Appendix A – Survey Results

May 2022

Background

The survey was available from November 15 to December 12, 2022. There was a total of 2,547 respondents for the survey that was published on Engage Winnipeg. The survey consisted of eleven project questions and four optional demographic questions. The demographic questions help determine which segments of Winnipeg's population we are hearing from.

Engagement

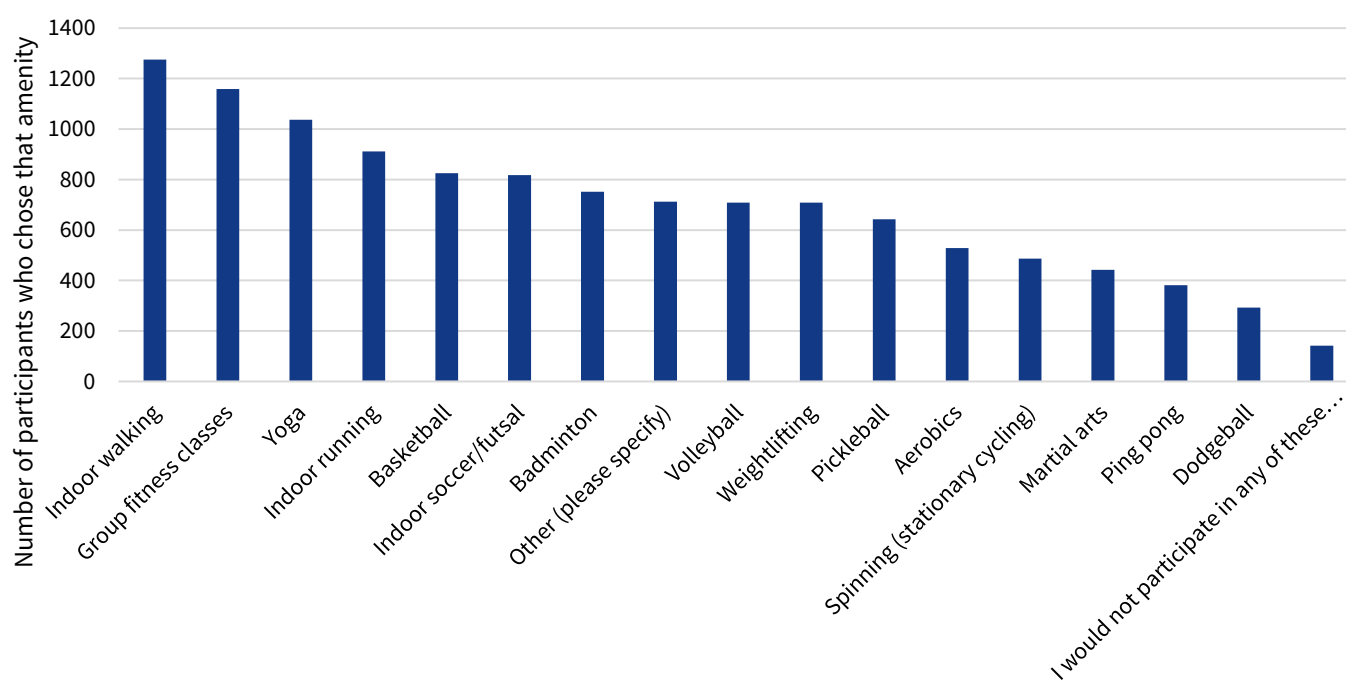

The engagement gathered the public and stakeholders' vision for the site, values, priorities for programming, concerns, and needs for SWRC. Input will help shape the vision and design of a new South Winnipeg Recreation Campus (SWRC).

This project included targeted engagement aimed at residents of South Winnipeg, potential future users of a new SWRC, and specific stakeholders.

What We Heard

Question 1: Thinking about the amenities that will be built in Phase 1, what indoor sports activities do you see yourself, your friends and family potentially doing at the new South Winnipeg Recreation Campus? (Check all that apply).

Question 11: Is there anything else you would like to add?

The following table shows the top themes that came from this open-ended question. There were **971** responses to this question. Notably, 8% of comments were of general support with no additional themes.

Percentages do not equal 100% as comments may have held multiple themes within them. Themes that represented less than 2% of comments are not shown.

Table 1: Key themes identified in question 11 of the survey

Theme	Description and examples
Requested amenities - sports	
Hockey and ice amenities – indoor/outdoor rink (23% of comments held this theme)	Participants shared the desire for amenities that support hockey, figure skating, recreational skating, and other ice activities both indoor and outdoor, expressing interest in the growth of the sport and the current lack of facilities in the surrounding community. Some also indicated that this would be a revenue-generation opportunity. <i>“Extremely important for an indoor ice rink facility. It’s absolutely of upmost importance.”</i> <i>“Hockey ice is critically important to this city and in short supply.”</i> <i>“This continues to be a growing area. There are tons of families and skating, lessons, figure skating and hockey are all popular year round. This could be revenue generating to rent out ice.”</i>
Pool/swimming amenities (14% of comments held this theme)	Participants shared the desire for facilities that support swimming and water-related activities. This includes a pool, waterpark, lazy river, and opportunities for swimming lessons. <i>“A pool with water slides, and a lazy river would be well needed and used!”</i> <i>“A pool is much needed, swimming lessons are impossible to get into.”</i> <i>“Please add a pool with lots of swimming lesson options. It is such an important skill that is sooo hard to coordinate.”</i>
Other sports-related amenities (19% of comments held this theme)	Participants shared a variety of other amenity suggestions, ranging from sports courts/fields, indoor activity space for fitness activities, and more. *A full list of suggested activities can be found below this table. <i>“All sports should be incorporated into the functionality of the space.”</i> <i>“Anything that promotes outdoor activity in all seasons - toboggan/skating, walking, playground, bbq and shelters.”</i>
Indoor space

Appendix A – Survey Results

May 2022

Theme	Description and examples
Specific ideas for the indoor space (9% of comments held this theme)	Participants shared a range of ideas for the indoor space, including potential activities, design features, and amenities. This includes space for affordable and healthy food and beverages, space for community members to learn more about activities in the recreation campus and how to get involved, and general design aesthetics. Some shared a desire for functionality over flashy design features and to ensure the space considers practical uses for a wide range of people and activities. Others expressed an interest for a public library branch to be considered. <i>“I would like to see a project that meets the needs of the residents, and not an impractical, unusual, eye-catching experiment, and not a monument to some architect. I like indoor spaces that absorb sound and don't amplify echo, so no large flat concrete walls, etc... Let's make the campus a warm, comfortable location and not an interior-design show.”</i> <i>“Important that it reflects the diversity of the area and is inclusive.”</i> <i>“It would be great to see a Winnipeg Public Library branch in this facility.”</i>
Transportation	
Transportation needs (6% of comments held this theme)	Participants noted that ensuring easy transportation to and from the facility would be important. This included comments on the need to have active modes prioritized with good infrastructure connections and facilities to support active modes, such as bike lockups, as well as notes on the desire for public transit access, and enough parking. <i>“Please make sure that it will be easily accessible by active transport and public transit. Thanks for gathering community input!”</i> <i>“There should be ample parking and lots of shelters and easily accessible washrooms”</i> <i>“Pathways along Waverley are needed for people to be able to walk / bike there from South Pointe area...even if they are temporary for now till Bison Run/ Bison Drive construction is complete”</i>
Park space	
Ideas for park space/nature (5% of comments held this theme)	Participants provided suggestions for park space and nature facilities. This included a desire for native plants, walking paths, trees and shade, outdoor washrooms, a dog park, and the call to consider all seasons. <i>“Greenery should be included in the indoor & outdoor plans.”</i> <i>“Anything that promotes outdoor activity in all seasons - toboggan/skating, walking, playground, bbq and shelters.”</i> <i>“It would be great to have a place to go to for walks, various activities, and it would be within walking distance.”</i>
Community use and programming	

SOUTH WINNIPEG RECREATION CAMPUS

Appendix A – Survey Results

May 2022

Theme	Description and examples
Seniors (5% of comments held this theme)	There was a notable number of comments that showed interest in seniors' programming and the accessibility of the facility to ensure seniors could use it. They included comments on the desire for programming for all ages, affordability for those on fixed incomes, and inclusive design and programming that considers mobility. “Pembina Active Living (55+) would like to be able to use this space for our activities such as classes, meetings and parties during the weekdays.” “Would appreciate activities geared for seniors as well. A place for seniors to meet and socialize.” “Inclusive design and class scheduling - I now have mobility issues so I cannot walk too far to get to a room. Currently forced to miss chair yoga when the room is changed to one that has a lengthy walk. Recognize seniors and their needs. I would attend with my grandchildren if seating was available for me.”
Other programming (2% of comments held this theme)	Participants also offered other programming that they'd like to see, such as partnering with schools for programs, having early morning classes for kids, classes for specific ages, French classes, and more. “Offer women only aerobics, tween classes, senior workouts, disability activities” “The accommodations for accessibility are very important and the potential to work with the public school and partner with their programming is huge!!”
Accessibility	
General accessibility (4% of comments held this theme)	Participants expressed a general desire for a welcoming, inclusive, and accessible SWRC that is open to all community members and offers a wide variety of amenities and design features, that serve as many community members and groups as possible at all times of day and in any season. <i>“Inclusivity for all abilities and disabilities and lots of natural light very open spaces plants inside and out. Water feature. Open and inviting.”</i> <i>“Please include the disabled and seniors, disadvantaged and immigrants.”</i> <i>“Please make this as open and available to the public as possible. Many opportunities to do different activities. A place with plenty of space for different sports and activities.”</i>
Affordability (3% of comments held this theme)	Although outside of the scope of this particular engagement, participants shared a strong desire for programming within the new SWRC to be affordable, emphasizing the importance of recreation, fitness, and community programming. <i>“Needs to be low cost (free outdoor amenities), multi-use.”</i> <i>“Recreation is very important. We will not go if it is too expensive or too crowded. We will go elsewhere in that case.”</i>
Physical accessibility (2% of comments held this theme)	Participants indicated a strong preference for a facility that is physically accessible in all respects. This includes ample parking, accessible washrooms, gender-neutral change rooms, and consideration for people with disabilities and seniors.

Theme	Description and examples
	<i>“As a parent with a young daughter that requires the use of a wheelchair, I would really like to see many opportunities for her to use the facility. That it’s extremely accessible and easy to get around so she feels welcomed and part of the community.”</i> <i>“There should be ample parking and lots of shelters and easily accessible washrooms.”</i> <i>“Accessible washrooms and parking are essential as are areas with terrain that is manageable for seniors or people with health or mobility challenges.”</i>
Concerns	
General concerns (7% of comments held this theme)	Participants noted general concerns, such as them living too far from the site, the quality of potential maintenance and upkeep, and where the money for the project is coming from. <i>“Is great to know we will have more space in city for leisure. Would be great to pay not too much for that and also do not have to spend hours in a on line line to get a spot.”</i> <i>“City funds should go towards maintaining existing community centres rather than contributing to urban sprawl.”</i>
Other areas of the city need facilities (6% of comments held this theme)	Participants noted that recreation centers should be built or repaired in other areas of the city. <i>“I hope to see a space like this created on the north side of the city.”</i> <i>“Not sure we need any new recreational sites. Lots of old ones need upgrading first. Spend more in areas that have been neglected and where taxes have been paid for many many years.”</i>

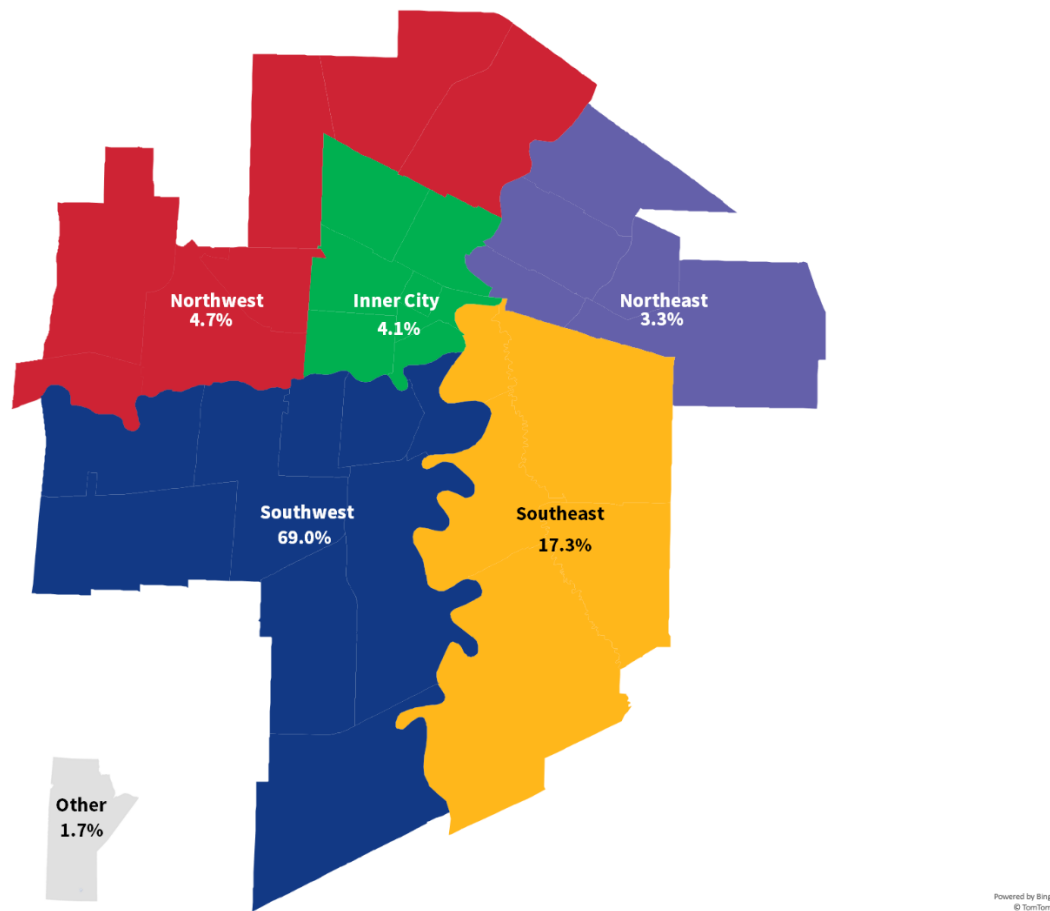

* **‘Other sports-related amenities’** theme from the above table included the following suggestions:

1	This place should not be built with city money; CoW can't afford to operate current rec centres let alone build new ones - they will suffer significantly if this one cannibalizes funding. There's already a huge fancy gym in that neighbourhood.	12/12/2022 10:58 PM
2	Keep activity participation costs low.	12/12/2022 9:22 PM
3	An indoor hockey arena is an absolute must. The existing arenas in the area are full and are decrepit	12/12/2022 9:19 PM
4	While I appreciate programming needs to be cost recovery based, I would like to see some aspect of the Center to be free access to the public such as the indoor walking and running track, space to meet friends for coffee, etc. not everyone will have the funds or time to commit to a planned sports program. The Center needs to be functional and useable to all in some physical and recreational aspect without a fee for all to enjoy	12/12/2022 6:31 AM
5	pls complete the bike paths connecting to IG field asap. pls incorporate trees/forest in pathways. pls provide proper wind barriers for tennis courts and high quality surface.	12/12/2022 4:33 AM
6	An outdoor public pool with waterslides	12/11/2022 6:27 PM
7	An off leash dog park would be wonderful	12/11/2022 12:10 PM
8	Please make sure that it will be easily accessible by active transport and public transit. Thanks for gathering community input!	12/11/2022 10:42 AM
9	No	12/11/2022 10:24 AM
10	Sidewalks need to added down Waverley if this site is supposed to be available to those that live in Richmond West and Waverley West.	12/11/2022 10:02 AM
11	Geothermal was part of the original concept for our neighborhood and it was heavily marketed at the onset. This did not come to be. Adding some sustainable elements would be important in my opinion.	12/11/2022 9:43 AM
12	I'm very disappointed hockey rinks weren't factored into this plan. When walking through the neighbourhood and talking to community members at my kids' hockey/soccer/dance practices, it seems to me the two sports facilities THIS NEIGHBOURHOOD NEEDS most right now are CRICKET PITCHES AND INDOOR HOCKEY RINKS. With Altea Activ so close by, and Lindenwoods and Jonathan Toews a short drive away, another plain old gym seems redundant. Hockey & ringette families all over the city are fighting to get ice time, sometimes having to travel out of town to access it. And every time I walked my puppy through Sandusky Park this spring/summer/fall or took my daughter to spring soccer at Bonnycastle, the baseball diamonds were being used for cricket every time! Gateway, Seven Oaks, Southdale and Jonathon Toews have great facilities with a combination of indoor rinks and gym/indoor field space - would have been nice to see something like that in the Southwest as well with a state of the art cricket pitch outside - even just one rink plus a gym or an indoor area for indoor soccer/baseball/cricket with a walking track around the top like at JTCC would have been perfect.	12/11/2022 9:41 AM
13	South Winnipeg needs a multi-use facility with an ice rink (preferably two) and have a multi-use facility like other areas of Winnipeg have (Seven Oaks is a prime example). This is a major part of people's sporting activities of all ages and multiple ice sports. Very frustrating to see how much development and increased tax revenue for the City and we continue to have to use dated facilities that exist in South Winnipeg. Ice rinks should be in Phase 1 and not in later phases.	12/11/2022 9:35 AM
14	This is a great addition for the area. Hope it can serve the large population in this area	12/11/2022 9:15 AM
15	Facility should include IT and interactive social media/platforms for information on	12/11/2022 9:06 AM

South Winnipeg Recreation Campus Survey

programming, events and updates. Needs to be clean and maintained for health of users I.e no touch sinks, auto flush toilets, sanitizing stations/dispensers and include environmentally friendly options - lights, low water use for toilets etc

16	No	12/11/2022 8:59 AM
17	Multiple rinks for ice hockey. In the area we rely on several outdoor rinks, Silverstone, Century (showing its age and small, built in 60's), and St Norbert (removed outdoor rink for farmers market parking). If serving 120,000 people and designs for future, need this indoor facility due to climate change. Many Winnipeg rinks coming to end of lifecycle (Grant Park, Maginot).	12/11/2022 8:38 AM
18	I suggest that if there are several buildings that they be interconnected for access by people because the winters are harsh. Please provide enough parking, close to the buildings, with electrical receptacles, because winters are harsh. I would like to see a project that meets the needs of the residents, and not an impractical, unusual, eye-catching experiment, and not a monument to some architect. I like indoor spaces that absorb sound and don't amplify echo, so no large flat concrete walls, etc. Please design for sound absorption inside the buildings and not reflection. I like brick, attractive stone, and wood finishes inside, not bare concrete or blank white walls. I like warm colour tones, not all white and not a mish-mash of colours throughout the space. A colourful space for small kids is nice. I like soft seating with backs, and not plastic furniture, and not modern uncomfortable bench-style furniture. Let's make the campus a warm, comfortable location and not an interior-design show.	12/11/2022 8:32 AM
19	This is a great idea and not putting up another shopping or living space!	12/11/2022 7:00 AM
20	My main interests are the indoor walking track, pickle ball.	12/11/2022 5:17 AM
21	A seniors satellite centre.	12/11/2022 12:12 AM
22	Extremely important for an indoor ice rink facility. It's absolutely of upmost importance.	12/11/2022 12:08 AM
23	Nothing just finish the project before my kids grow up..so we can be a part of it..😁	12/10/2022 9:27 PM
24	It's crazy there isn't going to be an arena for hockey. St Norbert and Fort Richmond are totally inadequate compared to Gateway, Seven Oaks complexes. Plus an indoor soccer field should be a must. Forget the gym- good life, Orange Theory and Altea are all within 5 mi nutes of this new complex, we are well served with gym facilities.	12/10/2022 9:26 PM
25	Sauna	12/10/2022 9:19 PM
26	Secure lockup area suitable for safely storing bikes with quick release seats and wheels.	12/10/2022 9:17 PM
27	More winter activities	12/10/2022 6:01 PM
28	I really hope this isn't replacing the rec centre that was suppose to be built in bonavista. This area has nothing and needs community spaces	12/9/2022 5:11 PM
29	It's great that south west Winnipeg is getting this centre, but south east Winnipeg has very few recreation services and also needs attention	12/9/2022 4:37 PM
30	A community centre should be zoned for Bonivista	12/9/2022 2:24 PM
31	All of the questions in this part should have an option for "It is unlikely I will be able to get to the sit as it appears to be located in one of the worst areas for public transit	12/9/2022 12:32 PM
32	Any plans for a pool?	12/8/2022 11:28 PM

41	Hockey rink, water features in summer, toboggan area all an extreme must an necessity	12/4/2022 10:38 PM
42	Q9 didn't allow me to choose more than 1 option. As a parent I would it for my own week day exercise and kids activities, that question didn't allow me to respond Current there's a fight for diamond space between cricket and baseball something I'd like to see improved through this facility. Also outdoor hockey rink for kids to walk to.	12/4/2022 7:15 PM
43	Calgary Village Square should be our model	12/4/2022 6:38 PM
44	Please add space for retail businesses to rent or lease. It would be nice to have a coffee shop and a small restaurant on site.	12/4/2022 5:31 PM
45	Answer to question 9 is in the spring/fall/winter: evenings during the week and weekends all day and evening. In the summer, could be any time	12/4/2022 3:58 PM
46	Please make the buildings look more attractive like American architecture! None of this modern edgy ugly buildings. I don't like going to leisure activities in such buildings. Please keep weeds away and plant flowers!	12/3/2022 6:37 PM
47	Really need more ice time options four south Winnipeg hockey league	12/3/2022 11:22 AM
48	I would like to see a Fitness Facility similar to the 2nd level at Cindy Klassen Rec Complex.	12/3/2022 10:30 AM
49	A recreational swimming pool would be great.If possible would locate the fire station in other place of the city, as it is in contrast with the quite and safe family environment.	12/3/2022 8:49 AM
50	Speedy development please	12/3/2022 8:13 AM
51	Thanks	12/3/2022 7:35 AM
52	Great initiative, keep it economical or almost free. Winnipeggers need free entertainment. Find good sponsorship. I was in California in 2004, enjoyed a facility Clay Madison, it was open from 6 am till late night , I think mid night. If you don't have a racquet they lend you one or a ball or helmet. Only charged \$10 a month for family membership. Keep sports free and make money on events, advertising, programs, trainings etc.	12/3/2022 12:42 AM
53	Indoor play structure for kids would be wonderful. Padded (?) Walking loop, easy on the knees for older people.	12/2/2022 9:30 PM
54	We would really love a swimming pool with water slides. Something like the leisure center in South Calgary.	12/2/2022 6:19 PM
55	Nice project, Thanks	12/2/2022 2:06 PM
56	In addition to these plans, please consider adding a tennis/pickle ball court to South Pointe and a pleasure skating rink.	12/2/2022 1:00 PM
57	Not real convenient for older people over Pembiba highway way	12/2/2022 9:15 AM
58	I'm currently using the RKCC on a regular basis, I don't want to lose that facility since it is very handy for my established neighborhood and driving time is minimal.	12/2/2022 9:07 AM
59	I am old so hope it gets going while I am alive!	12/2/2022 9:01 AM
60	Iam very excited about the possibility of have this facility so close to my home!	12/2/2022 8:28 AM
61	Wish there was a swimming pool with classes for seniors	12/2/2022 8:22 AM
62	Shade is very important. Work with sports and activity organizations to insure that the buildings serve more than a single activity.	12/1/2022 11:19 PM
63	Please remember to put a table tennis board.	12/1/2022 10:32 PM
64	Take this opportunity to ensure everything is thought through in advance so no one looks back with regret or frustration that important details were afterthoughts.	12/1/2022 9:44 PM
65	Such a large hockey community, we need indoor and outdoor hockey rinks	12/1/2022 9:09 PM
66	The city should hold a referendum to decide if this should be built.	12/1/2022 7:44 PM

68	Hockey	12/1/2022 3:02 PM
69	More group fitness classes either through leisure guide or private classes ie zumba, also allow dogs on the grounds of the facility.	12/1/2022 2:24 PM
70	An affordable indoor walking/running track is needed for residents to remain active through our long winters.	12/1/2022 12:12 PM
71	Online sign up availability.	12/1/2022 11:37 AM
72	make it a community centre not just a place for sports to happen	12/1/2022 10:13 AM
73	no	12/1/2022 9:58 AM
74	Affordable squash courts.	12/1/2022 9:46 AM
75	This is Winnipeg - why is there no thoughts being put into hockey rinks at this facility? Very disappointing to me and my family. Everything else is nice but come on hockey is #1. Bridgwater should be building public rinks and setting up a minor hockey association clubs. I don't want to be driving my kids out to Fort Garry or elsewhere to play for their "home" club.	12/1/2022 6:55 AM
76	Buildings need a lot of glass for natural light and lots of trees and green space to create a park like experience	12/1/2022 6:23 AM
77	This is missing the mark if there are no ice rinks. Silverstone is grossly too small of a rink for anyone over 10 years and St Norbert is falling apart. There is not enough ice for our community.	12/1/2022 6:04 AM
78	It will be important to include a different sports space than the usual ones that are available on other community centres, like basketball indoor and outdoor rinks, but offering the community a space for other sports like soccer and football that children only have the opportunity to play them in summer due to space issue	11/30/2022 11:37 PM
79	Seems wasteful when there are many derelict community centres in Winnipeg and we are building a mega one for a new suburb.	11/30/2022 9:42 PM
80	As a senior on a fixed income I am looking for ways to get out, especially in winter. I like to be active but everything is far away or costly.	11/30/2022 9:31 PM
81	A skating pond or skating trail would be very popular. Skating rinks for hockey players are plentiful but a family recreation pond in this area of the city would be very helpful.	11/30/2022 9:17 PM
82	Really hope theres goin to be a lot of green spaces throughout the facility	11/30/2022 9:12 PM
83	It has to be clean, well lit and SAFE (no loud and rude gatherings of people yelling loudly).	11/30/2022 9:07 PM
84	You didn't ask any questions about the proposed child care centre. That's my primary concern	11/30/2022 3:49 PM
85	These sprawl neighbourhoods should be forced to pay a much higher level of taxes in order to refund or at least offset the subsidies they receive from taxpayers in older, more central neighbourhoods. City council's insistence on car-centric, high-cost, sprawling development has bankrupted the city, and yet all they can think of is 'more' and then put out surveys asking residents how they'll use services they can't access. Good going.	11/29/2022 6:02 PM
86	I feel that it is unfortunate that the city is building such a facility in the burbs while they let facilities in the core fall apart or get decommissioned e.g. Norwood Pool.	11/29/2022 4:27 PM
87	Un espace beau avec une petite mosquée ou faire la prière 😊	11/29/2022 3:04 PM
88	This city really needs a new aquatic facility	11/29/2022 2:16 PM
89	Baseball Fields are in much need in this area. 18u (full-sized) field with a turf infield for Challenger baseball would be ideal. Baseball Manitoba and the Winnipeg Goldeyes Field of Dreams could support this. Jason Miller - Executive Director, Baseball MB	11/29/2022 12:05 PM

South Winnipeg Recreation Campus Survey

Winnipeg there is a significant shortage of outdoor pickleball courts. I believe 8-12 courts should be included within Phase 1. I am certain they will be busy daily with local players and recreation seekers

93	We need a multi ice rink facility. Hockey teams struggle to get enough ice. The rinks in the south are very old and need updating. We could also use more rinks	11/28/2022 9:11 PM
94	We need indoor hockey arenas, south Winnipeg has yet to get new arenas	11/28/2022 8:37 PM
95	So far from everything. How do you plan to deliver public to this facility? Parking lots better be designed for high traffic situations.	11/28/2022 8:00 PM
96	there has to be something for people with mobility issues.	11/28/2022 5:40 PM
97	Looking forward to opening date!!	11/28/2022 5:32 PM
98	You are insane for building this in the suburbs. There is heaps of space downtown.	11/28/2022 4:32 PM
99	As a parent with a young daughter that requires the use of a wheelchair, I would really like to see many opportunities for her to use the facility. That it's extremely accessible and easy to get around so she feels welcomed and part of the community	11/28/2022 4:00 PM
100	All the pictures shown demonstrate a huge waste of space, architectural influences that satisfy other requirements than sporting. I would like to see, a plain practical building with good services rather than an expensive one with limited hours,staff, and uses. Keep the setting generic and adaptable and don't litter the site with one option or structure after another. Over development is always the bane of every city project and serves to drive people away from everything the city makes.	11/28/2022 3:41 PM
101	I'd love to see a space downtown where residents could access indoor public space to be able to participate in their community. To be a part of community groups, residents associations, public meetings to talk about common issues and to gather for recreation and to build community relationships. Portage Place offers the ideal space for these activities. I'm glad to see that residents of south Winnipeg will have these civic amenities, but I'm concerned that people living downtown are left behind and the quality of life is diminished. I'd like to see equal access to municipally funded amenities.	11/28/2022 2:27 PM
102	Hire a counsellor to provide community support, have conversation with family and new immigrants. Provide resource center.	11/28/2022 2:13 PM
103	Not sure we need any new recreational sites. Lots of old ones need upgrading first. Spend more in areas that have been neglected and where taxes have been paid for many many years.	11/28/2022 1:54 PM
104	What about a pool, Margaret Grant is definitely inadequate for southwest Winnipeg population. Keep membership low for families and seniors.	11/28/2022 12:49 PM
105	Merci pour me demander mes opinions. Merci aussi pour construire selon les besoins de la communauté.	11/28/2022 9:33 AM
106	It should not be focused on one sport. There needs to be ample parking. It should be big enough to include multiple sports at the same time. It should have a lot of natural light with lots of windows. Modern and bright	11/28/2022 12:38 AM
107	Mirrored walls in MPRs,helpful for classes such as yoga,barre etc. Audiovisual equipment,screens for classes.Accessible.	11/27/2022 6:57 PM
108	It would be great to maximize use of the space with a varied offer of classes for kids (ice skating, martial arts, tennis, swimming, crafts).	11/27/2022 1:54 PM
109	I am a senior, so some activities listed are things I can't do. This doesn't mean I wouldn't like them for younger people.	11/27/2022 11:49 AM

127	Work with community based organizations to help plan and run activities	11/26/2022 10:03 AM
128	I would love to see hearing loops installed in the public spaces such as the possible meeting rooms, reception counters, auditoriums, etc. the loops would make the facilities hearing accessible. The Canadian Hard of Hearing Association-MB Chapter has information on loop systems	11/26/2022 10:03 AM
129	Looking forward to this facility	11/26/2022 9:48 AM
130	I would visit days, evening or weekends often however #9 only allowed 1 option	11/26/2022 9:23 AM
131	Please have a space for cheerleading events, we need a space for a stage, height for stunts, and seating capacity for competitions	11/26/2022 9:18 AM
132	The accommodations for accessibility are very important and the potential to work with the public school and partner with their programming is huge!!	11/26/2022 5:54 AM
133	Ballet dance classes	11/25/2022 10:19 PM

135	Please consider a project with geothermal heating/cooling and possibly allow other buildings in the neighbourhood to benefit from a geo-system (which should be a requirement for all new city subdivisions).	11/25/2022 11:12 AM
136	Wonderful to see a new community centre in Winnipeg	11/24/2022 11:24 PM

140	A community centre for Bridgwater, Prairie Pointe, South Pointe and Bison Run is needed. It would be great if this could be that. Our children need community hockey, soccer, basketball teams etc. and a facility for them to run out of.	11/24/2022 4:43 PM
141	Please include swimming in one of the phases!	11/24/2022 4:12 PM

142	I think the winter outdoor activities need to be included as our winters are long and the winter outdoor activities need to be considered and prioritized.	11/24/2022 2:29 PM
143	This facility should partner with the new schools and be accessible for school programming during school hours.	11/24/2022 1:30 PM
144	The City of Winnipeg Recreation and Aquatic Services should be in charge of running the facility as they do a phenomenal job in running other leisure centres. The building should always be a public place that is good for the community and citizens.	11/24/2022 1:24 PM
145	geocaching area spots would be great, attraction for birds and other animals, specified dog areas	11/24/2022 12:49 PM
146	Pathways along Waverley are needed for people to be able to walk / bike there from South Pointe area...even if they are temporary for now till Bison Run/ Bison Drive construction is complete	11/24/2022 10:44 AM
147	I noticed the 'Future Transit Route' on the map above. A humble request to the relevant authorities: It would be a great relief if you could somehow link the proposed bus route to the Community Masjid at 2445 Waverly Street. It will be a great convenience to many people who come here from all over the city. ❤️ (Many would argue that there is already a bus stop on John Angus Drive. The problem arises in the winter when the sidewalks are snowy & slippery to get to the Masjid from that distance.)	11/24/2022 9:54 AM
148	I hope there will be native plantings on the site, shaded paths, and a beautiful structure.	11/24/2022 8:47 AM
149	Be sure to include enough dollars in the annual budget to allow the project to be well maintained In terms of cleanliness and good repair for the long haul.	11/24/2022 8:30 AM
150	Smoking should be perhibited on premises	11/24/2022 12:36 AM
151	Indoor skating rinks should be a priority. They have the ability to be used for not only hockey but also ringette, figure skating, learn to skate classes, and friends and family skates. Most other areas of the city have amazing multiplexes that include multiple rinks. The ice rental can also provide a sustainable return on investment.	11/23/2022 9:35 PM
152	A nice addition would be supports for people facing difficult life challenges such as homelessness, addiction ect. It would also be nice to see architecture that is not hostile or anti homeless, I would love to see outdoor spaces where unhoused people can take shelter and keep warm.	11/23/2022 6:01 PM

154	No thank you.	11/23/2022 4:41 PM
155	Hope that availability of washrooms and all-ages accessibility will be taken into consideration as part of both indoor and outdoor space designs.	11/23/2022 3:40 PM
156	Please make space for cheerleading. We need a space with tall ceilings for our sport.	11/23/2022 1:26 PM
157	please consider people with (walking) disabilities; they need parking and seating, e.g. benches outdoors	11/23/2022 1:21 PM
158	We need a hockey rink with at least 2 sheets of ice and it has NOT been mentioned - why not?? Very necessary especially with the money the campus is receiving!!	11/23/2022 8:12 AM
159	Fuck this. If the developers who are hitting our city's core in favour of this environmentally disastrous suburb wanted to build a rec centre they should have included it in their plans. I'm tired of suburbanites demanding and getting their suv-only accessible publicly-fed McMansion add-ons	11/22/2022 11:57 PM
160	Very Exciting news	11/22/2022 11:38 PM
161	Yes, this is not a central location and not accessible by many Winnipeggers. If the city is going to invest in the south, the north also deserves to have new investments	11/22/2022 8:51 PM

167	Please add a labyrinth. They are so beneficial to mental health.	11/22/2022 5:37 AM
168	No	11/22/2022 12:42 AM
169	Please put in an indoor and outdoor track. I think a lot of people would use it.	11/21/2022 10:00 PM
170	I wish the pool would be prioritized.	11/21/2022 7:50 PM
171	Thanks for all the services you provide.	11/21/2022 4:44 PM
172	I think this city has enough gyms in this area and not enough ice rink facilities. Everyone is always complaining that they cant get ice when they require it because of lack of rinks in this city. A fourplex rink like the ice plex would make a lot of revenue for Winnipeg	11/21/2022 2:43 PM
173	AT Routes are awesome, but please provide secure, indoor bike parking. It makes such a difference.	11/21/2022 11:37 AM
174	No	11/21/2022 11:35 AM
175	I would like a pool and a hockey rink	11/21/2022 11:18 AM
176	It is unfortunate that the city is putting all this money into a new facility when the existing sites are old and run down. Refurbishing the existing sites would do a lot to support the established neighbourhoods in the city and help residents feel more connected and safer at a time when we are dealing with numerous social issues.	11/21/2022 11:14 AM
177	Outdoor hockey rink	11/21/2022 10:36 AM
178	I wish this was being built in the south east - the west already has great amenities. What about Sage Creek, Bonna Vista and Island Lakes, we don't even have a community centre.	11/21/2022 10:26 AM
179	facilities in central areas are needed all seasons and are missed when closed	11/21/2022 10:18 AM

182	indoor skate park. bike paths.	11/20/2022 9:18 PM
183	Please support inner city projects where kids don't have anywhere else to play, unlike Waverly west where they all have yards.	11/20/2022 9:00 PM
184	We need new hockey rinks in the south end.	11/20/2022 7:54 PM
185	nothing to add	11/20/2022 6:30 PM
186	Need more winter activities to do in south west. Can't make ice rinks on lakes behind houses so it'll be nice to have ice at the community center	11/20/2022 6:20 PM
187	7,8,9 ana10 are all I will not go. Not unsure.	11/20/2022 1:51 PM
188	I have checked unsure for all of these, as I believe we should be spending money fixing inner city rec centres rather than building new ones.	11/20/2022 1:41 PM
189	Please fund existing infrastructure and rec programs and facilities (that are underfunded, being closed, or have operations/programs halted) consistently and predictably before new facilities are built in suburbia.	11/20/2022 11:16 AM
190	Hope to see outdoor pickleball courts!	11/20/2022 11:12 AM
191	Excellent positive concept. Necessary	11/20/2022 10:44 AM
192	please fix what is broken, first, before building new. I would like to attend cindy klassen. I live in city centre.	11/20/2022 10:40 AM

South Winnipeg Recreation Campus Survey

194	Please include a skating rink, there's nothing close for lessons and leisure skating in our area	11/20/2022 9:44 AM
195	Pickleball courts	11/20/2022 9:40 AM
196	Invest in maintaining inner city rec centres	11/20/2022 7:43 AM
197	Ensure you have a budget for maintenance of the grounds	11/20/2022 1:57 AM
198	Needs to be accessible to all economic classes and races, not just rich white people in the suburbs.	11/20/2022 1:35 AM
199	Please do whatever possible to make an active street front on Bison Drive. Also, can we see plans and renders of the recreation campus please.	11/20/2022 1:35 AM
200	Why doesn't Sage Creek get anything. We pay so much tax but get nothing built.	11/20/2022 12:01 AM
201	Wpg City Center needs attention, not suburbia. Cindy Klassen for example as well as the other library and community Center closures	11/19/2022 11:06 PM
202	Why is this complex even being considered when the city cannot afford to maintain existing recreation infrastructure? Pools and libraries are closed, for example, in the old neighborhoods of the inner city - as there is NO money to pay for maintenance and to properly pay staff at existing facilities. For example, soccer fields are only cut once or twice in the summer and are almost unplayable for much of the summer due to long grass and weeds. So how will this new facility be maintained when we cannot maintain and support what we already have?	11/19/2022 10:08 PM
203	I live in the West End. Cindy Klassen Rec Centre has been shut for months. There's no spray pad in the West End. The wading pool by my house (Downing) has been closed the last several summers. But I guess the people in the new wealthy suburbs deserve brand new beautiful spaces while we have shit here.	11/19/2022 9:44 PM
204	You should build it in the north end of the city. I'm so tired of all the new builds in the south side and the north is forgotten.	11/19/2022 7:50 PM
205	Electric vehicle charging	11/19/2022 7:21 PM
206	Accessibility to reliable public transportation	11/19/2022 7:16 PM
207	Low cost programs for low income families would be nice	11/19/2022 6:34 PM
208	Consider fenced in small dog park. Steinbach has a great one. Small dog and larger dog options. Lots of dogs in this area.	11/19/2022 6:13 PM
209	I would like a space that builds off the idea of holistic wellness, community, and entertainment. I think the combination of those 3 things is very appealing to many folks.	11/19/2022 6:05 PM
210	None at this time.	11/19/2022 5:28 PM
211	Yes. This should not be built. When existing centres, especially in the core, are under constant threat of closure, or there are not enough resources to support programming, why are we expanding? Especially in an affluent area that contributes to urban sprawl in the worst possible way, with residents who can drive elsewhere for recreation, and who also can afford private memberships. In hke disagreement with this being built.	11/19/2022 4:44 PM
212	It is audacious to build these while rec facilities are crumbling all over the city. Existing neighborhoods can access rec facilities this just encourages more southern sprawl.	11/19/2022 3:46 PM
213	Would visit evgs w spouse, weekends w family	11/19/2022 3:26 PM
214	Cindy Klassen, Sherbrooke such low standard, old and unattractive, and this is getting built in the burbs. Mind boggling! Without pools, no swimming lessons, no training to lifeguards and instructors, so why build pools when no one is qualified to work there.	11/19/2022 3:16 PM
215	Answer to number 10 dependent on what is made available.	11/19/2022 2:19 PM
216	The city cannot find enough staff to reopen the Cindy Klassen rec centre and pool which already exists and we have paid to upgrade. Why is the city wanting to build another rec centre that it will not be able to staff or maintain? Please just work on providing services in the facilities we already have.	11/19/2022 1:23 PM
217	You should have an indoor rink in your plans. As a coach, it is clear to me finding ice is tough.	11/19/2022 12:46 PM

221	Nope	11/19/2022 11:38 AM
222	There is no place for adults who are not retired to play pickleball. It is the fastest growing sport in the world. Would love to see evening and weekend slots available ton play.	11/19/2022 11:16 AM
223	No one save people in that area of the city will use this facility. Meantime amenities like these are being shut down in my neighbourhood and basic repairs are being delayed. How can the city do this when its shutting libraries and pools in downtown neighbourhoods? It's criminal.	11/19/2022 10:57 AM
224	Please stop subsidizing sprawl wirh taxpayer funds.	11/19/2022 10:49 AM
225	Please read Ryan Thorpe's excellent article on Winnipeg's History of 'planning.' It was published on October 21, 2022, in the Winnipeg Free Press. It's title is "Flawed to the core."	11/19/2022 10:20 AM
226	We have so many pressing issues in this city - addiction, homelessness, not feeling safe on city buses and existing rec centres unstaffed, in disrepair and closed. This is NOT a priority	11/19/2022 10:13 AM
227	The city needs to build more ice rinks, we live in Canada and ice rinks are not mentioned in this plan is a farce.	11/19/2022 9:06 AM
228	We need more Indoor skateparks in the city We only have one and it's being run by a religious group that doesn't except other groups of people.	11/19/2022 8:55 AM
229	Consider a space for cheerleading, growing sport with a lot of difficulties for the athletes to find a venue for competitions and/or presentation. Every sport needs support!!!	11/19/2022 8:54 AM
230	Please have a new facility built. Thank you	11/19/2022 6:33 AM
231	Just do it!	11/19/2022 6:29 AM
232	Please provide this type of facility in St. James.	11/18/2022 10:33 PM
233	I won't likely go, since it's ON THE OTHER SIDE OF THE CITY. The other half of Winnipeg desperately needs development, and yet ALL the new development and investments go into the south end. Why? Maybe the other half of the city should get a tax rebate since all our tax dollars go into making the south end ritzier. Come on, city planners - do your job and make the north half of the city just as appealing. It's pathetic how our city just invests in the "south end". Very narrow minded and short sighted. Get a grip.	11/18/2022 10:16 PM
234	- Outdoor washrooms would be nice	11/18/2022 9:57 PM
235	I could choose many options on Number 9 questions	11/18/2022 9:43 PM
236	It would be great if it was accessible through bike paths and well lit to ensure safety	11/18/2022 9:35 PM
237	Having indoor ice, possibly a 4plex would be ideal. In summer two sheets could be for basketball, pickleball etc.	11/18/2022 9:35 PM
238	I live in River Heights. The SWRC is too far for me to visit.	11/18/2022 8:40 PM
239	Curling rinks would be nice	11/18/2022 7:57 PM
240	I think this a waste of money	11/18/2022 7:45 PM
241	If the city was smart, they would be sure that there is a good transit system to get there so accessible to everyone and not just those that have a car. Winnipeg needs better transit everywhere.	11/18/2022 7:08 PM
242	The community needs rinks for hockey. Preferably 2 indoor ice sheets, one outdoor sheet in the winter. Ice trails for skating in the winter is also fun.	11/18/2022 6:26 PM
243	Indoor Pickleball courts (not on a gym floor) as this is a very fast growing sport and will be likely very, very popular among many age groups by the time this is finished. Currently Pickleball is typically offered during the day and usually only to seniors. Would like to see this offered outside of working and school hours to all age groups (we are mid-30s)	11/18/2022 6:08 PM

245	None.	11/18/2022 3:02 PM
246	Food & beverage kiosks	11/18/2022 2:43 PM
247	Adequate washrooms	11/18/2022 2:39 PM
248	Outdoor rinks for the kids (muck like the waverley location) so many teams can play.	11/18/2022 2:36 PM
249	Add summer job/volunteer opportunities to youth ages 12 plus	11/18/2022 2:35 PM
250	Pembina Active Living (55+) would like to be able to use this space for our activities such as classes, meetings and parties during the weekdays.	11/18/2022 2:00 PM
251	No	11/18/2022 1:59 PM
252	Public transit access is important. As is active transit routes/bike routes. Consider trendy pop-ups to increase the desirability to visit the outdoor space (see: The Cargo Bar @ Assiniboine Park, The Beer Can @ the Granite Curling Club). Pricing is also important--Active Living Centre @ the U of M is nearby and is very affordable for alumni.	11/18/2022 1:23 PM
253	Our hockey rinks are falling apart. Do we need another fitness facility in SW?	11/18/2022 12:39 PM
254	The facility should be clean and state of the art with well-kept grounds and facilities. It should be a welcoming place for all that want to come.	11/18/2022 11:25 AM
255	I don't live close to the new facility - I live in Whyte Ridge. Therefore I would use it only if there were specific events occurring - such as pickleball, or if I was cycling, etc.	11/18/2022 10:47 AM
256	Please pay attention to the lack of safe fenced dog parks in the south.	11/18/2022 10:39 AM
257	I wpuld like to see splash pads, sk8parks, playgrpund, anything to keep kids active	11/18/2022 10:36 AM
258	Swimming pool	11/18/2022 10:15 AM
259	Can't wait for it to be build!	11/18/2022 10:06 AM
260	Indoor water activities desired.	11/18/2022 9:58 AM
261	Phase 1 seems to be geared towards adults or young children. There is nothing in the area for the elementary school aged and young adolescent group and that will continue with proposed Phase 1. Why not include outdoor skating rinks, why are the athletic fields, outdoor leisure space, arena, etc... pushed to future phases? In the meantime kids grow up in an area with nothing for them.	11/18/2022 9:36 AM
262	Many cheer squads and Rhythmic gymnastics (for stunts/throwing tge apparatus in gymnastics and stunts in cheerleading) require a high ceiling. This accommodation would be beneficial and necessary to accommodate these wonderful sports. Thank you !	11/18/2022 9:00 AM
263	Needs indoor skating rinks, indoor swimming pool	11/18/2022 8:29 AM
264	We should build an indoor Olympic size swimming pool on this campus	11/18/2022 8:08 AM
265	The way we currently run community centers with local volunteer boards can lead to small groups of cliquey self-serving individuals controlling the facilities. They need more oversight.	11/18/2022 8:03 AM
266	An indoor dog park would also be amazing and allowing Pliant Pack, or a similar dog training group access to train on site.	11/18/2022 7:55 AM
267	There needs to be a hockey rink	11/18/2022 7:02 AM
268	Please add water fountains to the area, as well as a no leash dog park.	11/18/2022 6:53 AM
269	With respect to Pickleball, cater the program to ALL levels of play with allowance for some mingling of skill levels by offering both ladder play and recreational play. A large part of this sport's participation comes from seniors on fixed incomes so structure the daytime fees, when the facility might be underutilized, accordingly.	11/18/2022 6:44 AM
270	Hockey rinks inside and outside	11/18/2022 6:22 AM

275	This isn't exactly an easy access spot for us so I can't say I would use it that much	11/17/2022 11:34 PM
276	Why so. Lose to the U of M? They already have a great facility.	11/17/2022 11:08 PM
277	A hockey rink would be awesome!	11/17/2022 10:50 PM
278	Please include a pool, we need more swimming lesson spaces and skating options	11/17/2022 10:16 PM
279	I have family in Calgary and their community centres there are AMAZING. State of the art with so many options of things to do. PLEASE it is time for Manitobans to have something like this to be proud of. Please make us an aquatic area and spray pad area that are better than the current offerings in the city that are crumbling!! Please see link below for amazing spray pad and pool at Cochrane Ab centre - https://www.travelalberta.com/ca/listings/spray-lake-sawmills-family-sports-centre-9751/ Also, a turf type or gym area with bouncy castles for kids / indoor playing is a must for cold days, please please please!!	11/17/2022 10:06 PM
280	Water slides please!!!! :))	11/17/2022 9:32 PM
281	Would use the facility on weekends depending what was available	11/17/2022 9:26 PM
282	Transit service is a concern. Needs to be all day, every day, seven days a week. Buses should not more than 20 minutes apart.	11/17/2022 9:18 PM
283	A playground with no wood chips or gravel would be nice.	11/17/2022 9:09 PM
284	We desperately need another rink in the south end, Ans more swimming spaces	11/17/2022 8:13 PM
285	Frequently scheduled bus transportation to and from the facilities from Linden Woods would mean that I would use the space significantly more. Active transportation paths to and from Linden Woods would also be important.	11/17/2022 8:04 PM

290	It needs to be on a site that is at least 8 times bigger (at least 100 acres) than has been proposed. Must be able to match West St. Paul, the fields in Transcona,	11/17/2022 6:44 PM
291	Swimming pool!	11/17/2022 6:09 PM
292	With the growth of pickleball, dedicated pickleball courts would be best.	11/17/2022 5:58 PM
293	swimming facilities should be in earlier phases of the project	11/17/2022 5:46 PM
294	Dont compete with altea, orange theory, GoodLife...99 percent of people in the area can afford to pay for those amenities if they are important to them. City is responsible for community based access for rinks, recreational space and leisure guide activities	11/17/2022 5:44 PM
295	A pool	11/17/2022 5:33 PM
296	Time of year visited will depend on amenities. Soccer, baseball fields, then summer for sure. Hockey rinks, lots of time there in winter	11/17/2022 5:29 PM
297	Please we need a swimming pool in the neighborhood	11/17/2022 5:26 PM
298	More swimming lessons are needed	11/17/2022 5:14 PM
299	Unsure whether I would go to this location as the Fort Rouge leisure Centre is closer to me though it does sound like this new place will be much nicer.	11/17/2022 5:00 PM

304	a toboggan hill would be great	11/17/2022 1:39 PM
305	Indoor soccer field and tennis courts would be wonderful in this part of the city. Thanks!	11/17/2022 1:18 PM
306	We need 2 indoor ice rinks. The existing rinks are fully booked and we are leaving the city to buy ice time.	11/17/2022 1:03 PM
307	I would likely be there 5-7 mornings a week including weekends.	11/17/2022 12:41 PM
308	Please add outdoor hockey rinks	11/17/2022 12:34 PM
309	This type of centre is essential to core health and well being that is part of health promotion and healthy communities. We all need to take active steps and action ensuring these centres exist and are maintained.	11/17/2022 12:17 PM

311	A trampoline area, and healthy food court affordable for families.	11/17/2022 12:06 PM
312	I likely would use indoor spaces less in the winter time due to cold/flu season; however if there was a state of the art air purifying system in place that would likely change things for me. I'd love for outdoor spaces to be made with the climate in mind. E.g skating areas need to have wind taken into consideration. We get really high winds on the edge of the city, so whether that's a good tree shelter belt with a skating path next to the trees, or shade structures built in the playground for kids and parents as weather is only getting hotter each year. Shade structures are needed when the trees will not give shade for several years. I'd love to see an outdoor water park that offers a swimming pool (with swimming lessons through the city), and splash pad so we don't have to drive outside our neighborhood to go swimming. I'm hoping the building will keep climate change in mind and have geo heating, solar panels etc both on use and on display to also educate the public. Similar to what fort whyte does where it's both outdoor recreation and a community education.	11/17/2022 12:01 PM
313	Glad to see that Winnipeg is creating this space. Let's make it available for all to use and not just Bridgewater residents.	11/17/2022 11:56 AM
314	South Winnipeg desperately needs more hockey arenas and indoor soccer fields.	11/17/2022 11:55 AM
315	If there is budget, an indoor skateboard park would be an incredible addition. The only 1 in Winnipeg is at Higgins and Main street which is a far away.	11/17/2022 11:54 AM
316	None	11/17/2022 11:42 AM
317	My answers assume the gym will accomodate a basketball court and therefore could be used for pickleball.	11/17/2022 11:13 AM
318	South Winnipeg is in dire need of indoor hockey rinks. Hundreds of families spend their money on hockey and in hockey facilities.	11/17/2022 11:11 AM
319	Looking forward to the space!	11/17/2022 11:07 AM
320	please have good running routes with washrooms and water fountains. also pickleball courts indoor and outdoor	11/17/2022 11:06 AM
321	We would love a go-to park with lots of options for children. If you are looking for parks to reference, we moved here from Ottawa and LOVED both Brewer Park and Brantwood Park - lots of families all over town would come. There were multiple play structures close to each other, which were geared to children of various ages. There were a couple of swing sets (including accessible options). At Brewer Park, kids loved the two levels of splash pads (upper and lower with a slide that would take you from the top to the bottom). A wading pool would be nice too. Having an area in the wading pool geared for toddlers is popular with mamas on maternity leave! Brewer Park has two large skating rinks set up in the winter, one circular and one with boards on the side for hockey. Nice bathrooms, shaded sitting areas with picnic benches, a large field space used for soccer and football and for kids to just run around and play. Nice walking and bike trails. Brantwood Park has a little forest area that my little guy loved to play in. We would love a place where families go often so you see the same kids and make friends! We don't have anything like that around here and we miss it so!!	11/17/2022 11:06 AM

340	Pls make sure it is accessible to people who don't drive, and think about the neighbourhood (very multi-cultural). It would be great if you could strike a balance between the so-called typical White people activities vs those enjoyed by the people who live in the neighbour. The design should also consider the LGBTQIA2S+ population, as the space (and it is designed) can perhaps educate immigrants about our values (i.e. diversity is not just about race). Please also ensure the space is not dominated by any particular groups, for example, Chinese from China pushing out Taiwanese and Hongkonger by claiming Simplified Chinese is THE Chinese language (when in fact Taiwan and Hong Kong still use the proper Traditional Chinese characters). Thank you!	11/17/2022 8:23 AM

344	This area really needs hockey and other ice sports facilities. I hope that is part of the next phase. I would think that with other indoor sports/activity centers already existing in the area we would be better off scaling back the phase 1 and spending more on phase 2 arenas where there can also be many of the same amenities as well.	11/17/2022 8:01 AM

play where weather will not be a factor. . For the senior games Selkirk had to split Pickleball courts between a curling rink and a church. Unused tennis courts around the city should also be looked at in other neighborhoods to turn one tennis court into 4 courts. It is absolutely needed to get more places to play and capture the interest in youth play. Young people are just getting involved in this sport Which is the fastest growing sport in North America. At this point people don't have places to play who want to play. It is a very non-expensive sport and social support to be involved in. This would be a great opportunity to help with peoples mental health and physical activity,

349	I live in Southeast Winnipeg. I get that it's called a South Recreation Centre but it is so far from my house that I will likely never see this building. It's crazy that I am included in this survey at all. Build a rec centre in Bonavista and my family will use that facility a ton.	11/17/2022 6:36 AM
350	Winnipeg is lacking indoor pickleball facilities for winter use	11/17/2022 6:35 AM

360	We need a space in the south end with an enclosed dog park area!	11/17/2022 12:53 AM
361	I think that you should have included more hockey in your survey. Hockey is a passion for this city and we can't forget who we are. Adding new Canadians cultural sports is important to our community. Replacing existing sports is unacceptable	11/17/2022 12:39 AM
362	Consider scent-free environment for asthma and allergies	11/16/2022 11:40 PM
363	We are really hoping for adequate facilities for cheerleading with higher ceiling	11/16/2022 11:27 PM
364	I would like some walking paths to welcome LEASHED dogs. I would like one room where owners could bring their dogs (one at a time) inside to warm up. If there is a washroom the leashed dog and owner should be allowed in a cubicle. Other community centres have a room for dog training and we need one. Training classes are needed.	11/16/2022 11:23 PM
365	Outdoor and indoor Tennis courts are needed	11/16/2022 11:11 PM
366	There is not enough indoor soccer field basically in the city. All indoor soccer fields are fully booked by soccer leagues so others do not have any choices especially on prime times like weekend or after work hours in winters.	11/16/2022 11:05 PM
367	Community pool for swimming lessons and leisure. There aren't enough spaces for enrollment and it is vital for kids (and adults) to learn to swim.	11/16/2022 11:04 PM
368	I prefer indoor pool like water park.	11/16/2022 11:03 PM
369	Please have family friendly washrooms/change areas and gender inclusive washrooms :)	11/16/2022 10:49 PM

376	The South end really needs an updated facility for hockey, ringette, skating. We struggle for ice time while City arenas have openings. We shouldn't have to drive outside of Winnipeg to get ice time.	11/16/2022 9:56 PM

380	Why is there no talk of adding indoor and outdoor rinks. Indoor rinks would pay for themselves and outdoor rinks would attract my kids of all levels to come and skate.	11/16/2022 9:47 PM
381	Since South Winnipeg has large amount of immigrants and some people particularly elder parents cannot speak English. Would be great to have programs catered for them and have multi-language serve.	11/16/2022 9:39 PM
382	Rock climbing facility would be good	11/16/2022 9:38 PM
383	Please ensure you have gender inclusive washrooms and plenty of family washrooms, stroller parking, and bike parking too!	11/16/2022 9:37 PM

385	Activities with guest speakers on good health, nutrition, exercises at all levels, etc.	11/16/2022 9:28 PM

408	Accessible play structure like pan am. Not a lot of play structures that are accessible for all children. Outdoor learning space. Outdoor walking trails/ winter walking or ski trails. Skating rink	11/16/2022 7:53 PM
409	More indoor swimming locations would be appreciated.	11/16/2022 7:52 PM
410	Please add a bus route from bridgewater to this rec campus!	11/16/2022 7:52 PM
411	I can't wait!	11/16/2022 7:47 PM
412	Please include space for after-school activities for children (dance, soccer, martial arts, etc.) and space for their parents to work out/take classes while they are waiting for the children. It is essential to have them in the neighbourhood, which helps not to spend hours commuting. The daycare centre should be for at least 100 children, the demand is unprecedented given all housing development in the area.	11/16/2022 7:45 PM
413	Off leash dog area	11/16/2022 7:43 PM
414	I would love to see indoor and outdoor running /walking track and soccer fields	11/16/2022 7:42 PM
415	This is a fabulous and much needed idea!	11/16/2022 7:34 PM
416	Make it a place with windows! Many CC in the city (the older ones) don't have them.	11/16/2022 7:30 PM
417	Maintenance / clean	11/16/2022 7:29 PM
418	A place for cheerleading competitions and practices	11/16/2022 7:27 PM
419	Location. Why not somewhere else off of mcgillvray?	11/16/2022 7:23 PM
420	I think including a pool in phase 2 is really important. I'm especially interested in. Weekday evening autistic fitness classes offered after 8pm	11/16/2022 7:22 PM
421	A place for teens/young adults to play indoor sports (basketball, badminton) is important. Even swimming. A library in this area is necessary as well.	11/16/2022 7:18 PM
422	More indoor rinks please	11/16/2022 7:13 PM
423	Would like to see more leasure guide activity opportunities for children. Would also love to see another indoor pool/water recreation facility that offers swimming lessons and leasure opportunities for families. Most of all having the facility accessible including accessible washrooms with at least one that has a high low plinth and overhead lift)	11/16/2022 7:10 PM
424	Swimming pool for classes would have been nice	11/16/2022 7:09 PM
425	I love that the city is building this facility. In Vancouver they have beautiful rec centres everywhere. They build community and get people active! Winnipeg needs more of these. Private gyms do not suit everyone and do not build community in the same way (Altea is the exception)	11/16/2022 7:07 PM
426	Outdoor skating rink	11/16/2022 7:07 PM
427	this is great news	11/16/2022 7:05 PM
428	I am quite happy with the Pan Am and other city facilities close to this area. Before investing here, why not invest in the outdated and insufficient facilities in the North or East End of the city who have been contributing taxes much longer than the newer South End. There is the Pan Am Facilities with adjacent soccer fields, There is Baseball facilities on Waverly, Margaret	11/16/2022 7:04 PM

Grant and Lions Pool within a short Distance. Such a facility does not exist in the North End or East End of Winnipeg. Why not start there first?

429	No	11/16/2022 7:02 PM
430	this sounds awesome and needed!	11/16/2022 6:59 PM
431	Is great to know we will have more space in city for leisure. Would be great to pay not too much for that and also do not have to spend hours in a on line line to get a spot.	11/16/2022 6:59 PM
432	Would love to see additional indoor soccer fields. To be honest, the biggest reason I struggle with using many of the public spaces in this area of town (Richmond west) is that people don't monitor their children and it becomes unsafe for me to go to outdoor spaces with my own kids. I would like to see some of the spaces be limited to a certain number of people to help maintain control (similar to some of the splash pools).	11/16/2022 6:56 PM
433	Space for cheerleading competitions	11/16/2022 6:50 PM
434	Hopefully badminton will be included. My family is moving to this area next year.	11/16/2022 6:45 PM
435	Really need some type of hockey complex indoor or outdoor	11/16/2022 6:31 PM
436	I think it would be important to have programming for older adults.	11/16/2022 6:24 PM
437	Please add more hockey rinks, indoor and outdoor, to this area! The kids desperately need it.	11/16/2022 6:21 PM
438	Daycare is necessary	11/16/2022 6:20 PM
439	Winnipeg is so limited in cheerleading competition venues. This is the perfect opportunity to build an inclusive space that will allow cheerleading to grow in our province and city.	11/16/2022 6:13 PM
440	We need a place where we can host regular community meetings and activities with low charge or free of charge	11/16/2022 6:09 PM
441	Swimming pool and water slides	11/16/2022 6:07 PM
442	Addition of a swimming pool would be ideal for water aerobics or free swim	11/16/2022 5:49 PM
443	Hoping it brings the community together	11/16/2022 5:43 PM
444	Please be considerate of all sports and recognize the special needs of Manitoba cheer to have appropriate venues to support their athletes. So many spaces are not equipped to handle cheer and as this is a new build it's an opportunity to be inclusive and build a facility that works for all.	11/16/2022 5:36 PM
445	Would like to see leisure guide activities held here as well	11/16/2022 5:22 PM
446	There is a lack of outdoor and indoor ice rinks for families to use in the city. This should be a priority before money is spent on gym equipment that is only used by a few.	11/16/2022 5:18 PM
447	You need to plan for indoor and outdoor ice.	11/16/2022 5:14 PM
448	The SWRC plan is a massive failure. This should be located near the BRT in order for it to be accessible to those that do not have 'car' as their primary means of transportation. The location is smack in the middle of a car centric development, and just another example of the city spitting in the eye of those that don't or can't afford a car as main means of transportation, and making things much, much easier for those that choose car. It could be put near RT with little inconvenience to car users. But when the goal is no inconvenience to car users, then who cares about the lack of accessibility for anyone else.	11/16/2022 5:08 PM
449	I hope there are plans for indoor skating rinks for the children to play ringette and hockey and to figure skate.	11/16/2022 5:07 PM
450	Think about the density of the neighbourhood and how sound travels before you build multiple high traffic ball courts as it's supposed to be about quality of life and enjoyable for the surrounding community not just those wanting to play ball sports.	11/16/2022 5:06 PM
451	Swimming	11/16/2022 5:00 PM
452	There's a huge lack of indoor recreational spaces suitable for the growing sport of cheer and hosting competitions and events. I appreciate the opportunity to give feedback. Happy planning!	11/16/2022 4:56 PM

453	Diverse site for everyone	11/16/2022 4:54 PM
454	Please add an outdoor rink	11/16/2022 4:52 PM
455	DO NOT FORGET ORGANIZED SENIORS ACTIVITIES(perhaps in conjunction with Wpg Parks & Rec) ESP ORGANIZED ACTIVITIES LIKE BRIDGE, PICKLEBALL, ETC.	11/16/2022 4:52 PM
456	We need an ice rink indoor/ outdoor	11/16/2022 4:35 PM
457	Minimum 26 foot ceilings in a space for cheerleading competitions, a space for warm up and for spectators	11/16/2022 4:32 PM
458	This plan for phase one is a huge disappointment. It sounds like it will serve young children (spray pad and daycare) and offer absolutely no outdoor sporting for anyone. Residents have been living in these neighbourhood for almost 20 years and a lot of us have kids who don't care about yet another spray pad. They are not useful to anyone over the age of 8. Our communities are lacking community centres with hockey rinks. Our kids cannot play soccer out of these communities or baseball. This should be included in phase one without question. How about tennis courts? We don't need a big open building with things to look at. We need easily accessible outdoor activity options for the older kids in these neighbourhoods. Even still, the location of this campus will not be overly safe for anyone to travel to by foot or bike who lives to the west of Kenaston. With 80km/h speeds and red lights being run all the time, someone will get hit by a car eventually. A pedestrian bridge should be considered to safely assist people wanting to use active transport to get to this campus.	11/16/2022 4:22 PM
459	Greenery should be included in the indoor & outdoor plans.	11/16/2022 4:11 PM
460	Please offer programming for seniors in the afternoons.	11/16/2022 4:11 PM
461	If sports are going to be played in the Gyms/Field make sure they are to the spec of the sport. Numerous community clubs have short volleyball courts in the city.	11/16/2022 4:10 PM
462	It would be wonderful to have a space that would be conducive to use for cheerleading events. This requires high ceilings, large areas and separate warm up space (also with high ceilings.)	11/16/2022 4:07 PM
463	Indoor rinks are needed (2). Similar to Southdale, 7 Oaks, The City rinks in the south are past their life cycle and we know they won't be replaced! Indoor rinks would also bring in revenue as they can be used for ringette, hockey, skating lessons, figure skating, sledge/accessible hockey/skating. Since access to school gyms is non-existent, an indoor gym could be used for a variety of sports including basketball, volleyball, pickleball, futsal, gymnastics, etc. Changerooms/bathrooms accessible to outside sports would be important. Then, you don't have to have the entire facility open, just the bathrooms can be open. For rentals, a kitchen would be important. A full scale canteen, including hot food, would also bring in revenue. We don't need another weightroom or group fitness classes - there are already a handful of private gyms and even a pool in the area.	11/16/2022 3:50 PM
464	there should be a suitable place for cheerleading competitions	11/16/2022 3:49 PM
465	We need another hockey rink in south Winnipeg. The rinks are crowded as is and it's impossible to get extra time for our kids. We NEED more indoor hockey rinks	11/16/2022 3:48 PM
466	Please make provision for hockey arena	11/16/2022 3:46 PM
467	Cheap and good quality Zumba and yoga classes please	11/16/2022 3:35 PM
468	AFFORDABLE daycare!! Lots of private daycares with outrages fees in lindenwoods/whyte ridge area.	11/16/2022 3:34 PM
469	Make room for cheerleading	11/16/2022 3:33 PM
470	Is it possible to have an indoor tennis court?	11/16/2022 3:31 PM
471	No	11/16/2022 3:29 PM
472	We need a full indoor water park like ones in Calgary.	11/16/2022 3:28 PM
473	We grew up with hockey and all our children played hockey. Group sports very important for building friendship, empathy, confidence, sense of community for children-even adults	11/16/2022 3:25 PM
474	Look forward to Hardball Baseball diamond as promised so the fence can come down in Kirkbridge Park	11/16/2022 3:20 PM

475	Was hoping it would be near St.Vital. Not very inclined to go to Fort Garry.	11/16/2022 3:18 PM
476	available parking	11/16/2022 3:15 PM
477	A space like the complex in Warman Saskatchewan would be the best use of multifunctional space. Large gymnasiums that can host a variety of events such as cheerleading or gymnastics competitions. We are woefully short of venues for these types of events in Winnipeg.	11/16/2022 3:13 PM
478	I live in Winnipeg North so it would be no use to me.	11/16/2022 3:09 PM
479	The more the merrier	11/16/2022 3:03 PM
480	Manitoba's Cheer Clubs have thousands of ppl involved in this Sport athletes parents and coaches. Cheer is now officially an Olympic Sport. My daughter competed against the World at ESPN in Florida and did Manitoba and Canada proud. She is on Team Manitoba. We have several Competitions and Showcases during the year. We need more spaces available to us with the ceiling at 26 ft minimum. This Sport has gymnastics, dance, and so many athletic components. Please make space for Cheer. So many athletes rely on this Sport to give them an outlet for that energy they have in them. Thank you.	11/16/2022 3:02 PM
481	Why is there NO MENTION of hockey rinks?!!!	11/16/2022 3:01 PM

489	Climbing wall	11/16/2022 2:46 PM
490	Indoor swimming pool.	11/16/2022 2:42 PM
491	Cheerleading is now a recognized sport in Manitoba, we have next to no venue space to host competitions. Please consider building us a venue to host our 5-6 competitions!	11/16/2022 2:41 PM
492	I really wish you'd put money into inner city and other existing buildings and programs instead of participating in urban sprawl benefiting the wealthy. But if you are going to do it, please take this opportunity to consult with the disability community and ask them what they need to see so that ALL Winnipeggers can enjoy the spaces, and be able to go the bathroom with dignity. Not everyone can transfer to a toilet. The HRM at the Forks has the kind of bathroom I'm talking about.	11/16/2022 2:36 PM
493	I think this would be an excellent location as I live close to there. Right now I use the Pan-am facility.	11/16/2022 2:32 PM
494	At least 26ft ceilings for cheerleading competitions	11/16/2022 2:32 PM
495	If this facility accommodated cheerleading opportunities for competitions, they would be the only facility in Manitoba. Thousands of cheerleaders in Winnipeg ranging from 3 years old to With 5 major clubs in Winnipeg and no true place for competitions and spectators this facility could be a hero!!!	11/16/2022 2:30 PM
496	PLEASE consider an outdoor skatepark!!!!	11/16/2022 2:25 PM

502	I think we need to build a multiplex that includes multiple indoor hockey rinks, an indoor soccer field, and workout space. We have hundreds of kids registered to play hockey and only 2 rundown rinks to play in. We often have to keave our area and find ice in other parts of the city or outside of Winnipeg.	11/16/2022 2:01 PM
503	Please include soccer fields and indoor and outdoor hockey/skating rinks	11/16/2022 1:56 PM
504	Room for cheer competition please us cheerleaders are begging for it to happen	11/16/2022 1:53 PM
505	No.	11/16/2022 1:49 PM
506	I just hope the city recognizes the fact there already are a lot of gyms in the surrounding and existing area! The city needs another facility like the Iceplex where teams can play hockey!	11/16/2022 1:48 PM
507	As noted earlier, Phase 1 should include dedicated outdoor pickleball courts. This amenity is missing in South Winnipeg.	11/16/2022 1:46 PM
508	Cheerleading will be a national sport starting in 2023. We now have 2 team Manitoba teams representing. Cheer competition facilities are extremely rare in the City. Being a large spectator sport it can not be done in the company facilities that other sports like gymnastics would do. As the sport grows the City needs a place for these athletes to compete, advance in the sport and a place where Winnipeg can host the National Championships	11/16/2022 1:46 PM
509	Cheerleading is becoming increasingly popular. With that, there is NO facilities in Winnipeg for us to rent for competitions. In the next couple years the teams from the 4-5 gyms in Manitoba will have to start doing all competitions outside of Manitoba due to lack of space. Not only is there barely any locations, we have to compete with hockey and university sports as we run at the same time (our competitions run between January and April). We require specific specifications (like 25 foot ceilings, ample space for warm up area as well as performance area and seating for minimum of 1000 spectators). A facility like this with the option to rent the space would guarantee 5 local competitions which would also bring revenue to local restaurants in that area. Please please take into consideration making the facility inclusive of other sports and not only hockey/football. Please reach out to the cheerleading gyms if you require further information on what we require. There is well over 500 athletes in cheerleading, but with the lack of facility to host competitions it's very hard to grow the sport.	11/16/2022 1:46 PM
510	All sports should be incorporated into the functionality of the space	11/16/2022 1:44 PM
511	Programming for college age people would be great!	11/16/2022 1:44 PM

516	Needs a swimming pool	11/16/2022 1:36 PM
517	Seniors need a place where they can use the gym, meet up for coffee or walks or learn a new hobby	11/16/2022 1:34 PM
518	There are a ton of facilities around the city that support all kinds of activities for our families and children. This being said....we desparately need a place where our Cheerleading athletes can practice and have competitions. This would be such an amazing facility if we could really get the Cheerleading aspect in there. GO CENTRAL!!!	11/16/2022 1:27 PM
519	Please build it sooner than later ☺	11/16/2022 1:27 PM

venues for our many competitions throughout the season. Our sport is growing exponentially but we don't have the infrastructure to support it. We have very specific needs when it comes to cheerleading such as high ceilings. Our sport is currently an Olympic provisional sport but will be in the Olympics soon. If we had the proper venue we could also host national competitions that would have attendees from all over Canada. But unfortunately without the venues we can't make this happen. We are really hoping that this space could include the right infrastructure to support our growing sport.

521	Why isn't there any plans for a hockey rink?	11/16/2022 1:27 PM
522	Manitoba Cheerleading Communities Struggle to host competitions in our ever growing community. We host 3-5 competitions a year! Having a spot that could available and used would be so helpful	11/16/2022 1:25 PM
523	Great news about the facility! I would like to see drop-in classes available so people don't have to commit to a full term, and can afford a few classes. Postings about classes in the common area will get people interested about other things going on. Windows into the classes allow others to "tour" the offerings before signing up.	11/16/2022 1:24 PM

536	some skating rinks would be great	11/16/2022 12:52 PM
537	Again it is not for me to answer as I would not travel so far to use any programs. It is too far for me to get there in a reasonable amount of time. For people in the area it would be beneficial or for those willing to travel within the city to get there.	11/16/2022 12:49 PM
538	Build an iceplex. The shortages for ice time in this city is ridiculous. The ROI is simple enough that a 10 year old can calculate the economic benefits.	11/16/2022 12:49 PM
539	Build ice. Indoor and outdoor. City needs ice.	11/16/2022 12:38 PM
540	There's a desperate need for a facility which includes indoor rinks for hockey, ringette, figure skating, etc. We often have to drive across the city to access a nice one (Seven Oaks, Transcona, etc) The south deserves a nice one too.	11/16/2022 12:38 PM

567	A small library attached would be nice. Also a walk/bike path connecting South Pointe would be fantastic. Then it would be more accessible for children to go through (especially if there is a spray pad). They would be able to avoid busy roads.	11/16/2022 11:14 AM

571	Depends on programs offered in winter that are indoors	11/16/2022 11:08 AM
572	We badly need an outdoor hockey rink for kids in our community. Skating on ponds is not safe. This will get A LOT of families out and is a great place for a winter festival. Need a large building with a canteen. The community center near Lodge Avenue is new and has fitness and gym classes and two outdoor rinks and skating paths. They did a great job. Speak to the people that chaired that project.	11/16/2022 11:07 AM

581	I'm at least as interested as what will be outside as in. I want a green focused thoughtfully landscaped natural area to ride my bike/walk thru and enjoy nature in the suburbs. This city keeps losing natural green space (eg the old growth Parker lands forest destruction/corruption outrage) and there is precious little in S Wpg. Esp W of Pembina, S of McGillivray. Think copses and groves of native green trees shrubs and prairie grasses, not just a few dozen Ash trees along paths (tho definitely line the paths w trees also!). A few small sections of the SW rapid transit line are beautiful for having preserved forest (esp between Seel station NE towards Pembina) and I am very pleased about that.	11/16/2022 10:44 AM

596	I'm a member of the Rehfit Centre and like being around old and young. I use the track regularly since I'm still a competitive runner at 70 and enjoy stretch and total body conditioning classes, and I purchase food at the heart healthy cafe. paid and free activities. For example, if the campus ends up having a skating rink somewhere, it would be ideal to have times people can go and just skate for free with no supervision. Same goes for other areas. The unfortunate current situation of growing low-income people in this city requires for a compassionate leadership team that steps up and care for their mental health. Sport and recreation are not the cure, but it helps. Let's not leave them out by putting a dollar figure on every activity at the campus.

606	Needs to be low cost (free outdoor amenities), multi-use. Winnipeg is lacking a high-end water park with water slides, wave pool, etc.. For the summer, could there be a man-made beach/swimming pond that turns into a skating rink in the winter? My biggest quest is what to do with relatives when they come to visit. Winnipeg needs more outdoor, free, non-structured activities to do.	11/16/2022 10:05 AM

632	The design of outdoor playground can take some inspiration from Japan. The playground there are very interesting and exciting. Many of them combined the nature landscape and plantings into the design, instead of placing a play structure set, the playground is a series of experience for children to explore.	11/16/2022 9:38 AM
633	Honestly I don't see myself or family using this space a lot. There is a strong need for updated hockey facilities in the area and with all the gyms in the area I'm not sure why this would be a priority. I think the focus for the venue is not taking into account the most popular sports for Winnipeg which include hockey, football and soccer. Overall I am feeling disappointed by the proposed amenities	11/16/2022 9:36 AM

We are the only area in the city without a Hockey multiplex. Take a look how big and how fast SWHA is growing. There are just about 100 U11 kids playing this year, we have 7 teams just in this age group alone. That # will only continue to rise. And then you can put on training programs as well. This is all big big revenue for the community center.	11/16/2022 9:23 AM

650	I dont think Waverly West needs a recreation centre, it should go to communities with more need.	11/16/2022 9:17 AM

705	This recreational centre should be centralized in the city. Too far to drive	11/16/2022 7:49 AM
706	The main requirement is cleanliness even after 15 years of operation. Might as well create an endowment fund for general cleaning and maintenance than relying on city's annual budget allocations. This is a more important requirement than expensive fancy interior decor.	11/16/2022 7:46 AM

755	I've not heard about this initiative. How did you determine the location? It seems like a strange spot. Is new infrastructure wise? Are you duplicating things already in place that could be improved upon? I'm not sure as I'm not sure what consultation has been done at this point.	11/16/2022 1:04 AM

760	I would like to see indoor hockey rinks strongly considered for this campus too! The last hockey rink built in the area was in the 70's. There are hundreds of kids playing hockey in South Winnipeg, and there is zero talk of indoor hockey rinks! Every other area has 2-4 sheets of indoor ice as part of their community club. This needs to be strongly considered and would be a true disappointment if a SPORTS CAMPUS was built with ZERO RINKS!	11/15/2022 11:43 PM
761	Indoor swimming pool	11/15/2022 11:37 PM

763	Initially I was excited with the prospect that future site would be built for our family needs. As a parent of young children I was hopeful that my children would have a community centre that would parallel others in the city. Unfortunately the initial plans have been scaled down that it will likely not meet any of our family needs. The area desperately needs an ice rink which could become a indoor soccer pitch or for lacrosse in the off season. I would also like the city to invest in maintenance of the sports fields in the area. The soccer pitches were atrocious this past year, the grass and weeds were so high that the ball would get lost during the games.	11/15/2022 11:25 PM
764	Accessible washrooms and parking are essential as are areas with terrain that is manageable for seniors or people with health or mobility challenges	11/15/2022 11:21 PM
765	Build a ice rink complex	11/15/2022 11:19 PM
766	We also need day care spaces serving this area asap. Residents like me are struggling and having to drive to other communities for day care and preschool programming. Kids and parents in this area deserve better.	11/15/2022 11:19 PM
767	Would love to see a swimming pool.	11/15/2022 11:09 PM

770	Bingo would be nice...	11/15/2022 11:03 PM
771	Important that it reflects the diversity of the area and is inclusive.	11/15/2022 11:01 PM
772	Living off St Anne's. I'm disappointed at the end of the survey finding out that I would have to drive far to go to this place.	11/15/2022 11:00 PM

774	For the survey to list outdoor sports and not include hockey is incredible. An outdoor rink would be nice but an indoor arena would be the ideal for this neighborhood	11/15/2022 10:55 PM
775	Super excited to have this incredible facility within walking/cycling distance. Community centres are aptly named...they help build communities!	11/15/2022 10:55 PM

797	Hockey ice is critically important to this city and in short supply. Also, building outdoor spaces with trees are increasingly desirable. We don't need another gym. Please focus on a space for kids and seniors, not adults who can work out at any of the many nearby gyms. It would not only detrimentally impact these businesses but also be a loser opportunity for the community and city	11/15/2022 10:25 PM

807	Hope it goes ahead	11/15/2022 10:02 PM
808	Currently there is no bus directly going to waverley west from richmond west. People living in both neighborhoods who does not drive cannot share the community resource easily, this is especially not friendly for new immigrants. I hope there willbe a new bus route or extended bus route in the future.	11/15/2022 10:01 PM

810	Please consider a hockey rink. I know this is very important to a significant number of people and is desperately needed. Thanks.	11/15/2022 9:57 PM
811	Please have swimming lessons if this is anywhere in scope. Further to my earlier comment - outdoor space is so important and doesn't have to be elaborate. The fountains in bridge water are so simple yet enjoyed by all. We just need recreation spaces - it doesn't have to be fancy	11/15/2022 9:57 PM
812	How can you have a survey and not include hockey as an activity? Seems like you want to avoid that activity.	11/15/2022 9:54 PM
813	Please add an affordable 5 v 5 futsal field	11/15/2022 9:53 PM
814	PLEASE put in a pool. There is not nearly enough capacity in existing city pools for swimming lessons	11/15/2022 9:53 PM
815	I think that this is a part of the city that will well serve the upper middle class. As a senior living in St Vital I know of no convenient public transport to get me there yet it is billed as "south" Winnipeg. Very disappointed in the location if something like this was closer to	11/15/2022 9:53 PM

downtown or the forks maybe people would go there again. Or I have a real fondness for Bonivital it is also south Winnipeg why not expand something that already exists or an area that has public transport. However I'm sure all the folk in the Waverly West area will be thrilled to have a nice safe place to go nearby in their cars.

816	Most important to have quiet areas, library should be attached to structure, water features inside & out	11/15/2022 9:47 PM
817	Please start volleyball and badminton classes throughout the year	11/15/2022 9:46 PM
818	If you open this place in south area because here is nothing for kids and adults too everyone will like it. I think people will join in the weekdays or on weekends.	11/15/2022 9:46 PM
819	No thank you	11/15/2022 9:45 PM
820	It seems odd that an indoor hockey rink is not being considered. The area and our city is consistently short of ice time for minor hockey. The existing facilities are well past their useful date in comparison to other parts of the city! Ice is being rented for \$250+/hour. This would be a great opportunity to generate revenue that can't be returned to the community in the form of other sports. Most of the options provided do not offer any revenue potential. This should have been an election issue. I can guarantee that any politician associated with a community facility that does offer a badly needed ice surface will be held accountable at the next election!	11/15/2022 9:45 PM
821	This seems crazy that another gym is going up here. Open up a soccer and hockey complex as that's where most Canadians go outside of school! Then communities could also have socials there, fundraising events, and a concession area when people are in and out for games and practices. It attracts the most people! There's Pan Am to walk and swim with a splash pad, many other splash pads in the area, many other gyms in Whyte Ridge and Lindenwoods, and then a lot more. More gyms like Altea & GoodLife and Planet Fitness and Dakota CC (Johnathan Toews). Why would we need more workout facilities? We need more indoor arenas and soccer fields.	11/15/2022 9:45 PM
822	Will there be plans to have the center managed by a third party vendor like YMCA?	11/15/2022 9:39 PM

830	This is long overdue. Moved into this area 10 years ago with young children being told this would be coming shortly (along with schools in area) still no community centre, rinks, local teams	11/15/2022 9:16 PM
831	We need a swimming pool. There are huge challenges registering for swimming lessons in Winnipeg.	11/15/2022 9:12 PM
832	If possible for either an indoor pool for swimming lessons or indoor ice rink for kids skating that would be great	11/15/2022 9:10 PM
833	Lots of parking	11/15/2022 9:05 PM
834	Overall this is a good idea, but I think that the lack of amenities like this that exist in more central Winnipeg, like South Osborne where I live, is frustrating. All the build OUT ideas this city has leaned into without keeping up and expanding what already exists, is also very frustrating. I'm sure that area of the city will think this is accessible, but overall, this is too much of a 'hike' to make this a part of our families regular routine.	11/15/2022 9:05 PM

842	In speaking with dozens of community members we all felt that an indoor hockey arena would benefit the adults and youth in the community for generations to come. Many other areas I the city enjoy a modern multi ice surface facility . This could serve the the people of our area as well as bringing oeole to our community from all over Manitoba.	11/15/2022 8:53 PM
843	You don't have money to build it! You will not have the money to operate it! You will not have money to repair it! Give your head a shake!!! If the residents of that area really want that facility they should put the cash forward out of their own pockets before any expanse is incurred. The answer for #7 to #10 is NEVER but you don't give me that option.	11/15/2022 8:38 PM

852	This is so misguided!!! No one needs these things! We need multiple hockey rink complex which would bring in income and serve the entire city .	11/15/2022 8:14 PM

855	I'm amazed that in a community of our size, there was no mention of hockey as an activity or plans to create hockey rinks (or multiple hockey rinks) to serve the area. Especially for an area of Winnipeg that has no indoor or outdoor rinks for any of the families living here.	11/15/2022 8:09 PM

862	It would be nice to have some sort of water park, with slides, similar to Kildonan Park and Transcona.	11/15/2022 7:58 PM
863	A indoor soccer area would be fantastic. We are a family from South America, and we love soccer. The south of the city has only one indoor complex for this sport (U of M subway), this would help not only new comers but also the growing cheer this sport in kids who could practice in a season like winter. Also, when you think about the future, the 2026 World Cup will bring more soccer fans to Canada who will be one of the countries hosting it.	11/15/2022 7:58 PM

880	Sounds like a great idea! Best of luck!	11/15/2022 7:28 PM
881	South Wpg has a lot of paid high end gym facilities i.e. Altea, Goodlife, Shapes etc. this facility should try to meet the needs of the less wealthy population for swimming, dance, basketball, volleyball facilities. It should focus on having nice spaces in a variety of sizes for socials, showers, birthday parties that could generate income by being rented out. Please no more libraries or skateparks that aren't used as much. Splash pads, indoor/outdoor pools, picnic shelters to rent in summer etc. are all better ideas and use of public funds.	11/15/2022 7:27 PM

908	It would be great to have a space that includes multi-use areas that are large enough for cheerleading competitions with bleacher space similar to a hockey arena with high ceilings and a way to separate a warm up area and a competition area. This space would be great for community use as well as it can be gymnastic/dance/volleyball/badminton and more uses.	11/15/2022 6:09 PM

937	Our city lacks an indoor wave pool and splash/spray park for youth and teenagers. It also lacks fun activities for teenagers that is not considered a "sport". We do not require more outdoor splash pads for young children. We need indoor winter activities for teenagers and seniors and not for young children. With our long winter months, we should invest in a facility that we lack rather than duplicate existing facilities. The Pan Am Pool could be so much better for indoor activities for youth and seniors and it caters more to young children and swim teams. Presently I have to drive 1/2 way across the city to swim in a warmer temperature pool. Even smaller towns have indoor splash parks. Many Manitobans have travelled to Canad Inns in Grand Forks for this activity. I am extremely disappointed in the lack of diverse facilities and fun activities that cater to all ages rather than young kids. This is "same old-same old" mentality. Even smaller cities have more creativity in developing new facilities than in Winnipeg.	11/15/2022 4:27 PM
938	No interested to see graffiti around the area.	11/15/2022 4:26 PM

944	I am glad there are plans for a community Center. My only disappointment is the fact that there are literally no homes right around it, I wish it was in a populated already developed area. But if a skatepark and toboggan run is built my kids will be thrilled.	11/15/2022 4:02 PM

949	Please no delay as the community has been waiting for too long.	11/15/2022 3:13 PM
950	Disingenuous - Meaning: not candid or sincere, typically by pretending that one knows less about something than one really does. This survey comes off as that. I like that hockey which is quite clearly a pretty big activity in Canada as a whole isn't mentioned once in this entire survey. Even for outdoor activities there is only ice skating. It's *almost* as if (no,no it's exactly this) someone said not to include it as an option. Then after the survey is complete "oh I guess nobody even wanted hockey rinks, indoor OR outdoor, how odd!!!" Another thing, there are a number of fitness facilities nearby. Obviously Altea will be literally walking distance from a now publicly funded fitness center along with Good Life that is quite close (albeit driving distance) and even Shapes on Pembina. Why wasn't this survey done before all the plans were drawn up? Why aren't hockey rinks even mentioned as an option given the two community rinks St. Norbert and Richmond are in disrepair and the fact that there is this huge tract of land that would have given an excellent opportunity to build a true multi-purpose facility that could be similar to the Seven Oaks community center or Gateway.	11/15/2022 3:10 PM
951	We will need spaces for large event with kitchen and audio/video systems.	11/15/2022 3:08 PM
952	Really wish we were spending all this money fixing up existing facilities that are more centrally located. Seems unfair that so much taxpayer money is going towards a project that much of the city can't access and is intended for wealthy people in suburbs - the same suburban sprawl draining our budget	11/15/2022 3:03 PM
953	We need a pool on this side of the city!!	11/15/2022 2:50 PM

962	I hope it's close to Sage Creek as we need one at this end of the city!	11/15/2022 2:38 PM
963	Not to forget about funding for current community club in Waverley Heights and upgrades to the skating rinks.	11/15/2022 2:38 PM
964	I cannot stress enough that our city lacks an indoor wave pool and splash/spray park. With our long winter months, we should use our limited public infrastructure dollars to invest in a facility that we lack rather than duplicate existing facilities. When even a smaller city such as Lloydminster, AB can support such a facility, why does Winnipeg not have this type of public facility?	11/15/2022 2:38 PM
965	We are excited!	11/15/2022 2:31 PM
966	I can hardly wait for it to open	11/15/2022 2:31 PM
967	I don't like how the City approves expansion but cannot afford the services it needs to provide to the City as a whole. The result is the neglect of mature neighbourhoods and decisions to cut existing services. It's unsustainable and, worst of all, foreseeable.	11/15/2022 2:30 PM

971	A full time wrestling room is badly missing in Winnipeg. We have numerous small clubs and private martial arts gyms that hold practices seasonally and are temporary. With an abundance of highly qualified world class coaches available and high performance athletes involved it seems that overlooking wrestling again will lead to the sport's diminishment.	11/15/2022 12:53 PM

Appendix B – Workshop Results

Background

Two workshops for the future South Winnipeg Recreation Campus (SWRC) were held in-person on November 30 and December 1, 2022. The two workshops gathered community preferences and priorities for campus amenities, as well as feedback on site plan and connections. Thirty-four people attended and represented a wide diversity of groups, including:

- Residents in the surrounding neighbourhoods
- Representatives from community organizations
- Sport and recreation representatives
- Members from cultural organizations

The workshops began with a brief overview presentation and were followed by two interactive activities.

Engagement

Activity 1 – Design/Vision boards

Vision boards helped gauge participants' support for potential indoor and outdoor amenities. The following themes were displayed on these boards:

- Indoor activities
- Indoor sports
- Public spaces
- Outdoor sports
- Outdoor leisure space
- Project whiteboard for any additional comments and recommendations that were not mentioned in the other themes listed

Participants placed stickers on the vision boards to indicate which amenities align (green sticker) or do not align (red sticker) with their vision for the South Winnipeg Recreation Campus. There were also stickers for those who were undecided (yellow sticker).

Activity 2 – Site design

Using a map of the SWRC site, participants created a mock recreation campus with cut-out pieces of program elements. Participants were divided into groups of four to five people per table, and the project team distributed one large site map (2' x 3') and one envelope with cut-out representing amenities. Facilitators asked probing questions at each table, while participants drew, wrote, and added cut-outs to the site map with their responses and ideas. Facilitators were also responsible for encouraging participants to make choices and to prioritize the amenities that they would most want to see at the future SWRC. Once groups had completed their designs, a member from each table was asked to present their table's design to the larger group.

What We Heard

Top themes associated with the six design vision boards are seen in the following table.

Activity 2: Site design

Six groups arranged the building cut-outs in a single cluster, indicating a preference for the gymnasiums, aquatics centre, twin ice rinks, library, and daycare to be housed in one building. Two of the groups placed the building cut-outs at various locations on the site map, indicating a preference for multiple, smaller buildings.

Two groups arranged the parking cut-outs in a single large parking lot, while six groups had multiple smaller parking lots on their site maps.

There was less agreement on the placement of the recreation buildings on the site. Three groups placed the recreation centre in the northeast corner of the site next to the school and Bison Drive. Three groups placed the recreation buildings in the centre of the site. One group placed the recreation centre in the south end of the site along Joe Keeper Way, and one group placed the recreation centre along the eastern property line.

In the site design activity, participants prioritized the following amenities from the “outdoor” and “future phases” components:

- **Spray pad:** All groups included it in their site design (note, the spray pad is part of Phase 1 of the SWRC).
- **Aquatics:** All groups included it in their site design.
- **Skate park:** All groups included it in their site design.
- **Twin ice rinks:** 7 of the 8 groups included it in their site design.
- Full size or half sized **soccer field:** 7 of the 8 groups included it in their design.
- **Tennis and volleyball courts:** 7 of the 8 groups included it in their design.

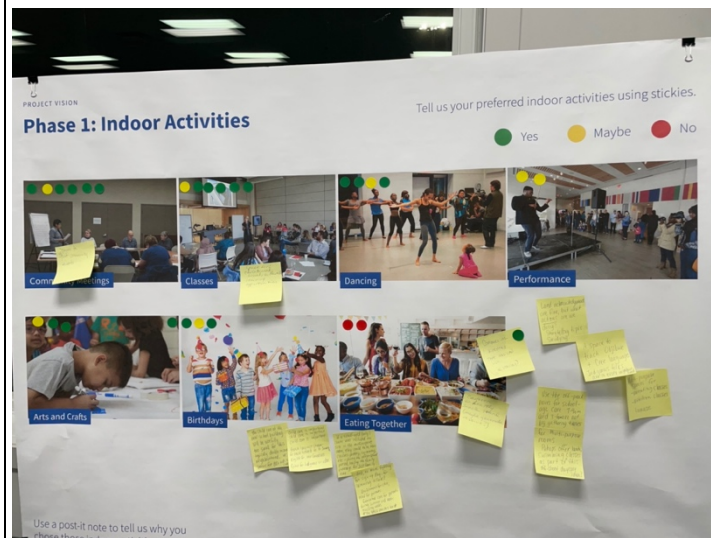

Photos of the site plans are included in the appendix to this report.

Appendix C – Stakeholder Meeting and Interview Notes

May 2023

Background

This appendix reflects input from five stakeholder meetings and two stakeholder interviews conducted as part of the community needs assessment for the South Winnipeg Recreation Campus (SWRC).

Engagement

Stakeholder meetings were held with 28 participants who represented neighbourhood associations, cultural organizations, and sports, recreation and transportation groups. These stakeholder meetings were held on November 1, 2, 3, and two sessions on November 5, all with an Argyle facilitator and notetaker. The meetings began with a brief presentation to introduce the project followed by a discussion on community needs, current gaps, and transportation options.

Interviews were held with two stakeholders who represent public and private K-12 education providers in south Winnipeg.

What We Heard

Stakeholder meetings were structured under the following focus areas, with comments separated between topics we heard multiple times and topics we only heard once.

Focus area	Comments
Proposed uses of SWRC	- Multiple participants mentioned: - o Basketball court - o Indoor walking and running track - o Badminton - o Indoor/outdoor cricket - o Indoor/outdoor soccer - o Pickleball courts - o Swimming pool (and lessons/programs) - o Skating rink - Individual participants mentioned: - o Rock climbing wall - o Cycling service centre/bike repair station - o Yoga - o Volleyball - o Indoor tennis - o Table tennis - o Weightlifting - o Skateboard park - o Lawn bowling

Appendix C – Stakeholder Meeting and Interview Notes

May 2023

	- o Providing walking paths and crosswalks (e.g., across Bison Drive) - Individual participants mentioned: - o The City needs to create transit routes to access SWRC - o Park and ride option at SWRC to encourage people to use transit - o Pathways and walkways need to: ▪ Be direct between amenities at the SWRC ▪ Have good signage
Other comments	- Individual participants mentioned: - o Community flagpole to celebrate different National Days - o Outdoor space for events in the summer - o Preference for hardwood floor in gymnasium space - o Involving Winnipeg Arts Council to install public art at SWRC - o Gym should have space for spectators (i.e., bleachers) - o Community garden - o Joint-use agreements between SWRC and Pembina Trails School Division - o Lack of daycare at SWRC - o For SWRC to host educational program (e.g., trainings from local fire and police staff on safety) - Multiple participants mentioned a need for parking spaces

Appendix C – Stakeholder Meeting and Interview Notes

Background

This appendix presents input from three stakeholder meetings conducted as part of the community needs assessment for the South Winnipeg Recreation Campus (SWRC).

Engagement

The project team held three stakeholder meetings with a total of nine participants who represented accessibility organizations and sports/recreation groups. These meetings included organizations that represent Manitobans with disabilities and sport and recreation organizations that serve Manitobans both without and with disabilities. The meetings took place on May 31, June 1, and June 3, with Argyle facilitating and notetaking. To ensure everyone could participate, live closed captioning and American Sign Language (ASL) interpretation were provided. The meetings started with an overview of the project, followed by discussions on accessibility needs and requirements, identifying any gaps that currently exist, and considerations for transportation.

What We Heard

Stakeholder meetings were structured under the following focus areas, with comments separated between each topic we heard multiple times and topics we only heard once.

Focus area	Comments
Sports and activities	Sports and activities mentioned (multiple responses): • Volleyball • Basketball • Badminton • Dance classes • Walking use of any indoor track • Indoor power hockey/wheelchair hockey • Yoga • Self-defense training • Outdoor hockey Sports and activities mentioned (individual response): • Pickleball • Soccer • Swimming • Curling • Darts • Bowling • Dry land training for paddling and/or cycling programs Accessibility considerations: • One participant mentioned that activity rooms should be soundproof to reduce noise echoing from other activities. • One participant emphasized the need for incorporating looping systems so that individuals with hearing aids can hear clear instructions from instructors (i.e., dance, yoga, and self-defense). • One participant said that the Manitoba Deaf Sports Association has difficulty finding appropriate spaces for its programs; if SWRC were to be fully accessible, they would be very interested in booking space there.

Appendix D – Stakeholder Meeting Notes

June 2023

Gymnasium programs and accessibility considerations	Gymnasium programs mentioned were the same as those mentioned in the “Sports and activities” topic. Accessibility considerations: • Emphasis on the need for storage spaces in gyms, especially for wheelchair users. • One individual suggested avoiding windows directly in the gyms due to glare and other issues. • Need for inclusive and accessible change rooms. • Need for reconstructing basic concepts of gyms for accessibility. This includes examples like lifts, ramps, and sliding doors.
Fitness activities and accessibility considerations	Fitness activities mentioned: • Indoor track • Workout machines Accessibility considerations: • Participants supported the idea of having accessible machines with tactile buttons or voice output screens.
Proposed uses of multi-purpose rooms and accessibility considerations	Ideas for multi-purpose room use: • Participants advocated for smaller meeting rooms and accessible kitchen space for individuals with disabilities. • One participant mentioned the need for multipurpose spaces to support team areas and tournaments. Accessibility considerations: • One participant highlighted the need to incorporate looping systems in multi-purpose rooms so that individuals with hearing aids can directly receive sound without background noise, improving communication.
Accessibility considerations for facility overall	The following input was provided on accessibility considerations for the facility as a whole: • Participants put emphasis on the need for different surfaces for wayfinding, high contrast signage, and accessibility features like Braille, audio cues, alarms, and proper lighting. • Participants highlighted specific issues like carpets obstructing doors and ice forming at entrances. • Participants expressed the need for higher volume and clear announcements in emergencies for hard of hearing individuals. • Participants requested the need to incorporate good Wi-Fi connectivity, as it allows individuals to use communication tools like live transcriptions on their cell phones to facilitate conversations in noisy environments. • One participant mentioned the shortcomings at Dakota Community Centre, such as parking availability, signage, spectator seating, and the need for improved Wi-Fi capacity and cell service within the facility. • One participant emphasized the need for interpreters, video relay services, captioning, and CART (Communication Access Realtime Translation).

	One participant highlighted the need for visual fire alarms or alarms with strobes for deaf and hard of hearing individuals.
Accessibility considerations for transportation	Modes of transportation mentioned: - Participants mentioned that people would primarily use vehicles to get to the facility; however, some might use buses or bicycles if the facility is within a convenient distance. Accessibility considerations: - Participants mentioned the need for tactile markings, proper signage, and accessibility considerations for paths and crossings. - Participants stressed the importance of adequate parking and transit access. - Participants expressed the need for more wheelchair parking spaces and accessibility in different weather conditions.
Inclusion and engagement for accessibility stakeholders	Accessibility considerations: - Participants mentioned the importance of connecting with disability advocacy organizations and engaging with individuals who have lived experiences. - Participants advocated for early engagement in the design process and adherence to accessibility legislation. - One participant emphasized the inclusion and welcoming of people with disabilities in public engagement, partnering with deaf, deaf/blind, and hard of hearing organizations, providing interpreters, captioning, and outreach to the community.
