

## **Appendix A – Neighbourhood petition**

Throughout the COVID 19 pandemic, many Whyte Ridge residents bought a puppy or older dog into their homes for companionship, and as a form of therapy and stress release.

- During walks in the neighbourhood with my puppy, I have met many pet owners and we've discussed trying to find an area in Whyte Ridge where we could let our dogs run off leash.
- The City's existing off-leash dog parks are quite a distance away (Kings Park, Maple Grove Park and Brenda Leipsic Park) and we are hoping to establish an off leash doggie park in our neighbourhood.

I reached out to City Councillor Janice Lukes seeking assistance. The City has a process that residents can follow to establish an off-leash park. **Please see attached.** We've worked with the City and the City has helped identify an area that could be the off-leash park.

#### **SIGNIFICANCE OF AN OFF-LEASH PARK – for HUMANS & DOGGIES:**

- Walking a dog provides humans daily exercise and great mental health and stress release
- Walking and running also provide dogs great exercise and stress release!

Probably one of the most important aspects of an off-leash park is that it provides residents a place to gather, socialize, meet the neighbours. Getting to know neighbours helps a community become more connected and builds safer neighbourhoods.

#### **MAINTENANCE & SECURITY:**

- If approved, the off leash park will have double gated entrance fences, and be enclosed with nice fencing.
- The City will keep the park clean, remove garbage, and mow the area when needed.
- Councillor Lukes will provide benches and more shade trees and will help facilitate the formation of a 'Friends of Whyte Ridge Doggie Park Association' Many off leash parks have association that help to continually improve the park's amenities.
- Having people at the park on a more frequent basis would also reduce some of the nefarious activities that do occur at this site.

#### **SEEKING YOUR SUPPORT:**

- To enable the area outlined on the back of this flyer to become a park, the City requires a 70% support from the neighbours within 100 meters of the park.
- There is a form that residents would sign, also attached.

#### **QUESTIONS:**

- As a long-term resident of Whyte Ridge, and a member of the Community Centre Board, I am leading this initiative. You can contact me at: [nupur127@gmail.com](mailto:nupur127@gmail.com)
- You can also contact Councillor Lukes at [jlukes@winnipeg.ca](mailto:jlukes@winnipeg.ca) or by calling her office at (204) 986-6824

I look forward to speaking with you on any questions you may have.

| 1  | The proposed dog park is way too small. May be adequate for lap dogs but larger dogs, like mine, need more running space.                                                                                                                                                                                                                                                                                             | 12/4/2024 7:40 PM   |
| 2  | The procedure space is far too small for an off leash park. Really... don't even bother.                                                                                                                                                                                                                                                                                                                              | 12/3/2024 5:10 PM   |

| 4  | Half an acre is WAY too small for a dog park, you're just asking for fights and filth. This particular design would be suitable for small dogs only for tenants of an apartment building that don't have access to greenspace (downtown). Very silly use of space for this parcel of land                                                                                                                             | 12/3/2024 3:35 PM   |
| 5  | Railway provide off-leash dog parks for free. No need for the City to waste money.                                                                                                                                                                                                                                                                                                                                    | 12/3/2024 12:51 PM  |
| 6  | This dog park is much, much too small.                                                                                                                                                                                                                                                                                                                                                                                | 12/3/2024 12:09 PM  |

| 12 | Re: waste management - The current dog park in the Beaumont neighbourhood reeks in the springtime from all the dog poo that is thawing. It's such a putrid smell.                                                                                                                                                                                                                                                     | 11/27/2024 8:48 PM  |
| 13 | We have enough places people can walk their dogs. Dogs don't need to be off leash and are often unsafe both for dogs and people. I back onto the community centre and the last thing I want is to smell dog poop and hear dogs barking loudly at all hours of the day. Off leash dog parks need to be away from urban areas where people live. This is a terrible idea and I strongly hope this doesn't move forward. | 11/27/2024 1:06 PM  |
| 14 | Would not like the added noise of dog barking next to children's play area. Also concerned about people not following the bylaws letting their dogs off                                                                                                                                                                                                                                                               | 11/27/2024 12:43 PM |

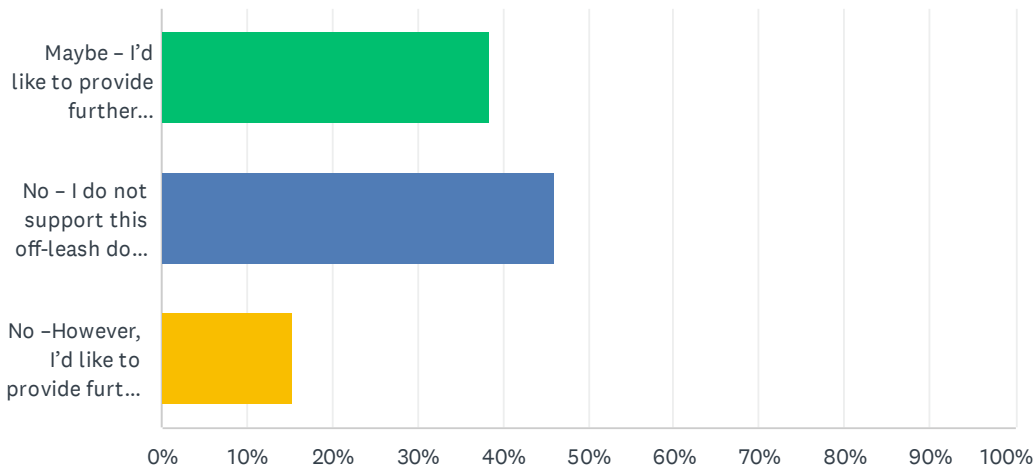

## Whyte Ridge Community Centre: Off-Leash Dog Area

the leash outside of the designated area which is so close to children's play area.

| 15 | More walking dog traffic down my street will result in more dog defecation and urination on my property.                                                                                                                           | 11/27/2024 11:24 AM |
| 16 | I don't see the need for an off leash park. I hear of too many bad incidences that have happened, primarily due to owners who do not look after their dogs.                                                                        | 11/20/2024 11:30 PM |
| 17 | I am concerned for the well-being of the multiple outdoor cats owned by residents of the houses nearest the proposed dog park as they keep the field mice populations from the adjacent undeveloped land from affecting our homes. | 11/18/2024 5:22 PM  |

| 2  | There should be a water source for dogs. This location is very remote and there's low indication the dog park would be vandalized.                                                                                                                                                                                                                                                                                                                                                                                                             | 12/8/2024 11:10 AM |

| 6  | it is concerning that there is no separate areas for small and big dogs. This could be achieved just with changes to the entrance to provide 2 entrances and a fence down the middle. it would be worth it in my opinion as it is dangerous to have large breed and small breed dogs together.                                                                                                                                                                                                                                                 | 12/4/2024 8:49 PM  |

| 8  | I just believe it's critical to have small and large sections even if it makes both areas smaller. The space would be used 4 x as much if this is the case, so it should be a number one priority of all dog parks or it will be an underutilised investment.                                                                                                                                                                                                                                                                                  | 12/4/2024 4:51 PM  |

| 11 | Maybe some signage about reactive dogs. it is a small area so this shouldn't be an area for dogs that aren't friendly. There are other off leash dog parks with a WAY bigger space (like maple grove or kings park - even though if you have a reactive aggressive dog you shouldn't be taking them to places like this). I dont know how many trees are going to be there but I think the idea of having quite a lot of trees/bushes along the fence or by the benches would be really smart - especially in winter with the super cold wind. | 12/4/2024 1:53 PM  |

| 22 | We are excited by this plan. The only thing I might suggest is another double gated entrance on the other side as well. I suppose if a dog is being aggressive near one gate, people have the option of using the other one? Rare, but a possibility?                                                                                                                                                                                                                                                                                          | 12/3/2024 8:08 PM  |

| 27 | As I mentioned, half an acre for a dog park is too small. Especially with mixed sized breeds. Whoever designed this park is obviously a Community Planner and not in the veterinary field.                                                                                                                                                                                                                                                                                                              | 12/3/2024 3:42 PM  |
| 28 | A small dog area would be ideal! I have had close calls with large dogs nearly injuring my little ones :( Safety for our little dogs would be light years ahead of the other off leash dog parks- especially for my senior neighbours who all have small dogs!!                                                                                                                                                                                                                                         | 12/3/2024 3:37 PM  |

| 38 | Yes, a fence down the middle separating sides for SMALL dog use only and large dog use. Need I remind you the DEATH of a small dog recently at BonnyCastle dog park! All city dog parks moving forward MUST have designated small dog use only areas! Dog parks are dangerous enough alone without them!                                                                                                                                                                                                | 12/3/2024 1:25 PM  |

| 41 | As far as I can tell this is perfect for a dog park area. Doesn't take up too much space. Parking already in place. I'm excited as I live close and have been using the hockey rink dog park whenever it was open and not flooded. Only concern would be the residential street access to the parking lot, would increase traffic in that street so maybe some signage to drive slow would be appreciated by those residents. I do not live on that street but understand how the residents would feel. | 12/3/2024 12:29 PM |

| 59 | Since I do have a smaller 25 pound dog I would not use the area if not separated from large dogs. We dog has already been attacked by a large breed dog.                                                                                         | 12/2/2024 7:06 AM   |

| 62 | A separate area for large and small breeds, access to water and enforcement officers are all things that should be required.                                                                                                                     | 12/1/2024 9:25 AM   |

| 71 | This off lease park is way too small, if a larger area was developed I would consider using it. Also I don't think users know how small it really is. The example you used should have been a comparison with the rinks by the community centre. | 11/29/2024 6:49 PM  |

| 84 | Yes there should be a sectioned off small dog area to prevent dog fights or harm to small dogs from large dogs. I have a small dog and would be weary to use it if the whole area is for mixed sizes.                                            | 11/28/2024 9:34 AM  |

| 88  | The fence should be taller than 4 feet. That's not enough to keep in large active/athletic dogs if something is interesting on the otherside. Easily able to jump over.                                                                                                                                         | 11/28/2024 3:10 AM  |

| 98  | Lots of people in the area have larger dogs. It would be great if the space could be expanded all the way towards the east to the tracks. This would make it closer to the size of tuxedo and would give big dogs a nice sized run. Also, a larger area will preserve the grass a bit better than a small area. | 11/27/2024 1:14 PM  |

| 142 | I'm mostly worried that off leash dogs will continue to approach us (as people will bring them to the area close to the playground unleashed) but this already happens anyway near the playground.                                                                                                                                                                                                           | 11/20/2024 10:47 AM |

| 144 | No. We should ensure there are no muddy or ponding areas in the off leash area                                                                                                                                                                                                                                                                                                                               | 11/20/2024 8:24 AM  |
| 145 | We need additional street lighting because the area is very dark in winter months. This will also prevent the adjacent parking lot to be use for illegal activities.                                                                                                                                                                                                                                         | 11/19/2024 10:27 PM |

| 151 | Will there be lighting for evening or early morning walks. The parking lot near there has no lighting and cars are always there at night with people drinking etc. They leave garbage and empty liquor bottles, butts etc Never feel safe walking through the park anymore so unless there some additional lighting or chaining off the parking lot at night then not sure how much I would actually use it! | 11/19/2024 1:48 PM  |

| 153 | Consider proximity to the children's park and safety. Owners will inevitably allow their dogs to leave the park off leash. Additional trees or fence to separate the areas could be a good measure to reduce the chance of a conflict. | 11/18/2024 9:41 PM  |
| 154 | No!                                                                                                                                                                                                                                    | 11/18/2024 5:10 PM  |

| 157 | Yes, there are spotlights that directly shines at our eyes from the property at 2430 McGillivray blvd. It will be hard to keep an eye on the dogs because of those lights.                                                             | 11/18/2024 4:26 PM  |

| 3  | As a small dog owner, I would like to have separate spaces for small and large dogs                                                                                                                                                                                                                                                                                                                                  | 12/7/2024 4:18 PM  |

| 5  | Access to city water for dogs for summer months.                                                                                                                                                                                                                                                                                                                                                                     | 12/6/2024 7:43 AM  |
| 6  | a community posting board would be nice and maybe a built in bin for items found at the park (lost and found) like dog tags, booties etc.                                                                                                                                                                                                                                                                            | 12/4/2024 8:49 PM  |
| 7  | Need more space to accommodate larger dogs. The area south of Whyteridge, along the drainage ditch & power lines, would be much better to accommodate all size dogs. I think you need at least 2-3 acres for an adequate off leash dog park. The proposed park at the Whyteridge Community Club is, in my opinion, a waste of money.                                                                                 | 12/4/2024 7:46 PM  |
| 8  | As above, separated areas. But if you can't do this here can you PLEASE separate the insanely massive dog park across from the humane society. How is that not separated when it's so massive??? I've spoken to so many people that want to use it but won't because it's not got a small/medium dog area. Plus it needs trees desperately. Thanks                                                                   | 12/4/2024 4:51 PM  |
| 9  | See above —separate area for small dogs. OR separate times of day for small dogs and large dogs eg small 7am to 8 am large 8 am to 9 am ; all sizes 9 am to noon; small noon to 1 pm etc                                                                                                                                                                                                                             | 12/4/2024 4:42 PM  |
| 10 | A water fountain for the dogs would be preferable.                                                                                                                                                                                                                                                                                                                                                                   | 12/4/2024 4:10 PM  |
| 11 | A notice board and/or place to specifically hang lost and found items would be a good addition. Doesn't need to be much.                                                                                                                                                                                                                                                                                             | 12/4/2024 2:14 PM  |
| 12 | I know it is a small area and there's only so much funding but a clean/safe drinking system provided would be amazing! I don't know any dog park that has that and my dog has contracted many illnesses from dog parks water bowls (for obvious reasons- i try to bring my own waterbottle with a bowl for him). I understand if it isn't possible but i know it would definitely make this area a lot more popular. | 12/4/2024 1:53 PM  |
| 13 | It needs to be have segregated areas for small and large breed dogs. Confrontations can erupt between small breed dog owners that have irrational fears regarding large / giant breed dogs.                                                                                                                                                                                                                          | 12/4/2024 11:52 AM |

| 16 | A designated space for water dishes to be arranged. These could be provided by volunteers along with the water.                                                                                                                                                                                                                                                                                                      | 12/3/2024 11:10 PM |
| 17 | Thats all good, I am satisfied as long as having a off leash area.                                                                                                                                                                                                                                                                                                                                                   | 12/3/2024 10:43 PM |
| 18 | As above.....benches to sit and enjoy the dogs and people.                                                                                                                                                                                                                                                                                                                                                           | 12/3/2024 10:28 PM |

| 20 | The size of the space is also a safety issue. It's a very small park to be off leash.                                                                                                                                                                                                                                                                                                                                | 12/3/2024 9:40 PM  |
| 21 | No, this looks great.                                                                                                                                                                                                                                                                                                                                                                                                | 12/3/2024 9:18 PM  |

| 23 | People like to leave bowls of water for dogs when seasonally appropriate. Perhaps a small cement pad to leave the bowls on? Either by a bench or by the gate? I'm just thinking of things I've seen at other dog parks.                                                                                                                                                                                                                                              | 12/3/2024 8:08 PM  |
| 24 | For a 0.2-hectare dog park, I think trees and pathways can be great addition for use of space. Trees can frame pathways to guide movement and create the illusion of a larger area. Curved paths can add depth and encourage people to walk around, breaking the space into smaller + more engaging sections. And lights! It gets dark after 5. I know many dog owners like myself are only able to walk their dogs after work hours. Lights can make it feel safer. | 12/3/2024 6:34 PM  |
| 25 | Just a fence between large and small dogs                                                                                                                                                                                                                                                                                                                                                                                                                            | 12/3/2024 6:24 PM  |
| 26 | Some place where dogs can rest if they get tired                                                                                                                                                                                                                                                                                                                                                                                                                     | 12/3/2024 4:22 PM  |
| 27 | ensure it's fully fenced all the way around including a foot or 2 below ground level so dogs/rabbits cannot get under. Double gated entry way.                                                                                                                                                                                                                                                                                                                       | 12/3/2024 4:11 PM  |
| 28 | The design itself is lovely, but not for the location. As I mentioned, it would be good for downtown or an apartment complex that lacks green space (for small dogs only). I am all for dog parks, I visit Little Mountain Park with my dogs every day because there is room to feel safe. Unfortunately, I don't think this is a good idea and someone (human or dog) will get seriously hurt.                                                                      | 12/3/2024 3:42 PM  |
| 29 | An area for small dogs earn the entrance to the park would send the right message to about universal and accessibility for Winnipeg citizens with dogs. As this would also indicate that Safety is top of mind of the City :) Thank you for considering safety of small dogs :)                                                                                                                                                                                      | 12/3/2024 3:37 PM  |

| 39 | Fencing around the play area, to protect children at play from irresponsible dog owners who allow their dogs to be off leash between the parking and the dog park. Sadly there's always a few who insist "Oh my dog dosen't bite" who don't leash their dogs.                                                                                                                                                                                                        | 12/3/2024 1:18 PM  |

| 54 | Separate section for small and large dogs or keep for small only. Mixing them in a small space is not a good idea. Water available would be beneficial especially for summer.                                                                       | 12/2/2024 10:17 PM  |

| 62 | We need a large, real, full-sized dog park. There is plenty of greenspace with Don Smith Park, Scurfield Park and Leon Bell Park in the area. Can we have a legitimate dog park and not just a tiny morsel?                                         | 12/1/2024 7:27 AM   |

| 75 | I know it says due to limited budget certain things were omitted but I do still believe way more trees need to be planted and a water source like a fountain would be lovely for humans and dogs alike. Or a water filling station with just a tap. | 11/29/2024 9:01 AM  |

| 107 | I would love it if there would be a designated section for small dogs. I have a poodle and I've had bad experiences at dog parks so that would be helpful. Nevertheless, I am thrilled about the idea of a dog park in Whyte Ridge.  | 11/27/2024 10:24 AM |

| 110 | Waste bag dispensers & a community message board would be nice. Maybe work with the Community Centre to allow us to fundraise the entire cost (and then the only cost to the CoW is just to be responsible to fast-track approvals). | 11/27/2024 9:27 AM  |

| 112 | Separate areas for small dogs and large dogs are needed. It doesn't make sense that dog daycares are mandated to have them, yet the city-owned sites are not.                                                                        | 11/25/2024 5:12 PM  |

| 122 | Although I'm always careful to remember to bring dog waste bags with me, other dog owners might assume there will be bags provided on-site. I understand the limited funding available, but perhaps you could ask frequent users to donate waste bags and a dispenser to ensure timely clean-up of waste at all times?                                                                                                                                                                                                                                                                                                                                                                 | 11/21/2024 1:19 PM  |

| 144 | extra space, a "dream come true" for many Whyter residence, but it's disappointingly small. This park is such a big addition to the neighborhood! I am sure it could fill the fields that are most of the time empty with families and dogs, people walking in the evenings. We meet Whyte ridge people at the other parks all the time. so more space! it's just too small and missing the full purpose really that is quality time and activity time for all people and dogs. But still very appreciated and long time overdue. I would want to see shading of some kind in the seating area so people can enjoy it in the middle of day on sunny days and not wait for the evenings | 11/20/2024 11:22 AM |

| 146 | Appreciated that there are limited funds, however, it may have been more efficient to push the existing north soccer field further south to line up with the south soccer field, and then use that additional space at the north-end to create a much more reasonable sized off leash area.                                                                              | 11/20/2024 10:25 AM |

| 156 | In addition to maintaining existing trees, some larger more mature trees should be planted in groupings to provide shade and improve aesthetics. Waste Disposal and Recycling Options. The nearby parking lot needs more waste containers anyways. Ensure budget for ongoing maintenance and care. Will the grass survive or will a dog park this size become a mud pit? | 11/18/2024 9:41 PM  |

| 160 | Lights. I live across from this proposed area and there is a lot of activity at night of cars and probable drug use.                                                                                                                                                                                                                                                     | 11/18/2024 3:41 PM  |

| 1  | Looking forward to a fully fenced in area! I could not use the previous off leash area (the hockey rinks) during summer as my dog could get out from under the gates. We have lots of dogs in Whyte Ridge that love to play together so I'm excited to have a safe location for them to play!                                                                                                                                                                                                                                                                                                                                                               | 12/8/2024 9:32 PM  |
| 2  | Only that I support any project that adds dog park capacity - it is lacking in the city.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | 12/7/2024 4:19 PM  |
| 3  | I am not in support of off leash dogs in the neighbourhood, especially where children play. My wife was bitten by a dog this summer through no fault of her own. Dogs should be on a leash or in the country.                                                                                                                                                                                                                                                                                                                                                                                                                                               | 12/7/2024 12:19 AM |

| 5  | Dogs crave water when running. When planning new parks, please consider providing a seasonal water tap that dog owners can use to hydrate dogs in summer months. Stations like the water tap/fountains located around the Leaf at Assiniboine Park would be perfect.                                                                                                                                                                                                                                                                                                                                                                                        | 12/6/2024 7:46 AM  |

| 8  | Well except to add that Winnipeg needs to change its city bylaws in cafes so we can take ONLY well behaved dogs in for a coffee. People would walk soooo much more if they could walk to a cafe, have a drink and walk home. And would drive huge business for cafe owners. This bylaw is very very outdated if you look at other cities. There is more danger with rodents and bacteria in the kitchen than dogs in the seating area. And owners should always have discretion for people to be asked to leave with poo behaved dogs. The public will always help you manage this I know bc the UK where I lived for 23 years manages it just beautifully. | 12/4/2024 4:53 PM  |
| 9  | Thanks for doing this. Should there be a bag dispenser for picking up stools?                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | 12/4/2024 4:44 PM  |

| 11 | I think this is an amazing idea! We have so many fields that aren't being used and when they finally do get used, it's for apartments. Bridgwater has a ton of large fields! And we already have so much housing/apartments! it would be amazing if something like this was put there!! thank you!                                                                                                                                                                                                                                                                                                                                                          | 12/4/2024 1:55 PM  |

| 15 | There is no need for an off leash dog park. People walk their dogs in the field and generally clean up after them. I have seen off leash parks and the people don't clean up after their dogs. There is lots of open area close by for people to walk their dogs off leash. They don't need to do it in an area with houses nearby. There is a lot of space off Brady road that people take their dogs who want them off leash.                                                                                                                                                                                                                             | 12/4/2024 9:36 AM  |

| 24 | I am a dog owner living in Prairie Pointe and have been visiting the Maple Grove Dog Park for the past four years, often traveling via the Perimeter Highway. While I enjoy the park, I was wondering if there are any plans to develop a similar dog park closer to the Bridgewater area? The south end neighborhoods; including Bridgewater, Prairie Pointe, South Pointe, and now Bison Drive are growing rapidly all together. Based on my observations, many residents here are dog owners. A local dog park would not only be a valuable asset for pet owners but also enhance the sense of community. The area's design already encourages walking over driving, with sidewalks along Kenaston Boulevard and pedestrian-friendly spaces near North Town Centre. A nearby dog park would align perfectly with this vision, providing an accessible place for residents to connect and enjoy outdoors I hope this idea is something the city could consider as part of future development plans for the area. | 12/3/2024 6:44 PM  |
| 25 | So grateful for this plan                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 12/3/2024 6:25 PM  |
| 26 | As stated, the area is ludicrously small for an off leash area. And locating the trash bin outside its fence guarantees there will be a lot of dog poop left behind. Stupid idea.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | 12/3/2024 5:16 PM  |
| 27 | Off leash dog park would add unwanted traffic to the area                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 12/3/2024 4:49 PM  |

| 36 | If this is the city's regular size for proposed off leash parks, you could add a lot more throughout the city.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | 12/3/2024 2:24 PM  |

| 44 | Until the City of Winnipeg takes responsible pet ownership seriously, all expenditures on dog facilities should be frozen. The current responsible pet ownership by-law as it stands is little more than a list of disregarded and poorly enforced suggestions. It is an affront to safe communities. The City's streets and railways are providing the off leash facilities for free, and no one will act to ensure responsible pet ownership, so there is no reason for the City of Winnipeg to make these expenditures.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | 12/3/2024 1:11 PM  |
| 45 | The city should consider enhancement to existing large dog areas to allow for safer access                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | 12/3/2024 12:58 PM |

## Whyte Ridge Community Centre: Off-Leash Dog Area

| 46 | Just how excited I am to have this in my neighbourhood! Walks are great but my dog loves to run and this will make that possible without having to hop in the car and go for a long drive. So excited!                                                                                     | 12/3/2024 12:30 PM  |
| 47 | Can't wait for this to open!                                                                                                                                                                                                                                                               | 12/3/2024 12:14 PM  |
| 48 | looks wonderful---the city needs more of these!! Thank you.                                                                                                                                                                                                                                | 12/3/2024 11:25 AM  |
| 49 | If possible I love to have play structure for my small dog...like for jumping structure for dogs or a ladder that they can go to or balance beam....it will be so cool to have in a public dog park. :)                                                                                    | 12/3/2024 11:16 AM  |

| 57 | I do not support this. So not build any dog parks ever in white ridge. There are too many inconsiderate dogs owners in this area who will abuse the area and it will just bring more dangerous dogs and careless owners to a beautiful open field and play structure that my children use. | 12/2/2024 6:28 PM   |
| 58 | Clean dog beach or water park would be fantastic.                                                                                                                                                                                                                                          | 12/2/2024 5:36 PM   |

| 61 | I don't think we need an off lease dog park near a community centre where kids are playing                                                                                                                                                                                                 | 12/1/2024 5:27 PM   |

| 67 | Not that I can think of. Benches will be important but you have several shown on the design.                                                                                                                                                                                               | 11/30/2024 8:00 AM  |

| 80 | Thank you so much for your consideration! The back space of the community center is not                                                                                                                                                                                                    | 11/28/2024 2:34 PM  |

## Whyte Ridge Community Centre: Off-Leash Dog Area

used very often, except for mini soccer back in the day so a dog park would certainly be used and bring more community members together, in my opinion.

| 81  | This fenced in area would be greatly appreciated. There are so many people with dogs that can't drive far on the winter roads to a big dog park so even just a small fenced in area close by would be great!!! Would also love something like this in Bridgewater Trails...who would I contact for this?                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 11/28/2024 2:21 PM  |

| 83  | It should be strongly advised to separate a small dog/large dog area to prevent dog attacks, death and harm to humans breaking up dog fights                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 11/28/2024 9:35 AM  |

| 88  | Dog owners can be very ignorant. My sister who works as a nurse had a lady come into the ER because she was pushed over by a dog in a dog park and the owner did not help her up. She got so injured from that incident that she couldn't get up and was lying there until someone else came along to help her up and bring her to the hospital.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | 11/27/2024 8:52 PM  |
| 89  | This is very much needed in the area. Thank you so much for considering this! My dog can't wait!!                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | 11/27/2024 8:36 PM  |
| 90  | I really hope we are able to get this                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | 11/27/2024 7:21 PM  |
| 91  | Thanks for planning an off-leash park in Whyte Ridge. Greatly appreciated!                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | 11/27/2024 7:02 PM  |
| 92  | I use dog parks. I find them not only great for exercise and stimulating for the dogs but a great way to get exercise and meet new people for myself.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | 11/27/2024 6:40 PM  |
| 93  | No thanks                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | 11/27/2024 6:28 PM  |
| 94  | No, excited for my dog! :)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | 11/27/2024 5:26 PM  |
| 95  | nothing to add- great idea and I'm in full support! :)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | 11/27/2024 3:56 PM  |
| 96  | I don't have a dog but think this is a wonderful addition the the neighborhood and believe that there should a be a safe place to take pets nearby                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | 11/27/2024 3:55 PM  |
| 97  | Thank you for planning this!                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 11/27/2024 1:14 PM  |
| 98  | I realize funding was of major importance and this looks like a wonderful addition to the neighborhood. I have a border collie who loves to run so we will use it to meet and play with other dogs but will continue to travel to Charleswood dog park so she has room to run.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | 11/27/2024 1:14 PM  |
| 99  | Off leash dog parks are never in a residential neighbourhood where people live. This is irresponsible and not necessary. There are plenty of places for people to walk their dogs around here. As it stands in the spring you can often smell dog feces that people haven't picked up all winter. I walk by there regularly to goto Fort Whyte and do not want to be scared or nervous that a dog owner isn't paying attention and their dog runs up to me. In fact I've had this happen a couple of times in the neighbourhood already and very recently right after I had a serious surgery. This is unsafe for the children who will also be playing nearby. I also live quite close to this area and don't want to smell dog feces or hear a large amount of barking. Honestly I can't even believe it's being proposed in a residential neighbourhood. I also know both dogs and dog owners that have been injured in these off leash parks. Please be sensible. | 11/27/2024 1:12 PM  |
| 100 | People already are using much of the community green space fields for running their dogs off leash and it has been concerning for neighbors with small kids and with fears of large dogs etc. The last thing we need is to encourage more off leash dogs. There should be a bylaw officer coming around to ticket dog owners.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | 11/27/2024 12:44 PM |
| 101 | Using Brady Road for dogs would be a better option.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 11/27/2024 11:30 AM |

| 104 | I walk a lot in Whyte Ridge and some people don't have their dogs on leashes. I have severe allergies and am fearful of some dogs. This will provide them with a place to go off leash that I can easily avoid.                                                                                                                                                                                                                                   | 11/27/2024 10:08 AM |
| 105 | Great idea. We really need off- leash area . Thanks.                                                                                                                                                                                                                                                                                                                                                                                              | 11/27/2024 10:02 AM |
| 106 | Do you consider moving to a different location closer to the elementary school?                                                                                                                                                                                                                                                                                                                                                                   | 11/27/2024 9:58 AM  |
| 107 | I like it. Just be aware there are coyotes reported daily on the community facebook group in that exact area.                                                                                                                                                                                                                                                                                                                                     | 11/27/2024 9:28 AM  |
| 108 | This is a welcome addition and would be used by many community members. I hope it is built soon.                                                                                                                                                                                                                                                                                                                                                  | 11/26/2024 8:13 PM  |
| 109 | The city actively excludes small dog owners from using off-leash dog parks by not providing safe spaces for small dogs.                                                                                                                                                                                                                                                                                                                           | 11/25/2024 5:13 PM  |
| 110 | don't take too long to add more dog parks, other cities are more attractive due to dog friendly environment                                                                                                                                                                                                                                                                                                                                       | 11/25/2024 11:52 AM |
| 111 | When's the last time the city took a real look at wealth inequality in different wards and tried to apply a correction to the amount of new capital projects being proposed for rich areas vs poor areas?                                                                                                                                                                                                                                         | 11/24/2024 2:38 PM  |
| 112 | Having an area for small dogs would be nice for people with small dogs. Many owners with big dogs do not control them and the little dogs suffer because the big ones can be aggressive. They are running way ahead of the owners and some owners can not control them. I have stopped taking my dog to the dog parks because of this. If there was a small dog park I would go there.                                                            | 11/23/2024 10:12 AM |

| 122 | This DP will get large use. Dogs need to run. Half the size of a baseball diamond seems way too small.                                                                                                                                                                                                                                                                                                                                            | 11/21/2024 12:56 PM |
| 123 | Just that this "deserve" mentality keeps Winnipeg spiralling in deficit. Please, grow up and stop promising amenities we cannot afford to build, much less to maintain.                                                                                                                                                                                                                                                                           | 11/21/2024 12:25 PM |

| 125 | Please consider that not all dogs are friendly, and not all people prioritize dogs over people. Consider have the off leash area fenced in, moved to an area away from where people spend time (ie not near a busy playground, walking path, etc), and if implemented ensure there is strong enforcement to monitor the area. Dogs all too often end up running rampant with no regards for people in the vicinity, this is incredibly dangerous. | 11/21/2024 11:36 AM |
| 126 | I lived in Calgary, every neighbourhood had a designated off leash area within walking distance. Lots were just certain areas with signage indicating an off leash area. Nothing fancy. If you want people to keep their dogs on leash you have to provide them with spaces to let dogs run. The result is that people use all areas as off leash parks.                                                                                          | 11/21/2024 11:23 AM |

| 131 | Excited for a new dog park!                                                                                                                                                                                                                                                                                                                           | 11/21/2024 9:40 AM  |

| 139 | I would never take my dog to an off leash park. Not safe for dogs, especially small dogs. I don't believe, in the long term, that the City will provide proper resources to keep the park safe and clean.                                                                                                                                             | 11/20/2024 11:32 PM |

| 141 | I hope people are respectful and clean up waste as our property backs on to this area, separated by trees. Our neighbourhood has so much dog poo everywhere. But the more people who are using the community centre, the better.                                                                                                                      | 11/20/2024 10:49 AM |
| 142 | This overall is good for the community, however it would have been better to have a larger area provided. This will not be significantly different in size to the existing rink off leash area, which does not see much use.                                                                                                                          | 11/20/2024 10:26 AM |

| 144 | It would be beneficial to connect Canada trails that goes through the Whyte Ridge community centre with the walking area south of Whyte Ridge that is also used by dog owners.                                                                                                                                                                        | 11/19/2024 10:29 PM |
| 145 | I think there should be a light standard installed near the parking lot to illuminate the parking lot, playground and dog park area to allow longer periods of use during the darker times of the year and to reduce late-night loitering in the parking lot.                                                                                         | 11/19/2024 6:31 PM  |

| 149 | I love the idea but again the parking lot near is not safe - even when I take my grandkids to the park there - I always have to check to make sure there is no harmful elements around.                                                                                                                                                               | 11/19/2024 1:50 PM  |

| 151 | Every community should have a similar dog park so adjacent community residents are not travelling and overcrowding. Is everyone with a dog from Linden Woods and Bridgwater now going to drive to Whyte Ridge to this dog park?                                                                                                                       | 11/18/2024 9:44 PM  |
| 152 | There's enough noise from the added traffic from mcgillivray becoming more developed and the nearby railway, I do not want dogs off leash directly behind my house. I am concerned about the noise as well as safety concerns for myself as well as local outdoor animals that actually serve a much needed purpose in our old neighborhood.          | 11/18/2024 5:27 PM  |

| 154 | I live at [REDACTED] and often see the area in front of my house being used for pet owners to allow their dogs to run loose. I believe this off leash park is a great idea making it safe for those with out a Dog and for dogs to have a safe place to run. I would use this park for my grand-puppy [REDACTED] and am excited for this new addition | 11/18/2024 4:59 PM  |
