in garbage.	11/26/2023 8:09 AM
30	With 5 people in my household I could never manage with an every 2 week pickup, even if I applied for a bigger bin	11/26/2023 7:16 AM
31	The neighborhood of St. John's would be overflowing with garbage. It's bad enough now.	11/26/2023 12:38 AM
32	If taxes not reduced then no way.	11/25/2023 8:09 PM
33	If you're only talking about a green cart every 2 weeks then I could accept that, but I compost	11/25/2023 6:17 PM

	already so don't see the point. If it will increase cost to me then I have zero interst in a green cart	
34	My garbage can likely wouldn't be full after 2 weeks but others in the neighborhood would be. There is already enough garbage flying around, if you only pick up every 2 weeks it would be awful. Winnipeg is already a messy and dirty city it doesn't need to be any worse.	11/25/2023 6:14 PM
35	no room for additional carts; street size too small causing missed bins as drivers lose site of bins while backing up to make the curve on our street which is a "Place" around a traffic island	11/25/2023 6:10 PM
36	Garbage not an issue - large container (apt)	11/25/2023 4:46 PM
37	We compost	11/25/2023 4:10 PM
38	I am concerned about multiple family households where they have too much garbage for one garbage bin to be picked up every week. If the garbage was picked up every second week there would too much garbage and too few bins. Only if those households were issued multiple garbage bins would the bi weekly pickup plan work.	11/25/2023 3:47 PM
39	Unless the city is reducing my taxes associated to the reduced service, then the city is effectively increasing my taxes!	11/25/2023 2:32 PM
40	It would be a mess. With a one week pickup the garbage cans need to be bigger.	11/25/2023 1:54 PM
41	Impact would be felt at Xmas time when there is an increase in recycling waste and non recyclable non composting materials like packaging materials and wrapping paper	11/25/2023 1:04 PM
42	gargage would pile up in poorer areas even worse than it does now	11/25/2023 12:09 PM
43	I live in the inner city, and I would be worried about garbage being disturbed or thrown around if left for as long as two weeks at a time.	11/25/2023 11:27 AM
44	I have been composting my food scrap and feed it to my garden	11/25/2023 10:13 AM
45	[redacted] idea put out by a councillor with zero background in garbage maintenance	11/25/2023 9:46 AM
46	Only if there was also a drop of site	11/25/2023 8:52 AM
47	Our street already has a rodent problem and I am strongly against this change for this reason	11/25/2023 8:49 AM
48	[redacted] You want less services? Are you crazy?	11/25/2023 7:36 AM
49	I live in the north end, people would not store garbage in there house or apartment, so therefore they would put it out on the street and vagrants and animals would tear into it messing up the neighborhood	11/25/2023 7:13 AM
50	For me not a problem, the 4 plex behind me always has 8-10 bins over flowing and garbage blowing every where.	11/25/2023 6:03 AM
51	Saskatchewan has a two week pick up and there is always garbage all over the streets because people have to pile the bins so high that garbage ends up all over the place. Not a good idea. The waste won't be reduced by having biweekly pick up. People still accumulate the same	11/24/2023 10:57 PM
52	We have no room in garage to have to store a 3rd bin.	11/24/2023 10:05 PM
53	We are overcharged as it is, if they city reduces garbage pickup that better come with a hefty reduction in garbage fees.	11/24/2023 9:27 PM
54	I'm concerned with my neighbours already overflowing bins	11/24/2023 9:07 PM
55	If recycling is not picked up weekly it works be a problem. Our blue bin is always full.	11/24/2023 8:58 PM
56	My bin is full to the top every week with 4 people in our home, including a baby.	11/24/2023 8:22 PM
57	Do not want 2 weekpickup	11/24/2023 7:59 PM
58	Very full in one week. Two would not work	11/24/2023 7:23 PM
59	We often put out our bins once every two or three weeks	11/24/2023 6:18 PM
60	Bad idea don't do it	11/24/2023 6:16 PM

61	I don't need the green cart, it would be expensive & useless	11/24/2023 6:16 PM
62	Missing pickup means four weeks before pickup which is not acceptable	11/24/2023 6:14 PM
63	requiring less packaging in retail stores would help	11/24/2023 5:16 PM
64	We do not currently have a compost collection yet, so doing this would not be practical	11/24/2023 9:35 AM
65	It's not bad at all. Even if it's full the garbage isn't rotting and attracting animals.	11/23/2023 8:57 PM
66	There would need to be assistance on how to get to two weeks safely.	11/23/2023 8:40 PM
67	This only applies If no other other supports were in place such as composting.	11/23/2023 7:43 PM
68	I'm not sure how much of my current garbage would be moved to a green bin if I'm supposed to consider that	11/23/2023 7:31 PM
69	I have lived multiple places with this and these programs are the best. We never filled our garbage can	11/23/2023 7:18 PM
70	Wouldn't really know until we tried it! I think I could have way too much garbage that it would be overflowing but if I'm composting then a lot of the food waste would go there. Honestly let's try it and see how it goes!	11/23/2023 6:48 PM
71	Already compost at home	11/23/2023 5:27 PM
72	If organic waste was taken out, I would not fill my bin weekly	11/23/2023 2:40 PM
73	I am unclear on how the green carts are kept clean.	11/23/2023 1:28 PM
74	for the most part not an issue, but there are times when it is very full	11/23/2023 1:14 PM
75	I live in a condo and garbage is picked up twice a week	11/23/2023 11:28 AM
76	Noway, I would prefer 2 garbage collection per week .	11/23/2023 8:51 AM
77	I think this could be great as most of the bulk of our garbage is in recycling bin not garbage	11/23/2023 3:42 AM
78	it will be smelly in the warmer, summer months	11/22/2023 1:53 PM
79	I live in a house with two roommates - we don't consolidate waste (some are unwilling to collaborate) so every other week would not be frequent enough.	11/22/2023 1:36 PM
80	DO NOT move garbage and recycling to 2 weeks. Almost every house in my alley has a full cart to the point they throw stuff in mine! And I need the space myself.	11/22/2023 1:33 PM
81	Definitely i have too much garbage to wait 2 weeks	11/21/2023 10:48 PM
82	This would impact negatively. Don't fix what isn't broke	11/21/2023 7:05 PM
83	ARSON RISK!!!!!!!!	11/21/2023 6:00 PM
84	DO NOT WANT EXTRA TAX Also I have my own compost bins which I have used for 25 years	11/21/2023 5:28 PM
85	It’s my neighbours that have overflowing garbage- every other week would cause even more garbage and debris in the yard!!	11/21/2023 3:56 PM
86	Awful idea that completely disregards the realities of household waste. Difficult to imagine anything more inconvenient for homeowners.	11/21/2023 3:31 PM
87	there would be bees or flys in my recycle or the black one.	11/21/2023 1:56 PM
88	2 weeks is utterly insane for a family living together in a home.	11/21/2023 1:40 PM
89	Bad idea, summer heat and rotting garbage is a bad idea, overflow garbage is not pretty and will detract from our city	11/21/2023 8:33 AM
90	concerned larger families, rooming houses, apartments would overflow, rodents, garbage everywhere, more time for garbage pickers to make messes	11/21/2023 7:42 AM
91	I would be happy that we’re able to compost	11/20/2023 11:49 PM
92	Hard no from me	11/20/2023 6:26 PM

93	The city sold composters for years. I have two. I put egg shells and vegetable waste into those. I don't have diapers as no young children and rarely have meat waste. The green cart would only be an extra expense for me that I would not use.	11/20/2023 5:27 PM
94	It would only impact me on a few occassions in a year. I can cope with that.	11/20/2023 4:17 PM
95	I would love a weekly green cart and bi-weekly garbage pickup.	11/20/2023 12:50 PM
96	Cart will become to heavy to move to the curb - especially in winter	11/20/2023 12:14 PM
97	we would need the green collection	11/20/2023 10:17 AM
98	Have a compost in my back yard	11/20/2023 9:48 AM
99	Leave it alone. It works well as is	11/20/2023 9:34 AM
100	please move to 2 week pick up	11/20/2023 9:20 AM
101	We have too many homeless going through garbage now I believe this will result in more garbage being spread all over the ground everywhere. Will also bring in certain wildlife to the city from the smell like cyotes raccoons and such	11/20/2023 9:01 AM
102	Had this program in Halifax. My garbage ended up not being as much (even with diapers and pet waste) as a lot of my garbage was food waste which could go in the compost bin. It works!	11/20/2023 8:52 AM
103	It would sit out in the street and make the street more of a mess	11/20/2023 7:19 AM
104	Our recycling bin would overflow	11/20/2023 5:18 AM
105	Larger families are more affected by the need for regular garbage collection. My family of 6 generates more waste than my single elderly neighbor so a one size solution is not appropriate	11/19/2023 9:07 PM
106	Very bad idea	11/19/2023 8:44 PM
107	Green bins will be contamited because the City of Winnipegs plan does not accept the items they compost in the City of Morden and New Market in Ont. What are you going to do with people who have large bins now and still fill them once a week. We are big meat eaters not veg. people. Plus I have two dogs, my neighbor has three big dogs. Other places take in the [redacted] too. Unless you take all the femine hygeine, diapers, [redacted]. You are kidding yourself, really [redacted] not think of charge people either. MMSM is funded by companies that produce the packaging. If anyone should be charged is resturants, prisons, daycares, schools, churches, banquets, grocery stores, cause alot of the waste. I know becuase working at resturants, I have seen it all.	11/19/2023 4:50 PM
108	garbage pickup MUST be weekly	11/19/2023 4:21 PM
109	not in single family dwelling	11/19/2023 3:15 PM
110	Excess garbage would get deposited in inappropriate locations	11/19/2023 1:34 PM
111	We are already using a composting service and do not ever fill our garbage bin	11/19/2023 12:52 PM
112	Currently my garbage bin would be overflowing with a family of 4. If I had access to composting my garbage would be significantly less. I have more recycling than garbage.	11/19/2023 9:27 AM
113	Apartments behind my house already have overflowing recycling bins.	11/19/2023 9:23 AM
114	Leave the current system alone	11/19/2023 6:17 AM
115	On the regular there's more than enough space in the garbage bin BUT people litter and dump garbage which I end up picking up so that takes space in our bin, etc means the current bin wouldn't always be big enough for 2 week pick up. Also harder to remember schedule so would be more missable so would have to wait another 2 weeks for pick up.	11/19/2023 6:13 AM
116	Would like a way to recycle fabric items	11/18/2023 8:49 PM
117	Unless you start recycling more things asap, my cart will be overflowing	11/18/2023 6:59 PM
118	Because it's separately charged from property taxes it would feel a ripoff that you wouldn't be able to use the serivce when you need it.f	11/18/2023 10:49 AM
119	Not sure how the green bin would work, I don't think I would like it.	11/18/2023 9:04 AM

120	If my garbage bin or recycle bin was not full I would use that bin. I pay taxes for weekly pick up & it would be picked up !! !	11/18/2023 8:44 AM
121	my taxes cover weekly pick up. For 2 week pick up, I would want a reasonable discount on my taxes.	11/18/2023 8:24 AM
122	It's good the way it is	11/18/2023 7:59 AM
123	City is a mess and this would give people even more reason to litter	11/18/2023 7:33 AM
124	I would likey need to make an extra trip to Brady once a month.	11/18/2023 5:59 AM
125	Wasps. City willing to pay for the ambulance when stung with all that trash?	11/17/2023 10:14 PM
126	most of the time we would be unaffected	11/17/2023 9:37 PM
127	My garbage could be collected every 2 months WITHOUT having a green cat!	11/17/2023 7:43 PM
128	It would just be full	11/17/2023 7:41 PM
129	I already pay for the carts now I have to still pay and use my gas to take my own garbage	11/17/2023 7:25 PM
130	Grossly unsanitary!	11/17/2023 7:21 PM
131	We compost in our back yard	11/17/2023 5:48 PM
132	There may be less garbage as some would divert to the green bin.	11/17/2023 5:42 PM
133	Not single family household	11/17/2023 3:27 PM
134	I'm concerned there is going to be a huge list of things that could be composted but like recycling can't go in the bin	11/17/2023 3:06 PM
135	Recycling must be once a week	11/17/2023 1:16 PM
136	Homeless people go through our trash in the neighbourhood and sometimes start fires, it gives more opportunity for garbage bin fires	11/17/2023 1:12 PM
137	I really don't need a green cart, nor should anyone be forced to use one at an additional cost.	11/17/2023 11:33 AM
138	Garbage pick up bi weekly would seriously impact my family. My garbage is full WEEKLY	11/17/2023 10:51 AM
139	My blue box would be overflowing	11/17/2023 10:15 AM
140	Winnipegs homeless and low income will be rifling through and spreading garbage in the streets too.	11/17/2023 9:35 AM
141	now i'll waste gas to dump in other bins	11/17/2023 9:31 AM
142	No room for anything inside and outside! As a senior and zero room inside I don't want to be going outside multiple times a day to take waste out. This program should be an option not pushed on us. Hard for seniors and persons with disabilities.	11/17/2023 7:45 AM
143	Many carts are very full in one week. There would be a lot of garbage on the ground	11/17/2023 7:42 AM
144	Storage of a bin for compost materials. Don't want in garage due to smell and rodent possibly coming in.	11/17/2023 7:09 AM
145	Terrible idea to move to 2 week garbage collection	11/17/2023 7:07 AM
146	You would find more garbage along the roads, abandoned in back lanes, business's dumpsters used by entire neighborhoods, stink attracting more animals, bugs, and mold.	11/17/2023 3:26 AM
147	I'm already paying more taxes with less resources in my neighbourhood (my back lane was only graded once this year, there's no paid attendant for our hockey rink, other people don't even know how to recycle properly ect ect)	11/17/2023 1:59 AM
148	There's weeks you guys skip my whole backlane already soooooo	11/17/2023 12:57 AM
149	Living in apartment with big garbage box, would be okay	11/17/2023 12:55 AM
150	i have a composting bin	11/17/2023 12:54 AM
151	Would need to be provided with another bin 100%	11/17/2023 12:05 AM

152	I've lived in cities who do this and it was great	11/16/2023 10:51 PM
153	I compost on my yard	11/16/2023 10:15 PM
154	During some seasons, e.g. Christmas, every two weeks would not be enough	11/16/2023 10:04 PM
155	I am not interested in this program	11/16/2023 8:22 PM
156	I would be concerned about smell in non-freezing temperatures.	11/16/2023 8:06 PM
157	We can go more than a month without filling it; the cart is much too big.	11/16/2023 8:04 PM
158	I need weekly pickup. My can is always full .	11/16/2023 8:03 PM
159	This would rarely work for a family household. Very little of our waste is compostable.	11/16/2023 7:47 PM
160	This is not possible for my household!!!	11/16/2023 6:29 PM
161	Bigger families would have trouble with this	11/16/2023 6:27 PM
162	Neighbors garbage/pet waste collecting and not stored properly	11/16/2023 6:25 PM
163	Summer weekly, Winter every 2 weeks.	11/16/2023 6:18 PM
164	We already compost and recycle but with a family of 5 every two weeks is not enough.	11/16/2023 5:58 PM
165	Our neighbors fill their gray bin every week; it would be overflowing in 2 weeks.	11/16/2023 5:52 PM
166	Too infrequent. My cart and neighbour's carts full every week	11/16/2023 4:58 PM
167	My building rents a bin to be collected privately every week.	11/16/2023 4:55 PM
168	I plan on starting a family which will increase garbage, unsure if every 2 weeks will work then.	11/16/2023 4:24 PM
169	It needs to be weekly. Bi weekly would not work whatsoever	11/16/2023 4:19 PM
170	We had this in Halifax put in a APT and it was great. But then we moved to Hamilton and had the Same size of BIN for food waste. It was a pain as the food would collect in the bottom as it had a grate in it. Plus it would only fill up like 10 inches on the bottom. And the can was the size for like 20 houses. They need a better solution as I love the plan for this. But the way it was done is POOR with the size of the bin and how it gets stuck on the bottom all the time.	11/16/2023 4:14 PM
171	Food waste is chopped up & mixed into my compost.	11/16/2023 4:10 PM
172	I don't want RODENTS around my property.****	11/16/2023 4:08 PM
173	I have several properties in West Broadway and the bins are constantly being disturbed and mixed up with the recycling. I can't imagine the mess if the pick up in this area was every 2 weeks	11/16/2023 4:03 PM
174	I pay taxes to have my garbage picked up weekly	11/16/2023 3:49 PM
175	Complicated logistics of separating food from other waste in the house and storing before moving outside to bin	11/16/2023 3:34 PM
176	I only put the carts out every 2 wks	11/16/2023 3:29 PM
177	So the city is prescribing a "lemmings" approach....just because other cities do it then we should. Suggest rather than reduce waste pickup schedules that the city charge those people that want to use green carts. Do not penalize citizens by reducing the frequency or by levying a charge for those that do not want green carts.	11/16/2023 3:25 PM
178	We practice what's called 'bokashi' in our household. Bokashi uses lactobacillus bacteria to ferment all organic matter, which then can be dug into the garden where organisms like worms consume it. Bokashi works on all food waste including meat, bread, and dairy (as well as all plant matter). It also keeps the waste carbon in the soil since the fermentation process does not release CO2 like conventional composting does.	11/16/2023 3:18 PM
179	Some areas would experience more dumping and litter	11/16/2023 3:18 PM
180	No	11/16/2023 3:07 PM
181	If I had the compost cart my black bin wouldn't be full in 2 weeks	11/16/2023 3:02 PM

182	My garbage now is mostly packaging and plastics!!! At least the food waste will break down. Why even worry about the biodegradables?	11/16/2023 3:01 PM
183	ABSOLUTELY NOT, DO NOT DO THIS, STOP LOOKING FOR CORNERS TO CUT	11/16/2023 2:59 PM
184	This would negatively effect my mental health.	11/16/2023 2:57 PM
185	Most times my bin is not full weekly but certain occasions it would be too full in two weeks	11/16/2023 2:55 PM
186	Would not affect me	11/16/2023 2:53 PM
187	Smell would be unbearable in summer	11/16/2023 2:52 PM
188	I lived in the Toronto GTA for 10 years and enjoyed their waste management program. Summer time is when it smelled the most but we used compostable bags for the compost. Compost bin was picked up weekly with recycling while regular garbage was bi-weekly. Worked out perfectly.	11/16/2023 2:51 PM
189	I have a 4 month old and we go through lots of diapers that I want picked up weekly.	11/16/2023 2:44 PM
190	I am concerned that neighbours will put garbage in thrir recycle bins or leave garbage on the curb.l	11/16/2023 1:51 PM
191	How much extra will this cost me!!! and if you are getting rid of the stray cats, who keep the mouse and rat problem under control, this will make it worse!	11/16/2023 12:31 PM
192	Horrible idea	11/16/2023 12:24 PM
193	People rip my garbage open and make a mess in my back lane as it is. If you wate 2 weeks people will throw there garbage in the lane. On the streets. Drive down main street or any back lanes in the city and see the mess in the west end backlanes. You wate 2 weeks kids will light it on fire it already happens around the city.	11/16/2023 12:18 PM
194	Depending on the season, we produce more or less garbage. Perhaps in the summer when doing more projects around the home there is more garbage that would warrant weekly pickup. Somewhat less garbage produced through the winter months.	11/16/2023 11:59 AM
195	People complaining about too much garbage? Buy and consume less crap	11/16/2023 11:52 AM
196	Recycling would also be overflowing	11/16/2023 11:43 AM
197	I would ask for a major reduction on my tax bill!	11/16/2023 11:27 AM
198	It could be done if implementing the WEEKLY Green Cart Program	11/16/2023 11:04 AM
199	This is unacceptable. There would be overflowing garbage everywhere. This will be a fire hazard. Especially with your mother. Especially here in the city	11/16/2023 11:03 AM
200	Many people go through our bins and the longer garbage is there the more chance it is the garbage gets strewn around all over the ground	11/16/2023 10:59 AM
201	The streets would get more garbage on them from others	11/16/2023 10:53 AM
202	I am not labelled disabled, but I have full body arthritis and a broken back. Heavier carts would be difficult and space is an issue.	11/16/2023 10:32 AM
203	We participated in the food waste collection, just opening it in hot weather, the stench and flies are horrible .having to wash it out with a hose is also disgusting enough and make sure the bad water drains onto the street. 2 weeks would not be acceptable	11/16/2023 10:28 AM
204	[redacted] idea going to biweekly...our high property taxes should more than cover the cost of weekly pickup	11/16/2023 10:16 AM
205	Animal waste. Bugs and flies. Rodents. It will smell like the French quarter in New Orleans. Rats	11/16/2023 9:46 AM
206	It means we now would need to keep two bags of waste. One foe compost and 2nd for all else. Cumbersome bug doable. This maybe a tough sell for those that don't even bother putting aside recycling now!	11/16/2023 9:40 AM
207	I already only put it out every two weeks and it works well	11/16/2023 9:26 AM

208	I would very much like to see this	11/16/2023 9:07 AM
209	Not in favor of every 2 week garbage collection	11/16/2023 8:48 AM
210	I am concerned with pests or rodents especially in the summer.	11/16/2023 8:47 AM
211	Carts would become too heavy to move to the curb	11/16/2023 8:35 AM
212	Bad idea; keep basic service as is	11/16/2023 8:21 AM
213	Have a composter	11/16/2023 8:16 AM
214	terrible idea, garbage will be randomly dumped by irresponsible ppl	11/16/2023 8:08 AM
215	We, family of 5, currently have a backlog of garbage, half of which is compostable. This will make us just place garbage on the streets.	11/16/2023 7:18 AM
216	If there is a compost program then every 2 weeks would be great.	11/16/2023 6:50 AM
217	No concerns	11/16/2023 6:20 AM
218	I don't generate enough compostables to offset the loss of a weekly garbage bin. A compost bin would last me a month.	11/16/2023 5:57 AM
219	Rodents and raccoons are an issue,smell in summer	11/16/2023 2:52 AM
220	Since starting to use Compost Winnipeg, my garbage bin barely fills unless we do a big clean of the house or garage.	11/15/2023 11:09 PM
221	[redacted] idea.	11/15/2023 10:50 PM
222	This is a great idea! I pay extra fees for green bin. The city should subsidize this program like other cities in Canada	11/15/2023 10:37 PM
223	We participated in the compost pilot and our garbage was significantly reduced	11/15/2023 10:37 PM
224	Every 2 weeks is a terrible idea likely from some 1-2 person homes, this is such a poor idea	11/15/2023 10:32 PM
225	Just put a note in water bills that says if your trash us only 50% full don't put it out. This solves the problem and the city will only collect bins people put out	11/15/2023 10:03 PM
226	I'm confused, are you asking this in the context of the green waste program existing or not? Get a professional to write your surveys.	11/15/2023 9:59 PM
227	Some weeks my garage would overflow	11/15/2023 9:59 PM
228	Way too much garbage for two weeks	11/15/2023 9:45 PM
229	We compost a lot so may not reduce our waste. Seems we add alot of plastic to waste that is not recyclable.	11/15/2023 9:40 PM
230	i would expect a decrease in tax	11/15/2023 9:30 PM
231	From experience in other cities, especially those with proper recycling programs, what remains as "garbage" with compost service barely fills one bag a month.	11/15/2023 9:09 PM
232	I would struggle as a family of 4. I think this would penalize families.	11/15/2023 9:07 PM
233	Other	11/15/2023 9:06 PM
234	This is the [redacted] idea imaginable. Whoever came up with this idea needs to be fired immediately	11/15/2023 8:59 PM
235	There could be an Increase in garbage dumping	11/15/2023 8:52 PM
236	Concerned that there would be more garbage on the streets	11/15/2023 8:42 PM
237	I am concerned with the nature of the 2 week pick up. The garbage service cost should be half the price if it done half of the time. Regardless if you add compost.	11/15/2023 8:36 PM
238	Would be great in winter summer might be smelly	11/15/2023 8:35 PM
239	The idea sucks. Find savings elsewhere	11/15/2023 8:32 PM

240	Neighbour's would have garbage all over the place when it do3sbt fit in cart	11/15/2023 8:26 PM
241	I pay for once a week, leave it alone!	11/15/2023 8:12 PM
242	We are a family of six. We generate a lot of garbage.	11/15/2023 8:09 PM
243	.	11/15/2023 8:00 PM
244	GREAT IDEA! I lived in Burlington, ON where this was the NORM (7 years ago)	11/15/2023 7:55 PM
245	Methheads going through the garbage.	11/15/2023 7:44 PM
246	The weekly pickup works great. If it's not broken don't fix it.	11/15/2023 7:41 PM
247	The weekly pickup works very well. No need to change it.	11/15/2023 7:41 PM
248	We use adult briefs in this family	11/15/2023 7:34 PM
249	Addition costs for less curb side pickups throughout the year	11/15/2023 7:25 PM
250	I'm my opinion the whole garbage and recycling programs need to be revamped, I've heard of some more progressive programs where all of waste/recycling gets picked up as usual and gets sorted /processed and separated into the various other programs like landfill or recycling or composting and after all the processing has taken place the whole program gets very close to a zero cost to the tax payer after a few years of refinement	11/15/2023 7:25 PM
251	It would be a disaster with the transients in lanes	11/15/2023 7:07 PM
252	what constitutes food waste for a green cart; just veg peels or meat, fat scraps also	11/15/2023 6:58 PM
253	5000 in taxes # 2x per week I hope	11/15/2023 6:51 PM
254	People experiencing homelessness go through the garbage making a huge mess. I feel them going through two weeks of garbage will be a larger problem with more opportunity to loiter in the back lanes and ripping open more bags of garbage	11/15/2023 6:43 PM
255	I feel that the amount of garbage would be reduced, as some items that currently go in the garbage would go in the compost.	11/15/2023 6:26 PM
256	Horrible thought	11/15/2023 6:00 PM
257	Ihave dog waste that needs to go every week	11/15/2023 5:56 PM
258	Le chariot attirerait les fouilleurs de poubelles.	11/15/2023 5:37 PM
259	How would this impact cost, why pay the same rate for less pick up?	11/15/2023 5:27 PM
260	Does this mean if we add food waste collection the waste pick up would be once every 2 weeks? On the same week for both food waste and garbage or alternating weeks?	11/15/2023 5:27 PM
261	I don't have a space outside for my recycling and garbage bins so I keep them inside the garage until pickup day. Where would I put a 3rd bin?	11/15/2023 4:57 PM
262	People will dump garbage anywhere illegally	11/15/2023 4:54 PM
263	I want garbage picked up every week. I don't have enough to warrant a compost big bin.	11/15/2023 4:53 PM
264	don't want green cart and don't think I should be charged for it. Folks should be backyard composting - enhance that program	11/15/2023 4:49 PM
265	Compost on my own.	11/15/2023 4:31 PM
266	In order to be civilized...weekly garbage has to be picked up.	11/15/2023 4:30 PM
267	I would be so excited about this!!!	11/15/2023 4:21 PM
268	this is a terrible idea. citing which cities do this, for how long and what the customer service level is would be the minimum info to evaluate this idea.	11/15/2023 4:02 PM
269	See answer to #5	11/15/2023 3:54 PM
270	We have paid for compost pickup for years through Compost Winnipeg, and only put our garbage put every few weeks.	11/15/2023 3:50 PM

271	Rarely have a full garbage container in 2 week period but would be concerned with summer heat for smell and pests	11/15/2023 3:32 PM
272	I am concerned that the inner city will become a bigger dump, which is where I live.	11/15/2023 3:28 PM
273	We would like a green cart program. We compost what we can but it's a lot.	11/15/2023 3:20 PM
274	The smell from garbage waste, diapers, dog waste etc would be unbearable especially in Summer months	11/15/2023 3:18 PM
275	we do not put any food waste in garbage. we have our own composting system	11/15/2023 3:16 PM
276	In the north end, peoples bins are already overflowing in less than a week. What do you think will happen if you reduce it to pick up every 2 weeks? It would become an even worse garbage dump than it is now!	11/15/2023 3:07 PM
277	Most of the time, our cart is not full. Once in a while it is if cleaning up.	11/15/2023 2:57 PM
278	I am concerned for residents in areas where weekly garbage collection already poses issues/concerns with litter, garbage fires	11/15/2023 2:42 PM
279	No. [redacted] idea	11/15/2023 2:25 PM
280	More garbage strewn across my backlane	11/15/2023 2:19 PM
281	This is a [redacted] idea that seems to be aimed at cutting costs. Try to encourage people to dispose of garbage to keep the City clean and not smelly.	11/15/2023 2:09 PM
282	You have a misleading and biased lead up to this question. You should keep weekly pick up and drop the compost idea	11/15/2023 1:36 PM
283	Overflowing bins across the city	11/15/2023 12:59 PM
284	Cottager - away frequently and cant put out food waste on day	11/15/2023 12:48 PM
285	Neighbors garbages typically full with extra left out for weeks /mths without being disposed of. Our area is truck only pick up.	11/15/2023 12:45 PM
286	I would have to start dumping my own garbage to make up for this!	11/15/2023 12:43 PM
287	I would always have too much garbage, people can't recycle properly, they won't be able to compost properly	11/15/2023 12:41 PM
288	There are periods where I may have more garbage (and recycling), for example if I'm decluttering.	11/15/2023 12:30 PM
289	Terrible idea to wait 2 weeks for gargage. The city will turn into a large garbage pile.	11/15/2023 12:27 PM
290	I've just moved to a home with the cart collection, so am not sure yet. I don't think it would be an issue for my home though (especially if we divert food waste into compost instead).	11/15/2023 12:25 PM
291	I live in an 40+ apartment complex in Osborne and the 1 garbage bin & 3 recycling single blue bins are FULL after 1 (at most 2) day(s) from pick up	11/15/2023 12:25 PM
292	With more grown adults living together because of the cost of everything garbage amounts are going to be higher	11/15/2023 12:06 PM
293	adding a 3rd cart to my drive way would be a nuisance especially when things are rotting during the summer.	11/15/2023 12:00 PM
294	I think this would work for my household	11/15/2023 11:55 AM
295	As my neighbor tends to stuff my bin full without premission this would make the situation worse since the city does nothing about this as well	11/15/2023 11:52 AM
296	Winter every two weeks is fine, summer no way	11/15/2023 11:33 AM
297	I don't need a green cart because I compost for my garden.	11/15/2023 11:28 AM
298	It would be full, but not overflowing. If there was also compost for food waste separate from my garbage it would not be an issue at all	11/15/2023 11:07 AM
299	2 weeks might exceed weight limits currently in place	11/15/2023 11:03 AM

300	why would you change things if they work well in the first place. garbage changes week to week, you need the program thats in place already why change a good thing.	11/15/2023 10:57 AM
301	I am concerned with missing a pickup whenever the garbage truck driver ignores my cart and just drives right on by. This has happened on multiple occasions. Typically I just bring the unemptied cart back into the garage, wait until the following week, and then put it back out on the curb again. But if garbage pickup was changed to only be collected every 2 weeks, and the driver skips my house, that would be 4 weeks between pickups. That won't work for me. I can't imagine that would work for anyone.	11/15/2023 10:55 AM
302	However if the city established a compost program I would prob notice it less as I would have less garbage	11/15/2023 10:41 AM
303	I don't believe the City has a comprehensive plan in place to deal with this type of waste	11/15/2023 10:31 AM
304	I freeze smelling meat/fish bits until garbage pick up date	11/15/2023 10:26 AM
305	Absolutely [redacted] idea	11/15/2023 10:25 AM
306	I do not believe that I can assess the the impact of the unknown unknowns on my family if garbage was picked up only biweekly.	11/15/2023 10:24 AM
307	question is unclear. You refer o the green bin and then ask about regular garbage in black bins.	11/15/2023 10:10 AM
308	If you pick up meat, then fine. Otherwise, problems might arise in summer.	11/15/2023 10:09 AM
309	We will grow a rat and mouse problem like every other province people will dump garbage where ever they can blvds empty lots Winnipeg is dirty as it is	11/15/2023 10:00 AM
310	HOMELESS PPL GOING THROUGH GARBAGE	11/15/2023 9:59 AM
311	With family of four there's no way we could go two weeks between pickups, even if composting.	11/15/2023 9:51 AM
312	We run a foster home and 8 people live in our home. Ages are 2 to 55. We have the large bins and there is usually garbage and recycling left over. We have and agreement with a neighbour who is okay with us using their bins. We would be buried in garbage and recycling in a month if this were to happen.	11/15/2023 9:41 AM
313	We are more likely able to manage every two week garbage pickup than every 2 week recycle pickup	11/15/2023 9:39 AM
314	Concerned with dumpers divers making twice the mess that they do now. Also the garbage trucks leave a mess them selves. You can see neighbors out picking up garbage the trucks left behind.	11/15/2023 9:36 AM
315	I already compost for my garden. Why should I pay you to do it AND no longer be able to use my own compost? Secondly I use a lot of my own yard waste (grass and leaves) for composting which is why I later answered that I don't use yard waste collection as often.	11/15/2023 9:35 AM
316	I compost all of my food waste	11/15/2023 9:30 AM
317	The extreme temperatures are an issue. Heat in the summer, foul odours.	11/15/2023 9:25 AM
318	Probably would be fine	11/15/2023 9:24 AM
319	Any changes then I would vote to change the mayor and councilor in my area.	11/15/2023 9:22 AM
320	More concerned about recycling. Ours is full every week.	11/15/2023 9:21 AM
321	concerned for the further ghettoizing of neighbourhoods that have bins on the front street	11/15/2023 9:17 AM
322	The added garbage will be hard to pick up meaning twice as much garbage into the same truck would mean the trucks would have to empty more often andcould not do the same job in the same time frame. As well the added weight would be tough on the carts. I have seen how the collection people handle the carts and there is no respect. They hook them up to the truck and repeatedly slam them which is tough on the pivot point. We have had to have our bins replaced due to this and we are two seniors with not much garbage.There will be more damaged bins and who picks up the tab for that ? I don't think this is a good idea. What happens to the collection staff?.	11/15/2023 9:02 AM

323	This is a non starter for me! Disgusting smells are not acceptable	11/15/2023 8:56 AM
324	our family creates too much garbage for a 2 week pick up	11/15/2023 8:55 AM
325	Not sure what idiot thinks the little bit of compost removed from the garbage would be enough to pick garbage up every two week but the reality is that garbage can will be overflowing and smell awful after two weeks. Who ever thought two week pick up is a good idea should resign their position because it's clear that practical thought and consideration is not being used when considering public policy.	11/15/2023 8:47 AM
326	My bin would be full in 4 days. 2 Weeks is a long time for garbage to sit.	11/15/2023 8:43 AM
327	Smell. Especially in the summer	11/15/2023 8:31 AM
328	This isn't feasible in summer, winter months it could work however	11/15/2023 8:30 AM
329	with the green cart my garbage cart would be fine for the 2 weeks	11/15/2023 8:23 AM
330	I already compost.	11/15/2023 8:15 AM
331	These cart sizes were selected based on once a week pickup, they are not sufficient for 2 weeks whether or not compost pickup occurs	11/15/2023 8:07 AM
332	I have no need of green cart as compost my own food waste	11/15/2023 7:56 AM
333	I believe it would cause additional litter & illegal dumping.	11/15/2023 7:54 AM
334	L'été, le bac devrait être vidé à toutes les semaines. À partir de décembre jusqu'à la fin d'avril, il pourrait être vidé à toutes les deux semaines. Le recyclage pourrait se faire vider à toutes les deux semaines en alternance avec le bac noir.	11/15/2023 7:52 AM
335	I am very concerned that if collection is moved to every 2 weeks, that those with full bins will start dumping garbage in vacant areas or just throwing bags into alleys. This is already a problem in some neighbourhoods in winnipeg with weekly collection and will just get worse.	11/15/2023 7:46 AM
336	Finding I get missed every so often, if I had to wait another 2 weeks	11/15/2023 7:40 AM
337	absolutely unacceptable, my garbage is full after 1 week	11/15/2023 7:08 AM
338	Unsure how you can say a food waste cart will replace weekly garbage.what food waste. Who wastes food these days. Scraps of food maybe. 5 people in this house. The city will be dealing with major garbage dumping if no weekly pickup. It happens already.	11/15/2023 7:04 AM
339	It would make residents more aware of what they are throwing out and make sure the6 use the appropriate bins	11/15/2023 6:28 AM
340	Service would be cut in half but taxes/fees would not	11/15/2023 6:26 AM
341	Most of the homes in this neighborhood are full every week. Ridiculous idea!!!!	11/15/2023 6:08 AM
342	I live in Ottawa part time where garbage is picked up every two weeks, it works well and there's no issues with most people I know!	11/15/2023 6:07 AM
343	This is a ridiculous suggestion. and I assume you will raise taxes and also reduce frequency.	11/15/2023 5:53 AM
344	Both bins are full every week. Put this survey on the next re-election. I wound NEVER have voted for Scott Gillingham or requested his sign!!!	11/15/2023 5:07 AM
345	This would be a serious decline in a much needed city service	11/15/2023 2:47 AM
346	I live in an apartment and the bin gets full and there has been many a week where it doesn't get picked up and it smells and is disgusting to look at it all piled in the bin, overflowing the bin and then it would also give the garbage pickers more garbage to dig through and make more of a mess.	11/15/2023 2:15 AM
347	Certain times would be challenging, eg. Christmas	11/15/2023 2:02 AM
348	I have had issues with people leaving garbage behind my home. 2 week pickups my increase the problem.	11/15/2023 1:57 AM
349	The north end would be a disaster	11/15/2023 1:03 AM
350	Or if someone parks and blocks garbage	11/15/2023 12:32 AM

351	It is a [redacted] idea. You have a couple of major jobs to do and you [redacted] that up too!!	11/15/2023 12:01 AM
352	might be full depending on activity	11/14/2023 11:43 PM
353	our neighbours cart is always full every week, my concern is that there would be A LOT of garbage being dumped everywhere like at businesses, schools etc	11/14/2023 11:29 PM
354	My neighbors all store their bins in their garages. Honestly, I don't want to hold on to this stuff in my insulated garage in the summer heat.	11/14/2023 10:46 PM
355	Composting reduces a lot of waste. Composting can also be every 2 weeks	11/14/2023 10:44 PM
356	Neighbors already dump garbage in my bins. It will be much worse.	11/14/2023 10:23 PM
357	The City would need to pay for extermination of all the rodents that would result from excess garbage in the streets and the infestation it would cause. Not to mention we would be labelled as the dirtiest City in Canada. I would rather pay extra to have delivery every week.	11/14/2023 10:19 PM
358	The downtown and inner city are awash with garbage already. This is a pest, vermin and disease issue as well as an eyesore. Bins are tipped over, overflowing and lanes, vacant lots and front streets are awash in garbage already. With pickup every two weeks the problem will be exponentially worse.	11/14/2023 10:13 PM
359	Unacceptable. Neighbourhoods would look eve more disastrous with all the garbage laying around and people would be stashing their trash wherever they can. Stop penny pinching and find other ways to save money instead of pushing taxpayers to the brink. Disgusting.	11/14/2023 10:08 PM
360	P	11/14/2023 10:08 PM
361	When my household was subscribing to Compost Winnipeg, our household only produced 1 black bag of garbage a week	11/14/2023 10:07 PM
362	Just don't [redacted] change it.	11/14/2023 10:02 PM
363	Don't do every two weeks	11/14/2023 10:02 PM
364	Our garbage and recycling bins are not big enough for pick up every two weeks. Other cities I know with this program have a lot larger bins	11/14/2023 9:56 PM
365	Terrible Idea.!!! Need it weekly.	11/14/2023 9:47 PM
366	2 week pick up could work if the bins were bigger	11/14/2023 9:38 PM
367	In the summer months the smell would be horrendous and attract flies and wasps	11/14/2023 9:33 PM
368	The smell during summer heat. Should be weekly in summer.	11/14/2023 9:25 PM
369	This is [redacted] fine people for not following the law of bin storage outside.	11/14/2023 9:19 PM
370	certain times of the year, xmas, fall/spring cleanup require more frequent pickup.	11/14/2023 9:18 PM
371	Raccoons, skunks, mice, rats	11/14/2023 8:58 PM
372	influx of garbage at times from special events (decluttering, christmas, birthdays)	11/14/2023 8:44 PM
373	No.	11/14/2023 8:39 PM
374	I'd be okay with pick up every two weeks in winter but Not in summer. The smell would be horrible!	11/14/2023 8:38 PM
375	we absolutely need weekly pickup	11/14/2023 8:23 PM
376	More garbage on the streets	11/14/2023 8:14 PM
377	Increased garbage across city and illegal dumping would result from lessening garbage pickup	11/14/2023 8:05 PM
378	I would love a compost program!	11/14/2023 7:53 PM
379	I like the idea but need more information, about the sorting of items that is required	11/14/2023 7:50 PM
380	Ty	11/14/2023 7:49 PM
381	Might be nice to consider weekly pick up during hot months and every 2 weeks in fall/winter	11/14/2023 7:43 PM

382	My garbage is always full, couldn't wait 2 weeks! No one has this! Quit trying to save the govt miney	11/14/2023 7:36 PM
383	Maggots.	11/14/2023 7:33 PM
384	concerned how this will affect tidiness of neighbourhoods	11/14/2023 7:31 PM
385	I'm not sure what all can be composted	11/14/2023 7:30 PM
386	I already compost and my garbage is sometimes full. I would not make it 2 weeks.	11/14/2023 7:28 PM
387	Smells, insects, birds, and animals	11/14/2023 7:06 PM
388	[redacted] idea	11/14/2023 6:51 PM
389	Winter is not a problem for a 2 week pickup as it is cold out; however summer with the heat, the smell and bugs would be yuckie.	11/14/2023 6:03 PM
390	July and August could get smelly. The rest of the year OK.	11/14/2023 5:58 PM
391	I have a home licensed daycare, so I have a lot of diapers!	11/14/2023 5:44 PM
392	We should be given more bins to place them or the garbage bags will just pileup during pickup day	11/14/2023 5:39 PM
393	The smell would be unacceptable! We have a problem in this city with garbage pickers and making messes. So NO on the two week thing!! The City needs to address the people going into bins at apartment buildings and going through that and making messes.	11/14/2023 5:07 PM
394	Everything. If you do this you clowns are opening yourselves up for lots of problems.	11/14/2023 5:07 PM
395	I do not want to have a 3rd cart. I have no room for this.	11/14/2023 5:04 PM
396	This is not a good idea as most products sold in the grocery store has a ridiculous amount of packaging that can not be recycled	11/14/2023 5:02 PM
397	Do not have garage cart only recycling cart	11/14/2023 5:01 PM
398	Please don't try to save money or reduce the cost of this green cart program by doing less frequent garbage collection. This green program is suggested to help the environment not save money. The COW political leaders like the mayor are always nickle and dime-ing these new programs to protect the environment to death!	11/14/2023 4:11 PM
399	Rodents and mice like every other city in Canada	11/14/2023 4:03 PM
400	neighborhood dumpsters fill up quicly	11/14/2023 3:49 PM
401	Vancouver is looking at going to one week pickup because rats issues	11/14/2023 3:47 PM
402	no green carts wanted in Winnipeg. Weekly pick up is good for other bins	11/14/2023 3:21 PM
403	Winter months would be fine for 2Week pickup but summer not so much	11/14/2023 3:13 PM
404	Worst idea ever WHO came up with this [redacted] We already have a [redacted] ..are we trying to dirty the city even more??	11/14/2023 3:06 PM
405	This would be a disaster. I would drop my bags off in the middle of Lagimodiere Blvd. I would be mad as hell.	11/14/2023 3:05 PM
406	Vacation / absence means 4 week period of no pickup. People will just trow everything in what ever bin is pickedup next anyways	11/14/2023 3:00 PM
407	Concern with other households placing garbage in their recycling bins. I see it frequently. More review/better recycling program would be a good next step.	11/14/2023 2:45 PM
408	Having lived in other cities with an organics program, my garbage was never full because over 50% of my "garbage" was organics.	11/14/2023 2:43 PM
409	The carts go through enough abuse as it is. If you only pick up two weeks the added weight will be hard on the carts. There will be more broken carts . Not a good idea.	11/14/2023 2:15 PM
410	I've made use of such a bin in PEI and it was nothing but beneficial	11/14/2023 2:13 PM

411	already compost at home	11/14/2023 1:53 PM
412	Had this option for decades in Calgary. Please, make it available to Winnipeg. The waste here is horrific.	11/14/2023 1:46 PM
413	BFI pick up	11/14/2023 1:25 PM
414	We can't live without weekly pickup. Will picket City Hall	11/14/2023 1:18 PM
415	My garbage cart is already overflowing with one week pick up.	11/14/2023 1:16 PM
416	The city has enough trouble staying clean. People dump their garbage in the field where I love, when their bins are full. Adding more work to garbage, will only increase the amount of garbage being dumped illegally, elsewhere	11/14/2023 1:11 PM
417	The city would be smelly and full of rodents	11/14/2023 1:01 PM
418	every 2 weeks would be intolerable	11/14/2023 12:54 PM
419	2 weeks is NOT enough, some weeks full, some not, but when you need, you often need weekly. This goes for recycling bins as well	11/14/2023 12:50 PM
420	green waste weekly and 'garbage/recycling bi-weekly works	11/14/2023 12:42 PM
421	There are no good options for pet waste or diapers, especially in the summer when they become smelly quickly.	11/14/2023 12:19 PM
422	I am expecting a baby and the smell of diapers could become an issue for myself and neighbours.	11/14/2023 12:13 PM
423	There would be certain times like moving or cleaning out a garage where having it every two weeks would slow the process down considerably.	11/14/2023 12:00 PM
424	Two weeks is too long to go for a family there will bee spoiled food and RATS & Vermin everywhere.	11/14/2023 11:59 AM
425	Some neighbours overfill in1 week let alone 2 weeks pick up	11/14/2023 11:57 AM
426	Many weeks our garbage is full, need it every week.	11/14/2023 11:40 AM
427	Due to home composting this wouldn't be a problem at all basically all the time. Without it, this would be too infrequent.	11/14/2023 11:24 AM
428	concerned about the smell and sticking to the bin. Do you use a composable bag?	11/14/2023 11:21 AM
429	Concern that there would be litter around the garbages due to them being full for too long	11/14/2023 11:15 AM
430	It would take some adjustment, perhaps a weaning system	11/14/2023 11:09 AM
431	If there was a compost program I could go 2 weeks	11/14/2023 10:53 AM
432	Commercial bin	11/14/2023 10:48 AM
433	The current carts are too small for 2 week usage and I have no room for a third cart on my driveway.	11/14/2023 10:35 AM
434	I am used to two-week pickups in other cities I've lived in. It's fine.	11/14/2023 10:27 AM
435	Would love to have this service!	11/14/2023 10:25 AM
436	If on a 2 week cycle, will taxes be reduced?	11/14/2023 10:20 AM
437	I currently do use the green cart program. We need to get more Winnipegers on board with that. It makes such a difference to reduce garbage.	11/14/2023 10:12 AM
438	Not sure about being able to fit 2 weeks worth of waste into our bin.	11/14/2023 10:06 AM
439	Sometimes at peak times (Xmas) this wouldnt be often enough- cart full.	11/14/2023 9:59 AM
440	I am concerned about the stink from the green bin attracting rodents and raccoons. Also, there is no room to store 3 bins at my house!	11/14/2023 9:51 AM
441	Most of the time we do not fill our garbage cart. On occasion it would be an issue and we would have too much garbage. Two weeks is a long time. We already do backyard compost	11/14/2023 9:34 AM

	and have compost worms for some items and I know it does help.	
442	Jj	11/14/2023 9:26 AM
443	If you can figure out the smell and animals foraging we would love a green cart	11/14/2023 9:17 AM
444	Overflowing garbage means more people will dump around they city in random places it's a terrible idea perhaps I can bring my extra garbage to city hall ?	11/14/2023 9:02 AM
445	If we miss a pickup that an entire month!	11/14/2023 8:58 AM
446	I think I could even handle pick up opnce a month	11/14/2023 8:57 AM
447	At times (when hosting out of town guests), I would need weekly garbage pick up. Once every two weeks would not be sufficient.	11/14/2023 8:57 AM
448	I like the idea in general if supported by a weekly food waste pickup. Perhaps "larger bins" are an answer to most common concerns re: space, etc.	11/14/2023 8:56 AM
449	My recycling would be overflowing if it was every 2 weeks	11/14/2023 8:54 AM
450	Your opening statement is definitely a leading question potential and the question about garbage pickup may have nothing to do with the compost collection. Again your survey team is looking for an outcome that supports your position. You need better staff creating objective survey format and not apparent bias built in. I could write better intro and questions	11/14/2023 8:53 AM
451	I think it discriminates against households with more family members than average (ex.: multi-generational, lots of children) as they generate more waste	11/14/2023 8:49 AM
452	I don't want or need green cart, I already compost	11/14/2023 8:35 AM
453	Im concerned the bin would be too heavy to pull to the backlane, especially with snow on the ground	11/14/2023 8:33 AM
454	Again multiple families more garbage see it already just with one week pick ups of over flowing bins	11/14/2023 8:12 AM
455	Only in summer the diapers and pet waste would be smelly	11/14/2023 7:57 AM
456	Terrible idea, missing a week now means spreading my next weeks garbage over multiple weeks	11/14/2023 7:54 AM
457	Maybe increase frequency of garbage pick up around family get-together holidays	11/14/2023 7:30 AM
458	2 weeks is not good	11/14/2023 7:24 AM
459	I lived on Vancouver Island for year. I was impressed with their weekly compost pick up with alternating garbage/recycling. It worked great. Reduced our waste considerably!	11/14/2023 7:22 AM
460	It depends on your family size. Large families would have more waste. Where a single person might take a month yo fill a cart. Don't punish large families they are already feeling a larger impact at the grocery stores They always have a full cart on a weekly bases. Maybe add a food waste cart for two years and let pose see how much their garbage decrease snd then repeat this survey. I would be very concerned with the smell of the garbage and mice and rat problems if left for two weeks we have no space for the bins and we gave to walk by them to get to the front door. So I'm concerned with the smell and rodents getting into my house.	11/14/2023 6:49 AM
461	interestingly not asking if recycling would also be two weeks which is the important one!	11/14/2023 6:24 AM
462	I believe it wont help people that don't produce alot of compost waste , just a money grab .	11/14/2023 5:58 AM
463	If there is a food waste collection our amount of waste in the bin would decrease	11/14/2023 5:25 AM
464	Recycling would overflow.	11/14/2023 4:57 AM
465	This is a RIDICULOUS idea. STOP trying to provide hard-working tax payers with less services and higher costs.	11/14/2023 1:37 AM
466	We are a family of 6 with full garbage every week	11/14/2023 12:55 AM
467	Holiday times may have more	11/14/2023 12:40 AM
468	I do now want another cart. I have 2 already. Not in favour.	11/14/2023 12:22 AM

469	Living in the West End that would not be practical or safe as homeless people and drug addicts pull all the garbage out of the bins and leave a mess.	11/13/2023 11:40 PM
470	We are not living in the Middle Ages. Do you want outbreaks of disease?	11/13/2023 11:01 PM
471	If half of what is currently in the garbage bin ideally be collected as part of green bin, it would work,	11/13/2023 11:00 PM
472	this would be great	11/13/2023 11:00 PM
473	I think it would be doable. Some weeks might be “fuller” than others but manageable.	11/13/2023 10:56 PM
474	Too much waste and the city wants to add another cart at our cost whether we want it or not	11/13/2023 10:47 PM
475	My son requires A LOT of medical supplies. Those supplies triple our weekly garbage volume. We need weekly pick up. We cannot afford a user pay system.	11/13/2023 10:41 PM
476	Full, but not overflowing	11/13/2023 10:32 PM
477	we already have a backyard composter, so I don't expect the green cart would significantly reduce our garbage	11/13/2023 10:32 PM
478	Not necessary	11/13/2023 10:21 PM
479	I think this ia manageable, my daughter (family of 4 can manage in Calgary) we should be able to manage as family of 2.	11/13/2023 10:01 PM
480	HORRIBLE, HORRIBLE IDEA!!! Do we want Wpg to be a literal stinking dump?? Is that the plan with this new Premier??!! Please bring back Heather Stefanson ASAP!	11/13/2023 9:56 PM
481	Disappointed in our government and $96 annual fee for residents from our tax payers . We pay enough taxes . Where are your priorities?	11/13/2023 9:44 PM
482	You guys are [redacted] for even thinking picking up garbage every 2 weeks	11/13/2023 9:03 PM
483	This is an outrageous idea. DO BETTER.	11/13/2023 8:59 PM
484	Horrible idea!	11/13/2023 8:45 PM
485	I would be unhappy if pet owners deposited waste in my bin	11/13/2023 8:44 PM
486	THIS WILL ONLY LEAD TO MORE GARBAGE AROUND THE CITY AND MORE DUMPING AND THERE IS ALREADY ENOUG OF THAT VISIBLE. LET'S BE PROGRESSIVE WITH THIS IN THIS CITY NOT GO BACKWARDS. BE ON THE BALLNWITH THIS	11/13/2023 8:41 PM
487	I already skip the occasional pickup if not sufficiently full	11/13/2023 8:20 PM
488	As long as recyclables are still collected weekly, then my garbage could wait 2 weeks.	11/13/2023 8:20 PM
489	Generally would be fine except for occasions where events have taken place. Generally recycling is fuller	11/13/2023 8:14 PM
490	Every two weeks ok in cooler months	11/13/2023 7:29 PM
491	i use a garburator	11/13/2023 7:21 PM
492	I compost so already produce little garbage	11/13/2023 7:18 PM
493	If the City saves a lot of money, I would be amenable to this	11/13/2023 7:05 PM
494	Handling 3D bin not great. Neighbours & others not very conscientious about stinky/ overflowing garbage. I pay 4 larger bins,— I’m big recycler. I don’t think garbage company as good as it could be	11/13/2023 7:01 PM
495	Could be a problem some weeks	11/13/2023 6:44 PM
496	Still prefer weekly over bi-weekly	11/13/2023 6:44 PM
497	My bin will probably be full in 2 weeks.	11/13/2023 6:30 PM
498	I pay for this through taxes, that contract is for every single week. Extra trash would just go in the recycling bins.	11/13/2023 6:25 PM

499	Dumpster diver attraction, and homeless vagrants pick in the garbage, not to mention added erosion target, and homeless vagrants and violence around apartments a bigger problem.	11/13/2023 6:24 PM
500	I previously lived in calgary, where green cart waste was collected every week, and the black cart (garbage) was collected every two weeks. Using the compost cart drastically reduces the amount of waste put in the black bin.	11/13/2023 6:20 PM
501	Do not even think this is a feasible option.	11/13/2023 5:58 PM
502	I would be fine, but I am concerned for others with bigger households who might find it challenging to store waste for 2 weeks, especially in the summer months when animals (raccoons) might be attracted to smelly garbage left outdoors.	11/13/2023 5:57 PM
503	I would not have enough room for all my recycling.	11/13/2023 5:56 PM
504	Some weeks might be full, others not	11/13/2023 5:37 PM
505	Don't do it	11/13/2023 5:33 PM
506	Every 2 weeks is fine for my family and neighborhood but I am concerned that in inner city neighborhoods a 2 week pickup would lead to more garbage in back lanes where this is already an issue	11/13/2023 5:22 PM
507	Trying to keep the Westend backlanes clean already is a problem nevermind if it goes to 2 weeks. Horrible idea. [redacted]. Only works for people that care about their property and neighborhood. Unfortunately people on EIA don't give a [redacted]	11/13/2023 5:20 PM
508	Would be concerned about spoiled meat products	11/13/2023 5:12 PM
509	Does this brainstorm include a reduction in collection costs to homeowners? I don't produce enough to compost!! This is just another way for City to rip-off homeowners for something that is useless!! City's councilors should take their heads out from [redacted] think! Do they think for one second that [redacted] Does City councilors in this [redacted] that taxpayers have money trees growing in their back yards to keep paying for [redacted] they come up with? Does the useless mayor and councilors think [redacted] city is Toronto , Quebec, or Vancouver with populations of over 20 million + people? Think [redacted] once think and consider the taxpayer's pockets before you pick the only nickles they have left in their pockets!	11/13/2023 5:00 PM
510	In this climate, bi-weekly summer months pick up may not work that well, but I do like the idea	11/13/2023 4:59 PM
511	Garbage would be overfilled. One household on dialysis so there is a lot of medical waste.	11/13/2023 4:58 PM
512	This would be great...	11/13/2023 4:44 PM
513	Not in the summer months we need weekly pick up	11/13/2023 4:40 PM
514	Not a good program (it stinks)	11/13/2023 4:39 PM
515	bin usually more than half full (increase bin size) resolve problem	11/13/2023 4:31 PM
516	Smelly food can go in green cart but the polystyrene that most meat comes in can't be	11/13/2023 4:31 PM
517	Unclear to me in this question whether we were to consider the hypothetical situation in which green carts are collected as well.	11/13/2023 4:29 PM
518	i fill my cart every week full - cant go 2 weeks	11/13/2023 4:18 PM
519	It wouldn't negatively impact me since it would reduce overall garbage	11/13/2023 4:12 PM
520	WANT WEEKLY GARBAGE PICKUP TO REMAIN. do not want potential for rodents or animals scouring through garbage. They can knock over the can and then I as the resident have to clean it all up,	11/13/2023 4:12 PM
521	We would always have to store and bring overflow garbage to the landfill at our expense.	11/13/2023 4:07 PM
522	I currently only put garbage cart out for pickup if it is full, often missing 2 or 3 weeks.	11/13/2023 4:03 PM
523	I am concerned about it attracting wasps in the summer, but i think it's a great idea if proper precautions are taken.	11/13/2023 4:02 PM

524	only put garbage bin out about once a month; recycling = weekly	11/13/2023 3:59 PM
525	Cat litter, and things like raw meat would be nasty if left for 2 weeks.	11/13/2023 3:34 PM
526	Would be totally worth it if it meant we got curbside compost	11/13/2023 3:33 PM
527	Rodents, smell and people dumping more garbage in back lanesthesiologists	11/13/2023 3:25 PM
528	Depends on the week, sometimes we can go 3 weeks without a pickup. If we have a lot of company it can be full after a week.	11/13/2023 3:23 PM
529	I would rant and rave about this [redacted] step backwards	11/13/2023 3:13 PM
530	two week= BAD weekly=excellent	11/13/2023 3:12 PM
531	Want it every week	11/13/2023 3:12 PM
532	This is a ridiculous proposal. If the city attempts to reduce service, they better also reduce cost. But you are going to create far more problems than you will solve.	11/13/2023 3:10 PM
533	I don't have any smelly garage and there is no need for compost bins just another waste of taxes leave it as it is if it's not broken there is no need for fixing just a waste of money forcing compost bins on everyone even if they are against the program	11/13/2023 3:09 PM
534	Would be okay for every 2 week collection if we got larger blue and black bins.	11/13/2023 2:57 PM
535	Our binnis completely full every week every two weeks is ridiculous I would not use a green bin for compost that is disgustingg	11/13/2023 2:53 PM
536	Animals, summer heat, etc.	11/13/2023 2:53 PM
537	I already pay for compost pick-up through Compost Winnipeg so it wouldn't change the amount of garbage I have. Every two weeks would still be sufficient, but it is really ridiculous that the only way the city can afford to institute a compost program is at the expense of the garbage program.	11/13/2023 2:50 PM
538	I already place my bins out every 2 weeks generally.	11/13/2023 2:47 PM
539	Worried about others dumping their garbage in my bins	11/13/2023 2:41 PM
540	[redacted] idea	11/13/2023 2:31 PM
541	Don't want green cart program. We should gave a choice if we want it. The smell would be atrocious in the summer.	11/13/2023 2:25 PM
542	I think that by composting more regularly I would have significantly less garbage	11/13/2023 2:22 PM
543	Hi	11/13/2023 2:19 PM
544	Loop	11/13/2023 2:11 PM
545	We compost year-round already. Green waste isn't in our black bin.	11/13/2023 2:10 PM
546	During summer months it might get stinky	11/13/2023 2:08 PM
547	I am concerned that the money saved by the city with 2 week pick-up will be spent elsewhere. It should applied to a reduction in collection fees.	11/13/2023 1:46 PM
548	ourneighborhood has lots of people picking and spreading garbage	11/13/2023 1:46 PM
549	Unacceptable. The service is already poor enough.	11/13/2023 1:44 PM
550	Larger families on our street can't close the kids now. This would only get worse.	11/13/2023 1:42 PM
551	My blue bin usually gets full in one week	11/13/2023 1:42 PM
552	This would work if we had an organics program. Maybe the questions are out of order?	11/13/2023 1:40 PM
553	My neighbour's cart overflows every week they could not handle every 2 weeks as there is garbage in our back alley from their overflow. We compost in our yard and that has reduced our garbage enough for a family of 5 that every 2 weeks would be fine for us.	11/13/2023 1:32 PM
554	every two weeks is not acceptable to me	11/13/2023 1:29 PM

555	Absolutely NO!!!	11/13/2023 1:26 PM
556	Bad idea	11/13/2023 1:18 PM
557	Against 2 week collection	11/13/2023 1:16 PM
558	I already compost. Would not appreciate being charged extra for nothing.	11/13/2023 1:15 PM
559	This is a joke right?	11/13/2023 1:14 PM
560	No Way [redacted] Idea	11/13/2023 1:14 PM
561	This is a great idea. We lived in Toronto for many years and bi-weekly pick up works well	11/13/2023 1:11 PM
562	We subscribe to regular plastic and compost pick up and find we have very little waste for the black bin	11/13/2023 1:06 PM
563	Taxes high enough pickup weekly that's why we pay taxes!!!!	11/13/2023 1:03 PM
564	bi weekly pick up Nov-April... and when yard waste pick up starts go back to weekly	11/13/2023 1:01 PM
565	Most of the time it would be fine.	11/13/2023 1:01 PM
566	Wouldn't impact we already try to put it out every two weeks	11/13/2023 12:57 PM
567	Why would you cut back if you're trying to sell us on a new program?	11/13/2023 12:50 PM
568	I don't use a green cart	11/13/2023 12:48 PM
569	These impact options are all negative. I would like an option for positive impact, indicating that it would reduce my waste as the majority of my waste is food waste or recycling.	11/13/2023 12:37 PM
570	I already use a compos bin & compost said material	11/13/2023 12:36 PM
571	Presumably, we'd have less garbage as food waste etc.is diverted to the compost program.	11/13/2023 12:35 PM
572	If supplemented with compost, it likely would be fine in the end	11/13/2023 12:32 PM
573	I am a single resident, I use the green bin at Larsen ave center	11/13/2023 12:32 PM
574	If there was a compost program for pick up 2 weeks may be fine.	11/13/2023 12:31 PM
575	It's FULL Every Week. Get real people	11/13/2023 12:23 PM
576	I think the cost to collect would still go up with no benefit.	11/13/2023 12:18 PM
577	Unless there's a reduction in taxes given that you're considering reducing services, this is unacceptable.	11/13/2023 12:10 PM
578	I have my own composter bin that I paid for from city program years ago	11/13/2023 12:10 PM
579	This is a very bad idea. People are not getting smarter. Actually quite to the contrary. You're giving them too many choices you're mixing them up. In certain areas of the city they are poor and uneducated they have trouble already with one garbage cart don't give them four to choose from. I also agree with this there are already two bins and that's enough. If you think that you're going to save money by picking up garbage every second week now this place is going to be a rat infested dump in no time. We're already halfway there.	11/13/2023 12:09 PM
580	Some slumlords only provide 1 bin for multiple occupant housing and they'd certainly have extra garbage extremely often to the point they'd have garbage piling up lowering nearby property values (since that's what the city actually cares about, not its citizens)	11/13/2023 12:04 PM
581	I normally avoid putting food waste out until the morning of pickup to avoid pests. A 2-week pickup would be a big issue.	11/13/2023 11:56 AM
582	Rooming houses garbage would be more overflowing	11/13/2023 11:54 AM
583	We have an In-Sink-Erator so most food isn't going in the garbage in our case. There are some times I can wait two weeks for garbage/recycling and sometimes we do weekly.	11/13/2023 11:54 AM
584	Forget the green bin it cause mice etc to increase and the smell!!!!!!!!	11/13/2023 11:52 AM
585	I think most often I would not have a problem. If it were then all the items of concern would apply.	11/13/2023 11:51 AM

586	There is no room for a 3rd garbage bin! With infills the whole street is full of bins already. Might the person behind the desk take a drive down a non-suburban street (St. Boniface for example) and rethink this?	11/13/2023 11:50 AM
587	want to have garbage collected every week, it's already a challenge and in the summer, in some areas overflowing garbage would likely attract pests, rodents	11/13/2023 11:46 AM
588	green box for food waste in unacceptable due to wild animals, coyotes, racoons, rats, ravens, etc, as well as petswho are allowed to run free, will get into the green bins and make a mess. The smell would be horrendous as people will thow meat into these bins. We get weeks of +30 so that will cause a stench. Apartments/condos multy mamily dwellings will be retched every 2 weeks!	11/13/2023 11:45 AM
589	The entire would smell inhot months and rodents would takeover.	11/13/2023 11:43 AM
590	I like this as I compost already. I fo fear for parents dealing with diapers	11/13/2023 11:37 AM
591	If there is a compost cart, there would be no issues.	11/13/2023 11:36 AM
592	Reduce my taxes if only every 2 week pickup	11/13/2023 11:30 AM
593	Good idea	11/13/2023 11:28 AM
594	Most concerned during summer months heat and odor	11/13/2023 11:27 AM
595	If compost is picked up, my cart would not be full	11/13/2023 11:27 AM
596	Seeing other dump trash where they shouldn't	11/13/2023 11:26 AM
597	If there was a green bin I would be fine. If no green bin my family of 5 would make the black bin overflow	11/13/2023 11:23 AM
598	Compostable material makes up very little of my garbage for collection, pick up every two weeks would not be practical. The city already has problem with people dumping garbage in back lanes and empty lots. Two week collection will only make this worse.	11/13/2023 11:23 AM
599	It would be full around Christmas time.	11/13/2023 11:16 AM
600	It depends on what could go into the green bin. In Toronto diapers and pet waste are allowed in the green bin.	11/13/2023 11:14 AM
601	Waste of money and all round Bad Idea for Winnipeg.	11/13/2023 11:11 AM
602	Also concerns with maggots, etc.. For our household weekly pickups when temperatures above 0°C, bi-weekly pickups when temperatures below 0°. May not work for all households.	11/13/2023 11:10 AM
603	My garbage would not be full, but my recycling is full every week	11/13/2023 11:06 AM
604	I think it would reduce the amount of garbage I put in the black bin.	11/13/2023 11:04 AM
605	The current household bins would not be big enough. Yes, composting would help reduce the amount of waste but in my household, the bulk of my garbage is not from food itself. My bin is full weekly as it is. I cannot afford to buy the larger bins.	11/13/2023 11:03 AM
606	Winter ok, summer no.	11/13/2023 11:01 AM
607	This is a terrible idea!	11/13/2023 10:58 AM
608	Smell during the summer	11/13/2023 10:58 AM
609	Space for three bins is a huge concern we don't have much room for another	11/13/2023 10:57 AM
610	Recycling would be over flowing	11/13/2023 10:53 AM
611	not if cost goes up	11/13/2023 10:53 AM
612	disposed meat products and packaging will get smelly if collected every two weeks in the summer	11/13/2023 10:51 AM
613	My concern would be my neighbours whose garbage is ALWAYS overflowing	11/13/2023 10:50 AM
614	Garbage not an issue but recycling bin would be overflowing	11/13/2023 10:50 AM

615	Increased uncertainty about when the next pickup will occur.	11/13/2023 10:47 AM
616	Look at the state of backlanes downtown save a little on collection spend a lot on fires do not exacerbate an already huge problem	11/13/2023 10:46 AM
617	Recycling bin generally full when garbage may not be. Must have weekly recycling at minimum.	11/13/2023 10:44 AM
618	Neighbour uses my bin when his is full	11/13/2023 10:43 AM
619	2 week coll'n in Calgary leaves a MESS of extra garbage in the lanes! It is discriminatory to families disposing of diapers, and people in multiple family dwellings since only 1 bin is allowed per dwelling. Winnipeg can do better, and more humanely, than that!!!	11/13/2023 10:41 AM
620	I WANT COMPOSTING ASAP!!	11/13/2023 10:38 AM
621	Please, for the love of all that is holy, do not change to every two weeks. We have young kids are both our garbage and recycle are full EVERY week	11/13/2023 10:23 AM
622	I would be ok with pick up every two weeks if their is a compost program for low cost	11/13/2023 10:21 AM
623	The summer would be a challenge as magets would form	11/13/2023 10:20 AM
624	This is ridiculous idea	11/13/2023 10:17 AM
625	We don't need Ottawa's rat infestation	11/13/2023 10:14 AM
626	Worst idea ever	11/13/2023 10:08 AM
627	On a typical week, this would be okay.	11/13/2023 10:08 AM
628	My garbage is usually not full each week but occasionally it is and I'd be worried about not having any place to put it.	11/13/2023 10:06 AM
629	I'm concerned neighbours whose carts are overflowing now will start dumping garbage in the lanes.	11/13/2023 10:00 AM
630	Homeless people always search my bins and leave a mess.	11/13/2023 9:56 AM
631	Less garbage due to food waste diverted to green bin. All for it	11/13/2023 9:52 AM
632	weekly is the best	11/13/2023 9:51 AM
633	I have my own compost bins that I use regularly	11/13/2023 9:51 AM
634	Food Waste Collection and Two Week Collections is A[redacted] Idea.	11/13/2023 9:50 AM
635	I think it would sometimes be full, but we are fine with that if it means bringing in a compost program. And likely we wouldn't be and likely to have full containers if compostable items have their own container.	11/13/2023 9:48 AM
636	I compost in my garden. No need for another bin	11/13/2023 9:46 AM
637	If a pick-up is missed, it would be a full month between pick-ups: NOT acceptable!	11/13/2023 9:44 AM
638	Worried about smell of garbage in months where temp is above freezing	11/13/2023 9:44 AM
639	Garbage will be dumped everywhere it isn't feasible for $100	11/13/2023 9:41 AM
640	Without trying, I wouldn't know.	11/13/2023 9:38 AM
641	Depends on what's in the green bin program and what's not	11/13/2023 9:37 AM
642	I would be concerned about smell in summer	11/13/2023 9:37 AM
643	I think it would be OK	11/13/2023 9:36 AM
644	I would LOVE a food waste pickup. We currently pay for one.	11/13/2023 9:36 AM
645	my garbage cart would be full but not overflowing in two weeks	11/13/2023 9:35 AM
646	We already compost our own kitchen scraps and leaves.	11/13/2023 9:34 AM
647	It would reduce my garbage if there was a green bin collection so I would have less garbage for	11/13/2023 9:31 AM

	the black bin	
648	My diaper collection issues will be ending in a year or two	11/13/2023 9:30 AM
649	Bi-weekly collection in this city would be a HUGE mistake imho - I will never be a composter.	11/13/2023 9:29 AM
650	Back lane garbage build-up is a fire hazard	11/13/2023 9:29 AM
651	If my garbage cart was full I would have to take some of the garbage to another neighbourhood and dump it on someone else's yard.	11/13/2023 9:29 AM
652	If the smelly waste was picked up weekly, then I believe the black bin would be find in a two week schedule.	11/13/2023 9:26 AM
653	It generally would not impact me, however as a person without a car I can't easily take garbage, etc, somewhere else.	11/13/2023 9:24 AM
654	One garbage cart is not yet replaced by city. There is no adequate supply as told by staff	11/13/2023 9:22 AM
655	would like a lower rate if only collected every 2 weeks	11/13/2023 9:22 AM
656	Bi-weekly pickup would be extremely difficult to manage for larger households of 4 or more	11/13/2023 9:20 AM
657	I am not in agreement with two weeks for garbage collection,	11/13/2023 9:16 AM
658	It would impact my ability to clean up boulevards and streets	11/13/2023 9:14 AM
659	This would no impact me personally but would cause my neighbourhood to be even more of a mess than it already is.	11/13/2023 9:14 AM
660	Concerned about trash can fires, arson is a concern in this part of the city	11/13/2023 9:13 AM
661	This is a terrible idea! Raise property taxes if you must but DON'T cut services	11/13/2023 9:12 AM
662	It would make me happier because it is such a waste of resources the way it is now.	11/13/2023 9:12 AM
663	winter would be OK; to avoid smell and rodents.	11/13/2023 9:12 AM
664	Holiday time would be a challenge. maybe extra pick up late december?	11/13/2023 9:00 AM
665	Your not getting my vegtable compost	11/13/2023 8:58 AM
666	Do not change and no green carts !	11/13/2023 8:57 AM
667	A missed pickup would create serious smell issues, and is unhygienic.	11/13/2023 8:56 AM
668	It would be a very positive change	11/13/2023 8:55 AM
669	Ideally, garbage pick up every two weeks; and recycling and compost pick up every week. Otherwise you will have folks that end up dumping food waste and recycling in the garbage - which defeats the intent of what we are trying to do (divert from landfill).	11/13/2023 8:54 AM
670	This is a terrible idea. Would overflow, would smell worse	11/13/2023 8:54 AM
671	We already compost.	11/13/2023 8:52 AM
672	My neighbours, who I have to share bins with, refuse to cooperate.	11/13/2023 8:51 AM
673	While my garbage *might* last two weeks, my recycling will definitely *not* last two weeks.	11/13/2023 8:49 AM
674	Many bins in my back lane are over full every week.	11/13/2023 8:46 AM
675	I backyard compost	11/13/2023 8:45 AM
676	I will just leave it at the curb until it's picked up, do your job!	11/13/2023 8:44 AM
677	I already don't put my garbage out unless my bin is full so once a month or so. There might be ways to have the garbage collection ONLY on one side of our back lane, (Ash side one week, and Oak side the other week, which would half time/gas/distance costs while serving the area weekly) alternating weekly, which would offer neighbours that are on the same garbage collection cycle, the option of collaborating with neighbours to reduce environmental and financial costs of garbage pick up service. If I had extra garbage, I would collaborate with neighbours or take it to the landfill. The issue of space to place extra bins all on one side of	11/13/2023 8:42 AM

	the street would need to be considered, as well as collaboration with neighbours. Positioning of bins on garbage day? Whose responsibility it is to keep the bins clean?etc	
678	It ain't broken, don't try to pay fo green waste ink up by impacting the says that works	11/13/2023 8:42 AM
679	Are you talking about every two weeks year-round, or only every two weeks during the winter time?	11/13/2023 8:40 AM
680	My concerns are with pests and door from cat litter disposal & meat remnants (bones, seafood shells) during the summer months	11/13/2023 8:39 AM
681	Especially in the summer with hot weather the bin will start to smell	11/13/2023 8:38 AM
682	I already compost at home. Our bin isn't full even if we miss a pickup.	11/13/2023 8:35 AM
683	I already have a compost bin and do my own	11/13/2023 8:30 AM
684	That's right city of Winnipeg, look for ways to even further reduce services you provide. Sounds awesome. I am being sarcastic. Can you imagine the biweekly periods when garbage or recycling doesn't even get picked up???? Because that sometimes does happen now. So garbage or recycling is sitting for a month in the back lane??.?or trying to get through to 311 to beg for pickup??!?!	11/13/2023 8:30 AM
685	It wouldn't impact me if there was a weekly compost program	11/13/2023 8:30 AM
686	I do not want to pay extra for compost collection.	11/13/2023 8:26 AM
687	It might impact our household, but I would make necessary changes	11/13/2023 8:19 AM
688	We will adjust. Not concerned about impact.	11/13/2023 8:19 AM
689	Garbage might smell in summer over two weeks	11/13/2023 8:18 AM
690	My recycling bin would not make two weeks - it would be overfilling	11/13/2023 8:17 AM
691	This would not work for us whatsoever. I would rather have a slightly less than full bin than overflowing with garbage.	11/13/2023 8:15 AM
692	Do not go to two weeks	11/13/2023 8:14 AM
693	Don't do this. [redacted] idea for dirty city already	11/13/2023 8:13 AM
694	People would leave bags of garbage in lane	11/13/2023 8:09 AM
695	People need to think about what they buy and how much waste it produces. Ie too much packaging.	11/13/2023 8:05 AM
696	The recycle program doesn't take pizza boxes or dirty food containers even though the plastic is recyclable. That causes our garbage to fill up every week.	11/13/2023 8:05 AM
697	This is the [redacted] I have ever heard proposed.	11/13/2023 8:04 AM
698	illegal dumping would increase	11/13/2023 8:03 AM
699	I have had biweekly pick-up in other cities in which I lived and it was fine. right now most of my black bin garbage is compostible	11/13/2023 8:02 AM
700	My recycling bin would be overflowing.	11/13/2023 8:01 AM
701	If there was compost pick up it would be worth it, hard to know how much it would reduce garbage output currently though	11/13/2023 8:01 AM
702	Totally against a 3rd green bin, too much clutter.	11/13/2023 8:01 AM
703	Where do we store all these. Wasps will love it. Why dont you tax people living outside the side that have jobs inside the city. Including your own employees	11/13/2023 7:57 AM
704	I want weekly pickup	11/13/2023 7:57 AM
705	I compost so I am not in favor of paying more for a green cart.	11/13/2023 7:56 AM
706	We have a family of 5, with three young kids, two in diapers. We have a lot of diaper garbage. In summer our bins get smelly being out for a week and it's always a relief on pickup day. I	11/13/2023 7:54 AM

	can't imagine how our neighbourhood would smell waiting two weeks between pickups, or how gross it would be if a bin spilled two week old rotting garbage all over the place.	
707	All the more for persons to dig through and throw all over our back lanes	11/13/2023 7:53 AM
708	Yes please. The fact that we don't have a compost program is laughable.	11/13/2023 7:49 AM
709	I had this service in Ottawa when I lived there but did not have children yet. I'm sure it will be more challenging with kids but usually we had only one bag every two weeks for a couple.	11/13/2023 7:49 AM
710	3 pets and the waste piles up fast	11/13/2023 7:36 AM
711	If there was green cart pickup, my garbage bin would be used less than half as much as now	11/13/2023 7:26 AM
712	I don't really have room to store a 3rd bin	11/13/2023 7:22 AM
713	This question is worded poorly and doesn't make it clear that no food waste would be in the garbage can.	11/13/2023 7:14 AM
714	Na	11/13/2023 7:00 AM
715	My recycling fills up faster than garbage.	11/13/2023 6:57 AM
716	I wouldn't use the green carts	11/13/2023 6:55 AM
717	My garbage cart would probably be full or overflowing but I would be willing to find ways to make it work.	11/13/2023 6:55 AM
718	Parts of the city are already dirty. Plus this is great employment for many	11/13/2023 6:48 AM
719	Simply not possible for our family and we already have the extra large bins - both garbage and recycling are filled weekly	11/13/2023 6:42 AM
720	This is a great idea.	11/13/2023 6:15 AM
721	I'm full every week without much food waste	11/13/2023 6:00 AM
722	It would be impossible. I have the upgraded large bin and fill it to the top every week. I even have a second backup bin and fill that up too some weeks. Not getting weekly pickup would be a disaster	11/13/2023 5:59 AM
723	It would stink in the summer.	11/13/2023 5:51 AM
724	2 week garbage pickup unacceptable	11/13/2023 5:09 AM
725	I'd be fine with that, however I worry about smelly meat trays	11/12/2023 11:43 PM
726	This is backwards. Pick up green box every week and garbage every two, like other cities	11/12/2023 10:25 PM
727	You should absolutely do this to encourage people to compost and recycle more	11/12/2023 9:46 PM
728	We need to do this! If Kitchener Waterloo can implement this with no issues, so can Wpg!!!	11/12/2023 9:40 PM
729	Two-week garbage pick up would not work well, garbage would be strewn everywhere	11/12/2023 4:24 PM
730	Would have to upgrade to larger garbage bin for family of 6 (plus two cats and 2 guinea pigs and all that litter and bedding) collection every 2 weeks.	11/12/2023 12:14 AM
731	This will lead to increased healthcare trouble. History shows us what happens when we don't promptly dispose of waste, and the man side effect is disease and death.	11/11/2023 6:37 PM
732	I am composting almost all of the food waste.	11/11/2023 5:39 PM
733	This would be too long in Summer but fine in Winter	11/11/2023 5:37 PM
734	Je fais mon compost. Je n'ai pas d'animaux.	11/11/2023 9:52 AM
735	I HIGHLY support a green cart program	11/11/2023 9:08 AM
736	We are a family of 4 and our garbage cart is only half full every week; every second week would be ideal	11/11/2023 8:51 AM
737	Obviously more issues with smell in summer	11/10/2023 9:55 PM

738	I would be more concerned about the smell if the green cart collection was only every two weeks	11/10/2023 2:53 PM
739	do not want green cart	11/10/2023 11:56 AM
740	the condo dumpsters would likely fill up in that time without more comprehensive recycling and compost.	11/10/2023 11:36 AM
741	I have a composter so food waste is generally not an issue	11/10/2023 7:54 AM
742	My recycling would be overflowing	11/10/2023 7:34 AM
743	The green bins are a wonderful program and should be used. I feel garbage pick up should remain weekly - ON runs such programs successfully	11/10/2023 7:09 AM
744	green cart must be provided too.	11/10/2023 6:30 AM
745	Some weeks we don't have a lot of garbage, some weeks we have more (Christmastime especially). So we would be somewhere between not full or full.	11/9/2023 11:01 PM
746	This is a horrible idea. The garbage collection team is bad enough as it is. Having them come every two weeks would make them leave behind 50% of the carts for being overfilled.	11/9/2023 4:58 PM
747	Because many dog walkers dump their bags in our cart, I think it would be horribly smelly in the summer	11/9/2023 4:40 PM
748	if you started a free green box pick up for compostable items like food waste that is weekly, then "garbage" could be every second week. er	11/9/2023 1:33 PM
749	Unless people have experienced this, I doubt their answers will be reliable. I lived in Toronto for 25 years. Green and blue bins are used much more effectively and only what is left, goes into the black bin. Public awareness is key though, and lacking here.	11/9/2023 1:15 PM
750	It's a terrible idea.	11/9/2023 12:58 PM
751	I often put it out every two weeks	11/9/2023 10:35 AM
752	On rare occasion it would be too full. But if recycling was on the same schedule our blue in would be too full.	11/9/2023 8:03 AM
753	not a good idea just look at the mess's in the north u want to spread that and the rats ?	11/8/2023 10:10 PM
754	My cart would usually be full after two weeks but only occasionally overflowing.	11/8/2023 10:06 PM
755	Is this stating that there would be weekly green waste pick up? If so, biweekly garbage pick up may work. The issue of missing a pick up if away would remain an issue.	11/8/2023 9:30 PM
756	I have had missed garbage and recycling pick-ups in the past and, at times - though not often, had to wait two weeks (next pickup). I have found rotting meat (especially fish) attract mice and other pests, and I had a problem of trying to get rid of them, especially mice, (very costly - Poulins).	11/8/2023 9:18 PM
757	We have our own composters and do not require or want green bins and will not pay for them	11/8/2023 8:33 PM
758	Compost is the answer!	11/8/2023 6:22 PM
759	Not an option in my opinion	11/8/2023 5:44 PM
760	I also worry about cooperation in rooming/roommate living situations.	11/8/2023 1:48 PM
761	Attract Racoons to destroy my attic AGAIN !	11/8/2023 11:58 AM
762	Summer would be more of an issue than winter	11/8/2023 11:26 AM
763	People think they would be inconvenienced but would eventually adapt just as they did with recycling in general, purchasing compostable yard waste bags, etc. Change isn't impossible.	11/8/2023 9:40 AM
764	It would attract homeless and raccoons	11/8/2023 7:38 AM
765	Sorry, but this also assumes you get a green cart pickup every week though right? then it wouldn't be so bad.	11/8/2023 12:01 AM
766	Many of my neighbors' bins are full every week!	11/7/2023 9:45 PM

767	It would effect me occasionally.	11/7/2023 9:19 PM
768	Concern would be for the neighborhood enough for some enough for some	11/7/2023 8:09 PM
769	*single occupant, no pets. This would impact other households much more.	11/7/2023 7:15 PM
770	Irrelevant question: I am not forced to put out my cart each week	11/7/2023 10:07 AM
771	My (renting) neighbours already have an overflowing garbage bin.	11/6/2023 9:44 PM
772	we fill up our recycling bin weekly, garbage in general filled every two week.	11/6/2023 9:01 PM
773	I also think many immigrants won't fill this out and they have the biggest issues with volume.	11/6/2023 4:28 PM
774	I AM OPPOSED TO THIS	11/6/2023 3:33 PM
775	would not impact me as I have very little refuse and would have no use for a green cart	11/6/2023 3:20 PM
776	People would take their garbage to sites with dumpsters	11/6/2023 2:37 PM
777	In the summer it will be DISASTER and in winter a NUISANCE (being frozen in the bin)	11/6/2023 1:59 PM
778	do not need or want a green bin	11/6/2023 1:57 PM
779	It would be more of an issue around Christmas or when I have multiple birthdays in a week as we have more waste at those times of the year.	11/6/2023 1:37 PM
780	Live in apartment only 4 recycle bins	11/6/2023 1:33 PM
781	Works great in many other cities, we need to get on board!	11/6/2023 1:21 PM
782	Search the landfill don't care about food waste I want my friends to he recovered	11/6/2023 12:34 PM
783	Many people do not have room for another cart, especially in winter with all the snow. It is difficult enough now with the 2 cartst	11/6/2023 12:24 PM
784	I would need more info about the green cart program ie how is the cart kept free from pests and how the cart is kept clean ... is there a liner in it that is lifted out?	11/6/2023 11:56 AM
785	I see many full/overfull carts in our neighborhood every week, reducing collection to once every 2 weeks would likely cause issues for many households	11/6/2023 10:26 AM
786	Waiting two weeks to dispose of garbage is unacceptable	11/6/2023 10:11 AM
787	This question is unclear - if we are assuming a weekly compost pickup and biweekly garbage, that would be fine.	11/6/2023 9:30 AM
788	Our house produces way to much garbage for that	11/6/2023 9:17 AM
789	After holidays pick up may need to be increased	11/6/2023 9:10 AM
790	I do my own thing.	11/6/2023 8:37 AM
791	It would be the proper amount of time for the garbage cart to become full	11/6/2023 8:26 AM
792	Only if they are three bins - green, grey and blue	11/6/2023 8:26 AM
793	WE NEED COMPOSTING ASAP!	11/6/2023 7:59 AM
794	Horrible idea, save money elsewhere!!!	11/5/2023 9:58 PM
795	Homeless people would make a huge mess. They are always in my garbage	11/5/2023 8:51 PM
796	I barely have enough room in both my garbage cart and recycling cart and I'm only a family to 3.	11/5/2023 8:22 PM
797	Already compost but want green cart	11/5/2023 8:12 PM
798	No impact in winter as garbage freezes. Summer could be managed.	11/5/2023 8:09 PM
799	My recycle bin is full every week	11/5/2023 7:37 PM
800	There may be a few times a year that it may effect our household but nothing we could not manage	11/5/2023 6:48 PM

801	Terrible idea	11/5/2023 5:34 PM
802	As stated previously, others tend to fill or overfill my cart already. Bi-weekly pickup would just make the garbage mess on my backlane double worse than what it already is with the weekly pickup.	11/5/2023 5:31 PM
803	I would welcome compost material pick up	11/5/2023 4:34 PM
804	Every other major city in Canada has a rodent problem. Do this and this city is encouraging us to be overrun with vermin!	11/5/2023 3:32 PM
805	This question is poorly worded and shows composting in a negatively light. If garbage was picked up every 2 weeks as a result of having a a compost bin specifically for food waste and other organics, our garbage bin would be fine and the 2 week cycle would work great.	11/5/2023 3:22 PM
806	The phrasing of this question is extremely biased and the answers are heavily weighted towards negative impacts.	11/5/2023 3:16 PM
807	Two weeks is too long. What do I do when the bin is full? I don't want to have to store the garbage/recycling for an extra week. This has the potential to increase garbage being dumped where it should be dumped. Keep it at weekly please. Two weeks is too long. I don't want to have to store my garbage for two weeks. This will create a dirty, smelling and germ filled environment in peoples' homes and yards.	11/5/2023 2:59 PM
808	I already compost and resent having to pay extra for those who don't	11/5/2023 2:19 PM
809	I've lived in smallish towns with reduced or pay as you go bag tag systems and invariably people find deserted lots, bush lots and river banks to deposit their "extra" garbage or unwanted items. Townships then incur a cost to continually clean these areas up.	11/5/2023 2:10 PM
810	During summer moths could be bad.	11/5/2023 1:53 PM
811	We wouldn't fill a green bin in a year so once a week or alternating weeks is too soon. How about a community bin at the community mail box. No green bit for us won't use.	11/5/2023 1:46 PM
812	As indicated in one of the previous questions, larger families could not go without weekly pickup. I am in a unique situation as mine is rarely full. During the winter when odor is not an issue I usually place my bins once every 3 to 4 weeks.	11/5/2023 1:45 PM
813	Bugs. Mice. Animals. Etc tipping over and making a mess.	11/5/2023 1:44 PM
814	Garbage would be all over the neighborhood the city would be more disgusting than it is now.	11/5/2023 1:27 PM
815	My recycling bin is always full. Missing a week would be an issue for me.	11/5/2023 1:18 PM
816	Even more garbage would be all over the neighborhood!!	11/5/2023 1:10 PM
817	I am a garderner and compost in my back yard and keep all my yard waste	11/5/2023 1:04 PM
818	Mu neighbourhood would have garbage strewn on every street if the collection went to two weeks	11/5/2023 1:01 PM
819	Summer would be smell for some winter no problem except around holidays like Christmas	11/5/2023 12:49 PM
820	I compost at home. I would not like to pay for something I would never use.	11/5/2023 12:05 PM
821	We support any initiative that does not reflect negatively on our taxes	11/5/2023 11:33 AM
822	Collection every 2 weeks would work for me but not during busy holidays like Christmas, an extra pick up during busy times would be necessary	11/5/2023 11:27 AM
823	My recycling cart is full to overflow every week	11/5/2023 11:24 AM
824	For the winter months , no problem but for the summer it's a terrible idea.	11/5/2023 11:09 AM
825	Bad idea. The smell alone in the summer would be unbearable	11/5/2023 11:03 AM
826	i have 4 compost bins on my yard. i compost daily.	11/5/2023 10:41 AM
827	For some a full cart is much too heavy if collection was only every two weeks.	11/5/2023 10:36 AM
828	Too heavy to roll out a garbage cart with double the weekly waste	11/5/2023 10:36 AM

829	Every two weeks is unworkable	11/5/2023 10:31 AM
830	need more info on whether smell would be an issue	11/5/2023 10:31 AM
831	concern over size of green food waste, I believe it is way too large. I have seen smaller ones in outher cities.	11/5/2023 10:29 AM
832	I would not use food waste recycling. The cost exceeds the benefit here in Winnipeg.	11/5/2023 10:24 AM
833	I don't want another cart or the cost that goes with it . As a senior I already find the two carts I have difficult to handle especially on winter with the piles of snow on the backlane	11/5/2023 9:58 AM
834	we paid taxes for pick up before you mandated these new carts and you did not remove any cost from our taxes you just added new fees for less service.	11/5/2023 9:33 AM
835	My only concer would be around Christmas when we tend to have more recycling and garbage.	11/5/2023 9:00 AM
836	apartment block	11/5/2023 8:43 AM
837	The current weekly schedule works very well and is easily understood. Moving to biweekly pickup, based on a the behind-schedule and as yet imaginary household compost program is a terrible, half-baked idea. Unless you want the city christened "Diaperpeg."	11/5/2023 8:32 AM
838	The carts would become quite heavy and a challenge to move to our street especially in the winter. Also, the recycling usually fills up each week.	11/5/2023 8:25 AM
839	It wouldn't impact me but I would be concerned other people.	11/5/2023 8:05 AM
840	I compost most of my biodegradables and I still run out of room in my bin.	11/5/2023 7:52 AM
841	Once a week is good	11/5/2023 7:50 AM
842	It would be unacceptable.	11/5/2023 7:40 AM
843	Others may place there garbage in my cart, my service would be reduced by 50% so my cost should be reduced by 50%, the city would experience garbage strewn about and put in commercial dumpsters because of the lack of service.	11/5/2023 7:33 AM
844	I would be concerned if my garbage cart got missed during regular pickup	11/5/2023 7:32 AM
845	I only put bins out when full now, it's common for me to wait 3 weeks for pick up	11/5/2023 7:01 AM
846	most wont use it or throw regular garbage in it for sure (like my neighbours throw in recycle bin	11/5/2023 6:36 AM
847	If we had a green cart program, every 2 was would be ok	11/5/2023 6:35 AM
848	This is a horrible idea!	11/5/2023 2:14 AM
849	This is a terrible idea.	11/5/2023 1:56 AM
850	It would be a disaster and my garbage is full each week	11/4/2023 11:49 PM
851	People would throw extra garbage in other people's yards or open space to get rid of garbage	11/4/2023 10:28 PM
852	I would NEVER use the green cart!	11/4/2023 10:23 PM
853	Bad idea! Please don't do this	11/4/2023 10:17 PM
854	More taxes less service seems to be the direction	11/4/2023 10:10 PM
855	Doable in the winter, definitely not in the summer!	11/4/2023 9:38 PM
856	I absolutely disagree with paying a fee	11/4/2023 9:29 PM
857	I'd be ok with 3x a month pick ip	11/4/2023 9:10 PM
858	That is a terrible idea. Don't do it.	11/4/2023 8:02 PM
859	I think 2 weeks is way to long of a time span between collection	11/4/2023 7:13 PM
860	Our taxes are high enough to carry on with weekly pickup.	11/4/2023 6:53 PM
861	Gets very hot in summer = smell	11/4/2023 6:42 PM
862	My taxes are high enough for the limited service the city supplies I want service every week	11/4/2023 6:02 PM

863	I compost on my property. My one cart would likely be full but I strongly support any effort to have a green cart.	11/4/2023 5:56 PM
864	Will have too much garbage, not interested in compost, don't have room for another bin	11/4/2023 5:52 PM
865	I have 2 composters, have for 20 years.	11/4/2023 4:07 PM
866	Compost is minimal and should go with regular waste. Eliminate garbage bags they are the problem	11/4/2023 7:12 AM
867	Good waste is a majority of the garbage would be a change but better for the environment	11/3/2023 10:44 PM
868	In a MFD	11/3/2023 9:42 PM
869	I would worry that some weeks I would have more garbage or recycling in 2 weeks if only food waste was collected weekly. Peelings, eggshells etc. can already go into the garden waste in the summer.	11/3/2023 9:41 PM
870	This would be great, and please enact the compost program that was piloted.	11/3/2023 8:54 PM
871	I would not participate in this program.	11/3/2023 8:26 PM
872	Are you talking about composting? Why isn't the city composting already?	11/3/2023 7:12 PM
873	Its a great idea	11/3/2023 3:35 PM
874	I don't want to continually find other ways of disposi g when I already pay for garbage pick up and new bins when the machines break the ones we have	11/3/2023 2:30 PM
875	Personally I compost so my garbage is generally a half bag once a week with meat scraps and non-recyclables.	11/3/2023 2:17 PM
876	Would love to see compost service in Winnipeg. It requires training homeowners.	11/3/2023 2:00 PM
877	the smell would be disgusting and my place would feel like a garbage dump	11/3/2023 1:28 PM
878	Both my carts go out only when each is reasonably full.	11/3/2023 1:12 PM
879	Live in an apartment	11/3/2023 12:11 PM
880	We are concerned about an every 2 week garbage pick up throughout the summer because of the smell (diapers). However, throughout the winter, we would be fine with a garbage pick up every 2 weeks.	11/3/2023 10:31 AM
881	I am already using a green cart	11/3/2023 8:43 AM
882	diapers and hygiene products are the worst for filling up landfills, not to mention dryers/washers/fridge/stoves/cell phones/tvs/electronics, etc. they need to make them last longer than 5-10 years.. what a waste and concern	11/3/2023 8:23 AM
883	This would work only if you also implemented the green cart pick up every week	11/3/2023 7:59 AM
884	Seriously being considered? 2 weeks?	11/2/2023 11:41 PM
885	Would not help if single person find it would be a waste of time	11/2/2023 9:51 PM
886	concerned about rent properties	11/2/2023 9:21 PM
887	I have a GARBURATOR. Don't agree with program	11/2/2023 8:57 PM
888	This is absolutely imperative to do as soon as possible. There are only positives to offering organic waste collection for all city residents.	11/2/2023 8:29 PM
889	condo produces lots of garbage	11/2/2023 7:31 PM
890	We compost already so our food waste is not in the garbage. I think our cart would be full in 2 weeks.	11/2/2023 7:23 PM
891	Back lanes are unsightly now with garbage not fitting in carts	11/2/2023 7:09 PM
892	Terrible idea - every 2 weeks. The smell would be unbearable and the mice would come	11/2/2023 7:06 PM
893	We compost all such waste in our own composter - year round	11/2/2023 5:59 PM

894	i live in central winnipeg and leaving items for an extended period can pose dangers (intentional fires happen semi-frequently in our neighbourhood and nearby neighbourhoods). also, the garbage trucks sometimes miss houses, so bi-weekly pick-ups would mean only picking up once a month if they are missed. i do not have a vehicle and cannot drive to a city landfill to deposit garbage myself. dog waste and non-compostable items would pose a health hazard.	11/2/2023 5:49 PM
895	not a problem for my home but my rooming houses would be a problem/overflow	11/2/2023 5:33 PM
896	I have used private food composting company and had pick up once a week - it was great it reduced my garbage by 50%	11/2/2023 5:29 PM
897	My garbage cart is full each and every week	11/2/2023 4:13 PM
898	I would be willing to keep my garage at times for 2 weeks if I knew it would result in a cost savings but I assume the current contract doesn't result in any savings so I always put it out.	11/2/2023 3:54 PM
899	Simply NOT a good Idea. Will this reduce my Cart Charge?	11/2/2023 3:50 PM
900	Often I can hold 2 weeks of garbage in my bin, but not always. I don't want this to change	11/2/2023 3:36 PM
901	I would be thrilled; composting significantly reduced my black cart load in Lethbridge	11/2/2023 3:25 PM
902	Not as concerned about my cart as others - back lanes could get very messy	11/2/2023 3:16 PM
903	Family of 4, sometimes full but not always, would love a food waste program	11/2/2023 3:15 PM
904	My recycling cart would be too full	11/2/2023 3:06 PM
905	I have no problem with 2 week pick-up if food waste is collected.	11/2/2023 2:39 PM
906	We couldn't survive. We need weekly	11/2/2023 2:12 PM
907	Brandon has had compost carts for around 10 years and it works great. We should stop studying and use their system.	11/2/2023 2:01 PM
908	DO THIS!	11/2/2023 1:57 PM
909	There have been ongoing instances that certain people scavenging garbage carts, and I'm concerned about getting further nuisances from 2 week schedule.	11/2/2023 1:45 PM
910	Summer would be disgusting!	11/2/2023 1:20 PM
911	I have no such worries - this is a no-brainer. Do.it.now.	11/2/2023 12:58 PM
912	I would have way too much garbage	11/2/2023 12:56 PM
913	this is great idea - pick-up every second week in exchange for offering curbside compost pick-up !	11/2/2023 12:45 PM
914	My recycling bin would be too full	11/2/2023 12:44 PM
915	We need green carts, reduce waste.	11/2/2023 12:43 PM
916	See previous comments	11/2/2023 12:36 PM
917	There may be weeks that I would have too much waste for this to work.	11/2/2023 12:24 PM
918	This would cause a BIG problem for some of my neighbours who are poorly educated about G&R (garbage and recyling)	11/2/2023 12:23 PM
919	I have two compost bins in my backyard. I do not eat meat.	11/2/2023 12:21 PM
920	I subscribe to Compost Winnipeg service	11/2/2023 12:06 PM
921	We don't have a weekly green cart program so how can we compare?	11/2/2023 12:03 PM
922	Perfect for cooler months, in hot months, a weekly pickup may be needed	11/2/2023 11:55 AM
923	I can't answer this question without a test/trial program first.	11/2/2023 11:25 AM
924	Worry about smells in summer- ok during winter	11/2/2023 11:21 AM
925	Pas disponible dans mon bloc appartement	11/2/2023 11:18 AM

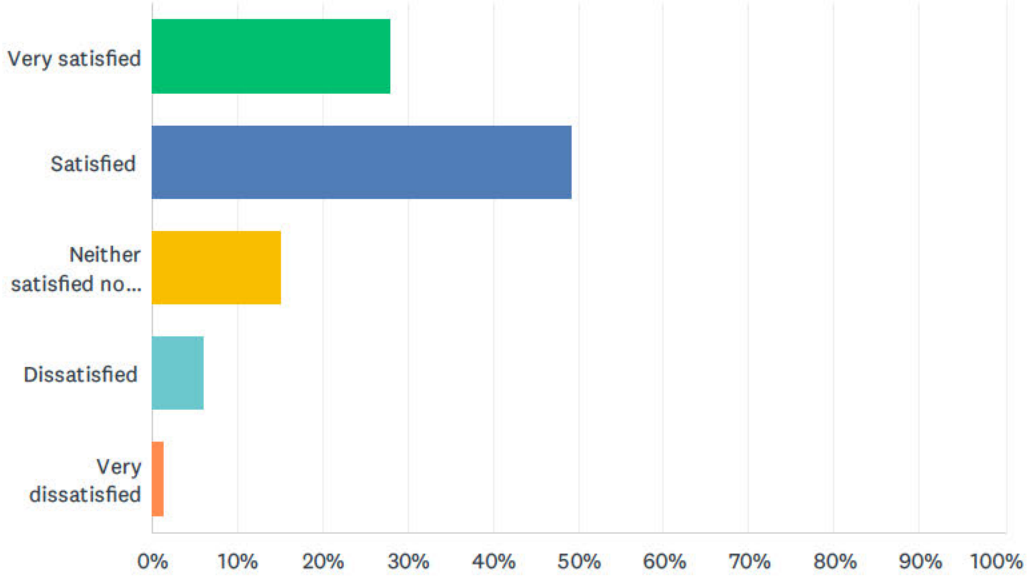
926	The two weeks suggested idea is a good one. There is no need-in many cases- for weekly collection. Another idea is to test garbage by weight to see averages and decide what to do: whether weekly or every two weeks.	11/2/2023 11:16 AM
927	I would be very interested	11/2/2023 11:12 AM
928	i would be concerned with animals smelling the waste and being attracted to the yard. I would not like garbage being collected every two weeks that is not acceptable	11/2/2023 11:06 AM
929	Food containers would get very dirty and smelly over time requiring frequent washing.	11/2/2023 10:59 AM
930	Ok in winter, worried about summer	11/2/2023 10:33 AM
931	No concerns	11/2/2023 10:32 AM
932	Depends how much can be diverted from garbage to compost	11/2/2023 10:23 AM
933	Please do a green bin!!!	11/2/2023 10:23 AM
934	Is this assuming we would have the green cart as well? It mentions it but then seems to just ask if I'd mind collection every 2 weeks	11/2/2023 10:23 AM
935	Separate pet waste and diaper collection container would be ideal	11/2/2023 9:58 AM
936	I compost and have very little organics left	11/2/2023 9:57 AM
937	I really don't want to manage an additional cart	11/2/2023 9:55 AM
938	I think summer months every week and winter every 2 weeks .	11/2/2023 9:53 AM
939	I home compost 100% of veg / fruit / grain based remnants	11/2/2023 9:44 AM
940	The extra costs involved which would probably raise property taxes which are already too expensive! In July & August the City should collect yard waste bags every week.	11/2/2023 9:43 AM
941	Garbage carts in my area are already being gone through by the homeless. This would significantly increase the mess .	11/2/2023 9:38 AM
942	Live in a highrise so this has never happened to me	11/2/2023 9:36 AM
943	If costs are lower than it seems like a good plan	11/2/2023 9:27 AM
944	we put our cart out about 1x/month, less in the winter because of snow	11/2/2023 9:20 AM
945	I already try not to put out the bins if they are only half full	11/2/2023 9:18 AM
946	Sounds terrible	11/2/2023 9:09 AM
947	Would not use a green cart for food waste.	11/2/2023 9:04 AM
948	I compost on my property so my garbage bin already takes 2-3 weeks to fill	11/2/2023 9:00 AM
949	I am concerned there will be an issue with smell, rodents, or pests in the summer.	11/2/2023 8:52 AM
950	As one of us runs a business from home and has work deliveries delivered to the house, we would occasionally struggle to dispose of waste	11/2/2023 8:52 AM
951	I would NOT use it	11/2/2023 8:47 AM
952	[redacted] idea	11/2/2023 8:44 AM
953	I would be thrilled! In the past I've paid for this privately, but now there is no service that will pick up in my neighbourhood	11/2/2023 8:43 AM
954	I think this is a perfect idea and solution. This survey is poorly written because it only offers negative impacts. The impact for my family would be positive.	11/2/2023 8:35 AM
955	If you're not supposed to put meat in the compost, the worst smelly waste really doesn't go in there. There's also dog poop and other pet waste that shouldn't sit for 2 weeks.	11/2/2023 8:35 AM
956	We have a large bin, which gets filled up very fast so this would impact everyone that lives in the buildings and in the area.	11/2/2023 8:33 AM
957	During certain times (holidays, birthdays, etc) this would lead to bins being overfilled	11/2/2023 8:32 AM

958	I feel my back lane would look really bad if garbage left that ling as most leave carts out	11/2/2023 8:32 AM
959	ok pour un ramassage toutes les deux semaines si cela réduit ma facture	11/2/2023 8:30 AM
960	It would be great because I could stop paying for compost pickup.	11/2/2023 8:29 AM
961	We don't produce a lot of food waste.	11/2/2023 8:26 AM
962	Question presque incompréhensible.	11/2/2023 8:20 AM
963	We have cats in our community that help with the rodent population	11/2/2023 8:16 AM
964	I did not know about this	11/2/2023 8:15 AM
965	If you would provide a green cart for compost, then I don't think the black cart will fill up quickly	11/2/2023 8:14 AM
966	I will never do this and would resent paying for a serice I do not use	11/2/2023 8:13 AM
967	I'd be concerned about the amount of trash spread out on the lane from people rummaging thru bins	11/2/2023 8:13 AM
968	I don't have room to store another cart. People should have the option to opt out. (I compost a lot of kitchen waste in a large, homebuilt garden compost bin	11/2/2023 7:45 AM
969	I have a backyard composter so it wouldn't impact me.	11/1/2023 11:58 PM
970	We have lots of large wildlife in our area and critters would definitely get into the garbage if not picked up weekly.	11/1/2023 11:43 PM
971	Don't want a stinky green cart	11/1/2023 10:45 PM
972	I'm more concerned with how other people would deal with bi weekly garbage pickup. While I would not have a problem with it, I know many others would and it would result in even more litter in our community.	11/1/2023 9:43 PM
973	the cart may need to be bigger for some customers	11/1/2023 1:15 PM
974	two weeks is too long	11/1/2023 9:50 AM
975	People disposing of garbage some other way	10/31/2023 8:10 PM
976	I don't put my garbage out every week	10/31/2023 3:45 PM
977	don't do it at all	10/31/2023 12:25 PM
978	With a larger bin, my garbage would be fine for two weeks.	10/31/2023 12:06 PM
979	collecting garbage every two weeks would be a very [redacted] idea!	10/31/2023 10:43 AM
980	Times like Christmas and other big events maybe there would be a issue	10/31/2023 10:32 AM
981	Might need bigger carts for some families.	10/31/2023 9:12 AM
982	Koo	10/31/2023 12:20 AM
983	We already have 2 bins of each. Normal both filled weekly. I would need 8 if changed to every two weeks. I don't have that kind of money for more bins and where do they get stored?	10/30/2023 10:16 PM
984	Don't waste anymore of our tax dollars on more unwieldly buckets.	10/30/2023 9:08 PM
985	I want weekly collection	10/30/2023 6:46 PM
986	Too many people going through the garbage and spreading it around	10/30/2023 6:16 PM
987	It would stink up my garage	10/30/2023 5:20 PM
988	Unnecessary and a waste of resources. I have a garburator. For "green" waste I would estimate I have about 1 Litre worth a week.	10/30/2023 5:06 PM
989	So much for keeping Winnipeg clean and tidy...	10/30/2023 4:59 PM
990	Is this lik compost? It's unclear in the question.	10/30/2023 4:43 PM

991	i'm concerned that i'd be missed as it happens often and we have to call for pick up	10/30/2023 4:14 PM
992	I live with my adult children. They would overwhelm my cart	10/30/2023 3:57 PM
993	The less frequency of collection, the greater the risk for waste to be strewn about from those that are accessing containers (marginalized individuals)	10/30/2023 2:13 PM

Q8 How satisfied are you with the curbside recycling program?

Answered: 8,700 Skipped: 536



ANSWER CHOICES	RESPONSES	
Very satisfied	27.91%	2,428
Satisfied	49.28%	4,287
Neither satisfied nor dissatisfied	15.16%	1,319
Dissatisfied	6.17%	537
Very dissatisfied	1.48%	129
TOTAL		8,700

Q9 Please let us know why would are not satisfied.

Answered: 652 Skipped: 8,584

#	RESPONSES	DATE
1	I think Winnipeg should be increasing the types of things that can be recycled.	11/29/2023 9:15 PM
2	We should be able to recycle more options like other provinces and possible the US. ie food waste, black plastics, etc	11/29/2023 8:29 AM
3	Why ask the same question for two bins, when the answer would be identical. There's no room for bins in lanes in urban Winnipeg. Suburbanites always get their way.	11/29/2023 8:22 AM
4	Bins not emptied completely, bins thrown around, left in lawn or behind cars. Often fallout just left on ground	11/28/2023 7:40 PM
5	There is not enough public education about what is or isn't recyclable. The recycling bins in our back lane regularly contain items (visible because the bins are often overflowing) that are clearly not recyclable (eg, filled garbage bags, household items, large chunks of styrofoam, etc). If an orange tag is left on a bin, people ignore it or don't understand what is written on it. Rather than tag bins, the address of offenders should be recorded and reported. Absentee landlords (homeowners) do not inform renters about the rules, and people are too lazy to check the city website. It is up to the city to educate the public in whatever means possible to get the message across in a targeted manner; ie, targeted at those who clearly don't have a clue. Beyond this neighbourhood liveability concern, my other concern with the current recycling program is regarding how much of what we put in our bin actually gets recycled, especially the plastic items. There needs to more transparency about this.	11/28/2023 4:58 PM
6	Because it is not effective and does not properly recycle items.	11/28/2023 1:30 PM
7	Recycling program is too limited and does not accept many recyclable products. If sorting is an issue Ontario has used grey (paper products), blue (plastics), and green (organics) bins for decades now.	11/28/2023 12:06 PM
8	Looks like we are recycling almost nothing. You can review the German recycling programs' to see how much more plastics, paper, and glass we can recycle instead of this "imitation" of the recycling process which we have here in Manitoba.	11/27/2023 3:41 PM
9	The rules are not clear and it makes recycling hard.	11/27/2023 12:25 PM
10	They are always overflowing before pick up.	11/27/2023 9:32 AM
11	Most of the items put in recycling are not recycled, but just end up in the garbage. There should be an emphasis on waste reduction, but the fact that there is "recycling" only encourages people to waste, with the idea that their waste is being recycled. Recycling is largely a scam.	11/26/2023 3:58 PM
12	I feel that residents have not received sufficient instruction on what items are truly recyclable. While we have been advised what materials and container types can be placed in bins, we have not been advised sufficiently regarding contaminants. For example, are accepted clamshells truly recyclable if they have plastic or paper adhesive labels affixed to them? Investigations by media outlets have shown that much of the "recyclables" from this country are shipped offshore (offloaded) to other countries to deal with the waste, such as the Phillipines.	11/26/2023 2:54 PM
13	I think we as a country can do more recycling, plastics of all sorts should be able to be melted and repurposed. I am a big recycler , and to have my cart missed for 3 weeks was absurd..and it was not close to another bin ,pole, or obstruction.	11/26/2023 2:32 PM
14	A lot of plastics do not get recycled and end up in landfill.	11/26/2023 1:02 PM
15	I wish Winnipeg would collect ALL plastics, Styrofoams etc. Many cities that I have visited have zero plastics in their garbage. Winnipeg needs to have a facility to manage ALL recycling materials	11/26/2023 7:24 AM

16	Tim hortons cups and other coffee cups are not recyclable this is a massive amount of garbage and needs to be recyclable.	11/25/2023 6:50 PM
17	We should be able to recycle the items ourselves and get the deposits like in Saskatchewan	11/25/2023 6:38 PM
18	I wish we could recycle things like black plastic and styrofoam.	11/25/2023 4:10 PM
19	The technology to recycle and recover many materials exists. However as far as I understand, the City of Winnipeg only recycles/recovers a small portion of the things that could be recycled/recovered. For example, we don't have the facilities to address some types of plastics. And if we did recover more types of materials, we could probable sell them and reduce the overall cost of our program.	11/25/2023 3:00 PM
20	I think recycling in this city is awful. I'm so disappointed that we are not recycling more - and this issue extends beyond Winnipeg. I would like to see a systematic overhaul of how recycling works. There is so much confusion over what can and can't be recycled and then you hear the stories of so much stuff that we put in recyling (thinking we're doing our part for the environment) ended up simply being tossed in the garbage anyway. Schools, office, and public buildings need a more comprehensive recycling program. I'd rather see resources and effort being given to the entire recycling program.	11/25/2023 2:04 PM
21	There seem to be too many items that are not allowed with our recycling program that should be	11/25/2023 9:43 AM
22	Too many potentially recyclable items cannot be recycled.	11/25/2023 8:52 AM
23	nothing is recycled	11/25/2023 8:48 AM
24	The instructions change with little to now notice so most recycling probably has to be disposed of and there are too many items that are not recyclable	11/25/2023 8:47 AM
25	More taxes for no bulky pickup that 3 months later have attracted all the [redacted] from all over the city..... [redacted].	11/25/2023 7:45 AM
26	Missing bins not replaced, bins being missed during pick up. bins being left on road by garbage collectors and getting damaged by cars	11/25/2023 7:16 AM
27	Need larger bin	11/24/2023 10:40 PM
28	Sometimes recycling isn't picked up for another day or two after the garbage.	11/24/2023 9:27 PM
29	Bins left in the middle of driveway, ineffective recycling, cannot recycle all items, confusing/conflicting info on what can be recycled especially after family has worked for GFL in recycling and told us what can actually be recycled which is basically nothing.	11/24/2023 9:15 PM
30	Because a very small percentage is recycled, so it's essentially pointless seeming.	11/24/2023 8:52 PM
31	As mentioned above - not enough items are accepted in the program. I do t think you should have to look up in an app whether paper or plastic products are accepted. It should be much more inclusive and easy to use.	11/24/2023 7:38 PM
32	Other cities collect other items such as tin foil. Also an effort to keep metals out of the land fill are more important than compost. Letting items such as chairs with metal legs for example into the landfill is a waste, At least methane from the compost items could be captured and use as fuel in future. The metal eg. steel can not be re-captured.	11/24/2023 5:37 PM
33	Cause most of it doesn't even get recycled in the end.	11/24/2023 9:22 AM
34	Wish it was more comprehensive	11/23/2023 7:18 PM
35	I wish we actually would cycled the things we so-called recycle. Similar to Calgary. I wish we had a much more extensive recycling program.	11/23/2023 4:02 PM
36	Never empty more than half way. Do not use anymore.	11/23/2023 10:17 AM
37	phoned, email, to fix wheel of garbage container, no reply	11/22/2023 11:55 PM
38	Need to be able to recycle more items	11/21/2023 9:43 PM
39	My understanding is that many trucks get "ruined" by improper items deposited into recycling by residents. I am unsatisfied by what I have heard about the percentage of items that actually	11/21/2023 9:17 PM

	do get recycled	
40	We need the greens bins because the black bins are mostly over flowing with food peels that can be used	11/21/2023 2:02 PM
41	they dont come to throw out my garbage bins on mondays they only show up on wednesdays or thrusdays	11/21/2023 1:58 PM
42	They break my garbage bins.	11/21/2023 1:56 PM
43	No education. All recycle symbols are not being recycled	11/21/2023 8:36 AM
44	I can't actually keep track of what Winnipeg recycles; what plastics? is it true that we accept but don't have the means to recycle glass so it is just smashed and added to the landfill? other provinces pay for all drink containers: juice, booze, milk, etc...I think this would keep some recycling out of the landfill. i consistently see garbage in blue bins because residents either don't know, don't care, or just need more garbage bins. sometimes - tags, but seems like often it is just picked up. who is responsible for monitoring and enforcing existing programs? how come some 20 plus suit apartments only have 1 or 2 recycling/other bins? how can the city communicate with lower income neighbours who don't go on your website or sign up to fill out these surveys?	11/21/2023 7:47 AM
45	You don't recycle anything	11/20/2023 10:15 PM
46	I think a lot of the blue boxes go to regular garbage. Many households do not properly separate the garbage from the recyclables.	11/20/2023 5:51 PM
47	Same reason as the first.	11/20/2023 4:21 PM
48	Needs to accept a wider variety of items	11/20/2023 3:24 PM
49	I live in an apartment block. Almost every recycling bin is filled with plastic bags, which cannot be recycled. I received education in public school as a kid. Aside from this, I have never seen education aside from TV, which I do not watch, on what can and cannot be recycled. Nobody seems to know what can be recycled, which is why we have the lowest recycling rate in Canada. Secondly, my last apartment building refused to recycle in order to save money, meaning that all tenants had no choice but to throw all recyclables in the trash. Many apartment buildings and businesses in Winnipeg do not recycle to save money. Thirdly, if you do not have a car, you can not recycle electronics, or other specialized items (they all end up in the trash) because the sites are inaccessible and completely car-dependent. The city's recycling and compost programs in Winnipeg are embarrassing and shameful.	11/20/2023 2:48 PM
50	1. Bins should be bigger 2. Should include other plastic items	11/20/2023 1:15 PM
51	Our recycling pickup is so not consistent, and usually the blue bin is full for several weeks before its emptied	11/20/2023 1:02 PM
52	Not enough things can be recycled. Too many recyclable items have to go into the trash.	11/20/2023 10:14 AM
53	I do not have any confidence in my items actually getting properly recycled. I get mixed messages from many sources on what needs to be done and what can be recycled and I am aware that most of the things I try to recycle do not get recycled at all.	11/20/2023 10:13 AM
54	I would be satisfied if more items were able to be recycled.	11/20/2023 9:28 AM
55	Not everything we put into our blue bin gets recycled. What's the point of the effort we put in... expand items accepted in recycling Pam	11/20/2023 5:19 AM
56	i am not aware of the program	11/19/2023 7:26 PM
57	The number of materials that can be recycled here is too limited,	11/19/2023 12:52 PM
58	The restrictions on recycling are ridiculous and the fact that if there is an error, it all ends up in the landfill. Should accept blue bags	11/19/2023 8:44 AM
59	The collectors of both garbage and recycling are responsible for most of the damage done to the bins, and to residents own containers used for yard waste. In my area, bins are NEVER returned to the area from which they are collected. They are strewn across the back lane, making it difficult to navigate with our vehicles, summer and winter. Resident-owned containers are thrown - yes, literally THROWN - 'somewhere' in the vicinity of where they had been left for	11/19/2023 7:49 AM

	collection. Plastic bins are cracked, pieces broken off, and metal bins are slammed down so hard that they are dented and warped, with handles broken off.	
60	I just moved here from bc and I feel like I'm in the stone age. I went fr every home having a compost bin and recycling EVERYTHING, to no compost and almost everything going in the TRASH. To somewhere grew up with better, it's disgusting.	11/18/2023 6:59 PM
61	As previously stated..recycling in Winnipeg is fooling the public!	11/18/2023 4:55 PM
62	Recycling goes in the garbage truck i have seen this many times. What is the point? Put in a program like other provinces where money is given for Recycling. The city will be cleaner and people will actually Recycle.	11/18/2023 2:10 PM
63	Same as before. We can't rectllyclr most of the products that are actually recyclable	11/18/2023 12:01 PM
64	Does it actually get recycled? I would separate mine more if it helped	11/18/2023 11:33 AM
65	My bin is not big enough, I am aware that much of the recycling ends up in landfill because of contamination	11/18/2023 11:14 AM
66	Drivers pick up carts that visibly contain non recyclable items such as styrofoam, wood.	11/18/2023 8:30 AM
67	They keep hitting our garage or the big rocks we put to protect our building	11/18/2023 8:10 AM
68	The program itself is good its the guys who pick it up leave the bins in the middle of the driveway or lane	11/18/2023 8:00 AM
69	Bins are broken and requesting new ones is an inconvenience	11/18/2023 3:45 AM
70	I'm tired of finding broken glass all over our street and others on garbage day plus other recycling items. It's as if they empty the cans too quick. Also all the broken carts.	11/18/2023 12:58 AM
71	Manitoba is not recycling too many recyclable items/materials	11/18/2023 12:18 AM
72	To much stuff is still not recyclable, rules keep changing on what can be recycled, first you had to wash everything, then you didn't , then you did. Can't recycle everything that has a recycle symbol on it.	11/18/2023 12:13 AM
73	it seems a lot of the waste is not recycled	11/17/2023 9:37 PM
74	Not enough room for household garbage!	11/17/2023 7:21 PM
75	Our recycling program can be greatly improved to include things not currently collected. Other cities recycle plastic bags, coffee cups etc and we should improve our facilities to be able to accept more items.	11/17/2023 5:35 PM
76	I've heard that a lot of what is taken in the recycling bins doesn't actually get properly recycled and a lot of it ends up in the landfill anyway	11/17/2023 4:34 PM
77	See comments about [redacted] system and bad drivers	11/17/2023 4:17 PM
78	The collectors are pigs. They do not care how the garbage cans are returned, break them, garbage all over roads for they do not empty correctly	11/17/2023 3:13 PM
79	Other provinces have more extensive recycling.	11/17/2023 10:30 AM
80	I am not always sure what can and cannot be recycled and I always hear stories that it all ends up in the landfill anyway.	11/17/2023 10:19 AM
81	Many items are not accepted in Winnipeg's recycling program and the education around what items can be recycled is insufficient (I often see items that can't be recycled in our blue boxes). I had downloaded the Winnipeg recycling app in hopes that it could give me more information on recycling properly but I found that it was mostly geared toward a contest (I believe it ended last year) and not education. I'd love to see a recycling program that includes different bins to sort paper, plastic etc. It would also be great to have more TerraCycle drop-offs or an occasional "hard-to-recycle materials" pick up day included in our recycling program.	11/17/2023 9:37 AM
82	I wish our recycling program was more comprehensive in terms of being able to recycle more types of items.	11/17/2023 9:29 AM
83	There is not enough to recycle and what does get recycled isn't very much to begin with. Waste of money with exception to Aluminium cans.	11/17/2023 9:23 AM

84	Same issues as garbage. Items fall on the ground in the backlane and get left there. Collectors toss carts in the driveway.	11/17/2023 9:01 AM
85	Originally it was throw recyclables into the bin and no need to rinse/clean. Now too many rules came into affect that hearing too much of recycling is going into the garbage. Go back to what it was.	11/17/2023 8:31 AM
86	WE NEED BETTER SEPARATION FOR RECYCLING DIFFERENT PRODUCTS.	11/17/2023 8:30 AM
87	We do not recycle enough stuff, our recycling program is terrible. We should have the same as othe provinces. And take pressure treated dwood at the 4r depots. Other than Brady	11/17/2023 8:07 AM
88	My understanding is that much of what I put in recycle bin, still goes into landfill. I am not always sure what goes in the bin.	11/17/2023 8:02 AM
89	Very few items are eligible for recycling	11/17/2023 8:00 AM
90	Same as my garbage pickup issues.	11/17/2023 7:45 AM
91	Bins not large enough	11/17/2023 7:07 AM
92	Sort, shuffle, and separate and then you dump it all in the ground. Why shold we be happy playing charades that bleed our pocketbooks?	11/17/2023 3:27 AM
93	As this service grows on our “to use” list and more packing is recyclable, I find it often quite full and it’s a race to between tenants to get our recycling out first	11/17/2023 12:56 AM
94	More items need to be recyclable	11/16/2023 11:44 PM
95	So many items cannot go in our bin, while other cities seem to have wider scope of acceptable items in their recycling programs. ie) coloured containers from restaurants.	11/16/2023 11:00 PM
96	Most of the recycling ends up in the landfill.	11/16/2023 10:51 PM
97	Our programs does not maximize the potential recyclables. We need to take ALL recyclables!	11/16/2023 9:00 PM
98	This question is grammatically incorrect. I'm not satisfied because there's people who put garbage in the bins and/or throw their recyclables in plastic bags in the recycling bin.	11/16/2023 8:23 PM
99	My bin is always overflowing. Recycling material litters the lane.	11/16/2023 7:04 PM
100	Other cities have a pay back when you recycle ie pop bottles, etc.	11/16/2023 6:19 PM
101	Because most of the plastic is not recycled. It’s pointless for that. The city should work with the province to influence business to use less plastic and incorporate eco options instead.	11/16/2023 5:59 PM
102	Les éboueurs laissent des articles dans la ruelle qui tombent quand ils bougent les boites, et la plupart des articles ne sont pas recyclés à la fin comme le verre.	11/16/2023 5:26 PM
103	They break carts and expect me to pay to fix. Now recycle all goes into garbage	11/16/2023 5:11 PM
104	If indeed the city is making money off of our recycling, then this should include a program where the depot cleans the recyclable products	11/16/2023 5:10 PM
105	Same as garbage pickup. Barely make it a full week as it is with a family. Christmas season is even worse. Takes over a month to dispose of everything.	11/16/2023 4:19 PM
106	Winnipeg is notorious for sending recycling to the landfill. You barely recycle bottles and paper, let alone plastics. You are literally lying to winnipegers over where their recycling goes.	11/16/2023 4:01 PM
107	From what I've learned, black plastics aren't recyclable as they are not easily sorted because the conveyor belts at the sorting facilities are also black. If this is true, this is truly shameful.	11/16/2023 3:21 PM
108	not enough room in the tiny bin for everything that I have a cardboard stash that I need to make arrangement once or twice a year to take to dump and I have to find someone with a truck to help me	11/16/2023 3:16 PM
109	Recycling is pointless here in Winnipeg. Why do we bother if most of it ends up in the trash anyway. It's too much of a pain to sort. The recycling truck drivers always leave the recycling bin in the middle of my driveway.	11/16/2023 3:15 PM
110	Majority of recycling still ends up in the landfills. It would be better if we could return bottles	11/16/2023 2:56 PM

	and cans for credit like other provinces, this would alleviate some recycling going to the landfill. Also need better programs to recycle more items.	
111	What can be recycled is a constantly-changing list, impossible to keep up to date. Also, cleanliness standards means I'm wasting an unacceptable amount of water to clean everything!	11/16/2023 2:53 PM
112	What can be recycled is very limited. I'm always confused about which recycling numbers are allowed in the blue bins	11/16/2023 2:37 PM
113	I doubt much is truly recycled. "Contaminated" carts see everything thrown in the garbage. Why not implement a better system. We also can't recycle many items that other provinces can.	11/16/2023 2:26 PM
114	Too picky on what can go in the cart	11/16/2023 1:58 PM
115	Because Manitoba doesn't actually recycle. Manitoba needs to have an incentive for ppl to recycle. Every other province has a return depot for recycables that they get the bottle deposit back on. This would help reduce aggressive panhandlers.	11/16/2023 1:46 PM
116	Most of our recycling simply ends up in the landfill.	11/16/2023 1:00 PM
117	Everything I put in the bin is recyclable yet they are too lazy and won't pick it up and give a lie saying they saw an item that's not recyclable in there	11/16/2023 12:52 PM
118	Too few items are recycled. Soft and other plastics are not recyclable.	11/16/2023 12:37 PM
119	Calling it recycling is insulting. Its a sad excuse for recycling	11/16/2023 12:33 PM
120	same as garbage, mainly because of the cost. I only put it out once a month and get charged the same as everyone who puts it out weekly	11/16/2023 12:31 PM
121	Because others consistently place garbage in their recycling carts and I believe not much is actually being recycled generally.	11/16/2023 12:20 PM
122	They arnt reliable	11/16/2023 12:18 PM
123	I would like more items to be recyclable (for example, stryofoam and black plastics) within our region.	11/16/2023 11:24 AM
124	Although there has been a reasonable campaign to educate residents it is disappointing that the program has not been expanded. There is nothing that cannot be recycled or repurposed and so much of our earth's resources continue to landfills.	11/16/2023 11:23 AM
125	Because the recycling still goes to the landfill not recycling depots	11/16/2023 10:53 AM
126	Bins aren't emptied properly, bins left in the middle of the back lane or thrown up against our garage damaging the siding.	11/16/2023 10:00 AM
127	Can't recycle as much as other citys	11/16/2023 9:58 AM
128	Other Province's offer payment for glass, cans, and even plastics. This gives an incentive to people to recycle better.	11/16/2023 9:44 AM
129	To many exceptions with what can be recycled . Also washing everything out before recycling seems like a waste of water.	11/16/2023 9:42 AM
130	More flexible in materials accepted	11/16/2023 9:31 AM
131	Items with recycling symbols are not being recycled by the city of Winnipeg.	11/16/2023 9:08 AM
132	Most items aren't even recycled....	11/16/2023 8:04 AM
133	Same reason as garbage bin. I keep it clean and leave 2 feet apart however bin is never put back where they found it and most times it's halfway in the back lane and cars could be hitting it and damaging my bins	11/16/2023 8:02 AM
134	I find that the recycling collection teams are rough on the collection carts. They don't put the carts back at the curb just push them aside making back lanes a nightmare to navigate in a vehicle. I find that the collection carts are too small.	11/16/2023 7:19 AM
135	The amount of product types accepted is disgraceful. Invest in equipment to recycle more	11/16/2023 6:39 AM

	types of items. Stop being so lazy!	
136	It's been full for the past two weeks. I also don't think recycling has that much impact on the environment. I think resources would be much better spent on a composting program.	11/16/2023 3:25 AM
137	I want my deposit money back.	11/15/2023 11:33 PM
138	I do not trust that our materials are being properly recycled rather than shipped off to be thrown into the ocean or a landfill somewhere else. I am aware of the difficulties of recycling, and I think more education is needed. Including more emphasis on reusing, reducing, repurposing, etc…	11/15/2023 10:53 PM
139	There are SO many types of plastic and other materials that aren't recyclable. Find a way to recycle this or ban these plastics from entering our city/province etc	11/15/2023 10:39 PM
140	"Why would are not satisfied" What are you six years old? PROOF READ FFS! I'm not satisfied because it's a poor program that barely recycles anything and dumps plastic in the shores of poor foreign countries or into our landfill. Barely anything is recyclable and they make us basically clean the whole recyclable for them. I'm not being paid for that sh*t so you guys can deal with the dirty recyclables and just clean them like all recyclables need to be cleaned anyways!!	11/15/2023 10:01 PM
141	Too many things that are recyclable in other cities (e.g. Vancouver) are not here.	11/15/2023 10:00 PM
142	No issue with pickup. I am greatly concerned with the cities ability to do anything with/process the items put inside and that much is out to waste.	11/15/2023 9:54 PM
143	Cost too much	11/15/2023 9:49 PM
144	The pick up itself is fine. It is unacceptable that we do not have the facilities to actually recycle these items so they end up in landfill or sent elsewhere for processing.	11/15/2023 9:48 PM
145	The truck misses my bin on a regular basis. Very frustrating to run after the truck and flag him down or just to not have my bin picked up at all.	11/15/2023 9:12 PM
146	Winnipeg/Manitoba recycling is not as comprehensive as other cities'/provinces' programs and recycling education is not as good, which means things are being tossed in the trash at the plant end anyway.	11/15/2023 9:10 PM
147	Pick up is hit and miss, half the time they don't show up.	11/15/2023 8:13 PM
148	The recycling should be sorted into glass, paper ect.. I lived in Vancouver for years and this made way more sense.	11/15/2023 7:17 PM
149	Bin too small for all the recycling	11/15/2023 5:34 PM
150	In our area there are a lot of products not recycled. Tim Horton cups for example. Also we heard a lot waste still goes to Brady.	11/15/2023 5:32 PM
151	Neighbours throw regular garbage in their recycling bin weekly and it defeats the purpose of people that do recycle properly	11/15/2023 5:25 PM
152	From what I know it never gets recycled anyway.	11/15/2023 5:22 PM
153	Most of stuff goes to landfill anyway.	11/15/2023 4:59 PM
154	The grass/leaves pick up should be every week.	11/15/2023 4:54 PM
155	I would like the city to update constituents on finding more avenues for more recycling to go into bins like Styrofoam, plastics etc.	11/15/2023 4:49 PM
156	Compost on my own. Residents can do that. Don't need an extra expensive such as fees/taxes. City should look at themselves and get their own garbage picked up and cleaned.	11/15/2023 4:33 PM
157	same as garbage collection carts not replaced where they are pick up	11/15/2023 4:11 PM
158	there should be more items that we can put into recycling, a lot of plastics go in the garbage	11/15/2023 3:17 PM
159	I have been told that most of recycling is simply sent to the landfill and not recycled. Also we have too many plastic items that are not considered recyclable.	11/15/2023 2:42 PM
160	I would like to know everything I put in the bin is being recycled. I am aware most of the stuff	11/15/2023 2:25 PM

	is not recycled and feel it's a waste of my time	
161	It needs to be picked up more often.	11/15/2023 2:02 PM
162	The question is grammatically incorrect. Also my bin has beetllen. They are often stolen and we have to pay to replace and deliver it.	11/15/2023 1:50 PM
163	Very limited in items the city program recycles Seem the city only wants to recycle items that are easy. Because of the limited items the city recycles garbage bin is the only option.	11/15/2023 1:32 PM
164	Many don't know what is recyclable and throw in garbage. Many have said that recycling goes to the landfill.	11/15/2023 1:12 PM
165	Inability to recycle varied plastic items	11/15/2023 12:45 PM
166	If my recycling bin is full, I'm putting recycling in my garbage bin. Counter productive isn't it?	11/15/2023 12:43 PM
167	Without a refundable deposit system the results are not even measurable. Manitoba stopped submitting recycling data to CM Consulting's Who Pay What after 2016 because it showed how poorly the Province performed compared to others. The number are down right embarrassing.	11/15/2023 12:31 PM
168	materials aren't really getting recycled. 11% is all. Seems expensive and un-environmental to transport and pay for this service to recycle some drink bottles.	11/15/2023 12:11 PM
169	I believe more items should be available to recycle we need to improve recycling capabilities	11/15/2023 12:07 PM
170	Most recycling ends up in landfill. Drivers with automated truck lift the bins and then drop them hard on driveway smashing the wheels of the bin. Took me 2 months to get bin repaired.	11/15/2023 11:50 AM
171	It cost me more money on products for those.plastic items.to be picked up. Companies could stop using plastic	11/15/2023 11:44 AM
172	The recycling contractors are terrible. They have repeatedly damaged our cart, not repaired the cart (there is apparently a 2-month wait for this now, which is ridiculous), and have refused to pick up recycling because of the cart that they damaged.	11/15/2023 11:23 AM
173	Do not feel is provides any benefit, where are the recycling plants?? Or do you just sell our garbage to other countries to dispose of?	11/15/2023 10:52 AM
174	Items not recycled	11/15/2023 10:44 AM
175	What we are allowed to recycle seems very limited to other programs. I don't know a single person who can name 10 common household things we can recycle. stickers on recycle bins would help. Or have monthly challenges to recycle add different item in month or week. Get radio and social media to help out.	11/15/2023 10:41 AM
176	they always not picking up our garbage bins. our bins both black and blue are not full and the lid is closed.	11/15/2023 10:31 AM
177	eligible items ae too narrow	11/15/2023 10:10 AM
178	Manitoba's recycling program is severely limited compared to other provinces.	11/15/2023 9:51 AM
179	My neighbors constantly fill their blue recycling bin with trash so the whole truck is contaminated. It feels pointless to use mine properly when I know it can't be used for recycling	11/15/2023 9:32 AM
180	Winnipeg does not pick up enough recyclable materials.	11/15/2023 9:28 AM
181	mixed messages on what can and cannot be put in. Sometimes I find things from the cart in the lane after pick up (doesn't all land in the dumptruck)	11/15/2023 9:20 AM
182	We can't recycle very many things here	11/15/2023 9:14 AM
183	I feel that there are two many rules of making sure that all items are clean/washed before being put in the bin and different materials having to be separated.	11/15/2023 9:00 AM
184	Styrofoam, black plastic, soft plastic bags should all be recyclable in Winnipeg. Cans and bottles cash return should also be available. We are a major city, yet very behind in these areas.	11/15/2023 8:55 AM
185	Recycling is myth.	11/15/2023 8:32 AM

186	we should be able to recycle more types of items then currently available.	11/15/2023 8:32 AM
187	Careless workers	11/15/2023 8:12 AM
188	Too many restrictions on what can and can't be recycled.	11/15/2023 8:10 AM
189	Most of our recycling goes in the landfill anyway. We should also be getting our deposits back for all of our plastic bottles and aluminum cans.	11/15/2023 8:09 AM
190	It seems to be total chaos,throughing everything into the bins then its hauled away to be separated . I think having a place where you can bring your recycled materials and get paid on the spot for it would be a better way to go. The material would be clean and already separated at the drop off spot	11/15/2023 7:11 AM
191	Not enough materials recycled and too many exclusions	11/15/2023 6:57 AM
192	Because not enough things are accepted for recycling	11/15/2023 6:44 AM
193	I have heard that if you put the wrong thing in a recycling bin, the whole bin is discarded. I don't feel assured that things are actually being recycled. It's hard to remember which items are allowed. Wonder if we could have a local sorting facility? a green industry to create jobs and reduce waste.	11/15/2023 6:12 AM
194	I am not opposed to the idea of those that want to use it but I am opposed the idea of being forced to use it.	11/15/2023 3:20 AM
195	Less items can be recycled now than when the program started. Has there been an audit done to see if the recycling program is actually worth the money?	11/15/2023 1:59 AM
196	I wash or clean my items while others in my collection area do not . Hence most of my good recyclables are going to the land fill	11/14/2023 11:02 PM
197	Doesn't take enough items and most supposedly recuclable items are nit actually recycled	11/14/2023 10:52 PM
198	Our recycling program is horrendous and needs a massive overhaul. A vast majority of recyclables are sent to the landfill anyways because of the lack of understanding by the public, the unwillingness to recycle all items as opposed to a specific numbered recyclable, and the blinders on by all inhabitants when it comes to planning for our futures.	11/14/2023 10:48 PM
199	Frequent incomplete emptying of my bin requiring phone calls to 311 and leaving my bin out for 1-2 more days.	11/14/2023 10:47 PM
200	I would like to see more types of recyclables accepted	11/14/2023 10:30 PM
201	Found out that the items are not recycled just added to the landfill	11/14/2023 10:17 PM
202	Bins are tipped over, garbage everywhere and no one takes responsibility for cleaning it up. It's disgusting.	11/14/2023 10:14 PM
203	Would like to see more stuff recycled	11/14/2023 10:04 PM
204	I pay money on ever drink bottle, can, carton, battery, etc. But I can't get a refund for recycling them	11/14/2023 10:01 PM
205	We need to be recycling more things.	11/14/2023 10:00 PM
206	The array of items being recycled is extremely limited. We came from Niagara Region in Ontario and the blue box item list was much more expansive. Also, the green box program for composting all food items including bones etc. has been going for years.	11/14/2023 9:53 PM
207	If you monetized recycling as in other provinces (Alberta / Saskatchewan) you would have a greater buy in and a lot more citizens ensuring their recyclables are free of debris to get their 5 cents.	11/14/2023 9:35 PM
208	The guys are aggressive with the bin. Where it can break one day	11/14/2023 9:27 PM
209	Not enough items can be recycled in Winnipeg	11/14/2023 9:27 PM
210	many items end up in landfill after being picked up, while many others are not accepted. benefit to the environment is marginal. Yard waste is rarely picked up on schedule	11/14/2023 9:20 PM
211	We don't recycle in wpg. Let's be real	11/14/2023 9:19 PM

212	I find that I am going to a 4R depot almost once a month to dispose of cardboard.	11/14/2023 9:02 PM
213	Because I feel like a lot if our recycling ends up in the landfill mixed in with the garbage	11/14/2023 9:01 PM
214	Mainly that it is my understanding that many things that should be recyclable, are not recycled here in Winnipeg.	11/14/2023 8:46 PM
215	Because most of the items that are suppose to be recycled are not due to our limitations on equipment to recycle	11/14/2023 8:27 PM
216	This is not a sentence but I assume this is about my dissatisfaction with the recycling and will answer as so. I think single stream recycling encourages people to not be conscious about what can be actually recycled, therefore leading to more waste. Check what other cities have done for multi stream recycling.	11/14/2023 8:26 PM
217	Our recycling bin is often full. We have to save the rest of our recycling for the following week, and sometimes longer. Other cities we've lived in have offered higher recycling limits (but lower garbage limits). This would be preferable.	11/14/2023 7:49 PM
218	There is not enough education on what can and can't be recycled. Please increase your funding on recycling education and make it easy for people to participate in. Many of my neighbours don't recycle or don't recycle properly.	11/14/2023 7:47 PM
219	There needs to be more allowable items in the recycle program. Items that are marked “recyclable” are not always permitted.	11/14/2023 7:37 PM
220	Collectors drive too fast, often leave a mess.	11/14/2023 7:35 PM
221	Our recycling program is mediocre at best and most items are not actually recycled.	11/14/2023 7:29 PM
222	Same as the last reason	11/14/2023 7:26 PM
223	Not sure if what is taken is really recycled. So not unhappy in the service per se, just wish we could recycle more and be sure it truly is recycled.	11/14/2023 7:22 PM
224	You should be taking all plastics regardless of what kinds they are Plastics last longest in the environment and need to be mechanically broken down	11/14/2023 7:08 PM
225	Again, they don’t mash the stuff properly to keep things from flying back out. And when emptying the bins things will fly out at times I get it. Some times they are maybe running late and try to hurry to fast making a mess with recycling as well as garbage. Then add in the garbage pickers making messes and leaving garbage all over and then residents and homeowners are left to clean up the bloody mess! I’m so angry that the city don’t do anything to stop this especially at apartment buildings. Put in larger locking bins and work with apartments to control this.	11/14/2023 5:11 PM
226	Crap left to blow after pickup. Bin not put back on property.	11/14/2023 5:07 PM
227	80% of my items should be recycled but do not fit the qualifications the right recycle number even though it has a recycle symbol on it. Therefore I need to put it garbage. I am constantly filling recycling bin now every week. So if I am not able to receive weekly pickup my recycling will be overfilled and probably have to go in the garbage. Recycling bun could be larger	11/14/2023 5:05 PM
228	Hardly anything in this city is actually recyclable and there are so many hoops to jump through its hard to imagine anything actually gets recycled	11/14/2023 4:10 PM
229	I’ve heard that most recyclables do not actually get recycled	11/14/2023 4:01 PM
230	The MRF is very poor sorting method. Glass all goes to landfill. Paper is low grade due to all the plastic in it. Finer grain separation would be better to preserve quality of end product	11/14/2023 3:33 PM
231	The recycling program in Winnipeg needs to accept more items.	11/14/2023 3:18 PM
232	The city doesn't actual recycle most of what's collected	11/14/2023 3:09 PM
233	Bins too small. Loose paper and plastic blows all over the neighbourhood	11/14/2023 3:01 PM
234	The City of Winnipeg needs to try harder and recycle more products. Currently there are limited products "approved" for recycling. Also the fact that recyclables need to be pristinely cleaned is a cop-out.	11/14/2023 2:44 PM

235	Does not accept colored plastics	11/14/2023 2:27 PM
236	if a product says it can be recycled then it should be taken. it shouldn't be on the limited list approved by governmental bodies.	11/14/2023 2:25 PM
237	I'd like more transparency regarding where recycling goes and how effectively it is actually being recycled into other usable products	11/14/2023 2:19 PM
238	quite often they miss our bin because we are at the end of the street. i think they just want to go home! why don't we see our ecology fees reimbursed to us if we set up a return depot	11/14/2023 2:04 PM
239	Our ability to recycle seems to be lagging what other provinces are doing. We need to do better.	11/14/2023 1:52 PM
240	We should be able to recycle more things. There is a lack of understanding by most of the public on what can be recycled. This is due to misleading information on packaging but I am concerned that people are recycling items that should be thrown out because our facility does not have the capacity to recycle these items	11/14/2023 1:42 PM
241	I think more items could be collected curbside. For example, twice a year in Ontario they collect old household batteries. This coincides when smoke detector batteries should be changed.	11/14/2023 1:34 PM
242	the standard cart size should be bigger many items can't be recycled	11/14/2023 12:52 PM
243	Again, no guaranteed pickup, picked through all the time, can't use my own receptacles, and have to pay heavy fee to replace.	11/14/2023 12:34 PM
244	The requirements for what can go in your recycling cart are pretty restrictive compared to other cities where they accept other items or have more sorting capabilities. I am all for making it easier to sort, but the fact that we don't have black plastic recycling and certain paper items aren't accepted is limiting. It usually results in items being tossed in the garbage because they aren't sure if it can be recycled. The recyclepedia app is a good start but it needs to go along with progress for what can be accepted. Would also like to see shipping container recycling (padded envelopes, plastic stuffing, etc.).	11/14/2023 12:26 PM
245	Not enough space in the blue bin. Could use larger bin or a second bin.	11/14/2023 12:06 PM
246	The program is not monitored and the items in many cases just get left at the curb after being deposited there.	11/14/2023 12:01 PM
247	Please see my previous comment.	11/14/2023 12:00 PM
248	The different types of items that we can recycle is very limited.	11/14/2023 11:23 AM
249	I do not believe that items are being recycled efficiently; I fear much of what I put in the recycling bin ends up in landfill anyway.	11/14/2023 10:59 AM
250	Because there are huge limitations on what types of materials can be recycled and if there is anything not on the approved list of recyclable items the entire cart is sent to the garbage anyway.	11/14/2023 10:51 AM
251	As stated previously, I have had to call 311 far too many times over the past couple of years for missed recycling pickups on my street even though the cart is at the end of my driveway and unblocked.	11/14/2023 10:37 AM
252	Not enough is recyclable, and even of what is collected I am doubtful a lot of it gets recycled.	11/14/2023 10:36 AM
253	Hard to find a comprehensive list of what can be acceptable	11/14/2023 10:32 AM
254	The communication and education about what can and cannot be recycled needs to be improved	11/14/2023 10:16 AM
255	I am concerned that quite a lot of what we put in the recycling bin doesn't actually get recycled. There is a lot of confusion about what is eligible for recycling, cleaning items to prevent contamination, etc. It would be good to have paper products separate from other recycling materials that might be wet or dirty. On a personal note, our house is frequently skipped for pick ups, although all our neighbours' recycling is picked up.	11/14/2023 9:58 AM
256	People overfilling their recycling carts, and then when it is picked up, recycling falls out and blows all over the neighbourhood and our yard. Also, trucks sometimes slam carts down too	11/14/2023 9:52 AM

	hard, causing damage to carts.	
257	Too many items that can't be recycled	11/14/2023 9:25 AM
258	I have seen garbage trucks pick up garbage AND recycling in the same pass by my house. I.E. the recycling was mixed with the garbage. What's the point then?	11/14/2023 8:55 AM
259	The items that we can place in the Blue cart do not include many items that other cities our size can accept and recycle. Information program needs more direct instruction; people tend to put garbage in the blue carts spoiling recycling efforts.	11/14/2023 8:44 AM
260	Very few things can be recycled, compared to other cities.	11/14/2023 8:42 AM
261	Bins are routinely left in the middle of the back lane by garbage collectors instead of on the sides where residents leave them. A very limited selection of items can go in recycling - Charlottetown has an excellent example of an amazing waste reduction programme where a large range of items are recyclable instead of garbage. I would highly suggest you look into this as they are truly seeking to reduce waste.	11/14/2023 7:30 AM
262	There are so many items that are not accepted for recycling	11/14/2023 6:54 AM
263	i find the automated trucks are very rough on the carts and they are more damaged each week. i have also heard winnipeg cannot adequately recycle items such as some plastics and cardboard.	11/14/2023 6:51 AM
264	I would like to be able to recycle more types of plastic.	11/14/2023 6:00 AM
265	Bin got damaged from the pick up service mistreating bin. They won't pick up unless I pay for a new bin that the city damaged	11/14/2023 5:26 AM
266	Not enough space, often late	11/14/2023 2:41 AM
267	I have been made aware that a lot of the items that can be recycled aren't here in Winnipeg. And they end up in the landfill.	11/14/2023 12:52 AM
268	Do not feel that Winnipeg has effective recycling program.	11/14/2023 12:50 AM
269	As stated about the garbage, the homeless people in the area	11/13/2023 11:40 PM
270	Keep breaking my bins	11/13/2023 11:11 PM
271	I have heard in video essays online that recycling programs don't work and are not currently profitable or feasible and in most cases creates more waste	11/13/2023 11:06 PM
272	Most of our recycling items are limited to certain types or numbers which is effectively adibf more to landfill. Why don't we tax waste and reward recycling?	11/13/2023 11:05 PM
273	" Please let us know why would are not satisfied." hard to fix: too much contamination that its almost meaningless.	11/13/2023 11:02 PM
274	The types and range of plastic or paper products that are collected is insufficient in this city. Too many things are not accepted for recycling. What about glass recycling programs? Used to do it as a kid and got a dime per glass jar, living in Toronto. This is a no-brainer and should always have been done here! Styrofoam isn't accepted, plus too too many more. More direct effort needs to be made to either get companies to strictly use plastics and papers that are accepted for recycling (it may be a legislative issue like FINALLY blocking use of 1 time plastic container's & straws), more uses found for these "other" plastics (I know it's ongoing but it's beyond urgent).	11/13/2023 10:35 PM
275	The bins are strewn about the back lane and are often broken. Garbage and recycling are often left in the lane if it falls out of the bin when being dumped in the truck	11/13/2023 10:33 PM
276	So many plastic items that can be put in recycle and it's not allowed. Lack of a washing facility for the plastics, if we had that more people would be inclined to use it more, not everyone wants to stop and wash the tin before they toss it, let's be serious.	11/13/2023 10:17 PM
277	See last dissatisfied comment earlier.	11/13/2023 10:06 PM
278	I think the rules around recycling are too restrictive, that fewer things are recycled than what could be recycled.	11/13/2023 9:34 PM
279	Would like to see the number of items that can be recycled increased	11/13/2023 9:20 PM

280	Most items are not recyclable. Winnipeg needs to improve their facilities or access to facility so more plastics can be recycled.	11/13/2023 9:19 PM
281	I have lived in other cities where I could recycle more items.	11/13/2023 8:59 PM
282	Winnipeg recycling is a joke. It all goes in the landfill anyway	11/13/2023 8:51 PM
283	Same as garbage, I don't like having to save the excess, and I miss pickup on long weekends (because my pickup day is Monday).	11/13/2023 8:39 PM
284	Too many items that could be recycled not eligible for collection	11/13/2023 8:28 PM
285	They skip	11/13/2023 8:00 PM
286	Pay for a service which is not practical. Should not have to clean containers, this also has a cost. If that is required I will just throw away.	11/13/2023 7:48 PM
287	I think it is a load of crap. We are going through the motions to say we have a program when most of the items in the blue bins ends up in the landfill anyway.	11/13/2023 7:46 PM
288	If you purchase anything with cardboard you have to cut it in peices hoping it will fit ,PLUS DO SOMETHING WITH THE BLOODY STYROFOAM!!!	11/13/2023 7:21 PM
289	Not sure products are recycled	11/13/2023 7:16 PM
290	There are a lot of items that aren't taken for recycling, such as black plastic	11/13/2023 7:11 PM
291	Not all commercially recyclable products are accepted. Also no food waste progam	11/13/2023 7:08 PM
292	Winnipeg does not recycle glass. How ridiculous is that .	11/13/2023 6:48 PM
293	The blue cart program does not accept many recyclable items such as aluminum pie plates, clean aluminum foil, or plastic bags. Also, people still don't seem able to separate their garbage from their recycling, and use both bins for garbage. This creates messes in the laneways.	11/13/2023 6:34 PM
294	There is broken glass every single time they pick up the recycling all over the road. We have to sweep the entire street ourselves. It's ridiculous.	11/13/2023 6:29 PM
295	It is a proven fact these programs are useless. I just makes people feel better. Fact is most of it ends up in our land fill.	11/13/2023 6:27 PM
296	We use to have autism bins .These were best for community Garbage . The current grey ,and blue carts are too small . A resident should have a choice what they want to do ,recycle ornuse regular garbage The auto bins should come back for garbage ,and a community bin option for recycling like there use to be with the auto bins . Just one community auto bin for each garbage, and recycling . I have no interest in composting . Climate change is a hoax, and I don't feel renters should have rent upped because landlords have to get compost bins , or home owners should have to pay for an option they don't want .	11/13/2023 6:24 PM
297	I think there is more they could be taking Foil, black plastics.	11/13/2023 6:20 PM
298	Recycling is a misnomer. Most items end up in a landfill anyway. There is no incentive to be recycle wise. I'm watching younger generation use recycling bins for garbage anyway. They couldn't be bothered.	11/13/2023 6:00 PM
299	Bins are to small and I can't put cardboard boxes to be picked up. I never have enough room for all my shipping boxes	11/13/2023 5:56 PM
300	I'm not convinced these items actually get recycled	11/13/2023 5:49 PM
301	There are too many barriers to recycling...too many rules that make things more work than many people are willing to follow....things that should be recycled and are in other cities do not qualify. More effort needs to be made to make recycling effortless	11/13/2023 5:46 PM
302	More should be done to ensure recyclable material can be accepted in the current program and actually recycled.	11/13/2023 5:39 PM
303	I wish our recycling facilities accepted more types of plastics and recyclables. Also wish there were clearer instructions on what residents need to do in order for their recycling to be properly disposed of.	11/13/2023 5:28 PM

304	Basic items that are recycled in other cities can't be recycled here - aluminum goil	11/13/2023 5:14 PM
305	We need to have better recycling infrastructure in Manitoba. I'm from what I hear the majority of the recycling while it is recyclable, is not I'm MB as we don't have the ability to process certain items so they end up going to the garbage anyways	11/13/2023 4:52 PM
306	The actual pick up is find, I am unsatisfied with knowing exactly what Winnipeg recycles and how effective the recycling program is	11/13/2023 4:48 PM
307	Does not recycle enough items.	11/13/2023 4:42 PM
308	I just think recycling is a bit of a waste. I question where these materials are going. I think this gives people a way to create more waste but to "feel good" about recycling it. I wish we focused more on reducing waste.	11/13/2023 4:26 PM
309	Many items that are commonly picked up for recycling in other cities and provinces have to be put in the garbage here.	11/13/2023 4:16 PM
310	We are not able to recycle all materials in Winnipeg. There is a number on all recyclable items, and Winnipeg can only recycle 1, 2, 7, 8. Many things are 4-6, which end up going into the landfill. I would like to see Winnipeg adjust and be able to accept all recyclable material.	11/13/2023 3:49 PM
311	It's unclear what you are allowed to put in the recycle bins. Some things are marked recyclable but Winnipeg does not have the facilities to correctly recycle them. If a product is generally recyclable, Winnipeg should have the facilities to properly recycle it.	11/13/2023 3:45 PM
312	Winnipeg doesn't recycle so many items that other cities will accept	11/13/2023 3:34 PM
313	I feel we could do more to inspire people to recycle even just cans, pop bottles, other recycling beverage containers that we pay the deposit on. When we lived in Edmonton, our whole family got involved in recycling and when we went to the depot, the kids got extra spending money from the returned deposit.	11/13/2023 3:26 PM
314	Too many plastics and material types are not recycled and have to go in the garbage.	11/13/2023 3:23 PM
315	I don't believe things actually get recycled	11/13/2023 3:19 PM
316	Takes too long to replace a broken bin. Sometimes we wait for several weeks. The policy that full bins will not be removed does not make any sense. What does the city expect us to do with the contents? At my condo there isn't space for sufficient bins. We need bins emptied twice a week.	11/13/2023 3:17 PM
317	Too many types of recyclables are not able to be recycled in this province.	11/13/2023 3:16 PM
318	We need to broaden the types of plastics collected. Recycling Programs and the plastic industry needs to function on a larger scale than just leaving the city municipalities to deal with the mess. A full cycle process need to be developed, from the makers of the plastic products, to the companies that use, sell and profit from them to the organizing the collection and integration of used plastics back into circulation. At the moment too many plastics are unaccounted for or facilities don't exist in our area to look after them. All players need to be at the table and accountable for the recycling of the products they produce. Government needs to regulate this to make sure it happens. Private industry is not going to do it.	11/13/2023 3:15 PM
319	I do not believe that our recycling program is effective. I am not convinced that materials that go in our recycling bins are correctly sorted - I believe that most of it all goes to landfill anyway. I am also not convinced that the Recycle Everywhere program is actually impartial and serves to reduce waste - I believe that it is funded by beverage companies and serves only make consumers feel less guilty about single use beverage containers.	11/13/2023 3:15 PM
320	I'm not convinced that people know how to recycle properly and most of the recyclable stuff that does end up in recycling actually doesn't get recycled.	11/13/2023 3:13 PM
321	Perhaps more inclusive?	11/13/2023 3:12 PM
322	Recycling bin is missed from being picked up at least once a month	11/13/2023 3:10 PM
323	Complicated, not every type of plastic is collected	11/13/2023 3:02 PM
324	There are so many things we can not recycle.	11/13/2023 2:51 PM
325	We barely recycle anything (the city, qhat it accepts, I mean)	11/13/2023 2:51 PM

326	The city doesn't accept all things that are recyclable.	11/13/2023 2:37 PM
327	Useless and costly	11/13/2023 2:34 PM
328	Need to recycle more! Many other cities have more options for more items to be recycled and I think we can adopt that too.	11/13/2023 2:28 PM
329	There is no market for most of the collected material. The exercise is a waste of money and resources.	11/13/2023 2:25 PM
330	Too few things are accepted. Should do better accepting all plastics especially.	11/13/2023 2:24 PM
331	I believe our recycling system is ineffective and would benefit from citizen splitting of glass, paper and plastic before collection.	11/13/2023 2:11 PM
332	We do not	11/13/2023 2:10 PM
333	Due to the soiling of recycling and no sorting I'm disappointed and frustrated by recycling being thrown into the garbage. Also the advertising dollars and programs to create awareness of programs could better be spent sorting and actually recycling.	11/13/2023 2:09 PM
334	hardly anything is recyclable.	11/13/2023 1:54 PM
335	There is a need for more items to be recyclable.	11/13/2023 1:52 PM
336	I don't think there is enough education our there for people to recycle properly and I think most of the recycling likely gets contaminated and becomes unusable.	11/13/2023 1:50 PM
337	Not enough products are actually recyclable, (types of plastics) and not clear enough on where to take things like styrofoam (etc) for recycling, which other cities do	11/13/2023 1:44 PM
338	I can't even use it because we struggle so much just to have to garbage picked up consistently each week. Everything about the City's recycling is angering.	11/13/2023 1:44 PM
339	Damage to our bins.	11/13/2023 1:42 PM
340	That most of our recycling ends up in the landfill. We should be able to recycle all recyclables. It would be good to find a way we can repurpose and reuse the recyclables (i.e. create items) instead of shipping our recycling to China and other countries. In 2023 we shouldn't have recycling in our landfill.	11/13/2023 1:34 PM
341	Because most items don't end up getting recycled after collection	11/13/2023 1:33 PM
342	Confusing rules for item acceptance and there seems to be nowhere for recycled products to go.	11/13/2023 1:31 PM
343	The recycling bins at my apartment are always full.	11/13/2023 1:21 PM
344	Not enough items get recycled and can be difficult to clean certain items properly to ensure they can be recycled	11/13/2023 1:18 PM
345	Our recycling is a joke. It is full of non recyclables at this point. If you limit garbage to once every two weeks, be prepared for blue buns full of non recyclables. I am not waiting two weeks. We are already taxed to hell.	11/13/2023 1:15 PM
346	Contractors do poor work	11/13/2023 1:04 PM
347	Taxes are collected to pay for service Provide the device we pay for Not your $$$&	11/13/2023 1:04 PM
348	To few items are recyclable in the province compared to other cities and provinces in Canada.	11/13/2023 12:51 PM
349	Not enough types of plastics can be recycled and I'm not convinced that most of the "recyclables" are not just thrown away or shipped to another country to sit in the landfill (or ocean) there	11/13/2023 12:40 PM
350	Garbage collectors miss our recycling regularly.	11/13/2023 12:39 PM
351	Not enough gets recycled. Too many materials aren't managed by our program, and much of what should be gets re-directed to landfill from the sorting site, even items that should be recyclable and are in other cities. Winnipeg recycling is horribly set up to efficiently and	11/13/2023 12:38 PM

	effectively maximise recycling of materials. We're well behind other cities and in this day and age that is absolutely unacceptable.	
352	I understand a lot of items in recycling are not actually recycled.	11/13/2023 12:35 PM
353	Not easy to separate recyclables that can damage others. We are behind other provinces on what is possible to be recycled for example take out containers.	11/13/2023 12:32 PM
354	We spend large amounts of money on recycling but are unable to process most of it correctly. Recycling only benefits the environment if it reduces the extraction of virgin materials. The more it is handled and moved around the less of a benefit. And if it is separated and transported around and ultimately not recycled, it is a major net loss. When we have the ability to properly efficiently handle and process recyclables I will be satisfied. Until then use the money wasted on the program to help fix the processing problem first.	11/13/2023 12:29 PM
355	Poor communication from the city on what is recyclable - most people have no clue how to sort their waste and the city has not done much to change this.	11/13/2023 12:28 PM
356	How are the items being recycled exactly? It seems like they just end up in landfills in another country.	11/13/2023 12:18 PM
357	We can't recycle everything like other cities I've lived in and I'm not even confident our stuff is actually being recycled. Need organic waste bins too. We should also be utilizing the landfill gases.	11/13/2023 12:15 PM
358	I hear that most of the recycling ends up in the landfill.	11/13/2023 12:07 PM
359	The phrasing of this question is certainly a reason I'm unsatisfied. How much time and money was put to creating this survey and they couldn't even proof read the questions. Shows how little this survey matters or will change. Other provinces don't have single stream recycling and instead encourage residents to recycle properly and pay them accordingly.	11/13/2023 12:05 PM
360	Spelling mistake So much doesn't get recycled. You don't take styrofoam. You don't take certain numbers for recycling. You don't take pizza boxes, you need lids off and everything rinsed. This all seems like BS.	11/13/2023 11:55 AM
361	Strongly believe we should be picking up green waste. City has been thinking and discussing and analyzing. It is time for ACTION. Toronto has done this for YEARS. Why are we soooo behind?! Just do it. Our planet needs this.	11/13/2023 11:51 AM
362	They only pick up when it is full.	11/13/2023 11:51 AM
363	Most weeks the cart is way too large for my needs and the drivers leave the lid open after pickup allowing water or snow to collect inside the cart before I return from work.	11/13/2023 11:45 AM
364	Much more items should be recycled, there is so much we are throwing in the garbage that with a more boisterous recycling program, we could be putting less items into the garbage.	11/13/2023 11:39 AM
365	Cart is not big enough for all my material	11/13/2023 11:36 AM
366	Most of the items reported to be recycled are not actually recycled. This program is not actually helping the environment or climate change and just makes people feel better. Focus on paper, cardboard and cans and just admit the rest is just garbage.	11/13/2023 11:35 AM
367	A lot of recyclable items are not recycled.	11/13/2023 11:24 AM
368	Most of the truck loads go right to the landfill and are not actually recycled.	11/13/2023 11:22 AM
369	Because most recycling ends up in the land full and a lot of items are not recyclable in Winnipeg that are in other cities in Canada	11/13/2023 11:21 AM
370	There's not enough education around what goes into recycling, I often see recycling in plastic bags or things that can't be recycled, also my recycling bin was stolen a month ago and I still haven't receieved a new one from the city. this means I either have to save all my recycling in my garage or put it in the garbage which I feel bad about.	11/13/2023 11:18 AM
371	my understanding is that most items we place in the recycle bin do not actually get recycled, which is unacceptable, and deceptive, on the part of the City	11/13/2023 11:15 AM
372	In the last 10 years my quarterly City of Wpg Water and Waste bill has increased 130%. This kind of rate increase is completely unsustainable. Where is all of this money going?	11/13/2023 11:10 AM

373	see recycling bin comment.	11/13/2023 11:02 AM
374	because most items aren't actually recycled. Winnipeg's recycle program is absolutely terrible. it's basically a garbage plan but under the guise of caring for the earth. Do better.	11/13/2023 11:01 AM
375	The bin is too small. No way to actually seperate anything. Need to back to the old blue bin system so items can be rejected at the curb instead of contaminating the whole truck. And the shouldn't be a limit on how much you can recycle from your own home	11/13/2023 10:59 AM
376	They ALWAYS leave my recycle bins lying on the street	11/13/2023 10:55 AM
377	Too many items are not accepted = wind-up in the landfill anyway. It is an absurd waste of effort. Why use the blue bin when 90% of the contents end up in the landfill? It makes more sense to just give the homeowner two black bins.	11/13/2023 10:51 AM
378	Very little actually gets recycled. Should focus on a reduction program making manufacturers reduce the amount of plastic on their products.	11/13/2023 10:48 AM
379	Winnipeg should offer a recycling depot where you could get a refund on your enviro levy	11/13/2023 10:48 AM
380	Restricted types of items that are currently recycled. More can be recycled.	11/13/2023 10:43 AM
381	I want composting. T	11/13/2023 10:38 AM
382	The city has not done a great job of educating the public on what is an is not truly recyclable.	11/13/2023 10:29 AM
383	It has less to do with the pick-up and more to do with how little actually gets recycled. I think Winnipeggers have a profound misunderstanding of how much of their 'recyclables' in their blue bins, cannot be recycled.	11/13/2023 10:25 AM
384	So many things to recycle can't go in Winnipeg recycling program	11/13/2023 10:19 AM
385	Same issue with the carts. They break and then you guys refuse pick up.	11/13/2023 10:00 AM
386	Miss pickup quite often!!	11/13/2023 9:59 AM
387	Homeless people look through my garbage bin and dump stuff when they leave. They stole my garbage bins and cost keeps rising.	11/13/2023 9:58 AM
388	Too few items are recyclable.	11/13/2023 9:48 AM
389	The city of winnipeg puts our recycling in the land fill for months and unlike other city's you can get recycling fees back for cans and bottle I'm just charged an annual fee?	11/13/2023 9:43 AM
390	Personally the system works for me, but I have a couple of problems with it generally (these issues may admittedly be based on my lack of knowledge about how much of the recyclables collected in Winnipeg are actually recycled): First, with my experience in public (for example the schools I work in and the recycling bins I see in alleyways) I do not think that most people understand what can be recycled. I see a lot of items in the blue boxes and bins that can't be recycled, or can't be recycled as is (for example - takeaway coffee cups, dirty plastic yogurt containers, even microwave dinner trays) that contaminate the other recyclable objects inside the bins, especially paper. I imagine this leads to a lot of waste and recyclable items not actually getting recycled. Second, I would like to see an extension of recyclable material i have seen collected in other parts of Canada - for example, black plastics or foil wrap or "single use" baking trays and tins, either in the collection bins or at recycling depots. If this exists, I'm not aware of it.	11/13/2023 9:42 AM
391	Mismanaged. I am tired of being charged levy feess on items and not getting my money back like other provinces. ie. Pop cans. Plus the recycling facilities can't handle it.	11/13/2023 9:29 AM
392	Cost and the recyclables that you don't take.	11/13/2023 9:27 AM
393	The driver refuses to pick up. This went on for 10 or 11 weeks before I gave up--the city didn't care--and now drive my recycling to drop it off at a recycling center.	11/13/2023 9:22 AM
394	I wish there could be more to recycle other cities there are more options of what is recycled	11/13/2023 9:17 AM
395	not able to recycle many materials in mb	11/13/2023 9:16 AM
396	Im concerned we send most of our recycling to a third world country where it is just dumped in the ocean.	11/13/2023 9:13 AM

397	Not confident that items are actually recycled and not shipped to another location and become garbage. And how is broken glass mixed with paper and plastics recyclable?	11/13/2023 9:12 AM
398	Broke my bin and dont always pick up. Wont recycle building materials and we have no vehicle to take garbage to landfill.	11/13/2023 9:07 AM
399	Other cities sort the different items to be recycled. I believe a lot of our paper recycling is getting contaminated with food residue from cans/plastic. And I wonder how much of it is actually being recycled.	11/13/2023 9:00 AM
400	More items need to be recycled. To many restrictions "period" I when I say more items food waste does not count for me. As far as methane is concerned farm animals do enough of that "period"	11/13/2023 8:58 AM
401	more education. Have heard that a lot of the recyclable waste does not actually get recycled.. :(	11/13/2023 8:58 AM
402	Unclear what is accepted, I see people putting many items in carts that are not recyclable and worry it will contaminate the whole truck picking up my recycling	11/13/2023 8:56 AM
403	bins are too small for what we pay for in fees	11/13/2023 8:56 AM
404	Limitations on what can be put in.	11/13/2023 8:54 AM
405	Does not accept many items	11/13/2023 8:52 AM
406	Mixed recycling as we have results in substantial waste of materials that become contaminated. It also makes people think a lot of items get recycled that don't. We should reduce it to just accepting items that actually will get recycled and offer separate bins at community centres for specific items so they don't get contaminated.	11/13/2023 8:47 AM
407	I understand that most recycling is not actually recycled.	11/13/2023 8:46 AM
408	Lots of items not accepted. Need better communication about what is accepted. Should charge deposits for more things to ensure return	11/13/2023 8:44 AM
409	Not a lot we can recycle. if you cannot get to a 4R station due to not having a vehicle there should be a community place that picks up a community center in your neighborhood. I realize this might be dangerous with chemicals around but I think something like this wild help.	11/13/2023 8:42 AM
410	Again because of the garbage that doesn't make it into the trucks and floats around in the yards requiring to be picked up again. I think it makes the city look filthy.	11/13/2023 8:22 AM
411	People need education on what recycling is. I see so much garbage in the blue bins. I'm from BC where we've recycled for much longer and people just know what to put in the recycling. Here.....not so much	11/13/2023 8:07 AM
412	Pizza boxes and dirty food containers are not recyclable in Winnipeg even though the cardboard and plastics can be recycled. Rather, they go to the trash. Why? That causes a lot of potential recycling to go to the trash.	11/13/2023 8:06 AM
413	They missed picking mine up 2 times this year they never put my carts back somtimes half a block down the lane i see other peoples carts have plastic bags in the carts	11/13/2023 7:59 AM
414	Not enough room for a larger family. Not purchasing another bin as it is expensive and hard to store	11/13/2023 7:58 AM
415	Winnipeg doesnt recycle most recyclable products that other cities do. for example styrofoam.	11/13/2023 7:53 AM
416	My understanding is that very few products are actually recycled and end up in the dump anyway.	11/13/2023 7:40 AM
417	I would like to take my recycling to where Inwould get paid for items, like in other provinces.	11/13/2023 7:34 AM
418	There are a lot of rumours going around that recycling isn't being recycled. I'm concerned with what actually happens with my recycle.	11/13/2023 7:32 AM
419	People often don't know what can or cannot be recycled and the app isn't always clear. There is no clear communication as to why some things cannot be recycled. Changes to the recycling program are not communicated effectively.	11/13/2023 7:26 AM
420	Waste of money Have recycling every two weeks not regular	11/13/2023 7:23 AM

421	All recycling materials are being placed in the same bin. It would make more sense to separate the collection of items when they are picked up and not afterwards.	11/13/2023 7:23 AM
422	I wish more items were recyclable	11/13/2023 7:01 AM
423	The curbside recycling program needs to be expanded to include more items. I think it would be very valuable if the City conducted an education program that reaches homeowners through their mailbox about the items that can be included and why it is important to recycle and reduce waste.	11/13/2023 6:58 AM
424	Recycling program has too many exclusions. Hard to figure out what can and cannot be recycled.	11/13/2023 6:43 AM
425	Recycling is going to designated areas of landfill, NOT recycled because it is contaminated (residents mix/add non-recyclables, and do not clean materials before discarding)	11/13/2023 6:43 AM
426	No option for styrofoam	11/13/2023 6:26 AM
427	Carts often missed. Too many recyclable products are not accepted for recycling in Winnipeg.	11/13/2023 6:00 AM
428	The pick up is fine but once it is picked up most isn't truly recycled and we could expand the type of products allowed	11/13/2023 5:37 AM
429	I already have two compost bins that I use for food scraps and I do not want to be charged for a service that I would not use.	11/13/2023 5:15 AM
430	Way too many restrictions on what can be recycled. We recycle less here than we did in Nova Scotia 20 years ago. Shameful.	11/13/2023 2:43 AM
431	I understand that much of what goes into the blue bin does not get recycled for various reasons which means the program is inefficient and contributes to pollution (fuel, general operating expenses).	11/12/2023 11:25 PM
432	Stop combining paper and plastic/metal recycling!! Contaminated paper cannot be recycled. Get green box going. I suggest you examine the city of Ottawa as a model. Winnipeg is 20 years behind. It's embarrassing.	11/12/2023 10:34 PM
433	I keep hearing that what I recycle may be included with contaminated loads so mine and the rest go to the garbage	11/12/2023 12:32 AM
434	Too many items can't be recycled	11/11/2023 11:49 PM
435	More of the materials should diverted, such as textiles.	11/11/2023 10:12 PM
436	Cart is not large enough	11/11/2023 8:23 PM
437	Many many things that are recyclable aren't acceptable as you haven't found someone to buy it for recycling. Not being able to get the 'eco deposit' back for bottles/cans is frustrating as most other provinces do.	11/11/2023 6:25 PM
438	Wish we could recycle more	11/11/2023 5:25 PM
439	The pick up is fine but Winnipeg does not set up to recycle nearly enough. The amount of stuff that ends up in the garbage could be vastly reduced if we had better recycling facilities.	11/11/2023 8:51 AM
440	More items need to be recycled.	11/10/2023 4:44 PM
441	Stoped recycling most things and just throw it out. My understanding is we don't actually recycle most things and it just ends up in the dump anyways.	11/10/2023 12:34 PM
442	The recycling program is very ineffective in ensuring/ monitoring that recycling is properly sorted (e.g. no trash ends up in the bins). Most people only have one type of recycling bin when we really need to be sorting our recycling a lot more. I think at the least there should be far more locations for people to drop off/ sort their recycling properly. I understand having sorting at single detached homes would likely be expensive to implement, but at the very least multi unit residences should have a set of bins for specific types of recycling made available.	11/10/2023 11:38 AM
443	Again…. The trucks doing every back lane twice causes extra wear and tear on the vehicles and adds pollution	11/10/2023 9:48 AM
444	I have heard that not all of the allowed items are recycled and some types go to the landfill	11/9/2023 5:51 PM

445	Winnipeg is a decade or two behind the times... there should be a free weekly green box pick up (for compostable items) and then there would be a lot less garbage. Take a look at other cities across Canada that are the same size as Winnipeg or smaller...	11/9/2023 1:35 PM
446	Because there isn't enough detail as to what is recyclable and what is not. Is all #1 plastic ok or just the ones that aren't black. Also as more places are using plastic for take aways it should also be included in recycling if it is washed. that would be helpful!	11/9/2023 1:05 PM
447	Paying enviro levies on bottles Cans and and. Where are the depots for me to go to to get my $.	11/9/2023 9:41 AM
448	Too difficult… to many dos and donts, cans and cants	11/9/2023 5:01 AM
449	Many items are not accepted in blue bins	11/9/2023 4:18 AM
450	There is a lot of confusion around recycling and very few items are accepted. It also seems that very little actually get recycled in the end.	11/8/2023 10:01 PM
451	We could do much better by separating our recycling and waste	11/8/2023 9:10 PM
452	I don't believe the program is comprehensive enough, wish there were more items taken in.	11/8/2023 1:09 PM
453	We cannot recycle styrofoam, black plastic, plastic bags, or other kinds of plastic too. And we need to rinse out our own recycling and pay for our own water to do so.	11/8/2023 9:52 AM
454	There are too many things that should be recyclable which the city cannot handle (black plastics, for example).	11/8/2023 9:41 AM
455	We have a terrible recycling program. Bottles for pop, milk, wine etc are able to be returned for refund in other provinces and my faith in ours truly being recycled is low.	11/8/2023 5:57 AM
456	Winnipeg is not recycling enough of the resources. The city does not educate the public in a clear and concise way for the general public to make the right choice and recycle correctly. Go back to bottle depots and eco fee/recycling fees on all cans and bottles where it is proven to increase recapturing the containers for recycling. ADD a recycling fee to all MILK containers. It is complete wrong that all other containers have a fee but not dairy containers! Stop pandering to the polluting ag industry with these special concessions. The Recycle Everywhere program is a complete sham!! That money could be used far more effectively in so so many other ways. .	11/8/2023 1:14 AM
457	It seems pointless when one person's failure can mess up a whole truck load of recycling. Recycling is too limited as to what is accepted.	11/7/2023 9:21 PM
458	I have heard that some items (glass wine bottles) are not really recycled. Also we are very careful not to put anything that shouldn't go in the blue bin while we see that many people put all kinds of garbage in their recycling.	11/7/2023 4:21 PM
459	Many items are not allowed to be recycled. No local facility for managing items that should/could be recycled.	11/7/2023 2:25 PM
460	Im not convinced that anything I put in the recycling bin is actually being recycled	11/7/2023 1:45 PM
461	I don't know or believe that the recyclables are actually being processed and re-used, or made into other materials. It isn't clear what amount is being utilized, and there needs to be more pressure on manufacturers on a governmental level to make less packaging.	11/7/2023 1:30 PM
462	I would like us to organize our recycling into tin, glass, plastic and paper.	11/7/2023 12:18 PM
463	From what I know, a lot of items with a recyclable label on them are not, in face able to be recycled.	11/7/2023 10:28 AM
464	Toomany companies like recycle everywhere and mmsm that spend huge money on billboards and advertising,admin costs, recycle everywhere gives out junk toys, magnets at their booths	11/7/2023 9:21 AM
465	Cost and ineffective.....	11/7/2023 7:16 AM
466	Many cities have more items that are recyclable. My head spin when a friend recycled her plastic wrap! I understand the city had to have a purchaser of the items, but can more be done to secure those contracts, as they clearly exist?	11/7/2023 7:10 AM
467	Buns are breaking from then throwing them around.	11/7/2023 6:32 AM

468	Not the service itself, but the fact that Winnipeg barely recycles anything.	11/7/2023 2:19 AM
469	Too many items not eligible for recycling	11/6/2023 10:13 PM
470	Would like more items to be included - especially plastic bags. Our carts have also been repeatedly broken.	11/6/2023 9:18 PM
471	My impression is that very little is actually recycled, and that most ends up in the landfill anyway. Bad for the environment. Focus should be on eliminating packaging at the front end, not recycling it.	11/6/2023 9:03 PM
472	There is so little that is recycled in Winnipeg. Other cities of much smaller size recycle so much more and even get paid for certain items. I currently pay for a service to recycle items which can not go in our blue bin. I also am not confident that what is collected is actually recycled.	11/6/2023 8:52 PM
473	Recycling should accept all recyclable items and sort ones they can recycle and ship others to be recycled where available. Too difficult know what can or cannot go in the bin	11/6/2023 5:15 PM
474	More Tod the same. It works for me but not my neighborhood.	11/6/2023 4:28 PM
475	The list of accepted items seems to be only clean unused paper, glass and metal ingots. It doesn't seem to reflect the reality of how things are packaged	11/6/2023 2:18 PM
476	We need to provide larger recycling bins and more information so the average household will do more recycling.	11/6/2023 2:07 PM
477	because you take so little products	11/6/2023 2:05 PM
478	Tenants put garbage in recycle bin and plastic bags full of recycle. Other people from surrounding homes use our bins for garbage	11/6/2023 1:35 PM
479	My bins are never emptied all the way and they are thrown infront of my vehicle or on its side. Not where I left them.	11/6/2023 12:54 PM
480	Because I want the landfill searched. Search the landfills bring the sisters home	11/6/2023 12:35 PM
481	i dont have faith that my recycling actually gets recycled	11/6/2023 11:35 AM
482	Too much confusion about what can be put in it. I don't know what happens to the recycling after collection. I feel like most of it is actually garbage because other households do not wash their recycling.	11/5/2023 10:22 PM
483	We do not recycle enough. Our program is limited. Further, our recycling cart recently disappeared and it will take 30 business days to get a new one. This is a ridiculous wait for a necessary service.	11/5/2023 10:12 PM
484	It is unclear what can go in the recycling bins. It is also unclear in what condition items need to be in (clean, etc).	11/5/2023 10:02 PM
485	The carts aren't big enough. I pay taxes. All my recycling should he picked up for the amount I pay!	11/5/2023 8:51 PM
486	There are too items that Wpg does not or can not recycle.	11/5/2023 8:29 PM
487	Can't recycle half of what other cities do	11/5/2023 8:20 PM
488	1). Is this even a City issue? Seems to me The Province is responsible for recycling and the City merely picks it up? 2). The Province of MB advertises about recycling constantly, and on all media, but I don't think the message is getting thru at all! This advertising seems a total waste of money. There are 6 people in my building aged 25-35 and they always place garbage in the recycle bin. They are the age that should care and know better. I think they are a random example of ignorance of the recycle program. 3.). I don't have any faith that most of the items placed in the recycle bin are recycled. I believe they go to landfill. Or become a pollutant in a poor country after being shipped across the ocean. We should try harder to reuse or recycle here at home. We should also open the doors to the recycling location (wherever the City hauls it to) so the public can see and really understand. I would like a tour or a documentary about what happens in the sorting facility. 4). I do think the Recyclpedia is a good thing.	11/5/2023 8:08 PM
489	Winnipeg is so far behind other cities when it comes to recycling and compost. So many items that can be recycled go in the garbage here. It is shameful. This should be a top priority for the	11/5/2023 6:11 PM

	city.	
490	Yard waste should be weekly in the summer	11/5/2023 5:34 PM
491	I have seen the recycling cart being dumped into the garbage truck. WHY? And when the recycling is picked up properly, why are the carts not put properly back where I left them before work? Why are they on their side sometimes when I get home?	11/5/2023 5:33 PM
492	I hear that a majority of recycling is NOT actually recycled.	11/5/2023 4:57 PM
493	Not enough is accepted for recycling since we dont have great recycling depots so things that technically can be recycled, are not and go to the landfill. The city should not allow black single use plastics to be used by restaurants/stores since our facilities can't recycle them.	11/5/2023 4:07 PM
494	never collects it cleany always find items all over our backlane and cart is left in the middle of the backlane	11/5/2023 2:28 PM
495	I think the city can do more than just dump recyclables in a bin. For instance, we could incentivize the return of all beverage containers by refunding the deposit. Drink cans & bottles are dropped all over the place.	11/5/2023 1:41 PM
496	Same as garbage collection issue.	11/5/2023 1:27 PM
497	you take so little things not like these "other cities" you like to speak of	11/5/2023 1:07 PM
498	as previously answered, trucks running the back lane twice for each side. Also plastics issue.	11/5/2023 1:05 PM
499	We should not be paying extra on top of property taxes, especially in North end where the city neglects basic services.	11/5/2023 1:01 PM
500	Every time they pick up my recycling they leave a giant mess in the back and I end up having to pick up extra recycling lying in the back lane	11/5/2023 12:19 PM
501	Not all plastics are recyclable. Styrofoam is not as well.	11/5/2023 11:32 AM
502	So many items that could be recyclable are either not accepted in Winnipeg (e.g. black plastic) or of the recyclables that are accepted, many still end up in the landfill.	11/5/2023 10:25 AM
503	Plastic recycling is a joke. Glass, paper, and aluminum are all fine materials for recycling. We stop misleading people about recycling plastics.	11/5/2023 10:12 AM
504	i have been at the dump and seen the recycling trucks depositing there instead of the recycling centre. not enough plastics are recycled, bags etc	11/5/2023 9:40 AM
505	Not enough of our plastics are being recycled. We shouldn't be packaging in plastics that can't be recycled.	11/5/2023 9:07 AM
506	I used to live in Ontario and recycling was unlimited so if my bin was full I would put the rest in blue recycling bags and everything would be taken.	11/5/2023 7:35 AM
507	Too much stuff goes in the garbage; join the rest of Canada an implement a compost program and a proper recycling program where all plastic, paper, tin and styrofoam can be recycled	11/5/2023 7:04 AM
508	Recycling rules are unclear. Suspect much recycling is actually going into the landfill because materiel is contaminated with non recyclable material	11/5/2023 6:51 AM
509	Bin never properly emptied and debris all over the lane	11/5/2023 5:56 AM
510	Too many excluded materials like tin foil and wrapping paper	11/5/2023 12:39 AM
511	Same concerns I have with the garbage disposal. Reckless drivers who speed down back lanes, damage bins and cause garbage to spill which goes uncleaned. Many bins get damaged.	11/4/2023 11:48 PM
512	We can't place all recyclable items there. I don't want to drive all over to recycle other things like batteries or have to throw our certain plastics because they're not accepted.	11/4/2023 11:44 PM
513	Same as previous, garbage and recycling often late and they don't fully dump bins, items left inside	11/4/2023 10:54 PM
514	There is a lot of recycling that can't be put in the recycling bins. I end up throwing it in the garbage. Too much work is required before some items can be put in recycling (ie cleaning,	11/4/2023 10:42 PM

	remove labelling, etc).	
515	For some reason those who heave the cart onto the back of the truck to be dumped then leave the cart on the road, or overturned. This doesn't happen all the time but certain personnel do it, and they do it to ALL the carts in the neighborhood. If a car hits my cart you can bet I won't be paying for the car repairs or a new cart.	11/4/2023 10:37 PM
516	See previous answer	11/4/2023 6:46 PM
517	Most recycling ends up, eventually, in the landfill. It is also creating more pollution then if it ended up in the landfill and lastly it cost far more to have a recycling program including regular garbage pick up	11/4/2023 6:17 PM
518	Difficult to know what to put in recycling. Also most of it ends up in the landfill anyway. Mostly the current program is an expensive waste of time	11/4/2023 6:14 PM
519	Once again my cart has been broken and getting it fix was a hassle. I have also had to go looking for my cart as it has not been where I put it after it was emptied.	11/4/2023 5:59 PM
520	We pay the recycling fees but do not get refund for recycling. We should have centre's to recycle plastic and glass like sask and bc and alberta	11/4/2023 5:26 PM
521	More items eligible	11/4/2023 3:23 PM
522	There has been great progress made with getting the recycling message out. What happened to the next 2 R's: reduce and reuse?	11/4/2023 2:29 PM
523	I have heard that many things that I put into my blue bin actually end up in the land fill - glass for example, and perhaps even aluminum drink cans.	11/4/2023 12:25 PM
524	The pickup service is very good. I'm concerned about the amount of recycling that gets sorted into waste and ends up at the landfill	11/4/2023 10:38 AM
525	It is the facade of a recycling program. The different types are not separated, and once they are mixed they often cannot be recycled (ie: broken glass mixed into paper products). Also, how much of the plastic actually gets recycled? So much of our current program is just a 'feel-good' measure where in actuality it makes little or no difference if you put items into the black or blue bin, in the end they end up in the same place.	11/4/2023 9:48 AM
526	Many items not accepted for recycling	11/4/2023 7:44 AM
527	Recycling is not comprehensive enough! In Germany I was able to place all plastic materials in the recycling bin, wrappers, lids, etc. however, glass is recycled separately.	11/4/2023 7:25 AM
528	The number of things that are recyclable in Winnipeg is limited compared to other provinces	11/4/2023 7:25 AM
529	There are so many recyclable items that aren't allowed. Consumers pay for recyclable containers but we have no option to turn them in to get our money back. Why are we still allowing manufacturers to sell these items in stores?	11/4/2023 7:16 AM
530	Having a profit-driven third party run the recycling program is wasteful. We should be recycling more items.	11/3/2023 11:33 PM
531	It's confusing as to what can be recycled in Manitoba and we hear many versions of 'it all gets thrown out anyway"	11/3/2023 11:14 PM
532	There is no real guidance as to what can actually be recycled because everything is just ending up at the landfill anyway. Not impressed.	11/3/2023 10:45 PM
533	Too much emphasis is placed upon recycling and not enough placed upon reduction. Higher deposit fees are needed for recyclable materials to encourage people to return them.	11/3/2023 9:19 PM
534	People don't clean their recyclables . You need to enforce this. Make it a by-law. Start inspecting and start giving tickets to those who don't use the garbage or recycling correctly. Come on! I am serious. People will obey if there are patrols. Do it!	11/3/2023 9:05 PM
535	Again, it is needlessly complicated. It was fine how it was with normal pickup of normal garbage cans and garbage bags.	11/3/2023 8:26 PM
536	From what I understand, much of what goes into blue bins ends up in landfill anyway due to problems in the recycling process	11/3/2023 4:46 PM

537	Because the spend a fortune in advertising to tell us what we can't put in our bins rather than spending that money to help SMEs and start ups do research or develop systems and businesses to deal with the items that currently cannot be recycled here.	11/3/2023 3:36 PM
538	Its common knowledge that most of it goes to the landfill anyway. I do my damn best to make sure I basically have cardboard paper, glass and the odd plastic in there with as much label as I can remove. It doesn't matter, ends up in the landfill.	11/3/2023 2:09 PM
539	Our recycle program is very limited and restrictive.	11/3/2023 2:01 PM
540	Carts aren't large enough for weekly pickup. To encourage more recycling they need to be larger	11/3/2023 9:50 AM
541	So very little is recyclablein this city. It's almost a "why bother" situation. But, with that being said, I recycle what I can and every little bit helps.	11/3/2023 9:36 AM
542	1. Too many things that “should” be recyclable can’t be recycled in Winnipeg. 2. You’ve allowed your contractors to make poor decisions and drive policy resulting in an inflexible, costly recycling program that doesn’t divert enough items from the landfill. 3. Cost.	11/3/2023 9:24 AM
543	Expectations of clean and prepared items placed inside. Why waste clean drinking water when the plant can blast with grey water. Too much emphasis placed on the least effective R. We should focus on reduce and then reuse and lastly recycle.	11/3/2023 8:06 AM
544	There is no separation of paper from glass and most types of plastic don’t get recycled, which adds bulk to household garbage. There needs to be more comprehensive recycling and more separation, like it is in Germany.	11/3/2023 6:14 AM
545	not able to really recycle glass or most plastics. pious need to wash items	11/3/2023 1:41 AM
546	Need a larger recycling cart as well there should be a limit on how much you can put out on compost day. Some homes have 20+bags. There needs to be better awareness of important of leaving leaves on the ground rather than having a leaf free lawn and having numerous compost trucks moving these compostable items to landfills. It’s a waste of energy and resources - and somehow people feel good about composting leaves?!	11/2/2023 10:49 PM
547	I’m pretty sure that very little actual recycling occurs based on how many people I see around me putting nonrecyclable items in the blue box and knowing that because of that it means my items will most likely end up in the land fill instead of recycled	11/2/2023 10:34 PM
548	Our city and world needs to do a better job of recycling plastic, and if not, banning more single use and other short-term plastic items.	11/2/2023 10:12 PM
549	Same as above the company that picks up the recycling break the bins all the time	11/2/2023 9:47 PM
550	Many items recycled in most places are thrown out in Manitoba.	11/2/2023 9:45 PM
551	The program is just a big PR scam paid for by industry. They created all the paper and plastic , let industry be responsible for solving THEIR problem.	11/2/2023 8:59 PM
552	I’m not sorting all of the recycling and I know much of it is not recycled anyway	11/2/2023 8:38 PM
553	Curbside recycling is a total farce. It's extremely difficult for the MRF to sort out all the different items once they've all been co-mingled. MMSM has sufficiently bamboozled most of the population into believing recycling is magic and can take care of anything plastic so every load of recycling is half full of contamination, and you just sell everything to a middle man and wash your hands of it. If things were actually reprocessed locally, there would be some accountability that some new, valuable product as actually coming from the waste we throw out. I am completely willing to separate my recycling into a) paper, b) glass, c) plastics PET #1, HDPE #2 and Polypropylene #5, d) aluminum, e) other metals, and, in a perfect world f) polyIstrene #6 and LDPE #4 if only you would respect my effort be collecting them segregated and then sell them to a local processor who makes them into something new.	11/2/2023 8:35 PM
554	As previously stated employee’s are too rough with the bins	11/2/2023 8:14 PM
555	Where does our recycling go?	11/2/2023 5:07 PM
556	Would like to be able to put more variety into the recycling bin. ie; soft plastic bags	11/2/2023 4:52 PM
557	one bin collection is a ineffective way of recycling. I would like to see recycling separated (paper, glass, other) like in other cities so more would be recycled.	11/2/2023 3:37 PM

558	Would like to have the green cart program. Also the collection guys don't put the bins back where they got them from. They leave them on the street.	11/2/2023 3:07 PM
559	Lack of citizen awareness of what is and is not recyclable is still a major problem - recycling spoilage is a waste. Need to have a clear durable poster on every bin of most common items NOT recyclable	11/2/2023 2:47 PM
560	I don't think plastics are handled properly. I think recycled plastic chips or micro plastics are leaking into the environment from poor recycling practices	11/2/2023 2:34 PM
561	Like 90% of what should be recycled isn't actually recycled or recyclable. I've also seen garbage trucks take the recycling in the same load.	11/2/2023 2:00 PM
562	One of the key issues is that there are some items that I'm not sure if they should go in the recycling cart. Frankly, if I have to sort plastics by type, they'll likely wind up in the garbage. Also, many media reports (from various locations) have made note of how little material is actually recycled, reducing confidence in the program. Finally, our cart has been damaged by the City of Winnipeg contractors, but it is our responsibility to pay to replace it...that doesn't make sense since it isn't us who is damaging our carts.	11/2/2023 1:55 PM
563	As a city we barely recycle anything.	11/2/2023 1:24 PM
564	Our curbside recycling program only covers a small portion of what can be recycled.	11/2/2023 1:08 PM
565	I don't think residents are being told the truth about the amount of plastic that is not actually being made into new products. Recycle Everywhere just seems like a distraction.	11/2/2023 1:03 PM
566	Still too difficult - and rules change - to select, sort, and prepare items for recycling. May as well just make it a paper-products-only program.	11/2/2023 1:02 PM
567	I would like to see more items added for pickup .. certain types of packaging and textiles	11/2/2023 1:01 PM
568	Because many items that I would consider recycling are not accepted by the current contractor. Further, I am not confident that the items are actually recycled but rather put into a landfill anyway.	11/2/2023 12:49 PM
569	Too onerous	11/2/2023 12:33 PM
570	I don't believe we achieve very good recycling %	11/2/2023 12:30 PM
571	There is nothing wrong with the picking up of the recycling. The problem is that our recycling facilities aren't good enough. We need to be able to recycle more things and know that they are actually being recycled and not thrown into the garbage.	11/2/2023 12:26 PM
572	I don't believe everything put in the blue bins is actually recycled	11/2/2023 12:26 PM
573	The bins aren't big enough, and not all items end up recycled due to poor cleaning of items from.othwr citizens. Or someone putting garbage vs recyclable material in the carts.	11/2/2023 12:23 PM
574	There are items that ought to be collected and recycled but are not due to the limitations of Winnipeg's program. It would also be good to see a communication enhancement that tells citizens how we're doing in terms of how much we're recycling and how our recycled materials are being used.	11/2/2023 12:11 PM
575	Winnipeg seems to have fewer items that are recyclable than other cities/provinces where I have lived.	11/2/2023 12:08 PM
576	there are too many items that are not accepted for which I buy TerraCycle boxes to handle.	11/2/2023 12:08 PM
577	Recycling products are not clear enough what can/can not go in the blue box. in addition packaging rarely says if it can go in the blue box or not these days. I came across where items are similar one can go in the blue box and the other can't.	11/2/2023 12:01 PM
578	We should be setting up a recycling refund system similar to what most other providers provinces have.	11/2/2023 11:55 AM
579	We don't have a comprehensive recycling program, lack of information of how to treat materials (should it be washed? If so, how clean? Should the labels be off? Etc) lack of information of what can be recycle especially for plastic, if we recycle them. Just in general lack of education, direction and regulation provided for residents	11/2/2023 11:54 AM

580	There are soooo many items that go in the garbage that say they are recyclable but Winnipeg does not accept them because of the limitations. I would like to see a program that allows many more items to be recycled. Can we not upgrade our system to accommodate these items	11/2/2023 11:53 AM
581	Carts are often broken by collectors Getting them fixed or replaced is a problem	11/2/2023 11:37 AM
582	The use of it is fine as a household, but the processing facilty. Why do we not accept tin foil? What happens when it's soiled or not sorted properly? It all ends up as waste anyways and this is not acceptable by any standards	11/2/2023 11:35 AM
583	Carts frequently break. The process for having a broken cart fixed or replaced is ridiculous. 311 emailing and ticket management is a Joke. I spend more time managing the lifecycle of my 311 ticket than you do. What happened to the 311 app??? please bring that back so cart reporting and the replacement workflow can be automated. Carts are too small because we don't have a kitchen waste compost cart/collection. Why must I throw all of this compostable garbage into plastic garbage bags and fill up the landfill? this is a disaster. I'm embarrassed to live in a city that hasn't already addressed this. More pressure needs to be put on retailers to eliminate styrofoam or financially penalize retailers who are offering grocery/fresh food products in styrofoam. we were successful with fast food and takeout, let's keep the momentum going. there can be no more excuses. The city does not audit or hold commercial properties accountable for garbage and recycling. This creates messes in my area (adjacent commercial). There is loads of graffiti on the dumpsters adjacent to my lane/property. the garbage overflows and tracks all over the lane. liquid spills from the leaking dumpsters. the lids don't close and this attracts/feeds scavenger mammals and birds.	11/2/2023 11:25 AM
584	Why I am recycling paper and throwing plastic in the garbage? This is just nuts!	11/2/2023 11:16 AM
585	Most bins on my street have been damaged by the pick up. Now you want app $80. To replace the bin you broke	11/2/2023 11:02 AM
586	Not Satisfied because the operators throw the carts and break the wheels. Then home owner is responsible for this damage and to pay for a new cart ??? Ridiculous !! Poor handling by the operators and an "I don't care attitude"	11/2/2023 10:55 AM
587	Too many things that could be recycled are not accepted by our recycling program. Having recycling driven by whether the reclaimed materials can be profitable is less effective at waste diversion than focusing on putting actual money into waste diversion.	11/2/2023 10:44 AM
588	The billboards directing people to a website for info on what can be recycled are ineffective. I've used the website but I think most people don't bother. I suggest you put large, visible, easily readable stickers on everyone's recycling bin.	11/2/2023 10:42 AM
589	Not consistent time for pick up, we lived in an apartment and had no pick up at all which is unacceptable	11/2/2023 10:40 AM
590	To difficult to remember what goes where. Too many things not accepted in the recycling program. I do not have time or energy to keep track of 1 part that can be recycled while the other part can't even though common sense would dictate recycle. Ie cup and lid, egg cartons, etc.	11/2/2023 10:35 AM
591	The recycling capabilities are abysmal in this day and age. Far more SHOULD be recycled, and a good example of an efficient program can be seen in Nova Scotia, where nearly all plastics (including styrofoam and filmy plastics) are recycled. The fact that non-clear plastics are also not recyclable is pathetic.	11/2/2023 10:34 AM
592	Barely any products that can be recycled are actually recycled here.	11/2/2023 10:27 AM
593	I'm concerned our recycling isn't actually recycled and instead is added to the landfill. I would do more separation if I knew it would actually be recycled.	11/2/2023 10:25 AM
594	too many people don't know how/can't be bothered to sort/clean recyclables properly so too much of it winds up as garbage anyway	11/2/2023 10:16 AM
595	The collection service is good. However, communication about use seems to be disguised or hidden. What really happens with plastics? Why not take aluminum foil / trays like other provinces?	11/2/2023 10:11 AM
596	I think that people do not know how to put items in the recycling. They put wet items, greasy	11/2/2023 10:07 AM

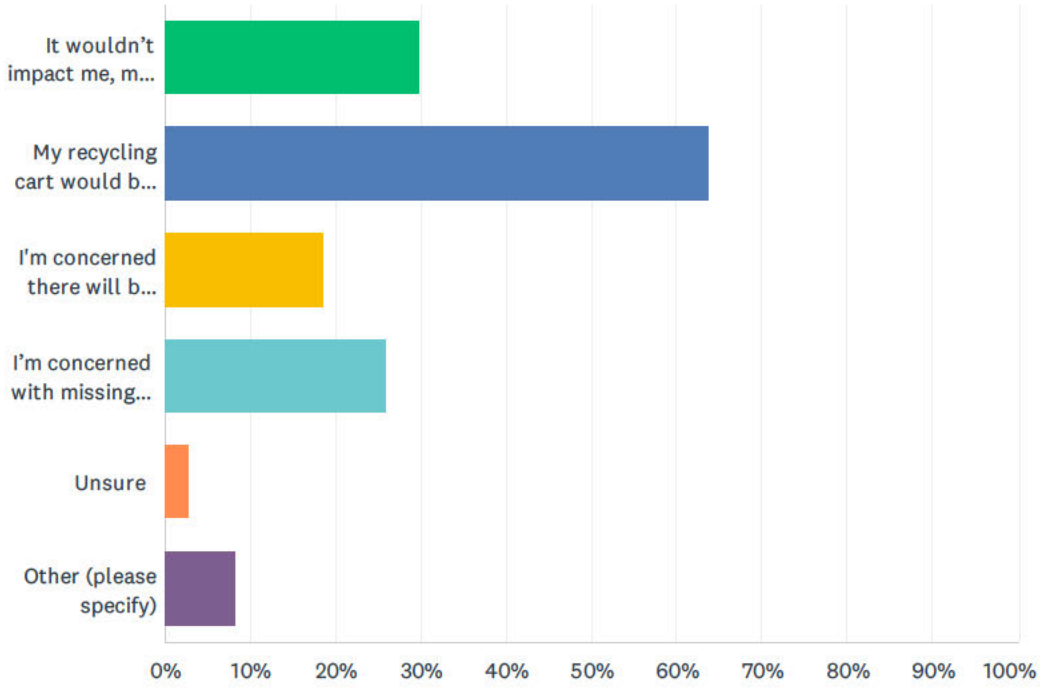
	items…I wonder if any of my stuff gets to the Depot and is recycled… or hasn't been contaminated?! I think we need more public service announcements everywhere!! Taught in schools too!	
597	The program verges on being criminal. What had occurred with our plastic wastes being sent to Pacific rim countries ostensibly to be recycled was in fact criminal.	11/2/2023 10:03 AM
598	Collection is fine. I pay for a private collector for foil, plastics and some multimedia items (eg plastic lined paper) not accepted by City, and this significantly reduced my garbage to less than one small bag monthly	11/2/2023 10:00 AM
599	I don't believe we should have to wash all the containers before we recycle them. It should be done at the recycling plant	11/2/2023 9:51 AM
600	Many more items can be recycled but are rejected by the present program.	11/2/2023 9:42 AM
601	Lack of transparency about how much is actually recycled.	11/2/2023 9:41 AM
602	I do not get curbside pick up at my home but must role the bins down to the cross back lane. Fine in the summer, but extremely hard to do in the winter.	11/2/2023 9:39 AM
603	the people who dump the recycling bins into the truck have a hard time dumping the bins without leaving paper, plastic containers and broken in their wake.	11/2/2023 9:33 AM
604	the list of items that are acceptable is too small. Need to increase the range of accepted items	11/2/2023 9:30 AM
605	I would like to be able to recycle more products in the blue bin. There are too many limitations. A program like Germany would be better.	11/2/2023 9:22 AM
606	I would like to recycle more materials	11/2/2023 9:17 AM
607	I previously answered. I DO NOT want food waste accumulating for that long. I already have a neighbour who NEVER cleans her yard. Rodents would definitely be problematic.	11/2/2023 9:12 AM
608	Other municipalities offer recycling of more products, styrofoam, aluminum foil, etc. As well it is difficult to find locations to recycle plastic bags from paper towel packaging, etc.	11/2/2023 9:00 AM
609	I am dissatisfied that citizens are not required to recycle	11/2/2023 9:00 AM
610	Even with APP people don't recycle properly and it becomes a spoiled recycle bin	11/2/2023 8:58 AM
611	My understanding is that most of the items we place in recycling are not actually being recycled. I would like to know more about how our recycling system actually works	11/2/2023 8:55 AM
612	Same reason as with the garbage program. Would be nice if it was picked up every time and not missed. Also would be great if the cans weren't left all over the road.	11/2/2023 8:44 AM
613	I understand that there are many recyclable products that actually can't be recycled in winnipeg.	11/2/2023 8:43 AM
614	I wish we also had a composting program and a more clear guide on how to recycle items	11/2/2023 8:37 AM
615	Our recycling creates a lot of waste because we don't separate items which spoils things from being reused.	11/2/2023 8:37 AM
616	If one person on our street improperly recycles, all our recycling gets rerouted to the landfill. Not offering a composting program means food waste is often put into the recycling by accident or because people simply don't know better.	11/2/2023 8:36 AM
617	No collection of organic waste, and too many kinds of plastic not included.	11/2/2023 8:24 AM
618	There should be more items allowed in recycling. Composting would help	11/2/2023 8:23 AM
619	Our recycling options and the process is ridiculous. We do not offer enough flexibility in the types of materials accepted for recycling, and most of our products are not recycled the way they should be.	11/2/2023 8:17 AM
620	I know most of it ends up in the garbage anyway, so it's frustrating.	11/2/2023 8:16 AM
621	You want us to recycle yet the bin size for a family of 5 is not sufficient.	11/2/2023 5:02 AM
622	There are many things that have recycling symbols on them that I'm told the city can't take. A	11/2/2023 12:09 AM

	while ago I heard that no black plastic can be recycled because the system can't distinguish it from the black conveyor belt on the automatic sorter or something.	
623	Many users are not using the bins correctly & are discarding items such as pillows clothes or are using all sorts of plastic bags to hold the recyclables	11/1/2023 8:48 PM
624	We should be able to return pop cans, bottles, milk jugs, cartons, etc to a depot instead of having to recycle them	11/1/2023 8:46 PM
625	We are paying deposit/ enviro fees on certain items at the checkout and not recouping them by returning them. Also it is confusing as to what is actually recycable.	11/1/2023 8:23 PM
626	Had to complain to 311 about my recycling bin being damaged twice. It's fine now, but that is why I'm dissatisfied.	11/1/2023 7:22 PM
627	There are still a lot of items that cannot be recycled.	11/1/2023 4:41 PM
628	Here we cannot recycle enough of plastics and other items. I would agree that we need a compost pick up that includes paper products. My daughter lives in Alberta and their compost pick up is incredible.	11/1/2023 3:53 PM
629	Only a small percentage of what is placed in the blue bin is actually recycled.	11/1/2023 2:35 PM
630	How many resources are wasted in taking this recycling when most of it won't be recycled anyway	11/1/2023 1:01 PM
631	bins are never put back into place. They are damaged from being thrown by the garbage man	11/1/2023 9:51 AM
632	Already explained in previous message	11/1/2023 8:32 AM
633	Recyclapedia too complex Have heard only a small faction is actually recycled.	11/1/2023 1:46 AM
634	You need to invest in equipment to recycle plastic bags, styrofoam, etc.. British Columbia does a much better job.	11/1/2023 1:32 AM
635	Recycling is used as a second garbage. No updates about recycling facilities. No consequence for poor recycling. I do not trust that Winnipeg is recycling after pick up. I don't trust Winnipeg to do the right thing when it comes to investing in recycling.	11/1/2023 12:36 AM
636	Because most of the time the guys leave the bins in the middle of my driveway when I leave them neatly on the side for them. Not everyone is able to get out of their vehicle to move them in order to get into the driveway/garage. And it's a safety issue if an ambulance was ever needed.	10/31/2023 8:47 PM
637	Recycling is not currently sustainable. Track amount put in trucks and amount truly recycled. We should have a plastic bottle recycle program deposit and refund. There needs to be better wood and heavier metal recycling.	10/31/2023 7:39 PM
638	Too many confusing rules on what can and cannot be put in the recycling bin. The results are, we just end up tossing the majority of the items into the garbage	10/31/2023 4:30 PM
639	I firmly believe there is no actual recycling. We are just sorting things and holding on to them.	10/31/2023 2:36 PM
640	Would appreciate being able to leave "over flow" items beside my cart and have this picked up without an additional fee. Also, city workers over the last year have ALWAYS left our carts in the middle of our driveway. This is inconsiderate and inconvenient, especially during the winter months. I acknowledge, however, that this is likely due to them being overworked and having restrictions on their time.	10/31/2023 11:13 AM
641	1. Because the list of recyclable items falls well short of other similarly populated municipalities across Canada 2. Because it's apparent that most recyclable items put into the recycling bin are not actually recycled, thanks to an extremely finicky system that requires everything to be washed first. This is not so in many other municipalities. 3. It's 2023 and Winnipeg, a city of ~700k, still does not have a food waste diversion program. When I lived in Hamilton, Ontario, this was instituted in 2005ish. We're 20 years behind. That's embarrassing.	10/31/2023 12:25 AM
642	Recycling causes more green house gases because of the processing and trucks to collect. Reducing the waste before it gets into the consumer hands should be the focus	10/30/2023 11:09 PM
643	I don't have enough recycling to use the bucket. I have no cans and I reuse my plastics. I burn any paper. It's a waste of money. Besides most of the stuff you collect can't be recycled. So	10/30/2023 9:10 PM

	why bother. It's handy to store wood though.	
644	The majority of recyclable items in Manitoba aren't actually recycled. In BC almost everything can be recycled by being placed into material specific recycling bins.	10/30/2023 8:58 PM
645	Too many technicalities and restrictions on recyclable materials that cannot be handled in winnipegs facilities	10/30/2023 8:27 PM
646	Winnipeg doesn't recycle enough of the recyclables	10/30/2023 6:17 PM
647	We should be able to return aluminum cans and alcohol bottles for refund like our provincial neighbors.	10/30/2023 6:16 PM
648	Not enough items are recycled by the program. Most blue bin contents end up in landfills	10/30/2023 5:55 PM
649	I have heard that most of what we recycle gets throw out even though it meets the criteria. It would be nice if the recyclying program had some ability to clean items (we have heard that is why entire loads get tossed)	10/30/2023 4:54 PM
650	There isn't enough transparency about the program and how it works. I'm concerned we're selling our recycling to other countries where it goes in a landfill anyways, or it's just ending up in the landfill.	10/30/2023 4:44 PM
651	Limited items that can be recyled.	10/30/2023 4:14 PM
652	Need bigger blue bins.	10/30/2023 1:36 PM

Q10 Many cities collect recycling every two weeks. If your blue cart was collected every two weeks, how do you think this would impact you? (Check all that apply)

Answered: 8,641 Skipped: 595



ANSWER CHOICES	RESPONSES	
It wouldn't impact me, my recycling cart wouldn't be full in two weeks	29.85%	2,579
My recycling cart would be full or overflowing in two weeks	63.73%	5,507
I'm concerned there will be an issue with smell, rodents, or pests	18.62%	1,609
I'm concerned with missing a pickup if I'm away or forget to put my cart out	26.03%	2,249
Unsure	2.70%	233
Other (please specify)	8.27%	715
Total Respondents: 8,641		

#	OTHER (PLEASE SPECIFY)	DATE
1	As a disabled person I already miss pickup days sometimes because I can't get out of the house on bad days. If the next pickup was two weeks away, this would be a very serious problem.	11/30/2023 5:27 PM
2	bin is placed for collection only when full, sometimes every week	11/30/2023 8:59 AM
3	The city will still charge the same tax will less pickup	11/30/2023 8:33 AM
4	would my taxes reduce if you were cutting my services in half?	11/29/2023 12:13 PM

5	Already collected b-weekly	11/29/2023 12:11 PM
6	this boils down if we will be paying extra. Response to #9 - give us homeowners incentives when we recycle, not willing to wash recyclables if it's going to cost my water bill extra.	11/29/2023 10:06 AM
7	THERE IS NO ROOM FOR THREE BINS IN THE BACK LANES OF OLDER NEIGHBORHOODS.	11/29/2023 8:24 AM
8	see previous comments about neighbourhood liveability; the bins in our back lane would be even more over-filled than they are now.	11/28/2023 4:59 PM
9	we could put out every 3 weeks if we had to	11/28/2023 9:09 AM
10	How much is this going to cost to be effective?	11/27/2023 7:50 PM
11	My blue cart gets a lot more than my garbage cart	11/27/2023 7:12 PM
12	Dump extra at civic centre	11/27/2023 1:51 PM
13	The recycling overflows before a week.	11/27/2023 9:34 AM
14	For sure our recylcling would be full. We would need 2 large bins if you moved to 2 weeks,	11/27/2023 8:54 AM
15	I am not sure if our apartment bldg could afford to purchase more recycling bins.	11/26/2023 11:34 PM
16	We often don't put out recycling bin if it isn't full.	11/26/2023 3:03 PM
17	I think people will recycle less as they would often have too much to keep for 2 weeks	11/26/2023 1:02 PM
18	This is a bad idea, trying to get people to recycle atm is hard enough. I can see big issues with fly tipping with this cheap penny pinching idea.	11/26/2023 12:05 PM
19	Some weeks my recycling would be full but I could store some until the next pick up.	11/26/2023 10:41 AM
20	What other cities do this?	11/26/2023 10:34 AM
21	In a condo dwelling and the bins are always at capacity.	11/26/2023 9:32 AM
22	If I currently have too much recycling I always have the nearby 4R depot to rely on	11/26/2023 7:19 AM
23	Recycling is largest part of my waste.	11/25/2023 9:48 PM
24	If two weeks I need to be given larger bins	11/25/2023 9:43 PM
25	we rarely use the blue bin as we have few recyclables	11/25/2023 7:49 PM
26	Some times I might have a full cart 2 weeks in a row and some time I could 3 weeks without needing a pick up. I only put it out if it's full.	11/25/2023 6:20 PM
27	It would be too messy.	11/25/2023 6:17 PM
28	Provide extra blue cart at apt - we have 3 for 14 units - as is could be a problem.	11/25/2023 4:48 PM
29	Households with more than one family already have overfilled recycling bins. If the collection was changed to biweekly more recycling bins would have to be issued to multi family households.	11/25/2023 3:49 PM
30	might sometimes need a larger recyclying cart for 2 week collection	11/25/2023 3:22 PM
31	Unless the city is reducing my taxes to correspond to the reduced service, then the city is effectively increasing my taxes!	11/25/2023 2:33 PM
32	With Amazon deliveries most people need bigger recycling bins or be allowed to place cut-down boxes beside the blue bin. The opposite would be true with an every second week pickup.	11/25/2023 1:57 PM
33	We"re a first world country, the idea of letting our refuse sit for 2 wks is revolting. I don't want to live in filth. And if you make it increasingly difficult for people to dispose of their refuse, they will find other ways, such as just dumping it in public, so then ther's even more of a mess.	11/25/2023 12:16 PM
34	recyclable trash piling up in poorer neighbourhoods	11/25/2023 12:11 PM
35	[redacted] idea by a [redacted] council	11/25/2023 9:48 AM

36	My recycling is fool every week!	11/25/2023 8:58 AM
37	Having a drop off site helps	11/25/2023 8:53 AM
38	Not enough people know the rules around recycling	11/25/2023 8:48 AM
39	More [redacted] Winnipeg is not a small town. Yet.	11/25/2023 7:47 AM
40	Would not impact me, area around my residence always have bins overflowing with recycling and garbage in the same bin.	11/25/2023 6:08 AM
41	I recycle a lot so that wouldn't be good.	11/24/2023 10:58 PM
42	My recycling cart would be full but manageable with a biweekly pickup	11/24/2023 10:42 PM
43	A smaller size would work, i only put it out about every 3 weeks as it is	11/24/2023 10:07 PM
44	Again, if the City of Winnipeg is going to reduce recycling services I expect a huge reduction in my fees.	11/24/2023 9:29 PM
45	We would need a second cart. Our blue bin is full each week.	11/24/2023 8:59 PM
46	Current bins are too small for bi weekly pick up.	11/24/2023 8:28 PM
47	My recycling bin is always full every week.	11/24/2023 8:23 PM
48	Need bigger bins	11/24/2023 7:23 PM
49	We only put out our bin every two weeks or more when it is full	11/24/2023 6:19 PM
50	Bad idea don't do it	11/24/2023 6:18 PM
51	Missed pickups mean four weeks before pickup	11/24/2023 6:16 PM
52	requiring less packaging by producers and retailers would help	11/24/2023 5:18 PM
53	put additional in regular garbage	11/24/2023 3:02 PM
54	Typically this would not impact me, however around Christmas or hosted events it may overflow.	11/24/2023 1:31 PM
55	It would balance out	11/24/2023 1:09 PM
56	Recycling volume varies from week to week because we mostly use it for the business; we have very little domestic waste or recycling	11/23/2023 10:37 PM
57	I have already purchased a second blue cart. They would both overfill in 2 weeks.	11/23/2023 9:47 PM
58	With a lot of delivery grocery programs packing groceries in cardboard crates, we fill our blue bin to the max every week	11/23/2023 9:34 PM
59	If my blue bin gets too full I can always break boxes down better first	11/23/2023 7:32 PM
60	My recycling cart may be full or overflowing in two weeks. I have more recycling than garbage	11/23/2023 5:23 PM
61	Generally a 2 week pickup should be fine, but sometimes there would be too much recycling	11/23/2023 4:16 PM
62	It's easier to get rid of excess recycling through the 4R depots than it is to get rid of excess garbage.	11/23/2023 1:33 PM
63	again, for the majority of the time, every two weeks is not an issue except for certain times when we have large purchases and a greater number of boxes	11/23/2023 1:16 PM
64	I live in a condo and recycling is picked up twice a week	11/23/2023 11:30 AM
65	Collection every 2 weeks is impossible for big families and kids	11/23/2023 8:54 AM
66	Often wait until next week if full or use neighbor	11/22/2023 1:55 PM
67	Not interested in trying to remember what week is pick up.	11/22/2023 1:27 PM
68	i will be using the garbage cans for my recycling	11/22/2023 1:07 PM
69	We would require larger carts. When I lived in city with biweekly collection they were larger.	11/22/2023 11:36 AM

70	Frequency prevents misuse, such as hiding indigenous bodies	11/22/2023 12:51 AM
71	This would imps get me negatively	11/21/2023 7:06 PM
72	Again - I would've fine but neighbours……?	11/21/2023 3:57 PM
73	So my blue bin is just filled with box's so i can just break them	11/21/2023 2:04 PM
74	only on wednesdays.	11/21/2023 1:59 PM
75	The City is doing a great job with the recycling program. What is the upside for Winnipeg citizen's of introducing a new composting program and screwing up a program that's working well.	11/21/2023 10:31 AM
76	Recycling often overflowing in 1 week!	11/21/2023 10:31 AM
77	Could pickup once a month - low user	11/21/2023 9:17 AM
78	Citizens may use their recycling for trash if they run out of room in their green bin....same issues as above if two week pick up	11/21/2023 8:36 AM
79	i am concerned that my neighbourhood would see an increase in people looking through bins for valuables resutling in an increase in loose garbage in the backlanes. i am concerned that the rooming houses, apartment buildings and other higher density dwellings would be disasters. clarification if people are expected to wash recycling prior to placing in bins.	11/21/2023 7:50 AM
80	except for after Christmas time	11/21/2023 7:44 AM
81	I try to recycle as much as possible. While my bin is not always full, it is full more frequently than my garbage bin is.	11/20/2023 4:19 PM
82	cart will become sticky and a pain to keep clean	11/20/2023 12:15 PM
83	My cart is overflowing weekly. I could use more pickups not less	11/20/2023 11:51 AM
84	My recycling cart wouldn't be full because too many items aren't recyclable by the City	11/20/2023 10:16 AM
85	encourages rummaging by other people looking for items in the recycling and creates a mess	11/20/2023 10:14 AM
86	Leave it alone. It works well as is	11/20/2023 9:36 AM
87	please move to every 2 weeks	11/20/2023 9:21 AM
88	Had this program in Halifax. Two weeks in between recycling pick-up didn't work well as there was always too much recycling that didn't fit and had to be stored elsewhere until recycling pick-up came around. Would be nice for recycling to be picked up every week.	11/20/2023 8:54 AM
89	Our recycling is full everywhere so it would negatively impact us.	11/20/2023 7:20 AM
90	I live in a 2 unit house and we have access to 2 recycling bins	11/19/2023 9:41 PM
91	My recycling bin is full to overflowing each week. Decreased collection will result in either increased garbaging of recyclable materials	11/19/2023 9:09 PM
92	I have a larger cart because I recycle alot. Now that brings up another issue again, you would offer a larger cart to others if you plan a pick up every two weeks. Are you going to give even larger cart to the ones who have a large cart already?	11/19/2023 4:52 PM
93	in condo	11/19/2023 3:16 PM
94	Excess recyclables would be deposited in the garbage bins or in other inappropriate locations	11/19/2023 1:37 PM
95	live in a condo	11/19/2023 11:09 AM
96	The bulk of my waste is recycling. This would be very problematic for my family. I feel people would just throw their excess recycling in the garbage.	11/19/2023 9:29 AM
97	Doesn't happen frequently, but in some cases the carts are not collected. Storing recycled items in these carts for 4 weeks would be difficult.	11/19/2023 9:14 AM
98	If you want to encourage recycling, do not put up more barriers to an already iimited program.	11/19/2023 7:51 AM
99	Other city's give $$ for recycling. Years ago winnipeg had a recycling drop off center and paid	11/18/2023 2:12 PM

	you right away for what you brought in.	
100	If the recycling is full, I put in the garbage.	11/18/2023 11:12 AM
101	If 1 bin is not full, I would use it until it is full	11/18/2023 8:46 AM
102	I pay for weekly pick up with taxes. If it is picked up every 2 weeks, I would want a substantial decrease in taxes.	11/18/2023 8:27 AM
103	Have lots of cardboard boxes from grocery pick up	11/18/2023 7:58 AM
104	Many will put recyclables in garbage if they have room	11/18/2023 7:36 AM
105	I would have to make a trip to the closest 4R recycling depot once or twice a month	11/18/2023 6:01 AM
106	We don't put our blue cart out ever week but there are some months that we do. Example: After Christmas	11/17/2023 8:36 PM
107	Like this especially if costs go down	11/17/2023 7:45 PM
108	Again I already pay, now I have to use jy gas to take recycling to a depot which isn't exactly close to my home	11/17/2023 7:27 PM
109	Grossly Unsanitary	11/17/2023 7:23 PM
110	Depends on what was being recycled on a particular week. Some seasonal recycling i.e. Christmas may be larger, but since the materials are not organic, there should not be a rodent or pest issue.	11/17/2023 5:45 PM
111	not single family household	11/17/2023 3:29 PM
112	our cart is usually full every week	11/17/2023 12:52 PM
113	Recycling pick up would seriously impact my family. MY RECYCLING IS FULL WEEKLY.	11/17/2023 10:53 AM
114	I live in a condo - we have 4 recycling bins for 38 units. We would likely need a couple more bins.	11/17/2023 9:40 AM
115	The wasps in the summer. Will leave on street permanently to avoid.	11/17/2023 9:03 AM
116	Keep it as it is now! Thank you	11/17/2023 7:28 AM
117	Garbage would be blowing down streets	11/17/2023 7:15 AM
118	Also terrible idea	11/17/2023 7:08 AM
119	We have 2 bins	11/17/2023 6:56 AM
120	My recycling cart fills up in one week, two weeks is too long	11/16/2023 10:06 PM
121	No concern	11/16/2023 9:01 PM
122	My cart is overflowing in one week and there is always extra recycling waiting for the next pick up day	11/16/2023 9:00 PM
123	Depends	11/16/2023 8:52 PM
124	It might put a little bit of pressure on me to be less wasteful. This would be a good thing.	11/16/2023 8:06 PM
125	Most families will fill the cart in a week. Would likely need an extra cart.	11/16/2023 7:48 PM
126	Usually the cart would not be full, but occasionally it would be	11/16/2023 7:41 PM
127	My cart is already full every week	11/16/2023 6:47 PM
128	Would be awful if people ended up putting extra recycle in the garbage if they didn't have enough space	11/16/2023 6:29 PM
129	Depends on the week	11/16/2023 6:18 PM
130	This doesn't bother me as much because of the recycling depots like at St. James Civic Centre. I can easily take overflow. Having those depots easily available and emptied enough could justify bi-weekly recycling pick up.	11/16/2023 6:02 PM

131	Usually once every 2 weeks work but sometimes it would be difficult such as Christmas where there is extra paper and boxes.	11/16/2023 5:13 PM
132	It takes 2 weeks to fill our blue bin	11/16/2023 4:47 PM
133	Would need a large blue cart (family of 5) if 2 week pickup	11/16/2023 4:44 PM
134	I plan on starting a family, same as garbage response	11/16/2023 4:25 PM
135	It needs to be weekly. No biweekly would not work whatsoever	11/16/2023 4:20 PM
136	I have extra carts so that would help if the pick up was every 2 weeks	11/16/2023 4:05 PM
137	Only 5-6% of cycling is ever recycled	11/16/2023 3:57 PM
138	Will my taxes be reduced if you collect every 2 weeks? If not than I want a weekly pick up	11/16/2023 3:52 PM
139	Same as with garbage pickup. If someone wants green carts then they should pay for the service.Do not penalize those who opt out by reducing recycling & garbage pick up.	11/16/2023 3:27 PM
140	May lead to illegal dumping, litter	11/16/2023 3:19 PM
141	Once or twice a year its extra full, but two weeks would be OK most times.	11/16/2023 3:03 PM
142	NO, DO NOT DO THIS, STOP TRYING TO CUT CORNERS	11/16/2023 3:00 PM
143	recycling would pile up in our house	11/16/2023 2:54 PM
144	Odor, even from this cart	11/16/2023 2:54 PM
145	Recycling should be picked up weekly with compost. Regular garbage can be managed bi-weekly like they do in Toronto and GTA. If they can do, we can certainly do it.	11/16/2023 2:52 PM
146	Two weeks would be manageable but not longer	11/16/2023 2:45 PM
147	We only have two people in our family and our recycling bin is usually full. I can't imagine only having pickup every two weeks or how households with more people would manage. We would wind up having to make a weekly trip to the 4R depot which I think would cost more in time and fuel.	11/16/2023 12:43 PM
148	People would stop recycling and just throw it out if u made us keep it for 2 weeks we pay taxes and enuff for weekly removal. Make it like Alberta and pay for recycling people will clean our streets that's what u need to do people will deliver it to you.	11/16/2023 12:24 PM
149	Fire hazard	11/16/2023 12:19 PM
150	Anyone who tells you they can't reduce household waste, in order to meet the threshold of a bin the size of a refrigerator, is lying	11/16/2023 11:54 AM
151	Vagrants dump them	11/16/2023 11:46 AM
152	I would ask for a major reduction on my property taxes	11/16/2023 11:29 AM
153	My neighbour already sneaks over and puts her dirty stuff in mine. She would be putting more in.	11/16/2023 11:20 AM
154	My concern is that the RECYCLING is not done, just processed as garbage	11/16/2023 11:05 AM
155	More garbage in the streets	11/16/2023 10:55 AM
156	My recycling cart is full to the top EVERY WEEK	11/16/2023 10:55 AM
157	Recycling has been missed by pickup crew would mean we'd have an excess of recycling piling up creating a backlog	11/16/2023 10:52 AM
158	Not always but half of the time my bin may be overflowing .	11/16/2023 10:46 AM
159	0	11/16/2023 9:35 AM
160	My blue bin is full in one week, almost overfilling	11/16/2023 9:30 AM
161	This is already what I do	11/16/2023 9:27 AM
162	my recycling bin is full sometimes overflowing at one week- i would require 2 bin if it went	11/16/2023 9:15 AM

	every 2 weeks	
163	You are continously cutting back on services and charging us more. NO!	11/16/2023 9:14 AM
164	Cart would become sticky and paper items would no longer spill out easily	11/16/2023 8:37 AM
165	Make the carts bigger	11/16/2023 8:23 AM
166	It would only be difficult occasionally.	11/16/2023 8:02 AM
167	as you know there is too much packaging now and we fill it every week to the max	11/16/2023 7:33 AM
168	My recycling would be placed in the garbage.	11/16/2023 7:25 AM
169	A lot would just go in the black bins.	11/16/2023 7:19 AM
170	Seriously? Isn't this important???	11/16/2023 6:42 AM
171	Recycling would be placed in the garbage bin, I don't have space available to store excess recyclables	11/16/2023 5:59 AM
172	weekly parade of 2-legged scavagers looking for scrap bottles & stuff to sell would force to me to lock it to prevent them burning it etc	11/16/2023 5:42 AM
173	Rodents and raccoons are an issue, smell in summer	11/16/2023 2:53 AM
174	The apartments behind us already are overflowing	11/16/2023 12:45 AM
175	At the moment I'm a single resident in my house so it would likely be fine. But two people would be more of an issue as far as how much recycling.	11/15/2023 11:28 PM
176	[redacted] idea.	11/15/2023 10:52 PM
177	If needed I would take it to the recycling depot	11/15/2023 10:39 PM
178	People will just put in garbage or put in inappropriate places	11/15/2023 10:33 PM
179	Be forever behind on recycling	11/15/2023 10:30 PM
180	I read that most recycling ends up being shipped to a solid waste furnace generation station . If it gets burnt for power then why waste fuel transporting it. We should just burn it here	11/15/2023 10:07 PM
181	Quite often my bin would be overflowing	11/15/2023 10:02 PM
182	Always full weekly.	11/15/2023 9:41 PM
183	There would need to be open container reclucing pick up (aka: people would not be restricted to the single cart for recycling and could use other recycling storage options).	11/15/2023 9:11 PM
184	My cart is full to bursting every week!	11/15/2023 9:09 PM
185	Other	11/15/2023 9:07 PM
186	Also another [redacted] idea and whoever thought it up needs to be [redacted]	11/15/2023 9:00 PM
187	I would upgrade to large cart	11/15/2023 8:50 PM
188	I thought recycling was the 'green' initiative leveraged over taxpayers?! Even though our plastics are actually shipped to a landfill in the Philippines instead of being recycled. If recycling is so good for the environment then why cut the service level?! The price for recycling services should be cut in half if you the service is cut in half.	11/15/2023 8:41 PM
189	Would work fine	11/15/2023 8:36 PM
190	Carts would over flow, wind would blow garbage a d recycle all over neighborhoods	11/15/2023 8:35 PM
191	We have the big bin and it's completely full every week	11/15/2023 8:24 PM
192	See previous answer.	11/15/2023 8:14 PM
193	.	11/15/2023 8:01 PM
194	Please pick up recyclables weekly, to encourage folks to recycle	11/15/2023 7:56 PM
195	Additional costs for less curb side pickups.	11/15/2023 7:27 PM

196	Transients coming through areas especially lanes can pose a huge challenge	11/15/2023 7:08 PM
197	I'm sure we could learn to adjust. Our kids drink a ton of milk so those big jugs fill the cart pretty quick. Maybe bagged milk? Partner with Loop?	11/15/2023 7:05 PM
198	we would still have weekly pickup of green boxes how will that save money when that is done now with only two bins the green box would make it three boxes on the alternate weeks; fill up more trucks	11/15/2023 7:02 PM
199	Need every week	11/15/2023 6:53 PM
200	We more than fill one cart a week	11/15/2023 5:53 PM
201	Sometimes it would be too full, but most of the time it would not be a problem.	11/15/2023 5:53 PM
202	Again how would this impact cost I would not pay the same rate for less pick up	11/15/2023 5:28 PM
203	Worried about tax dollars being paid now services cut in half	11/15/2023 5:28 PM
204	I generally only put out my blue bin every 2 weeks because I don't fill it in one week.	11/15/2023 4:58 PM
205	People will dump items anywhere illegally	11/15/2023 4:57 PM
206	The majority of what I get rid of is recycling. I could scrape by with garbage every two weeks, but I definitely couldn't with recycling.	11/15/2023 4:55 PM
207	Civilized societies pick up garbage - weekly. Some places -twice per week.	11/15/2023 4:31 PM
208	Does it even get recycled or is it getting pawned off to other countries	11/15/2023 4:04 PM
209	I am concerned about the bums who come to our neighbourhood carts every week and spread garbage everywhere. I have two bins because my house used to be a duplex, but if I didn't I would be concerned I didn't have space in my carts.	11/15/2023 3:29 PM
210	I'm concerned with garbage being blown around neighbourhoods due to overflowing bins.	11/15/2023 3:17 PM
211	Again, what do you think would happen in the north end where most people just use their recycling bins for garbage? It would be a major issue	11/15/2023 3:09 PM
212	I would be concerned if other people started using my cart because their carts are overflowing, leaving me with no room for my waste or recycling.	11/15/2023 3:00 PM
213	I could manage with every two weeks for collection. My bin would be full but clean	11/15/2023 2:45 PM
214	This even [redacted]	11/15/2023 2:27 PM
215	People frequently go through carts to get cans and other metals. I'm concerned if left 2 weeks there would be way more to pick up when they dump it	11/15/2023 1:52 PM
216	I would not be able to get rid of my recycling every two weeks	11/15/2023 1:48 PM
217	I would have no room in my cart after a week of putting garbage in it. Its already overflowing after one week	11/15/2023 1:32 PM
218	We recycle everything we can. We even paid for the bigger bin. Waiting two weeks would cause the bin to be full/overflowing	11/15/2023 1:15 PM
219	Currently my blue cart is overflowing and at times I am ashamed to say i put it in a bag in the black cart.	11/15/2023 1:01 PM
220	Some weeks my recycle bin is full, other times i can go 2 weeks.	11/15/2023 12:59 PM
221	Cottager - away frequently and would miss day	11/15/2023 12:50 PM
222	Same problem as garbage!	11/15/2023 12:45 PM
223	At times like Christmas this would be difficult	11/15/2023 12:43 PM
224	I put my bin out about 3 times a year. What goes in it is clean and kept dry. I'm not a big consumer of the crap that goes in the bin.	11/15/2023 12:36 PM
225	We upgraded to the large bin and it's always full	11/15/2023 12:35 PM

226	There are periods where I may have more recycling, for example if I'm decluttering.	11/15/2023 12:32 PM
227	Same answer as garbage	11/15/2023 12:26 PM
228	once full, everything would just go the trash.	11/15/2023 12:02 PM
229	I think this would work for my household	11/15/2023 11:56 AM
230	My recycling cart is full every week	11/15/2023 11:47 AM
231	I am concerned with missing a pickup whenever the recycling truck driver ignores my cart and just drives right on by. This has happened on multiple occasions. Typically I just bring the unemptied cart back into the garage, wait until the following week, and then put it back out on the curb again. But if recycling pickup was changed to only be collected every 2 weeks, and the driver skips my house, that would be 4 weeks between pickups. That won't work for me. I can't imagine that would work for anyone.	11/15/2023 10:57 AM
232	this question depends on time of year and seasons	11/15/2023 10:48 AM
233	My cart is full with recycling every week, if that cart becomes full due to a 2 week pickup I will just put other recycling into the gargabe bin.	11/15/2023 10:35 AM
234	We don't really recycle in this City. We just relocate the recycling	11/15/2023 10:34 AM
235	The problem is people going thru carts and throwing on ground . If we recycle like other provinces and got a levy back you wouldn't see garbage thrown everywhere. Winnipeg is so behind the times except with have largest urban reserve the whole city	11/15/2023 10:03 AM
236	Would require time for breakdown of cardboard boxes to fit	11/15/2023 9:58 AM
237	Our recycling bin is usually full to overflowing at the end of each week	11/15/2023 9:56 AM
238	Our recycle bin is full every week. We could not manage every 2 week recycle pickup	11/15/2023 9:42 AM
239	I have FREE options to take recycling elsewhere if need be. 4R depots	11/15/2023 9:28 AM
240	If this were to change I would vote to change the mayor and councillors next time an election is called.	11/15/2023 9:25 AM
241	We currently only put it out once every 2 weeks as we don't buy a lot of processed items	11/15/2023 9:21 AM
242	Same reasons as previously stated.	11/15/2023 9:03 AM
243	We are a large family and recycle religiously so this would be a non starter for us	11/15/2023 8:57 AM
244	Look two week pick up is just [redacted] there will containers all over the the back lanes and streets because people will not have enough room, bins will be overflowing and the streets will be littered with containers because people just want to have their junk hauled away.	11/15/2023 8:50 AM
245	I would recommend recycling pick up twice a week.	11/15/2023 8:45 AM
246	my blue cart is full every week, 2 week pick-up isn't feasible	11/15/2023 8:31 AM
247	I have a large recycling bin and it usually is put out twice a month. Only during the Christmas season is when it has to be out out weekly.	11/15/2023 8:16 AM
248	Again, the current cart size was selected based on 1 week pickup not 2 weeks. These cats are woefully undersized for families for 2 weeks	11/15/2023 8:09 AM
249	2 week pickups allows homeless more time to dump everything out and make a mess everywhere.	11/15/2023 8:05 AM
250	We already only put the recycle cart out when it is full.	11/15/2023 7:58 AM
251	I am worried that a move to every 2 weeks will cause people to dump recycling onto the streets and alleyways if the capacity is exceeded. This is already happening with weekly pickup.	11/15/2023 7:49 AM
252	i use the local recycle drop off when i have extra	11/15/2023 7:44 AM
253	absolutely unacceptable, my recycling is full after 1 week	11/15/2023 7:09 AM
254	Extra recycling would end up in the garbage	11/15/2023 7:07 AM

255	5 people in the house. We recycle everything we can.	11/15/2023 7:05 AM
256	Downtown would become worse bad idea	11/15/2023 6:34 AM
257	My recycling is full every week. Don't switch to every two weeks.	11/15/2023 6:33 AM
258	as far as #9 goes plastics that cant go in the bin-ending up with too many of them	11/15/2023 6:32 AM
259	Blue bags/bins need to be collected weekly and then residents would actually use them. Using the blue bins properly makes way less garbage.	11/15/2023 6:30 AM
260	In Ottawa it rotates every two weeks between paper/cardboard, metals and glass which cuts down on overflow.	11/15/2023 6:10 AM
261	Most homes here are full every week. Ridiculous idea!	11/15/2023 6:09 AM
262	My recycle is overflowing with once a week pick ups already	11/15/2023 6:03 AM
263	Give me a break, NO.	11/15/2023 5:53 AM
264	Both bins are full every week. Put this survey on the next re-election. I wound NEVER have voted for Scott Gillingham or requested his sign!!!	11/15/2023 5:08 AM
265	My recycling is already too full after a week, I could wait 2 weeks for garbage BUT NOT RECYCLING!	11/15/2023 3:52 AM
266	I strongly do not want a decline in recycling or garbage pickup	11/15/2023 2:49 AM
267	Live in an apartment with 30 units and 3 blue recycling bins which are always full and your lucky if you can get your stuff in. Usually I have to throw it in our big BFI bin instead.	11/15/2023 2:17 AM
268	The north end would be a disaster	11/15/2023 1:04 AM
269	Fly's	11/15/2023 12:10 AM
270	The recycling sites are always full when i try to put my extra items. If i dont have enough space i throw it out	11/14/2023 11:28 PM
271	My recycling is typically full weekly whilst my garbage is only 1/3 full. Biweekly pickup would drastically affect my recycling more than garbage	11/14/2023 11:11 PM
272	The other bins in the ate would overflow ad there would be garbage in the lane and a big mess	11/14/2023 11:07 PM
273	I'm concerned with people going through my recycling looking for things to take out	11/14/2023 11:03 PM
274	There's a lot of paper products, recycling every week, garbage and compost should be every other week.	11/14/2023 10:46 PM
275	Blue box might be full in two weeks occasionally but I would manage or hold back	11/14/2023 10:29 PM
276	I would likely not recycle and just take the excess recyclables to a dumpster and treat them as garbage. This would set the City back decades and be very detrimental to the environment.	11/14/2023 10:21 PM
277	The downtown and inner city are full of garbage already. With pickup every two weeks bins will be tipped over, the messes will sit and basically an already bad problem will be twice as bad. Solutions that work for the suburbs do not work for the downtown and inner city. The population is more dense and there is a lot more garbage. People have less access to cars and there is a population of the unhoused that leave massive volumes of garbage all over boulevards, parks, riverbanks and vacant lots. The downtown and inner city look like garbage dumps already. This will make it worse.	11/14/2023 10:18 PM
278	As unacceptable as bi-weekly garbage pickup. People in this city have proven time and time again that they are pigs and trash would be everywhere.	11/14/2023 10:10 PM
279	We subscribe to a local business that collects non traditional recyclable materials, foil bags, plastic wrappers, et cetera. We will essentially only recycle cardboard, paper	11/14/2023 10:09 PM
280	Just don't [redacted] change a thing.	11/14/2023 10:03 PM
281	Issue: carts are stolen or go missing. There was no spot to put this in the barrier question.	11/14/2023 9:57 PM
282	People will dig through it for beer cans and make a mess	11/14/2023 9:49 PM

283	No compost and no 2 week pick up !!	11/14/2023 9:48 PM
284	in the summer it would make the cart sticky and smelly from the pop cans and other cans in the bin	11/14/2023 9:43 PM
285	Our cart is full to the top weekly	11/14/2023 9:16 PM
286	Not concerned because we can always use the 4T bins if necessary	11/14/2023 9:13 PM
287	No.	11/14/2023 8:40 PM
288	It varies but would be ok with this	11/14/2023 8:14 PM
289	I would need to upgrade to the larger bin	11/14/2023 8:06 PM
290	I like the idea but more information is required for me to make an informed decision	11/14/2023 7:52 PM
291	Mine is full every week! Would not like this at all	11/14/2023 7:38 PM
292	They should pick up the yard waste every week also.	11/14/2023 7:36 PM
293	I'd need a bigger bin	11/14/2023 7:32 PM
294	My recycling is frequently more full than my garbage. Sometimes needing trips to 4r depots in between pickups. 2 weeks = bad.	11/14/2023 7:32 PM
295	Once or twice a year we have a lot of cardboard. EG the boxes from a gazebo.	11/14/2023 7:26 PM
296	Weekly pick up is necessary to keep yards clean and plastics from blowing around and recyclables maintain weekly	11/14/2023 7:21 PM
297	Condo	11/14/2023 7:00 PM
298	Another [redacted] idea	11/14/2023 6:52 PM
299	If the recycle carts were bigger pick up every 2 weeks would not be a problem	11/14/2023 6:05 PM
300	I'd spend a bit more time flattening boxes.	11/14/2023 6:04 PM
301	Collecting recycling bins every two weeks would be a horrible idea, my bins are full after one week.	11/14/2023 6:00 PM
302	Recycled waste will just pileup if not given extra bins	11/14/2023 5:41 PM
303	Even with rinsing things out there is still a smell with somethings	11/14/2023 5:15 PM
304	Looool bins are full now, 2 weeks will make me come my bins at city hall. You ppl and your incompetence will frig this up.	11/14/2023 5:09 PM
305	It's full almost every week now and there is only 2 adults using it	11/14/2023 5:06 PM
306	I have 2 blue bins to fill	11/14/2023 5:00 PM
307	Remember this proposed program is not designed to save money it is designed to save the environment.program	11/14/2023 4:21 PM
308	People throwing recycling all over backlanes everywhere	11/14/2023 4:05 PM
309	We already have a back-log of recycling that sits in our doorway waiting for next week...	11/14/2023 4:03 PM
310	50 pounds of dog feces in two weeks creating a smell and	11/14/2023 3:53 PM
311	Same as befotr	11/14/2023 3:48 PM
312	every 8 weeks would be fine	11/14/2023 3:36 PM
313	Disaster. Don't do this. It will lead to people littering when the boxes are full. I'll need garbage collection once a week. I will dump my extra bags at city hall if you don't pick up.	11/14/2023 3:09 PM
314	I drink a ton of beers and the bin fills up in a couple days	11/14/2023 2:49 PM
315	Same reasons as I indicated for the garbage bins.	11/14/2023 2:16 PM
316	Our recycling cart is full 95% of the time. Weekly pickup is important	11/14/2023 1:55 PM

317	concerned over christmas/birthday due to excess recycling	11/14/2023 1:54 PM
318	I would recycle everything I could! Let's make bottle depots a thing, too!	11/14/2023 1:47 PM
319	It depends. Most times my cart is pretty full but two weeks might be okay	11/14/2023 1:43 PM
320	my recycling bin is full each week -where would I store recycle material between bi-weekly pickups	11/14/2023 1:40 PM
321	I think for recycling this would be ok.	11/14/2023 1:16 PM
322	We have problems with mice and overflowing garbages already. People dump extra garbage on various places, they do not take to the dump or dispose of properly. Ferrier road is a dumping ground for this already. It will be awful if people have to go 2 weeks	11/14/2023 1:13 PM
323	The city would be smelly and streets/backlanes would be disgusting	11/14/2023 1:03 PM
324	Recycling is better than garbage for smell/ attractants to pests but when you need, you need weekly. I don't have to put out each week if not needed (which speeds up pickups) but that doesn't mean the neighbours don't.	11/14/2023 12:53 PM
325	Spring Cleaning, Post Christmas weeks would be very challenging	11/14/2023 12:50 PM
326	Most items are bulky and difficult to break down. Would like to see bigger recycling bins or the option to leave empty cardboard boxes beside the bin.	11/14/2023 12:28 PM
327	I could get a bigger recycling cart I guess? My family tries to only buy items you can recycle.	11/14/2023 12:14 PM
328	Are you deliberately trying to Make the city and back lanes a dumping ground for waste???	11/14/2023 12:04 PM
329	there could be weeks when the recycling cart in full in 1 week	11/14/2023 12:00 PM
330	Require weekly	11/14/2023 11:41 AM
331	I would have no concerns with this. I could set recycling aside for next pickup if bin was full.	11/14/2023 11:11 AM
332	Some weeks, we would overflow the cart, some not. Would rather have weekly recycling	11/14/2023 10:51 AM
333	Exisiting cart is too small for 2 week usage.	11/14/2023 10:39 AM
334	Full or overflowing are 2 different things and should be separated for this question.	11/14/2023 10:39 AM
335	8	11/14/2023 10:38 AM
336	I have lived in cities with two-week pickups. It's fine.	11/14/2023 10:28 AM
337	Not often enough. Need weekly. Some of my neighbors don't tho.	11/14/2023 10:13 AM
338	People's carts would be overflowing, and wind would spread that all over the neighbourhood and my yard.	11/14/2023 9:54 AM
339	Again overflowing carts means garbage in the streets of Winnipeg where at city hall can I leave my extRa garbage ?for what I pay in taxes I should.receive weekly pick up	11/14/2023 9:03 AM
340	If there was a place to bring large cardboards my recycling would be okay.	11/14/2023 9:01 AM
341	Amount of recycling varies week to week. If pickup went to every 2 weeks I would suggest some guidance such as put cans and plastics in bin first, pile cardboard items for room at end. Cut cardboard into smaller pieces. I cut up larger cardboard into smaller pieces and it is amazing how much you can fit in	11/14/2023 9:00 AM
342	Depends on the week, sometimes it would be overflowing but other times there are very little. So on average, minimal impact.	11/14/2023 8:57 AM
343	My recycling cart is 3/4 full every week already. As long as I have children living at home, we generate a lot of recycling. "Every other week" doesn't work for every household.	11/14/2023 8:51 AM
344	Would likely end up place recycling in regular garbage bin	11/14/2023 8:47 AM
345	I work out of town for 3 weeks and only am back for 1 week so when the days don't line up I'm screwed for a month	11/14/2023 8:30 AM
346	We have several blue carts at our apartment and they are always overflowing weekly	11/14/2023 8:21 AM

347	There are many weeks where my cart is full and I have to keep until the next week	11/14/2023 8:18 AM
348	I'm over flowing at weekly, I definitely would need an alternate method of disposal if only weekly pickup	11/14/2023 8:18 AM
349	Again, we typically put recycling out every 2 weeks	11/14/2023 8:16 AM
350	Repetitive question see other comments	11/14/2023 8:14 AM
351	We fill our recycling more than garbage honestly	11/14/2023 7:59 AM
352	Terrible idea its full every week	11/14/2023 7:55 AM
353	People come through the back lane and dig through the garbage and recycling, sometimes moving it between garbage and recycling or throwing it on the ground.	11/14/2023 7:48 AM
354	Our recycling bin is slways full .Families have more they single or just couples.	11/14/2023 6:53 AM
355	our blue box is often full in one week!	11/14/2023 6:25 AM
356	Why with the constant efforts to reduce our services? We pay enough taxes to warrant BETTER service, not less.	11/14/2023 1:41 AM
357	Family of 6. Recycling is full every week and we also do many trips to Waverley if we have large boxes etc	11/14/2023 12:57 AM
358	Homeless people will have it all over the ground, they get into these bins even if left in our yards.	11/13/2023 11:43 PM
359	I would just save extra recycling in the garage or drop it off	11/13/2023 11:05 PM
360	We receive medical supplies in boxes that I recycle weekly. We need weekly pick up.	11/13/2023 10:43 PM
361	It would occasionally be an issue when cleaning out files etc	11/13/2023 10:37 PM
362	Full, not overflowing	11/13/2023 10:33 PM
363	I would definitely like to try it. Are compost pick ups every second week or weekly?	11/13/2023 10:04 PM
364	AGAIN, this would be HORRIBLE! Definitely would stink...stuff would be overflowing, the list goes on! Who's [redacted] idea is this???!	11/13/2023 9:57 PM
365	$96 annual fee for residents Disappointed in our city	11/13/2023 9:47 PM
366	I would have a lot of recycling. That being said, many cities have moved to recycling and compost WEEKLY, with garbage every 2 weeks.	11/13/2023 9:43 PM
367	We recycle a lot because our garbage with a family of 4 is always full.	11/13/2023 9:20 PM
368	Don't change was is not broken you idiot	11/13/2023 9:06 PM
369	[redacted] idea	11/13/2023 9:00 PM
370	Be the leader. Dont follow other cities. Be your own leaders and make your own initiatives. Dont be cheap on keeping our City clean. Set an example make people follow our city. This is common sense.	11/13/2023 8:46 PM
371	Horrible idea!	11/13/2023 8:46 PM
372	Recycling will end up in the garbage	11/13/2023 8:41 PM
373	We get our groceries delivered from superstore, who uses cardboard boxes. If they would be made to swap to reusable boxes, we wouldn't have an issue with recycling every two weeks.	11/13/2023 7:43 PM
374	This wouldn't be an issue	11/13/2023 7:20 PM
375	I already answered this	11/13/2023 7:03 PM
376	People will start dumping just wherever even more than now	11/13/2023 6:54 PM
377	I would require 2 blue carts if this was the case	11/13/2023 6:46 PM
378	My recycling bin is pretty full every week	11/13/2023 6:45 PM

379	Don't recycle its all trash	11/13/2023 6:28 PM
380	More violence because homeless pick in the junk ,and more arson problems with added junk build up.	11/13/2023 6:26 PM
381	[redacted] idea.	11/13/2023 6:03 PM
382	My bins are over flowing every week never mind every 2 weeks	11/13/2023 5:57 PM
383	My blue cart is full every single week	11/13/2023 5:48 PM
384	I would be forced to mix garbage and recycling to where ever i have space	11/13/2023 5:36 PM
385	Hard enough for people on EIA to manage to keep it clean and picked up once a week nevermind how the backlanes in the Westend will look if it's every 2 weeks. Horrible idea.	11/13/2023 5:22 PM
386	My cart isn't big enough as it is. We are a family of six...while other 2 occupant homes have the same size bin.	11/13/2023 5:09 PM
387	Not in use!	11/13/2023 5:03 PM
388	Cardboard medical supply boxes full blue box every week	11/13/2023 5:01 PM
389	This would be great	11/13/2023 4:46 PM
390	I could live with garbage pick up every 2 weeks but need weekly recycling pick up	11/13/2023 4:38 PM
391	bin is usually full in one week	11/13/2023 4:34 PM
392	It would vary with holidays celebrations	11/13/2023 4:17 PM
393	WANT WEEKLY GARBAGE PICKUP to remain. Feel that bi-weekly garbage pickup wil lead to a messier city as garbages wil be overflowed and leaving messes everywhere. Do now want to promote wild animals to come inot the city to find food and cause issues. This includes coyotes, raccoons, that rip open bags and leave messy garbage dumps	11/13/2023 4:16 PM
394	I currently only put recycle cart out for pickup if it is full, often missing 2 or 3 weeks.	11/13/2023 4:05 PM
395	Only on holidays would our recycling be very full	11/13/2023 3:53 PM
396	It might be an issue occasionally but would be worth it to get curbside compost	11/13/2023 3:34 PM
397	Again, depends on the week. Sometimes I go 3 weeks without a pick up. If we have lots of company it can be overflowing after a week.	11/13/2023 3:24 PM
398	It would be a big issue. Older properties were not designed for multiple recycle bins.	11/13/2023 3:20 PM
399	I put my cart out every 3 weeks so I don’t waste the collectors time.	11/13/2023 3:17 PM
400	weekly=good, two weekly=BAD	11/13/2023 3:14 PM
401	Want it every week	11/13/2023 3:13 PM
402	This is a ridiculous proposal. If the city attempts to reduce service, they better also reduce cost. But you are going to create far more problems than you will solve.	11/13/2023 3:10 PM
403	If there was a bottle return depot like most other major cities where we could recover our deposits, I wouldn't have to fill my recycle bin as much as I currently do	11/13/2023 3:00 PM
404	Would need to have the larger blue bin if collected every 2 weeks.	11/13/2023 2:59 PM
405	My cart 8s full every week stop trying to reduce services	11/13/2023 2:58 PM
406	I currently place my bins out every 1-2 weeks already..	11/13/2023 2:48 PM
407	Occasionally my recycling cart would be full before two weeks, but it would balance out.	11/13/2023 2:31 PM
408	Would the items freeze over 2 weeks in Winnipeg winters. How would the trucks empty the bins?	11/13/2023 2:31 PM
409	Our recycling is already over full most weeks. Pick up every two weeks would be unacceptable.	11/13/2023 2:25 PM
410	I would send excess to a depot if it saved costs or added a benefit	11/13/2023 1:53 PM

411	I'm angry that the recycing depot was removed from my aread and it is now a two hour trip to deal with recycling	11/13/2023 1:47 PM
412	I am concerned that the money saved by the city with 2 week pick-up will be spent elsewhere. It should applied to a reduction in collection fees.	11/13/2023 1:46 PM
413	it wouldnt impact me, i use the recycling dumpster when mine is full	11/13/2023 1:45 PM
414	My cart might be full, but I don't mind storing recyclables for a week.	11/13/2023 1:42 PM
415	Can we do recycling every week and alternate garbage and compost? Or get a second blue bin to accommodate?	11/13/2023 1:33 PM
416	My recycling bin is already too small with increase use of cardboard from deliveries or in store shopping the bins should be larger as it is hard to fit some times items	11/13/2023 1:31 PM
417	not acceptable	11/13/2023 1:30 PM
418	It might be OK, I would just have to be more diligent about smashing cans, folding cardboard, smashing milk cartons, etc. People will need to be reminded to do this.	11/13/2023 1:30 PM
419	Against 2 week collection	11/13/2023 1:17 PM
420	Garbage will be thrown on the streets.	11/13/2023 1:16 PM
421	the amount of my recycling is consistent sometimes a lot sometimes half of the bin	11/13/2023 1:14 PM
422	I have 2 blue bins to compensate for the amount we recycle	11/13/2023 1:04 PM
423	again bi weekly Nov-April, weekly May-Oct	11/13/2023 1:03 PM
424	We already only put it out every two weeks. Only time that's different is after Christmas	11/13/2023 1:00 PM
425	my recycling cart would be full or overflowing every so often	11/13/2023 12:53 PM
426	Why would you cut back if you're trying to sell us on a new service?	11/13/2023 12:50 PM
427	I m a single householder. I don't collect many recicling	11/13/2023 12:50 PM
428	Sometimes, recycle bin fills due to special occasions, such as packaging of large items.	11/13/2023 12:44 PM
429	if recycling bin is full the surplus goes into garbage bin	11/13/2023 12:38 PM
430	I would need a larger recycling bin	11/13/2023 12:32 PM
431	Recycling is full every week	11/13/2023 12:32 PM
432	I want recycling to be a regular habit for all	11/13/2023 12:28 PM
433	I would wait until the following collection date when there was more room in my cart	11/13/2023 12:24 PM
434	My blue bin is more full than regular garbage. I also aim to buy products that have recyclable packaging and pay a bit more if needed	11/13/2023 12:17 PM
435	Again the city here you don't have the finest and the brightest you will complicate things my taxes pay for a pickup once a week. You should be doing your jobs. The composting idea is complete garbage and that is a left-wing hug a thug idea that will not work it will turn our city into a dirty filthy cesspool that it is already.	11/13/2023 12:12 PM
436	Certain holidays generate lots of paper/cardboard waste and that'd certainly put a strain on biweekly pickup.	11/13/2023 12:07 PM
437	I always have more recycling then garbage	11/13/2023 12:06 PM
438	Usually it wouldn't be an issue. If I have extra cardboard or paper recycling I go to the Pan Am depot	11/13/2023 12:05 PM
439	My bin is full every single week	11/13/2023 11:57 AM
440	Overflowing in neighbourhood rooming houses	11/13/2023 11:55 AM
441	Sometimes we do weekly and sometimes we do every second week, depending how much is in the bin.	11/13/2023 11:55 AM

442	Recycling sometimes is full, but I'm not sure. I'd have to test it out and see.	11/13/2023 11:54 AM
443	Sometimes we currently have more than the cart can handle, but we use the drop off. I think every 2 weeks would be doable.	11/13/2023 11:49 AM
444	Im not another City . I pay enough taxes in my City	11/13/2023 11:48 AM
445	Increase to weekly for weeks following christmas	11/13/2023 11:47 AM
446	Provide second recycling bin if pick up every 2 weeks	11/13/2023 11:41 AM
447	I receive a huge amount of cardboard from online deliveries	11/13/2023 11:39 AM
448	As it is, my recycling cart tends to be full of cardboard and canned goods on a weekly basis for a household of 5 with 3 pets. I do have a 4R depot near me and have taken excess there before.	11/13/2023 11:34 AM
449	I only put my cart and garbage bins out every 2 or 3 weeks,	11/13/2023 11:32 AM
450	If you pick up recycling every two weeks any extra recycling will likely end up in the garbage bin	11/13/2023 11:27 AM
451	Family of 5 fills up the blue bin in 1 week	11/13/2023 11:24 AM
452	My recycling is full after 1 week	11/13/2023 11:21 AM
453	Even now we only put our recycling bin out when it is full, once every 2 - 3 weeks.Comment for question 9: sometimes question time and effort spent to clean items for recycling, such as a peanut butter jar. Also, hoping the end result is worth the time, effort, and cost, (eg water used to rinse items for recycling).	11/13/2023 11:16 AM
454	bad idea all around	11/13/2023 11:13 AM
455	My recycling fluctuates a lot so sometimes it might be over filled.	11/13/2023 11:08 AM
456	A larger recycling cart would likely help with 2 week storage	11/13/2023 11:06 AM
457	You want us to recycle then pick it up	11/13/2023 11:05 AM
458	I cannot afford to buy a larger recycling bin.	11/13/2023 11:04 AM
459	Sometimes full in a week	11/13/2023 11:04 AM
460	It might be too full after 2 weeks on occasion.	11/13/2023 11:04 AM
461	Every two weeks would work	11/13/2023 11:01 AM
462	On finirait par jeter aux ordures des objets recyclables.	11/13/2023 11:01 AM
463	We go to/from cottage frequently since we are retired and would be an issue as we'd miss garbage collection days if scattered. Difficult to maintain our schedule since we are half time Winnipeg and other time cottage.	11/13/2023 11:00 AM
464	This is a terrible idea.	11/13/2023 10:59 AM
465	Too early to tell...	11/13/2023 10:59 AM
466	if switching to 2 weeks, offer an additional p/u after xmas, thanksgiving	11/13/2023 10:54 AM
467	we are taxed enough don't need to add more cost	11/13/2023 10:54 AM
468	I would be angry at the reduction of service for paying the same taxes.	11/13/2023 10:54 AM
469	Fill mine every week	11/13/2023 10:50 AM
470	Overflow will blow all over the neighborhood	11/13/2023 10:46 AM
471	Recycling consistently full each week.	11/13/2023 10:46 AM
472	Neighbour uses my bin when his is full	11/13/2023 10:45 AM
473	We do have a 4R close by so we would bring there the extra	11/13/2023 10:35 AM
474	It would result in more recycleables going into the garbage	11/13/2023 10:31 AM

475	Not a problem, as I can store excess paper/cardboard recycling easily if needed	11/13/2023 10:23 AM
476	There would be a issue, as ours would overflow for sure	11/13/2023 10:23 AM
477	This is just ridiculous	11/13/2023 10:18 AM
478	I	11/13/2023 10:18 AM
479	Worst idea ever	11/13/2023 10:10 AM
480	My recycling is almost always totally full. If recycling pickup was less often, I'd end up throwing more recyclables in the garbage.	11/13/2023 10:08 AM
481	I already put the recycling cart out every other week. It's clean and doesn't stink or attract pests.	11/13/2023 10:03 AM
482	Mo I	11/13/2023 10:01 AM
483	My cart may be full in 2 weeks	11/13/2023 10:00 AM
484	homeless people	11/13/2023 9:59 AM
485	It is sometimes full in a week	11/13/2023 9:59 AM
486	The Current Weekly Pickup is working. Don't screw it up and piss off Taxpayers/Voters.	11/13/2023 9:54 AM
487	Recycling needs to be every week	11/13/2023 9:53 AM
488	weekly is the best	11/13/2023 9:52 AM
489	My cart would be full but it's fine if there will be a compost program brought in, we can always bring extras onto the depot nearby.	11/13/2023 9:50 AM
490	Our would get full. Not every week but often enough. I think it's worth it though	11/13/2023 9:50 AM
491	two weeks is NOT an acceptable timeframe; too much waste, too few pick-ups = big problems in our back lanes, tempting fire-bugs and laneway pollution	11/13/2023 9:47 AM
492	Because my lid was proped open 2" and they leave it and I have recycling products sitting in the lane piled	11/13/2023 9:47 AM
493	Times like Christmas would be more challenging	11/13/2023 9:38 AM
494	Our recycling is always nearly full every week.	11/13/2023 9:35 AM
495	Again bi-weekly collection would be a huge mistake in this city - just wrong	11/13/2023 9:30 AM
496	Sometimes it might not be often enough but sometimes it would be fine.	11/13/2023 9:28 AM
497	As I just said, it wouldn't affect me because the driver won't pick up, so I use a recycling center	11/13/2023 9:25 AM
498	Sometimes the cart is not emptied	11/13/2023 9:24 AM
499	I would be concerned that once the recycling cart is full, recycling will just end up in the garbage	11/13/2023 9:19 AM
500	My recycling cart is usually more full than garbage cart.	11/13/2023 9:19 AM
501	a family of 7 we just wouldn't have the capacity	11/13/2023 9:18 AM
502	I pick up recylables dumped by others on boulevards and this wold be affected by tw week pick up	11/13/2023 9:16 AM
503	Large boxes take up a lot of room. On those weeks the bin would be overflowing	11/13/2023 9:15 AM
504	This would no impact me personally but would cause my neighbourhood to be even more of a mess than it already is.	11/13/2023 9:15 AM
505	Use our property taxes to fund essential services like this! Don't cut back. This is ridiculous.	11/13/2023 9:14 AM
506	Arson is a problem in this part of the city, there is a risk of cart fires	11/13/2023 9:14 AM
507	fillup properlly	11/13/2023 9:06 AM

508	My recycling bin is often full to overflowing after one week	11/13/2023 9:05 AM
509	Do not change and no green carts !	11/13/2023 8:59 AM
510	Clean, dry recyclables are less of an issue if collected less frequently	11/13/2023 8:58 AM
511	usually I don't have a lot of recycling but if there was something big, I could take it to a recycling depot - so not a problem.	11/13/2023 8:58 AM
512	Leaving recycling every week but collecting garbage every other week would encourage people to use recycling more	11/13/2023 8:57 AM
513	The cart may be full sometimes but we could be happy manage this if it is part of an improved waste management plan here in Wpg	11/13/2023 8:56 AM
514	We divert lots to recycling when we can and recycling is 95% full every week.	11/13/2023 8:56 AM
515	Each week, I can barely fit my recylcing into the bin and its aready a pain to make it fit.	11/13/2023 8:55 AM
516	Sometimes it would be full,& others not.	11/13/2023 8:53 AM
517	Someone stole one of the bins my city councillor helped get us so now we don't have enough space and can't get a replacement bin.	11/13/2023 8:53 AM
518	Sometimes it is over full.	11/13/2023 8:49 AM
519	Please read options written about this same question for garbage	11/13/2023 8:45 AM
520	Stop trying to make cuts where it negatively impacts us.	11/13/2023 8:45 AM
521	With the amount we can recycle there is not alot of waste unless you purchase something with cardboard. We don't drink pop so no cans or bottles from us	11/13/2023 8:45 AM
522	It ain't broken so don't change it to offset costs of green waste pickup. And if folks want green waste pickup they can opt in to pay for it. Also an it out option for those who will not use it.	11/13/2023 8:44 AM
523	My large cart overflows after one week.	11/13/2023 8:39 AM
524	I have paid for the larger recycle bin to avoid this problem.	11/13/2023 8:36 AM
525	Recycling bin is always more full than garbage	11/13/2023 8:32 AM
526	Can use community recycling if required	11/13/2023 8:23 AM
527	Would require the larger sized residential recycling bin	11/13/2023 8:21 AM
528	A lot of recycling would end up in the garbage bin. This would not work. Other cities that do this probably have a lot of recycling material end up in the garbage.	11/13/2023 8:18 AM
529	This would be better then garbage every 2 weeks	11/13/2023 8:17 AM
530	I would sometimes have to really squish my recycling in but it wouldn't be a problem	11/13/2023 8:09 AM
531	increase illegal dumping	11/13/2023 8:05 AM
532	Weekly pick ups are the only option	11/13/2023 8:05 AM
533	Taxes are too high now, object to further cutting of services	11/13/2023 8:04 AM
534	We have so much recycling. Every time we go to Costco or superstore we end up with a bin full of cardboard. We already upgraded to the larger bins. There's no way we could get by lasting two weeks between pickups. If we ever missed a collection day, we'd never catch up.	11/13/2023 7:54 AM
535	Cities that do this add a recycling day during Christmas to help with busy times	11/13/2023 7:51 AM
536	Might be overflowing but I think I'd survive.	11/13/2023 7:50 AM
537	There may be weeks when my recycling would be full	11/13/2023 7:25 AM
538	Cart is filled each week. More recycling than trash in our house.	11/13/2023 7:19 AM
539	Sometimes my cart could be full. I'd manage.	11/13/2023 7:09 AM
540	I would put my excess recycling in garbage	11/13/2023 7:05 AM

541	There would be times of the year when my recycling cart would be full or overflowing in two weeks but I would be willing to make it work if it meant that a two-week cycle included pickup of household waste.	11/13/2023 7:01 AM
542	Simply not possible for our family and we already have the extra large bins - both garbage and recycling are filled weekly	11/13/2023 6:42 AM
543	It's already collected this way	11/13/2023 6:39 AM
544	My cart is regularly full ever week.	11/13/2023 6:26 AM
545	My bin is already not big enough as most of my waste is recyclable or organic waste	11/13/2023 6:26 AM
546	We get grocery delivery weekly from superstore and our groceries are delivered in large cardboard boxes from the store. With those, our recycling box fills and we need to use our neighbour's blue bin for overflow.	11/13/2023 6:21 AM
547	Great idea.	11/13/2023 6:16 AM
548	full every week at my house	11/13/2023 6:04 AM
549	My recycling cart is beyond full every week. 2weeks would never work	11/13/2023 5:52 AM
550	Home compost keeps our garbage down but recycling is still large volume	11/13/2023 5:39 AM
551	Alternate weeks for paper and glass/metal	11/12/2023 10:34 PM
552	The only time this would be an issue is over the holidays when neighbors regularly use our bins because theirs are full and we generally have more waste at that time	11/12/2023 6:45 PM
553	Put recycling in the garbage if no room or out it other places making Winnipeg dirty my carts are both full each wk	11/12/2023 1:35 PM
554	Cart would be overfull sometimes	11/12/2023 8:46 AM
555	Would have to upgrade cart size as our family of 6 regularly fills the standard cart every week.	11/12/2023 12:15 AM
556	Just because it is recycleable, doesn't mean it is healthy to keep recycling around. If you have ever entered the home of someone with a hoarding disorder, you'd know this.	11/11/2023 6:40 PM
557	My family of 4 NEVER fill our recycling bin in a 1-week collection; 2-weeks would be ideal	11/11/2023 8:54 AM
558	Cart would likely be full, but not overflowing	11/11/2023 7:18 AM
559	I have lived in multi-unit buildings for the last number of years and recyling bins ALWAYS fill up, especially with the volume of mail deliveries people get nowadays, the volume of cardboard is very high. We really need to have specific bins for carboard made readily available. Honestly, penalties (a fee or refusal to empty the bin until rectified) for those who don't flatpack the boxes should be utilized to have some type of enforcement occur with that practice.	11/10/2023 11:41 AM
560	We're in a condo and our blue bins are jam packed every week.	11/10/2023 11:17 AM
561	i jad annissue with my neighbor putting their recycling in my blue cart, not a good move.	11/10/2023 6:35 AM
562	Some weeks we have minimal recycling, some weeks we have more. So we would be between not full and full if done every 2 weeks.	11/9/2023 11:04 PM
563	I always have a full recycling bin. It would end up in the garbage if it was every two weeks.	11/9/2023 12:59 PM
564	We typically only put our recycling out every two weeks as it is. Same with garbage except for the summertime.	11/9/2023 8:56 AM
565	Our recycling cart is generally mor full than our garbage.	11/9/2023 8:05 AM
566	Downtown core is prone to arson. I fear there might be a rise in arson due to more paper waste accumulating if picked up every 2 weeks.	11/8/2023 10:55 PM
567	bad idea would each house be given another free blue bin and regular bin? would this be an overtime problem ?would trucks have to come by twice	11/8/2023 10:14 PM
568	My cart is not often full, but, due to my disability, if it were full, I would have a difficult time using the cart.	11/8/2023 9:20 PM

569	Recycling bin is full every week	11/8/2023 5:01 PM
570	It would effect me occasionally.	11/7/2023 9:23 PM
571	*single occupant, this would impact other housholds much more.	11/7/2023 7:17 PM
572	I already put my bin out every other week	11/7/2023 5:42 PM
573	Another irrelevant questions	11/7/2023 10:07 AM
574	Live in condo blue bins overflowing	11/7/2023 9:28 AM
575	Terrible idea!!	11/7/2023 7:14 AM
576	I wish we could recycle more types of plastic. I.e black plastic.	11/6/2023 6:22 PM
577	We would not be able to go two weeks with the volume of recycling we do	11/6/2023 5:58 PM
578	condo apartment block has 2 sets of 4 recycle bins that are filled completely within 1 week	11/6/2023 3:51 PM
579	My blue bin is normally full with weekly pickup	11/6/2023 2:27 PM
580	It varies based on SEASON , family SIZE or AGE (local statistics can help the City)	11/6/2023 2:03 PM
581	It would only be an issue at some times of year when we have a lot of orders coming in cardboard boxes, Christmas, Birthdays, beginning of the school year, etc. but most of the time we could store these for a week as there is no smell but it could be irritating.	11/6/2023 1:40 PM
582	In an apartment dwelling this would NOT work	11/6/2023 1:37 PM
583	Some weeks it would be full earlier than others. Just have to plan ahead. Others will not.	11/6/2023 1:36 PM
584	Search the ladfills	11/6/2023 12:35 PM
585	I don't put my recycling cart out every week and especially in the winter months. **I don't think garbage etc should be picked up on extreme cold winter days> And recycling should only be if containers are clean and when cart is 3/4 full.	11/6/2023 12:20 PM
586	Same comment as for garbage collection once every two weeks	11/6/2023 10:29 AM
587	I would put excess recycles in the garbage can	11/6/2023 10:13 AM
588	Mon chariot est déjà plein après une semaine	11/6/2023 9:45 AM
589	Hosting company for holidays leaves more trash and an extra pick up after Easter Thanksgiving and Christmas would be an idea	11/6/2023 9:12 AM
590	Two weeks would be the right amount of time for my recycling cart to become full	11/6/2023 8:44 AM
591	no impact - I take recycling somewhere else	11/6/2023 8:38 AM
592	Horrible idea, people will be ditching extra stuff where ever they can	11/5/2023 10:01 PM
593	Recycling excludes too many articles that are recyclable.	11/5/2023 9:48 PM
594	We would request a larger recycling cart for our family	11/5/2023 9:45 PM
595	Again, people use my bins. Not fiar. They get full of stuff when it's not mine.	11/5/2023 8:53 PM
596	My recycling bin is full every week and we're only a family of 3!	11/5/2023 8:24 PM
597	Might impact is bit we could manage	11/5/2023 8:11 PM
598	We barely make the one week with the largest cart possible.	11/5/2023 6:51 PM
599	I live in A Co-op with 100 people- we need weekly pick-up. Neighbours also use our blue bins contributing to the filling of the bins	11/5/2023 4:37 PM
600	I could figure out how to make it work for me	11/5/2023 4:09 PM
601	My recycling is full every week	11/5/2023 3:57 PM
602	Where would I store my recyclables when the bin? It will create dirty and smelly areas that will be irresistible to pests/rodents which is not a welcome situation. Two weeks is far too long to	11/5/2023 3:03 PM

	wait for garbage/recycling collection. Please don't do this.	
603	I have fears that the cities back alleys, parks and other quiet public spaces would soon be burdened with the over flow of this type of material. The city would then have to continually clean these areas up at additional cost. The St James Civic center sees an immense amount of refuse of all sorts dropped off regardless of the posted warning signage.	11/5/2023 2:21 PM
604	Larger families need weekly pickup or maybe larger bins could be given to larger families.	11/5/2023 1:47 PM
605	At this time for the past 3 years we only put out every third week same with grey bin.	11/5/2023 1:47 PM
606	There would be recycling all over the ground and the city would be disgusting.	11/5/2023 1:28 PM
607	There would be even more recycling all over the streets!!	11/5/2023 1:12 PM
608	there would be recycling strewn in the streets.	11/5/2023 1:04 PM
609	Business should have to recycle . Varies week to week usually more recycling than garbage. Need recycling more glass elimate black plastic . Don't allow thing into garbage with forever chemicals like led bulbs makeup and products contain pfsa people who spray parr 3 shouldn't be allowed to use yard waste programs it contaminates compost	11/5/2023 12:58 PM
610	Would end up throwing recycling into the garbage to dispose of	11/5/2023 12:38 PM
611	There is no way we could go 2 weeks between pickups	11/5/2023 12:33 PM
612	I would like to see more legislature holding companies accountable for excess plastics for their products. Climate change should be the priority of our MLAs, not renovations to pickleball courts and churches their friends attend	11/5/2023 11:36 AM
613	My cart is full almost every week	11/5/2023 11:25 AM
614	typically I just put my cart out now just every 2 weeks, not a problem	11/5/2023 11:17 AM
615	Could become too heavy	11/5/2023 10:40 AM
616	Some weeks it wouldn't impact me but others it might	11/5/2023 10:07 AM
617	we pay for weekly pick up	11/5/2023 9:35 AM
618	It's already filled after one week. Going to every two weeks is not realistic	11/5/2023 9:22 AM
619	This would be counterproductive, placing lower priority on recycling. Recycling Bins would fill and people would just not recycle what didn't fit.	11/5/2023 8:48 AM
620	I could probably adjust and be able to manage this.	11/5/2023 8:42 AM
621	This cart is always the full one. Every two weeks would be a problem for us. I can't imagine what a family of 4 or more would do. You will end up with items to be recycled either in the garbage or on the street.	11/5/2023 8:27 AM
622	My recycling bin is often filled to the max already	11/5/2023 7:53 AM
623	At times my recycling cart would be full so I'd place the recycling in the garbage. The cuts to service should warrant a cut to costs.	11/5/2023 7:36 AM
624	I would be concerned about the recycling cart being missed in regular pickup	11/5/2023 7:33 AM
625	PROBLEM: Many neighbors put stuff in recycling that I know should not go in there.	11/5/2023 7:08 AM
626	I would stop recycling for lack of room	11/5/2023 6:27 AM
627	Our bins are not big enough to collect only every two weeks	11/5/2023 2:16 AM
628	Terrible idea	11/5/2023 1:57 AM
629	My recycling is full every week it would be a huge problem, disaster	11/4/2023 11:52 PM
630	If you want to recycle more, then give us bigger bins. An over flowing cart that's 7 days away from pickup is discouraging	11/4/2023 10:30 PM
631	What does fit in the recycling becomes trash	11/4/2023 10:11 PM
632	Again, winter yes, summer no!	11/4/2023 9:39 PM

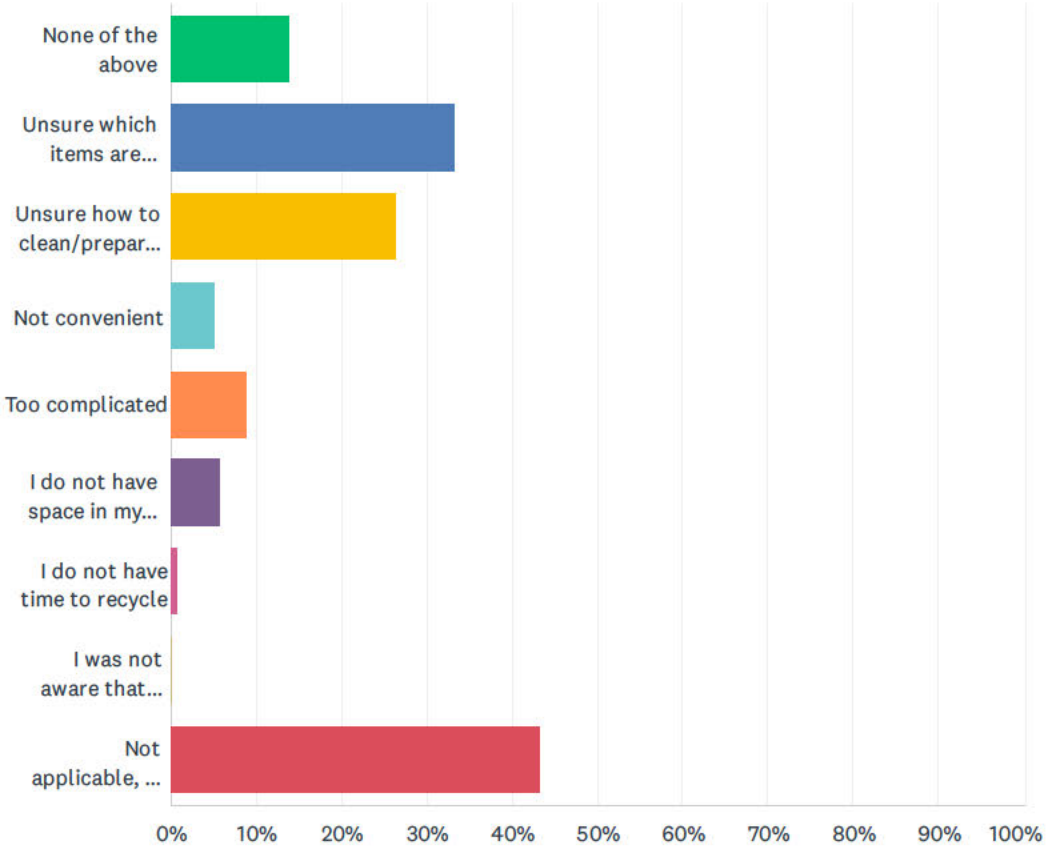
633	Sometimes my cart is full other weeks it isnt	11/4/2023 9:11 PM
634	I'd just put recycling into the garbage if you did that	11/4/2023 8:04 PM
635	Too much cardboard	11/4/2023 7:45 PM
636	The smell is summer would be horrible	11/4/2023 7:14 PM
637	Weekly pickup should continue or reduce our taxes.	11/4/2023 6:54 PM
638	I already purchased a second recycling cart to contain all of our recyclables for weekly pickup. I'm pleased that that's only a one-time fee.	11/4/2023 6:39 PM
639	Takes me at least 3 months to fill recycling cart	11/4/2023 6:12 PM
640	Need weekly service every 2 weeks would force residents to remove household recycling themselves	11/4/2023 6:05 PM
641	I chronically miss pickups, especially on holidays. Weekly pickups are recoverable, but I don't think this is at all possible in a two week cycle.	11/4/2023 11:49 AM
642	In Killarney, Mb where we have a seasonal cottage we get garbage pickup every week and recycling pickup every two weeks. The bins are a little larger and ours are never full even when we spend the whole week or more out there.	11/4/2023 8:20 AM
643	It probably wouldn't impact me but the price would have to be reduced. We pay deposits on these items, pay for water to clean them and then paybto recycle them. Not right!!	11/4/2023 7:21 AM
644	In a MFD	11/3/2023 9:43 PM
645	Some weeks this would be an issue. Others it would not.	11/3/2023 9:43 PM
646	I would stop recycling, and just put everything in the garbage.	11/3/2023 8:27 PM
647	A	11/3/2023 8:20 PM
648	If such a proposal is varied accordingly for post black friday & Christmas and other waste volume increasing events.	11/3/2023 11:41 AM
649	Further to above we typically have two or more times the volume of recycling than garbage.	11/3/2023 11:22 AM
650	sometimes its full every week, other times not so much, no room to put if every 2 weeks	11/3/2023 8:25 AM
651	Packaging regulations could change this behaviour at the source	11/3/2023 8:07 AM
652	Our carts have been forgotten before and I would be worried if this happened again	11/3/2023 6:49 AM
653	Are you crazy? My recycling fills up faster than my actual garbage	11/3/2023 1:17 AM
654	I think recycling should continue weekly, garbage every 2 weeks.	11/2/2023 10:09 PM
655	concerned about rental properties	11/2/2023 9:22 PM
656	I would forget to put the cart out at the right week.	11/2/2023 7:32 PM
657	Two weeks is too long. You want us to recycle so that means you have to pick up every week	11/2/2023 7:07 PM
658	i absolutely fill my blue cart every week. also again, leaving items would be a risk for intentionally set fires (especially with flammable papers and cardboard), as well as risks for personally addressed mail sitting for extended periods where it could be stolen for identity theft purposes.	11/2/2023 5:51 PM
659	I have extra carts .	11/2/2023 5:35 PM
660	Apartment building already overflowing at once a week pickup	11/2/2023 4:48 PM
661	Your plan is to reduce garbage & yard waste pickup to every second week so you can pay for the Green waste pickup. I will not be using the Green waste bin, don't want it, and deem weekly garbage & recycling more important. Suggest garbarator for those wanting Green bins.	11/2/2023 4:36 PM
662	Occasional concern that it would be too full if a pickup was missed	11/2/2023 3:39 PM
663	I think my apartment building would need more than 4 blue bins for its 40 units	11/2/2023 3:27 PM

664	Not concerned, full is fine.	11/2/2023 3:17 PM
665	Varies for our household of two. Seems a household of 4 or more would be overflowing often. Recycling is a habit. Might be interrupted if pick up was sporadic.	11/2/2023 2:56 PM
666	Bulky items like boxes make up a good chunk of recycling, leading to the above two selections	11/2/2023 2:01 PM
667	Would be fine most of the time.	11/2/2023 2:00 PM
668	We might have occasional issues with cart capacity, but not generally.	11/2/2023 1:56 PM
669	The same concern as in the previous garbage collection question.	11/2/2023 1:49 PM
670	Why would you want to reduce recycling service???	11/2/2023 12:59 PM
671	If this happens open up bins at the Waverly COW recycling site for more than cardboard. Plus a couple of bins for larger garbage items	11/2/2023 12:46 PM
672	We have multiple blue carts at our 6-bldg Condo Corp. recycling already overflows sometimes with once a week pickup.	11/2/2023 12:38 PM
673	Many of my neighbours put garbage into their recycling; I think we need some better education for specific groups of people (e.g., post-secondary students)	11/2/2023 12:24 PM
674	Some weeks my cart is full and other weeks it isn't full.	11/2/2023 12:07 PM
675	I would throw recycling into regular trash	11/2/2023 11:39 AM
676	My blue cart might not be full but for sure neighbours would put their recycling in my cart if their own were full. This happens sometimes even now.	11/2/2023 11:22 AM
677	The proposed collection should consider "seasonal" garbage increase variations, for instance Christmas Holidays	11/2/2023 11:19 AM
678	We would need to manage the recycling better at our house.	11/2/2023 11:17 AM
679	Sometimes my cart would be overflowing, but I'd be willing to store items or ask my neighbors for extra space.	11/2/2023 10:44 AM
680	It could occasionally be a problem, if I'm doing something unusual.	11/2/2023 10:33 AM
681	Most times every two weeks would be fine, sometimes it would be full	11/2/2023 10:32 AM
682	I throw recycling into the black bin.	11/2/2023 10:24 AM
683	some weeks it would be full, others not so much	11/2/2023 9:41 AM
684	We have several recycling bins so you would need to ask my caretaker	11/2/2023 9:37 AM
685	Again because one of us runs a business from home, we have many deliveries and would have to supplement recycling pick up with trips to the recycling depot. We already have two blue bins to compensate but they are almost always both full weekly.	11/2/2023 8:53 AM
686	I would dump my extra recycling in the lane	11/2/2023 8:48 AM
687	mostly big recycling items would be the concern as they fill the bins quicker	11/2/2023 8:38 AM
688	ok si cela réduit ma facture	11/2/2023 8:32 AM
689	Give everyone larger bin	11/2/2023 8:30 AM
690	If done every 2 weeks should be a way to request a weekly pickup if more recycling than normal(for example christmas or birthdays) at no cost	11/2/2023 8:17 AM
691	There would be trash spread out on the lanes from garbage pickers rummaging bins for cans	11/2/2023 8:15 AM
692	There are some times when I have a lot of recycling, in those times I guess I'd need to leave it piled up somewhere for two weeks before another pick up, eg Christmas	11/2/2023 8:03 AM
693	I would need to take my recycling to a depot ot perhaps put it in the garbage cart	11/2/2023 7:48 AM
694	Would find somewhere to dump the extra	11/1/2023 10:46 PM

695	When my cart isn't full i simply don't put it that week… just cause it's collect every week doesn't mean I put my bin to the curb with hardly anything in it. I make sure it's at least half full! Silly to waste workers time& mine… if I have hardly anything in my bin….	11/1/2023 9:24 PM
696	more than one size cart would need to be an option	11/1/2023 1:16 PM
697	two weeks is too long	11/1/2023 9:51 AM
698	My recycling bin is so full now, I have to pack well or the lid doesn't close. Two weeks would be a complete disaster.	11/1/2023 8:34 AM
699	Some people put maybe recycling in plastic bags.	11/1/2023 1:50 AM
700	I think it should remain weekly. Some weeks the bin can be full but not every week. But still think pickup should be weekly.	10/31/2023 8:51 PM
701	As someone who lives in an apartment building I feel that I wouldn't feel comfortable in hoarding recycling for over two weeks. I barely get the opportunity to put my recycling out every week.	10/31/2023 6:49 PM
702	I do not put my cart out every week	10/31/2023 3:47 PM
703	We usually have more recycling than garbage, so this would be hard.	10/31/2023 3:27 PM
704	Currently we only put out our recycling every two weeks, however there are times when we do it weekly if there is a need.	10/31/2023 10:45 AM
705	Recycling is always full	10/31/2023 10:34 AM
706	My recycling cart may sometimes be full or overflowing	10/31/2023 9:31 AM
707	Why do we have to do what other cities do? Why can't we do what suits Winnipeg instead?	10/30/2023 9:13 PM
708	I think every 2 weeks would be fine for me	10/30/2023 6:47 PM
709	People would go through the bins and spread it around	10/30/2023 6:18 PM
710	My cart is full to the top every week.	10/30/2023 5:07 PM
711	So much for keep Winnipeg clean and tidy...	10/30/2023 5:00 PM
712	Cardboard from grocery delivery often fills my bins. If it as every two weeks I'd worry it would build up and not fit.	10/30/2023 4:45 PM
713	If it was full, I drop off at a recycling depot	10/30/2023 3:58 PM
714	Need larger recycling containers - should no extra cost	10/30/2023 3:40 PM
715	Similar, recycling materials quite often are a target for those that frequently seek materials for secondary use (marginalized individuals)	10/30/2023 2:15 PM

Q11 What are the main barriers you face when it comes to recycling? (Check all that apply)

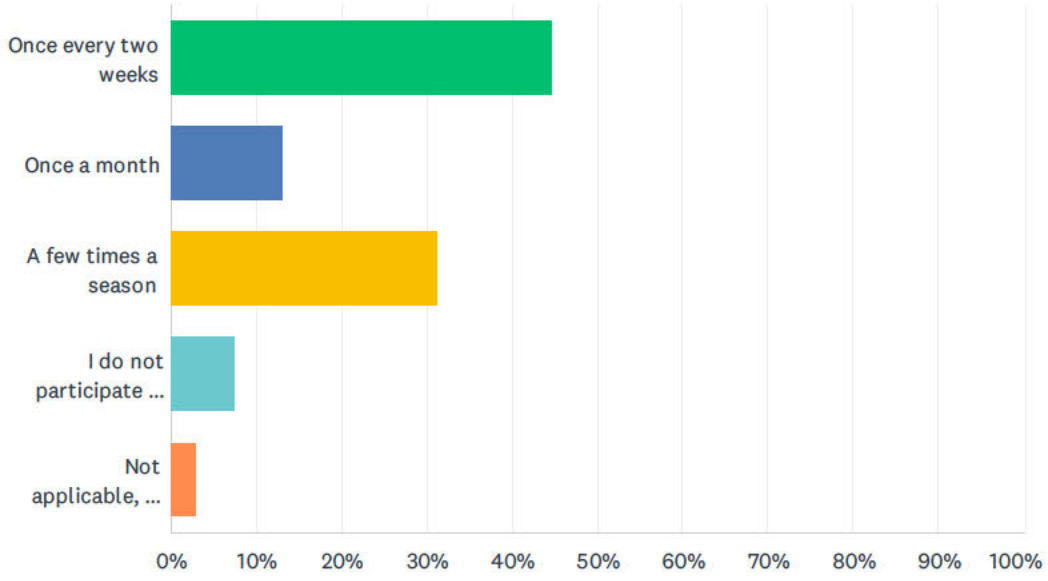
Answered: 8,641 Skipped: 595



ANSWER CHOICES	RESPONSES	
None of the above	13.82%	1,194
Unsure which items are accepted in Winnipeg	33.23%	2,871
Unsure how to clean/prepare items to be recycled	26.42%	2,283
Not convenient	5.10%	441
Too complicated	8.90%	769
I do not have space in my home, apartment, or condo for an extra bin	5.68%	491
I do not have time to recycle	0.88%	76
I was not aware that recycling is a service offered by the City of Winnipeg	0.29%	25
Not applicable, I recycle everything	43.28%	3,740
Total Respondents: 8,641		

Q12 Once every two weeks from approximately May to November, the City offers collection of leaf and yard waste on the same day as your garbage and recycling collection. How often do you put out leaf and yard waste for collection?

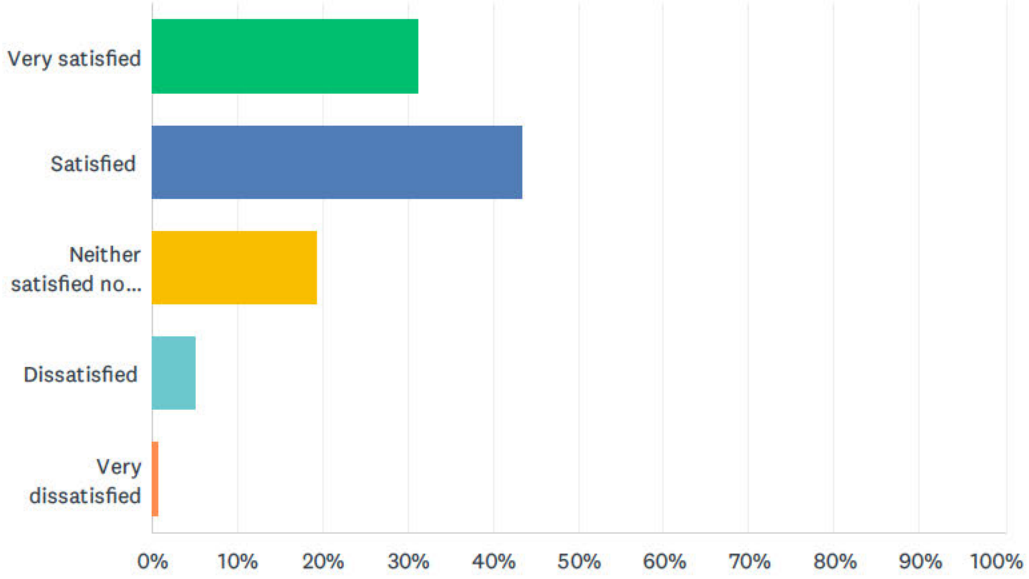
Answered: 8,641 Skipped: 595



ANSWER CHOICES	RESPONSES	
Once every two weeks	44.76%	3,868
Once a month	13.29%	1,148
A few times a season	31.39%	2,712
I do not participate in this service	7.52%	650
Not applicable, I do not have a yard or lawn that I am responsible for maintaining	3.04%	263
TOTAL		8,641

Q13 How satisfied are you with the curbside leaf and yard waste program?

Answered: 8,641 Skipped: 595



ANSWER CHOICES	RESPONSES	
Very satisfied	31.30%	2,705
Satisfied	43.46%	3,755
Neither satisfied nor dissatisfied	19.33%	1,670
Dissatisfied	5.02%	434
Very dissatisfied	0.89%	77
TOTAL		8,641

Q14 Please let us know why would are not satisfied.

#	RESPONSES	DATE
1	With pickup every two weeks, waste bags are rotting and breaking unless you put them out a couple days before. The bags get soggy and break very easily within 5 or 6 days, if it rains it's even quicker. This should be picked up more often or better bags should be made available	11/29/2023 11:28 PM
2	It's a pain that it's only every two weeks. In the spring and fall it should be weekly. Also this year it ended before it snowed. That's silly.	11/29/2023 9:18 PM
3	It should be done weekly during the busy season with city-provided carts.	11/29/2023 11:35 AM
4	if it rains, bags become wet and occasionally break. Collection will leave broken bags on curb or littered in backlane.	11/29/2023 9:45 AM
5	Yard waste should be collected weekly for the start and end of the season (usually May and October). In between it can be bi-weekly.	11/29/2023 8:31 AM
6	Never seem to pick up when they should. Bags laying out forever & breaking open making a mess	11/28/2023 7:42 PM
7	It seems the only way to add a comment to my answers is to check off "dissatisfied", even though in this case the yard waste program works for us (we keep ALL of our leaves for composting, and only occasionally dispose of tree branches and prunings). My comment is simply that based on what I see in our area, once again there needs to be more education about this program, both the proper methods of disposal, but also more importantly, what happens to this material when it is collected so that people learn about its importance in reducing waste from the landfills.	11/28/2023 4:59 PM
8	2 weeks with sitting yard waste smells, gets soggy. And sometimes have 4+ bags of yard waste	11/28/2023 2:52 PM
9	Should be weekly	11/28/2023 12:07 PM
10	Yard waste should be every week in the fall as it means storing bags until next pick up in two weeks. Sometimes trucks come unannouced in the fall as they are inundated with yard waste and when you don't know they are coming it is difficult too catch them.	11/27/2023 2:05 PM
11	It should be picked up every week, since grass gets very smelly and mouldy in the bag with heat and rain. Too hard to store somewhere for 2 weeks waiting for pickup, It should be once a week, same time as garbage pickup.	11/27/2023 7:08 AM
12	No longer pick up Christmas trees so I no longer buy them	11/26/2023 5:54 PM
13	When collection is late or missed us we have to worry about the paper bags getting soggy in the rain. So we sometimes have to take the yard waste back into the shed and onto the street again multiple times before the collectors get to us. On the one hand taking the yard waste inside protects the bag from deteriorating and spilling through the bottom. But on the other hand it introduces the risk that we might miss the collector or forget.	11/26/2023 5:15 PM
14	Not all yard waste taken, bins thrown all over yard	11/25/2023 8:45 PM
15	It ends too early and I could use it weakly	11/25/2023 6:52 PM
16	This should be a weekly service not every 2 weeks	11/25/2023 6:18 PM
17	Items not picked up	11/25/2023 4:03 PM
18	It should be done on a weekly basis. The program should be extended, depending on the weather.	11/25/2023 3:53 PM
19	Need to pick up weekly in summer and fall season. We paid a lot of tax property so please take care your citizens. I saw the city used a lot money for Winnipeg Police Force but not	11/25/2023 12:23 PM

	doing good jobs for clean back lane city.	
20	The leaf and yard waste bags fall apart if only picked up every 2 weeks. I am then left with a mess to pickup. They also tend to smell before the 2 weeks are up.	11/25/2023 9:17 AM
21	I don't use this service yet I'm paying for it.	11/25/2023 7:48 AM
22	Would like weekly pick up in spring when there is more garden waste. People leave their garden waste at the curb for two weeks and it is unsightly & creates a mess.	11/25/2023 4:33 AM
23	Leaf and grass pickup once a week.	11/24/2023 11:29 PM
24	Would like it picked up every week	11/24/2023 8:49 PM
25	Crews miss bags, say bags are too “heavy”, should be weekly once leaves start falling to keep bags from getting wet if it rains	11/24/2023 8:29 PM
26	During the summer months, I’d prefer it be weekly.	11/24/2023 8:05 PM
27	It would be better to have this service every week. When we have yard waste in the off week and it rains while waiting for pickup the next week, the bags get soggy & rip when they are picked up, making a huge mess on the street. No problem with the service itself. It just needs to start being an every week service along with the trash and recycling.	11/24/2023 6:24 PM
28	Frequently not picked up	11/24/2023 6:16 PM
29	I am satisfied, but fund that there are too many restrictions. The truck will be pick up large branches that were pruned by the City but not is pruned by homeowner. Not everyone has a truck to take items to Brady. It does not make sense for many individuals to drive when a City truck can do this more efficiently	11/24/2023 5:49 PM
30	I left my bags of yard waste packaged all nice in their designated pickup spot and only 2/6 bags were picked up. The other 4 stayed there all summer, pickup after pickup and never moved. My bags were not collected.	11/23/2023 6:51 PM
31	Bags aren’t collected regularly and the yard waste bags crumble and break when left outside for two weeks	11/22/2023 8:10 PM
32	not often enough during spring and fall yard cleanup	11/22/2023 1:08 PM
33	My property happens to be one of those who needs maintain el of leaf pick up more frequently than other ones. The service is not fair. In addition to this city does nothing about banding irrigating or picking up leafs during fall on the streets making this an additional cost and effort to homeowners. The least city could do is consider review situations on a case by case manner.	11/21/2023 3:05 PM
34	we need green bins so the green bins also help with planting because the peels and stuff turn into soil	11/21/2023 2:05 PM
35	because no one comes for yeard leafe pick up at my house	11/21/2023 2:01 PM
36	because no one comes for yard leaf pickup at my house	11/21/2023 2:01 PM
37	never joined that service.	11/21/2023 2:00 PM
38	half of leafs and yards garbage on people's driveway	11/21/2023 2:00 PM
39	Because in the fall my curbside the leaves never get picked up and we do not like so me and my dad have to do it our self's	11/21/2023 2:00 PM
40	because no one comes for yard leaf pickup at my house	11/21/2023 2:00 PM
41	Half of my leafs and yard waste are still on my driveway.	11/21/2023 1:59 PM
42	1- should review qns for readability. 2- usually pick up is missed and we have to call 311 to report it...our cart has "YARD WASTE" written on the bin...we are disappointed that we have to call and complain to get service repeatedly	11/21/2023 11:17 AM
43	On multiple occasions the yard waste has been left behind when the other bins are emptied, leaving the paper bag to get wet and gross. Then the next time it's supposed to be picked up, they don't want to grab it because it's falling apart.	11/21/2023 10:08 AM

44	Not always picked up	11/21/2023 9:14 AM
45	Would prefer weekly service as offered in other cities.	11/21/2023 8:51 AM
46	I have trees , and a garden. I compost my lawn mulch and other garden waste...I need every week pick up as twice a month is not sufficient.	11/21/2023 8:38 AM
47	Cut the grass every week, if it rains the paper bag rips. Stinks to keep in garage.	11/20/2023 10:16 PM
48	Because they show up sometimes a day or 2 before my garbage day then leaves sit for another 2 weeks	11/20/2023 6:28 PM
49	Ends too early. Too frequent.	11/20/2023 5:36 PM
50	Same reason as the first, along with paper and rain do not mix well. And they leave it there as if I should be holding an umbrella over it until they get there	11/20/2023 4:23 PM
51	Would prefer for this to be weekly and to last longer into the fall. Yard waste can be smelly in the summer and in the fall, pick-ups are often finished before all the leaves have fallen from the trees	11/20/2023 3:27 PM
52	They won't pick up yard waste in an extra garbage bin we have, I'm disappointed I have to buy/use bags when it was my understanding a bin would be acceptable?	11/20/2023 1:14 PM
53	yard waste bags break down quickly and get very smelly. By time the pickup comes the bags are falling apart and the garage or shed that we store the bags in, to keep them away from moisture as much as possible, smell terribly. Pickup should be every week.	11/20/2023 9:41 AM
54	frequently it rains on the grass clippings or yard waste and the crew refuses to pick up. I have also been left with a note where yard waste contains "soil or clay" but it was 100% grass clippings... bags were refused pick up	11/20/2023 9:30 AM
55	Left yard waste to be picked up, and it wasn't, so assumed it was next week, wasn't picked up. This happened like 3 or 4 times in 2023. Annoying, and I don't have time to call for you to fix the mistakes.	11/20/2023 6:58 AM
56	Should be weekly	11/19/2023 10:27 PM
57	The collection season ends too soon. Leaves are frequently still falling into November and it becomes impossible to easily get rid of that yard waste so it ends up in the landfill.	11/19/2023 9:10 PM
58	Need leaf collection done every week.	11/19/2023 5:56 PM
59	Needs to be more regular in summer (i.e., weekly)	11/19/2023 4:43 PM
60	As per earlier comments. Impossible to keep bags dry for two weeks.	11/19/2023 1:58 PM
61	Same reason as for the recycling ... lack of employee accountability for the destruction they do to both city-provided bins and resident owned yard waste containers.	11/19/2023 7:52 AM
62	THEY HAVE MISSED THE COLLECTION REPEATDLY	11/19/2023 7:15 AM
63	Two weeks is too long. Yard waste smells horrible in that amount of time when in a reusable bin and paper bags fall apart before pick up. Two weeks is too long for us to wait.	11/19/2023 6:16 AM
64	needs to be weekly	11/18/2023 10:00 PM
65	It should be offered longer, at least until the snow has fallen for good	11/18/2023 9:30 PM
66	Because the bins I get used are thrown about. They don't always get completely emptied.	11/18/2023 1:37 PM
67	Leaf and yard pickup is inconsistent. Sometimes they show up, sometimes they don't. And when it rains, the bag becomes soggy and then that's almost a guarantee they don't show up.	11/18/2023 9:35 AM
68	This should be collected weekly and end in mid November not early November. Also they sometimes don't empty my bins completely or miss our altogether. We've had to catch them at neighbors and ask them to go back and get ours which they missed as they are rushing to do the job.	11/18/2023 9:31 AM
69	I have a lot of yard waste. I would like weekly pick up of yard waste.	11/18/2023 6:09 AM
70	The pick up should be every week in high peak seasons.	11/18/2023 12:15 AM

71	In the fall and spring pickup should be every week. The bags don't do well if it rains and this way you have to time when you do your yard work which is not always possible	11/17/2023 11:54 PM
72	I have many trees and a large yard, I really need weekly pick up.	11/17/2023 10:31 PM
73	I wish there was a way to let us know through an app or something for a reminder of when all of the days are coming up	11/17/2023 7:09 PM
74	Fall time I can have an accumulation of over 30 bags waiting for 2 weeks to be picked up. If it rains it becomes a large mess or blows around and blocks the use of our garage etc. It should be picked up weekly in busy seasons like fall. It should also be included with the compost program and be able to be put into the green bins as well as extra bags if needed.	11/17/2023 5:37 PM
75	Yard waste should be every week during the summer. It really piles up and I have a big garden so it creates extra yard waste.	11/17/2023 4:35 PM
76	Every 2 weeks during the season makes for bags that get soggy and start composting making a terrible smell. Spring and fall makes a mountin of bages to store for 2 weeks and if you work odd times you can miss your yard waste day causing it be picked up once a month then. Drivers of trucks are also incredibly inconsistent with days and times of pick up causing you to 2nd guess if you had missed your service	11/17/2023 4:22 PM
77	I'm the spring and fall a pick up every two weeks is not nearly enough. In the summer every two weeks is more than enough. I'm also dissatisfied with the contractors that do the pick up. Often they don't even attempt to dump out buckets, barely even giving them a shake, leaving them half full. Then they just throw the bins everywhere. On the road and on the lawn, where they get blown away bits honestly disgraceful. And if you use bags, they are definitely getting wet in two weeks, at which point they rip and leave a mess all over. Also no one seems ri remember when yard waste pick up is, so bags sit at end of driveways for an entire week rotting away	11/17/2023 3:19 PM
78	Never know when they are coming and the leaves don't wait for pick up	11/17/2023 2:01 PM
79	Pickup should be every week especially in the spring and fall	11/17/2023 11:17 AM
80	I usually end up having to put it in a plastic bag and throwing it in the garbage because the [redacted] paper bags fall apart before it can be picked up!	11/17/2023 11:13 AM
81	I'd prefer yard waste pickup to be every week. It's difficult to remember when Yard waste will be picked up. If I fill my bags on an off week, the bags often get wet, or the residue moisture degrades the bags and they fall apart.	11/17/2023 9:55 AM
82	yard waste at once every two weeks is not enough, this is [redacted] ideal I ever heard, if once every two weeks is not enough for yard for six months how is this going to work for year round garbage and recycling.	11/17/2023 9:35 AM
83	Ridiculous paper bags, I would rather drop my own at a depot like it used to be done. waste of money how its currently done.	11/17/2023 9:32 AM
84	It's not frequent enough as our lawn grows incredibly fast, and we often have bags collecting until the next pickup, and those bags start to decompose making the bottoms weak.	11/17/2023 8:35 AM
85	I cut my grass more than once every two weeks. Pick up should be weekly. No one wants thst smeely grass sitting around rotting in mid july	11/17/2023 8:08 AM
86	No room to store the bags inside the yard as it's small. Place outside my fence n worry about them being put on fire. The program needs to start sooner n last longer. I collected leaves the other day n put them in the garbage as there is no more pickup available until next spring Thanks for reading	11/17/2023 7:31 AM
87	We have enough yard waste in spring and fall and only picked up every 2 weeks. Also if you do a yard project there is no option offered for pickup of soil/ grass from project.	11/17/2023 7:13 AM
88	It is hard to know when yard waste collection occurs due to lack of information on when it is your week for collection	11/17/2023 7:06 AM
89	Wish we had a bin for yard waste Bags are horrible	11/17/2023 5:55 AM
90	We have nowhere to store the full bags and often if it rains they fall apart and we're left with a rotting, soaked pile of grass just to scoop up and do it all over again.	11/17/2023 4:29 AM

91	It needs to be picked up once a weekn	11/16/2023 11:50 PM
92	Should be weekly in the spring / fall and not knowing which week it is as I don't use or need it in the summer but for leaf management in the fall	11/16/2023 11:11 PM
93	Missed pickups	11/16/2023 8:23 PM
94	Pick up should be weekly as it piles up	11/16/2023 7:21 PM
95	It doesn't always get picked up.	11/16/2023 7:06 PM
96	If I forget which happens every year I have rotting yard waste sitting in my garage for 2-4 weeks	11/16/2023 3:18 PM
97	Pick is never on time or skipped altogether.	11/16/2023 2:58 PM
98	Should be weekly, integrated. Needs to start earlier and end MUCH later in the season.	11/16/2023 2:55 PM
99	Yard waste left in paper bags for pick up is not appropriate if inclement weather occurs.	11/16/2023 2:44 PM
100	this year, because of global warming, the program ended and we still had a lot of leaves to recycle and nowhere to put them once bagged so had to pay someone to remove them	11/16/2023 2:40 PM
101	I would like to see it weekly. I already compost in my own yard and I collect more than my pallet compost can accept with gardening, weeding, lawn clippings, tree trimmings, vegetables, coffee grounds, cardboard, etc.	11/16/2023 2:28 PM
102	yard waste collection frequently missed	11/16/2023 1:02 PM
103	It would be helpful to have the yard waste picked up weekly in the fall during clean up season.	11/16/2023 12:55 PM
104	The bags get soaked and when they pick them up it rips and makes a big mess that they do not clean up	11/16/2023 12:53 PM
105	Stated previously. Lazy	11/16/2023 12:09 PM
106	It would be nice if they came weekly in the fall for yard clean up.	11/16/2023 11:55 AM
107	Would prefer it to be every week and possibly start earlier in the year	11/16/2023 11:42 AM
108	This year, the yard waste collection in our area ended prior to Halloween. Leaves collected and used as Halloween yard decorations in bags had to then be thrown in the garbage instead of being able to be put out in the yard waste collection.	11/16/2023 11:27 AM
109	They don't seem to come every week. We put bags out and they sit for long periods of time, getting rained on and soggy. The bags have even fallen apart and we've had to re-bag grass clippings. We also have an apple tree and bag the fallen apples. Those bags sat in our driveway for weeks rotting away! They were leaking juice everywhere and covered in wasps. It was really gross! The pickup is definitely not weekly in my area.	11/16/2023 11:23 AM
110	During summer and especially fall leaf season I would prefer weekly pickups as the leaves can start to rot in the bags in two weeks time.	11/16/2023 10:39 AM
111	Too much yard waste accumulates in a 2 week period. In spring and fall pick up should be weekly. Midsummer generates less waste and every two weeks would be OK. I already have 6 large garbage bins full with garden waste and more that won't fit in by the time the pick up happens.	11/16/2023 10:29 AM
112	Because I have to pay for paper bags over and above paying for garbage collection by the city.	11/16/2023 9:17 AM
113	I don't think the "every 2 weeks" is accurate. There are often leaf and yard bags and bins sitting out for longer. I think we would benefit from weekly in the spring and fall and when there is no/little snow on the ground to extend the time period of collection.	11/16/2023 8:43 AM
114	It should start earlier in spring and end later in fall. Also, I never seem to know which week is leaf pickup week.	11/16/2023 8:40 AM
115	We have a large yard that requires pruning, cutting and cleaning. I would LOVE WEEKLY pickup especially in the spring and the fall. The garden, the rhubarb leaves, the grass and plantings cannot be left to stink for TWO weeks.i love the yard waste and use it faithfully but on the off weeks some stuff goes in the garbage.	11/16/2023 8:16 AM

116	I have no idea when things actually get picked up	11/16/2023 7:30 AM
117	This program would be better with carts and weekly pickup.	11/16/2023 7:22 AM
118	Would prefer a weekly pick up.	11/16/2023 5:39 AM
119	In the summer I cut my lawn every week. The wet stinky cuttings have to sit in my garage for 2 weeks causing a discusting smell. I take the cuttings to Brady on the off week.	11/16/2023 5:20 AM
120	Weekly would be better, yard waste smells and is rotting in summer by the two weeks	11/16/2023 2:53 AM
121	Yard waste pickup rarely occured on the identified dates, brown bags often sat for weeks curbside. This service has been unreliable, on atleast 3 occasions this summer	11/16/2023 1:15 AM
122	I had no idea this existed	11/16/2023 12:38 AM
123	I would like to see yard waste pickup every week. My grass clipping get very smelly, leek through the paper bags and I have limited space to store them out of the elements between pickups.	11/15/2023 11:33 PM
124	I don't use this service but often see neighbors with bags on curb for weeks at a time waiting and waiting to be picked up	11/15/2023 11:27 PM
125	In 'peak' summer - when we've had lots of rain followed by sun, yard waste should be picked up EVERY week.	11/15/2023 9:45 PM
126	first off, use spellcheck in your questions. dont even know exactly what is being asked.	11/15/2023 9:33 PM
127	Should be picked up weekly towards end of season.	11/15/2023 9:14 PM
128	Grass gets cut sometimes 3 times a week if weather is right. It should be weekly and let homeowners use as needed. Also stinks when it only sits 2 weeks	11/15/2023 9:13 PM
129	It needs to be weekly. I have a large yard. I cut grass at least once a week and it stinks very badly by the second week. The paper bags can't sit for 2 weeks they rot out the bottom	11/15/2023 9:08 PM
130	The lawn is cut multiple times a week. Hauling bags back and forth is inconvenient.	11/15/2023 9:04 PM
131	Hard to store yard waste for 2 weeks without a container, especially if it's raining. Frankly, i often just put yard waste in the garbage. If yard waste could go in a compost bin I would use it a lot more.	11/15/2023 8:52 PM
132	"...why would are not satisfied"	11/15/2023 8:42 PM
133	See previous answer.	11/15/2023 8:14 PM
134	Need more pick ups - love in well established neighborhood. If we take and bag too early the bottoms of bags fall apart. Waiting two weeks has seen us putting out 20+ bags for pickup. We cannot use the depots as we have a small car and drive a company truck so they won't let us in for residential leaves.	11/15/2023 7:26 PM
135	we need it weekly in spring and fall	11/15/2023 6:43 PM
136	Weekly	11/15/2023 6:39 PM
137	Shut down to early thos year my trees dont shed leaf till november	11/15/2023 6:02 PM
138	I would like to have yard waste pick up each week during spring and fall when there is more debris from yard & garden clean up	11/15/2023 5:58 PM
139	Leaf and yard waste should be collected every week for peak summer months when grass grows more often. Grass and yard waste gets smelly and attracts rodents when sitting for 2 weeks	11/15/2023 5:29 PM
140	They stopped to early this year. We need pickup up to the middle of November. My tree doesn't drop leaves till november	11/15/2023 5:03 PM
141	Leafe and grass pickup should be done weekly. This varies depending on the weather.	11/15/2023 4:57 PM
142	Never gets picked up.	11/15/2023 4:35 PM
143	Leaf pickup should be weekly in Sept/Oct as that is when you have the most yard work and waiting 2 weeks is an issued with the recycling bags if they get wet in that 2 week period.	11/15/2023 4:23 PM

144	Needs to be every week. They often dump waste all over missing there trucks and throw bins back on yard	11/15/2023 3:46 PM
145	Pick up should be every ween in the summer!	11/15/2023 3:34 PM
146	I am not satisfied because in the past, when leaving out leaves in the paper leaf bags, the city would not collect. The city would neglect these bags so long that they start to decompose in the lane and had the audacity to suggest it was the homeowners fault and I had to log a complaint against the owner to get the issue resolved. We do not leave leaf bags out, I throw them in the trash to prevent this again and to prevent arsonists from setting my yard of fire (which again, has happened in my 'hood a few times).	11/15/2023 3:32 PM
147	I would like every week - smell is horrible and bags get too wet and bottom rips	11/15/2023 3:31 PM
148	They break the plastic bins I use for yard waste. Paper yard wast bags are expensive compared to traditional plastic bags and are lousy when they get wet.	11/15/2023 3:23 PM
149	Paper bags get wet due to rain and my backlane is mud with a bit of gravel and the bags break open and contents spill. The waste program should be collected weekly espically in the fall when leaves fall constantly and garden waste needs to be collected	11/15/2023 2:43 PM
150	I don't actually know the date it starts to put out yardwaste, so never use it	11/15/2023 2:21 PM
151	Don't pick up when they should	11/15/2023 1:52 PM
152	The fall and spring yard clean up needs to be picked up more often than two weeks apart, especially the grass clippings which soon rot.	11/15/2023 1:49 PM
153	Need every week - if a cut/rake it has to wait up to two weeks. If I am away at cottage - a month. Ends to earlier still need pickup until end of October - tree trim, garden dig up, eaves cleaning etc.	11/15/2023 12:53 PM
154	Having to store leaves in garage after raking - then put out either eve before or morning of pick up can be challenging / inconvenient. Would be helpful if through Oct there was a weekly pick up	11/15/2023 12:49 PM
155	I had a limb come off a tree. I cut everything up and bundled it except for three pieces of limb about the size of my forearm. I thought it would be easier or the guys to pick up but they left them behind so I burnt them instead.	11/15/2023 12:38 PM
156	rarely happens on collection day.	11/15/2023 12:13 PM
157	I am not always aware when the pick up dates are for yard waste (need an easier way to remember) and I don't want to put out the full bags and leave them there too long especially if it's going to rain before pick up. The bags could get wet and deteriorate.	11/15/2023 12:01 PM
158	The bags if they get wet with rain or bad neighbors fall apart and then we are left with a mess in our yard from the collection workers. This coupled with the fact of how few people use this due to having to purchase bags or in our case our neighbor taking it and throwing it in the large garbage bin for the seniors center across the street makes it difficult to participate in.	11/15/2023 11:55 AM
159	the city does not clean the street or boulevard which i do as a good citizen . the leaves and waste and the mess it makes on the street is quite a mess and time consuming to pick up. if pick up was once a week more people would be encouraged to pick up the mess including grass clippings. the city does not do its part like it used too, so if you expect home owners, especially those with a double lot. you should at least provide pick up once a week.	11/15/2023 11:03 AM
160	They always forget to pickup my yard waste and I gave yo call 311 every two weeks for them to come back. I don't have a backlane so I get missed all the time.	11/15/2023 10:49 AM
161	Unknown dates	11/15/2023 10:45 AM
162	I do yard maintenance every two days and the yard waste bags get wet and moldy. Some summer months should be weekly.	11/15/2023 10:44 AM
163	If it rains the bags tear and leave a mess. The guys that pick them up rip them and leave a huge mess. Half the time I have to chase down my reusable bins and they are broken from being thrown around.	11/15/2023 10:34 AM
164	Yard waste should be collected on a weekly basis in the summer, as bags can get wet if it	11/15/2023 10:30 AM

	rains, bags rip, and during the hot days can smell very bad	
165	Every two weeks is too long in between. May have to cut grass 4-5 times in two weeks. Bags sit there for too long.	11/15/2023 10:08 AM
166	We put the bag(s) out and it doesn't get collected until the following week. When it rains after it's put out but before it's picked up, we can't move the bags without breaking them. We have to put them in front of where I park, so that limits our ability to park in a secure space.	11/15/2023 9:54 AM
167	Stores are often out of stock of bags and I don't have reusable buns to store yard waste in	11/15/2023 9:33 AM
168	In the growing season, if I have yard waste, it smells if it has to sit two weeks until pick up. I used to love weekly pick up	11/15/2023 9:32 AM
169	I cut my lawn every week and holding my cuttings in bag for two weeks the grass begins to smell awfull. It should be collected every week as does my neighbours cuttngs.	11/15/2023 9:27 AM
170	The city should be pushing and perhaps incentivizing the usage of reusable containers for yard waste pick-up. Too many paper bags are being produced and used.	11/15/2023 8:56 AM
171	The cut off date is sometimes too early in the season. Like this year. We just raked up two more bags of leaves yesterday but the last yard pick up was nearly two weeks ago.	11/15/2023 8:52 AM
172	Yard waste in the fall should be picked up every week and should be extended further into November	11/15/2023 8:47 AM
173	they don't get picked up on the same day as the garbage. sometimes its a couple days before and sometimes its a couple days after. when they come a couple days early i usually miss them.	11/15/2023 8:34 AM
174	Sucks	11/15/2023 8:33 AM
175	Pickup should be once a week on regular garbage day. Grass/leaves etc. stink in a few days during the summer and make the garage & home smell terrible.	11/15/2023 8:14 AM
176	I do not like that yard waste needs to be put into yet another type of bag that we have to purchase. Why can't it just be put into a bin that we already have?	11/15/2023 8:10 AM
177	There have been many times where it was not picked up for multiple weeks on end, despite being set out and visible for pickup. Became smelly and gross	11/15/2023 8:06 AM
178	It should be every week. I don't like grass clippings setting around rotting, smelling and deteriorating the bottom of those [redacted] brown bags.	11/15/2023 8:04 AM
179	I do not like that I have to store yard waste while waiting for the pickup date.	11/15/2023 7:59 AM
180	Yard waste pickup was suspended for the Eason prior to the trees dropping the majority of their leaves.	11/15/2023 7:27 AM
181	I never know when they are coming to pick up yard waste	11/15/2023 6:46 AM
182	I wish it were every week	11/15/2023 6:31 AM
183	Although we followed the specifications often it wouldn't be picked up	11/15/2023 6:03 AM
184	Yard waste collection should occur every week.	11/15/2023 5:53 AM
185	It should be every week.	11/15/2023 5:49 AM
186	Once every two weeks is not enough. The smell, especially during the hot months is unbearable	11/15/2023 3:23 AM
187	Weekly pickup in the fall should be considered in areas with lots of trees	11/14/2023 11:46 PM
188	Lots of leaves for once every two weeks	11/14/2023 11:34 PM
189	Sometimes they do not pick up the day they are supposed to and then it sits for a while or til next cycle	11/14/2023 11:29 PM
190	Two weeks is to long to have yard waste sitting by my curb	11/14/2023 10:05 PM
191	Sometimes it's picked up the night before and we get missed. If the paper bags are out in the rain the bottom falls out and now all the clips are left in a big wet mess.	11/14/2023 10:05 PM

192	It's mid November, I still have leaves falling and no snow and would like to dispose of my leaves as yard waste	11/14/2023 10:02 PM
193	Unsatisfied because I need to cut a large yard with very large ditches every week and the bags get wet from rain and fall apart when left long. They smell and I have no where to store them all until pick up!	11/14/2023 9:58 PM
194	In the summer we have multiple yard waste bags weekly - large yard - the crews won't pick up wet bags - or bags they think are too heavy and have - on numerous occasions just didn't stop - I work from home and my office looks over my driveway and I see them stop at neighbours on either side that have "little" bags - but drive by ours that may have 2-3 Full Bags	11/14/2023 9:46 PM
195	think it needs to be more frequent and i think paper bags are unpractical because if the leaves grass etc is wet the bag gets wet and tears.i think paper is not environmentally friendly save a tree and save the planet nothing better to reduce carbon than a tree	11/14/2023 9:45 PM
196	Sometimes doesn't get picked up	11/14/2023 9:34 PM
197	Yard waste is rarely picked up on time	11/14/2023 9:22 PM
198	Pick up Every second week is not often enough for grass and leaf clippings in peak season	11/14/2023 9:01 PM
199	My yard waste was refused because it was wet	11/14/2023 8:57 PM
200	Yard waste should be collected once a week in May and October when people are doing spring and fall cleanups. Otherwise you see neighbours' yard waste bags sitting out on the boulevards for two weeks.	11/14/2023 8:47 PM
201	They are not consistent with the pick up days, coming days early some weeks	11/14/2023 7:52 PM
202	Yard waste should be picked up every week along with the garbage and recycling. Every 2 weeks is to long and it attracts bugs and stinks. Once a week would be a hundred times better.	11/14/2023 7:39 PM
203	Not frequent enough, grass clippings stink and in the fall too many leaves and not enough cans.	11/14/2023 7:27 PM
204	It could be every week because it looks terrible on the Boulevards when the wet paper bags decompose because people will put it out 1 half weeks early to be picked up	11/14/2023 5:08 PM
205	It was not provided long enough this year as many trees kept their leaves after the last pick up. Also Charleswood receives pick up every 2 weeks. I understand River Heights has pick up twice a week!! Why the discrepancy?? Does the City think there are no trees in Charleswood & other areas of the city.	11/14/2023 4:40 PM
206	The yard waste should be picked up weekly instead of biweekly.	11/14/2023 3:20 PM
207	Waste festers in off weeks, rain weakens bags and the bottom falls out. Much more effective to put everything in the garbage.	11/14/2023 3:03 PM
208	I'd rather see the leaves go into plastic bags and burned	11/14/2023 2:50 PM
209	There is no way that yard waste is picked up every two weeks. There is an opportunity for more frequent pick-ups	11/14/2023 2:45 PM
210	composting leafs and grass should be no different then other compostable garden waste and it should be free as it diverts waste	11/14/2023 2:28 PM
211	When possible, leaf collection should be discouraged, as raking leaves is harmful to the natural ecosystem	11/14/2023 2:23 PM
212	every 2 weeks is not enough sometimes. Yard waste with paper bags is horrible if it rains and no pickup right away. Constantly having to re-bag, or throw in garbage because the bags storing for more than a week rots the bags. So either that or you don't mow or weed for multiple weeks so you don't keep up with maintenance. Would rather be weekly, but then can put out on the weeks needed as I do for recycling.	11/14/2023 12:56 PM
213	yard waste should be weekly May-November. Bags get soaked by rain waiting for two weeks	11/14/2023 12:44 PM
214	The yard bags often break down before they are picked up. They smell and leave a huge mess. I'd prefer more frequent pick up or a better system to store the waste.	11/14/2023 12:02 PM

215	Yard waste removal should be weekly - grass sits in yard waste bags in the heat/rain and start to smell and/or get wet and break down	11/14/2023 11:58 AM
216	During the spring and fall cleanups, the yard Waste pickup should be weekly. Bi-weekly is okay for the summer months.	11/14/2023 11:25 AM
217	There are not enough pickups during the season, and if I miss it I have to wait another two weeks. If it rains during that time, the bags fall apart and I have to clean it up again.	11/14/2023 10:59 AM
218	They rarely take the yard waste when they're supposed to	11/14/2023 10:55 AM
219	Once again, inconsistent pickup of this as well on my street and therefore I have call 311 to complain. I have had yard waste bags duttifully placed out at the end of my driveway for 4 weeks in row and they are just ignored.	11/14/2023 10:41 AM
220	Yard waste pickup season ends about two weeks too early each year, before all the leaves have fallen.	11/14/2023 10:29 AM
221	Most of the time I put out yard waste they say the bins are to heavy and refuse to take them without even trying to pick up a bin to verify the weight, if I use the bags and it rains they fall apart and they refuse to take them also. They also tear the bags sometimes and just leave the mess behind. They don't put any effort into making sure garbage and recycling bins are empty, I have found them up to half full after pickup, and mice are becoming a huge issue in our area.	11/14/2023 10:27 AM
222	having to keep grass clipping and garden waste out of the elements to keep them dry or they get very stinky	11/14/2023 10:04 AM
223	Sits too long, if it rains bags become mush and rip. Many times I have had to shovel it up and use another bag.	11/14/2023 10:04 AM
224	Yard Waste should be picked up every week May through October.	11/14/2023 9:59 AM
225	I think that pick-up should be weekly since it is seasonal. I have a lot of yard waste in spring, summer, and fall.	11/14/2023 9:50 AM
226	I find that the yard waste pickup isn't often enough. My paper bags are often rotten and wet on the bottom	11/14/2023 9:28 AM
227	It should be run like the snow program. Sometimes there is a need to have it weekly. (Spring) especially fall). Otherwise biweekly is fine	11/14/2023 9:02 AM
228	They almost left our bags of waste because there were a few wasps. I happened to be home & had to go politely encourage them to collect the waste bags of apples, otherwise they were putting a tag on it saying they wouldn't collect it. I feel like collecting yard waste, wasps are part of the job sometimes.	11/14/2023 8:47 AM
229	Would prefer weekly. In the growing season I have grass clippings, weeds etc, weekly. I end up putting them in the regular garbage quite often. Would prefer weekly pick up.	11/14/2023 8:11 AM
230	It's hard to remember when to put it out and often it's not picked up for a day or two	11/14/2023 7:44 AM
231	They often do not pick up out bags even on our designated day. At the end of the season, most years, our last pickup is not done and then we have rotting yard waste to deal with that gets snowed/rained on and frozen into the ground	11/14/2023 7:32 AM
232	When it rains the paper bags fall apart and then I'm picking up garbage for a second time which is hard for an older person with health issues	11/14/2023 6:40 AM
233	They do not come often enough. Need a weekly program- same as garbage.	11/14/2023 2:00 AM
234	Because 2 wks is far too long. Yard waste STINKS in the hot summer and I will NOT accept this. On off weeks, the grass clippings go in the gray bin.	11/14/2023 1:44 AM
235	Service not available for condo/apartment buildings (as far as I know)	11/13/2023 11:18 PM
236	Always miss our street	11/13/2023 11:00 PM
237	In the summer it should be weekly	11/13/2023 10:34 PM
238	Often hard waste is missed so the bad gets wet or disintegrates before yard ease is picked up, it should be weekly so that you don't have a collection of paper bags becomes fire risk!	11/13/2023 9:56 PM

239	Put out my waste bag 3 weeks in a row and it was not picked up. Still have it	11/13/2023 9:07 PM
240	Yard waste collection does not start early enough in the spring. Also, every two weeks is not frequent enough. I have yard waste every week. I find that grass clippings and other plant materials start to compost when they are sitting in a bin waiting two weeks for collection, and the containers get very heavy.	11/13/2023 9:05 PM
241	during the summer, especially in the spring and fall it should be every week	11/13/2023 8:38 PM
242	In 2023 the last day for yard waste was the 30 Oct which is way to early. Previous years it ended the middle or end of November. Now I have to store bags of yardwaste till next year which pisses me off or I will put it in the garbage which a lot of my neighbours are doing and they are pissed off as well.	11/13/2023 8:05 PM
243	It's unclear when the yard waste pick up is going to be. The bags we can use are relatively useless once they get wet. Would rather have a yard waste bin along with a compost bin.	11/13/2023 7:47 PM
244	I've seen leaf bags sitting for weeks with no pickup and then vandals tear the bags apart littering the streets	11/13/2023 7:13 PM
245	G4 life has destroyed multiple bins and then I get charged to get them replaced as well has having to miss collection days and have to pay them through my taxes	11/13/2023 6:30 PM
246	When owned a house prior to renting the sevice was an arson target for young offenders putting pit waste .	11/13/2023 6:27 PM
247	It should be pick up every week, as when it rain the bags get soggy and tend to fall apart.	11/13/2023 6:21 PM
248	I am not aware of how it works, not advertised enough	11/13/2023 4:54 PM
249	Paper recycling bags of poor quality and often leak/ tear open when wet or sit for 2 weeks. Also costly when they are just disposed of anyway. Don't use own plastic bins as storage for several bins needed to accommodate our grass and garden clippings	11/13/2023 4:48 PM
250	needs to start sooner and needs to go significantly later in the year	11/13/2023 4:18 PM
251	It should be more often in the spring and fall	11/13/2023 3:30 PM
252	The pickup date is not consistent at all, some days they come the same days as the garbage & recycling pickup and other times they come the day before. Many people in our neighborhood missed the time to toss out their last bag of yard waster after Halloween because the pickup was done the day before it was usually scheduled and most people don't just leave the bags out all week since they are paper and could be a risk if it gets wet and falls apart or if its too dry and a cigarette or someone with a lighter burns it.	11/13/2023 2:57 PM
253	It should be weekly.	11/13/2023 2:53 PM
254	I don't like having to store yard waste for weeks. If it rains, bags get soggy. I also dont like having to buy bags. That's [redacted] I'll fill up the blue bin if there no pickup that week	11/13/2023 2:43 PM
255	Could be weekly.	11/13/2023 2:26 PM
256	They do not collect on the date scheduled. It seems to be random.	11/13/2023 2:09 PM
257	The pick up service does not happen here.	11/13/2023 2:09 PM
258	It's not clear when the yard waste will be picked up.	11/13/2023 1:57 PM
259	For whatever reason they do a pre-pickup the day before that really doesn't make any sense.	11/13/2023 1:49 PM
260	Pickup is often missed	11/13/2023 1:48 PM
261	The organic matter often gets left for too long. We have had yard waste cause strong odors that smell like cow poop, and burst into flames from sitting and decomposing.	11/13/2023 1:46 PM
262	There many times where are yard waste isn't even collected	11/13/2023 1:37 PM
263	Due to the rules that say your yard waste must be in paper bags, or easily emptied bins, our yard waste tends to rot and smell, or if it rains and the bags get wet then you're stuck having to re bag everything. I've been to city's that use bins similar to garbage collection bins for yard waste and it seems to make more sense then using trees/paper bags.	11/13/2023 1:37 PM

264	I would like yard waste picked up every week	11/13/2023 1:37 PM
265	Spring and fall should be weekly.	11/13/2023 1:34 PM
266	My yard service has to pay what are extra fees to take my waste to the central depot. Why should I pay twice?	11/13/2023 1:33 PM
267	The paper bags for recycling are expensive and fall apart easily in rain. Trimming branches small enough to be taken is very time consuming. A better system would be appreciated	11/13/2023 1:21 PM
268	Hard to know when it is scheduled	11/13/2023 1:18 PM
269	It should be weekly, the amount of leaves sitting and rotting and inviting rodents is disgusting.	11/13/2023 1:16 PM
270	The limit with using paper bags, especially when the trucks do not pick up the bags and they become soaked. I would consider more trucks in neighborhoods with a lot of trees	11/13/2023 1:16 PM
271	City service a joke for what we pay in taxes	11/13/2023 1:05 PM
272	Contractors do poor work	11/13/2023 1:04 PM
273	I wish it was better advertised.	11/13/2023 1:02 PM
274	Lack of composting in a major Canadian city is appalling. It would help bring down garbage weight and have citizens become more aware of their food waste.	11/13/2023 12:52 PM
275	The program should be extended into December to ensure pickup of yard waste at the very end of the season.	11/13/2023 12:37 PM
276	Weekly would be better	11/13/2023 12:30 PM
277	Don't know much about it such as how to access the program or who's eligible.	11/13/2023 12:29 PM
278	I have yard waste to be picked up weekly	11/13/2023 12:25 PM
279	Should be every week	11/13/2023 12:18 PM
280	It would be best to have it more often. Once per week	11/13/2023 12:18 PM
281	The schedule doesn't seem to be accurate	11/13/2023 12:13 PM
282	Yard waste pickup should be done weekly starting late October until the program ends due to the amount of yard waste (leafs/garden). With the change in weather comes more rain and the bags get destroyed prior to being picked up.	11/13/2023 12:08 PM
283	Not a clear enough schedule for people who end up leaving bags of leaves near garbage pickup for weeks on end waiting for pickup occupying usable space by other people.	11/13/2023 12:07 PM
284	It should be every week. Leaves and grass get very smelly sitting in the sun and rain for 2 weeks	11/13/2023 12:05 PM
285	Collection never comes on the scheduled day so the paper bag rots and rips.	11/13/2023 12:01 PM
286	A bi	11/13/2023 11:57 AM
287	Should be weekly during the summer so grass cuttings aren't sitting in my garage or outside rotting. The service should also be weekly until the leaves fall in the Fall	11/13/2023 11:56 AM
288	We mow or lawn 3 times per week. This generates several bags of clippings that sit around, get soft and start to smell. Many times the yard waste bags would wind up on the black garbage bin.	11/13/2023 11:40 AM
289	Weekly would be better	11/13/2023 11:38 AM
290	A lot of times, it will not be picked	11/13/2023 11:32 AM
291	Waste of money	11/13/2023 11:32 AM
292	Collection needs to continue longer into fall and should be weekly in fall	11/13/2023 11:22 AM
293	More often than not they don't come for pickup. I still have a bag out back from early October.	11/13/2023 11:21 AM
294	Needs to be done weekly	11/13/2023 11:19 AM

295	In the last 10 years my quarterly City of Wpg Water and Waste bill has increased 130%. This kind of rate increase is completely unsustainable. Where is all of this money going?	11/13/2023 11:12 AM
296	pick up more often.	11/13/2023 11:01 AM
297	Curbside pickup of leaf, grass clippings and yard waste is NEVER on time, chronically late; resulting in a mess on the streets when brown bags decay and fall open because of rain.	11/13/2023 10:57 AM
298	Too hard to remember schedule	11/13/2023 10:47 AM
299	With weather exposure, the yard-waste bags do not hold up for the week or week and a half waiting for pick-up. Thus, the yard waste gets distributed at the end of the yard instead of getting cleared.	11/13/2023 10:46 AM
300	Needs to be weekly in the autumn!!!	11/13/2023 10:44 AM
301	In the fall it should be every week.	11/13/2023 10:29 AM
302	There is too much yard waste to hold over fir 2 weeks. Once every week would be prefered	11/13/2023 10:28 AM
303	The pick up people just throw the recycle containers everywhere Not back where they go	11/13/2023 10:27 AM
304	Everyone puts their bags out on the curb for weeks, waiting for the leaf pickup days. It's ugly and messy.	11/13/2023 10:26 AM
305	It needs to be every week, during may and June, then again in October	11/13/2023 10:20 AM
306	The pickups are not frequent enough in the fall leading me to have to store yard waste for extended periods and the paper bags deteriorate in this time	11/13/2023 10:10 AM
307	Yard waste is stored in paper bag which if not stored inside usually get wet before pickup. A dedicated bin would be better.	11/13/2023 10:10 AM
308	I would prefer to have this collected every week	11/13/2023 10:08 AM
309	should be every week	11/13/2023 9:55 AM
310	Because it's been skipped a few times and the bags get soaked and bust open and all the yard waste get blown around the lane	11/13/2023 9:48 AM
311	I would prefer weekly.	11/13/2023 9:41 AM
312	It's not dependable, they don't come when it's on the calendar to come	11/13/2023 9:39 AM
313	If we've had heavy rain, the paper bags start to disintegrate by the time of pickups	11/13/2023 9:33 AM
314	It would be nice if it was every week!	11/13/2023 9:31 AM
315	I believe that yard waste with composting added should be picked up weekly. Recycling weekly and garbage every 2 weeks	11/13/2023 9:27 AM
316	During those months, leaf pickup should be every week, it is a fire hazard to have those paper bags full of dry leafs.	11/13/2023 9:25 AM
317	I think the leaf & yard waste collection should happen once per week. The bags don't fair well in rainy weather and it makes it starts to stink after two weeks.	11/13/2023 9:19 AM
318	Leaf pick up should be weekly	11/13/2023 9:11 AM
319	Yard waste should be collected every week during late spring, summer, & early fall	11/13/2023 9:09 AM
320	often they do not pick up and I have to call to get it picked up on a separate day	11/13/2023 8:57 AM
321	I feel the yard waste collection period could be longer (April-Nov?) and should definitely be weekly during peak times in the spring and fall. Bags end up sitting far too long and start getting rained on, rotting, etc.	11/13/2023 8:53 AM
322	not picked up often enough	11/13/2023 8:46 AM
323	Used to run final month (October) as a weekly pickup as end of season yard waste accumulates at this time…reinstate this.	11/13/2023 8:46 AM
324	The bags used for leafs get wet and break	11/13/2023 8:36 AM

325	its always picked up late	11/13/2023 8:32 AM
326	Often not picked up so paper bags sit and rot	11/13/2023 8:31 AM
327	Yard Waste should be collected every week in the months that it is run or you should have various drop off locations not just the 4R depots. Grass clippings smell, it rains, bag rip and follow apart after sitting for for collection every two weeks. Also, based on the number of people who illegally leave yard waste at the St James Civic Centre it should tell you that collection should be every week or that there is a need for extra drop off locations.	11/13/2023 8:26 AM
328	Needs to be weekly in the fall and go later into the season. Still have leaves to be picked up after the last pick up date.	11/13/2023 8:18 AM
329	Often collection doesn't occur on specified dates and I have to phone for pick up. Pick up dates end too early.	11/13/2023 8:06 AM
330	should be weekly	11/13/2023 8:06 AM
331	Doesn't often come to pick up on the day scheduled; it's often the next day: if it rains, the bags get wet and spill.	11/13/2023 8:02 AM
332	Needs to be weekly. Again, city services being eroded. Yet taxes keep going up. This survey is being used to justify cuts in service.	11/13/2023 8:01 AM
333	During the summer months, yard waste should be picked up every week. When grass clippings sit for more than a few days it starts to stink. I have more yard waste than recycling. Recycling can be picked up every second week.	11/13/2023 7:57 AM
334	Not frequent enough or reliable.	11/13/2023 7:57 AM
335	My yard waste bags are never collected and I end up taking them to 4R myself. AFTER they have sat next to my bins for weeks and are soaked through and rotten. This has been the case for years.	11/13/2023 7:38 AM
336	Many times my garbage is missed	11/13/2023 7:33 AM
337	They don't come on the day they say and twice I was collecting yard waste and they drove by. Really inconvenient.	11/13/2023 7:32 AM
338	Pickup is inconsistent. This year it ended too early.	11/13/2023 7:26 AM
339	They have often come a day before they are supposed or have totally missed picking up our yard waste bags and we have to wait another two weeks before they come again.	11/13/2023 7:24 AM
340	Waste of money I compost	11/13/2023 7:23 AM
341	Not enohgh pickups	11/13/2023 7:15 AM
342	Employees don't ensure to take everything. Leave yard waste behind, throw the bins all over the yard. Just seems to be some lack of professionalism is general..	11/13/2023 7:09 AM
343	It should be weekly. I end up putting yard waste in the garbage.	11/13/2023 7:05 AM
344	It should be every week. The bags smell in the hot sun and break down in the rain.	11/13/2023 7:03 AM
345	The cost of brown bags is passed to consumer. Cutting branches to "size" is often very difficult, and brown bags are not suitable to pack branches. Adequate/appropriate containers should be provided to homeowners seasonally.	11/13/2023 6:47 AM
346	I often only need waste and recycling every 3-4 weeks. But yard waste is tricky. If I've done a lot of yard work, then it is hard to wait 2 weeks. It would be nice if it was every week. Sometimes leaves are wet and rotting and then I have to wait 2 weeks and the bags disintegrate. If yard waste and compost were combined and picked up every week, I would only need garbage waste once a month and recycling every 2-3 weeks.	11/13/2023 6:25 AM
347	Too often, the bags are rejected for no reason.	11/13/2023 2:45 AM
348	They often come on days not listed on the garbage/recycling calendar, so I have missed pickup	11/12/2023 8:30 PM
349	It is not regularly enough. Need more information about the compost program. I have a foodcycler I use in my home but would prefer a city service	11/11/2023 11:50 PM

350	In the fall, we wish yard waste pick up was weekly. Also this year, yard waste seemed to come not the same day as garbage on a couple occasions.	11/11/2023 10:14 PM
351	Two weeks is not often enough and sometimes it's a day or two late. It's hard to know when it will be.	11/11/2023 8:59 PM
352	The bags that we have put out in the past were not picked up.	11/11/2023 8:38 PM
353	My yard waste was not always picked up on the due date. Also my yard waste put into open cans was not always picked up.	11/11/2023 6:49 PM
354	Weekly pickup would be better	11/11/2023 6:26 PM
355	The fact that I have to purchase bags so the city can collect them is NOT convenient. We/I place my yard waste right into the garbage cart. A yard waste collection program is an absolute waste of taxpayer's dollars, and Winnipeg would be much better serviced with a Green Bin collection program instead. Scrap the yard waste collection!!!	11/11/2023 8:57 AM
356	I think it should be weekly.	11/10/2023 9:43 AM
357	It would be better if the city also spoke to the environmental impact of removing all the lawn waste from lawns. Better to keep the clipping and leaves as mulch than to have them removed!	11/9/2023 1:07 PM
358	My leaves are still sitting on my driveway in bags.	11/9/2023 8:08 AM
359	Our yard waste has been forgotten to be picked up a few times and then the bag got wet and broke open	11/9/2023 6:40 AM
360	I'm paying for a service I don't use… I compost.	11/9/2023 5:02 AM
361	It should be a weekly service! Especially in the spring and fall!!	11/8/2023 11:04 PM
362	need info on how branches to be put out and dont want to buy paper bags for grass	11/8/2023 10:15 PM
363	Never know when it is	11/8/2023 9:48 PM
364	I would like the yard waste to be collected weekly as it is in Surrey BC. Compost or green waste is collected with yard waste there on a weekly basis while garbage and recycling alternate weeks	11/8/2023 8:07 PM
365	Where can we go to get compost for free?	11/8/2023 9:59 AM
366	Yard waste should be collected weekly.	11/7/2023 6:46 PM
367	No communication of yard waste recycling schedule.	11/7/2023 2:28 PM
368	We live on Robert Bockstael Dr, which is a new block. We had numerous yard waste bags that would not be picked up this past summer	11/7/2023 2:17 PM
369	I don't participate but many of our neighbors do and a lot of times their stuff is out there for days and days at a time. This is one of the reasons I don't participate.	11/7/2023 11:11 AM
370	Smell and bags getting wet	11/7/2023 8:08 AM
371	In Spring & Fall it should come weekly instead of every two weeks. Leaving yard waste in the blue bins for a week or longer attracts pests and wasps to crab apples.	11/7/2023 7:23 AM
372	Many times the yard waste is sitting in my back lane for a month because they miss the pick up and then it becomes soggy from the rain and I get a yellow tag and have to scoop it into the garbage bin anyway.	11/7/2023 6:33 AM
373	Hate the bags. Why not a separate bin? We previously lived in Dauphin which has a separate garden waste bin picked up every two weeks from April to October	11/6/2023 9:18 PM
374	The paper bags often get wet and fall apart before collection day, and I have no where to store them	11/6/2023 9:05 PM
375	Late pickups and on a number of occasions not picked up at all or if it is raining certain bins are left full while they take the lighter bags.	11/6/2023 9:03 PM
376	It's not picked up every two weeks.	11/6/2023 7:33 PM

377	It's just not often enough. We want it gone not smelling up the garage or disintegrating in rain.	11/6/2023 4:31 PM
378	I don't appreciate keeping smelly lawn clippings for 2 weeks. During spring and fall when yards are being cleaned up, storing numerous bags can be very difficult. Hauling bags to the curb with decomposing yard matter, especially after a Heavy rain is gross and disgusting. I have often come away wet from dripping bags.	11/6/2023 2:41 PM
379	They refuse most yard waste and tag it, the bags rip easily. They do not come by often for pickup.	11/6/2023 12:56 PM
380	Search the landfills	11/6/2023 12:35 PM
381	I have since moved, but at my previous residence pick-ups were not happening every two weeks.	11/6/2023 8:44 AM
382	Leaves/grass clippings should be picked up every week. It gets very smelly sitting for 2 weeks. Bags get wet and then when picked up bag rips and all of is in the backlane	11/6/2023 7:49 AM
383	Pickup is not frequent enough for those who have large yards and lots of grass	11/6/2023 7:10 AM
384	Needs to be more frequent.	11/5/2023 11:26 PM
385	The bags tend to get wet and the bottom falls out when you move it…a green bin would be much better	11/5/2023 10:14 PM
386	Yard waste pick up needs to be every week during the summer. Many people end up putting their yard waste in their garbage bin during the off week.	11/5/2023 10:10 PM
387	Weekly from mid sept-november and run it until the snow falls, leave are falling all the way thru fall so run the entire season. Take the budget off the street cleaning division. I've worked there a lot unreal amount of wasted money!!!	11/5/2023 10:04 PM
388	Pick up should be every week.	11/5/2023 8:53 PM
389	It should be weekly and in separate bun not bags	11/5/2023 8:21 PM
390	Need weekly pick-up.	11/5/2023 7:13 PM
391	Not picked up often enough	11/5/2023 5:35 PM
392	Keeping lawn waste in a paper bag for 2 weeks in certain weather causes it to break apart as the bag disintegrates.	11/5/2023 4:22 PM
393	I have enough yard waste for weekly pickup and if it rains the bags are garbage	11/5/2023 3:06 PM
394	the pick up is consistent	11/5/2023 2:30 PM
395	I compost, so anything that would fit into a paper bag goes into my bin. I am left with twigs, weeds and roots. It would be easier to get a tree branch through the eye of a needle than it is to get it into an awkward giant paper bag.	11/5/2023 2:23 PM
396	Often, the yard waste will be collected the day or evening before the collection date. It will sit for nearly a month if not reported or disposed of in other ways.	11/5/2023 11:34 AM
397	Pickup should be weekly for yard waste especially during summer months with lawn clippings.	11/5/2023 10:49 AM
398	i would like it every week.	11/5/2023 10:43 AM
399	Hasn't been picked up a few times	11/5/2023 10:00 AM
400	it should be weekly, the bags disintegrate before they are collected	11/5/2023 9:42 AM
401	Would prefer more often during peak spring and fall cleanup. During summer alternate week schedule works fine	11/5/2023 8:49 AM
402	Need longer season, more frequent in late summer/fall. Collectors frequently leave stuff behind and make a mess.	11/5/2023 8:40 AM
403	I would prefer my leaves/yard waste picked up weekly	11/5/2023 7:54 AM
404	I compost my lawn and kitchen waste. I would have to store my lawn waste for 2 weeks which takes up space and if stored outdoors is susceptible to scattering by weather and hooligans.	11/5/2023 7:41 AM

	Additionally, it's not environmentally friendly or economically sound to be purchasing expensive paper yard waste bags to satisfy the city.	
405	Yard waste can generate a lot of bags. If it difficult to store them for two weeks and I'm not always aware of when the pick up is.	11/5/2023 7:34 AM
406	Many weeks are missed. Not uncommon for yard waste to only be picked up once per month	11/5/2023 7:08 AM
407	I don't want to have to buy extra bags for this program	11/5/2023 7:05 AM
408	I have yard waste every week. In the hot months it sits and rots in brown paper bags. The smell is terrible. It should be picked up every week. Sometimes the bags break and they leave a mess for me to clean up	11/5/2023 6:43 AM
409	People leave in out so it stinks for 2 weeks accumulating pests	11/5/2023 5:58 AM
410	vegetation gets very smelly sitting for 2 weeks in the summer sun/heat	11/5/2023 4:59 AM
411	Every 2 weeks is not often enough.	11/5/2023 1:06 AM
412	Why can I put vegetable garden waste like tomato plants & rotten tomato from garden in the bag but I can't put uncooked kitchen vegetable waste (excluding eggs)in it? It makes no sense. Both are the same	11/5/2023 12:25 AM
413	I feel it should be each week not every second week. It's ok if it's a drier summer but if not most people cut thier Grass once a week. Then the bags have to sit until the following week, which isn't a very good look being I have a front drive.	11/4/2023 11:44 PM
414	Need any early November collection	11/4/2023 11:43 PM
415	Pickup should be weekly especially in fall	11/4/2023 10:19 PM
416	Would rather it be weekly	11/4/2023 10:12 PM
417	Collectors almost always leave a mess on the street, toss eligible bins which get broken or end up rolling down the street	11/4/2023 9:31 PM
418	Would be better to have it as a weekly service like it is in Brandon	11/4/2023 8:05 PM
419	Yard waste should be collected every week from mid September until end of the season. Pick should extend until mid November not to end of October.	11/4/2023 6:58 PM
420	Unreliable service. Not always picked up on the date specified by the city. Especially true at the start up and end periods of the service.	11/4/2023 6:25 PM
421	During peak times there are a lot of yard waste bags in the back lane. They sit there and then if it rains, they rip leaving a mess. It would be better if there was a pickup weekly.	11/4/2023 6:01 PM
422	Pick up us inconsistent. Pick up every week would be more useful. We have several large elm trees and need more frequent pick up in the Fall	11/4/2023 4:59 PM
423	The day they come is variable	11/4/2023 3:24 PM
424	The city should add an extra pick up in high seasons. For example:extra pick up in spring time and fall.	11/4/2023 2:42 PM
425	Sometimes see them come around the weekend before yard waste day to collect and then again on yard waste day. If I know they're coming I would out out so I can reuse my bins instead of using paid for bags.	11/4/2023 2:24 PM
426	I think the company should be looked into on how they treat their employees. The workers that come here for yard waste work hard	11/4/2023 7:57 AM
427	It is needlessly complicated. Just make it part of normal garbage pickup.	11/3/2023 8:28 PM
428	They miss picking up our yard waste at least 4 times a season	11/3/2023 5:22 PM
429	Yard waste should be a bin service. I said that in a previous answer because it wasn't clear to me there would be space to talk about this issue separately from the overall collection services. My biggest recommendation is to get bins like they have in Brandon MB. Convenient, clean and waterproof, and inexpensive for citizens. Please!!!!	11/3/2023 3:06 PM

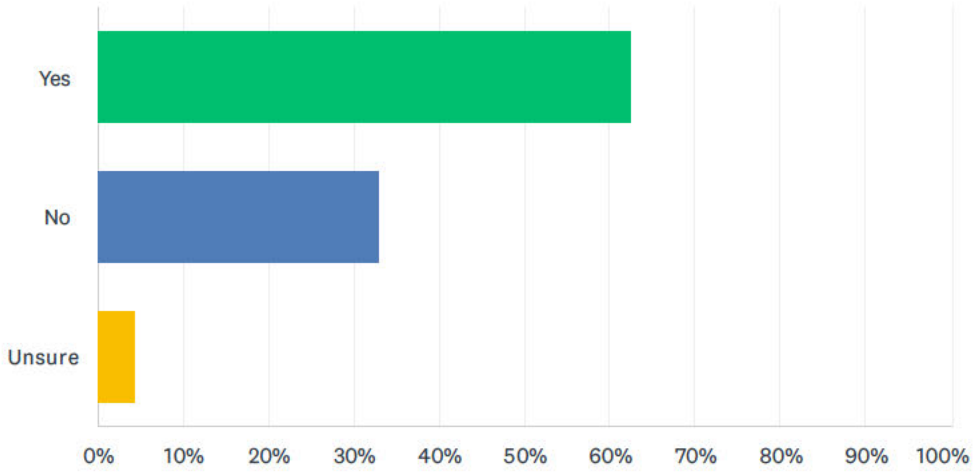
430	Numerous times go by and bags of leaves will sit outside my house for three or four weeks.	11/3/2023 1:36 PM
431	More pickups are needed particularly in the fall with all the leaves. I still have 13 yard waste bags and there are no more pickups	11/3/2023 12:22 PM
432	Not frequent enough Not convenient or intuitive schedule	11/3/2023 11:15 AM
433	Paper bags are a problem as no where to store them Wet bags fall apart every 2 weeks not really acceptable	11/3/2023 10:09 AM
434	Collection of yard waste should be weekly. I have bags/bins waiting every week	11/3/2023 9:52 AM
435	having pick up every 2 weeks means our bags sit out there in the rain and are an eyesore/huge mess	11/3/2023 9:19 AM
436	They leaves should be picked up weekly. sometimes i have to haul over 20 bags and its difficult for a senior	11/3/2023 8:25 AM
437	waste of public money. I compost	11/3/2023 1:42 AM
438	People dump numerous bags these items off at the St. James Civic centre when it says no dumping. It's sad to see so many people ignore the signs. Obviously there is a need for people to drop off more compostable items such as leaves, tree limbs etc. There should be more overall awareness of the costs of composting. Should this be done? Why is Winnipeg supporting inefficient use of energy transporting 20+ bags for a single house to ensure Winnipegers have an aesthetically pleasing yard? That is not sustainable and should not be promoted. There has to be a limit on how much leave bags can be composted. In areas like Tuxedo, a compost truck likely gets filled with one or two houses worth of leave bags. It's completely inefficient and promoting unsustainable behaviours and practices.	11/2/2023 10:56 PM
439	I think green carts should be used for yard waste and picked up weekly from May to late October.	11/2/2023 8:58 PM
440	You ended it before the pumpkins could get in this year! Otherwise, it's fine.	11/2/2023 5:57 PM
441	it is limited and the paper bags easily tear through with inclement weather. weekly pick-ups for a longer period would be better.	11/2/2023 5:51 PM
442	Often late or missed pick ups for yard waste. Plus the program should be expanded in October to weekly as for his return s the time everyone gets ready for winter.	11/2/2023 4:38 PM
443	I use a reusable container without a lid and the company keeps missing the container. There is also no room for any extra containers at the end of my driveway because the city has such small driveway approaches.	11/2/2023 3:37 PM
444	Random pickups that rarely follow the schedule.	11/2/2023 2:17 PM
445	Pick up is often missed and I have to call 311	11/2/2023 2:03 PM
446	I do not believe nutrients in yard waste should be removed from the land that produced them. Leaves and grass clippings should be left to rot so as to reduce use of chemical fertilizers.	11/2/2023 1:54 PM
447	Would like it to be more frequently than every two weeks, especially in the spring and fall when there is a larger amount of yard waste	11/2/2023 1:32 PM
448	I would like to be able ti put my yard waste in compostible "plastic" bags instead of the paper yard waste bags.	11/2/2023 1:08 PM
449	my yard waste is often not collected on collection day	11/2/2023 12:46 PM
450	Should be weekly in the summer. I don't have anywhere out of the elements to store full paper bags and they often fall apart before pickup.	11/2/2023 12:35 PM
451	It is often overlooked and left for weeks. It have to call 311 to recify	11/2/2023 12:31 PM
452	I think the yard waste should be picked up more frequently at certain times of the year especially in areas with lots of trees.	11/2/2023 12:28 PM
453	The crews take the bags but often forget to empty my containers	11/2/2023 12:27 PM
454	It should be weekly in the spring and fall	11/2/2023 11:39 AM

455	I think in the spring and in the fall yard waste should be every week. the bags get wet and deteriorate and I have no where dry to store them	11/2/2023 11:37 AM
456	paper bags decompose between collection cycles because it is likely to rain between pickup cycles. It is annoying to plan activities around rain and pickup dates. I notice that many neighbours do not take advantage of this program. I have to scrape/shovel the decomposing leaves off the street into the garbage bin. If I don't do this, the front catchbasin backs up and water doesn't flow or my family and guests step into wet mud and dirt and then track this up the sidewalk and into my house. I probably do this 5-8 times per season, filling my garbage bin. (181 Oak Street)	11/2/2023 11:32 AM
457	We compost into 3 units. Yard waste could be extended both spring and fall.	11/2/2023 11:18 AM
458	They often forget to pick it up. I've seen them collect it with the garbage so it goes in with everything else.	11/2/2023 11:16 AM
459	The yard waste pickups seem very sporadic (sometimes they come on non-collection days) and every 2 weeks is often too long of a stretch in between.	11/2/2023 11:05 AM
460	Sometimes I leave yard waste out and it is not taken.	11/2/2023 10:48 AM
461	The tall paper bags are hard to use (openings are smaller than most rakes) and wet materials like grass clippings soak through and rot the bags. I've lived in other cities where leaf waste is piled at the curb for vacuum trucks and found that to be a vastly superior collection system.	11/2/2023 10:46 AM
462	Sometimes the yard waste is collected on different days as the others therefore it can be early or late and I don't always get it out before it is picked up ie) picked up Monday one time when rest is Tuesday or picked up Wednesday when rest is Tuesday.	11/2/2023 10:38 AM
463	I have disabilities and rely on others to do yard work. If they can't come right before pickup days, the bags often get wet & fall apart or are knocked over/ dumped in the lane.	11/2/2023 10:32 AM
464	Our leaves are often not collected on the garden waste day. The truck is not reliable.	11/2/2023 10:26 AM
465	Should be every week spring and fall.	11/2/2023 10:25 AM
466	Leaf bags sit out too long and then bust open	11/2/2023 10:24 AM
467	Ours has not been picked up	11/2/2023 10:21 AM
468	Yard waste was rarely picked up or was left behind with a tag saying they wouldn't take it although we followed the specifications outlined	11/2/2023 9:56 AM
469	it sometimes isn't picked up on garbage day but a few days later leaving me unsure when the actual pick day is	11/2/2023 9:46 AM
470	In the summer months, July & August, the City should be collecting leaf bags & yard waste (i.e. tree branches) EVERY week.	11/2/2023 9:46 AM
471	It is not frequent enough and seems to be missed a lot	11/2/2023 9:45 AM
472	Far too often they are not picked up	11/2/2023 9:41 AM
473	During the spring cleanup and the autumn leaf cleanup I think it should be weekly pickup. Maybe May and October. The rest of the months can remain at every two weeks.	11/2/2023 9:33 AM
474	I would like yard and food waste together	11/2/2023 9:25 AM
475	Program should be based on needs. Some years garden waste can be collected in November as as early as April. Depends when the snow arrives and disappears	11/2/2023 9:15 AM
476	My bag are often not picked up / left behind	11/2/2023 9:11 AM
477	Many times my yard waste has not been picked up on the dates shown on website.	11/2/2023 9:06 AM
478	Needs to be every week. Bags of grass stink in the heat.	11/2/2023 8:56 AM
479	Pick it up weekly. Yard waste is constantly being done, so it sitting for weeks is a problem	11/2/2023 8:47 AM
480	It should not be only yard waste. The city should alternate between picking up garbage and compostable material alternating every two weeks.	11/2/2023 8:44 AM

481	Almost never gets picked up	11/2/2023 8:43 AM
482	Pickup has been missed several times	11/2/2023 8:37 AM
483	Pickup every two weeks is insufficient during the fall leaf-falling season. Storing bags for two weeks is difficult and impractical. I would like to see weekly pickups during heavy spring and fall yard work seasons.	11/2/2023 8:21 AM
484	There are no clear announcement when are which being collected. If there will be a flyer to send out to let everyone know would be a great idea	11/2/2023 8:16 AM
485	It should be every week during that period. If we get a ton of rain grass grows fast and needs to be cut more often.	11/2/2023 5:05 AM
486	Need weekly pick up in summer weather as grass cutting happens weekly and it's hard to "store" the bags over 2 weeks..	11/2/2023 3:53 AM
487	I would like to see yard waste pickup increased to every week. My yard waste bins get full (we even purchased four more bins two years ago, and now have 6 bins in total with no more room to store anymore), and then we have no place to put further yard waste. This is especially difficult to manage in the fall.	11/1/2023 9:47 PM
488	Yard waste should be picked up every week during spring, summer, autumn. The yard waste bags get wet when they sit on the curb too long and then they rip and spill all over the boulevard. This would be less likely to happen if they are picked up each week.	11/1/2023 7:26 PM
489	I would like it to be every week. Especially at the end if the season	11/1/2023 1:08 PM
490	They always come early (our day is monday and they often come by saturday or sunday before hand) and then the bags have to sit out for two weeks. They get soggy and fall apart	11/1/2023 9:52 AM
491	Not available here.	11/1/2023 1:50 AM
492	Would like it to be more frequent in spring and fall. Also options for larger branches.	10/31/2023 10:41 PM
493	starts too late and finishes too early	10/31/2023 8:35 PM
494	In this area with so many big mature trees yard waste should be picked up weekly in the fall. Impossible to keep so many bags stored and dry for two weeks.	10/31/2023 8:12 PM
495	In the summer yard way should be picked up every week due to volumes	10/31/2023 4:38 PM
496	I have too much yard waste for a bi-weekly pickup. The ammonia smell from the first week attracts animals/rodents into my yard.	10/31/2023 12:28 PM
497	please make it weekly, instead of biweekly	10/31/2023 11:24 AM
498	They keep throwing the bins and breaking them.	10/31/2023 9:13 AM
499	Our yard waste is often picked up on a different day from our shceduled garbage/recycling day with no notice. That means the yard waste stays for another two weeks.	10/31/2023 8:36 AM
500	Not frequent enough during fall cleanup	10/31/2023 7:27 AM
501	It makes a mess in the lane because people put it out anytime and the bags are paper so they disintegrate. No one seems to be aware when it is picked up.	10/30/2023 9:14 PM
502	Not frequent enough	10/30/2023 5:28 PM
503	Yard waste should be weekly.	10/30/2023 4:16 PM

Q15 Grasscycling is when grass is mulched when cut and left on the lawn to decompose, adding nutrients back into the soil. The City encourages grasscycling because grass takes up a lot of space in collection trucks, and can be problematic for composting when there is too much of it. Do you grasscycle?

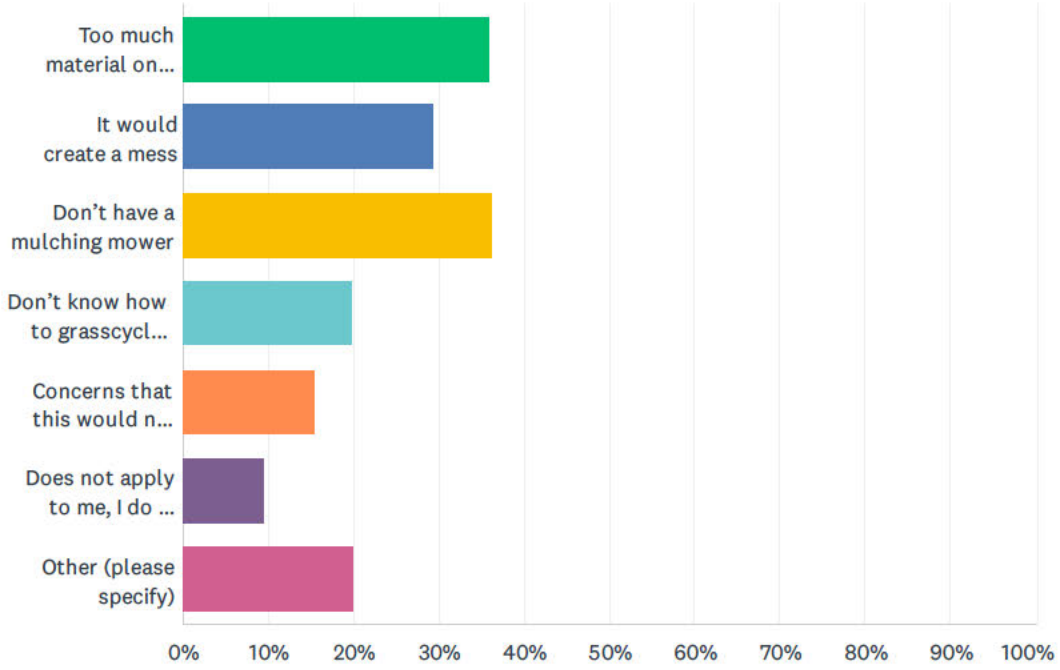
Answered: 8,621 Skipped: 615



ANSWER CHOICES	RESPONSES	
Yes	62.52%	5,390
No	33.06%	2,850
Unsure	4.42%	381
TOTAL		8,621

Q16 Which of the following is the reason you would not grasscycle? (Check all that apply)

Answered: 2,856 Skipped: 6,380



ANSWER CHOICES	RESPONSES	
Too much material on lawn for grasscycling	35.96%	1,027
It would create a mess	29.45%	841
Don't have a mulching mower	36.24%	1,035
Don't know how to grasscycle properly	19.85%	567
Concerns that this would not meet community standards/unsightly	15.55%	444
Does not apply to me, I do not have a lawn	9.56%	273
Other (please specify)	19.99%	571
Total Respondents: 2,856		

#	OTHER (PLEASE SPECIFY)	DATE
1	have a company cut my lawns - they remove the cuttings	11/30/2023 12:40 PM
2	occasionally grasscycle	11/30/2023 11:28 AM
3	I don't know - my husband mows the lawn and refuses to do it	11/29/2023 10:44 AM
4	Wasnt aware that it was recommended or that in was problematic for collection!	11/29/2023 9:46 AM
5	We have grass mowed & removed	11/28/2023 7:43 PM
6	have a lawn care service do my lawn.	11/28/2023 5:43 PM

7	Pets, eat the grass and come in green paws	11/28/2023 2:53 PM
8	I have a dog, not a viable option	11/28/2023 11:28 AM
9	Other household members wanting the lawn to look a certain way	11/28/2023 9:10 AM
10	My lawn care company takes the grass clippings for grasscycling.Also, I compost smaller amounts in my backyardyard.	11/27/2023 1:33 PM
11	We like to leave the clippings on the lawn	11/27/2023 11:59 AM
12	We have a lot of yard waste (leaves from a massive maple tree) but a very small yard.	11/26/2023 11:05 PM
13	It would make the lawn look messy.	11/26/2023 7:29 PM
14	We intentionally let the grass grow long before cutting and it's too long to leave it on the lawn. Leaving our lawn longer means we don't need to water it and the lawn doesn't burn.	11/26/2023 3:21 PM
15	lawn service takes extra grass bags away	11/26/2023 3:16 PM
16	Builds up over time	11/26/2023 3:04 PM
17	too many weeds in my grass	11/26/2023 12:35 PM
18	I bag the grass so my kids can have a clean play area	11/26/2023 10:34 AM
19	Pets bring in too much grass on feet	11/26/2023 9:28 AM
20	I have a grass cutting service.	11/25/2023 6:12 PM
21	I have young kids playing in the yard, and I feel it would make things messier.	11/25/2023 4:12 PM
22	We have artificial turf	11/25/2023 3:58 PM
23	I mulch grass	11/25/2023 3:09 PM
24	reducing leaf litter/yard waste as part of a rodent control strategy.	11/25/2023 1:25 PM
25	increased weeds	11/25/2023 12:18 PM
26	Lawn service removes our clippings	11/25/2023 11:56 AM
27	At present my grass person does not do this.	11/25/2023 9:56 AM
28	I have mulching mower!	11/25/2023 9:02 AM
29	use a lawn service that removes clippings	11/25/2023 8:53 AM
30	condo board does it	11/25/2023 8:50 AM
31	I use a grass cutting service	11/25/2023 8:36 AM
32	Spring gravel piled on lawn, kills the grass	11/24/2023 11:31 PM
33	I have been having insect problems with the amount of thatch on my lawn currently	11/24/2023 10:59 PM
34	j'étends l'herbe coupée sur le sol dans un petit bois à côté de la maison	11/24/2023 10:40 PM
35	Not enough rain the last few years to decompose mulch. Also does not even spread across lawn.	11/24/2023 10:13 PM
36	I have a lawn service, they take everything away	11/24/2023 6:17 PM
37	Would rather grow grass a little longer in some yard areas to point where seeds develop and lawn is self-reseeded.	11/24/2023 5:52 PM
38	concern it would slow growth or kill grass (block light; become compacted)	11/24/2023 3:49 PM
39	it compacts and then you have to aerate more often	11/24/2023 3:04 PM
40	I Contract grass cutting to a company, & they remove cut grass	11/24/2023 2:04 PM
41	My husband is obsessed with having a clean cut yard and wouldn't go for it	11/23/2023 9:35 PM
42	I compost at home	11/23/2023 5:31 PM

43	Messy with dogs in backyard	11/23/2023 3:44 AM
44	The service we use collects the clippings	11/22/2023 5:49 PM
45	Propagation of weeds and attract rodents	11/21/2023 3:06 PM
46	I live in appartment	11/21/2023 2:03 PM
47	we do it sometimes but not all the time. Qn 13 did not allow to answer that way	11/21/2023 11:18 AM
48	Hadn't reconsidered it. I used to grasscycle but went to bagging. Will do more of it next year.	11/21/2023 9:04 AM
49	Dog eats clumps of cut grass	11/20/2023 7:45 PM
50	I do leave clippings on my lawn, my mistake	11/20/2023 1:14 PM
51	allergies	11/20/2023 9:49 AM
52	Too much other trash being dumped on 2-frontage lawn by parked vehicles dumping trash, kids walking to and from school, owners walking their dogs etc.to make mulching a viable or feasible option.	11/20/2023 9:37 AM
53	We compost / use in garden	11/20/2023 9:22 AM
54	Pet eats/plays in grass cuttings	11/19/2023 6:55 PM
55	used mulching mower when had a lawn	11/19/2023 3:18 PM
56	Our lawn is not fenced. We would like to use it for growing vegetables using raised beds eventually. The city has all kinds of rules about how the front yard and boulevard can be used. Neighbors do not maintain their yards either.	11/19/2023 2:02 PM
57	My children play in my yard and would have grass everywhere if left it in the grass every time it's cut. We leave some behind and out rest out for pick up.	11/19/2023 9:32 AM
58	I have a lawn service	11/19/2023 8:45 AM
59	Clippings come in the house on the dog	11/19/2023 6:17 AM
60	We have dogs who would get it caught in their paws and track it everywhere; impractical	11/19/2023 1:21 AM
61	I had no idea this was a recommendation or what it was, first I'm heading of if	11/18/2023 9:32 PM
62	Use a lawn service	11/18/2023 7:23 PM
63	Usually my grass is too long and it would look messy	11/18/2023 6:20 PM
64	We use the grass cutting by mulching and using it for our compost	11/18/2023 6:19 PM
65	I have too many weeds.	11/18/2023 4:18 PM
66	Do sometimes except when grass is too weedy or too long	11/18/2023 2:55 PM
67	Company takes my grass	11/18/2023 9:47 AM
68	To recycle you would need to cut your grass more often using more fossil fuels or electricty	11/18/2023 9:36 AM
69	I don't want the weeds	11/18/2023 7:59 AM
70	Too big of a lawn to do that…	11/17/2023 10:32 PM
71	Refuse to put dandelion seeds back onto the lawn	11/17/2023 8:47 PM
72	Would need to get the condo contractor to grasscycle	11/17/2023 7:51 PM
73	Tried it & lawn doesn't look healthy/green	11/17/2023 7:47 PM
74	I already have a neighbour who calls 311 to complain if anything is in anyones yard for 5 minutes and you come out to harass them	11/17/2023 7:29 PM
75	Worried it would harm grass if too much was left	11/17/2023 5:59 PM
76	Too many leaves from oaks etc in the mulch which can negatively impact the nutrients in the soil. Also have a clover lawn which Too much mulch can suffocate the clover.	11/17/2023 5:39 PM

77	I compost all grass clippings and kitchen cuttings. I will not use a green bin.	11/17/2023 3:16 PM
78	we use a lawn care service, who do not grasscycle	11/17/2023 10:22 AM
79	it kills your grass	11/17/2023 9:37 AM
80	I just throw it in the garbage as its not harmful.	11/17/2023 9:33 AM
81	Grasscycling leaves weed seeds on the lawn thereby requiring more herbicide.	11/17/2023 9:25 AM
82	I will do it from now on.	11/17/2023 8:15 AM
83	didn't know about it	11/17/2023 7:55 AM
84	Love a clean looking lawn	11/17/2023 7:32 AM
85	I use lawn care and they pick up the grass after cutting	11/17/2023 7:19 AM
86	I dont xollect grass. Cut grass goes back to my lawn	11/17/2023 6:56 AM
87	Since grasscycling is a madeup term to get people to do something you want them to do, I'll just go with the fact that it does not make for good lawns or healthier growth.	11/17/2023 3:33 AM
88	I compost my leaf cuttings. I will not use a green bin. All of my kitchen and yard waste is composted. 3 yards of compost is returned to my garden and flower beds annually.	11/16/2023 11:24 PM
89	Just don't	11/16/2023 9:13 PM
90	Concerns about spreading invasive plants and weeds	11/16/2023 9:09 PM
91	rodents living in the grass	11/16/2023 8:47 PM
92	partner won't do it	11/16/2023 8:03 PM
93	I was unaware this was an option	11/16/2023 6:00 PM
94	I will from now on	11/16/2023 5:50 PM
95	Kills the grass during summer heat	11/16/2023 4:48 PM
96	My compost is only so big so I can only do so much	11/16/2023 4:04 PM
97	can cause mold, worsen allergies	11/16/2023 3:45 PM
98	Weed growth was too much	11/16/2023 3:44 PM
99	Do not recommend mulching on a regular basis. Cut and catch is superior.	11/16/2023 3:28 PM
100	Stop telling us to do things that save you money and that cost us time or additional resources to accomodate. Provide services and stop meddling.	11/16/2023 3:01 PM
101	We put some of our grass to compost	11/16/2023 2:58 PM
102	Leaves property looking messy	11/16/2023 2:58 PM
103	no grass	11/16/2023 2:51 PM
104	I use it in our backyard composter	11/16/2023 2:47 PM
105	Creates a more hospitable environment for voles	11/16/2023 1:53 PM
106	I have my own compost bins and use the compost for my garden	11/16/2023 1:19 PM
107	Unnecessarily spreading weeds	11/16/2023 12:27 PM
108	Leaving grass and leaves on the lawn causes bare spots that weeds take up residence in.	11/16/2023 12:06 PM
109	This is a good solution only when the weather conditions are good for grass decomposition.	11/16/2023 12:03 PM
110	really grasscycle?	11/16/2023 11:51 AM
111	We tried it in the past. The problem was that the weeds get mulched along with the grass and within a couple of years the whole lawn was so infested with dandelions it was completely overwhelming.	11/16/2023 11:28 AM

112	would have to cut grass more often, long grass is not good for grasscycling	11/16/2023 10:39 AM
113	Having a career in plant disease prevention I know that allowing grass mulch to accumulate is a recipe for disaster. It becomes a reservoir for inoculum and insects.	11/16/2023 10:32 AM
114	Our lawn service takes the clippings away	11/16/2023 9:44 AM
115	Only occasionally find the need to bag grass for yard waste pickup. Mostly leave it on the lawn.	11/16/2023 9:35 AM
116	I didn't know this was beneficial or encouraged	11/16/2023 9:29 AM
117	Bugs,weeds and vermin are incuraged by this practice.	11/16/2023 9:21 AM
118	We have a compost in our yard. Grass is collected with a bag mower and added to it.	11/16/2023 8:58 AM
119	We put it in our compost	11/16/2023 8:48 AM
120	I leave the clippings in the lawn after cutting.	11/16/2023 7:14 AM
121	Not interested prefer bagging	11/16/2023 7:04 AM
122	My dog tracks it back into the house.	11/16/2023 6:52 AM
123	People going throw it all over streets	11/16/2023 6:34 AM
124	I think the dead grass would kill the living grass if left on top	11/16/2023 3:28 AM
125	Concerns about voles/moles tunneling in grass clippings. Not sure if this concern is warranted or not.	11/16/2023 1:17 AM
126	Conflicting opinion from others.	11/15/2023 11:12 PM
127	It would also recycle the weeds making more weeds	11/15/2023 10:05 PM
128	I grass cycle sometimes	11/15/2023 9:20 PM
129	I have pets it would get everywhere in my home. You have to mulch more often to keep it looking good and I don't have time for that	11/15/2023 9:10 PM
130	I cut my grass the way I like it	11/15/2023 9:02 PM
131	Have own composite bin for grass clippings and leaves	11/15/2023 8:58 PM
132	Due to the ban on effective herbicides, Id be propagating weeds by grasscycling.	11/15/2023 8:52 PM
133	grass grows too quickly to leave to mulch. Can leave some but usually have to bag it up	11/15/2023 8:10 PM
134	Too many small branches to leave on lawn	11/15/2023 7:32 PM
135	Unwanted smell, have to designate an area for the organic matter, potential spreading of weeds, and usually at an additional cost to the homeowner.	11/15/2023 7:30 PM
136	W	11/15/2023 7:24 PM
137	Condo lawn maintenance by a co.	11/15/2023 7:11 PM
138	I tried grass cycling and it almost killed my lawn	11/15/2023 6:42 PM
139	I compost my grass	11/15/2023 5:59 PM
140	Actually, I think I technically do this	11/15/2023 5:29 PM
141	Reseeding weeds that are growing in the lawn as I do not use herbicides.	11/15/2023 5:16 PM
142	don't want the dandilion and weed seeds left on the lawn. City should be promoting leafcycling in the fall. Mulch the leaves instead of bagging for pickup	11/15/2023 4:50 PM
143	There's to many weed seeds flying around.	11/15/2023 4:44 PM
144	Wasn't aware of it	11/15/2023 4:19 PM
145	Condo, landscaper is responsible	11/15/2023 3:56 PM
146	Mulching broadleaf weeds creates more weeds. We already have too many weeds.	11/15/2023 3:55 PM

147	There's no need to grass cycle	11/15/2023 3:54 PM
148	I leave my clippings on the lawn	11/15/2023 3:52 PM
149	I'm not sure grasscycling is a good idea.	11/15/2023 3:12 PM
150	Unnecessary	11/15/2023 2:47 PM
151	We have a very thick lush lawn and don't want to attract voles	11/15/2023 2:46 PM
152	I don't want to	11/15/2023 2:27 PM
153	I am slowly converting my grass to clover...needs less water, less cutting and is good for bees	11/15/2023 1:53 PM
154	pets bring the cut grass into the house ontheir feet	11/15/2023 1:44 PM
155	To much dead grass kills the lawn, encourages weeds and bugs.	11/15/2023 12:55 PM
156	Could blow into street off blvd & add to the already messy streets that are not effectively cleaned by city in fall creating more sewer drain issues	11/15/2023 12:52 PM
157	The grass blows onto the road and plugs the catchbasins. We don't have a fall sweep any more so it can be a big issue. Plugged catch basins contribute to the erosion of the roads s	11/15/2023 12:43 PM
158	We used to but stopped for some reason. Would start again	11/15/2023 12:37 PM
159	I'm not responsible for maintaining a lawn (property owner does it)	11/15/2023 12:27 PM
160	Don't think our season is long enough and hate all the mess in the house	11/15/2023 12:09 PM
161	we keep the clippings on the lawn and gardens	11/15/2023 12:09 PM
162	Smell	11/15/2023 11:35 AM
163	I've been told by professionals it's not good for the lawn to mulch	11/15/2023 11:18 AM
164	it would blow into the streets , sidewalks , garden etc. unsightly and messy . looks terrible	11/15/2023 11:06 AM
165	Dogs would track in grass clippings	11/15/2023 10:45 AM
166	A cranky neighbour who would not like the mess to go on their propery	11/15/2023 10:39 AM
167	time	11/15/2023 10:36 AM
168	Doesn't let grass grow when dead grass is mulched back into lawn	11/15/2023 10:07 AM
169	We only leave a little since kids and dog play in the yard.	11/15/2023 10:05 AM
170	TOO MANY NOTICES FROM CITY STATING COMMUNITY STANDARDS/UNSIGHTLY	11/15/2023 10:01 AM
171	We have a lawn mowing service	11/15/2023 9:56 AM
172	not interested	11/15/2023 9:52 AM
173	We use a lawn service and they take the clippings when it is not mulching time	11/15/2023 9:34 AM
174	I don't believe it benefits a city manicured lawn	11/15/2023 9:23 AM
175	Kids and dog play outside and get covered in grass when we grasscycle. It ends up being too messy for us.	11/15/2023 8:54 AM
176	Hate grass clippings tracked inside	11/15/2023 8:34 AM
177	grasscycle occasionally	11/15/2023 8:34 AM
178	Grasscycling encourages cutting more often, wasting more fossil fuel to do so	11/15/2023 8:33 AM
179	im lazy	11/15/2023 8:28 AM
180	Grass gets brought into the house.	11/15/2023 8:15 AM
181	This works in theory only not in practice, I have tried it	11/15/2023 8:10 AM
182	Je composte mes déchets végétaux de la maison ainsi que mon herbe. La ville pourrait mettre sur pied une aide pédagogique poir inciter les gens à composter chez eux. Je composte	11/15/2023 8:00 AM

	environ 160 livres de déchets végétaux sans compter le gazon.	
183	Pets track mulch into house	11/15/2023 7:51 AM
184	Dog would make even more mess	11/15/2023 7:38 AM
185	I mulch clippings to enhance my lawn. The public needs to be better educated that this is best practice for lawn health.	11/15/2023 7:22 AM
186	At times ... because of lack of city control of weeds my lawn gets infiltrated with weed seeds. City needs to go back to controlling weeds in boulevards or get rid of city green space.	11/15/2023 6:50 AM
187	We are trying to get rid of the lawn in our yard	11/15/2023 6:34 AM
188	The science that grasscycling helps the lawn is flawed. I use a bagger mower and my lawn is golf course acceptable.	11/15/2023 6:31 AM
189	I mulch my grass when I mow	11/15/2023 5:58 AM
190	Allergies	11/15/2023 12:36 AM
191	Not good for the grass	11/14/2023 11:35 PM
192	Put in composter	11/14/2023 11:24 PM
193	Too many weeds (dandelions) from years of not being able to use or purchase herbicides has left me with no choice but can collect grass clippings for the yard waste program	11/14/2023 11:04 PM
194	Leaving excess grass on the lawn also invites rodents into your yard which is definitely unwanted.	11/14/2023 10:22 PM
195	We back onto a field and dump our clippings there.	11/14/2023 10:03 PM
196	I have too many weeds on my lawn, grass cycling would create more weeds for my lawn	11/14/2023 9:42 PM
197	Not great for kids and bare feet bringing grass clippings into house as well as wind blowing clippings onto walk way	11/14/2023 9:38 PM
198	Plus I also don't care to do it	11/14/2023 9:28 PM
199	Condo living, grass contract is privately handled	11/14/2023 9:28 PM
200	Creates a [redacted] growth.	11/14/2023 9:22 PM
201	Use a lawn cutting service	11/14/2023 9:03 PM
202	I've heard that it takes three months for grass to decompose in Manitoba's weather, so the old grass would sit on the lawn for three months.	11/14/2023 8:50 PM
203	i like my lawn to look clean	11/14/2023 8:03 PM
204	It leaves to much grass clippings on your lawn and looks messy and I would have to get my lawn power racked every spring. Also in fall the leaves.	11/14/2023 7:43 PM
205	The lawn service removes the cut grass.	11/14/2023 7:42 PM
206	Do not like the grass sitting on the cut lawn	11/14/2023 7:39 PM
207	I don't want to you rotten socialists.	11/14/2023 7:28 PM
208	commercial grass cutters	11/14/2023 7:15 PM
209	Use lawn service	11/14/2023 7:15 PM
210	Live in condo	11/14/2023 7:00 PM
211	Mulch occasionally but not all the time.	11/14/2023 5:40 PM
212	Carries into my home and makes a mess	11/14/2023 5:26 PM
213	It gets all over my dog	11/14/2023 5:22 PM
214	I just don't care.	11/14/2023 5:10 PM
215	I often have not had time to cut it as regularly as would make sense for mulching	11/14/2023 3:27 PM

216	I spend a week dethatching that dam grass working until my hands blister, why would i deal with more of it?	11/14/2023 3:05 PM
217	My lawn is done by a neighbor who uses compostable bags	11/14/2023 3:01 PM
218	I just let my grass grow until the city comes cuts it	11/14/2023 2:50 PM
219	We replaced our grass with indigenous plants that are better for the natural ecosystem	11/14/2023 2:25 PM
220	We've tried. Our four dogs track grass cuttings into the house.	11/14/2023 1:56 PM
221	I have a company mowing my lawn	11/14/2023 1:52 PM
222	Our condominium hired lawn care services. They haul away the grass cuttings. I'm not sure what they do with the grass cuttings.	11/14/2023 1:17 PM
223	Unable to do more yardwork. Lifting, specifically	11/14/2023 1:15 PM
224	Have observed others that do and it really degrades a neighborhood- unsightly , weeds . No pride in environment.	11/14/2023 1:00 PM
225	Too much clipping and thatch, you already have to power rake and aerate lawns every few years without adding more grass clipping from mowing.	11/14/2023 12:58 PM
226	I don't have grass in my yard	11/14/2023 12:38 PM
227	Can't afford a mulching mower.	11/14/2023 12:36 PM
228	The numerous deer have become a big problem. Too many deer leaving stinky droppings everywhere. I can't pick it all up and no one can walk on the grass if it's left there	11/14/2023 12:31 PM
229	We are responsible for a large city boulevard /don't want grass blowing all over	11/14/2023 12:00 PM
230	Requires frequent grass cutting which is inconvenient and causes additional pollution due to operating lawn mowers more frequently.	11/14/2023 11:46 AM
231	I let my clippings fall on the lawn.	11/14/2023 10:52 AM
232	Our yard has too many weeds for grasscycling. I would need the whole lawn restored to do that.	11/14/2023 9:55 AM
233	We leave our clippings on the lawn. We never collect them to begin with.	11/14/2023 9:54 AM
234	Our lawn is done by a service. They take away the grass clippings.	11/14/2023 9:46 AM
235	Cut grass only a few times a season. Mulching mower can't handle volume without looking shabby.	11/14/2023 9:42 AM
236	I will consider!	11/14/2023 9:36 AM
237	I compost my grass. Use it in my garden as well.	11/14/2023 9:30 AM
238	Lots of weeds. Don't want to spread around	11/14/2023 9:29 AM
239	Leaving grass on lawn causes voles which destroyed my yard two years ago	11/14/2023 9:04 AM
240	Have tried in the past and the thatch gets too significant. Could be solved by more frequent cutting but don't always have the time.	11/14/2023 8:58 AM
241	We have a major vole issue and it's been recommended not to leave clippings on lawn	11/14/2023 8:20 AM
242	Still not good for grass. Builds up and creates bugs and fungus that harm grass . Talk to experts that know this and not assume that this is goid	11/14/2023 8:16 AM
243	I have allergies and there's too much loose grass lying around. It aggravates my allergies and I have a dog too.	11/14/2023 8:04 AM
244	Have a grass cutting service that removes grass clippings	11/14/2023 6:56 AM
245	Dog eats it	11/14/2023 6:33 AM
246	My lawn is cut by a commercial service	11/14/2023 6:22 AM

247	I have a grass cutting service and they remove the mown grass.	11/14/2023 6:02 AM
248	Sometimes do mulch, but not always bwcause it does not work very well.	11/14/2023 4:59 AM
249	rental and landlord would have to be responsible for same.	11/14/2023 2:50 AM
250	Because it looks awful and your reasoning sounds lazy and cheap.	11/14/2023 1:46 AM
251	With little kids who play on the lawn, it's not really an option.	11/14/2023 12:47 AM
252	We have lawn service who takes away the clippings. Not sure what they do with them.	11/14/2023 12:14 AM
253	I use a lawn service and they collect and dispose of the grass	11/13/2023 11:47 PM
254	Leaving grass can also cause mold to grow on grass. We have plenty of municipalities that can accept this as feed for animals ?	11/13/2023 11:07 PM
255	Lawn service decides cutting	11/13/2023 10:32 PM
256	Our lawnmower cuts our grass just fine thanks.	11/13/2023 10:09 PM
257	My husband thinks it's best to bag your grass, and I'm not sure so I don't argue with him.:)	11/13/2023 9:51 PM
258	Was unaware of this (new homeowner)	11/13/2023 9:36 PM
259	Have a lawn service	11/13/2023 9:33 PM
260	Looks messy	11/13/2023 9:00 PM
261	I have a lawn service that does not mulch	11/13/2023 8:47 PM
262	Grass cycling is not recommended by lawn care companies	11/13/2023 8:46 PM
263	i have hired a service to mow my lawn	11/13/2023 8:39 PM
264	Lawncare company takes grass away for composting	11/13/2023 8:33 PM
265	The grass blows on to others property	11/13/2023 8:27 PM
266	Dogs track in grass & mushrooms grow abundantly when I leave trimmings; some are toxic to the dogs	11/13/2023 8:25 PM
267	Don't like look of grass clippings left on lawn	11/13/2023 8:13 PM
268	We have a dog who would track the clippings into the house	11/13/2023 7:42 PM
269	Too many weeds that would be spread out on lawn	11/13/2023 7:19 PM
270	We have lots of needles that might be a hazard. Also, it would be inconvenient for so many reasons with our children at home.	11/13/2023 7:17 PM
271	Not always healthy for the lawn	11/13/2023 6:49 PM
272	It attracts voles and they are an issue in our area. Also messy for pets.	11/13/2023 6:46 PM
273	My choice, waste of time	11/13/2023 6:30 PM
274	I'm not the one who mows the lawn in my family	11/13/2023 5:51 PM
275	Have private lawn care who removes grass.	11/13/2023 5:50 PM
276	Don't want to reintroduce weed seeds to the existing grass	11/13/2023 5:37 PM
277	Have a lawn care service	11/13/2023 5:35 PM
278	condo service	11/13/2023 5:35 PM
279	I am not in favor of the green bin program and do not want another charge on my tax bill. I compost my own clippings and kitchen waste. Since 2002 I have produced about 50 cubic yards of compost. I will not use the proposed green bin.	11/13/2023 5:26 PM
280	Useless, filthy,stinking, INDIANS throw their garbage on boulevard and in yards!	11/13/2023 5:08 PM
281	I have a lawn service and do not control their process	11/13/2023 4:50 PM

282	Not interested for my lawn	11/13/2023 4:48 PM
283	Mowing the lawn when grass is too long the grass cycle	11/13/2023 4:45 PM
284	over long period of time build up of yard elevation will become a problem EG. drainage easement	11/13/2023 4:37 PM
285	dont agree with it	11/13/2023 4:19 PM
286	Too much mulch chokes out the grass	11/13/2023 4:09 PM
287	Mulching weed and seeds are not wanted	11/13/2023 4:05 PM
288	We mulch grass and leave on lawn.	11/13/2023 4:02 PM
289	Winnipegs short summer gives insufficient time for grass clippings to decompose properly	11/13/2023 3:46 PM
290	I mulch sometimes, not all the time though	11/13/2023 3:36 PM
291	It causes too much thatch	11/13/2023 3:32 PM
292	I do grasscycle	11/13/2023 3:22 PM
293	I compost my grass clippings	11/13/2023 3:15 PM
294	Landscaping fFirm cuts my grass	11/13/2023 3:15 PM
295	Grass clippings get on shoes and dragged onto the house.	11/13/2023 3:00 PM
296	Have a lawn service that usually takes any bags away, rarely leaves any but does once in a while	11/13/2023 3:00 PM
297	Live in a strata... I don't do yardwork	11/13/2023 2:57 PM
298	O have a lawn service that carts it away	11/13/2023 2:49 PM
299	My lawn is hardscaped / turf - no grass	11/13/2023 2:44 PM
300	Risk of spreading weeds	11/13/2023 2:20 PM
301	I live in a condo & our lawn care service collects the grass cuttings and removes them	11/13/2023 2:20 PM
302	Lawn care is done for us in the townhouse condo development. The company doing the cutting bags and disposes of the grass.	11/13/2023 2:12 PM
303	My lawnmower mulches grass and leave it on yard. Good fertilizer.	11/13/2023 2:12 PM
304	Not good with dog as pet.	11/13/2023 1:56 PM
305	I pay for yard service, if I left 2 of 3 the cuts on my lawn who is paying for my dethaching and airation? Me, no thank you	11/13/2023 1:55 PM
306	Have lawn service	11/13/2023 1:42 PM
307	We compost our grass clippings	11/13/2023 1:34 PM
308	do not feel the need to do this	11/13/2023 1:31 PM
309	I have landscaped with rock.	11/13/2023 1:25 PM
310	Puts the weed seeds back on my lawn. Weeds are an issue due to the city park across the street	11/13/2023 1:24 PM
311	Has created too many weeds in the past	11/13/2023 1:14 PM
312	Pets eat the grass clippings and get ill	11/13/2023 1:11 PM
313	Allergic to cut grass	11/13/2023 1:06 PM
314	It’s your job	11/13/2023 1:06 PM
315	We have landscaped our yard and so we do not need to mow our lawn.	11/13/2023 1:02 PM
316	Lawn care company takes it away	11/13/2023 12:51 PM

317	Have lawn care people	11/13/2023 12:48 PM
318	I have read that Winnipeg's growing season is not long enough for "grasscycling" to be effective and may be detrimental to lawn health	11/13/2023 12:48 PM
319	I may have increase the frequency of mowing the lawn to properly grasscycle, for which I have no time.	11/13/2023 12:46 PM
320	If I did have a lawn, I would definitely consider grasscycling.	11/13/2023 12:39 PM
321	Dogs	11/13/2023 12:28 PM
322	We let clipping decompose into the lawn	11/13/2023 12:27 PM
323	I have a cutting service.	11/13/2023 12:20 PM
324	weeds will be spreaded	11/13/2023 12:12 PM
325	A contractor manages my lawn	11/13/2023 12:09 PM
326	It smothers my lawn and stops grass from growing and creates dead spots.	11/13/2023 12:05 PM
327	My entire front and back yard is rock or concrete	11/13/2023 12:04 PM
328	Contractor responsible	11/13/2023 11:56 AM
329	didn't know it was an option	11/13/2023 11:55 AM
330	It creates thatch and attracts worms that have destroyed my lawn.	11/13/2023 11:54 AM
331	doesn't always break down or decompose and chokes the lawn	11/13/2023 11:49 AM
332	I font like it	11/13/2023 11:49 AM
333	I have a lawn service and they bag and remove clippings	11/13/2023 11:44 AM
334	Waste of time	11/13/2023 11:33 AM
335	I compost my grass or put it out for city to pick up	11/13/2023 11:25 AM
336	Neighbours have complained and we share lawn space with them.	11/13/2023 11:16 AM
337	We compost our grass at home.	11/13/2023 11:15 AM
338	I received a letter to “take care of my vegetation” as it is, only because my neighbours was extremely long, mine was about 4” so not quite at the 6”+ as stated. A neighbour down the street would have a fit if any of our yards were not to his standard and complain. Therefore I would not grasscycle to avoid further conflicts.	11/13/2023 11:07 AM
339	Lawn service	11/13/2023 11:00 AM
340	Too much mulch actually kills the sod. Evidence is obvious on the City boulevard near my home where grasscycling is done by the crew.	11/13/2023 11:00 AM
341	I don't bother and leave mulched grass on the yard	11/13/2023 10:59 AM
342	Didn't know it was a thing.	11/13/2023 10:51 AM
343	Have tried in the past, was left with unhealthy lawn.	11/13/2023 10:49 AM
344	I use it in my compost	11/13/2023 10:38 AM
345	Lawn looks better and is healthier if I do not	11/13/2023 10:33 AM
346	I have my own composter but I don't like to use it for grass b/c of weed seeds spoiling my compost.	11/13/2023 10:32 AM
347	I don’t like the appearance.	11/13/2023 10:29 AM
348	I have a mulching mo	11/13/2023 10:28 AM
349	Have cutting service that takes grass	11/13/2023 10:26 AM
350	Our Dogs are dirty enough	11/13/2023 10:24 AM

351	Long term lawn issues - such as dethatching	11/13/2023 10:15 AM
352	Who cares. Throw it in the garbage. It stinks	11/13/2023 10:11 AM
353	Yard has too many weeds to greencycle	11/13/2023 10:03 AM
354	Grass cutting service removes the clippings	11/13/2023 10:02 AM
355	Also have minimal lawn space; therefore, grass in yard waste bags is minimal.	11/13/2023 10:01 AM
356	I compost my grass clippings.	11/13/2023 10:01 AM
357	Have tried but my dogs eat the grass then barf	11/13/2023 10:01 AM
358	Lawn Service removes grass cuttings. Mulching kills lawns	11/13/2023 9:57 AM
359	With amount of seeds from weeds blowing on yard mulching that into yard means more weeds	11/13/2023 9:55 AM
360	if you have any weeks it spreads them or seeds.	11/13/2023 9:53 AM
361	Very small lawn.	11/13/2023 9:53 AM
362	I just moved in and haven't really needed to do yardwork yet.	11/13/2023 9:51 AM
363	We do it about 1/3 of the time	11/13/2023 9:51 AM
364	Didn't know that was a thing	11/13/2023 9:50 AM
365	Didn't know it was thing, we will definitely try this from now on	11/13/2023 9:49 AM
366	Limited grass, recycle small branches & inherited leaves, etc.	11/13/2023 9:45 AM
367	It's highly biodegradable anyway	11/13/2023 9:44 AM
368	Kids playing in yard and it gets all over everything.	11/13/2023 9:42 AM
369	I mulch my lawn.	11/13/2023 9:41 AM
370	I don't want the level of my yard to raise over time. Would create drainage issues.	11/13/2023 9:40 AM
371	I have dogs, I don't need more mess for them to bring into the house	11/13/2023 9:40 AM
372	Didn't realize this is something we should do	11/13/2023 9:38 AM
373	I compost all yard waste except large tree branches	11/13/2023 9:38 AM
374	Have to hire company to look after yard	11/13/2023 9:37 AM
375	Burns the lawn	11/13/2023 9:33 AM
376	We don't have time to mow the lawn on a regular basis to make this a good option for us. There would be a lot of mulch/clippings on our lawn.	11/13/2023 9:32 AM
377	Concerns that it will smother and kill my lawn	11/13/2023 9:30 AM
378	Dogs pick up clipping on paws and it gets all over the inside of the house	11/13/2023 9:28 AM
379	We hire grass cutters who do not grasscycle	11/13/2023 9:26 AM
380	We have a very small lawn	11/13/2023 9:19 AM
381	we have a company that cuts the grass	11/13/2023 9:17 AM
382	Too much thatch in spring and chokes out new shoots	11/13/2023 9:16 AM
383	I have a lawn service which takes care of this.	11/13/2023 9:03 AM
384	a chellenge with pet waste pick up	11/13/2023 9:02 AM
385	With dog coming in and out of house , messy	11/13/2023 9:01 AM
386	We would be open to collecting it having someone make use of it. But not for our own lawn.	11/13/2023 8:57 AM
387	Creates too much thatch and kills the grass underneath.	11/13/2023 8:53 AM
388	Grass cycling does not fit with my method of management.	11/13/2023 8:47 AM

389	have a lawn service and sometimes they leave grass and sometimes not	11/13/2023 8:46 AM
390	it does not work for my lawn	11/13/2023 8:39 AM
391	Don't mow my lawn	11/13/2023 8:38 AM
392	There are agriculture/horticultural organizations that have stated that mulching can increase moisture, mold and bacteria which damages the lawn.	11/13/2023 8:38 AM
393	Contributes to the spread of weeds	11/13/2023 8:35 AM
394	Gets messy with kids playing on lawn	11/13/2023 8:32 AM
395	I do occasionally but that means cutting my grass more often than once a week and I don't have time.	11/13/2023 8:27 AM
396	Issues with pets and children	11/13/2023 8:18 AM
397	Contractor	11/13/2023 8:11 AM
398	My dogs would be tracking grass back into my home	11/13/2023 8:06 AM
399	My lawn mower requires me to bag it. I am not about to start sprinkling grass clippings back into my lawn.	11/13/2023 7:58 AM
400	I mulch	11/13/2023 7:56 AM
401	Mess because it gets on the dog's feet, then gets inside the house	11/13/2023 7:55 AM
402	I leave mulch on lawn.	11/13/2023 7:53 AM
403	I have a very small lawn and my grass cutting service takes anything away	11/13/2023 7:52 AM
404	I would alternate grass cycling with no grass cycling	11/13/2023 7:52 AM
405	I mulch the grass when I cut it	11/13/2023 7:38 AM
406	This is not really feasible for dog owners	11/13/2023 7:38 AM
407	We have voles	11/13/2023 7:34 AM
408	Mower does not operate without bag attached. Use grass in oir backyard compost bin.	11/13/2023 7:32 AM
409	I hire someone to do it and it's hard to dictate to them how I want it done.	11/13/2023 7:18 AM
410	My mowing service bags the clippings, I would actually like to grasscycle	11/13/2023 7:18 AM
411	Have small dogs that would be covered in grass clippings	11/13/2023 7:17 AM
412	Some of the cut grass goes into my household's compost bin. The rest goes into waste bags. I'm all for grasscycling but my spouse does not like grass clippings left on the lawn.	11/13/2023 7:03 AM
413	weeds	11/13/2023 7:00 AM
414	I grass recycle	11/13/2023 6:55 AM
415	Schools cause a lot of litter. Sometimes it gets in the mower.	11/13/2023 6:37 AM
416	My husband likes the look of a clean lawn and my kid plays in the grass	11/13/2023 6:27 AM
417	I use a push mower and do not rake the rake, so not clippings to recycle	11/13/2023 6:24 AM
418	Would leave nesting material for voles	11/13/2023 6:08 AM
419	I use for garden mulch or compost	11/13/2023 6:05 AM
420	dog drag grass into the house	11/13/2023 6:05 AM
421	We hire a company to mow our lawn and they haul the clippings away	11/13/2023 6:01 AM
422	Contamination of fertilizer with compost	11/13/2023 5:59 AM
423	Kids drag grass in on their feet and shoes. Huge mess	11/13/2023 5:53 AM
424	Kids would bring the loose grass into the house on their shoes and clothes	11/12/2023 9:47 PM

425	Not that good for the grass....just go in my neighbourhood and see the people who leave their cut grass out....they're real grass is dead	11/12/2023 4:22 PM
426	My grass has creeping Charlie so I don't want to spread it around any further. I also don't compost it myself for this reason	11/12/2023 2:06 PM
427	Not much grass n I leave the grass cuttings on my own yard	11/12/2023 1:36 PM
428	Plugs up my lawnmower if I don't cut the grass each week	11/12/2023 5:58 AM
429	too much grass left on the lawn looks messy	11/12/2023 5:32 AM
430	Use lawn service	11/12/2023 12:37 AM
431	I prefer to leave the clippings to compost naturally and feed my lawn	11/11/2023 10:37 PM
432	Grasscycling leads to lawn thatch, which leads to unhealthy lawns with patchy appearances.	11/11/2023 6:42 PM
433	Allergies to cut grass in our home.	11/11/2023 8:53 AM
434	Too much thatch build up in our climate.	11/10/2023 4:46 PM
435	Tried it. The mulched cuttings did not break down fast enough and kept accumulating. Not good for the lawn.	11/10/2023 12:15 PM
436	Use lawn service and they don't grass recycle.	11/10/2023 12:09 PM
437	my lawn people take it away	11/10/2023 12:00 PM
438	We end up with a green dog	11/9/2023 9:43 PM
439	I would. My husband thinks it won't decompose if left on the lawn	11/9/2023 9:43 PM
440	Never considered it but I will now	11/9/2023 8:55 PM
441	Mulch only on occasion and generally the front yard only. Backyard pets would bring clippings in on them.	11/9/2023 8:07 AM
442	just learned it can affect the polinators and other bugs that over winter that are benfical	11/8/2023 10:17 PM
443	I have a very small lawn, so just do the pick up every time	11/8/2023 11:30 AM
444	Spreads weeds	11/8/2023 12:29 AM
445	Seems to trigger my allergies stronger when it is left on the lawn	11/8/2023 12:03 AM
446	My grass is left on the ground at the last cutting of the season.	11/7/2023 5:44 PM
447	Mike cut grass gets used as recycled material in my yard and garden boxes	11/7/2023 3:09 PM
448	lawn is small	11/7/2023 2:16 PM
449	Compost or bag for pickup	11/7/2023 1:46 PM
450	Too many weeds in grass	11/7/2023 8:28 AM
451	Lawn service composts cluppings	11/7/2023 12:37 AM
452	I do not maintain my own lawn	11/6/2023 4:58 PM
453	We spent a lot of money for new sod and want it to look tidy.	11/6/2023 4:32 PM
454	my husband does the mowing	11/6/2023 3:56 PM
455	multiplying the weeds	11/6/2023 3:55 PM
456	We have artificial grass	11/6/2023 3:47 PM
457	This will kill the lawn if not properly processed. Additional processing= additional hose costs (aeration , landscaping, etc)	11/6/2023 2:06 PM
458	on the previous question there is no option for seldom put grass in for recycling so I am adding it here but I usually mulch.	11/6/2023 12:20 PM
459	I compost all of my cut grass on site.	11/6/2023 11:38 AM

460	I compost it in my composite bin	11/6/2023 9:30 AM
461	Grasscycling does not work for my lawn	11/6/2023 9:16 AM
462	commercial company taking care of lawn	11/6/2023 8:29 AM
463	Dogs will track in grass	11/6/2023 7:22 AM
464	I have a small lawn. I put my grass clippings in my compost bin.	11/6/2023 7:21 AM
465	use a landscape service	11/6/2023 6:48 AM
466	I pay someone to do yard work which includes taking away the cuttings	11/5/2023 9:45 PM
467	I have a grass cutting service that I pay for	11/5/2023 9:12 PM
468	There are too many weeds on city properties that spread to private yards. When I mow the lawn I don't want any weeds to go to seed and sprout new weeds.	11/5/2023 6:56 PM
469	I have tried it and my grass suffered and weeds spread.	11/5/2023 6:00 PM
470	Too many weeds...if I grasscycle I am just spreading weed seeds all over the lawn.	11/5/2023 3:47 PM
471	This question is too pointed. I in fact grasscycle until the buildup of mulched grass may affect my lawn in a negative manner. My healthy lawn grows quickly and weekly mulching throughout the active growing season will actually inhibit growth by over heating the lawns during the compost process, allow less water to reach the root base and inhibit the lawns need for air at the root.	11/5/2023 2:29 PM
472	Compost it	11/5/2023 2:24 PM
473	We do in the fall	11/5/2023 1:21 PM
474	Would create unsightly lawn dead spots	11/5/2023 12:39 PM
475	A company does my grass cutting	11/5/2023 12:26 PM
476	redistribution of certain noxious weeds	11/5/2023 11:46 AM
477	Pending on the time of year and amount of weeds will depend if I do it or not.	11/5/2023 11:06 AM
478	There are too many compostables that blow onto my lawn that I clean up with the mower but don't want them to stay on my lawn (e.g. tree seeds)	11/5/2023 10:28 AM
479	lawn care service is used	11/5/2023 10:25 AM
480	This will make a bad lawn, too much material is not good for a healthy lawn	11/5/2023 10:14 AM
481	Compost my own clippings	11/5/2023 9:23 AM
482	It will also spread the growth of Weeds in the lawn	11/5/2023 8:46 AM
483	Member of household has medical conditions made worse by dry grass in the air.	11/5/2023 8:41 AM
484	I leave mulching on the yard and it give my grass naturals compost	11/5/2023 8:33 AM
485	Too many weeds on lawn would be mulched and spread more weeds.	11/5/2023 8:12 AM
486	We tried and it killed out lawn and created more weeds	11/5/2023 6:44 AM
487	I don't agree with the recommendation	11/5/2023 5:21 AM
488	sometimes gets too long if it's been raining for days or I have bee away	11/5/2023 5:02 AM
489	I'm not buying mulching blades it's more expensive. We pay for the city to pick up waste	11/4/2023 10:55 PM
490	"material" definition not clear: material meant here in my answer as in too much mulch, does not decompose fast enough and builds up thatch which is bad for live grass	11/4/2023 10:41 PM
491	I've tried this. The mulch sits on my lawn in clumps, turns brown, and looks awful.	11/4/2023 10:39 PM
492	Our lawn is large and it would take a lot of time to cut it often	11/4/2023 9:14 PM
493	have a lawn service that takes grass away	11/4/2023 7:25 PM

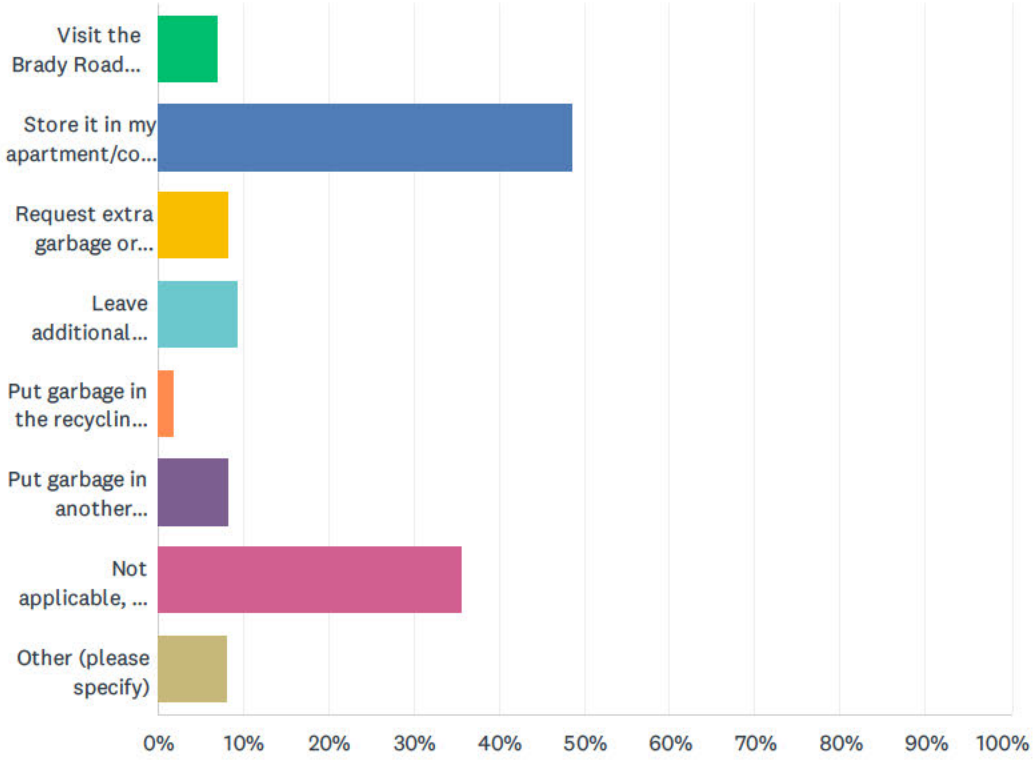
494	I grasscycle if dandelions aren't out. I don't like spreading their seeds.	11/4/2023 6:17 PM
495	Grass too thick, would have to cut every few days	11/4/2023 5:54 PM
496	We have a lawn service and they don't grasscycle.	11/4/2023 12:47 PM
497	I have no grass, maintenance free with rocks and mulch	11/4/2023 11:10 AM
498	I had small children who played in the yard and it would leave too much mess immediately after mowing. I do have a mulching mower, so I guess now that my kids are old I could reconsider it.	11/4/2023 6:55 AM
499	With build up the lawn needs aeration which is expensive	11/4/2023 2:46 AM
500	I am rewilding my lawn	11/3/2023 10:47 PM
501	Use a lawn service for grass cutting.	11/3/2023 10:25 PM
502	Live in a MFD	11/3/2023 9:43 PM
503	I place grass clippings in my compost bin	11/3/2023 9:22 PM
504	My husband cuts the lawn. He doesn't agree with it. I do. I think maybe the grass is too long? He cuts it once a week.	11/3/2023 8:47 PM
505	I have yard service that takes care of that.	11/3/2023 8:24 PM
506	Someone else does my lawn.	11/3/2023 7:51 PM
507	Preference only	11/3/2023 7:44 PM
508	I let my grass grow too tall creating too much grass for grasscycling, so the barrier is I don't cut my grass often enough.	11/3/2023 5:55 PM
509	have a pet so grasscycling would not work well	11/3/2023 3:31 PM
510	believe me, if i had a yard, i would do this OR i would have something growing other than a lawn	11/3/2023 1:23 PM
511	It's more about increasing awareness, understanding, and changing yard work habits.	11/3/2023 11:42 AM
512	Already too much of a battle dealing with weed on a traditional grass lawn	11/3/2023 11:10 AM
513	Just never thought to leave the grass cuttings.	11/3/2023 10:05 AM
514	We have a lawn care service and they take the grass clippings away with them	11/3/2023 9:46 AM
515	My dog would eat the grass otherwise I would do it.	11/3/2023 8:41 AM
516	Landlords do it and do not want to grasscycle	11/3/2023 8:34 AM
517	Am not responsible for the grass cutting	11/3/2023 7:21 AM
518	Live in condo, lawn service takes care of grass in common areas. It sure what they do?	11/2/2023 10:12 PM
519	Ruined my yard by too much accumulation	11/2/2023 10:06 PM
520	Use the grass to create green matter for our compost	11/2/2023 10:01 PM
521	Grass clippings are used in our own compost bins	11/2/2023 8:40 PM
522	We compost it ourselves	11/2/2023 7:50 PM
523	I forget to mulch.	11/2/2023 7:25 PM
524	Just leave the grass on the lawn	11/2/2023 6:41 PM
525	grass clippings in composter with leaves	11/2/2023 6:02 PM
526	have a lawn service that doesn't grasscycle	11/2/2023 6:01 PM
527	Use lawn service	11/2/2023 5:51 PM
528	I prefer to have a clean lawn and add fertilizer and soil when required. Mulching is not the best way though grow lawns!	11/2/2023 4:40 PM

529	Allergy Concerns	11/2/2023 3:39 PM
530	Does not produce a good quality lawn	11/2/2023 2:59 PM
531	We have a pool and children going in and out a lot would bring in lots more grass into the pool. It's always the worst after mowing as is without leaving the mulch.	11/2/2023 2:30 PM
532	leave on the lawn	11/2/2023 2:02 PM
533	grass mold/ creeping charlie and weeds start to grow	11/2/2023 1:48 PM
534	There was no option to select partial grass cycling, we mulch, but rake up a good portion, otherwise it kills the grass below.	11/2/2023 1:46 PM
535	We do sometimes. Not all the time	11/2/2023 1:23 PM
536	I have read that this is not good for the lawn as it harbours insects that can be harmful to the lawn and promotes the growth of mold which is also harmful to the lawn.	11/2/2023 1:21 PM
537	Too much other trash being dumped on 2-frontage lawn by parked vehicles dumping trash, kids walking to and from school, owners walking their dogs etc.to make mulching a viable or feasible option.	11/2/2023 1:13 PM
538	Service collects grass clipping when cut done.	11/2/2023 12:18 PM
539	I have coverted my lawn to a permaculture design that does not need to be mowed	11/2/2023 11:56 AM
540	No reason	11/2/2023 11:45 AM
541	Too short of a summer to properly do this without making your yard look poorly and thin. It makes weeds show up when thatch kills your grass	11/2/2023 11:41 AM
542	Do not know about this technique!!	11/2/2023 11:20 AM
543	company mows our grass	11/2/2023 11:13 AM
544	We rotate between grasscycling and bagging our lawn	11/2/2023 11:06 AM
545	We do not collect grass for recycling. More concerned with weed and other yard organics	11/2/2023 11:02 AM
546	I mulch into my lawn	11/2/2023 10:47 AM
547	I have a mulching mower	11/2/2023 10:43 AM
548	Grasscyling only works with a young healthy lawn. If done improperly such a the clippings are to large it causes heavy thatch build up. A thick layer of thatch causes rain to wash off the yard rather than soak in. I compost my clippings on my compost pile.	11/2/2023 10:39 AM
549	We do it sometimes but not all times - there wasn't an option for that	11/2/2023 10:33 AM
550	We have a company that comes once a week to maintain our property	11/2/2023 10:19 AM
551	I do not have time to waste for that. I pay more than ENOUGH in property taxes. The boulevard is City PROPERTY, so the City should be 100% responsible for cleaning, such as mowing, boulevards! Otherwise, LOWER our property taxes to reimburse us for OUR time & effort!!	11/2/2023 9:49 AM
552	I try to keep my lawn and yard clean.	11/2/2023 9:37 AM
553	This is not recommended by lawn care professionals in Winnipeg. Our grass grows too quickly so there are too many clippings left behind.	11/2/2023 9:12 AM
554	The mulch does not decompose well in prairies and leads to excessive thatch	11/2/2023 9:08 AM
555	I have artificial grass	11/2/2023 8:48 AM
556	We compost some of our grass. We read that mulching can cause mould and insect problems…	11/2/2023 8:45 AM
557	Paper bags are too expensive	11/2/2023 8:44 AM
558	I have a service	11/2/2023 8:31 AM

559	I use a lawn service and have no idea if they do this.	11/2/2023 8:16 AM
560	plus kids and dogs would get everywhere	11/2/2023 8:12 AM
561	My husband cuts grass with mulcher	11/1/2023 8:47 PM
562	The fur on my pets gets dirty, and the grass clippings end up in the pool	11/1/2023 10:35 AM
563	dont want the dogs bringing grass clippings inside on their feet	11/1/2023 9:53 AM
564	Building does not much	11/1/2023 1:52 AM
565	Not needed	10/31/2023 3:42 PM
566	My dog would eat it	10/31/2023 2:18 PM
567	I'm allergic to grass which triggers my asthma	10/31/2023 12:30 PM
568	After heavy rains, the grass is too high to easily grasscycle requiring to go over lawn multiple times with my gas mower.	10/31/2023 10:46 AM
569	Raking is a pain. I just mow my lawn and be done with it.	10/30/2023 9:15 PM
570	I would like to but the neighbours would complain (uneducated about eco friendly lawn care)	10/30/2023 4:50 PM
571	Don't think it's necessary	10/30/2023 1:49 PM

Q17 What do you typically do if you have extra garbage that will not fit in your building's garbage bin? (Check all that apply)

Answered: 380 Skipped: 8,856



ANSWER CHOICES	RESPONSES	
Visit the Brady Road Resource Management Facility	7.11%	27
Store it in my apartment/condo until the bin is empty	48.68%	185
Request extra garbage or bulky item pick up from the City	8.42%	32
Leave additional garbage bags or items beside the garbage bin	9.47%	36
Put garbage in the recycling bin	1.84%	7
Put garbage in another building's cart or bin	8.42%	32
Not applicable, our garbage bin is never full	35.53%	135
Other (please specify)	8.16%	31
Total Respondents: 380		

#	OTHER (PLEASE SPECIFY)	DATE
1	Keep the garbage in our resource centre until it becomes empty.	11/29/2023 12:58 PM
2	Put recycling in the garbage bin.	11/27/2023 5:51 PM
3	Use Junk pick up company	11/27/2023 2:49 PM

4	ive not experienced it being full	11/26/2023 6:31 PM
5	Never enough blue bins for recycling	11/26/2023 1:01 AM
6	Hi	11/24/2023 6:15 PM
7	i don't put it in the recycling, but everyone else does	11/23/2023 12:56 PM
8	Never had this issue	11/16/2023 8:14 PM
9	Send it down the chute, only bins I walk to are the recycli g	11/16/2023 3:41 PM
10	Call for extra pick up	11/15/2023 9:53 AM
11	n/a	11/15/2023 12:29 AM
12	Almost full for our building just before pickup.	11/14/2023 3:11 PM
13	Bring to family members home for disposal	11/14/2023 9:58 AM
14	We often have a problem with our recycle boxes being filled up before the next pickup, as well as missed pickups which I report to 311. We have also had problems with the bins being placed front to back so we can't actually access them, although that seems to have been sorted out after several calls to 311.	11/13/2023 5:12 PM
15	Put recycling in garbage	11/13/2023 5:08 PM
16	this has never happened but now that I know about Brady Road Resource Facility, I will use it.	11/8/2023 6:18 PM
17	Take recyclables to Pacific 4R depot. call 311 for large / bulky items	11/8/2023 3:08 PM
18	Buy Nithing, donations, give-aways	11/8/2023 2:58 PM
19	Use prairie green landfill	11/7/2023 11:38 PM
20	Normally not full, since manitoba housing had let their tenants know they cannot drop their garbage in our bins	11/7/2023 8:42 AM
21	See MANY MANY putting recycling into garbage when recycling is full	11/5/2023 6:47 PM
22	I schedule my garbage drop off following last collection so the bin is empty	11/5/2023 3:52 PM
23	Always find a way to jam it in.	11/5/2023 1:44 AM
24	Contact non-profits to donate or businesses that will pick up for a fee	11/3/2023 12:31 AM
25	I haven't really had any large items to dispose of	11/2/2023 7:35 PM
26	Bring it to collection centres	11/2/2023 9:05 AM
27	Has never happened	11/2/2023 8:27 AM
28	Have also taken items to 4R Depots. We have a large dumpster and one blue recycling bin	11/2/2023 8:14 AM
29	I live in apartment	11/1/2023 6:52 AM
30	Ask a friend with a house to take my garbage and/or recycling	10/31/2023 2:25 PM
31	Fit it in the best I can	10/31/2023 8:15 AM

Q18 How satisfied are you with the garbage collection services you receive in your building?

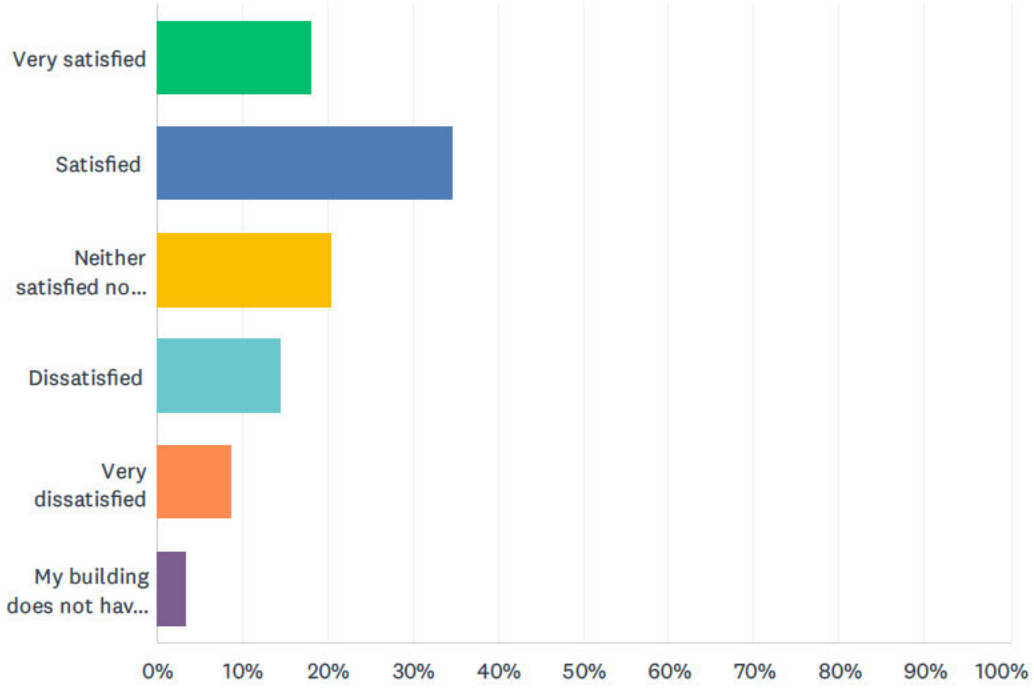
#	RESPONSES	DATE
1	We have two bins for an apartment building with over 100 units. There is never enough room for garbage or recycling	11/28/2023 12:06 PM
2	There is often large items such as furniture from other buildings / households in our buildings garbage bin, filling it up. Our rolling recycling bins are not big enough for our building	11/27/2023 9:55 PM
3	i'm living in a new development so we are using those big garbage bins and we have to walk far just to throw it out	11/27/2023 11:38 AM
4	Apartment building where garbage is one place and recycling is in another place. Too much garbage put into recycling.	11/26/2023 1:14 PM
5	There is only one blue bin for the whole apartment block. And often it is not available. This problem has been like this for months	11/26/2023 1:03 AM
6	The trash collection machines are extremely loud and operate very early in the morning, disturbing my sleep.	11/25/2023 8:23 PM
7	Bins are stollen or pick thow by the homeless. Last year the bins where driving over by snow removal not happy with the mess	11/25/2023 7:33 AM
8	I am satisfied I do not agree with a 2 week pickup	11/24/2023 6:16 PM
9	I just moved to Winnipeg last month. I found the info on garbage and recycling hard to find. And the info I found was unclear about what was recycled and what wasn't. No info was provided to me and there was no info on the bins. The website was unclear. The best instructions I stumbled across were at IKEA, in their recycling centre - they listed what recyclables Winnipeg takes. The bins are outside. There are only garbage and recycling bins, no compost. And all recyclables are put together in one bin. This co-mingling causes contamination and reduces the value of and usability of the recycling materials. Other jurisdictions I have lived in recycle paper, compost (including paper and cardboard food containers), and other recyclables separately.	11/24/2023 4:14 PM
10	pick up is not often enough, the garbage is always full and the recycling gets filled with garbage.	11/23/2023 12:58 PM
11	The bin is sometimes full for more than a week or more and is no consistently picked up	11/20/2023 1:06 PM
12	Garbage and blue boxes not always emptied on regular basis. I am elderly and find garbage bin lids too heavy to life, especially in winter with snow piled on same.	11/20/2023 10:18 AM
13	Our business is not eligible for waste/recycling collection -- business tax and funds given to Biz Zones should be used to include business pick up of waste/recycling.	11/20/2023 9:46 AM
14	Broke many recycling bins and did not replace. Never put bfi bin back properly so people turning into the driveway from the south side don't hit it. Lazy and neglectful. Make a mess and leave it.	11/16/2023 10:47 PM
15	No recycling services at apartment. Often garbage left around garage dumpster in spite of never being full	11/16/2023 8:16 PM
16	Recycling is always full	11/16/2023 5:37 PM
17	individual floor garbage cans (bins) no longer emptied or cleaned daily and results in odors and attraction of pests; longest unemptied, to date, has been 3 weeks before removed.	11/16/2023 4:28 PM
18	It's always full, we have three garbage bins and three recycling bins for 3 giant apartment buildings. There are 48 suites in each building, most with families living in them. You do the math at how quickly the bins fill up.	11/16/2023 2:36 PM

19	The large autobin encourages people to throw tons of garbage in and no motivation to reduce waste. Would rather have compost collection available. I currently pay compost Winnipeg for compost collection	11/15/2023 1:50 PM
20	Only one big blue bin for at least 3 building and it overflows	11/15/2023 12:51 PM
21	the dumpster is kept in a locked compartment so if we want to throw out something that won't go down the garbage chute, we have to wait until the dumpster is out for pickup	11/15/2023 11:19 AM
22	our recycling bin has been out for servicing for over three months. if we can't fix our recycling bins how can we fix our composting bins. If peole want to composte it is something that is easy enoughto do at home without it having to be picked up	11/15/2023 10:58 AM
23	The recycling bins fill up quickly. People will then toss their recycling in the garbage bin if the bluebins are full. Many people in the neighbourhood will use our big garbage bins as a dumping area for their large household garbage items instead of calling The City to pick them up from their homes. They don't want to pay the extra fee involved. We need more bluebins for recycling.	11/14/2023 8:09 PM
24	82 suite owners & only one garbage bin & one recycle bin for all those owners & picked up only once a week, Would have to pay for extra pick up. Our property taxes are very high, just like a house. Not right !	11/14/2023 6:54 PM
25	I would prefer if there was a composting program in addition to waste management.	11/14/2023 1:46 PM
26	garbage and recycling bins are often overflowing. Also since I am paying city taxes I think the city should pick up my garbage	11/14/2023 1:39 PM
27	Litter	11/14/2023 1:33 PM
28	Osbourne has a dense population, so while we might have enough bins for our complex (I dont think we do as they are often overflowing) we also should account for other area residents using our disposal area. Also, it is always dirty from overflowing and people abandonning their bags and multiple times I and my partner have tried to clean the area because otherwise it just sits like that.	11/14/2023 10:00 AM
29	People aren't recycling properly and they are placing the garbages and the recycling bins. People are not well educated about how to recycle properly.	11/14/2023 7:33 AM
30	I wish we had compost.	11/13/2023 8:22 PM
31	see previous answer	11/13/2023 5:12 PM
32	That I have to pay extra for a large garage binand hafe the time it dosnt get picked up because we are skipped over	11/13/2023 4:07 PM
33	It's not frequent enough	11/13/2023 12:52 PM
34	Only a few carts for recycling, one large bin for garbage that is overused and no option for compost	11/13/2023 9:40 AM
35	The pickup is inconsistent - some weeks it is every week and some weeks they don't pick up. They also leave a mess at times - it is clear that garbage falls out of the bin while they are emptying it, and they simply leave it there. I regularly clean up the spilled garbage and I don't think I should have to.	11/13/2023 9:24 AM
36	Sometimes the garbage is not collected often enough and the bins are overflowing.	11/11/2023 6:11 PM
37	No recycling. It's all mixed	11/11/2023 5:27 PM
38	I live in an apartment in the Exchange and our garbage bin only comes once a week meaning the garbage piles in our home. Often if there is food waste the house can smell. I would appreciate if our building had a designated large bin so that we can empty our garbage in our homes and a truck comes to pick it up once a week like other apartments I've lived in. The Exchange is often littered with waste and I think this would help as well.	11/7/2023 9:13 AM
39	The community bin is often full/overflowing by Sunday. Garbage pick up is not until Wed. The idea of reducing pick up to bi-weekly is absurd. Rodents are attracted to the available food sources.	11/5/2023 3:55 PM
40	The pick up of a condo building where a lot of tax money is collected is not sufficient	11/4/2023 6:44 PM

41	We have commercial garbage pick up , pay $$$$$. I would like to see the City take it back , not contract it out	11/4/2023 6:30 PM
42	Trucks do not always collect all bins for whatever reason. Idiots living in the buildings don't know how to use bins, garbage in recycling bins, leaving bags on ground impeding trucks and improper items in recycling and/or garbage bins.	11/4/2023 6:29 PM
43	21 Roslyn Road does not have a proper recycling program. You have to garbage down to garbage room on main floor and it is filthy and unsanitary. One bin for the whole building is often full and the rest is just thrown in the garbage. The chute on each floor doesn't allow a large garbage to be deposited so therefore you're always having to go to the filthy smelly dirty garbage room	11/4/2023 2:09 AM
44	They have not shown up the last couple of Thursdays. My building has Monday and Thursday garbage pick up.	11/3/2023 9:35 AM
45	I live in a building with over 500 residents: 55 Nassau. We consolidate much waste for single pick up, yet are taxed disproportionately highly. Further, we pay for a compost program that eliminates much organic waste from the landfill and eliminates that from the City pick up. Our eco-footprint is much lower than that of single family dwellings, yet we are taxed heavily for this saving to the City.	11/3/2023 12:35 AM
46	Too much garbage left behind after pickup and the bins need to have locking lids. Far too many people dumping garbage in our neighbourhood and far too many people inside the bins!!!!	11/2/2023 4:34 PM
47	There is always a mess after the trucks pick up. Very loud and noisy. Large Item (Furniture, etc) is very expensive and hard to dispose of.	11/2/2023 3:01 PM
48	Those without large vehicles cannot transport large items to Brady Road	11/2/2023 1:23 PM
49	Garbage and recycling pickup is very noisy and occurs twice weekly around 5 a.m. or earlier. Our recycling bins are often overfull.	11/2/2023 9:34 AM
50	Overflowing bins. Infrequent pickup by GFL	11/2/2023 9:05 AM
51	it's messy, when the truck lifts up the recycling dumpsters to empty it, if there's a slight wind there's a rain of paper on the ground and they're not interested in cleaning it up	11/2/2023 8:31 AM
52	The recycling bins are either always full or broken so pick up is not occurring so I feel my duty to recycle is a waste of time. The landlord will not call to replace the broken bins.	11/2/2023 8:31 AM
53	The building management does nothing to inform people about where to dispose of garbage. Most people put the garbage in the recycle bins because the are more visible and convenient. The garbage bins have heavier lids and are enclosed in a shed where as the recycle bins are out in the open. Many newcomers can't read that it says recycling. So frustrating.	11/2/2023 8:26 AM
54	There are 5 unmarked bins. No information is ever provided to urban residents (non-single family dwellings) about recycling or any other services. All 5 bins, as well as the entire back lane are just one big garbage heap.	11/2/2023 8:26 AM
55	Not enough bins for our apartment complex	11/2/2023 8:11 AM
56	This building needs a second bin. The landlord should be forced by the city to order one.	10/31/2023 8:15 AM

Q20 How satisfied are you with recycling collection services you receive in your building?

Answered: 380 Skipped: 8,856



ANSWER CHOICES	RESPONSES	
Very satisfied	18.16%	69
Satisfied	34.74%	132
Neither satisfied nor dissatisfied	20.53%	78
Dissatisfied	14.47%	55
Very dissatisfied	8.68%	33
My building does not have recycling	3.42%	13

#	RESPONSES	DATE
1	There's only one two recycling bins for a building with well over 100 units. Both are always full so many residents have to hoard recycling until they can get rid of them	11/28/2023 12:07 PM
2	Our recycling bins fill up quickly	11/27/2023 9:56 PM
3	The recyckibg bins are always full and sometimes broken.	11/27/2023 5:52 PM
4	In order to recycle, I have to take my materials down several floors and all the way across the building's garage. By comparison, there is a garbage chute on every floor.	11/25/2023 8:24 PM
5	Our building has just over 100 units and we only have 3 recycling bins. They are often over flowing before our weekly pick up is due. We could use a 4th bin	11/25/2023 7:57 AM
6	I just moved to Winnipeg and the info on garbage and recycling is hard to find. And the info I found was unclear about what was recycled and what wasn't. No info was provided to me and there was no info on the bins. The government website was unclear. The best instructions I stumbled across were at IKEA, in their recycling centre - they listed what recyclables Winnipeg takes. The bins are outside. There are only garbage and recycling bins, no compost. And all recyclables are put together in one bin. This co-mingling causes contamination and reduces the value of and usability of the recycling materials. Other jurisdictions I have lived in recycle paper, compost (including paper and cardboard food containers), and other recyclables separately.	11/24/2023 4:16 PM
7	needs more frequent pick up	11/23/2023 12:58 PM
8	The recycling is sometimes not picked up for a couple of weeks.	11/20/2023 1:07 PM
9	Not always picked up and bins overflowing -	11/20/2023 10:19 AM
10	Same comment as related to waste -- recycling is key -- every taxpayer should be eligible for collection.	11/20/2023 9:47 AM
11	I believe the recycling contamination that occurs in buildings where multiple families share a recycling program makes proper recycling ineffective and frankly, impossible. Is anything I recycle in my condo building bins actually being recycled? Or is it contaminated and ending up in the landfill? My guess is the latter.	11/18/2023 12:25 PM
12	I just explained my dissatisfaction on the last question	11/16/2023 10:47 PM
13	Someone stole my cart. The website says these things have RFID tags on there. That said, no one will tell me who stoke my blue cart. Finally, I was quoted a price close to $100 to replace it. That is not happening. My garbage can handle it all. If I'm forced to buy anything, I'll get a bigger garbage cart.	11/16/2023 8:59 PM
14	We do not have enough bins to support the demand. They're always full	11/16/2023 5:37 PM
15	Two pick ups a week if this would drop to every second week the amount found on floor causing pest issues will be bigger	11/16/2023 3:42 PM
16	Insufficient space in recycling bins and non-existent public education, signage, and labeling on the City bins so that they are always full of garbage.	11/16/2023 2:56 PM
17	See answer before about garbage bins,	11/16/2023 2:37 PM
18	There is no curb side glass collection for recycle	11/16/2023 7:51 AM
19	The bin is shared between two buildings with businesses and it is too small and always full	11/16/2023 7:22 AM
20	Too many other residents put garbage in the mixed recyclables :(	11/15/2023 6:05 PM
21	There are 3 small bins outside outside of 3 apartment buildings which is not enough for	11/15/2023 12:53 PM

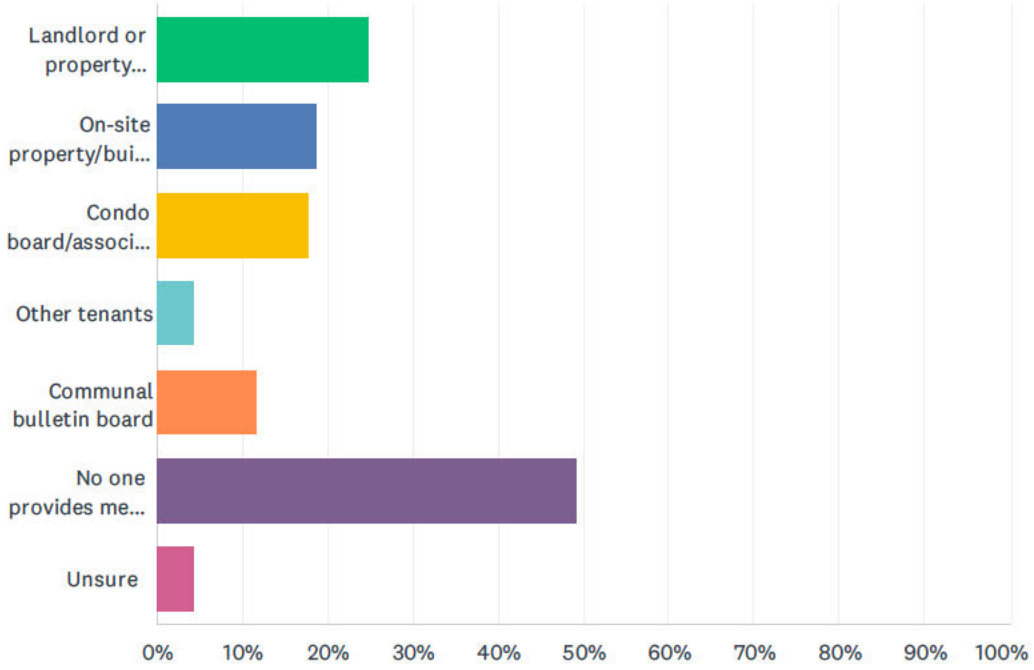
	everyone	
22	our bins have been out for servicing for over three months with no end in sight has to when it will be replaced	11/15/2023 11:00 AM
23	Collection isn't frequent enough in a block of apartment buildings. People also recycling do not have education on what can or cannot be recycled.	11/15/2023 8:19 AM
24	Only Pick up once a week for 82 owners who each pay same property taxes as single homes, not right !	11/14/2023 6:56 PM
25	We need to compost wet garbage	11/14/2023 5:52 PM
26	The bin is open to the weather, often overfull, and there is a lack of clarity on what items are acceptable. Single stream recycling isn't great to begin with and the solution we have is clearly being abused.	11/14/2023 2:41 PM
27	Our large apartment recycling bin always has garbage in it. It is unfortunate that the items I am recycling will not be able to be recycled because of the other contents in the bin.	11/14/2023 1:47 PM
28	Bins are often overflowing	11/14/2023 1:39 PM
29	Items are not actually recycled locally	11/14/2023 1:33 PM
30	Need more frequent pickup	11/14/2023 10:43 AM
31	Same as garbage but also because Winnipeg could recycle so much more and people dont bother rinsing or sorting their recycling resulting in very obviously contaminated recycling in our bins.	11/14/2023 10:01 AM
32	Some people are not garbaging properly and placing things that don't belong in the garbage. People earned caring about how they are doing their garbage properly.	11/14/2023 7:34 AM
33	I would like it if more things could go in the recycling and if there were clearer signs depicting what can and cannot be recycled. I know in vancover they split recycling into plastics, glass, and paper and get fined if done wrong. even something like that would be helpful to keep citizens accountable and to make sure our recycling is actually being recycled	11/14/2023 12:00 AM
34	Recycling day often gets missed. Recycling piles up for multiple weeks and there are enough recycling bins in the first place. Recycling bins are by the street and passersby use them to dispose of dog poo.	11/13/2023 8:32 PM
35	either need more bins, larger bins, or more frequently collected.	11/13/2023 8:03 PM
36	see previous answer	11/13/2023 5:13 PM
37	Hafe the time we are missed	11/13/2023 4:08 PM
38	The city of Winnipeg barely recycles anything. Most recyclables end up in the landfill	11/13/2023 3:12 PM
39	Recycling bins are often overflowing. People often put garbage in and around the recycling bins. It's an ugly mess in front of our building.	11/13/2023 2:51 PM
40	mobility issues make recycling very difficult	11/13/2023 2:40 PM
41	bins fill up very fast, collection could be more often or bins could be larger.	11/13/2023 1:09 PM
42	It's not frequent enough	11/13/2023 12:52 PM
43	The bins fill up too fast - there is more recycling materials than space for them in the bins.	11/13/2023 12:14 PM
44	The indoor bin is always full a day or two after it has been emptied. We need another bin or pickup more often.	11/13/2023 10:57 AM
45	I live in an apartment complex and it's currently very inconsistent. Sometimes the recycling isn't picked up for two to three week it seems and we have garbage overflowing into the parking lot. During these periods, my recycling unfortunately builds up in my unit until the bin has been emptied.	11/13/2023 10:42 AM
46	Most residents in my apartment building do not appear to follow the recycling guidelines	11/13/2023 10:16 AM
47	There is only one large bin at my apartment building for recycling and three bins for garbage.	11/13/2023 10:01 AM

	The recycling bin ends up filling up much faster than the garbage bin and usually starts to overflow. We need another recycling bin.	
48	There are only a few small bins for a large building.	11/13/2023 9:41 AM
49	We have 2 recycling bins between 2 large apartment buildings. They are full within 2 days of being emptied.	11/13/2023 9:24 AM
50	not enough bins - very often they are full	11/13/2023 9:21 AM
51	bzbnnzn	11/12/2023 9:46 AM
52	It's all mixed	11/11/2023 5:27 PM
53	Instead of putting orange tags on the Recycling bins, call 311, because of UNACCEPTABLE RECYCLING ITEMS, I SUGGEST THAT RECYCLING PICK UP WORKERS MUST PUT THOSE UNACCEPTABLE ITEMS INSIDE THE GARBAGE BINS. It took 6 weeks to clear those orange tagged recycling bins. By storing/tagging those recycling unacceptable items for 6 weeks make it more worse because insects infestation, Rotten milk jugs, wet papers, cartons because of rain/wet snow. Just put ALL not acceptable items inside the garbage bins by recycling workers I suggest to POWER WASH USING WATER & soap those RECYCLING BINS & garbage bins before winter time. All those recycling bins are Very very dirty, smelly, Especially recycling bins& garbage bins located in the public areas especially in front of City Hall	11/9/2023 5:37 PM
54	Too few recycling carts, recycling carts are often full/overflowing.	11/7/2023 2:42 PM
55	Our recycling bins our way too small. By the time the recycling bins are out, they are full. Most of my recyclables end up going to the garbage instead of recycling simply because there is no room.	11/7/2023 9:14 AM
56	not enough bins, not many items can be recycled (comparing to European standards) no compost bin	11/6/2023 9:41 AM
57	There are only three recycling bins and by the time they come pick up the recycling it is full to capacity. will need at least two collections per week.	11/6/2023 8:49 AM
58	If we want more people to recycle then we need enough bins to facilitate same. Sadly most just toss into garbage bin than wait until there is more room. Plus so many do NOT seem to know what we can and cannot recycle!????	11/5/2023 6:49 PM
59	Collection is not frequent enough. The bins are usually full to overflowing creating mess in the neighborhood.	11/5/2023 3:56 PM
60	People don’t use bins properly. Recyclables in garbage bags, unacceptable items, etc.	11/4/2023 6:31 PM
61	We have the large blue recycling bins (7) at the rear of our building, only one has the lid down. They get emptied once a week (Tues) always overflowing with the garbage blown all over all week till pickup. Persons come and unload the back of their trucks with large green/black garbage bags of kitchen waste, diapers etc. You see whats in the bags become person come to the bins, jump inside and rip them open and make a mess all over the lot. We have new comers and people living in an Apartment for the lst time to the area and I am not sure if they are aware of what a RECYLCING bin is. The education isn't working.	11/4/2023 10:07 AM
62	Pick-up too rare - recycling bin is always full and neighbours leave their stuff on the ground. Also, education is lacking and neighbours do not know how to use the recycling bin.	11/4/2023 4:19 AM
63	Recycling has to be taken to main floor and the bin is often full. If you leave your recycle by the bun they throw it out in the garbage	11/4/2023 2:11 AM
64	My building does not provide adequate recycling bins to accomodate the demand.	11/4/2023 12:09 AM
65	We do not have enough carts. They are always full before the end of the week. Tenants do not properly recycle or break down items.	11/3/2023 11:28 AM
66	Recycling studies have show that an EXTREMELY small percentage of recycling waste is actually reused. However the infrastructure surrounding recycling (pick up, storage, processing, etc) causes more issues for the environment than its intended purpose. I would prefer to see community recycling drop off locations with a compost bin instead. I believe	11/3/2023 11:10 AM

	composting is far easier to do, plus would serve to better save the environment than our recycling program.	
67	With 300 family units in one building, we have the capacity to divert more recyclable waste from the landfill, e.g. electronics, etc. If the City coordinated a monthly pick up, this could be possible. Yet, each individual family is responsible for making its own delivery to various depots, so most don't.	11/3/2023 12:40 AM
68	Our building has no option for recycling glass products (due to use of a garbage chute). I would like to see us get a special bin for glass recycling that we could bring glass to downstairs.	11/2/2023 7:28 PM
69	Same as #7	11/2/2023 4:35 PM
70	The collection itself is satisfactory, but a LOT of non-recyclable material is allowed to go into the blue bins at our building. It would be great if there was some way to notify building manager/tenants that this is occuring.	11/2/2023 4:22 PM
71	pickup is extremely noisy and too early, usually between 4 and 6 a.m. twice weekly	11/2/2023 9:36 AM
72	The recycling bin is constantly filled with garbage so I know it doesn't actually end up being recycled.	11/2/2023 9:35 AM
73	towers Realty very slow in getting bin for use. Tenants do ‘t know what ti recycle.	11/2/2023 9:06 AM
74	Not enough recyclable items are accepted by city recycling services, we are charged an enviromental tax on many items by the city as well as service charges with no transparency on where that money is going.	11/2/2023 8:36 AM
75	See previous comment	11/2/2023 8:31 AM
76	Only one large bin with small rectangle and circle to put items. Can only put one item at a time. People don’t know what is recyclable. Other people put stuff in our garbage and recycling bins	11/2/2023 8:29 AM
77	It’s always full of garbage and overflowing with boxes not broken down.	11/2/2023 8:27 AM
78	Not enough bins for apartment complex	11/2/2023 8:12 AM
79	Recycling overfills on weekends and during holidays.	11/2/2023 7:14 AM
80	I live in an apartment building - people often don’t recycle properly - putting in unrecyclable things, nesting, etc. - more education is needed, possibly posters posted in our building that are in multiple languages or pictographs. Also people walking past our bins in our alley dump the bin and spread the contents on the ground. Is there a bin that’s not accessible / tip resistant?	11/1/2023 5:47 PM
81	Not enough recycling bins for apartment building and no compost bin	11/1/2023 6:53 AM
82	I have access to two large blue-bin/dumpsters with slots to put my recycling into. It is regularly filled with larger items (generally unbroken down cardboard boxes or large boxes) and because the slot is fairly narrow, there are things that won't fit (like large coffee cans for example). In addition, I don't feel confident that the materials collected are actually being recycled.	10/31/2023 2:27 PM
83	The landlord should be forced by the city to have two bins. The bins fill up fast. People are seen driving up to the bin to throw recycling in it.	10/31/2023 8:17 AM

Q22 Who provides you with information on how to properly sort your waste in your building? (Check all that apply)

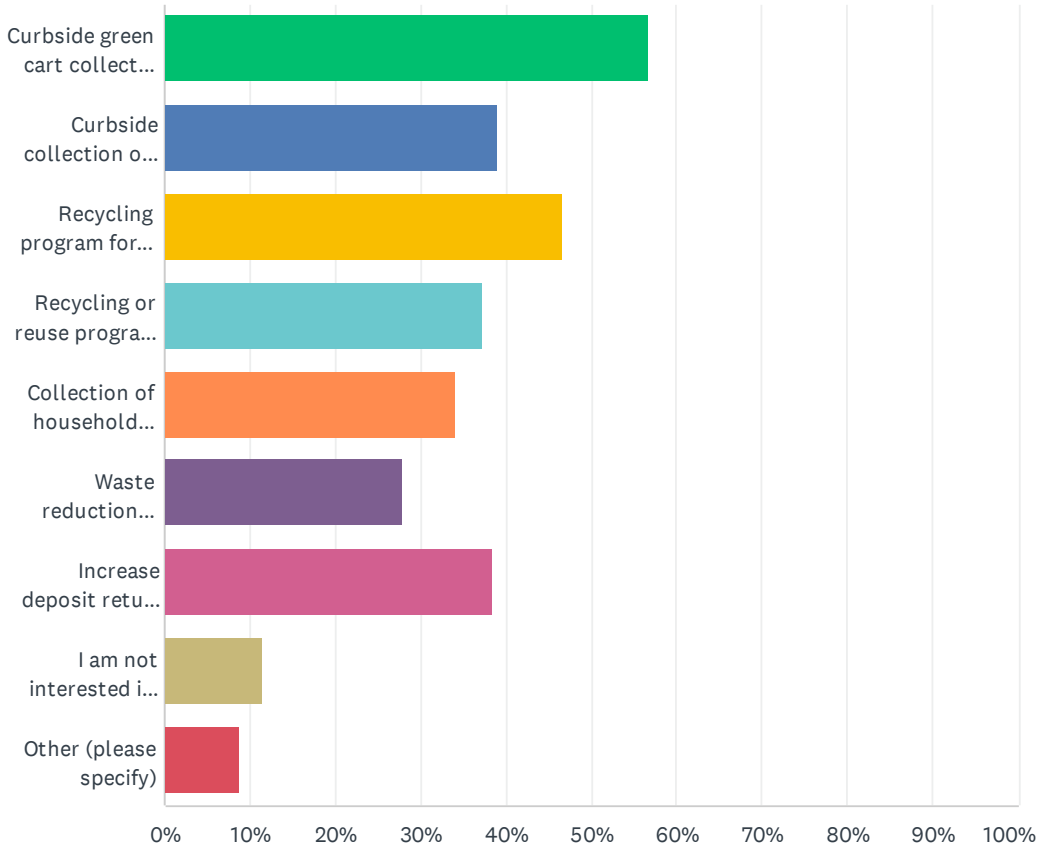
Answered: 378 Skipped: 8,858



ANSWER CHOICES	RESPONSES	
Landlord or property manager	24.87%	94
On-site property/building manager	18.78%	71
Condo board/association	17.99%	68
Other tenants	4.50%	17
Communal bulletin board	11.64%	44
No one provides me with information	49.21%	186
Unsure	4.50%	17
Total Respondents: 378		

Q23 Which programs do you think you would find useful if they were available in Winnipeg? (Check all that apply)

Answered: 8,966 Skipped: 270



ANSWER CHOICES	RESPONSES	
Curbside green cart collection for food waste	56.63%	5,077
Curbside collection of household hazardous waste	39.07%	3,503
Recycling program for clothes and other fabrics	46.69%	4,186
Recycling or reuse program for furniture	37.39%	3,352
Collection of household renovation and demolition waste at 4R Depots	34.14%	3,061
Waste reduction education and tips	27.88%	2,500
Increase deposit return programs (programs that collect a deposit when you buy something and refund it when you return it)	38.38%	3,441
I am not interested in new programs	11.49%	1,030
Other (please specify)	8.65%	776
Total Respondents: 8,966		

#	OTHER (PLEASE SPECIFY)	DATE
1	I compost my food waste. Do not want to pay for programs I won't use.	11/30/2023 9:18 PM
2	Please do NOT start any more curbside programs which will add costs to individuals. I live on a small disability income making the equivalent of about HALF the minimum wage, and I already can't afford to live!	11/30/2023 5:38 PM
3	would be interested in green cart if I didn't already compost	11/30/2023 11:36 AM
4	Curbside: recycling of Aluminum foil and containers; 4R: copper wire like extension cords, xmas light strings	11/30/2023 9:14 AM
5	Cardboard boxes with all the ordering online	11/29/2023 10:24 PM
6	A larger garbage cart, or an extra garbage cart for free, for houses with 3 or more bedrooms, since they are paying more taxes	11/29/2023 4:59 PM
7	give homeowners credits on their water bill when we recycle to encourage to wash recyclables.	11/29/2023 10:10 AM
8	hazardous: batteries, oil etc.	11/29/2023 9:48 AM
9	If these were actually CURBSIDE (bring it to the front curb), it would be good. As it is in fact ALLEYSIDE, it would be horrible.	11/29/2023 8:29 AM
10	We compost our food waste. We would be interested in a fabric recycling program only if we knew the end-use, and that what is collected is NOT being shipped to a third-world country. Effective and targeted education programs about waste reduction and proper garbage/recycling disposal would be the most impactful program for us if it helps with our neighbourhood liveability issues (ie, reduces the garbage-dump appearance of our back lanes).	11/28/2023 5:02 PM
11	would be nice to have things like batteries or light bulb pick ups once every 3 months or more. The hassle of finding a location to drop off results in us collecting alot of batteries/light bulbs before acting on tossing. And its sooo tempting to just put it in the garbage.	11/28/2023 3:20 PM
12	I have heard the "green bin" is as large as the blue bin; it should be much smaller like a large household garbage bin.	11/28/2023 12:12 PM

13	I would love for these programs to also include rental units and not just single family homes!	11/28/2023 12:10 PM
14	Rebate or no charge for me - I dry fruit & vegetables and recycle on my lawn. Extra food goes in big black bin (purchased through the city) in back yard, not interest new programs if increased fees- program quality	11/28/2023 9:13 AM
15	Education is critical	11/27/2023 9:59 PM
16	A way to get furniture picked up from the suite for recycling	11/27/2023 5:57 PM
17	Recycling more items than what is currently recycled	11/27/2023 11:39 AM
18	Include & properly dispose of nail polish and other hazardous beauty products etc.	11/27/2023 12:08 AM
19	Monthly hazardous waste collection option	11/26/2023 9:15 PM
20	Accept non-recycelable items at the 4R Depot and dispose of them for us. I've stopped going because they always send me back with some non-recycleable items that I have to dispose of at a garbage dump. Easier to just take everything to the garbage dump to save myself the extra trip.	11/26/2023 5:20 PM
21	We already compost our food waste and some of our leaves and other yard waste	11/26/2023 5:20 PM
22	JUST ADDS COSTS THAT ARE ALREADY TOO HIGH	11/26/2023 4:53 PM
23	i compost my compostables	11/26/2023 3:05 PM
24	Our city is going to look like a ghetto with all the junk initiatives and people leaving things on the street for months on end.	11/26/2023 10:40 AM
25	Money back for cans, plastic bottles etc	11/26/2023 9:30 AM
26	Better recycling program that collects ALL plastics and recyclable materials	11/26/2023 7:31 AM
27	I would love to have a tag-based system for extra garbage. There are a few times per year where I will produce more garbage than van fit in a bin and it is inconvenient to call 311 to setup additional garbage pick-up.	11/26/2023 7:02 AM
28	expanded Pacific 4R Depot	11/25/2023 10:15 PM
29	Keep costs down.	11/25/2023 8:11 PM
30	like the City of Edmonton recycle centres that take more items	11/25/2023 7:55 PM
31	Allow small commercial to bring hazardous waste to 4r depots. I cant recycle paint and oil because my truck is decaled. They won't let me in. Also small junk removal companies should be allowed to go there since they are just hauling it for the city resident. Instead it just goes in landfill instead of recycled because there not allowed in there.	11/25/2023 6:43 PM
32	city to encourage (pay $) to volunteer run centre like Centre Flavie	11/25/2023 4:53 PM
33	plastic bags are a big problem please come up with a solution to recycles all plastics	11/25/2023 3:53 PM
34	food waste drop off sites	11/25/2023 2:14 PM
35	at this point, while I am still able, I utilize the Brady 4R for anything I can't put in the garbage. So no need for any new programs.	11/25/2023 11:31 AM
36	I would like to see recycling container in pharmacies to collect expired or discarded medication items.	11/25/2023 10:25 AM
37	If you make garbage collection every 2 weeks, I do not want food waste collection as we have virtually none!	11/25/2023 10:21 AM
38	Green carts for food would be OK but only if it is picked up weekly.	11/25/2023 10:02 AM
39	Fines for people who pu garbage in recycle bins. Need multi language letters to new immigrants. My Chinese neighbours put garbage in recycle bins. I've called 311. They don't do anything	11/25/2023 9:54 AM
40	I compost my own commpostables	11/25/2023 9:48 AM
41	Curbside collection of pet waste	11/25/2023 9:21 AM

42	In Calgary there were places where folks can bring cans, bottles and plastic containers and get cash in exchange for them. I saw a lot of people make use of this service. Folks would be more inclined to bring these items in instead of tossing them in the garbage.	11/25/2023 8:55 AM
43	recycling is useless. too expensive and not effective	11/25/2023 8:53 AM
44	Furniture recycling? Drive down any backplane, recycling bedbug infested crap.	11/25/2023 7:53 AM
45	CHP biogas plant like Sweden	11/25/2023 6:25 AM
46	Accept other compostable materials in the green bin	11/24/2023 11:03 PM
47	Try	11/24/2023 10:48 PM
48	Increase items that can be recycled.	11/24/2023 9:48 PM
49	As noted proper bibs for yard waste. I would consider compost if it was weekly and didn't affect my regular garbage pick up	11/24/2023 7:43 PM
50	Need a 4R in south east quadrant of City. Pick up household renovation and demolition waste at curbside once a month	11/24/2023 6:29 PM
51	hazardous waste and fabric recycling are available in the community so i'd be more in favour of better promtion of those resources than a separate City program. Same thing with furniture.	11/24/2023 6:26 PM
52	Find a way to recycle more materials, like styrofoam, diapers and incontinence products, etc - recylcing is very limited	11/24/2023 6:22 PM
53	I am not interested in the green cart!!!!!!	11/24/2023 6:18 PM
54	Right to repair, repair cafes with knowledgeable people to assist (e.g. mending, small appliances), programs about waste reduction and recycling and the circular economy in schools, service clubs, scouts etc, tours of the landfill sites and recycling sorting centres, tool/instrument/sports equipment etc libraries	11/24/2023 4:22 PM
55	Plastic bag recycling curbside.	11/23/2023 9:50 PM
56	Get creative	11/23/2023 9:00 PM
57	Provide used cooking oil/grease bins at 4R Depots	11/23/2023 8:03 PM
58	Battery/electronic collection (if that is different than hazardous waste)	11/23/2023 7:37 PM
59	More refill programs, bring your own jug and refill household products like shampoo, surface cleaner, febreeze, etc thus reducing the plastic waste because we are refilling and reusing the bottles.	11/23/2023 6:55 PM
60	Green cart collection of compostable packaging/serving ware needs to be included, not just food waste.	11/23/2023 6:13 PM
61	Incentives for those who recycle properly and often!	11/23/2023 5:30 PM
62	I would support green cart collection if the issues of smell, rodents, etc are resolved.	11/23/2023 1:37 PM
63	I am a one person house hold.	11/23/2023 8:03 AM
64	Not all parks have bottle /can recycling ie Morley Care park	11/22/2023 11:35 PM
65	Not sure. I would leave it to the experts to say which programs would have the biggest effect of reducing the impact on the environment	11/22/2023 4:13 PM
66	Increase in litter and recycle bins throughout the city and public spaces.	11/22/2023 3:19 PM
67	we compost but would like the program for others!	11/22/2023 1:58 PM
68	The city should consider offering pick up of large items ie: furniture several times during the year. Many people don't have the means to either pay the extra cost of the ability to take these items to the landfill.	11/22/2023 7:11 AM
69	Electronicsg; search the landfill for MMIWGMB2ST	11/22/2023 12:53 AM
70	Composting bins and how to compost	11/21/2023 8:37 PM

71	I do not need a green cart. I compost and would not use or have room for another CART.	11/21/2023 5:34 PM
72	Increase frequency of yard waste collection	11/21/2023 3:08 PM
73	i dont join services.	11/21/2023 2:01 PM
74	especially deposit returns on cans and plastic bottles	11/21/2023 9:14 AM
75	Garbage collection must remain weekly for public health.The purpose of garbage collection is to ensure the health of residents in the city and to protect against vermin.increases in recycling is a result of packaging . Stores ,grocery and delivery have increased contributing to larger recycling waste.	11/21/2023 8:47 AM
76	how the city communicates about waste. online doesn't work in inner city. large waste pick up biiled through water utilties is confusing.	11/21/2023 8:00 AM
77	Do a hazardous waste pickup twice a year. While I would like to see a rennovation pickup, I think it would be abused by some.	11/20/2023 5:29 PM
78	more items accepted in blue boxes we already have	11/20/2023 3:30 PM
79	It would be great if there was something that could recycle and collect garbage waste at the same time. If Winnipeggers were sure that their recycling was collected in a sustainable way. For example not making it another country's problem, not selling it, but dealing with waste here, and educating people here about the process	11/20/2023 11:02 AM
80	clearer and easier plastic recycling	11/20/2023 10:16 AM
81	Everything works fine as is and no changes are required	11/20/2023 9:39 AM
82	I'd love to see the recycle depots at places like the civic centre actually maintained.	11/19/2023 9:13 PM
83	Collection of non recyclable items, broken vaccums, fans, particle board, furniture pieces. etc.	11/19/2023 4:56 PM
84	take more types of items in regular blue bins	11/19/2023 4:48 PM
85	expanding recyclables. eg, Ai pie plates, thin plastics bags. need to develop technologies to deal with somr items that are now "not acceptable*	11/19/2023 3:32 PM
86	Your 4R depot is difficult to use. My husband took a carful of carefully sorted items there recently. Staff were very rude to him as he tried to figure out which bays to use for which items. When that was done, they informed him that our old Dyson stick vacuum was garbage and they would not accept it. So he brought it home where we put it in our garbage bin. Would it not make sense for the city to have a bin at the depot where garbage could go? Doesn't the city send trucks there to collect the waste?	11/19/2023 2:30 PM
87	I compost my organic waste in my backyard	11/19/2023 1:42 PM
88	We compost during the summer, so we would not have much material in summer for green cart collection	11/19/2023 9:31 AM
89	Easier curbside pick up for irregular/lasrge garbage or recycling items because not everyone has a vehicle to transport elsewhere. Reduce barriers to large item pick up so less trash is dumped	11/19/2023 6:23 AM
90	Start recycling the things we do in bc, like foil plates, soft plastic, STYROFOAM!	11/18/2023 7:08 PM
91	I would use many of these programs however, they wouldn't be used often as I live alone.	11/18/2023 4:37 PM
92	We pay a deposit on a lot of products coke cans, water etc... I have never seen an option for refund so I don't know why you have an option on here that says deposit for return increase. That is a lie	11/18/2023 2:16 PM
93	My compost is active year round and so I do not require green cart collection.	11/18/2023 11:46 AM
94	Not interested in new programs that will cost me more money or increase my taxes.	11/18/2023 11:20 AM
95	the public is already charged for container recycling. Other major cities in Canada use the money collected to provide refunds. This would also help keep the city clean, while & giving the poor & homeless some much needed income./ 4R depots are fantastic.	11/18/2023 8:54 AM
96	most other major cities in Canada have refund deposit programs. Poor & homeless qould use	11/18/2023 8:34 AM

	this to help keep our city clean & give them some spending money.	
97	Recycle more recyclable materials/items	11/18/2023 12:24 AM
98	We pay... But we get nothing back	11/17/2023 10:19 PM
99	Have a “TAKE” section at the land fills similar to Alberta, if you see something that you can make use of,you are allowed to take it. Too much good stuff is getting thrown away.	11/17/2023 8:10 PM
100	Deposit return school fundraising support or programs	11/17/2023 7:55 PM
101	Most above sound great but would on be needed on an as required basis (& we have some of these already)	11/17/2023 7:51 PM
102	We already have weekly foragers in our Wolseley bins sometimes strewing the contents onto back lanes. Adding clothing and fabrics could increase the mess substantially.	11/17/2023 5:50 PM
103	A landfill field trip! I am a teacher and I would love to be able to show students firsthand what the landfill actually looks like. I feel like it could impact their household waste usage habits.	11/17/2023 5:48 PM
104	Finding markets for recyclable items that currently cannot be put in the bin	11/17/2023 3:11 PM
105	Very few people will separate food waste from regular garbage. I have composted my yard waste for years thanks to the city’s free yard waste bin programme	11/17/2023 3:06 PM
106	I do not want to see hazardous waste sitting at curbsides. Issue with leaking containers contaminating, getting knocked over, children tempted to check things out, etc.	11/17/2023 12:56 PM
107	I would like to see at least a bottle deposit return program.	11/17/2023 12:38 PM
108	I would like clarity about what happens to recycling	11/17/2023 11:55 AM
109	The cost for these programs would outweight ant benefit	11/17/2023 11:22 AM
110	I would like to be able to dispose of batteries somewhere	11/17/2023 10:23 AM
111	I'm not interested in less services for more money	11/17/2023 9:34 AM
112	-A ban or significant fees on big chain stores (e.g., Superstore, Canadian Tire, H&M) from throwing out groceries or products simply because they didn't sell or were returned and (grocery stores can reduce prices to sell before expiry, department stores can donate to thrift stores. The amount of NEEDLESS waste these places produce is disgusting). -A ban on throwing out materials and products that have recycling programs. -A program similar to Banff's Re-use It Centre to keep products that can be repaired or refurbished out of landfills: https://banff.ca/999/Re-Use-It-Centre	11/17/2023 8:44 AM
113	Some neighbours burn their garbage.	11/17/2023 8:09 AM
114	Do NOT want a food composting program.	11/17/2023 7:51 AM
115	As pensioner's, we can't afford the city services now, anything to come to our curb will be over-priced!!	11/17/2023 7:50 AM
116	No room to have another bin	11/17/2023 7:39 AM
117	Yard waste pickup from projects. Soil. Sod. Branches	11/17/2023 7:18 AM
118	A cut in the size of the city bureaucrtacy by about 33% would be a good program to start.	11/17/2023 3:38 AM
119	Refund program for pop cans and water bottles!!!	11/17/2023 2:29 AM
120	I would like to be handle carts better. There are too many damaged carts in use: cracked panels, missing wheels and axles; loose or missing metal pegs	11/16/2023 11:24 PM
121	Larger recycling bins than waste. A full recycling plant. One that actually does a proper job. Also the tax back on returned bottles etc.	11/16/2023 10:52 PM
122	Collection of painted wood at 4R depots	11/16/2023 10:09 PM
123	increase the number of larger recycling bins for multi-family dwellings/condos/apartments	11/16/2023 9:25 PM
124	I am in favour of expanded compost, reuse & recycling programs, but wouldn't use them very much, myself because I already do those things on my own. I would be in favour of tax	11/16/2023 8:13 PM

	increases to pay for these things.	
125	Electronic recycling collection service (maybe a monthly visit to different neighborhoods)	11/16/2023 8:11 PM
126	No	11/16/2023 7:06 PM
127	Recycling- more items qualifying for reimbursement	11/16/2023 6:33 PM
128	I believe low effort ways for citizens to actively recycle is good. I do not have time to clean or prepare things I wish to get rid of.	11/16/2023 4:28 PM
129	More items able to be recycled. We could be recycling more if the city would let us.	11/16/2023 4:23 PM
130	any furniture or mattress should be picked up no extra cost, like the old days. now people dump their garbage on other responsible home owners.	11/16/2023 4:23 PM
131	Greater oversight of rental properties (I frequently clean up after them).	11/16/2023 4:15 PM
132	More specific recycling, like bottles only, paper only, cardboard only etc. Like in japan or germany or switzerland.	11/16/2023 4:06 PM
133	Not at the expense of making garbage every second week	11/16/2023 3:53 PM
134	Willing to try other programs BUT at no charge either to user or taxpayers. Any new program must be self funded by the user or a private partnership.	11/16/2023 3:31 PM
135	Implement bokashi throughout the city to manage household food waste. It is very simple to do, and virtually eliminates food going to the landfill. It also boosts soil health and cuts down on carbon emissions from breakdown either in s compost pile (CO2) and in the landfill (methane)	11/16/2023 3:26 PM
136	Figure out a handfull of plastics that can be reused somehow and run with it. Half of what I throw out are plastics that cant be recycled.	11/16/2023 3:09 PM
137	Dumpsters	11/16/2023 3:03 PM
138	Poorly worded question.	11/16/2023 2:59 PM
139	Bag tag for extra garbage that could be taken to drop off bin at 4 R could see tags and get additional revenue and cut down on illegal dumping $2.50 per bag	11/16/2023 2:55 PM
140	This is the wrong question. All of these are 'useful' but at what cost. I'm also very concerned that we are not defining problems well before we come up with 'solutions'. What exactly are we trying to do when we recycle for instance. Are we saving resources (including the cost of collection and shipping to markets? As well the answers to this may change over the years. Maybe 2 decades ago there was a market for plastics in Asia or elsewhere. If that no longer exists, are we simply just ensuring we have organized trash. I am a diligently recycler and composter but I no longer have confidence that this is meaningful	11/16/2023 2:53 PM
141	Bottle return depot like in Alberta	11/16/2023 2:47 PM
142	A bottle return depot like other provinces	11/16/2023 1:49 PM
143	actually being able to return items for refund where a deposit is paid, example, cans and bottles!!	11/16/2023 1:37 PM
144	N/A	11/16/2023 1:31 PM
145	Pick up recycling every week. No composting	11/16/2023 12:45 PM
146	Reduce use of plastic packaging for food and other products	11/16/2023 12:41 PM
147	Start paying for recycling. People will bring it to you. Like other province's do there streets are clean.	11/16/2023 12:35 PM
148	Leaf it with us. Instead of wasting gas to drive to 4 R	11/16/2023 12:13 PM
149	How about less political and real estate ads in the city and more ads to inform people about recycling?	11/16/2023 12:01 PM
150	People dump construction waste in apartment large bins - more enforcement.	11/16/2023 11:53 AM
151	Add items to list of recyclables that are not currently accepted	11/16/2023 11:10 AM

152	No more bins and want weekly garbage pick up	11/16/2023 10:40 AM
153	I would have a look at Sarcan in Sask. I personally liked that program.	11/16/2023 10:21 AM
154	Can you imagine another bin for us who have backlands. We already have no room especially in winter.	11/16/2023 9:47 AM
155	I think if my local community center collected fabrics, furniture, or hazardous waste I would take it there to be picked up by the city. I don't want too many collection trucks driving around neighborhoods wasting gas. I think incentivizing programs have gone wrong in the past causing theft of catalytic converters and such.	11/16/2023 9:35 AM
156	Winnipeg is not good at the existing program as a lot of recycling ends up in the landfill. The recycling facility should be able to sort and clean recyclables rather than them ending up in landfill. Work on those before wasting more on green bins.	11/16/2023 8:58 AM
157	None of the above	11/16/2023 8:27 AM
158	new programs are a bad idea if the regular garbage pick up is diminished	11/16/2023 8:12 AM
159	Urban compost pickup from multi unit dwellings	11/16/2023 7:24 AM
160	concentrate on improving what you already do before adding new programs	11/16/2023 7:10 AM
161	Being able to scavenge items from the Brady 4R. Like an old snowblower I saw the other day. I am sure it could be fixed.	11/16/2023 6:38 AM
162	Include metals in curbside recycling bins.this is currently tossed into the garbage, as I have no space to store metals for a trip to Brady rd.	11/16/2023 6:05 AM
163	Simplify recycling and add more things that could be recycled.	11/16/2023 5:24 AM
164	Weekly yard waste pick up during summer and later into fall. I add green to waste with every second week pickup	11/15/2023 9:44 PM
165	I recycle clothing, household goods, furniture, mattresses etc. to established non-profit and charities and would prefer to use these serves instead of adding to the municipal burden and increase costs to me.	11/15/2023 9:34 PM
166	Support local businesses to supply goods/services that are more waste conscious. Make a commitment to have a single use plastic-free city	11/15/2023 9:06 PM
167	Reduce packaging at stores	11/15/2023 8:58 PM
168	Pay citizens to return their recyclable containers the way Calgary does.	11/15/2023 8:56 PM
169	Allow yard waste to go into food waste - compost containers.	11/15/2023 8:54 PM
170	The silent majority does not want to be forced to compost. The small minority of granola activists are the ones who want to do this. Go ahead, but don't force others and cut services in half.	11/15/2023 8:46 PM
171	I compost myself and use this in my garden	11/15/2023 8:39 PM
172	Considering most items are taxed with a recycling fee, the people in xharge should be thinking about returning those funds when an item is turned in. Seems to work in other jurisdictions. Just saying.	11/15/2023 8:17 PM
173	By	11/15/2023 8:01 PM
174	Terra cycle boxes at 4R depots: makeup containers, toothbrushes, pens etc!	11/15/2023 8:00 PM
175	Household composters at reduced costs (Kenora offers this)	11/15/2023 7:36 PM
176	All of the above in a single day	11/15/2023 7:35 PM
177	Ability for residents to drop off residential yard waste in company vehicle.	11/15/2023 7:28 PM
178	Bottle depot for all bottles as in BC and Alberta would encourage more recycling	11/15/2023 7:26 PM
179	I'm all for any program that people will use. Don't I already take my demo waste to 4R at Brady?	11/15/2023 7:13 PM

180	If you have a few cans of old paint or engine oil it is a nuisance to have to drive to a landfill to dispose of them; could be coupled with the yard waste program	11/15/2023 7:06 PM
181	More frequent leaf collection in older neighborhoods with mature tree canopies	11/15/2023 7:04 PM
182	Returning pop cans that we pay a deposit for but can't get it back!	11/15/2023 6:12 PM
183	Where do I return items for my deposit back!?	11/15/2023 6:02 PM
184	We've used it many times. Furniture collection. Good one	11/15/2023 5:50 PM
185	Éliminer le programme d'avertissement et ramasser les poubelles tout simplement.	11/15/2023 5:43 PM
186	Bottle and can recycling service like in some other places. Ex. If I bring in pop cans/bottle I may receive 10¢ a can or something	11/15/2023 5:43 PM
187	growing up in BC, we had deposit returns on all bottles and cans, not just alcohol cans. There were never drink containers in the garbage because people either saved them for their own return or school groups would do bottle drives as fundraisers.	11/15/2023 5:41 PM
188	Have paper recycling in one bin and bottle and can recycling in another	11/15/2023 5:32 PM
189	Composting of pet waste	11/15/2023 5:31 PM
190	Considering half of recycle items end up in garbage. Let's not waste our money.	11/15/2023 5:22 PM
191	Recycling of batteries and light bulbs	11/15/2023 5:21 PM
192	Instead look at large cities that recycle adequately instead of people against change.. Think Copenhagen	11/15/2023 5:10 PM
193	Make new bins smaller than the current recycling and garbage bins so they could be stacked and only brought outside for pick up when needed.	11/15/2023 5:02 PM
194	I would love a program that offers discounts on home composting products, such as the Food Cycler or a home outdoor compost bin.	11/15/2023 4:57 PM
195	A 4R depot in St James. and please place padlocks on city building garbage and recycling bins so they are only used for city building use. Tired of seeing people dumping mattresses and furniture in city bins	11/15/2023 4:52 PM
196	If we could take regular garbage to the 4R Depot when we have to much for our carts.	11/15/2023 4:47 PM
197	Why is there no recycle program where ee return cans, bottles and we get paid for them?	11/15/2023 4:44 PM
198	You won't keep it under control. Services now are terrible.	11/15/2023 4:37 PM
199	Lets focus on what we are doing -currently.	11/15/2023 4:33 PM
200	Compost	11/15/2023 4:05 PM
201	Manitoba should start recycle programs that other provinces and major cities have. They have depots where you can get cash for returning plastic bottles and metal cans and common glass bottles ect and recieve cash. Helps keep people from putting recyclables into the dump. Also gives poor people or homeless people a source of income and helps keep them busy and off the street and hopefully out of shelters and or jail. Would help kids make money and keep our city cleaner. Very important system. It works. I have lived in cities that have had it for years and it work.	11/15/2023 4:01 PM
202	Help taking large items out of the home. As I live alone moving items up or down stairs and loading it in a vehicle is not an option. I'm a senior and cannot afford to hire someone to do this.	11/15/2023 3:58 PM
203	Plastic pop bottles and can refund program	11/15/2023 3:52 PM
204	Curb side green cart program that also collects pet waste. Put in the best program, no matter the cost. Just do it right!	11/15/2023 3:49 PM
205	Refunds on pop cans. Help clean up the city	11/15/2023 3:21 PM
206	I do not want a city run organic recycling program. I compose all organics 12 months of the year and I would be very upset at having to pay for a program that I do not want, need or would	11/15/2023 3:18 PM

	use.	
207	Compost!	11/15/2023 2:33 PM
208	Most people don't understand composting. Some education about it would go a long way. Many people I know think biodegradable/compostable stuff is ok to put in the landfill because it isn't "waste".	11/15/2023 2:24 PM
209	Compost	11/15/2023 2:21 PM
210	More 4R depots to bring in things like dead batteries and empty propane tanks	11/15/2023 1:55 PM
211	Many of these are useful, but what's the cost?	11/15/2023 1:48 PM
212	Money back for cans and plastic bottles like other provinces do. lots of people already take items to second hand stores.	11/15/2023 1:48 PM
213	some municipalities pick up hazardous waste twice a year	11/15/2023 1:42 PM
214	Quit letting the Indigenous shut down our 4r. You would lock me up if I did it.	11/15/2023 12:59 PM
215	Plastics recycling included with current recycling	11/15/2023 12:55 PM
216	Please just take all my garbage.	11/15/2023 12:51 PM
217	Get the recycling right before charging for new programs	11/15/2023 12:48 PM
218	There has been litter sitting on my boulevard ALL summer (I would normally would pick up myself but I've been monitoring as a social experiment). The city wants to implement this program but does little to keep our streets clean?!	11/15/2023 12:20 PM
219	For people who don't have the means to use some of these programs (i.e. don't own a car so couldn't conveniently take items for proper disposal/recycling to depots), I think these programs should exist, without increasing or passing the costs to use the programs to those who already have the means and use their own car and gas to take items to depots themselves. I have the means and resources (and conscience) to take things to be disposed of properly and use my own car - wear and tear, gas, my time, etc. so I would not want to be charged for those who don't have the means to do it themselves because I already incur my own costs to do it. Also, there needs to be a good incentive for those who don't have the conscience to recycle or properly dispose of items so a deposit return program would be beneficial to get people to use the programs and overall care more.	11/15/2023 12:19 PM
220	why only beer cans get refund? SB all aluminum cans	11/15/2023 10:54 AM
221	Deposit return locations that accept all containers that qualify for refund.	11/15/2023 10:48 AM
222	Lower fees	11/15/2023 10:47 AM
223	it's obvious all of these would have positive impacts, but penny pinching politicians knew that already	11/15/2023 10:22 AM
224	easy access depots for reusable AA batteries	11/15/2023 10:13 AM
225	They don't need anymore programs as people in some parts of city don't recycle just use it as another garbage can . Spend thousands educating citizens of Winnipeg on recycling and still don't care	11/15/2023 10:07 AM
226	Retailers need to be forced (by law) to reduce /eliminate packaging	11/15/2023 9:50 AM
227	Expanded recycling ie black plastics	11/15/2023 9:46 AM
228	Green cart ONLY if it's weekly collection	11/15/2023 9:36 AM
229	Hazardous material collection at 4R is useless and ends up in the garbage. You need a system where I don't invest in expensive vessels that I am to just donate to you. It should be obvious that not many people will do this.	11/15/2023 9:35 AM
230	We are paying recycling fee at the store on recyclable items and paying city again to pickup same item where is our return of that fee?	11/15/2023 9:32 AM
231	Add a reimbursement cost for returning plastics to stores or a reuseable area	11/15/2023 9:29 AM

232	Plastic bag collection and recycling	11/15/2023 9:03 AM
233	Additional cardboard recycling allowed alongside full blue bin. With reductions in plastics and increased cardboard and recyclables used for packaging, we have WAY more recycling than ever. Our blue bin is always overflowing each week. Every week we have to hold recycling back for the following week or strategize how we put our recycling in the bin to make it fit. You need to allow unlimited recycling.	11/15/2023 9:01 AM
234	Collection of all recyclable materials, such as styrofoam, black plastic and soft plastic bags (curbside).	11/15/2023 8:59 AM
235	More information. I found the current article about compost very interesting and did not know about it.	11/15/2023 8:47 AM
236	Also, extending yard waste collection into November, especially with unseasonable weather	11/15/2023 8:46 AM
237	We already compost so likely wouldn't use the program BUT I think it would benefit the city as a whole	11/15/2023 8:35 AM
238	Being honest about the limitations of recycling and emphasizing “reduce and reuse” instead	11/15/2023 8:25 AM
239	Are deposit return programs need to be used properly we need a place to actually take back our plastics and aluminum’s as well as glass containers to get our deposits back increasing. The fees is pointless if you’re not giving a means to return the items for your deposit refund.	11/15/2023 8:13 AM
240	This is a double edged sword. Increased deposits will also increase the amount of garbage that is rummaged through by the homeless. Creating more mess.	11/15/2023 8:12 AM
241	City struggles to provide protection and roads. we should manage our current needs better before adding services.	11/15/2023 8:11 AM
242	Should be able to put grass and trees branches in green bins like other Provinces/Cities/States	11/15/2023 8:09 AM
243	I really would love to see compost!!!!!	11/15/2023 8:08 AM
244	more convenient 4r depots. I live in Charleswood and they are all more than 10 min away. Cash for recyclables like they have in other cities.	11/15/2023 8:08 AM
245	I full recycling Center where you get paid to recycle like Kelowna bc	11/15/2023 8:07 AM
246	Fix the EXISTING recycling program first!	11/15/2023 8:06 AM
247	We use Pacific Ave for recycling & Salvation Army for other things. Furniture goes to Teen Challenge..	11/15/2023 8:05 AM
248	Consignes de tous contenants telque les bouteilles de plastiques, verre, de lait boissons gazeuses, etc comme ce sera le cas à Québec.	11/15/2023 8:04 AM
249	bottle depots for cash	11/15/2023 7:31 AM
250	I don’t think the city needs to compete with companies that recycle clothing and we don’t need to spend more on additional curbside programs.	11/15/2023 6:54 AM
251	Allow refuse drop offs at 4R Stations.	11/15/2023 6:35 AM
252	K	11/15/2023 6:16 AM
253	Every program increases user costs. Many elderly cannot afford another FLAT TAX.	11/15/2023 6:12 AM
254	Provide an income tax receipt for donating used items to Thrift stores. It works wonderfully in the US.!	11/15/2023 5:41 AM
255	Both bins are full every week. Put this survey on the next re-election. I wound NEVER have voted for Scott Gillingham or requested his sign!!!	11/15/2023 5:11 AM
256	Some other provinces provide curbside large waste disposal a few times a year	11/15/2023 3:28 AM
257	I have a large private compost bin which i use extensively and wiuld not want to see a city compost pick up program . In Montreal people put meat in these bins in their 100 F degree summers. Bad idea	11/15/2023 2:54 AM
258	I do not want a smelly green bin!!!!!	11/15/2023 1:13 AM

259	A	11/15/2023 1:12 AM
260	if products or packaging cannot be recycled it should be banned	11/14/2023 11:51 PM
261	should have a bin for plant and grass waste	11/14/2023 11:43 PM
262	Definitely bottle depots where you take your bottles and get your deposit back.	11/14/2023 10:51 PM
263	no to compost will not use	11/14/2023 10:41 PM
264	Reduce the amount of packaging on consumer goods	11/14/2023 10:37 PM
265	Take more demo at 4R depot. Too many rules and staff there. also…Shopping area/free stuff set aside at dump	11/14/2023 10:30 PM
266	More convenient/accessible electronics recycling	11/14/2023 10:16 PM
267	Stop wasting money on new programs. Stop paying idiot companies to conduct studies and surveys for you.	11/14/2023 10:07 PM
268	i feel we should get a deposit refund when we return everything that we are charged an environmental fee on now	11/14/2023 9:49 PM
269	Not sure I want to devote space in my garage for three carts.	11/14/2023 9:46 PM
270	Bigger Recycling carts	11/14/2023 9:42 PM
271	Compost but not collected by for profit 3rd party	11/14/2023 9:35 PM
272	additional items added to existing programs, i.e other plastics, bags	11/14/2023 9:33 PM
273	I used Pacific recycling most of the time.	11/14/2023 9:30 PM
274	Every new program has a cost. I don't feel it's a priority right now.	11/14/2023 9:10 PM
275	We should definitely be reimbursed our deposit and thinks it ridiculously that we pay the fee but can't get it back when the items are recycled!	11/14/2023 9:06 PM
276	Multi stream recycling	11/14/2023 8:32 PM
277	More education on proper recycling -- Educate the kids at school and they can be involved in taking part of recycling at home	11/14/2023 8:17 PM
278	The city needs to put incentives in place for companies to reduce packaging	11/14/2023 8:10 PM
279	all of the above are commendable, however, I do not want a curbside green cart!	11/14/2023 7:52 PM
280	I don't want a green bin for food scraps. I compost my own and again it would attract animals and tons of bugs. Bad idea. Also I don't have room for the bins I have and don't want another one and definitely don't want to be charged money for another bin.	11/14/2023 7:51 PM
281	repair programs, tool librairies, and subsidized backyard compost bins...because that is even better than a green cart program (better for the environment...no transportation of materials). I'd use the green cart for meat and other things I can't compost in my backyard.	11/14/2023 7:48 PM
282	More items accepted for the recycling bin	11/14/2023 7:32 PM
283	Compost waste collection would be a waste of time and money because I compost my own food wastes for my own garden. The only person this will benefit is restaurants and grocery stores that produce a lot of food waste $86 a year for this kind of pick up is a waste of money for the city encourage people to Compost at home as I do	11/14/2023 7:29 PM
284	If any new programs are added and require a fee, they should be opt-in.	11/14/2023 7:09 PM
285	We pay more than we get back.	11/14/2023 7:02 PM
286	What could all be put in green cart? bones? dairy?	11/14/2023 6:47 PM
287	pick up of large items, the list is very limited and I don't have a truck	11/14/2023 6:09 PM
288	I strongly believe the new composting program is not a good idea unless it's a choice . I personally don't have enough biodegradable waste to justify the cost the city is proposing.	11/14/2023 6:08 PM
289	No charge large bulk pick ups would help keep the city looking better a few times a year	11/14/2023 5:11 PM

290	Mire accessible and public RECYCLING bins like in other cities in calgary.	11/14/2023 4:47 PM
291	More frequent yard waste collections in the spring and the fall specifically	11/14/2023 4:28 PM
292	Compost pour les appartements	11/14/2023 4:06 PM
293	Unsure	11/14/2023 3:15 PM
294	No..no...no.....No disgusting composting. We just made it through Covid...you want to create bacteria and stench attractive animals to our back lanes?? HORRIBLE idea!	11/14/2023 3:09 PM
295	Bigger, cheaper landfill	11/14/2023 3:07 PM
296	Overall better recycling program, more information, improved program.	11/14/2023 2:49 PM
297	Not really ure.	11/14/2023 2:19 PM
298	Clothing, furniture etc. seem well serviced by local charity collection.	11/14/2023 1:58 PM
299	Bottle depots please. We pay the deposit. Make the recycling available	11/14/2023 1:50 PM
300	Expand deposit return to include wine bottles and tetra packs (like Ontario does)	11/14/2023 1:40 PM
301	Policy changes that make all materials used for packaging easily recyclable	11/14/2023 1:38 PM
302	return/refund plastic & glass bottles	11/14/2023 1:34 PM
303	Condos	11/14/2023 1:30 PM
304	It would be great if Winnipeg had a few more free weekends and then the city would pick up the unwanted items and also if there was certain days where you could put unwanted items by the garbage cans and the city would pick them up for free	11/14/2023 1:10 PM
305	Teach and Educate about What garbage does like cigarette butts, coffee cups , cans (garbage) in general what it does to wildlife and our neighborhoods.	11/14/2023 1:07 PM
306	better communication about what 4R depots accept. cardboard/ electronics - other items unclear as don't use often enough	11/14/2023 1:06 PM
307	Countries like Germany have self return programs for single use waste and they have extremely successful turnaround. We have NO opportunity to return empties aside from beer bottles, and are still paying eco taxes on packaging. Let us DIY and we can get our money back and keep our planet cleaner, and save city resources on sorting recycling (not that we do anyways)	11/14/2023 12:59 PM
308	large garbage bins at homeless encampments	11/14/2023 12:57 PM
309	Once a year collection of hazardous waste.	11/14/2023 12:31 PM
310	Go Back to collecting all garbage and send it to a sorting recycling center where it is properly taken care of check some ofthe european modles forthis type of program It works.keeps people employed and produces power from what needs to be burned to generate electricity.andor heat for homes from steam generators etc..	11/14/2023 12:12 PM
311	Recycling depots are too far away. Need more of them so it’s not such a long drive to recycle.	11/14/2023 12:09 PM
312	Actually having recycling facilities for the things we collect.	11/14/2023 12:03 PM
313	collection of polystyrene and black plastic containers	11/14/2023 11:13 AM
314	The green waste collection is a great idea but I do not need it as I make compost. Encourage people to buy less stuff especially single use plastics	11/14/2023 11:05 AM
315	Plastic bag recycling. Most stores that offer recycling don’t have bins. It would be easier for homeowners to put the bags in their bins	11/14/2023 10:58 AM
316	A Waste and Recycling program that actually does what it is supposed to do without me having to call 311 and complain. Massive waste of time!	11/14/2023 10:45 AM
317	MORE plastic recycling	11/14/2023 10:41 AM
318	Curbside collection of mattresses to be recycled (or disposed of). Recycling program for small kitchen appliances	11/14/2023 10:24 AM

319	Love all these ideas.	11/14/2023 10:19 AM
320	Expanded EPR to include items like mattresses and small household appliances	11/14/2023 10:00 AM
321	A larger range of things that can be collected in the blue bin, like toasters and toaster ovens, metal cutlery, for example.	11/14/2023 9:57 AM
322	Put in place 4R depots in four quadrants of city. Allow for drop off of normal household waste as well.	11/14/2023 9:47 AM
323	Sorting of glass paper plastics like most other places in the world	11/14/2023 9:34 AM
324	we have a compost bin in our yard	11/14/2023 9:19 AM
325	Incentives for lowering waste in your household	11/14/2023 9:14 AM
326	I don't nee green cart collection, I already compost	11/14/2023 8:41 AM
327	As the old age says go back to glass refundable bottles and recycling of paper bags. Case solved. We give a money return on alcohol bottles and cans why not aluminum drink cans people love a refund. But make sure not coming in from other provinces by people bringing bags of items here for refund.	11/14/2023 8:26 AM
328	There are enough of these programs. Big brothers and diabetes pick up clothes, we already have 4r for other items. There is only 1 tax payer. Enough inventing ways to increase taxes.	11/14/2023 8:22 AM
329	We have a compost pile at home so would be unlikely to use a green cart	11/14/2023 8:19 AM
330	a way to dispose of cooking oil	11/14/2023 8:14 AM
331	_	11/14/2023 7:58 AM
332	A 2 week delay too long for many creates threshold tipping point for a messy neighborhood	11/14/2023 7:30 AM
333	Weekly yard waste pickup in spring and fall	11/14/2023 7:29 AM
334	We font need a green recycling program or at least make it optional.	11/14/2023 6:57 AM
335	zero waste refill initiatives such as those offered at "refill market", "little treehugger", even st annes car clinic offers refill on washer fluid.	11/14/2023 6:55 AM
336	Once a month or once in 6 months a big trucks collects all kinds of house junks like books,toys,clothes,old metal bookshelves etc so the house owner just has to put it out..	11/14/2023 5:55 AM
337	Clothes and furniture sound interesting, but hamd me downs to family, free weekend, and garage sales mostly take care of that	11/14/2023 5:06 AM
338	Ability to return soda cans for $	11/14/2023 2:10 AM
339	If we pay a deposit, we should get it back. Other provinces, such as Ontario, Quebec Nd Alberta have very successful programs.	11/14/2023 2:06 AM
340	Everything your proposing will increase cost. Just STOP IT!!! The cost of living is already too high and you want to charge tax payers more?!? Are you COMPLETELY tone-deaf? Read the room!	11/14/2023 1:57 AM
341	These can be once a month or ?	11/14/2023 12:46 AM
342	In home composter given to residents at a discount, My friend in East st paul was offered this as a trial and I think it would save waste,	11/14/2023 12:42 AM
343	Expanding the types of items accepted for recycling	11/14/2023 12:03 AM
344	Funny you have raise deposits when most things we pay fees on are not fee collectable here like in alberta u can take anything in practically and get the deposits back	11/13/2023 11:28 PM
345	Need to still educate people because neighbors still don't seem to get what should and shouldn't be in the blue bin.	11/13/2023 11:09 PM
346	Seriously, if we need to reduce waste and reduce its collection, management and processing - then offer a rebate program for people in this city buying a LOMI food scrap composter (see lomi.com) for individual homes!! It is the way it needs to be done at the grass roots home or	11/13/2023 11:03 PM

	community level. This food waste machine turns food scraps into soil in 24 hours aprox. The city would save $Millions, and methane gas reduction would be huge. This kind of innovation is a game changer. Please investigate this option for Winnipeg.	
347	Electronic waste	11/13/2023 10:57 PM
348	Many businesses do not recycle at all	11/13/2023 10:54 PM
349	This is currently in place in bc	11/13/2023 10:46 PM
350	Just wanted to add increase deposit return program again	11/13/2023 10:41 PM
351	increase types of items accepted at 4R depot	11/13/2023 10:11 PM
352	Everything is FINE....how about fixing the ROADS?!!! The garbage and recycle collection is about the ONLY thing that is functioning properly in this city. SO we're going to fk that up now?	11/13/2023 10:02 PM
353	Anaerobic-digestive recycling systems that allow black plastic containers to be recycled.	11/13/2023 9:38 PM
354	Recycle more items currently not included	11/13/2023 9:34 PM
355	I pay enough taxes,no new programs	11/13/2023 9:09 PM
356	More options for disposing of e-waste	11/13/2023 8:57 PM
357	Curbside collection for electronics	11/13/2023 8:39 PM
358	All are useful but priority would be answered differently	11/13/2023 8:17 PM
359	Empowerment and support of compost Winnipeg which already exists.	11/13/2023 7:52 PM
360	More deposit return program	11/13/2023 7:31 PM
361	Pick up of large boxes that don't fit in the bins.	11/13/2023 7:28 PM
362	policy and enforcement for point of sale waste (ex: packaging - like an ecofee - if it's unnecessary, excess, unrecycleable like mixed material). Also, reusable/standardized containers where possible (mason jars, milk jugs, bulk liquids, powders)	11/13/2023 7:27 PM
363	Put the deposit back on cans etc, it works amazingly good in b.c.	11/13/2023 7:24 PM
364	Plastic bag recycling many stores stopped carrying the bins to put them into.	11/13/2023 7:23 PM
365	Batteries	11/13/2023 7:20 PM
366	I do NOT want to pay for a compost bin as I do my own composting!	11/13/2023 7:08 PM
367	Cash reward for recycling aluminum cans	11/13/2023 6:56 PM
368	Stop wasting my tax money	11/13/2023 6:32 PM
369	Once a year a free, large item collection	11/13/2023 6:26 PM
370	Free cardboard box pick up	11/13/2023 6:00 PM
371	Recycling of black plastics please!	11/13/2023 5:42 PM
372	Please no green bin program. I compost all yard and kitchen waste for my garden.	11/13/2023 5:32 PM
373	People should be encouraged to reduce packaging by taxes or levies on the amount of packaging in their garbage cans (e.g., costco shrink wrap and amazon boxes	11/13/2023 5:32 PM
374	Bottle and aluminum can deposit program	11/13/2023 5:25 PM
375	Don't think that curbside is needed, but would be nice if there were depots say at each Sobeys where you could leave above items for collection.	11/13/2023 5:20 PM
376	With every new so-called program comes added costs to homeowners that have no end to costs once added to water and waste bill becomes another taxgrab by useless city mayorand councilors!!	11/13/2023 5:18 PM
377	Have compost in yard already, not interested in paying for service	11/13/2023 5:04 PM
378	We have no grass--front and back are all vegetable snd flower gardens. Wr compost all in our	11/13/2023 4:52 PM

	personal composter.	
379	More education on what is recyclable. Easy accessible information.	11/13/2023 4:49 PM
380	garbage collection for a minimum fee (+small $)b v like Brady for small truck or trailer	11/13/2023 4:45 PM
381	U	11/13/2023 4:42 PM
382	Unsure of additions our process works well	11/13/2023 4:40 PM
383	Putting out hazardous waste and clothes will make a mess from the scavengers.	11/13/2023 4:34 PM
384	More accessible hazardous waste sites	11/13/2023 4:12 PM
385	Household hazardous waste collection at recycling depots	11/13/2023 4:11 PM
386	Really don't want a green bin that causes bug and I don't have the time to do it properly	11/13/2023 4:10 PM
387	Needs improvement in all aspects of recycling	11/13/2023 4:10 PM
388	A depot where I am refunded.money back for dropping off recycling like many other provinces have available⁹	11/13/2023 4:04 PM
389	I have a compost bin - not sure I'd use curbside pickup	11/13/2023 4:04 PM
390	All glass and plastic bottles should be redeemable for a minimum of $0.10	11/13/2023 3:52 PM
391	Je suis vraiment intéressée pour tout ce qui peut aider pour aider la crise climatique	11/13/2023 3:30 PM
392	recycling more plastics	11/13/2023 3:27 PM
393	Scrap metal pick up. And you could sell it and make some money.	11/13/2023 3:23 PM
394	Municipal levy on single use disposable food and beverage containers	11/13/2023 3:20 PM
395	please, keep weekly system as is. Finally working well!Weekly food waste.	11/13/2023 3:18 PM
396	Stop looking for more ways to increase costs!	11/13/2023 3:09 PM
397	I cannot specify how beneficial a bottle recycling depot would be where we could get our deposits returned. It would be a substantial money and space saver.	11/13/2023 3:02 PM
398	alcohol/wine bottle return and collect deposit fee	11/13/2023 2:32 PM
399	working with provincial government to produce bans on plastics that are a colour that cannot be seen by the automatic machinery at recycling depots	11/13/2023 2:28 PM
400	Please stop with the privatized garbage collection and deliver basic collection properly	11/13/2023 1:52 PM
401	There are numerous options for clothing recycling now and depots to drop off household hazardous waste products. Perhaps more work needed to educate the public. Availability, hrs, items, fees that apply.	11/13/2023 1:50 PM
402	Expanding the recycle program to include more items such as black plastics and styrofoam.	11/13/2023 1:47 PM
403	I compost in my backyard so I hope there will be a provision to opt out and not have to pay the added fee.	11/13/2023 1:44 PM
404	The 4R depot system works really well.	11/13/2023 1:44 PM
405	textile recycling locations seem to have disappeared, I know if these were at 4R depots I could take my textiles there	11/13/2023 1:43 PM
406	We recycle everything that is allowed under the program and dont need another extra cart sitting in my driveway	11/13/2023 1:40 PM
407	I am not aware of any deposit programs where we can get the funds back so if that is a thing it should be advertised such as bottles that they do else where and we pay the deposit on	11/13/2023 1:34 PM
408	Pick up services (possibly a five or $10 fee involved) for larger items, like mattresses, appliances, carpets. I don't have a large truck, and I have no way of getting these things to the depot.	11/13/2023 1:33 PM
409	Recycling and waste both regularly "miss" my bins and we have to send surveillance video in	11/13/2023 1:19 PM

	to prove our bins were out so they'll come back. I want the services we already have to work properly before adding something else.	
410	I didn't check food waste because I already compost in my yard but it is a great idea for those that don't	11/13/2023 1:11 PM
411	Bottle refund deposit for plastic bottles	11/13/2023 1:10 PM
412	Composting, being able to recycle MORE products, separating glass and cardboard	11/13/2023 1:10 PM
413	household reno and demo waste should be discarded by the contractor or by the hoomeowner in the landfill at their own cost	11/13/2023 12:56 PM
414	None of the above.	11/13/2023 12:52 PM
415	Winnipeg should have a compost program.	11/13/2023 12:50 PM
416	Free landfill visits for households ie 2 per year	11/13/2023 12:49 PM
417	electronics recycling pickup	11/13/2023 12:48 PM
418	I would like to see more emphasis on Reducing and Reusing. When I was young on the farm, we reused everything possible. Remaking things from Recycled items costs energy. Recycling takes ener	11/13/2023 12:45 PM
419	I think something like household hazardous waste could be monthly or quarterly. I think the main thing is educating Winnipegers and having them aware of the waste collection options and dates. Although the bulky waste pickup has been available since at least 1999, how many people are aware of it?	11/13/2023 12:44 PM
420	Most of the above are already available in the community. No need for the city to duplicate	11/13/2023 12:39 PM
421	Recycle more types of plastic	11/13/2023 12:39 PM
422	For the Love of this city please do not implement curbside Green Cart waste collection. As I said there are still some people that can't even get their head around what day their garbage collection is do you really think you're going to confuse the issue with having four carts out there? It's enough already we are undated these days with additional tasks we have homes to run kids to look after elderly to look after do you think that I'm going to spend my time at the end of the day sorting through my garbage for you doing your job for you? No I am not the last thing on my list is sorting out the garbage that's your job that's why I pay exorbitant city taxes in this low end City I will never do it I don't have the time and you're not going to make me do your job now claiming it's the green agenda. You've also taken clerks out of the store claiming it's for the green agenda. You people like to hide behind this fake green agenda. We don't have a problem here in Canada. The only problem we have in Canada is these brainwashed Minds that are telling you climate change is real and it's the boogeyman. It's not the politicians and the leftist non logical sky is falling is the Boogeyman.	11/13/2023 12:23 PM
423	Charge a higher fee for people that put perfectly good items in landfills (ie bikes) or have a place to sell them and put money back into recycle programs	11/13/2023 12:20 PM
424	education about the environmental impact of fast fashion	11/13/2023 12:09 PM
425	Educate people to reduce and reuse. And work with industry to make this more possible. It's difficult to reduce when every product in stores are covered in plastic. There are not enough options to go plastic free. Especially in the grocery stores. But everywhere really. It drives me crazy how much money is wasted on the [redacted] recycle everywhere bins that are stuffed with garbage.	11/13/2023 12:04 PM
426	Oh! Give us back our enviro levy when we return cans and bottles like Alberta. Why is this charged if we pay taxes?!	11/13/2023 12:01 PM
427	I have had a composter for years and use my compost in my garden so not interested in collection	11/13/2023 11:57 AM
428	more information to people who's bins have been broken. These bins are not built well for our climate temperature changes.	11/13/2023 11:56 AM
429	not interested in green cart collection, we have enough issues with rodents and overflowing garbage now; I've been to cities that recycle green waste (Alberta) and they now have a rodent problem at the processing factory and in neighborhoods whereas they did not before this	11/13/2023 11:56 AM

	composting program. The main disadvantages of composting are the following: Windrow and aerated static pile composting require relatively large areas, and odor control is a common problem. Ambient temperatures and weather conditions influence windrow and aerated static pile composting. In-vessel reactors have limited flexibility to handle changing conditions and are maintenance intensive.	
430	I have a garburator .	11/13/2023 11:52 AM
431	repair & reuse area at 4Rs for household appliances	11/13/2023 11:45 AM
432	We donate used clothing, used furniture to local charities	11/13/2023 11:44 AM
433	Currently the only option to transport additional wast it to bring it to Brady road dump. I would be on favor of being able to transport additional waste to any 4r depot, even if the tipping fees are higher the at Brady	11/13/2023 11:44 AM
434	A program where people can receive money for recycled goods. This will help clean up downtown	11/13/2023 11:39 AM
435	Why don't you do green cart for food and yard waste like Brandon does instead of having to purchase brown bags	11/13/2023 11:31 AM
436	Have one for pop bittles/cans like PQ	11/13/2023 11:20 AM
437	Some kind of "Free" facility for items that can still be used.	11/13/2023 11:16 AM
438	Most of my recycling is pop bottles and cans, that alone would reduce my recycle more than half the cart	11/13/2023 11:10 AM
439	I am a highly informed citizen and protective of my neighborhood. However, many programs are too complex to achieve "buy in"from the homeowner. Simplify, simplify and simplify some more. The program has to work for the lowest common intellect/ participant for it to gain traction and make a difference.	11/13/2023 11:07 AM
440	Un centre 4R dans l'ouest de la ville	11/13/2023 11:06 AM
441	I already compost in my backyard, otherwise green bins are a good idea. Would not want to pay a charge for one.	11/13/2023 11:05 AM
442	We compost at home. I'm worried about food waste as people already do a terrible job with basic recycling and what they put in their bin.	11/13/2023 11:05 AM
443	More education to the intentionally unaware about acceptable items to deposit into recyclable bins. Some of my condo neighbours continue to place plastic bags, kitchen waste, branches and plants in pots, clothes and shoes, and greasy food containers in the recycling bin--no matter how clear the sign is on the bins and how often the property managers send emails to everyone. Consider fines.	11/13/2023 11:04 AM
444	This could get things right out of control. Neighborhoods could begin to look like flea markets.	11/13/2023 11:02 AM
445	Check out what Saskatchewan does.	11/13/2023 11:02 AM
446	We compost at home - previously purchased 3 bins.	11/13/2023 10:56 AM
447	not interested in paying more fees or taxes	11/13/2023 10:54 AM
448	We compost at home with our own composter. I am not interested in paying for this service as I already do it	11/13/2023 10:39 AM
449	HHW collection once or twice a year would be useful; I would use the green cart in the winter as I use my summer compost in my garden the next year.	11/13/2023 10:38 AM
450	Hi	11/13/2023 10:29 AM
451	They should have something like Saskatchewan does	11/13/2023 10:27 AM
452	Collection of all household bulky waste at 4R Depots (incl. mattresses,furniture) for a fee.	11/13/2023 10:25 AM
453	Recycling cart should take more things. Rules seem very restrictive and patchwork.	11/13/2023 10:11 AM
454	Prevention! There is so much unnecessary packaging	11/13/2023 10:10 AM

455	4R Centre in West side of city!	11/13/2023 10:07 AM
456	But worried about stink and hazardous wildlife from compost pickup	11/13/2023 10:06 AM
457	We already compost our food waste and use the compost for our garden. I don't understand why we would have to pay for pick up of good waste when we already compost. We would not have compost for our garden.	11/13/2023 10:06 AM
458	Food waste is a huge part of my household garbage. If we had a convenient neighborhood drop off area it would be amazing, since I don't have room or the patience to compost at home.	11/13/2023 10:05 AM
459	why should we pay more deposits for items that aren't eligible to recycle because Winnipeg doesn't have a recycle depot (e.g. pop cans)	11/13/2023 10:04 AM
460	Increase recycling at 4 R for cloths fabrics, furniture etc	11/13/2023 10:00 AM
461	Enough already!	11/13/2023 10:00 AM
462	I don't want to pay anything for pick ups like I do now which I was forced into	11/13/2023 9:56 AM
463	plastic bag recycling--even though there's a ban on plastic bags at grocery and retail stores, a lot of electronics and appliance packaging still contain plastic bags.	11/13/2023 9:54 AM
464	I wouldn't use the composting program because I do home compost. I think it is a great idea though	11/13/2023 9:54 AM
465	Deposit refund like B.C. , Charge companies for junk mail.	11/13/2023 9:52 AM
466	More 4R locations	11/13/2023 9:52 AM
467	In the core many people have bigger problems to deal with in their life (food and housing security, etc) and so they don't have the capacity to follow the garbage and recycling program rules (bins overflowing, garbage in recycling, bags beside the bins which are opened by animals, people or the elements, etc). Can the city do something more about this? It is really demoralizing to live beside and yet these people don't have capacity to follow the program rules and they don't have capacity, funds, or interest to call for extra pick ups or spend any time on solving this problem because they have bigger life problems. Garbage flying and sitting all over backlanes and streets is gross and mentally very depressing to see and live in.	11/13/2023 9:50 AM
468	Separate recycling collection, at least for paper to be less contaminated by other recyclables.	11/13/2023 9:49 AM
469	interested in green cart program, but I would like the option of getting the compost back for my garden	11/13/2023 9:48 AM
470	We should be diverting organics from landfill	11/13/2023 9:47 AM
471	The ten cent return for beer cans/bottles hasn't increased in so long. Inflation has made it pointless, most people I know just recycle them.	11/13/2023 9:43 AM
472	Green cart for more than just food waste. Get into the times Winnipeg! Cities across the country accept personal hygiene, dog waste, diapers, and meat products, soiled cardboard in their green bins	11/13/2023 9:43 AM
473	more curb side give away days	11/13/2023 9:42 AM
474	More depots	11/13/2023 9:40 AM
475	Collection of food waste/compost for apartments.	11/13/2023 9:38 AM
476	Pop can recycling	11/13/2023 9:34 AM
477	Hazardous waste pickup, even if it was only twice a year, would eliminate the need to store these items until we can make a trip to Brady and might encourage more people to use this service rather than simply dump items in with garbage.	11/13/2023 9:33 AM
478	Green carts are [redacted]	11/13/2023 9:30 AM
479	Education via social/tv commercials	11/13/2023 9:30 AM
480	Weekly yard waste pickup in the fall	11/13/2023 9:29 AM
481	Curbside collection of renovation and demolition waste at no cost since we're now paying more	11/13/2023 9:27 AM

	for compost service	
482	Don't start new programs until you get the ones in existence correct	11/13/2023 9:26 AM
483	Recycling for batteries and light bulbs	11/13/2023 9:24 AM
484	MSW Plant, turning waste to electricity.	11/13/2023 9:23 AM
485	If we can't even afford to pick up garbage and recycling once a week, then don't add new programs. People can buy their own backyard composters.	11/13/2023 9:21 AM
486	What actually happens to Winnipeg's recycling waste?	11/13/2023 9:20 AM
487	Better education of newcomers on how to recycle and what are the correct days for this. Too many dump furniture on boulevard assuming it should be picked up.	11/13/2023 9:19 AM
488	PLEASE start curbside compost pickup. Winnipeg is laughably behind the times on this project, and the City should be embarrassed.	11/13/2023 9:12 AM
489	Hazard waste collection as requested would work best.	11/13/2023 9:11 AM
490	Keep status quoa	11/13/2023 9:04 AM
491	Ease of finding information about all of the above. Option to organize centralized community services related to all of the above - similar to community mailboxes idea..	11/13/2023 9:03 AM
492	Curb-side collection of *****METALS*******	11/13/2023 9:02 AM
493	Expansion of programs only if existing level of service for garbage and recycling is maintained	11/13/2023 9:01 AM
494	I do not need extra programs because I make an effort to get things where they need to go. The question is whether other people need them. Do most people currently throw hazardous and recyclable items in the garbage because pickup does not exist? If so, then those programs may actually save money.	11/13/2023 9:00 AM
495	Pet refuse.	11/13/2023 8:59 AM
496	Not interested in any programs that ADD cost to homeowners and taxpayers. Going green is fine BUT anything beyond fuse and recycling weekly pickup should be at a specific cost to users, at the time they opt to use any service. I do not want to pay for others.....fixed income and limited budget!	11/13/2023 8:52 AM
497	instead of coming up with new programs pick up garbage weekly	11/13/2023 8:47 AM
498	Additional garbage pick up for low income neighbourhoods	11/13/2023 8:46 AM
499	Deposit/return program for wine/liquor bottles	11/13/2023 8:43 AM
500	not at this time	11/13/2023 8:40 AM
501	curbside collection of e-waste	11/13/2023 8:37 AM
502	More 4r depots. Reduce emissions. long travel distances to depots.	11/13/2023 8:37 AM
503	Having a depot in the city that pays you for aluminum cans like in other cities.	11/13/2023 8:29 AM
504	A periodic "large item pick up" could be a more inclusive program	11/13/2023 8:26 AM
505	Allow smaller loads of garbage than the $20 minimum at Brady	11/13/2023 8:25 AM
506	Can't compost meat bones but compost vegetables I take furniture, clothes to thrift shops have my own compost bin	11/13/2023 8:24 AM
507	Will not compost..... will not use green bin	11/13/2023 8:19 AM
508	Ewaste, pickup of materials at apartment buildings and condos because it is too hard to go to a 4R depot without a car, lower city taxes for those in apartments because density makes garbage pickup much more efficient than in suburbs	11/13/2023 8:16 AM
509	Food waste would be my highest priority	11/13/2023 8:14 AM
510	I have and use two composters of my own	11/13/2023 8:12 AM
511	currenly some products are taxed when purchased but those items can't be returned - just a	11/13/2023 8:08 AM

	money grab - if we are being taxed extra we should be able to return them to get our tax back	
512	recycle styrofoam items	11/13/2023 8:08 AM
513	Why doesn't Winnipeg have a alum can/glass bottle recycling program. Years ago, as kids, we would collect bottles to return for a nickel. Other provinces have this type of program. Why not ours. Enough with coming up with programs that the costs are always applied to the homeowners.	11/13/2023 8:03 AM
514	I'm all for reducing waste but the program has to be accessible for people to take advantage of it. Many people rely on public transit and can't visit a 4R depot. For many, it would be hard to have garbage picked up every two weeks. If you miss a pickup, you'd be going a whole month between pickups. For a bin of smelly diapers that's not acceptable to the neighbours.	11/13/2023 7:58 AM
515	Once again concerns of people throwing contents all over the place	11/13/2023 7:57 AM
516	All of these but, let's be realistic. One battle at a time!	11/13/2023 7:45 AM
517	All would be okay except for the extra fees.. taxes are high enough already	11/13/2023 7:44 AM
518	If people knew how collections are being taken and recycled, properly demolished, raken care from a hazardous perspective, I think people would be encouraged to do more.	11/13/2023 7:38 AM
519	Improved recycling (accepts more types of plastic products)	11/13/2023 7:35 AM
520	Bring able to purchase bag stamps for weeks we have garbage that won't fit in the bin	11/13/2023 7:25 AM
521	Stop recycling. Start repairing.	11/13/2023 7:10 AM
522	Search the landfills	11/13/2023 7:05 AM
523	We compost so NO compost program please	11/13/2023 6:59 AM
524	More items taken by blue bin	11/13/2023 6:40 AM
525	More recycling options in winnipeg like other cities	11/13/2023 6:30 AM
526	We have a backyard compost bin too but it saddens me that the vast majority of Winnipeggers don't compost	11/13/2023 6:23 AM
527	There should be more bulky waste removal. There are often large items left in the lane and nobody picks it up unless a camel is made. This creates an unsightly mess and is sometimes a target for arson.	11/13/2023 5:57 AM
528	Stress increase deposits	11/13/2023 5:42 AM
529	Plastic bag and over wrap recycling	11/12/2023 11:48 PM
530	Separation of paper and glass/metal!	11/12/2023 10:35 PM
531	Definitely a depisit return program very successful in Calgary.	11/12/2023 9:53 PM
532	It would be great if the city could just properly manage the current garbage, recycling and yard waste programs it has. Also, would like to see trucks properly sized for the roads/backlanes as they are too big and cause damage.	11/12/2023 4:29 PM
533	More locations to deposit hazardous wastes	11/12/2023 12:54 PM
534	We desperately need compost, we are decades behind other jurisdictions.	11/12/2023 3:09 AM
535	audits of recyclables at pick ups. Many people throw in dirty containers that contaminates and forces product to go to landfills. Do not pick up and provide literature on what resident can do.	11/12/2023 12:24 AM
536	incentives to compost at the apartment building I live in	11/11/2023 10:36 PM
537	Search the landfills	11/11/2023 6:55 PM
538	I'd like there to be a way to take lumber away from the recycling depot.	11/11/2023 6:49 PM
539	The fact that there are still Missing and Murdered bodies of Indigenous women in the landfills are the only thing that should be of concern to the people of Winnipeg. Nothing else matters. You have 3 bodies there! Unbelievable, search the landfills!	11/11/2023 5:48 PM

540	I am composting so I do not need collection for food waste.	11/11/2023 5:45 PM
541	some of these are already available-	11/11/2023 9:29 AM
542	Why can't I as a small business owner take my recycling to a 4R depot? The fact that I'm a business and am FORCED to throw my recycling into the landfill because I'm a business is one of the WORST policies the city has ever come up with! I want to recycle, but the 4R Depot says I can't... terrible policy, terrible planning, terrible management!	11/11/2023 9:05 AM
543	Cash incentives to recycle	11/10/2023 9:35 PM
544	Plastic bags - really need to be able to recycle them	11/10/2023 6:20 PM
545	Increase the types of items accepted for recycling, e.g. small appliances. I think I heard that EPRA accepts those in other provinces.	11/10/2023 11:20 AM
546	Search the landfill. Women are not garbage	11/9/2023 10:49 PM
547	I'd be interested in the food waste collection if it included meat, bones, cat litter waste, and other things I can't put in my own composter	11/9/2023 9:47 PM
548	Make people pay a deposit fee 5 cents for any drink cans plastic bottles wine bottles and make them deliver to Recycling Depot To Return them n get refunds. Research other Canadian provinces what how they recycle items and provide more education to people in order for them to follow the Recycling rules	11/9/2023 5:48 PM
549	I would be against reducing the frequency of yard waste pickup. If it were reduced, it would end up in my garbage as I have nowhere else to put it.	11/9/2023 1:27 PM
550	I don't think furniture pick up is necessary. There are already many charity places that do that already. However, I wish there was a fabric recycling location because I have a bag of 'rags'. I don't know what to do with. Unfit for passing on, I have no option except to put it in the garbage.	11/9/2023 9:01 AM
551	Provincially, it would be nice to have a deposit return program for more items. But it would need to be handy. It would also allow fund raising for community groups (I.e. scouts) or allow homeless to get income instead of pan handling.	11/9/2023 8:12 AM
552	I really miss the textlie recyling program that was in Winnipeg a few years ago. I am very reluctant to throw old unusable clothes into the garbage	11/9/2023 7:40 AM
553	I would like these programs only with the understanding it is not an additional cost or increase in property taxes.	11/8/2023 9:58 PM
554	Please note curbside collection of food waste may attract mice. People tend to knock over carts and garbage spills out. Household hazardous waste should be taken by person to 4R depot as any spills from those bins will leach into the ground and, possibly, the sewer. And, furniture (i.e. sofas) left outside would also attract mice.	11/8/2023 9:27 PM
555	Pick up of old electronics and computers	11/8/2023 7:56 PM
556	Curb side electronics recycling pick up	11/8/2023 7:40 PM
557	a way to dispose of large waste household without having to go to brady 4R or call 311	11/8/2023 3:10 PM
558	Make sure no bodies end up in the landfill, please!	11/8/2023 3:02 PM
559	Especially deposit return on bottles & cans	11/8/2023 11:14 AM
560	If compost program returned for free, since we do not get the compost back in return.	11/8/2023 6:16 AM
561	More hours for 4R facilities in summer, to make drop off later in day.	11/7/2023 11:58 PM
562	Have rhe recycling done the way it used to where people are paid to sort it	11/7/2023 10:29 PM
563	Or maybe a semi frequent household hazardous waste collection day at community ctrs?	11/7/2023 9:50 PM
564	Encouraging companies that reuse recycling to locate/start up in Manitoba/Winnipeg.	11/7/2023 9:27 PM
565	Community programs already do some of these things-more info.	11/7/2023 8:32 PM
566	It would be nice if they could sanitize the collebins once a year	11/7/2023 5:50 PM

567	I would like deposit return programs for all drink containers, just like Ontario, Sasckatchewan, Alberta and BC have.	11/7/2023 4:26 PM
568	Not for profit, but for local reuse.	11/7/2023 2:32 PM
569	Composting program for compostable organic waste.	11/7/2023 1:33 PM
570	More yard waste pick up in the fall	11/7/2023 1:04 PM
571	organized recycling	11/7/2023 12:23 PM
572	School programs for kids to dispose of food eat going and coming from school more sidewalk garbage cans to dispose of snack food and drinks	11/7/2023 8:32 AM
573	Educate newcomers on how to recycle and garbage collection	11/7/2023 8:13 AM
574	Compostable program	11/7/2023 6:28 AM
575	Kenora has a subsidized rapid cycling compost program, where you get a discount on the purchase of one of these devices. This is potentially a higher upfront cost, but save money longer term compared to curbside collection (no collection fees, etc...)	11/6/2023 4:44 PM
576	not interested in green cart as i eat out mostly	11/6/2023 3:24 PM
577	Collection of hazardous waste - more information and specially more drop off points for convenience (drive 40K for a gallon of waste oil?)	11/6/2023 2:15 PM
578	Keep bodies out of the landfill. Close landfil until bodies found	11/6/2023 1:50 PM
579	Composting but only in winter as we do our own composting when temperatures are above freezing.	11/6/2023 1:47 PM
580	Not everyone has access to internet OR the website is very confusing... I would like to be able to recycle aerosol cans.	11/6/2023 1:39 PM
581	Search the landfills	11/6/2023 12:36 PM
582	I am not interested in green cart collection because I compost all of my yard waste (carbon) and kitchen cuttings (nitrogen).	11/6/2023 11:41 AM
583	Not interested in new programs, but also not strongly opposed.	11/6/2023 11:33 AM
584	Honest communication about what happens to the numbered plastics after we put them in the recycling.	11/6/2023 11:30 AM
585	Collection of garbage and recycles weekly and yard waste biweekly is sufficient	11/6/2023 10:17 AM
586	More bins at collection sites for common recycling like lights, batteries or paint.	11/6/2023 10:12 AM
587	Yard waste chipping program for chopping up stalks/branches for landowner's use	11/6/2023 9:43 AM
588	Would be willing to drop off food waste similar to Christmas tree drop off	11/6/2023 9:33 AM
589	I personally do not need more than compost, but if the others were available it may stop people from contaminating their blue boxes	11/6/2023 9:16 AM
590	Accept more various recycling items	11/6/2023 8:25 AM
591	Recycling programs that provide incentives	11/5/2023 11:29 PM
592	Regarding the food waste collection, I already compost so would not like to have to pay an annual fee as I would not need the pick-up. What are the options for those of us who already compost (I have 2 bins!).	11/5/2023 11:21 PM
593	Bigger garbage and recycling bins	11/5/2023 10:13 PM
594	Used oil drop offs inside the city	11/5/2023 10:07 PM
595	Not having to pay taxes for garbage pickup while also paying for private pickup	11/5/2023 8:26 PM
596	I would like all governments to mandate reduction of packaging. Most of what I discard is packaging.	11/5/2023 8:15 PM
597	Compost collection	11/5/2023 7:57 PM

598	I am interested in recycling but not in any of the above	11/5/2023 7:19 PM
599	I would like to be able to transport larger waste items to closer depots than Brady landfill and not have to pay fees for one or two items.	11/5/2023 7:03 PM
600	Trouble with recycling program for clothing and furniture is if the donating house has bedbug/lice/cockroach problem then the donated items spread the troubles. And when the items get put out on the curb during the give-away weekends the bugs end up infecting neighbouring houses.	11/5/2023 5:42 PM
601	Brandon had a yearly program of pick up for large items and household waste like paint,etc	11/5/2023 5:22 PM
602	Recycling of plastic film (e.g. bread bags), take-out food containers, and coffee cups	11/5/2023 4:06 PM
603	Green cart collection will attract rodents!	11/5/2023 3:59 PM
604	I already compost and don't/can't pay for that. Teach people to have less waste. There are already places/ ways to reuse furniture	11/5/2023 3:52 PM
605	actual recycling program for car seats and other large plastic items	11/5/2023 3:44 PM
606	Please please please offer compostable waste pickup. Other major Canadian municipalities have this – why can't Winnipeg behave like a real city for once??	11/5/2023 3:21 PM
607	R	11/5/2023 2:27 PM
608	Education on composting/organics waste collection.	11/5/2023 1:55 PM
609	Reduce fees	11/5/2023 1:49 PM
610	Cubside compostable product pickup wit option to opt out if you can prove you do it like we do.	11/5/2023 1:26 PM
611	Keep chemical out of landfills waterways have separate garbage for toxic things containing Pfas parr 3 arsenic like makeup led light bulbs should be recycling all construction waste and all companies and businesses should be recycling	11/5/2023 1:17 PM
612	I am interested in a lot of programs, but it not cost any more than	11/5/2023 12:59 PM
613	I do not need a compost cart program as I have and use a composter that I bought from the city years ago.	11/5/2023 12:30 PM
614	Our recycling program is not great in that it doesn't handle #6 and black plastic. Deposit programs are non existent here whereas other provinces have been doing this for years. Our program needs updating and new ideas.	11/5/2023 12:14 PM
615	Very much appreciated and use the 4R depots.	11/5/2023 11:59 AM
616	Engage youth to participate in cleanup/recycling through Winnipeg Police Services. Officers in specialized units rely on garbage as potential evidence for conducting investigations. My son and his friends would likely participate if they knew the "cool factor" behind forensics and undercover work. They are all gamers	11/5/2023 11:48 AM
617	We pay a Levy on cans and bottles why don't we get it back when we return it like most provinces?	11/5/2023 11:19 AM
618	More Education on what is recyclable/wishcycling	11/5/2023 10:40 AM
619	I have lived in BC which has deposit return fee, that works. NOT happy we pay the fee but have no program that we can use and get the money returned on bottles, cartons etc.	11/5/2023 10:36 AM
620	Should have a program like Sarcan in Saskatchewan that employs challenged people	11/5/2023 10:03 AM
621	Make it easier to recycle old gasoline. For one I cant afford to deliver it in an approved container and let you keep it.	11/5/2023 9:57 AM
622	recycling centers for anything an eco fee was paid, plastic bottles, milk cartons etc. not just beer cans and bottles	11/5/2023 9:44 AM
623	Household garbage collection at 4R depots	11/5/2023 9:42 AM
624	no matter what you do you will just charge us more for it	11/5/2023 9:37 AM

625	I'm getting tired that every time a program is start there is always a big fee to go with it. It hits low & struggling people hard. It needs to stop.	11/5/2023 9:29 AM
626	Serious money invested in recycling depots so the can do the job properly.	11/5/2023 8:51 AM
627	Recycle and cash in as other provinces do more people would recycle	11/5/2023 8:39 AM
628	The current programming is perfectly adequate, except that people are unaware of how to deal with large items. We have a knowledge gap, not a service gap.	11/5/2023 8:36 AM
629	Recycling for plastic bags.	11/5/2023 8:32 AM
630	recycling that can deal with coffee cups and black plastics. it feels like there are too many plastics that are not accepted by the city of Winnipeg recycling program.	11/5/2023 8:26 AM
631	Will never use green cart, should be optional	11/5/2023 8:10 AM
632	Residents should be able to get the recycling fee/deposit back for plastic and glass containers like the Alberta program because without opportunity for a refund it's not a recycling fee, it's another money grabing tax.	11/5/2023 7:53 AM
633	Community bottle return for cash refund modeled after Alberta's collection system	11/5/2023 7:19 AM
634	Detroit allows residents to put furniture and large used household items out every 2 weeks. Residents will peruse their neighbourhood things, take them home for reuse and what's not taken by residents is picked up by the city. Perhaps only in summer.	11/5/2023 12:31 AM
635	Get your enviro levy back for aluminum cans - three or five cents	11/4/2023 11:58 PM
636	Do a better job of what you're currently doing. Stop trying to add more stuff	11/4/2023 10:56 PM
637	Curbside pickup of electronics to be recycled (eg. large tvs)	11/4/2023 10:28 PM
638	Beer emptie returns have not increased in decades	11/4/2023 10:20 PM
639	I would be opposed to additional fees for these services	11/4/2023 9:35 PM
640	Some of these ideas are convenient when doing hone repairs etc but not needed on regular basis	11/4/2023 9:15 PM
641	Better recycling companies so more recyclables can be recycled here in Winnipeg. We have the lowest ability to recycle items that other cities can easily recycle. By offering more recycling items, it would be less confusing as to what is recyclable here or not.	11/4/2023 9:14 PM
642	Like existing	11/4/2023 7:40 PM
643	We compost all food and yard waste. Tree branches are chipped. Clothes are Thrift Stored or ragged. Household hazardous waste is taken to Panet 4R.	11/4/2023 7:14 PM
644	Encourage retail to use alternatives to single use plastic.	11/4/2023 6:22 PM
645	Easier/more locations for used oil/ fuel drop off.	11/4/2023 6:19 PM
646	Improve the recycling program to include more items	11/4/2023 5:30 PM
647	More compost bins available for low cost.	11/4/2023 5:10 PM
648	Clothing and fabrics are very hard to recycle. Best option is to donate or reuse.	11/4/2023 2:35 PM
649	construction/renovation materials not be put in our dumpsters	11/4/2023 10:10 AM
650	We could use a 4R Depot on the west side of the City at the old landfill on Summit Road off Centreport	11/4/2023 8:30 AM
651	Stop selling single use containers in stores.	11/4/2023 7:28 AM
652	Getting a deposit refund would encourage more people to recycle	11/4/2023 2:14 AM
653	Battery collection	11/3/2023 10:49 PM
654	More effort should be made to salvage usable materials at the 4R depots. Abolish the "no scavenging" rule and let peope take things that they can reuse	11/3/2023 9:31 PM
655	Composting	11/3/2023 9:17 PM

656	Compost program	11/3/2023 8:56 PM
657	A return to traditional garbage pickup. No sorting, everything you put out gets picked up.	11/3/2023 8:30 PM
658	Only recycle clothes if we know they aren't just being moved to someone elses landfill	11/3/2023 8:16 PM
659	Do something about ALL one use plastic. It makes up most of our garbage and alternatives regarding product purchases don't exist.	11/3/2023 7:47 PM
660	City should be extremely pro-active and divert all waste to collection sites whereby materials can be separated into raw materials where possible and sit until it can be recycled/re-used or broken down into materials for use. This would require massive areas for storing material, but almost nothing should be going into the ground. Eventually all waste will have value and be able to be re-used in some way.	11/3/2023 6:37 PM
661	Free home compost bins so I can compost for my own garden use	11/3/2023 5:37 PM
662	Fall collection of soil from potted plants.	11/3/2023 2:42 PM
663	Frustrated waiting for food waste collection. It's a shame when the city does not want to put fertilizers on green spaces.	11/3/2023 2:06 PM
664	A vastly improved recycling program. Right now very few things are allowed.	11/3/2023 1:58 PM
665	bottle returns	11/3/2023 1:34 PM
666	household composting education and bins	11/3/2023 11:25 AM
667	have a bottle return option	11/3/2023 11:17 AM
668	Deposit return depots would be useful. Currently a lot of this goes into blue bin because it is too difficult to return. For instance, in Ontario you can return beer cans to provincial beer store	11/3/2023 10:46 AM
669	For the love of god, please start collecting food waste. It's insane that we don't.	11/3/2023 8:36 AM
670	Yes we need a program that we can return our pop/glass bottles as we are charged on our bills, who is getting the recycle fees? we sure arent for returning them.. They have bottle depots in calgary has been for over 30 years, and you can bring every type of tin, glass, cardboard (milk cartons) to them and get refunds.. Not sure why wpg never did this . We get charged recycling fees for electronics and return them why no refund? Someone is making big bucks of this	11/3/2023 8:31 AM
671	Tax people who maintain large lawns on their property. Waste of valuable resources. Incentives to exchange grass lawns for pollinator, prairie plants or food.	11/3/2023 8:12 AM
672	Improve the recycling program before adding more complicated programs!	11/3/2023 7:06 AM
673	Neighbourhood collection of hazardous waste (ie batteries, lightbulbs). Restaurants and businesses should have to compost as well, not all of the responsibility should be on households to combat climate change. Recycling too.	11/3/2023 6:16 AM
674	Recycling glass, and more plastics	11/3/2023 1:26 AM
675	Supplier responsibility program. i.e. requiring businesses selling electronic products to be depots for used products	11/3/2023 12:47 AM
676	Bulk use programs - ability to purchase items from a large container and fill my own reusable container	11/2/2023 11:32 PM
677	Recycling of electronic goods?	11/2/2023 10:59 PM
678	Composting	11/2/2023 10:34 PM
679	Home composting of kitchen waste	11/2/2023 10:21 PM
680	segregated collection of glass and other items like corks. (Also, I didn't pick recycling of clothes and furniture because Wpg's MCC thrift stores already do that, probably better than CoW could)	11/2/2023 8:40 PM
681	Vegetal compost	11/2/2023 8:37 PM
682	Safe and free Bed bug trash removal	11/2/2023 8:15 PM

683	Plastic bag recycling program	11/2/2023 8:04 PM
684	Do like Alberta does with offering money for plastic returns. There is way too much of it in the streets.	11/2/2023 7:36 PM
685	Bring back re-usable pop bottles	11/2/2023 7:33 PM
686	Large building compost program	11/2/2023 7:30 PM
687	I want my deposit back for recycling TVs, soda pop containers 2) curbside hazardous waste might be dangerous because of teenagers tampering	11/2/2023 7:20 PM
688	Other cities give you $ back for recycling. We'd have a lot less diverted to landfill	11/2/2023 7:09 PM
689	re: recycling clothes/fabrics, this needs to be done properly and not as a form of greenwashing. very few fabrics can actually be properly recycled and they just become another form of waste. clear education and correct identification of resources would need to be involved here.	11/2/2023 5:54 PM
690	Perhaps in the spring & summer you could offer a residential pickup (no charge) for larger waste not including appliances or mattresses but scrap lumber, landscape items, old toys, old sports equipment etc.	11/2/2023 4:46 PM
691	Run a program for small home appliances similar to the bike programs like The Wrench.	11/2/2023 3:42 PM
692	Free dumping at Brady. or Prairie Green facilities (This is helping to keep the city clean. No sofas on the side of the road,etc)	11/2/2023 3:07 PM
693	In terms of deposits and refunds, businesses should be participants like they are for beer bottles and cans	11/2/2023 3:03 PM
694	Curbside waste pickup was supposed to be a pilot project in 2014 which that Council cancelled. I would like curbside compost pick up and an incentive/rebate for buying my own compost machine.	11/2/2023 2:19 PM
695	Every business, homeowner or renter must recycle	11/2/2023 2:01 PM
696	Composting programs, possibly at community centres.	11/2/2023 1:59 PM
697	I don't mind taking things to the landfill if it is too large or does not fit, but I think the 20 minimum is way too much	11/2/2023 1:27 PM
698	I currently pay for compost service. It has reduced my garbage significantly and my use of plastic bags as they are no longer needed. My garbage consists only of packaging that cannot be recycled. Fewer garbage collections must have a positive impact on budgets.	11/2/2023 1:25 PM
699	What we have now works fine as is, no changes required.	11/2/2023 1:17 PM
700	Curbside collection of household hazardous waste is great but only if it makes sense re: fuel consumption, i.e. one truck on a route vs. many individual trips to the 4R.	11/2/2023 12:56 PM
701	I am very frustrated that recycling is currently limited by the types of things one cannot put in the recycling bin - everything should be recyclable	11/2/2023 12:50 PM
702	Not sure	11/2/2023 12:32 PM
703	Many of the above already exist; maybe more education is a better option.	11/2/2023 12:28 PM
704	lobbying manufacturers to reduce amount of secondary packaging.	11/2/2023 12:16 PM
705	Clothing, furniture, household item swap or rentals	11/2/2023 12:04 PM
706	We should have a provincial program for recycling and refunding drink containers.	11/2/2023 12:04 PM
707	regulations or financial penalities to reduce non-decompostable waste i.e.: the recent shift away from styrofoam should be replicated in the grocery/freshfood industry.	11/2/2023 11:36 AM
708	Most products we buy now are meant to throw out. Especially furniture and clothing mentioned above. I think recycling furniture and clothing would lead to bed bugs, but I like the idea of trying to keep as much as possible out of the landfill.	11/2/2023 11:35 AM
709	Pop cans and wine bottles need to be in a deposit program	11/2/2023 11:27 AM

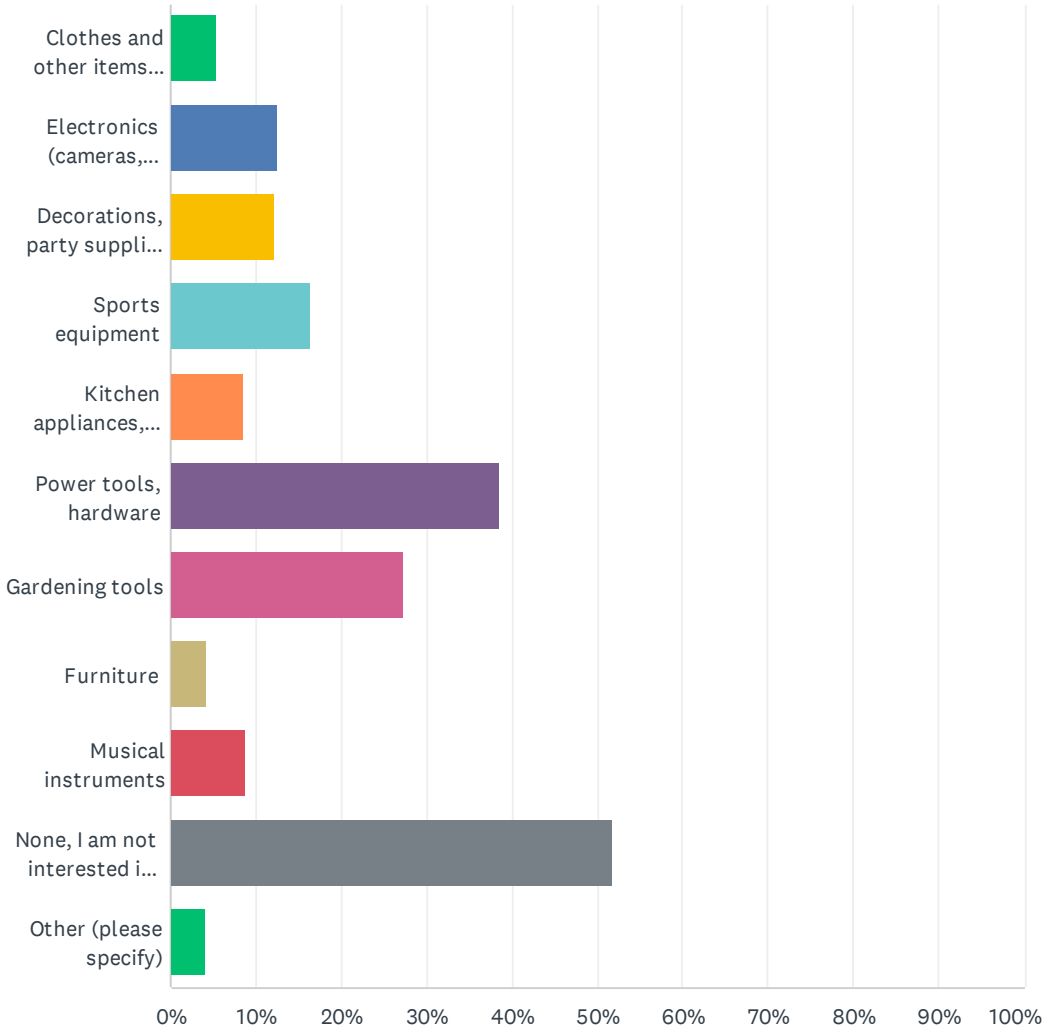
710	Recycling of all plastic materials	11/2/2023 11:21 AM
711	Recycling of food waste for restaurants would be more beneficial as many people would not want to give up weekly pickup.	11/2/2023 11:12 AM
712	WOULD LOVE A COMPOST PROGRAM!!!	11/2/2023 11:07 AM
713	glass recycling not available	11/2/2023 11:05 AM
714	No deposit return for glass containers or plastic pop containers	11/2/2023 10:58 AM
715	Encourage manufacturers to reduce packaging	11/2/2023 10:36 AM
716	Nit sure	11/2/2023 10:33 AM
717	Clarity around what percentage of blue bin collections is actually recycled.	11/2/2023 10:28 AM
718	rebates/tax breaks/etc for folks who choose to implement residential resource-reducing renos or activities (rain gardens & rain barrels to minimize runoff, at-home compost, opt-in decreased frequency refuse collection)	11/2/2023 10:25 AM
719	Winnipeg does fantastic Refuse & Recycling	11/2/2023 10:21 AM
720	I am more concerned about what happens to the things I put in my recycling bin. How many are actually effectively recycled? eg. Plastics - where does most of it end up??	11/2/2023 10:14 AM
721	I didn't tick education as I'm proactive with trying to be zero waste, but it would be important in general	11/2/2023 10:08 AM
722	Reduction of packaging on items purchased.	11/2/2023 10:07 AM
723	As mentioned in previous page, a separate small collection bin for human and pet waste would be ideal	11/2/2023 10:03 AM
724	Better clarification on how to prepare specific items for 4r depots. For example, light fixtures are accepted, but need to be disassembled to a pretty involved degree.	11/2/2023 9:59 AM
725	expanded collection of e waste	11/2/2023 9:33 AM
726	Having recycling available in my building 316 Ross ave	11/2/2023 9:32 AM
727	I'm Gatineau QU they do a free bulky waste pick up once a month curbside for things too big for bins. Helps for those that can't drive to dump	11/2/2023 9:26 AM
728	Most provinces refund for cans and aluminum. Of course we don't	11/2/2023 9:21 AM
729	building recycling bins that have larger openings for larger plastic items (ours just has two round holes and does not accept larger plastics like laundry detergent containers)	11/2/2023 9:19 AM
730	Just fix the extra waste pickup issues and we'll be good	11/2/2023 9:12 AM
731	Some of these programs would be useful in high density areas where many people don't have cars yo drive to 4R, but not citywide	11/2/2023 9:06 AM
732	Wine bottle/liquor bottle deposit return	11/2/2023 9:00 AM
733	Saskatchewan's recycling depots that refund recycling deposits for certain containers in cash incentivizes people to recycle, provides income opportunities for the unhoused or underemployed, and reduces public waste/littering.	11/2/2023 8:57 AM
734	bigger recycle bins and smaller garbage bins	11/2/2023 8:50 AM
735	Build an Integrated Waste Management and Processing Facility like Edmonton	11/2/2023 8:48 AM
736	Would be too expensive for curbside hazardous waste	11/2/2023 8:47 AM
737	Curbside pickup of more types of waste would be great, as transportation to the 4R depots is a barrier for many	11/2/2023 8:41 AM
738	none of these	11/2/2023 8:33 AM
739	No comment	11/2/2023 8:29 AM
740	We compost but I don't think a curbside program would work in Central Park (lack of	11/2/2023 8:23 AM

	participation by residents and/or street people might try to eat or dump contents on sidewalks/streets	
741	9	11/2/2023 8:21 AM
742	Pet waste recycling (like they have in other jurisdictions)	11/2/2023 8:21 AM
743	Recycling programs for ALL plastics	11/2/2023 8:20 AM
744	a critical review of what recycled materials are economically and environmentally benefit to include	11/2/2023 8:18 AM
745	I compost myself no need for pick-up	11/2/2023 8:17 AM
746	Occasional curbside collection of batteries and light bulbs	11/2/2023 7:53 AM
747	Honest information on what actually happens to recycling once it is collected.	11/2/2023 7:44 AM
748	I participated in a paid recycling program for styrofoam and other plastics not in city program. Would this be feasible for the city?	11/2/2023 7:20 AM
749	I think recycling should mean recycling, everything that can be recycled should go in that cart and the facility should sort it and send it off to be recycled. We should not be guessing about our things, one stop drop will keep Winnipeg tidy. Our universities should teach recycling and get Winnipeg students to set up recycling industry in our Provence, then and only then will we really be taking care of our waste problem.	11/2/2023 6:01 AM
750	Some of these programs would be good but not everyone had a truck to haul this stuff to a depot. Which would make the program useless	11/2/2023 5:20 AM
751	Used writing utensils to be collected at schools. Find out how Terracycle recycles them so we do not have to send them to Mississauga.	11/2/2023 12:05 AM
752	More options for what can be recycled, eg. To go containers	11/1/2023 7:20 PM
753	Pay cash when returning bottles and cans.	11/1/2023 5:51 PM
754	expanded plastics recycling -- I currently pay to recycle film plastics and black and other plastics (and frankly am not totally sure this private problem actually does what it says it does). If the sorting equipment can't handle film plastic, then partner up with Chris Parker at Winnipeg recycling and Terracycle and get this VAST volume of plastic bagged up separately for City pickup. And when I tick the box for recycling of clothes, I mean the stuff that isn't recycled already -- the stained, ripped and worn-out textiles the City and Diabetes used to take but don't now.	11/1/2023 5:34 PM
755	A COMPOST PROGRAM!	11/1/2023 2:12 PM
756	Compost bins for apartment buildings	11/1/2023 6:55 AM
757	some people would sort recycling in sectioned bins	10/31/2023 7:44 PM
758	Compost, with the option to opt out because of already having our own bins.	10/31/2023 5:49 PM
759	to widen pilot program for sorting and recycling	10/31/2023 4:41 PM
760	Plastic bag recycling	10/31/2023 3:49 PM
761	I need more info on what is accepted in the food waste-I compost on my own	10/31/2023 2:55 PM
762	Free collection for extra trash periodically	10/31/2023 2:46 PM
763	green collection for multi-family buildings like mine - I know this is doable as I had access to a program in Halifax when I lived there many years ago	10/31/2023 2:31 PM
764	Pleaaase do the green cart! I want this as fast as possible	10/31/2023 12:47 PM
765	Encourage more composting that already exists by providing composting bin rebates.	10/31/2023 11:03 AM
766	Some of the above programs would lead to other problems like people scrounging clothes, fabrics and furniture before they are picked up.	10/31/2023 10:49 AM
767	Please No green cart program. set up the green carts for restaurants only	10/31/2023 10:08 AM

768	Across Canada we need to slowly move to a system like Japan where people cooperate with cleaning and sorting. Education! Also more benefits to companies that recycle/reuse different types of plastic	10/31/2023 9:59 AM
769	It would be useful to stop the "new Canadians" from just shoving their used items in the lane of fall apart over time and create a mess. I NEVER put anything in the lane. I always bring it to a charity, or sell items at a consignment outlet.	10/30/2023 9:24 PM
770	Expansion of the acceptable items for the blue bin	10/30/2023 8:51 PM
771	DEPOSIT PROGRAMS !!!!!	10/30/2023 7:42 PM
772	Increase recycling of common items that are currently unable to be recycled due to lack of facilities/money	10/30/2023 5:10 PM
773	charging residents extra fees is not recommended	10/30/2023 5:03 PM
774	A bottle deposit with refund machines like at every supermarket in Europe would be AMAZING!	10/30/2023 4:52 PM
775	Better Electronic Waste collection	10/30/2023 4:19 PM
776	I have a small composter----overflled early in spring	10/30/2023 4:01 PM

Q24 What types of items would you be most interested in renting, sharing, or borrowing? (Check all that apply)

Answered: 8,966 Skipped: 270



ANSWER CHOICES	RESPONSES	
Clothes and other items made from fabric	5.32%	477
Electronics (cameras, projectors, printers, scanners, etc.)	12.50%	1,121
Decorations, party supplies, gift wrap	12.15%	1,089
Sports equipment	16.50%	1,479
Kitchen appliances, tools, cookware	8.57%	768
Power tools, hardware	38.67%	3,467
Gardening tools	27.19%	2,438
Furniture	4.19%	376
Musical instruments	8.65%	776
None, I am not interested in renting, sharing, or borrowing	51.75%	4,640
Other (please specify)	3.97%	356
Total Respondents: 8,966		

#	OTHER (PLEASE SPECIFY)	DATE
1	We donate or sell items no longer needed & sometimes buy from thrift shops, etc.	11/30/2023 9:14 AM
2	I have a large family, we do this “in house”	11/28/2023 11:31 AM
3	Lawn mower	11/27/2023 12:08 AM
4	lawn mower, weed wacker	11/26/2023 11:23 PM
5	Ladders over 10 feet, rototiller, yard tools, big and small, Utility trailer or truck to haul things.	11/26/2023 7:17 PM
6	LIKE TO OWN MY OWN	11/26/2023 4:53 PM
7	Please make this part of the library system, they already hand the infrastructure.	11/26/2023 11:25 AM
8	This is a [redacted] question. Renting clothes? Who thought this insanity up?	11/26/2023 10:40 AM
9	Leave this to the private sector.	11/25/2023 10:15 PM
10	Not sure where you're going with this question?	11/25/2023 6:23 PM
11	N/A - retired, live in apt., self-sufficient - have cottage as well for extra storage of seasonal necessities.	11/25/2023 4:53 PM
12	We’re involved in a community buy nothing group	11/25/2023 4:19 PM
13	Expensive things like tools.	11/25/2023 3:04 PM
14	I rent from Hime Depot	11/25/2023 9:54 AM
15	We already do some of these things. These things should be promoted and available Cia neighborhoods and not through the city	11/25/2023 9:54 AM
16	not furniture/ to concerned about Bed Bugs	11/25/2023 5:38 AM
17	We already share/borrow items as much as possible with our group of friends who live nearby.	11/25/2023 4:06 AM
18	My	11/24/2023 11:58 PM
19	I already do a lot of the above thru Buy Nothing groups and community based recycling for electronics.	11/24/2023 6:26 PM
20	Hu	11/24/2023 6:18 PM

21	Camping equipment	11/24/2023 4:22 PM
22	I use very specialized equipment that I need regularly; don't use other types of things	11/23/2023 10:39 PM
23	I should note I am economically in a place where most of these options aren't strictly necessary	11/23/2023 4:43 PM
24	How to spread bed bugs.	11/23/2023 8:03 AM
25	All of the above. I do this through bring any unwanted goods to used goods shops	11/22/2023 4:13 PM
26	Ebikes for commuting	11/22/2023 3:19 PM
27	We donate all these items to the Salvation Army	11/21/2023 5:34 PM
28	I support giving to the thrift stores.	11/21/2023 3:31 PM
29	I dont know.	11/21/2023 2:01 PM
30	outdoors equipment (Camping)	11/21/2023 1:42 PM
31	this is a strange question - if City of Wpg is going down the road of asking for donations to keep these items out of the landfill then they should work with agencies to collect these items and make them available to our citizens in need and possibly help support programs to reduce homelessness	11/21/2023 11:23 AM
32	Seriously. The City of Winnipeg is thinking about getting the everything rental business? No one is interested in paying more taxes for programs they don't need or want. What expertise would the CofW bring to the everything rental business.	11/21/2023 10:36 AM
33	I rent from licensed vendors, borrow occasionally garden items from my neighbor, buy my own kitchen items, buy clothes from second hand shops	11/21/2023 8:47 AM
34	concern re bedbugs and cockroaches result in not wanting to borrow most things. but localized tool lending is good idea. many people in my neighbourhood don't even have shovels	11/21/2023 8:00 AM
35	I basically have what I need at present.	11/20/2023 5:29 PM
36	What we have now works fine as is, no changes required.	11/20/2023 9:39 AM
37	I would items but not interested in renting or borrowing for myself.	11/19/2023 5:55 PM
38	We keep things until they wear out.	11/19/2023 3:32 PM
39	We already share and borrow among our family. Neighborhood pages already perform these services. This would be a redundant and wasteful project for the city to try to run. City doesn't even clean the streets properly in spring and fall-allowing sewar blockages. The city should stick to its knitting and quit wasting money on things like this-it would be a gong show.	11/19/2023 2:30 PM
40	odd question n/a sounds like marketing research	11/19/2023 12:38 PM
41	Not disinterested but don't have enough information about this service	11/19/2023 9:35 AM
42	What does this question have to do with waste pick up?	11/18/2023 11:29 PM
43	bird houses and feeders	11/18/2023 11:46 AM
44	None	11/18/2023 11:22 AM
45	This has nothing to do with the city people use Kijji or Facebook market place as recycling depots do not give the clothes or items to people who need them they are a business and sell them for a profit	11/18/2023 9:40 AM
46	We malready have great charities doing this work. Diabetes, Big Brother, Good Will to name a few.	11/18/2023 8:54 AM
47	there are many places to donate. Big Brothers, Diabetes, Good Will to name a few	11/18/2023 8:34 AM
48	I would be concerned with hygiene and bugs	11/18/2023 7:25 AM
49	I'd hesitate to participate due to bed bugs	11/17/2023 8:52 PM
50	3D printers, cleaning tools like carpet cleaner or pressure washer, camping equipment	11/17/2023 7:55 PM

51	I recycle items by donating to thrift stores regularly.	11/17/2023 7:38 PM
52	I already donate	11/17/2023 7:32 PM
53	I don't understand how this relates to trash collection. I borrow all kinds of things and I don't require city intervention for that	11/17/2023 5:47 PM
54	Any items that are only used occasionally like mulching.	11/17/2023 4:43 PM
55	Ladders	11/17/2023 1:41 PM
56	Not sure why these types of questions are in a survey that should focus on issue of green box pickup. Do you want me to throw these things in that bin!!!!	11/17/2023 12:56 PM
57	Baking supplies	11/17/2023 11:17 AM
58	I am not answering because I have no idea what the assumptions are prompting this question.	11/17/2023 10:26 AM
59	Strange question	11/17/2023 7:39 AM
60	What kind of survey is this? The city going to allow us to use a city truck for moving day? Is Chipman going to let us borrow skates and use the arena? How would you even begin this or manage it? Oh wait, more union jobs.	11/17/2023 3:38 AM
61	I take part in a community free give away program.	11/16/2023 10:32 PM
62	Already have a community I share with	11/16/2023 10:19 PM
63	power tools	11/16/2023 10:17 PM
64	Vehicle as in Peg City coop	11/16/2023 9:11 PM
65	Utility automobiles (e.g. cargo vans)	11/16/2023 8:13 PM
66	This is winnipeg you guys can't be trusted to share.	11/16/2023 7:46 PM
67	question 16 answer- nothing like that available nearby	11/16/2023 3:49 PM
68	snow blower	11/16/2023 3:20 PM
69	Be able to salvage old lawn mowers or snow blowers from the 4R	11/16/2023 12:44 PM
70	Pay for recycling	11/16/2023 12:35 PM
71	Bigger landscaping tools like de-thatchers, sod removal machines or rototillers	11/16/2023 12:10 PM
72	All of the above	11/16/2023 12:01 PM
73	*	11/16/2023 10:23 AM
74	I hate this idea due to bedbugs and potential virus spread. After Covid I would strongly oppose a "sharing" program	11/16/2023 9:14 AM
75	cars	11/16/2023 9:13 AM
76	Why is the city contemplating getting into private commerce??	11/16/2023 7:47 AM
77	Our neighbourhood already lends out gardening tools and power tools to each other.	11/16/2023 7:47 AM
78	Not interested	11/16/2023 7:41 AM
79	N/a	11/16/2023 7:21 AM
80	Not too sure what is being proposed with this question.	11/16/2023 1:20 AM
81	What you value village now trying to collect giveaway weekend stuff to sell greedy ass government hungry for more money? Stick to trash	11/15/2023 10:13 PM
82	Snow blowers	11/15/2023 10:05 PM
83	heard of facebook marketplace? govt should govern less	11/15/2023 9:36 PM
84	I can.	11/15/2023 9:13 PM
85	Why are communists directing city policy development?	11/15/2023 9:02 PM

86	If taxes were lower, people wouldn't have to rent or borrow things. They could just buy them. Such as housing and vehicles.	11/15/2023 8:46 PM
87	Holiday decor	11/15/2023 7:39 PM
88	All of the above all on a single day	11/15/2023 7:35 PM
89	I'm all for reducing consumption where practicable.	11/15/2023 7:13 PM
90	Im cool i dont need garbage	11/15/2023 6:05 PM
91	I already rent some of the items on this list	11/15/2023 6:02 PM
92	None, but not that I'm not interested. I think it's a great idea. But I'm almost 70 and at the age of purging.	11/15/2023 5:02 PM
93	Spencer's mom	11/15/2023 5:01 PM
94	City owned tools and equipment	11/15/2023 5:01 PM
95	do not get into power/gardening tool sharing/renting - there are retail locations for that and those need to be supported. You can get musical instruments from libraries so that program exists plus there are retailers to support	11/15/2023 4:52 PM
96	How is the applicable to Garbage collection.	11/15/2023 4:33 PM
97	All of these would make our city feel more like a community	11/15/2023 4:23 PM
98	The website could be clearer on how to prepare items for the recycling bin; it takes jars but do you want lids on or off?	11/15/2023 3:49 PM
99	Please clarify?	11/15/2023 2:19 PM
100	Spencer's Mom	11/15/2023 1:59 PM
101	This question makes no sense. Anyone can rent, share or borrow already.	11/15/2023 1:00 PM
102	We have businesses and community groups that do most of this.	11/15/2023 12:48 PM
103	all that I would be interested in are available	11/15/2023 12:29 PM
104	Already donate plenty to Canadian diabetes etc	11/15/2023 12:20 PM
105	As seniors, we already have what we need. Would be more interested in obtaining a credit for tools/supplies we no longer use/need but could donate to a community 'tool/supply' outlet..	11/15/2023 11:04 AM
106	Lower fees	11/15/2023 10:47 AM
107	I'm not sure what this would entail	11/15/2023 10:41 AM
108	I would be interested in giving away clothing and small appliances or electronics	11/15/2023 10:30 AM
109	Many expensive tools can be rented if one looks into it.	11/15/2023 10:30 AM
110	Get back to a clean city Logan to Higgins discussing for Winnipeg	11/15/2023 10:07 AM
111	ADULT TOYS THAT HAVE BEEN PROPERLY SANITIZED	11/15/2023 10:03 AM
112	there are enough places in the community to already do this ie buy nothing groups , home depot etc...	11/15/2023 9:25 AM
113	This question does not apply to us but makes sense for certain demographics	11/15/2023 8:59 AM
114	Is this a joke?	11/15/2023 8:35 AM
115	Tables and clothes racks to hold my own garage sale. Extra lawn chairs for summer bbq's.	11/15/2023 5:41 AM
116	Are we moving towards being a third world country?	11/15/2023 1:13 AM
117	A	11/15/2023 1:12 AM
118	Unsure what this question is asking	11/14/2023 11:32 PM
119	Some of these services are available at Home Depot	11/14/2023 10:27 PM

120	I think a library of things would be a fabulous idea.	11/14/2023 10:21 PM
121	Who are we borrowing from? Friends? A business?	11/14/2023 9:57 PM
122	i would be interested in borrowing lawn equipment	11/14/2023 9:49 PM
123	Why would you ask this for a waste survey ???	11/14/2023 9:48 PM
124	camping equipment	11/14/2023 9:33 PM
125	I don't get where this question is going so I'm unsure how I would answer	11/14/2023 9:23 PM
126	I notice many apartment renters use the shopping carts from the grocery stores to push their heavy purchases home, it would be a great idea to develope a program which allows people to use carts but be able to return them, not have the carts loitered all over	11/14/2023 8:17 PM
127	I	11/14/2023 7:58 PM
128	I share only with immediate family and /or close friends	11/14/2023 7:52 PM
129	ladders, lawnmowers	11/14/2023 7:48 PM
130	I don't know who came up with this question, but this is an absolute waste of time be realistic how would a program like this work if nothing gets returned There are several businesses that offer these services in the city does not need to get involved with this	11/14/2023 7:29 PM
131	trailer	11/14/2023 7:03 PM
132	I do this with family and friends now who i know where it is coming from	11/14/2023 5:11 PM
133	I'm not sure. I've never thought about this.	11/14/2023 5:05 PM
134	The COW should not be involved in renting, sharing, or borrowing programs. Those programs should be left up to the private sector.	11/14/2023 4:28 PM
135	Ladders!	11/14/2023 4:10 PM
136	I don't feel there is enough info to answer this; it depends who & where this would happen	11/14/2023 4:00 PM
137	used panties & bras	11/14/2023 2:55 PM
138	We reuse, repurpose and recycle everything we can.	11/14/2023 1:50 PM
139	Art supplies, automotive supplies, space for projects	11/14/2023 1:38 PM
140	Some of these items are available now at the public library ie musical instruments but this program could be expanded to include items selected above.	11/14/2023 1:15 PM
141	None bed bugs or other critters	11/14/2023 1:10 PM
142	Depends on what you mean by sharing like donating or sharing and take back ? Not interested in renting or borrowing Question sharing ? Clothing donation etc is good or selling	11/14/2023 1:07 PM
143	lots of these share ideas are good, but perhaps not by the city but by community organizations like habitat for humanity or others. I don't think the city should be operating those extra operations. Stick to garbage and waste collection, the fundamentals	11/14/2023 1:06 PM
144	Children's strollers, cribs etc.	11/14/2023 12:15 PM
145	all of the above	11/14/2023 11:52 AM
146	seems a bit unsanitary - wonder about bed bugs and Covid.	11/14/2023 9:57 AM
147	Labour! as a senior who's mobility is becoming limited, I'd love to become part of a labour exchange. I can cook, sew, knit, etc. but need help with my yardwork.	11/14/2023 9:11 AM
148	Not even sure what this question means?	11/14/2023 8:22 AM
149	_	11/14/2023 7:58 AM
150	I already rent share and borrow with my neighbors and through local businesses	11/14/2023 7:48 AM
151	Really depsnds what you mean. Big stuff? Interesting small or frequent use things, no.	11/14/2023 5:06 AM

152	How is this question relevant to this survey?	11/14/2023 2:23 AM
153	Interesting that you lead with "renting". Again with the more costs. Get your hands out of my wallet!!!	11/14/2023 1:57 AM
154	I'm definitely interested in thrifting if not borrowing many of the above	11/13/2023 11:14 PM
155	Puzzles and board games	11/13/2023 10:57 PM
156	I don't really understand the premise	11/13/2023 10:37 PM
157	NONE!	11/13/2023 10:02 PM
158	It would assist families who have trouble playing for kid's sport programs	11/13/2023 8:12 PM
159	Anything i would want to rent i already freely can.	11/13/2023 8:08 PM
160	Sports equipment	11/13/2023 7:31 PM
161	I donate to Canadian Diabetes and Value village. Otherwise, I donate to charity.	11/13/2023 7:12 PM
162	Not sure	11/13/2023 6:54 PM
163	I already share and borrow through my community's buy nothing group	11/13/2023 6:27 PM
164	Toys and Board Games	11/13/2023 6:20 PM
165	Bad Idea	11/13/2023 6:20 PM
166	I would encourage other residents to donate unwanted items to thift stores.	11/13/2023 5:32 PM
167	What are you people, [redacted]	11/13/2023 5:18 PM
168	Community centres would be great for this. And for building community. We already do this informally with several neighbours.	11/13/2023 4:52 PM
169	What does this question have to do with the topic of garbage / recycling?	11/13/2023 3:52 PM
170	All borrowing - low income can't 'rent'.	11/13/2023 3:52 PM
171	U	11/13/2023 3:32 PM
172	There are already places where you can rent many of these items - e.g. Home Depot	11/13/2023 3:26 PM
173	I am very uninterested in sharing or borrowing with the city	11/13/2023 3:18 PM
174	my neighbours and I share	11/13/2023 3:18 PM
175	None	11/13/2023 3:14 PM
176	I have a difficult time imagining how this would work in this city...	11/13/2023 3:12 PM
177	Carpet cleaner	11/13/2023 3:02 PM
178	I already share with friends, neighbours and family.	11/13/2023 2:56 PM
179	cannot answer the question as phrased - borrow from whom?	11/13/2023 2:35 PM
180	I do NOT want more crap at the curb side. Just an invitation for thieves and mess.	11/13/2023 2:31 PM
181	wtf? Were you not here for the pandemic? Also, gross. Also, seriously?	11/13/2023 2:25 PM
182	Community shed where people can leave or take free items, or shelves in public spaces like the library	11/13/2023 2:16 PM
183	This is a ridiculous question and nothing the City should be involved in.	11/13/2023 1:52 PM
184	There are already commercial services offering these items for rent. Why duplicate through the city?	11/13/2023 1:44 PM
185	Lawnmower.	11/13/2023 1:33 PM
186	Yard games	11/13/2023 1:20 PM
187	Items I donate to other places	11/13/2023 1:19 PM

188	I do this myself	11/13/2023 12:54 PM
189	We currently do this among our neighbors and friends	11/13/2023 12:53 PM
190	Unsure	11/13/2023 12:50 PM
191	I'm retired. Reuse what I have. Don't buy much except food.	11/13/2023 12:45 PM
192	If you think I am now going to belong to some [redacted] and share items you got to be kidding. Give your head a shake! Disease covid is rampant isn't that what you've been telling us? Isn't that what you said the stand doors wear a mask! I certainly don't think this is a good time that we have communal items and be sharing these things. I work hard for my items I am not sharing them with anyone. If you need something get a job and work for it. Don't expect everybody else that works to give you a handout all the time. I'm willing to give a hand up but not a handout. This Society values too much on giving people handouts and not educating and making them dependent on others. That's what I say this is now the age of the [redacted] down of society. [redacted] I do not want to be involved in some social commie Society.	11/13/2023 12:23 PM
193	Not sure if i would use or not	11/13/2023 12:20 PM
194	I need more information to make an informed decision	11/13/2023 12:13 PM
195	What an odd question... Why is this survey suddenly interested in us borrowing, is this part of that "you'll own nothing and be happy" schtik?	11/13/2023 12:10 PM
196	How can you share gift wrap? Reduce. Gift wrap is a big unnecessary waste. Use sparingly.	11/13/2023 12:04 PM
197	None	11/13/2023 11:38 AM
198	waste of tax payers money	11/13/2023 11:18 AM
199	Have the ability to rummage at 4r I would gladly sign a liability release. Just like when you were able to pick the dump	11/13/2023 11:12 AM
200	I give to and buy from Thrift Stores	11/13/2023 11:11 AM
201	Heavy equipment such as snow blowers, de-thatchers, extension ladders - occasional use items.	11/13/2023 11:07 AM
202	what is the point of this question?	11/13/2023 11:06 AM
203	Soil from the potted plants that others dispose of at the end of summer. Whenever I can, I rescue this perfectly fine soil to mix with heavier Red River soil to create a lighter growing material for my plants.	11/13/2023 11:04 AM
204	I don't understand this question. Who would I be borrowing from? Why would I borrow clothes from a stranger?	11/13/2023 11:02 AM
205	Canoe's kayak	11/13/2023 10:59 AM
206	Large items I wouldn't buy like a list hole digger or a rototiller	11/13/2023 10:56 AM
207	k	11/13/2023 10:55 AM
208	not interested in paying more fees or taxes	11/13/2023 10:54 AM
209	Not sure,what's this to do with garbage pickup every 2 weeks outside of increase cost and taxes,stick it to us citizens	11/13/2023 10:39 AM
210	These are things that are available at thrift shops, would this take away from their charitable work?	11/13/2023 10:38 AM
211	there are places to donate/sell items unwanted...it is the ease to get rid of items that are broken or no longer work that is our concern	11/13/2023 10:31 AM
212	I already do many of the above through neighbourhood FB Buy Nothing group	11/13/2023 10:21 AM
213	Treadmills and fitness equipment	11/13/2023 10:20 AM
214	We already have a community Facebook page that did this	11/13/2023 10:19 AM
215	[redacted] idea. I'm not paying the city for this	11/13/2023 10:13 AM

216	We	11/13/2023 10:06 AM
217	Children's toys	11/13/2023 10:05 AM
218	Unsure but open to the idea	11/13/2023 9:56 AM
219	Ridiculous idea	11/13/2023 9:56 AM
220	Sewing equipment, Video and audio digitizing and editing hardware and software	11/13/2023 9:49 AM
221	community workshop / studios	11/13/2023 9:48 AM
222	Children's sports equipment. They grow out of it so fast and it's expensive but important.	11/13/2023 9:43 AM
223	More funding for city libraries	11/13/2023 9:40 AM
224	We use FB Buy Nothing to repurpose items to neighbours	11/13/2023 9:40 AM
225	This question makes no sense -	11/13/2023 9:33 AM
226	Green carts are [redacted]	11/13/2023 9:30 AM
227	I don't even understand this question. Borrow from who? I borrow some things occasionally from family or friends.	11/13/2023 9:21 AM
228	I already purchase only second-hand or use neighborhood gifting or buy-nothing groups. I have renting tools from home Depot in the past. As a homeschooler I have purchased computers from the computers for schools. The city should in Bridgewater ways to support and expand grass roots organisations offering these services	11/13/2023 9:00 AM
229	lawnmower when ours is on the fritz	11/13/2023 8:58 AM
230	Let business handle this. The city does not need to manage this. Are you kidding? I hope you're not looking to get into this business.	11/13/2023 8:55 AM
231	Voiture, vélo, trotinette	11/13/2023 8:43 AM
232	Hi	11/13/2023 8:38 AM
233	Fear of bed bugs	11/13/2023 8:33 AM
234	I go to thrift stores	11/13/2023 8:24 AM
235	Have enough Stuff, don't need more	11/13/2023 8:02 AM
236	Electronic Radon detectors	11/13/2023 7:54 AM
237	Search the landfills	11/13/2023 7:05 AM
238	I shop at thrift stores	11/13/2023 6:44 AM
239	germs and covid	11/13/2023 6:09 AM
240	I have my own tools and re: clothing and furniture I am fortunate to have my own and buy from and give to thrift stores	11/12/2023 4:27 PM
241	Not for me due to many bugs bed bugs cockroaches it is a bad problem in Winnipeg	11/12/2023 1:40 PM
242	I would be interested in items repurposed into other items, clothing, plastic, soil	11/11/2023 10:36 PM
243	SEARCH THE LANDFILL. THATS IT, SEARCH THR LANDFILL!	11/11/2023 5:48 PM
244	would for 1 time use e.g. repair projects	11/11/2023 9:29 AM
245	I belong to a Buy Nothing Community. This covers enough of the list.	11/11/2023 9:12 AM
246	I'd have to get used to this idea. I'm open to it but it feels unfamiliar so it's hard for me to imagine	11/9/2023 9:47 PM
247	I'm fine with available options — thrift stores, etc	11/9/2023 5:44 PM
248	Tool libraries in various parts of the city, especially disadvantaged neighbourhoods, would be great.	11/9/2023 1:27 PM

249	This is not a service that the city should be organizing, implementing or providing. There are low cost options for clothes (Value Village, Shiloam etc). Musical instruments can be rented already at many private companies. Sports equipment can be purchased second hand, and sold back after use. Power tools can be rented at major home renovation companies. There are party supply companies that rent decorations and equipment already. I don't know how the creators of this survey think you can rent gift wrap. Furniture can be purchased at second hand stores as well.	11/8/2023 9:58 PM
250	When people drop off items at 4R, those items could be sorted at drop off and then have an arrangement with non-profits (i.e. clothes) to pick up items and recycle them.	11/8/2023 9:27 PM
251	Just to say that for 35 years I have purchased at least 50% of my clothing at second hand stores. As long as I can wash it, it is fine.	11/8/2023 6:26 PM
252	Insulation blower, tool for clearing main pipes, tools that are needed but infrequently use like lawn aerator	11/7/2023 11:58 PM
253	there is already sharing borrowing among the coop members	11/7/2023 11:34 PM
254	Tool library PLEASE!	11/7/2023 7:24 PM
255	trailer	11/7/2023 1:33 PM
256	Things that a person would not use a lot but need from time to time like garden tiller	11/7/2023 8:46 AM
257	I'm unsure - I donate usable things, but would be happy to share through a city program	11/6/2023 9:09 PM
258	I foresee no need for see no need for additional items.	11/6/2023 6:21 PM
259	NOTE: Places (e.g. Value Village) not attractive anymore for this purpose : too expensive	11/6/2023 2:15 PM
260	Kids stuff like bikes and wagons, possible also something like a small trailer that you can tow behind a car.	11/6/2023 1:47 PM
261	we use and donate to MCC Thrift	11/6/2023 1:24 PM
262	Search the landfills	11/6/2023 12:36 PM
263	I send all of my reusable items to Salvation Army.	11/6/2023 11:41 AM
264	Again, not interested, but also not opposed. Probably not worth the effort to implement.	11/6/2023 11:33 AM
265	I have heard camping gear mentioned	11/6/2023 11:17 AM
266	Idk	11/6/2023 8:25 AM
267	Not sure	11/5/2023 8:25 PM
268	Home depot/construction stores already do this	11/5/2023 8:16 PM
269	Some of my neighbors and us already do this with tools	11/5/2023 7:19 PM
270	the possibility of bedbug or other pest transmission	11/5/2023 6:42 PM
271	just family	11/5/2023 6:27 PM
272	I support all of these Ideas for sharing and renting for those who need to do this. I have what I need.	11/5/2023 4:43 PM
273	large baby/kid items like a fancy push wagon.	11/5/2023 3:44 PM
274	I'm elderly and few of the above have any impact on me.	11/5/2023 1:47 PM
275	At what capacity? If a neighbor needed something that I wasn't using, I would allow them to use it depending on what it was..	11/5/2023 1:41 PM
276	We already do sharing amongst family members on a whole lot of items.	11/5/2023 1:26 PM
277	If there were shareable equipment such as lawn mower snow blowers etc Salvation Army helps homeless and recycle and should be promoted unlike value village which misleads the public and does nothing everything that could be shared should be for people who can't afford	11/5/2023 1:17 PM
278	wood chipper	11/5/2023 1:10 PM

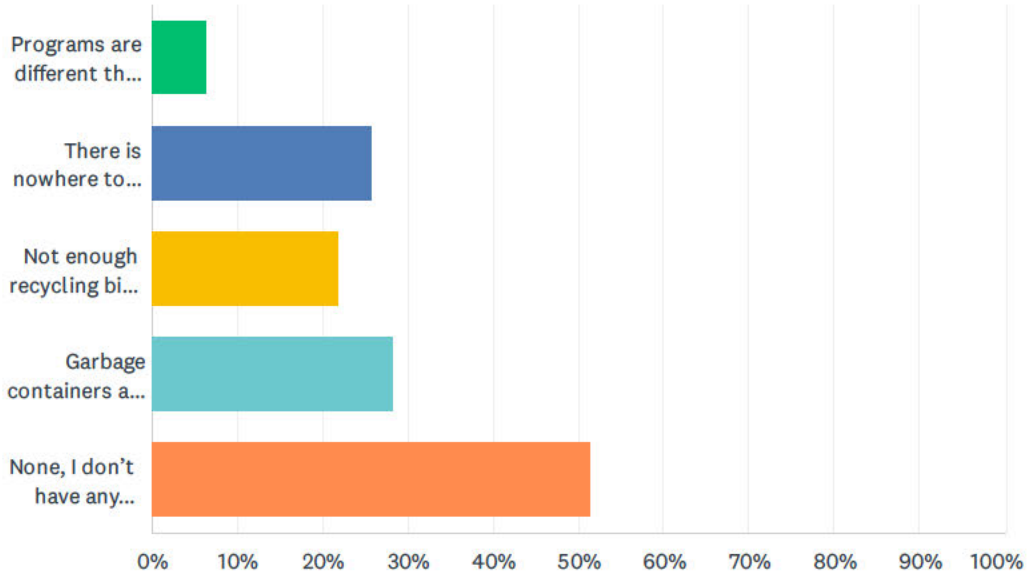
279	I recycle/reuse/share most things	11/5/2023 1:05 PM
280	Companies that use un-recyclable packaging should be made to pay fees to cover the costs instead of burdening the consumer.	11/5/2023 12:14 PM
281	The Buy Nothing FB pages and other share/ gifting sites are sufficient. I'm not sure this is something the city needs to get involved in, except offering sites for free for events if needed	11/5/2023 11:49 AM
282	All of the above, which should be promoted more by our leaders and media	11/5/2023 11:48 AM
283	I do not understand the context of this question.	11/5/2023 10:58 AM
284	car	11/5/2023 10:42 AM
285	Na	11/5/2023 10:03 AM
286	Kayaks for fishing	11/5/2023 8:26 AM
287	The city should not be venturing into such schemes. It's municiple mandate should be to provide base services to the public. Providing services beyond this usually results in excessive taxes to subsidise these types of failed schemes. The ciy currently has trouble providing base services so why consider addtional services when the base services it provides are below standards.	11/5/2023 7:53 AM
288	We own all our yard equipment	11/5/2023 7:39 AM
289	While I may not be interested, I believe many of the above things being rented out would be very beneficial to others in reducing some barriers.	11/5/2023 6:59 AM
290	Yard/picnicgames, bbq, picnic tables, benches, fire pits	11/5/2023 12:31 AM
291	Just pick up the garbage	11/4/2023 10:56 PM
292	No quite sure what this means?	11/4/2023 9:36 PM
293	Not interested	11/4/2023 7:16 PM
294	The public library has musical instruments and a tools makerspace. There are local initiatives for a tool library.	11/4/2023 6:03 PM
295	Original Art for rent would be nice.	11/4/2023 5:10 PM
296	I donate to thrift stores. I buy used items at consignment stores and thrift stores. These are both methods of recycling unwanted items to other Winnipeggers.	11/4/2023 5:09 PM
297	Vehicle, eg car, truck, bicycle	11/3/2023 9:53 PM
298	There are already a number of options for renting tools. Is this a business the city wants to be in?	11/3/2023 9:47 PM
299	Outdoor heater, chain saw, pop up canopy, tent, hammock	11/3/2023 8:54 PM
300	By purchasing from places like Value Village and returning things when they are no longer useful/wearable, we effectively do this already	11/3/2023 3:40 PM
301	Sewing machine.	11/3/2023 3:09 PM
302	Vehicles	11/3/2023 11:13 AM
303	already share/borrow certain items within family and friendship circles	11/3/2023 10:21 AM
304	We don't acquire or need a lot of stuff.	11/3/2023 10:09 AM
305	borrowing or sharing would be a better option	11/3/2023 8:31 AM
306	Cars/trucks	11/3/2023 8:12 AM
307	Not a business the city should get involved with	11/3/2023 7:06 AM
308	Halloween costumes	11/3/2023 6:16 AM
309	Children's toy rental/sharing	11/3/2023 1:26 AM
310	None. I give them away on Facebook	11/2/2023 10:08 PM

311	Lawnmower, snowblower	11/2/2023 9:39 PM
312	I often share with family and friends. Promote that!	11/2/2023 9:24 PM
313	I think the sharing economy is a fantastic idea but some of these are probably better accomplished through informal networks rather than turned into some rigid, liability-averse bureacracy run by the city. That said, the Idea Mill at the Library IS a great service.	11/2/2023 8:40 PM
314	Not sure	11/2/2023 5:10 PM
315	Camping equipment, toys/children's outdoor equipment	11/2/2023 3:31 PM
316	Don't understand the concept design. Would need more info	11/2/2023 3:03 PM
317	Snow blowers	11/2/2023 2:38 PM
318	How can you rent or share gift wrap? lol	11/2/2023 2:03 PM
319	Renting, sharing or borrowing may work. However, not sure how to enforce rules of use, return & bring back in same condition..	11/2/2023 2:01 PM
320	I'd want to own, or arrange sharing with people I know.	11/2/2023 1:50 PM
321	I can't answer this as I have no idea what it's asking.	11/2/2023 1:29 PM
322	What we have now works fine as is, no changes required.	11/2/2023 1:17 PM
323	I didn't select clothes/fabric and Furniture only because of potential for bed bugs and because I physically sensitive to detergents smells in fabrics.	11/2/2023 12:56 PM
324	trailers for hauling larger items	11/2/2023 12:50 PM
325	Trailers or car carts that hold snd transfer gravel or soil	11/2/2023 12:49 PM
326	I think a program for traing kid's clothes, sports equipment, toys, etc. would be very useful (like Once Upon a Child, but non-profit)	11/2/2023 12:40 PM
327	Not sure	11/2/2023 12:32 PM
328	I already rent/share/borrow most of these items or use them so much it makes sense to have my own. Perhaps the City could spend more time educating people about how to use power tools less in their yards (e.g., getting rid of grass/sod that needs mowing).	11/2/2023 12:28 PM
329	toys	11/2/2023 12:04 PM
330	Not sure who I would be sharing with - neighbours ok, strangers no	11/2/2023 11:54 AM
331	Bed Bugs. This is just a big no.	11/2/2023 11:35 AM
332	Sharing some items has difficulty as you would never know if or when your item was available, without lots of administration.	11/2/2023 11:12 AM
333	I rent or borrow things from my neighbors or friends. I don't need to have the city involved.	11/2/2023 10:47 AM
334	bikes, cars, pickup trucks, camping gear, watersports gear (canoe, kayak)	11/2/2023 10:25 AM
335	Big items used sporadically like shredders, mowers, snowblowers IF they were easy to get to my home	11/2/2023 10:08 AM
336	This should not be a City function.	11/2/2023 9:39 AM
337	I personally have no need for these, but feel many might	11/2/2023 9:38 AM
338	We mostly lend or share already. No need for our family.	11/2/2023 9:25 AM
339	The cost of operating something like this would be crazy. Money on composting program is a better way to spend money.	11/2/2023 9:21 AM
340	Bulky items like ladders or roof rakes	11/2/2023 9:17 AM
341	anything that cannot be dissolved in soil, should be able to share or given.	11/2/2023 8:50 AM
342	Kids toys and other equipment	11/2/2023 8:41 AM

343	All of the above.	11/2/2023 8:38 AM
344	none of these, but not I can be interested in sharing etc	11/2/2023 8:33 AM
345	I belong to a feee group where we giveaway items to neighbours.	11/2/2023 8:19 AM
346	I'm more interested in donating	11/2/2023 8:16 AM
347	bed bugs	11/2/2023 8:14 AM
348	Outdoor power equipment	11/2/2023 7:53 AM
349	Cars	11/2/2023 12:05 AM
350	None of your businesss	11/1/2023 10:48 PM
351	I will borrow from family members or friends	11/1/2023 8:54 PM
352	I am not really sure what this question is referring to. It doesn't seem to fit with recycling programs and garbage collection!	11/1/2023 9:22 AM
353	What an odd question for a garbage and recycling survey	10/31/2023 8:10 PM
354	I wouldn't know about many of these unless I needed them for a specific purpose	10/31/2023 2:31 PM
355	Furniture and household items should go to the local furniture banks	10/31/2023 10:42 AM
356	I feel like there are community groups better suited to handle these types of scenarios.	10/30/2023 4:47 PM

Q25 What challenges do you have with garbage, recycling, or organics (food waste) programs in City-owned buildings like libraries, community centres, pools, and recreation centres? (Check all that apply)

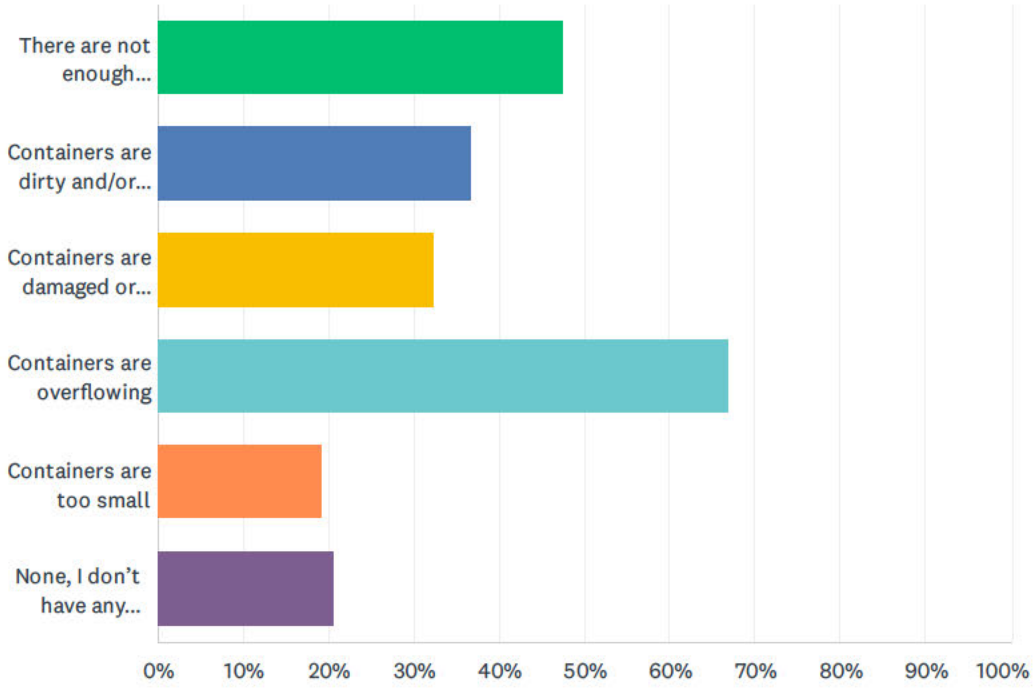
Answered: 8,966 Skipped: 270



ANSWER CHOICES	RESPONSES	
Programs are different than what I have at home and are familiar with	6.30%	565
There is nowhere to throw out my food waste	25.81%	2,314
Not enough recycling bins available	21.97%	1,970
Garbage containers are overflowing	28.36%	2,543
None, I don't have any challenges	51.30%	4,600
Total Respondents: 8,966		

Q26 What challenges do you have with garbage and recycling containers in outdoor public spaces like Downtown, parks, near transit stops, etc.? (Check all that apply)

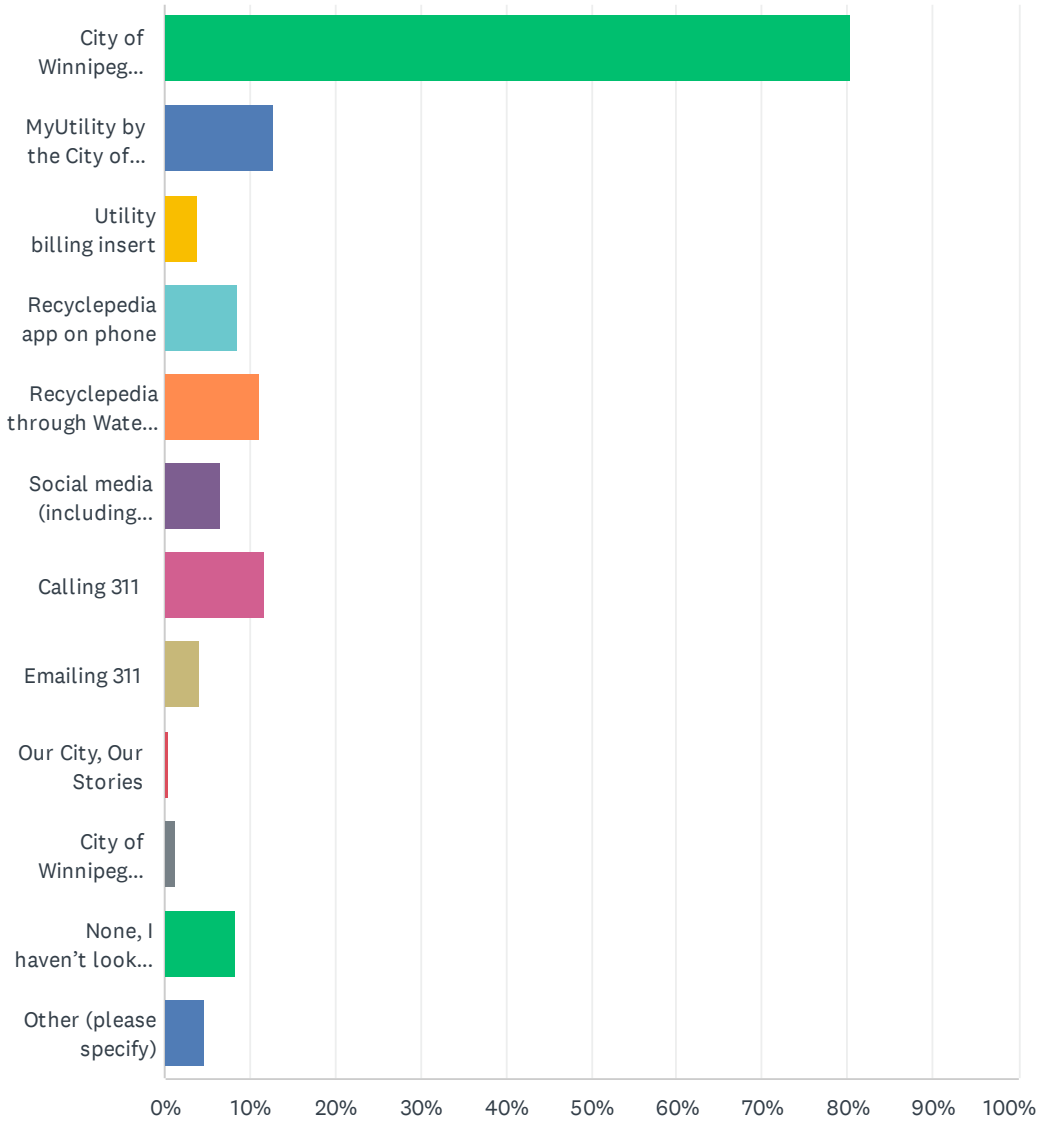
Answered: 8,966 Skipped: 270



ANSWER CHOICES	RESPONSES	
There are not enough containers	47.58%	4,266
Containers are dirty and/or smell	36.64%	3,285
Containers are damaged or broken	32.40%	2,905
Containers are overflowing	67.05%	6,012
Containers are too small	19.13%	1,715
None, I don't have any challenges	20.63%	1,850
Total Respondents: 8,966		

Q27 When you needed to find information about garbage and recycling, where have you previously found it? (Check all that apply)

Answered: 8,966 Skipped: 270



ANSWER CHOICES	RESPONSES	
City of Winnipeg website	80.30%	7,200
MyUtility by the City of Winnipeg	12.84%	1,151
Utility billing insert	3.94%	353
Recyclepedia app on phone	8.49%	761
Recyclepedia through Water & Waste website	10.99%	985
Social media (including Instagram, Twitter, Facebook)	6.63%	594
Calling 311	11.77%	1,055
Emailing 311	4.08%	366
Our City, Our Stories	0.33%	30
City of Winnipeg eNewsletters	1.25%	112
None, I haven't looked for information	8.34%	748
Other (please specify)	4.70%	421
Total Respondents: 8,966

181	Asking neighbors or someone to go on internet has I don't use it	11/14/2023 4:08 PM
182	lol. put everything in the garbage -- if someone cared they'd fish it out. The beer cans certainly find their way out with the small bins	11/14/2023 3:07 PM
183	I call up David Suzuki	11/14/2023 2:55 PM
184	The information sources for garbage and recycling in Winnipeg are terrible. More work needs to be done here. You could start with city councillors communicating this information to start. John Orlikow is my councillor and his weekly updates are abysmal. Literally zero information on the municipal programs, city council business and decisions, etc.	11/14/2023 2:48 PM
185	google	11/14/2023 2:28 PM

197	Simply Recycle; Green Action Centre	11/14/2023 10:00 AM
198	311 is a broken joke and is terrible to use as the employees are often incompetent. I've waited three hours on the phone only to be hung up on and my information forgotten. On top of that, I've waited hours gone through a whole call regarding an issue with 311 and when I call back for an update two weeks later there is no record of my call and nothing has happened. Public transit (buses) and the drivers are also a joke as they let [redacted] and the bus drivers who act shocked that u would even dare come talk to them or complain, rudely just answer "call 311". This city and its way too many government employees are a joke. Winnipeg is known to the rest of the country as an absolute [redacted] and the government employees and systems are a failure to say the least.buses being late more than 5-6 minutes in winter -20- -30 weather is COMPLETELY UNACCEPTABLE and the way they're sooo rude to anyone who asks why their late is unbelievable.	11/14/2023 9:39 AM
199	Frends	11/14/2023 9:26 AM
200	Regarding garbage cans why put them in a park next to a bench under a tree. They smell and in summer you cant use one of the few benches! Kildonan Meadows Park.	11/14/2023 9:22 AM

341	Tv ads	11/5/2023 11:53 AM
342	Garbage plays an important role in conducting investigations. For instance, the child abuse unit can "caution" predators by interacting with their homes when they are away, in order to draw delusional diagnoses by their forensic psychiatrist who specializes in sexual aggression. Because paranoid ideations can lead to violence under the DSM-5, this ensures perpetrators will be considered a danger to themselves and others in the interim, without harming reputations or police operations. No arrests, charges, or time served- just medical treatment. That is, if they don't commit suicide first ;)	11/5/2023 11:48 AM
343	none. i don't know where to look	11/5/2023 10:33 AM
344	Na	11/5/2023 10:03 AM

418	Have looked at private places such as Staples to recycle electronics, tried to do shredding but the company wasn't user friendly so I bought a new shredder	10/31/2023 9:59 AM
419	Www.gov.mb.ca	10/30/2023 10:20 PM
420	My job is to put the stuff at the curb. The city's job is to pick it up and deal with it. I don't sort or wash any garbage. I just put it out.	10/30/2023 9:24 PM
421	General knowledge	10/30/2023 6:21 PM

Q28 Please provide the first three characters of your postal code.

5047	English- and since you don't have a space for input- we already pay eco-fees on things like water or pop bottles so why can't we get money back when we recycle? Where does that fee go now? Alberta has had a successful program for decades. Treat all bottles and cans like beer bottles. Guaranteed you will have people collecting and sorting it for refunds.	11/13/2023 6:13 PM

	Title	Description		
Oct 30 23 03:50:59 pm	Require less garbage	Put limits on how much garbage a household can produce. This could include less frequent pick-up, garbage that must be sorted correctly (must use clear bags, audits and fines for incorrect sorting). As long as there is no consequence, there will be no real reduction. Other cities have done this	7	40
Oct 30 23 09:27:30 pm	Hurry up and get the compost program going!		19	25
Oct 30 23 10:35:01 pm	Waste and recycling drivers need to pay attention to contents of bins	Recycling drivers don't care what's in the bin. Neighbour cut up a sofa and stuffed it in his bin. I even stopped driver to show him and he said it was fine and just took it. It was foam, wood, metal springs....other weeks have been other stuff and driver just takes it, contaminating the whole load. Won't even tag the bin as	4	32
Oct 31 23 07:50:15 pm	4 r depots have both recycling and waste transfer station	Add categories to 4R depot to include more waste and recycling options. Make recycling old oil and paint more convenient by allowing a good gas can to be dumped in a container and the gerrymandering can retained	5	8
Oct 31 23 09:06:40 pm	Collect every two weeks and charge (small amount) for extra		7	11
Oct 31 23 09:08:49 pm	Eliminate paper flyers		17	4
Nov 01 23 01:21:45 pm	Something needs to be done about recycling or banning styrofoam		18	12
Nov 02 23 08:22:09 am	Everyone should carry all their garbage home and dispose of it there. It is your own responsibility. Like bringing your own when shopping.		2	3
Nov 02 23 08:25:19 am	Alternate between garbage & food waste collections to every other week like other larger metropolitan cities in Canada such as Toronto.	Add food waste to by-weekly garbage collection.	18	22
Nov 02 23 08:30:48 am	Combine leaf and yard waste and food waste pickup in one green bin	This will reduce the number of pickups required, reducing greenhouse gas emissions from collection vehicles and the added waste of paper yard waste bags.	8	7
Nov 02 23 09:09:17 am	Recycling deposit refund for containers	Similar to how it works in Saskatchewan, provide a place to return certain types of recycling containers to get the deposit refunded in cash. This incentivizes people to recycle instead of throwing it in the garbage, provides income opportunities for underemployed people or the unhoused via community cleanup	20	65
Nov 02 23 09:22:25 am	Advocate the reduction of plastics at the source, especially packaging of consumable products. Sub paper, compostable materials.		22	11
Nov 02 23 09:29:03 am	REDUCE, streamline collection! Consider emissions of three different collection programs. Savings in amount of fossil fuels required.		7	12
Nov 02 23 09:34:37 am	Find a way to sort out specialized "non recyclables"	Not all citizens know or understand that black plastics and aluminum pie plates are not accepted - and may contaminate the recycling bins. Can specialized bins (or bags) to separate them be provided instead of directly in garbage?	12	46
Nov 02 23 09:41:14 am	We'd love to see curbside compost pickup, but we already have 5 compost bins. Not sure how opting out might work, but we wouldn't use it.		5	14
Nov 02 23 11:20:33 am	Send information out as to what each numbered recycling symbol means and how it is recycled. Many don't know certain symbols aren't accepted	More information please	6	9
Nov 02 23 11:23:37 am	Provide cash incentives to people for recycling, i.e. glass, all pop and cooler tin cans. More people would recycle that currently don't.	Cash for cans and glass	8	8
Nov 02 23 11:26:36 am	Go to manufacturers and prevent the heavy, single use plastics that can't be recycled. Packaging currently used for goods is ridiculous.	Change packaging to compostable only	13	16

Nov 02 23 11:38:39 am	Start program to pick up compostable products. Build factories to heat the compostable items and take to decompose safely.	Start compostable programs and manufacturing	3	4
Nov 02 23 11:45:45 am	Curbside composting!! We need this without question, so far behind other major cities. Better information about reducing waste and recycling	Need more education on reduction, using buying power to make companies change their ways. Curbside composting is an absolute must and it's beyond why we still do not have this in place. We want to reduce waste, composting is one of the absolute best ways! More education for	12	13
Nov 02 23 03:28:11 pm	Curbside Compost!	This is the lowest hanging fruit and would have the biggest impact. It is already being done in nearly every other major city in Canada. Please make it happen, it is a no brainer.	21	38
Nov 02 23 03:47:39 pm	Eliminate the give away days. They are an eyesore. They promote more car driving in the neighbourhoods.		3	27
Nov 02 23 03:49:27 pm	Definitely start curbside composting		7	2
Nov 02 23 05:45:51 pm	Smaller garbage bins	1. Smaller bins & charge extra if people want or need large bins. 2. More education about what is not garbage - I've seen clothing & hazardous waste in garbage bins. 3. More education about what is accepted in recycling bins, and what is not	2	5
Nov 02 23 09:44:27 pm	Semi annual neighbourhood drop off events for 4R-type collection	The 4R Depots are great, but they are just too far out of the way for most people. (Especially households that don't have a car!) Once or twice a year, each neighbourhood should get a visit from city trucks and knowledgeable sorting staff -- during hours that are actually accessible to the average person, i.e. weekends	7	10
Nov 02 23 09:46:24 pm	Community compost pick up	It's nice for the city to offer citizen can come on down to Brady one weekend a year to pick up compost, but that's a distance that's simply prohibitive for a lot of people. What if every community centre and maybe even some church parking lots could have a pile of compost dumped in them for everyone in the	7	14
Nov 02 23 09:49:33 pm	City-run creative reuse centre	The city of Edmonton has the most amazing reuse centre -- and it's even in an old Safeway (reused building!). They take those black plastic take out containers, for example, because they can be superuseful to crafters or pre-school teachers, etc. Often one piece is just garbage, but 50 pieces is supplies for a project. This	3	7
Nov 02 23 09:51:12 pm	Deposit scheme on all aluminum cans and on glass	This is a total no brainer. Every self-respecting jurisdiction in Canada already has some form of this. Winnipeg is the most backward hold out that refuses to do it because it will cost a little bit to set it up and get it running. This needs to change.	5	7
Nov 03 23 06:27:47 am	Businesses and restaurants need to be part of the solution	The city can't place all of the responsibility on households, businesses and restaurants should also be compelled to dispose of their waste the same way households do - recycling, composting, etc. far too many just throw everything in the bin.	6	9
Nov 03 23 06:35:56 am	License backyard composting	The city needs to implement curbside compost collection, but for those who use a backyard compost bin (or several) they should be allowed to opt out of the program by buying a license for their backyard setup.	0	8
Nov 03 23 08:41:10 am	Create a producer responsibility program	Manufacturers of products that use packaging should be required to pay for the expenses associated with the waste produced by their packaging. This creates an incentive to reduce packaging overall and invest in research to find new, better and less wasteful materials for packaging	13	37
Nov 03 23 09:52:13 am	Not all people drive so curbside pickup of items such as left over paint, gas, oil, batteries, electronics once/month would be nice.	Too few facilities that accept, & not always convenient. People are more compliant when something is convenient and simple.	14	20
Nov 03 23 10:44:17 am	Its time for a recycle program that actually is an incentive to recycle. Imagine how clean the streets would be! $ time to catch up to BC,	Recycle program cash back!	4	8
Nov 03 23 10:45:22 am	Laws about improper garbage/excessive garbage, some homes are absolutely out of control!	Excessive garbage on properties	4	5
Nov 03 23 10:46:58 am	Allowing purchasing of an extra bin if a house needs, however a compost program may eliminate the amount of trash produced.	Extra bin purchasing	2	5
Nov 03 23 05:26:13 pm	Curb side composting for all	Alternate weeks to pick up garbage and compost. Toronto has compost program that works, something like that.	5	8
Nov 03 23 05:26:51 pm	Deposit refunds and return centres for glass, aluminum, etc.		9	9
Nov 04 23 05:40:56 pm	Better availability of recycling information (posters for multi-unit residential complexes to post by the recycling bins, and handouts).		5	7

Nov 04 23 05:43:58 pm	Increase items we can recycle (K cup pods, more plastic). It's sad that a town like Lively, ON has better recycling options than Winnipeg		2	1
Nov 04 23 05:51:56 pm	Too many hotels I've stayed in do not have recycling options. That needs to change.		5	3
Nov 04 23 10:49:25 pm	Leave it alone	Are there not more important things to do at City Hall than to rehash garbage?	1	26
Nov 05 23 07:09:11 am	In BC you get .25c for a 4L milk jug, I know people to go to other provinces to cash in! A program will definitely keep money in the provinc	Cash for plastic	7	7
Nov 05 23 04:42:33 pm	Extend recyclables to include styrofoam, film plastics (e.g., bread bags), and takeout food containers and coffee cups.		2	2
Nov 05 23 04:44:32 pm	Extend producer responsibility to currently unrecyclable materials.		4	2
Nov 05 23 04:47:37 pm	Support local processing facilities for currently unrecyclable materials		11	6
Nov 05 23 07:11:52 pm	Student recycling plants visits	I grew up in Northern Ontario. In grade 10 all high school students visit the forestry companies and learned about harvesting practices, we learned about fire prevention and we end the day we planting trees. That was educational. My teenagers hear my nagging to get them back on track. Time to	6	9
Nov 05 23 07:15:15 pm	Composting Program	I love the idea of a green bin. I have never searched out where to get the cities bags of compost. But would love to purchase some every year if there was an online order form and drop off option.	4	7
Nov 05 23 07:26:39 pm	In Britain, they have one truck that comes and picks up all bins at once, saving on trucks going up and down the street three times each	side, three different compartments in one truck.	6	7
Nov 05 23 07:28:37 pm	Charge people by the amount of pickups they have. For instance we only put our garbage bin out once a month and the recycling every 3 weeks		1	6
Nov 05 23 09:38:18 pm	Cash back for cans and bottles / Terracycle drop offs	The beer stores are super particular about what they accept and won't even take cider cans that are purchased at the LC. Currently we keep all our liquor and beer cans and bottles and return them in Ontario. It would also be nice if our community centres could take items	3	8
Nov 05 23 09:52:04 pm	Food waste collection from residences		2	2
Nov 05 23 09:53:44 pm	Recycle more items, clearer messaging on what is recyclable, fines for repeat offenders of contaminated recycling bins		1	1
Nov 05 23 10:29:48 pm	Pay per use system	Develop a pay per use system. We often go several weeks without putting out our recycling or garbage. This could reduce the cost per household and also reduce the cost of the collection program by reducing stops.	2	22
Nov 06 23 09:36:18 am	Better facilities at apartment blocks. Most apartments have overflowing bins resulting in large amounts of contamination.	Apartment waste management	6	3
Nov 06 23 09:54:27 am	Community Chipping	I would very much like to see a yard / garden waste chipping service so that we can reuse this as mulch in our yards and gardens, or to throw into our yard compost bin.	2	10
Nov 06 23 11:34:10 am	I would like to see a tax imposed on all disposable drink and food packaging used by any national brands.	These types of packaging are harmful and used so prolifically they are in every street, walking/biking paths and are not recyclable.	1	3
Nov 06 23 02:32:48 pm	Garbage/recycling handling	Drivers are poor in handling bins	0	2
Nov 06 23 07:23:20 pm	Less stops and quicker pickup: Achieve this by combining two bins together with the neighbours bin, may only work in back lane pickup.	Decrease fuel consumption and vehicles wear and tear	1	1

Nov 06 23 07:31:57 pm	To ad to my previous idea: have a “cart” that each neighbour can pull their collection bin onto. Each bin goes onto one cart and all emptied		1	2
Nov 06 23 08:44:35 pm	Food waste/compost collection	Every week, every other week, alternate between garbage one week and food waste the other… Please please please give us compost/food waste pick up! I throw so much food waste away in my garbage because I can’t compost in our small yard.	1	8
Nov 07 23 01:30:26 pm	Hire a company that is capable of recycling more products. Any product that has a Recyclable symbol should be acceptable under the program.		6	15
Nov 08 23 01:39:08 pm	Audit large retail parking lots, and home/business construction zones to ensure they are taking care of their garbage. Issue fines if not.	Construction materials and litter blow away in the wind and collect in areas.	1	3
Nov 08 23 01:41:49 pm	Have a trash/recycle bin at every bus stop. Especially if bus stop is within 20ft of convenience/ or grocery store.		2	5
Nov 08 23 01:55:38 pm	Use a different type of outdoor public bin and find a way to regularly empty public garbage bins, summer and winter.	Photo - Amsterdam has small bins at street level, connected to larger underground bins. Stops rummaging, blowing away, etc.	1	12
Nov 08 23 02:05:19 pm	Install and encourage businesses to install refillable container water stations (like those used in airports)	Would be great to have in gas stations, public buildings, schools, tourism centres, etc. Would help reduce single use plastic water bottles.	1	1
Nov 08 23 02:16:44 pm	Work with other official groups in Wpg (Take Pride?) to plan meetup events throughout the year to clean up litter in areas that need it.	I do this sometimes on my own but a group is more visible, encourages community spirit and collaboration. Victoria, BC group (photo) uses an existing app to organize this type of initiative.	2	0
Nov 08 23 02:21:27 pm	Improve communication and education on why kitchen waste collection is important. It’s not likely something that many people think about.	Provide stats on how much goes to the landfill, how this will reduce methane at the landfill, types of kitchen waste. Can kitchen waste and yard waste be collected together in the same bin?	2	1
Nov 11 23 09:55:34 am	What happens to the used/broken garbage containers? Have seen large numbers scattered along road at Brady Landfill.		0	1
Nov 11 23 10:01:29 am	Subsidize p/u of mattresses,furniture etc. in lower income areas. It's most important to keep the city healthy and clean.		3	0
Nov 11 23 10:03:49 am	More bins closer to transit shelters. People are not walking an extra block to throw into bins placed in middle of block.		1	0
Nov 11 23 10:08:40 am	Spring and fall declare a citywide weekend of cleanup,so all schools and neighbourhoods know the date. Maybe Pride Winnipeg do organizing?		0	0
Nov 11 23 02:37:14 pm	Increase frequency of yard waste pickup in spring and fall to weekly. This is the high volume period. Ok bi-weekly rest of summer		4	3
Nov 11 23 06:28:26 pm	Find a way to recycle old video tapes.		1	1
Nov 11 23 06:31:50 pm	Accessible recycle/garbage bins for handicapped.	Bin at door of each building for those who can't walk easily. Elderly etc.	0	2
Nov 11 23 06:35:47 pm	Pick up of large items for people who don't have cars, don't drive.		1	0
Nov 11 23 06:42:26 pm	Put sign on each bin...Please flatten all boxes.	Too many people put big empty boxes in whole, taking up whole bin.	1	1
Nov 13 23 09:36:13 am	yard waste pickup very convenient for tree trimming/garden/leaf shedding if lawn is weed-free so that grass clippings can left on lawn		0	1
Nov 13 23 09:39:24 am	Waste management survey might include more opportunity to add details of ideas, as well as technology to be able to view more than 1 line.		0	0

Nov 13 23 10:28:19 am	Recycling and composting for businesses	Let businesses engage in recycling and composting as you do for residents. Create commercial drop off sites within the city limits so that they can take advantage of this.	2	0
Nov 13 23 11:08:18 am	A textile recycling system is needed. Not just unusable old clothes but old bedsheets, duvets, towels etc. I only need so many rags.		7	4
Nov 13 23 01:43:49 pm	Follow Alberta Recycling	When you return beverage containers to a Depot in Alberta, you will receive a refund of the deposit you initially paid when you purchased the product from a retailer. The deposit/refund amount for containers 1 litre or less is 10 cents and for containers larger than 1 litre the deposit/refund is 25 cents	1	2
Nov 14 23 08:46:56 am	When I lived in Calgary, green and blue cart pick-up weekly, black carts every 2 weeks - this was most helpful and efficient.	Compost and waste	4	2
Nov 14 23 08:56:44 am	Car seat recycling at 4R depots	Folks are constantly asking about how to dispose of car seats. Mother Earth Recycling's program is great but their location is not convenient for a lot of folks to get to. Being able to drop off car seats at 4R depots would increase accessibility.	2	6
Nov 14 23 11:03:06 am	Scrap the multi-million dollar composting, reinstate home composting, put money into enabling people to grow their own food	Home composting veggie gardening, not multi million $ composting. Food insecurity is rampant	0	8
Nov 14 23 11:04:25 am	There are machines that break down glass and turn it into sand. There are so many economic and environmental benefits to using this here.	Glass recycling	0	0
Nov 14 23 11:41:50 am	We are adding multi-family dwellings on existing lots and reducing garbage pick up - is this a sound idea?		0	1
Nov 14 23 11:43:00 am	Is the city in discussions with the Province re: adding multi-family dwellings to neighbourhoods with packed schools?		0	0
Nov 14 23 11:45:29 am	On every garbage day, my garbage pick up creates an absolute mess in the back lane. Garbage is already overflowing. City responsible...?		1	7
Nov 14 23 11:46:08 am	How about giving every household a compost bin for their backyard. Let residents decide.		0	3
Nov 14 23 03:43:07 pm	Tool Library	Staffed by volunteers and able to house a Repair Cafe, this could be a place where members could rent a tool for a period of time and return it.	2	3
Nov 14 23 03:48:13 pm	Pay as you throw.	The garbage truck could read a bar code as it lifts the bin. It could also record the difference in weight (full minus empty). House is billed. This would incentivize waste reduction	0	5
Nov 14 23 06:11:43 pm	Eating In?	Establishments to provide reusable dishes. If an establishment supplies an item, there should a bin to recycle at least 90% or more of supplied item (i.e. straws, forks, plates, cups, any containers, etc). Also there must be a better way to provide hamburgers, fries, onions rings to customers other than a 30-	0	5
Nov 14 23 06:12:46 pm	Donation bins/regular pick ups at apartments	Donation bins/regular pick ups at apartments for donations, taking most anything that can be used by others. Especially around month end/beginning of the month when move outs/move ins occur and garbage piles up the most and most things in the garbage could have been donated	0	1
Nov 14 23 06:13:39 pm	Idelling vehicles	Fines for cars idling everywhere, especially in drive thrus and laws in place from lines spilling into roads causing traffic jams. Maybe stores can offer incentives to park and go inside to pick up items.	1	4
Nov 14 23 06:14:32 pm	Not properly recycling?	Fine residents for not properly recycling. OR residents to BUY garbage and recycling bags with identification tags so if it's not done properly it can be traced back and residents are billed for fines.	0	1
Nov 14 23 06:15:21 pm	Smart timed lights	Smart timed lights (this should be a no brainer) - what are we waiting and wasting gas (& our time) for when there is noone around?	0	2
Nov 14 23 06:18:26 pm	Lotto products recycling - no brainer!	Lotto Booths (& those businesses who provide lotto services!) need to be mandated to RECYCLE ALL DISCARDED LOTTO PRODUCTS (so much garbage & litter!) and have bins for recycling such items! So many time I see it going directly into the trash at the Lotto Booths or they throw in in other garbage bins	0	3
Nov 14 23 06:22:24 pm	BiWeekly Curbside AND Apartment Side Giveaways	Not everyone has access to a vehicle (no to mention how bad it is for the environment to drive around) in neighborhoods with houses as that's where they are only currently limited to. It would help with trash around (not in) garbage bins.	0	3

Nov 14 23 06:35:14 pm	Monetary incentives	What monetary incentives are there to recycle? We need people to think twice and care about recycling and money definitely talks. Who gets the environmental fees that we've been paying since it's been implemented (someone is rich and not the public or Mother Earth!)? It would be good to get some of that back when	0	5
Nov 14 23 07:09:47 pm	At home composting	Provide composting bins to residents that want to compost, won't cost the city anything but the bin. I have one and compost all year round. Fills my flower post and such in the spring	0	1
Nov 14 23 07:13:12 pm	Have refundable deposits on beverage containers. Stop giving the 2c fee to industry led CBCRA. Focus on fewer containers used not % recycled		0	2
Nov 14 23 08:48:04 pm	At home composting! This should already be happening in Winnipeg and it is shameful that it is not in place already.		0	0
Nov 15 23 08:38:51 am	City wide policy on lock bars for all commercial dumpsters. Remove from service all garbage cans with a mesh design that are in parks		0	0
Nov 15 23 08:41:52 am	And offer pop-up locations in the city to dispose of hazardous waste. Not everyone has a car etc to go all the way out to Brady etc.		0	0
Nov 15 23 03:17:23 pm	Separate garbage and recycling bins at high use transit stops to be emptied quite often.		0	0
Nov 15 23 08:04:29 pm	Replace Recycle Everywhere with City of Winnipeg recycling bins in public spaces	Recycle Everywhere only recycles beverage containers, as is their mandate being funded by the beverage industry. Having their bins in public spaces (both permanently in parks and temporarily at events) might save the city money, but most citizens don't know the difference and put all kinds of recycling in	0	2
Nov 16 23 02:05:38 pm	Yard waste	Yard waste should be biweekly lots of trees in my area. No time to rake all with my age physical health & weather. It's very tough to get done. Then mice make a home under all leaves on ground or in pile for the summer. So I just wind up throwing in garbage which sucks	0	4
Nov 16 23 11:15:01 pm	Weekly Yard cleanup spring and fall but have little in the summer	When the leaves drop I need weekly pickup but before then I do t use it at all outside of a “project” like trimming the trees	0	3
Nov 16 23 11:19:12 pm	Allow purchase of turned in Appliances /electronics for repairing of broken appliances Even if it is “not normally open and by appointment	Bikes get donated but as far as I know appliances and electronic goods are scrapped and there are good parts to repair existing appliances / electronics that otherwise would be scrapped if the parts are not available Maybe a once a month open day / or by appointment	0	2
Nov 16 23 11:21:29 pm	Bottle deposit	When I was a kid in B.C. there was 5cents per bottle and return it centres that gave the money back when bottles were returned We had “bottle drives” in scouts to raise money for trips and would go and pick up empties from locals Victoria Australia just started the same idea	1	2
Nov 17 23 08:40:29 am	Rotate collection days	Regardless of whether or not we adopt compost collection, we should rotate the collection days on a yearly basis. My waste gets picked up on Fridays, which means for much of the summer, my bins are sitting out the entire weekend because I leave for the lake before the bins are emptied. I'm sure some Monday pickup	0	3
Nov 17 23 01:10:53 pm	Weekly vs Biweekly	As a user of the Green Action Centre's compost pickup program, I suggest the city pick up compost weekly in the summer and biweekly in the winter. The garbage and reycling can stay with a biweekly pickup.	0	1
Nov 18 23 12:24:27 pm	Has an audit been done to determine where the majority of food waste originates?	If, for instance, restaurants, institutional facilities, retail stores produce over 90% of the food waste wouldn't more focused pickups and charges be appropriate? Why burden the residents of Winnipeg with an additional fee?	0	1
Nov 19 23 09:58:16 am	Keeping the city clean, picking garbage and other waste, is a difficult job, outside in all weather. How about a decent increase in pay?		0	0
Nov 20 23 11:03:31 am	Dog poop	Seems like most garbage's along my walking route (near parks and bus stops) are over-filled with dog poop bags, when I lived in Toronto they were working on a pilot project to have dedicated dog poop receptacles that would convert dog poop into energy and fertilizer	0	4
Nov 20 23 01:20:48 pm	Why do you sell the compost to the soil manufacturers without selling to people who do gardening. Extend the time of free giving away also		1	0
Nov 21 23 08:06:26 am	Decals/labels on bins	I think it would help to have decals or labels, with pictures, that specify what should and shouldn't go in the appropriate bins.	0	0
Nov 21 23 01:28:01 pm	Limit classroom recycling to drink containers and paper.	As a teacher and sub teacher, incorrect recycling in classrooms is a massive problem everywhere. Students are unaware how a small amount of "contamination" such as food and heavy amounts of non-recyclable plastics turns recycling into trash because recycling companies won't take it. I would venture to say	0	1

Nov 21 23 01:40:52 pm	Ensure curbside compost is both CLEAN and HYGENIC	I like the curbside compost pickup a lot: it will greatly cut garbage while creating a beneficial product. Although also concerned about the amount of space 3 carts take, my greatest concern is about the stink and vermin/insect attraction it will cause. At minimum, we need a BIN LINER that we can purchase. Even	0	1
Nov 21 23 05:47:06 pm	Place large bins (roll off) at city centres. People could dump their large items instead of illegal dumping around the city.		0	0
Nov 23 23 03:51:30 am	Reduce garbage by reducing the need for doggie poop bags by adding more natural waste deposits in back yards	Waste terminator	0	0
Nov 23 23 10:00:35 pm	Better capacity planning for new condo	I live in an apartment downtown. The recycling bins were so overflown and the management order more bins. I am not sure if the city has some mandatory exercise for apartment management company to go through. Do we have monitoring system? For densely populated buildings, we need to have	0	1
Nov 27 23 04:19:40 pm	Massive awareness campaign on how to reduce waste	Educate people about Bulk Barn, how much time it takes for plastic (ie ziplock bags to decompose), how they can measure their carbon footprint and understand GHG. Thus, changing the consumption culture and organically encouraging manufacturing to reduce their packaging	0	1
Nov 29 23 10:44:42 pm	There just isn't enough room in recycling bins to rid of all cardboxes which come from all the online ordering and deliveries.		0	0
Nov 02 23 11:19:39 am	Comment response to "Require less garbage"	I agree in principle, but I have frequently had neighbours dump their extra garbage in my bins, both garbage and recycling.	0	0
Nov 14 23 11:06:30 am	Comment response to "Require less garbage"	May work in 'burbs but not in North & West end. Would just contribute to more garbage than now being dumped in the lanes and on vacant lots.	0	0
Oct 30 23 10:36:02 pm	Comment response to "Hurry up and get the compost program going! "	2028 as a target date is a joke!	0	0
Nov 02 23 09:23:57 am	Comment response to "Hurry up and get the compost program going! "	Compost services for apartments should be high priority - more volume with each stop, reduce garbage bin waste and overflow	0	0
Nov 02 23 10:16:48 am	Comment response to "Hurry up and get the compost program going! "	The methane gas produced by rotting food in landfill must be eliminated. Food waste is a resource! Compost can be useful in so many places.	0	0
Nov 02 23 09:13:20 pm	Comment response to "Hurry up and get the compost program going! "	Winnipeg should be absolutely ashamed of itself to the be the only city its size not to have residential compost pick up already. And don't try to trot out some excuses about how the weather or the isolation here create unique challenges: Brandon, MB, and Regina, SK, have figured something out. We have no excuse	0	0
Nov 04 23 07:54:38 am	Comment response to "Hurry up and get the compost program going! "	I just moved here from Ontario and am appalled that there is no city wide composting program. In every city I've lived in across the country from Alberta to Ontario composting programs have been an integral part of the waste reduction plan. I was shocked to find that I would have to pay for a compost service if I wanted	0	0
Nov 02 23 09:37:59 pm	Comment response to "Waste and recycling drivers need to pay attention to contents of bins"	At every level, people need to take some responsibility for putting waste in the proper place to give it its best chance of being reprocessed into something useful or at very least less harmful.	0	0
Nov 05 23 07:04:23 am	Comment response to "Collect every two weeks and charge (small amount) for extra"	How can you justify this for a home with multiple people? I am a family of 3 and we fill our bin weekly.	0	0
Nov 17 23 09:02:13 am	Comment response to "Something needs to be done about recycling or banning styrofoam"	agreed! but what's the solution? styrofoam still the best cushion for fragile products.	0	0
Nov 09 23 12:30:52 pm	Comment response to "Alternate between garbage & food waste collections to every other week like other larger metropolitan cities in Canada such as Toronto."	This is almost how they do it and I agree, a good model to follow! What they alternate is blue recycling bins with black waste bins. However, they do green compost bins weekly, because you can't keep that amount of food waste in your home or in the bin. It starts to smell and attracts critters	0	0
Nov 11 23 06:50:37 pm	Comment response to "Alternate between garbage & food waste collections to every other week like other larger metropolitan cities in Canada such as Toronto."	Where would you keep the smelly food garbage for two weeks ?	0	0
Nov 02 23 09:00:44 pm	Comment response to "Recycling deposit refund for containers"	Coke led the way in deceiving consumers into believing single use plastic was better than a deposit system on returnable bottles -- because it was "easier" for them. https://youtu.be/4XP-BBGMCNs?si=bQuGUHHjDbWzLzQ- Stop perpetuating the lies, City of Winnipeg: deposit return systems are imperative to retrain	0	0
Nov 15 23 09:59:36 am	Comment response to "Recycling deposit refund for containers"	We need a better system that's a given. I have tried to recycle old gas before and they told me with a straight face that "I had to go buy a brand new Jerrycan to put this gas in" and then essentially donate it to them. Like actually donate it to them, are these folks for real? Guess where all used gas (and likely other	0	0

Nov 28 23 01:27:34 pm	Comment response to "Recycling deposit refund for containers"	I hundred percent agree to that incentive rather than having to pay for blue bins like in the old days where you could return your bottles and get a refund that worked in my time	0	0
Nov 09 23 09:55:56 pm	Comment response to "Advocate the reduction of plastics at the source, especially packaging of consumable products. Sub paper, compostable materials. "	I agree that the bulk of waste reduction should come from the side of production, not left up to consumers to manage	0	0
Nov 02 23 09:09:41 pm	Comment response to "REDUCE, streamline collection! Consider emissions of three different collection programs. Savings in amount of fossil fuels required."	Even without any policy change from the city, if homeowners could be encouraged 1) to NOT put out their bins if they're only half full, or 2) to pool several households' garbage in one (full) bin rather than each household putting out a 1/4 full bin, or 3) gather several households' bins together at the top of the street, it could	0	0
Nov 02 23 08:55:54 pm	Comment response to "Find a way to sort out specialized "non recyclables""	It's just ridiculous this city does not collect aluminum pie plates and aluminum foil. Allow those of us willing to separate them out to drop them off at purpose-built containers at community centres located in every neighbourhood across the city from where they are taken to a scrap metal dealer. Impress upon the rest of the	0	0
Nov 07 23 01:41:32 pm	Comment response to "Find a way to sort out specialized "non recyclables""	Both black plastic and aluminum pie plates, trays, baking/roasting containers, etcetera are fully recyclable. The reason why GFL does not except black plastic is that their sorting system can not differentiate between the recyclable container and their conveyor belt and therefore it cannot see the Recycle symbol and grade of	0	0
Nov 14 23 11:15:41 am	Comment response to "We'd love to see curbside compost pickup, but we already have 5 compost bins. Not sure how opting out might work, but we wouldn't use it."	Likewise, we compost and veggie garden, so wouldn't use curbside composting. Along with the horrendous costs of instituting this, and the annual charge, householders would need to buy yet more plastic biodegradable bags for the food waste. Buying bags just for the purpose of throwing them out -	0	0
Nov 02 23 09:15:15 pm	Comment response to "Send information out as to what each numbered recycling symbol means and how it is recycled. Many don't know certain symbols aren't accepted"	A ton of ad dollars have been spent reassuring consumers that everything is fine as long as things go in the blue bin. This is patently untrue and leads to a ton of wishcycling, which makes an already bad situation worse. Some accountability about what REALLY happens to the things we put in our blue bins would be	0	0
Nov 05 23 07:06:49 am	Comment response to "Send information out as to what each numbered recycling symbol means and how it is recycled. Many don't know certain symbols aren't accepted"	If they put this INFO onto the bins themselves, that would help for sure!	0	0
Nov 02 23 11:41:02 am	Comment response to "Go to manufacturers and prevent the heavy, single use plastics that can't be recycled. Packaging currently used for goods is ridiculous."	This will only work if there was a way to deal with compostable items.	0	0
Nov 02 23 09:11:19 pm	Comment response to "Go to manufacturers and prevent the heavy, single use plastics that can't be recycled. Packaging currently used for goods is ridiculous."	Yes! Overpackaging isn't a problem to be solved with better recycling: it can be solved by changing the habits at the source. Rules and fines -- which are the purview of government -- can help accomplish this (better than a few passionate consumers trying to write letters)	0	0
Nov 03 23 06:25:50 am	Comment response to "Go to manufacturers and prevent the heavy, single use plastics that can't be recycled. Packaging currently used for goods is ridiculous."	Yes! Change packing to compostable or make them recyclable	0	0
Nov 02 23 09:36:48 pm	Comment response to "Start program to pick up compostable products. Build factories to heat the compostable items and take to decompose safely."	Right now, all the businesses using compostable packaging are just greenwashing. If these products are going into the garbage (or contaminating the recycling stream), they aren't helping! In some ways, it's still better that they are made from starch rather than petroleum, but now they're turning into methane in the	0	0
Nov 03 23 09:45:43 am	Comment response to "Curbside Compost!"	Great idea BUT, I compost at home already and do not feel I should have to pay for a service I wouldn't use. The city would have to charge people based on who has a green bin.	0	0
Nov 13 23 03:12:36 pm	Comment response to "Curbside Compost!"	A large amount of Winnipeg's population do not have the option to compost at home.	0	0
Nov 15 23 09:55:17 am	Comment response to "Curbside Compost!"	How is it fair that I pay the city to do something I already do? I get to pay them and I no longer get free compost for my gardens? There has to be some kind of opt out.	0	0
Nov 17 23 03:52:17 pm	Comment response to "Curbside Compost!"	Other Canadian cities, for many years, have had curbside composting pick-up. Trash can be reduced to a bi-weekly pick-up because volume is reduced, and the stuff that turns stinky is gone with the compost. Overall home pick-ups increase from 4 every two week period (2 trash, 2 recycle) to 5 every two week	0	0
Nov 17 23 07:52:09 pm	Comment response to "Curbside Compost!"	I already compost but the majority people don't. Also, other items can be included such as meat scrapes and dog waste as they do in other cities.	0	0
Nov 02 23 09:04:48 pm	Comment response to "Eliminate the give away days. They are an eyesore. They promote more car driving in the neighbourhoods. "	The impetus behind giveaway days is good but it does create a problem when no one wants what you're giving away. Perhaps an improvement would be to arrange to have trucks collect what is left at 6 pm or something. Then it should be sorted and what is usable taken to thrift stores to be sold and what is not should be	0	0
Nov 04 23 05:49:18 pm	Comment response to "Eliminate the give away days. They are an eyesore. They promote more car driving in the neighbourhoods. "	Giveaway days have a purpose, but too much of what is put out is junk, and not cleaned up after the weekend is done, making the neighborhood look an eyesore.	0	0
Nov 13 23 10:27:03 pm	Comment response to "Semi annual neighbourhood drop off events for 4R-type collection"	Love this! Bringing the depot closer to people would make such a difference! Over a weekend everyone can bring their electronics, mattresses, tires, paint… instead of leaving it next to the tracks because they just can't bring it to Brady. And having staff organizing the whole thing would ensure it's done properly and	0	0

Nov 11 23 06:47:09 pm	Comment response to "City-run creative reuse centre"	As a former teacher, I totally support this idea.	0	0
Nov 06 23 11:46:26 am	Comment response to "License backyard composting "	I like this idea, except that it doesn't take into account the fact that we backyard composters don't add animal products and fats to our compost. Those go into the garbage instead, and in the landfill, organics make methane, a very bad greenhouse gas. I think we have to support communal composting at high	0	0
Nov 14 23 08:59:23 pm	Comment response to "Create a producer responsibility program"	I believe this is actually the case here in Manitoba, where most of the recycling is paid for by manufacturers. What the program is deficient in is much bigger than packaging: the actual item itself. Companies should be responsible for taking back and recycling (or at least paying for the recycling) of their actual product: the	0	0
Nov 09 23 09:53:48 pm	Comment response to "Not all people drive so curbside pickup of items such as left over paint, gas, oil, batteries, electronics once/month would be nice. "	Even every 6 months	0	0
Nov 13 23 03:14:52 pm	Comment response to "Not all people drive so curbside pickup of items such as left over paint, gas, oil, batteries, electronics once/month would be nice. "	So smart. People often just leave things like this in the back lanes. They know they shouldn't be throwing them out but may not have another option to dispose of it.	0	0
Nov 14 23 11:19:37 am	Comment response to "Deposit refunds and return centres for glass, aluminum, etc. "	Yes, this would kill two birds with one stone - more items recycled and streets no longer littered with plastic bottles and non-returnable cans	0	0
Nov 17 23 08:45:38 am	Comment response to "Better availability of recycling information (posters for multi-unit residential complexes to post by the recycling bins, and handouts). "	Currently we are asked to download an app. That app simply presents information that could have been on a webpage. I suspect it was created by giving a contract to a friend of a politician.	0	0
Nov 13 23 01:39:45 pm	Comment response to "Pay per use system"	then reduce taxes as our taxes pay for this service,	0	0
Nov 11 23 10:52:14 pm	Comment response to "Hire a company that is capable of recycling more products. Any product that has a Recyclable symbol should be acceptable under the program."	The triangle symbol on plastics isn't actually a recycling symbol. Check out the Last Week Tonight episode on plastics from 2021 - it's on YouTube and very eye opening.	0	0
Nov 14 23 06:31:13 pm	Comment response to "Hire a company that is capable of recycling more products. Any product that has a Recyclable symbol should be acceptable under the program."	Especially Tim Horton's & Starbucks cups &. Lids! Also need #6 recycled too.	0	0
Nov 14 23 09:02:15 pm	Comment response to "Hire a company that is capable of recycling more products. Any product that has a Recyclable symbol should be acceptable under the program."	This isn't so much of what is or isn't recyclable, it is more to do with demand for the recycled product and the transportation costs to get it to the recycler. Some recyclable products sit for months or years in bales, waiting for a buyer at a good price where some money can be made, or at least the cost of	0	0
Nov 13 23 03:20:18 pm	Comment response to "Have a trash/recycle bin at every bus stop. Especially if bus stop is within 20ft of convenience/ or grocery store."	And way more frequent emptying of bins. Overflowing garbage bins all over the city. People are trying to do the right thing but the city needs to hold up their end. Also more garbage bins and recycling bins around school playgrounds please! Schoolyards are covered in litter	0	0
Nov 14 23 11:10:24 am	Comment response to "Use a different type of outdoor public bin and find a way to regularly empty public garbage bins, summer and winter. "	Recognize where there's a serious garbage problem e.g. encampments by Waterfront Drive and Main St between Higgins and Logan and put in appropriately sized dumpsters.	0	0
Nov 14 23 06:28:54 pm	Comment response to "Accessible recycle/garbage bins for handicapped."	Also make large garbage bin more accessible as I've seen kids & shorter people trying to put items in garbage or recycling bins but can't do they just end up putting it in the ground.	0	0
Nov 14 23 11:26:26 am	Comment response to "yard waste pickup very convenient for tree trimming/garden/leaf shedding if lawn is weed-free so that grass clippings can left on lawn	Summer yard waste pick-up every two weeks is useful. Compost collection year-round not so. Reinstate $25 compost bin sales, enable vegetable gardening on boulevards using home-composting. Thousands in Winnipeg are food insecure. More urban veggie gardening would go towards alleviating this	0	0
Nov 14 23 11:08:26 am	Comment response to "A textile recycling system is needed. Not just unusable old clothes but old bedsheets, duvets, towels etc. I only need so many rags."	The Wrench will gladly take rags	0	0
Nov 14 23 09:05:50 pm	Comment response to "Scrap the multi-million dollar composting, reinstate home composting, put money into enabling people to grow their own food"	As I've stated elsewhere, The city compost is much more powerful. This is industrial composting, not backyard composting. Industrial composting generates huge amounts of heat, and will compost things like meat and bones, stuff that you can't put in the backyard composting systems. They are also	0	0
Nov 14 23 09:04:48 pm	Comment response to "How about giving every household a compost bin for their backyard. Let residents decide."	The city compost is much more powerful. This is industrial composting, not backyard composting. Industrial composting generates huge amounts of heat, and will compost things like meat and bones, stuff that you can't put in the backyard composting systems. They are also much quicker!	0	0

Appendix C – Focus group records of discussion

Record of Discussion

Organization Name	*City of Winnipeg – Comprehensive Integrated Waste Management Strategy Review: Focus Group 1 – Reduce & Reuse*
# of Participants	8 team members, 3 organizations (3 individuals)
Name(s) of individuals in attendance	
Date	Monday, November 6, 2023
Location	Zoom
Summary of discussion	**Activity 1 – Assessment of Winnipeg's Current Waste Management System:** **1. Current strengths:** • Cart collection for residential and ease of use, often full each week (especially blue bins). • Reuse groups are already working together. • Tracking of data is currently being conducted by reuse groups. **2. Weaknesses, what is not working well:** • Need more education and promotion of the variety of programs available. • Commercial tipping fees for non-profit organizations dealing with residential waste. • Safe storage of food waste is needed. • Need faster response from the City regarding neighbourhood clean-ups and clean-up of back lanes in a timely manner. **3. Opportunities:** • Investigate textile recovery. • Implement resources to divert food/surplus of food quickly and easily. • Divert food through better and safe storage space. • Opportunity to eliminate commercial fees for non-profits handling residential materials. • Opportunity to leave furniture/mattresses (and other materials) at 4R depots for redistribution by others, or additional partnership opportunities. • Opportunity to increase education around best before dates and liability. • Opportunity for more information to go out with alternative options to move instead of liquidating online, this could extend to food life, etc. • Tracking of data is important such as the amount of greenhouse gas emissions reduced through reuse or recycling. • Increase education around food diversion opportunities. • Corporate outreach and partnerships are crucial such as partnerships with the City for promotion via social media, website, etc. • Implement school programs and education in elementary and high schools.

	4. **Priorities:** • Safe handling and storage of food. • More emphasis on re-use and promote/celebrate what is already happening to further enhance the circular culture. • Education and getting the word out there that there are a variety of options available, additionally the public should not be making the decision on what is accepted or not, they should bring everything, and reuse organizations will determine the best option for these items. • Awareness of wat reuse groups already have in place and can offer, i.e. treating facility for bed bugs. • A more timely response from the City on neighbourhood clean-ups. • Adopt the Love Food Hate Waste program in Winnipeg. **Activity 2 – Identifying needs for future programs:** 1. **Reduce:** • Education to prevent the surplus of food. • Look into supporting the Love Food, Hate Waste program. • Additional campaigns to investigate educational purposes. 2. **Reuse:** • Education on re-use, what can and can't be reused. • Ensure junk hauling companies follow through with reuse and recycling efforts. • Help support decisions on what items should be going where and accepted. • Potential City role to promote partnerships, networks, and education. • Reuse partnerships with larger companies/organizations and continue to strengthen ongoing relationships with the City. • Bins should be on municipal property for collection of textiles to ensure they are not contaminated by litter, etc. • Bins may not be the best method for collecting textiles, require larger bin on a supervised site. 3. **Recycle:** • Recycler certification or a form of program to help build awareness and demonstrate commitment to all areas of diverting and collecting. 4. **Recover:** • Recycling platform or gateway where residents can host items that would otherwise be sent to the landfill.
Questions	N/A
Follow up required	N/A
Notes	• More clear information for commercial users on reuse. • Need cost effective methods are required. • Need more education around donating food, food surplus, expiry dates, etc. • Require more attention on production and manufacturing such as the materials that are used to package foods.

	• Gather numbers from reuse organizations to divert more materials, this helps everyone understand where organizations are at and where they may require additional support. • Look to other jurisdictions to see what they are doing regarding textiles; some have implemented textile collection at community recycling depots.
Recorded by	Michaela Peyson

Record of Discussion

Organization Name	*City of Winnipeg – Comprehensive Integrated Waste Management Strategy Review: Focus Group 2 – Increase Participation*
# of Participants	6 team members, 1 organization (1 individual)
Name(s) of individuals in attendance	
Date	Monday, November 6, 2023
Location	Zoom
Summary of discussion	**Activity 1 – Assessment of Winnipeg's Current Waste Management System:** **1. Current strengths:** • Most residents are aware of backyard composting. • Large number of non-profit organizations work with neighbourhood organizations to help support community members. • General awareness of need for diversion i.e. recycling, and enthusiasm for composting. • Giveaway weekend is successful. **2. Weaknesses, what is not working well:** • Backyard composting can be a large investment for renters to get proper infrastructure in order for residents to participate in. • Affordability is a barrier with a respect to composting. • Lack of transportation to 4R Depots or Community Recycling Depots, large portion of the community does not have access to a vehicle. • Language barriers in regard to accessing educational materials. • Bed bug issue limits the reuse of clothing and furniture. • Larger number of carts at multi-family residences that people search through which creates an ongoing issue with litter. • Items that could be reused are thrown out in the garbage due to lack of transportation (specifically with large bulky items) • Key barriers the community faces are related to cost, travel, language, and lack of plain language. • Composting education is required for community to understand the benefits, how to do it properly, etc. • The incorrect materials are ending up in the compost bin due to lack of waste receptacles. **3. Opportunities:** • Bi-annual event to allow for items to be picked-up to provide the opportunity to recycle and reuse properly, the key is consistency with this event.

	• Opportunity for the City to provide information or partner with for events to help build awareness around recycling, the City could collaborate with neighbourhood associations to distribute information which pertains to each community. • Opportunity to provide residential compost pick-up to vulnerable communities at no fee or relatively low fee. • Information sharing through bulletin boards, social media, e-newsletters. • Community clean-ups with multiple organizations. **4. Priorities:** • Funding for community clean-ups and recycling/reuse events that are well advertised. • Hosting these events quarterly is ideal, the key is people can anticipate when the event is coming. • Community gatherings and clean-ups are an opportunity to promote waste reuse and reduce programs, such as bringing unused paint. **Activity 2 – Identifying needs for future programs:** **1. Reuse:** • Need to reduce or eliminate barriers to participation in programs – cost, access, education, and time. **2. Recycle:** • Information in a variety of formats i.e. posters, radio, infographics, etc.
Questions	N/A
Follow up required	N/A
Notes	• Those who rent in homes may not fee comfortable composting on a rental property. • There is a large number of Older adults that have challenges getting garbage to their carts – many leave it in the hallway, relying on neighbours or building mangers, some non-profits are helping these individuals by bringing their garbage to the building collection point, or their home care service. • More education around recycling is required, the common contamination they see is not cleaning or emptying items before placing them in the blue bin. • The City uses a lot of terms that do not resonate with many community members – readability and translation into other languages is key. • There is a strong demand for a community compost site, however hazardous items end up in this type of infrastructure such as the community gardens. • Require more public waste facilities throughout neighbourhoods. • It would be beneficial to explore a reduced fee or no fee for waste related services to lower income areas. • Income variation is a large factor, many do not have a choice to select food products with less packaging.
Recorded by	Michaela Peyson

Record of Discussion

Organization Name	*City of Winnipeg – Comprehensive Integrated Waste Management Strategy Review: Focus Group 3 – Construction, Renovation, and Demolition (CR&D) and Industrial, Commercial, Institutional (IC&I) Waste Reduction*
# of Participants	7 team members, 4 organizations (5 individuals)
Name(s) of individuals in attendance	
Date	Tuesday, November 7, 2023
Location	Zoom
Summary of discussion	**Activity 1 – Assessment of Winnipeg's Current Waste Management System:** **1. Current strengths:** • Market for wood and metal recycling. • Builders required to have a bin on each residential construction lot. **2. Weaknesses, what is not working well:** • Challenges with meeting requirements for City waste pick-up for some multi-family developments. • Limited reuse/recycling market for some construction materials such as drywall, asphalt, and shingles. • 'Harvesting' of metal from construction bins. • Large amount of cardboard, plastic wrap, Tyvek in bins that is not recycled. **3. Opportunities:** • Cardboard diversion. • Develop market solutions for drywall, shingles, and carpet. • Incentivize recycling to make the option more appealing. **4. Priorities:** • Develop markets to divert materials. • Make it more cost effective/efficient for builders to divert i.e. free and separate bins which make it cost-effective and easy. • Take a regional approach, consider other wase disposal options besides the City of Winnipeg. **Activity 2 – Identifying needs for future programs:** **1. Reduce:** • Adaptive reuse • Pre-fab homes or components of homes to meet energy use requirements resulting in less on-site waste.

	2. **Reuse:** • Program for home components similar to Habit for Humanity or Old House Revival. 3. **Recycle:** • Investigate drywall recovery and recycling.
Questions	N/A
Follow up required	N/A
Notes	• Adding new costs will not go over well, looking at ways to make building more affordable will help contractors divert more waste. • Easy and incentivized diversion – if it is free to divert by supplying the necessary bins, they would be more willing to participate. • Diversion is not on the radar for most home builders/developer the most urgent and quick win would be to increase their bottom line, add dividers in bins, and make the process easy and free. The approach must be regional – if you make adjustments to the City operated depots/landfill it may not make a change because they will go elsewhere, especially if it is cheaper. • Lack of market for certain materials is the largest barrier i.e. drywall, shingles, etc. • Illegal dumping by residents of non-construction related materials into the construction bins is occurring because residents do not want to pay for pick-up of materials. The most common item they are seeing is tires. Looking for City support to help reduce contamination of these bins. • If a depot for construction, renovation, and demolition (CR&D) materials was offered, it needs to be economical and convenient. • The bulk of construction waste is related to demolition, even minor home renovations, as demolition companies are looking for the cheapest and fastest options.

Record of Discussion

Organization Name	*City of Winnipeg – Comprehensive Integrated Waste Management Strategy Review: Focus Group 4 – Producer Responsibility Organizations (PROs)*
# of Participants	9 team members, 6 organizations (8 individuals)
Name(s) of individuals in attendance	
Date	Wednesday, November 8, 2023
Location	Zoom
Summary of discussion	**Activity 1 – Assessment of Winnipeg's Current Waste Management System:** **1. Current strengths:** • 4R Depots are well managed and largely accessible. • The Brady Landfill is well managed, especially the composting facility. • Entire waste program is well managed; especially given the complexity. • Ability for consumers to drop off many different streams. • Recylopedia is improving awareness and education. **2. Weaknesses, what is not working well:** • Diversion from public spaces such as parks, near transit stops, etc. • Communication of access. • Multi-family dwellings collection capacity and frequency. • Ability to add materials. • Does not capture some residential materials from commercial/contractor sources (i.e. household hazardous waste) at 4R depots. • Contamination is an ongoing issue. • Challenge getting centralized data in Manitoba makes planning difficult. **3. Opportunities:** • Legislation is needed for reporting. • Increasing collection capacity and frequency at multi-family dwellings. • Establish the composting program to help reduce waste. • Reducing contamination. • Recycling in all parks and open spaces. • Expansion of existing programs. • Approval of full Extended Producer Responsibility (EPR) and Public Private Partnership (PPP) to enhance efficiency and leverage capital. • Contamination education – what is commonly being put in the blue bin that does not belong, rinsing and emptying recyclables, and demonstrate why it is an issue. • Dispelling recycling myths by highlighting what happens to these materials. • Hold contractors accountable for recycling collection.

	• Occasional curbside pick-up for batteries or partnering on curbside collection for other stewarded/PRO materials. • Take-out coffee cups, straws, and other single-use materials that could be possibly diverted. • Landfill bans for stewarded materials and enforcement. • Regulated reporting to improve planning. **4. Priorities:** • Improve multi-family dwelling diversion. • Enhancing education by partnering and/or working with Producer Responsibility Organizations (PROs). • Harmonize language and terms to increase understanding of waste-related education. • Improve recycling in public spaces, and pairing garbage and recycling bins. • Achieving recycling diversion targets outlined in previous strategies like OurWinnipeg. • Improve access by adding a fourth 4R depot location. • Roll out full Extended Producer Responsibility (EPR), requiring producers and retailers to take responsibility for the lifecycle of the products. • Reducing contamination and add additional accepted materials to residential recycling such as black plastics, Styrofoam, etc. **Activity 2 – Identifying needs for future programs:** **1. Reduce:** • Promotion or implementation of repair shops/cafes for electronics or appliances. • Promotion or implementation of a community tool or specific use appliance libraries i.e. area for communities to borrow items to avoid everyone having to purchase their own. **2. Reuse:** • Reuse of paint (currently not reused at 4R depots due to no scavenging policy). **3. Recycle:** • Advanced recycling – chemical recycling • ECCC (federal) plastic strategies, requiring producers to report annually on the quantity and type of plastics they place on the market to highlight how it moves through the economy and how it is managed at its end-of-life.
Questions	N/A
Follow up required	N/A
Notes	• Most PROs are very involved in getting information from clients, but getting central information is difficult i.e. fees, restrictions, etc., if reporting was regulated and shared in a central format, it would be beneficial for all PROs. • Contamination is the largest problem al PROs are observing. • All organizations need to follow standard procedures and formats, such as graphics, colour, etc. to ensure effective communication. • Pairing bins (recycling and waste) helps to create convenience.

	• Education should be available in a variety of languages. • More work across Canada is required to create harmonization and consistency among messaging. • Coffee cups are being accepted at depots and curbside in other jurisdictions – Winnipeg requires an end market first and then can focus on diversion of these materials. • Most PROs support adding a fourth 4R depot location as accessibility is always an ongoing issue. • It is difficult to track electronics due to variety in products, different weights over the years, etc. • Opportunities to partner with curbside every now and then for battery collection. • Landfills bans or banning specific items can become tricky and tends to lead to illegal dumping, especially if there is a landfill without bans, all the items will end up there. Bans would need to be provincially put in place – Nova Scotia is an example.
Recorded by	Ken McKim / Michaela Peyson

Record of Discussion

Organization Name	*City of Winnipeg – Comprehensive Integrated Waste Management Strategy Review: Focus Group 5 – Environmental Policy*
# of Participants	8 team members, 6 organizations (8 individuals)
Name(s) of individuals in attendance	
Date	Thursday, November 23, 2023
Location	Zoom
Summary of discussion	**Activity 1 – Assessment of Winnipeg's Current Waste Management System:** **1. Current strengths:** • Improvements on 4R depots systems. • Household garbage and recycling pickup. Recycling is important and properly done in the city. • Mattress recycling program. • Bike recycling/reuse at the WRENCH. • Winnipeg's new MRF facility. • Lots of landfill space and life. • Free giveaway weekends. • Car seat recycling program at Mother Earth. i. 10-year lifespan of car seats ii. Sporadic collection - ongoing iii. #2 plastic which is high valued, but the black colour is challenging for all plastic iv. Small fee v. Participants must go to Mother Earth vi. Mother Earth separates plastic, metal, and fabric from the car seats that are not used to be recycled. • Pilot food waste collection. Waste diversion will not be able to go beyond 30% without food waste collection. **2. Weaknesses, what is not working well:** • High contamination of recycling (specifically from multi-family). Multi-family dwellings have low diversion rates. Additionally, need better building design for multi-unit buildings as they do not allow for adequate space for recycling and organic waste collection. • Litter abatement. • Increased education around recycling i.e. what is accepted, properly preparing items to be recycled, etc. • Small businesses want to use 4R depots but do not want to pay the fee.

- MMFM does not cover entire cost of blue-bin program. Still in shared cost model MMFM covers 80%, municipal is 20%.
- Greater collaboration is required between the commercial and demolition sectors. Additionally, there is lack of control over the waste due to private haulers collecting and landfilling this waste.
- Need continued, long-term funding.
- Competitive landfill market
- Limits policy that can implemented
- Point-of-sale for lifecycle costs – being transparent about fees.

3. **Opportunities:**
    - To include composting for multi-family.
    - Drywall project may be going on at some landfill somewhere.
    - Lending libraries (tools, equipment, kitchen supplies, etc.)
    - Schools are interested in learning about and participating in composting.
    - Major groceries can bring bag, but cannot fill a container (to separate weight of container) – may require a staff person to monitor. There should be more support for businesses that are allowing this i.e. Planet Pantry.
    - More communication on what happens to recycled items, levels of contamination, and what happens once they go into the blue bin. Communicate with other groups to see what they are doing to provide additional insight into these areas.
    - Information about other materials that are accepted at 4R depots (oil, e-waste, etc. – all local).
    - Vancouver implemented bylaws to regulate use of single-use items to get them out of the waste stream.
    - Transparent fee structure to cover lifecycle costs.
    - Option for folks without access to transportation to recycle 4R depot items.
    - Include specifications for recycled content in procurement/construction tenders.

4. **Priorities:**
    - Focus on multi-family diversion, residential food waste (avoiding food waste) and commercial diversion.
    - Equitable fee structure for waste diversion fee and Subsidies for low-income residents/families, or a two-tier fee.
    - Focus on messaging/programs on reduce and reuse, with less focus on recycling.
    - The goal should be to achieve net zero emissions.
    - Reducing methane from landfill.
    - Increase initiatives towards textile recycling.
    - Building opportunities for everyone to participate in Winnipeg's waste management systems and programs.
    - Flexible plastic packaging diversion.
    - Regional collaboration on landfills, for items such as drywall – City could scale up system (to influence policy at a higher level).

Activity 2 – Identifying needs for future programs:

	1. **Reduce:** • Waste reduction education for schools and newcomers. • Increase disposal fee for items that can be diverted, especially carboard, wood, etc. • Create advertisements which focus on increasing awareness of available reduce programs ad what residents can do to reduce food waste at home. • Provincial government should ban grocery stores from landfilling food. • Increase partnerships between the City and reduce organizations to increase access for Winnipeggers to reduce more. 2. **Reuse:** • Create compost or carbon content standards for soil specifications. • Incentives for container reuse for businesses. • Support food rescue so that commercial/industrial food waste is redirected to those in greatest need. 3. **Recycle:** • Apply Handling fee for small appliances so they are accepted for recycling. • Waste Reduction and Recycling System (WRARS) • All landfills charge $10 per tonne • Up to landfill to pay that to province • Procurement Plan to learn into what City has already, make sure that social value saves money in the end, and that contracts are encompassing social values. 4. **Recover:** • If the City explore disposal bans it would need to be a provincial ban or City-wide would need to cover all landfills in Manitoba and ensure there is a plan in place for what happens to these items at the end of their lifecycle. • Long-term planning for organics collection and composting should include the commercial and institutional sectors. • Recover heat energy created by the landfill. • Improve technology for carbon capture. • Carbon tax credit for companies to refrain from throwing food to the landfill. • Create legislation that requires construction and demolition sectors to divert and recycle waste from the landfill. 5. **Dispose:** • Provincial ban applied to Brady and other landfills, or apply a ban to specific items – appropriate infrastructure and end market will need to be in place first.

Appendix D – Interview records of discussion

Record of Discussion

Organization Name	*City of Winnipeg – Comprehensive Integrated Waste Management Strategy Review: Interview*
# of Participants	4 team members, 1 organization (1 individual)
Name(s) of individuals in attendance	
Date	Tuesday, November 21, 2023
Location	Zoom
Summary of discussion	**Assessment of Winnipeg's Current Waste Management System:** **1. Current strengths:** • Collect used oil burners – especially from the north that are used as inside space heaters – MB is the only province that allows this. They would be supportive of another 4R Depot location as it would fill a hole in the collection network • The 4R depots are great, when individuals call about disposal, they are directed to these locations. **2. Challenges** • Three main collectors who collect 95% of product for recovery. They will collect oil filters for end use processing. Air filter containers used for generating electricity at collection facility. There is only so much you can collect on oil filters – hard to grow the program. **3. Opportunities:** • Collection/diversion most successful in the 'do it yourself' areas (lower income, blue collar neighbourhoods). Will go to 'mom & pop' lube shops in select areas such as Goulet, Ellice Avenue to find collection partners. Not neighbourhoods such as Tuxedo where Winnipeggers would use a garage service for an oil change. • #2 and #3 plastics collected. #1 PETE (Polyethylene terephthalate) as in new oil containers is not a part of this program. It would be ideal if anything automotive related– i.e. Amour All wipes, fuel enhancers that could be a part of the collection stream. It would make for improved awareness of automotive products recycling. Items such as Windshield fluid part of MNSM – but Oil group would be happy to accept at some point. Blue box does not accept new oil containers. It would be great for the City of Winnipeg to begin collecting these items.
Questions	N/A

Follow up required	N/A
Notes	**Changes in technology and offerings:** • DEF (Diesel Exhaust Fluid) containers – currently pay .75/kg for this plastic. Used in Rapid Organic Conversion – turns it into electricity. There is a facility in St. Eustache using this new technology. Not incineration but vaporization. The City could help in the collection of this grade of plastic. • PRO is paying 8 cents/litre to burn used oil burning furnaces (below 5,000 BTU). Increased from 16 to 90 burners in the past few years. New direction for collecting used oil. • 6% of cars are crushed every year – 51,000 car oil filters are included in this. Filters differ in weigh because of cartridge filters (they are 25% of the weight). Using this accounting methodology to attribute to diversion metrics. Weight metrics are problematic as some cartridges are no longer metal but cardboard. Things like weight can change year over year due to design. • Electric vehicles do not use oil. Maybe we will become a lithium battery collector in time! Is there discussion about this forthcoming issue? The change of batteries in EV is not a 'do it yourself' job - so it will be the dealers who do this work. Only 800 electric vehicles in the province now – and they not at the point of needing to change the batteries. • There is new technology emerging with silicone anode battery – but it is not scaled up. Changing from graphite. • Silicon dioxide (sand) as a battery energy source – you can remove impurities and is thermally stable and cost effective for storing energy.

Date	Wednesday, November 22, 2023
Location	Phone call
Summary of discussion	**Assessment of Winnipeg's Current Waste Management System:** **1. Current strengths:** • Diverting waste through the composting program helps support health as it reduces greenhouse gas emissions. Would like to see this move forward and in a timely manner. • Divert materials that contaminate water and soil. • Would like to see other innovative reuse of materials applied in the city similar to the Biosolids program. • Giveaway weekends are successful and should continue to be prioritized and continue to explore opportunities to grow its success. • Mattress pilot program was successful and should be implemented permanently, offering a subsidy. **2. Challenges** • The program currently does not serve and address disadvantaged communities. This can be seen through illegal dumping, litter, bulky waste, etc. which leads to the belief there is an equity problem. Additionally, community members are experiencing challenges with being able to transport materials to a 4R depot, do not have proper access to services and programs, and experience challenges with being able to afford current fees and/or additional fees. • How do we form an equity perspective for pick-up of large items, as more disadvantaged areas should have equal opportunity. The pick-up interval is costly and most likely takes too long which leads to illegal dumping. • Cart replacement (3-4 month wait) what are people doing in the meantime? Carts are breaking easily, and waste is going elsewhere – illegal dumping, litter, etc. All parts of the system need to work together. We are getting to over ten years of having these bins, are they recyclable? What is happening to these bins after the break, and they need to be replaced. **3. Opportunities:**

	• Partnerships – Trash the Neighbourhood (Elmwood) is an example of a great organization (possible partnership opportunity) they collect large items and haul away waste to community depots, 4R depots, reduce organizations, etc. as they have a partnership with a private waste hauler. Partner with neighbourhood organizations. A large challenge is people who do not have vehicles and do not have the opportunity to haul away. There is great value in promoting these companies to help divert waste.
	• Resources for those with mobility challenges.
	• Offering a subsidy for the green cart program for underserved communities to help them participate.
	• Translating communications in a variety of languages (representative of Winnipeg's population), especially when the information is important. It will help facilitate learning of existing and new programs.
	• Support existing programs of aspects that are outside of City services and provided by non-profit organizations. The City could work with these organizations and support them through advertising on the City website or social media.
	• Diverting more hazardous materials, it is difficult for some individuals to get to a depot because they do not have a vehicle.
	• Supporting more programs like the mattress pilot program.
	• Recycling and programs for multi-residential that are comprehensive.
	• Accepting as much as possible through the composting program will be helpful and making it clear what is accepted, removes confusion.
	• Distributing infographics or a magnet to remind households what is in and what is out for the blue bin and compost bin.
	• Support through policy to ensure we are not generating this waste, such as black plastics, they should not be generated if they cannot be accepted.
	  i. Winnipeg has the opportunity under the bylaw to say to restaurants that they should not be distributing single-use plastics or items that are not recyclable. This is at the top of the hierarchy (reduce).
	  ii. Use social media to highlight reuse of black containers (accepted at art centres).
	• Incentives or adding tags to garbage bags to increase diversion. However, this needs to be done in an equitable manner. It would help people to recycle more.
	• How do we change incentives and disincentives to align with the programs in place without burdening the disadvantaged populations?

Questions	N/A
Follow up required	N/A
Notes	• Odor from Brady landfill and land use conflicts – ensure they are not further developed. • Organizations are worried about the implications of donating food and the liability. More support towards the creation of a guide to help build awareness around donating food, etc.

Location	Zoom
Summary of discussion	**Assessment of Winnipeg's Current Waste Management System:** **1. Current strengths:** • Not applicable, currently do not see any strengths. **2. Challenges** • Biggest challenges are the result in the increase in food insecurity, homelessness, mental health, and the after math of the pandemic. • Public Works has not maintained their side of clean-up agreements. • Volume of people coming for services to the area, infrequent pick-up, and lack of litter pick-up in the streets. • The City needs to support organizations to enable clean up in both infrastructure (tamper proof bins) and pick up, as it is critical to get back to clean state (such as the 2019 streetscape). • Litter on public streets around public bins and private bins in lanes. • Illegal dumping is problematic. **3. Opportunities:** • Look to other jurisdictions to learn more about what they are doing i.e. Regina and Victoria have similar issues, but they are receiving better support such as staffing capacity to conduct nightly clean-ups. • Implement a city-wide levy to focus efforts in the downtown. • Build a strong community-led partnership with the City. • Composting program would be beneficial when it becomes available.
Questions	N/A
Follow up required	N/A
Notes	**Needs:** • Increased frequency of collection. • Infrastructure such as larger capacity bins that are lockable (acknowledged others may not agree with lockable).

	• More support and mindfulness when removing waste, specifically around encampments.

Summary of discussion	**Assessment of Winnipeg's Current Waste Management System:** **1. Current strengths:** • Winnipeg's 4R model of the 'one stop shop' creates success but ultimately it depends on the behaviour and attitudes of the residents. • In most province's there is no secondary program for non-HHW stewarded materials - but in Manitoba there is one and that should continue. Province does not advertise this service for non-stewarded programs and does not have the funding to ensure its long-term viability. **2. Challenges** • Making a big change to services is the greatest threat to disruption because people and programs rely on consistency for success. • Impossible to write a single regulation that captures it all - difficulty to define. • Handling hazardous materials triggers all sorts of local and federal regulations. Not easy to set up a new collection sites (zoning and by-law departments in the City must be considered) as compared to other PROs. • At the point of sale these products do not have these requirements – but once the product is post-consumer - it becomes hazardous waste. **Identifying needs for future programs:** **1. Reuse:** • Informally support the concept of reuse but it cannot be endorsed formally because enforcement for safe handling of HHW is near impossible. Old products have more 'nasty' stuff compared to newer products that are formulated to be less hazardous with active ingredients. This is a main reason to not put HHW products out for reuse or considered acceptable in 'free stores' or give-away events. • Paint Share programs operate successfully in many other jurisdictions. Not implemented in Manitoba because we have a 'no scavenging 'policy in our province which is posted and implemented at the 4R depots. Winnipeg has a

	great opportunity if they can join the Paint Share program – encourage reuse rather than recycle. • In manufacturing process 1st gen and 2nd gen products not as good and may have shorter lifecycle. We want to encourage reuse – but many manufacturers cannot take on the liability of reuse.
Questions	N/A
Follow up required	N/A
Notes	**Changes in technology and offerings:** • Currently not collecting incandescent and halogens. LED lighting fixtures are now often one housed piece, and the light is not changeable. Entire lighting fixture is a one-time use. Now it is more like an electronic piece for recycling. • Over time it is easier to convert sites that were collecting one product into collection centres for more products especially in smaller communities.

Date	Tuesday, November 28, 2023
Location	Zoom
Summary of discussion	**Assessment of Winnipeg's Current Waste Management System:** **1. Current strengths:** • There are some folks who are good to work with at the individual on the scope of work but seem to do what they can within their power. • There seems to be decent amount of waste receptacles. The Outdoor Media Group (OMG) bins help to provide coverage. • **2. Challenges** • City representation has not been consistent in working groups. City needs to communicate its goals and priorities to the region. • Province has lower standards for private landfills for GHG capture – i.e. City has to have landfill gas collection system but private landfills do not have this. • Diversion and GHG reduction needs to be done on a regional scale. • Small communities lack waste management capacity – can benefit from City's knowledge and expertise, resources of City. • Sustaining momentum of working groups and consistency of City involvement. • Disincentives to encourage diversion and reduction need to happen on a regional scale. I.e. cannot implement differential tipping fees or landfill bans in Winnipeg when other landfills in region available. **3. Opportunities:** • MMSM full EPR program has implications for regional scale diversion of packaging waste. • City's Community Energy Investment Roadmap – identifies a landfill working group that includes private landfills. WMR could help facilitate this, with involvement of Province. • City's RFP for organics facility – could use regional tonnage data (updated) to support RFP (identify the organics tonnage that could be captured in the region) • Circular economy – regional goals and targets, waste flow mapping.

	4. **Priorities:** • Understanding City's position, collaboration with City and other municipalities, organics diversion, regional waste facilities. • Municipal Service Sharing/Cost Sharing for 4R depots – need to identify what mechanism to use. • City's green cart program and processing facility is of interest to regional municipalities.

Location	Zoom
Summary of discussion	**Assessment of Winnipeg's Current Waste Management System:** **1. Current strengths:** • There are some folks who are good to work with at the individual on the scope of work but seem to do what they can within their power. • There seems to be decent amount of waste receptacles. The Outdoor Media Group (OMG) bins help to provide coverage. • **2. Challenges:** • The receptacles tend to be old and don't look good. They are easy to get into and hence waste is redistributed. The litter pickers pick up and put redistributed waste into the City bins. • The City has a schedule that is based on time not when bins are full. • Bulky waste in downtown is a problem. Conducting clean-ups of backlanes, removing to the landfill and collects several thousand pounds of materials. This is occurring up to once a week. It is notable that a lot of bulky waste gets reused and moved around downtown. • Main Street area needs a singular strategy to improve the area. • Grants are not covering all the costs related to clean-up, maintenance, and infrastructure requirements. • Commercial bins are not locked, and waste is removed. • Contamination rates are high in the OMG bins. **3. Opportunities:** • Bin re-design, basic levels of service, ways of supporting the organizations and if the City cannot do the work. • More work to do with waste reduction strategies – education and best practices for the shelters. • Majority of downtown residents are in condos or apartments - so it would be good for those living downtown if there was some composting collection.

Questions	N/A
Follow up required	N/A
Notes	**Changes in technology and offerings:** • Wanting to increase impact and efficiency. • Would happily take more on with litter abatement if there was more funding and resources available.
